same. The other property, he stated, is a 1,600- acre tract located immediately east of Sandy River and is owned by Mr. and Mrs. Paul Martin of Reno, Nevada. This property, he said, has been cleared of brush and trees and much of it floods during the high water period in June and July. He further stated that the Martins also own an area of hilly land on the south side of the railroad which is of small value. As he could see very little use for the area from a park standpoint, he recommended that it be not acquired although it was his thought that the area south of the railroad should be preserved by someone--probably the Columbia Gorge Group, recently appointed by Governor Patterson. The Commission approved the recommendations.

2. Amounts charged for the use of swimming facilities and the installation of a fence at Lake Cleawox in Honeyman State Park: The Parks Superintendent reported that since the prices for use of swimming facilities had been increased and the fence constructed, he has received numerous complaints and petitions objecting to the increase and the fence. He pointed out that the charges to the public in this park, as well as other state parks, is based upon the cost of the personal services furnished and does not cover the cost of the equipment provided. It was his thought that this policy should be maintained, but a review might be made later of the amounts charged in Honeyman Park. It was his feeling that the swimming facilities should not be opened to the public without supervision due to the responsibility attached. Chairman Chandler reported a conference with a delegation from Florence who objected to the charge for small children, the construction of the fence and the 5:00 p. m. closing hour. He informed them, he stated, that no changes could be made during this season but the whole matter would be reviewed for possible revision for the next year. Commissioner McIver expressed the thought that the Commission should either make a charge for the service furnished in connection with the swimming facilities or do away with them entirely, including the fence, the float and other equipment, and allow the public to swim without charge and at their own risk and on their own responsibility. He pointed out that similar swimming facilities are not furnished in other state parks or lakes, including Wallowa Lake Park and he gave as his feeling that all places should be treated alike. Commissioner Reynolds indicated concurrence with Commissioner McIver's statement. As a result of further discussion, the Commission unanimously adopted the suggestion of Chairman Chandler that no change in the set-up be made this year, but that an analysis of this year's operations be made during the winter season to determine future policy. The Parks Superintendent was instructed to advise those interested of the action taken

3. Request of the City of Sodaville for the use of the upper floor of the park building at Sodaville: The Parks Superintendent reported that the Sodaville City Council had requested permission to use the upper floor of the building for community and other public gatherings. They have agreed, he stated, to assume the maintenance and care of the inside of the structure. As the building has been reinforced for strength and the requirements of the State Fire Marshall have been met, he recommended that a permit be given to the City of Sodaville to use the building without charge. The Commission approved the recommendation.

4. Proposed moving of McClaren School for Boys Work Camp from Cape Lookout Park to Ecola State Park: The Parks Superintendent explained that during the past two years a group of boys from the McClaren School have been cleaning up brush, making tables, stoves and benches, planting grass, working on trails and other development work in Cape Lookout Park. This work is about finished, and he requested permission to transfer the boys' activities to Tillamook Head, a part of Ecola State Park, where they would perform similar work. All work in connection with the camp and care of the boys, he added, is handled by the Boys School and the State furnishes only a place for them to work and supervision during work hours. The Commission approved the request.

5. Suggestions offered by J. Neilson Barry concerning display and preservation of historical objects in Champoeg State Park: The Parks Superintendent reported that a number of the historical items mentioned by Mr. Barry are now on display, and it is planned to display more of them as soon as possible. Mr. Barry, he stated, also mentioned the matter of excavations for historical objects, but he said as far as he knows there is no work planned in this connection, but if there should be, every effort would be made to preserve any worthwhile findings.

6. Proposed development of a state park at Ochoco Reservoir East of Prineville: The Parks Superintendent reported that as previously requested by the Commission, he had made an inspection of the proposed park site. The area, he stated, joins the Ochoco Highway and is a beautifully located timbered area which can be readily used by the public. He estimated the total cost of necessary park facilities at $14,500 plus $9,500 for the land which belongs to Robert W. and Frances C. Lakin. The Isaac Walton League, he added, has secured an option from the owners. He pointed out that for most of the year use of the park would be mostly local, and it seemed to him that the area should be developed and maintained by the community or the county. After some further discussion the Commission unanimously deferred action on this matter.

7. Attendance of the Parks Superintendent at the annual meeting on conference of State Parks in Georgia on October 12 to 17: The Parks Superintendent stated that a great many park administrators and others who are interested in parks gather to discuss their problems. He felt that it would be of value to the Parks Department if he attended. The cost he estimated at $335.00 and requested permission to attend. The Commission approved his request.

8. Chairman Chandler stated that a member of the Daughters of the American Revolution had requested the State Highway Department to provide electric power to their new building in Champoeg Park as they have no funds for this feature. The Parks Superintendent explained that the electric cable furnishing power for park facilities is too small to allow power for the DAR building, and it will be necessary to install a new supply line. The cost of this supply line, using poles, he estimated at $650.00; however, he asked the Commission to delay a decision in this matter as he wished to talk with the DAR to see if they would take over

and maintain the museum display now maintained in the state parks building. If they do agree to take over this display, he stated that he would recommend that the power line be installed for them on poles at state expense. (On the following day the Parks Superintendent reported that he had talked to Mrs. John Y. Richardson and Mrs. Allan E. McClean and that these representatives of the DAR had agreed to accept the museum articles for display under terms to be stipulated by the State. He recommended that the power pole line be installed to their building at an estimated cost of $650.00. The Commission approved the installation.)

The Right of Way Engineer presented for consideration options secured for acquisition of property needed for various state highway improvements and other purposes. As a result of careful consideration, the Commission approved closing of the options at the prices mentioned therein by adopting the attached resolution relative thereto marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Right of Way Engineer requested authority to negotiate acquisition of property needed as right of way for the following sections of highways for which no previous authority had been granted:

1. Widening and improving the Grants Pass-Murphy Section of the Williams Secondary Highway in Josephine County.

2. Widening and improving from Prairie Junction Road to 6th and 7th Streets in Eugene on the Pacific Highway in Lane County.

The Commission approved the request unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT " B ", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission confirmed the sale of miscellaneous properties as reported by the Right of Way Engineer. (For list of properties sold, see copy of report prepared by C. W. Parker, Property Manager, dated August 6 and 7, 1953, on file in the Secretary's office under the heading "Miscellaneous Sales".)

Consideration was given by the Commission to deeding to the O. W. R. & N. Company a strip of land containing 0.64 acre on the Arlington-Heppner Junction Section of the Columbia River Highway immediately east of Arlington in Gilliam County. The Right of Way Engineer explained that the property is not needed by the State, but is needed by the Railroad Company in the revision of its Condon Branch line. The consideration, he stated, is the same amount as was paid by the State for the property. He recommended that it be deeded to the Railroad Company. The Commission accepted the recommendation. (The deed was signed by the Commission on the following day.)

The Right of Way Engineer presented the following proposed changes

in access points:

a. Hansen property on the Bay Park-Delmar Section of the Oregon Coast Highway in Coos County, File 15207.

b. Hinsdale property on the Reedsport-Luder Creek Section of the Umpqua Highway in Douglas County, File 15092.

c. Shuttpelz property on the Reedsport-Coos County Line Section of the Oregon Coast Highway in Coos County. File 17745.

He stated that all of these access points involve change in location only, and there is no change in type or amount of access granted. He recommended and the Commission approved the changes as presented. (Indentures of Access were signed by the Commission on the following day.)

The Right of Way Engineer recommended and the Commission approved leasing to Julius and Viola Swanson the westerly 30 feet of Lot 5, Block 32, Coos Bay Plat B, on the North Bend-Coos Bay Section of the Oregon Coast Highway in Coos County. The Right of Way Engineer explained that this property is not needed at this time for highway purposes. The lease period is to run from the 1st day of July, 1953, to and including the 30th day of June, 1957, a period of 4 years with a consideration of $100 payable in 4 installments of $25 each. The lease, he added, also contains a 6 months cancellation clause. (The Commission signed the lease on the following day.)

The Right of Way Engineer also presented for the Commission's consideration the sale of two small parcels of property adjacent to East Portland-Oregon City Highway (US99E) at 17thand Schiler-Union Avenue) in Portland, to George Walker, et al. These parcels, he stated, are isolated tracts containing about 820 square feet and no access is allowed to the 17th Street-Union Ave. section of the Pacific Highway East. The property, he added, is not needed for highway purposes and he recommended that it be sold to Mr. Walker for $250. The Commission approved the recommendation. (The deed was signed by the Commission on the following day.)

Acquisition from the Union Oil Company of a release of oil rights on property located along the Oakland Junction-Deady Unit of Chenoweth Park-Deady Section of the Pacific Highway in Douglas County, was also considered by the Commission. The Right of Way Engineer explained that no consideration is involved as the acquisition is being secured to clear title to the property. He recommended and the Commission approved the acquisition of the oil rights. (On the following day the Commission signed the 3 "limited quitclaim deeds of surface rights".)

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties needed as right of way in connection with various highway improvements or for other purposes, and to tender offers for the same in conformity with instruction given him by the Commission in its resolution adopted December 20, 1951:

Hauser-North Bend Section of the Oregon Coast Highway

L 1857-Tidelands Development Company, et al.
New resolution required-change of description

L 1868-Florence Jewett, et al.
New resolution required-change of description

The Commission approved the request by adopting the attached resolutions relative thereto marked EXHIBIT " P-1 " through "P-18 "inclusive, which resolutions by this reference are made a part hereof with like effect as though extended in full herein. *The amounts of the offers will be determined later and are to be approved by the Commission over the telephone before being tendered to the property owners.

August 6, 1953

The Commission considered and approved the Chief Counsel's report on court cases which have been tried since the June meeting of the Highway Commission as follows:

(1) State v. L. C. Taylor, et ux, L-1926 for acquisition of 0.18 acre of land on the Medford-County Farm Section of the Pacific Highway and relocation of an irrigation ditch and control of access from the owners' remaining land to the Pacific Highway. The State offered $4,500 for this property whereas the owners demanded $7,500 and later filed alleged damages in the amount of $9,150. The jury returned a verdict in the amount of $4,500. The defendants may appeal to the Supreme Court.

(2) State v. David E. McClurg, et al, L-1919, for acquisition of 0.15 acre of land on the Medford-County Farm Section of the Pacific Highway and for access control from the owners' remaining land to the highway. An offer of $1,700 was made for the property which the owners rejected, demanding that a portion of the factory be rebuilt to provide showrooms on the south side of the building and that the parking area be replaced. During the trial the defendants asked the sum of $13,941.80. The jury returned a verdict in the sum of $2,750.

(3) State v. Thomas A. Klarin, et ux, L-1954, for acquisition of 0.25 acre of land on the County Farm-Ashland Section of the Pacific Highway and for restriction of all access from the remaining land to the Pacific Highway except by means of a connecting road. The State offered to pay $8,200 for this property whereas the defendants demanded the sum of $15,000. The jury returned a verdict in the sum of $8,500. The defendants may appeal this case to the Supreme Court.

(4)State v. I. R. Lawrence, et ux, L-1818, for acquisition of 19.8 acres of land on the Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway for an easement for relocating the channel of Pass Creek, and for prohibition of access from the owners' remaining land except by frontage roads. The State offered $20,000 for the property which the defendants rejected and demanded the sum of $84,853 plus $3,750 for attorney fees. The jury returned a verdict in the sum of $25,000.

(5) State v. John M. Fleck, et al, L-1955, for the acquisition of 7.15 acres of land on the Winchester-Shady Point Section of the Pacific Highway and for acquisition of rights of access from the owners' remaining property to the highway. An offer in the amount of $4,500 was made for this property which the defendants rejected and demanded the sum of $6,000. During the course of the trial the defendants stated that they would accept the sum of $5,250 which was approved by the Court.

(6) State v. William A. Oerding, et ux, L-1961, for acquisition of 33.84 acres of land on the Winchester-Shady Point Section of the Pacific Highway for an easement for an approach road, and for prohibition of access from the owners' remaining land except by a frontage road. An offer was made by the State in the amount of $7,500 for this property which was rejected by the owners who demanded $40,000, later reduced to $15,388 plus $1,250 attorney's fees. The jury returned a verdict in the amount of $7,500.

(7) State v. E. M. Housley, et al, L-1963, for acquisition of 7.54 acres of land on the Elkhead Road-Rice Hill Section of the Pacific Highway and for prohibition of all access from the owners' remaining land to the highway with access limited to the Scotts Valley County Road. The State offered to pay $7,508 for this property, which offer was rejected by the owners who demanded the sum of $17,930 plus $1,200 attorney's fees. The jury returned a verdict in the amount of $10,000, thereby allowing $2,500 in excess of the State's offer, which allowance was primarily for drainage damage to orchard ground.

(8) State v. Walter Berndt, et al, L-1747, for the purpose of determining the persons to whom should be paid the sum of $16,731.91 held by the State in connection with State Highway Contract No. 3115. The Court issued a stipulation discharging the State of all liability upon payment to the Court of the funds held by the State. The money has been paid into the Court and the State dissolved of all liability in respect to this matter.

(For further details concerning the above court cases, see copy of the Chief Counsel's letter to the Commission, dated July 30, 1953, in the general files.)

The Commission also considered and approved the Chief Counsel's report on settlements of condemnation cases concerning which complaints have not been filed and which settlements have been made since the June meeting of the Commission:

(1) State v. C. E. Forsberg, et ux, L-2016, for acquisition of 0.8 acre of land on the Clatskanie-Delena Section of the Columbia River Highway and for control of access from the owers' remaining land to the highway. The owners were offered $180.00 for this property which they rejected. Subsequently they agreed to accept the sum of $225.00.

(2) State v. William Ruder, et ux, L-1904, for acquisition of 3 acres of land on the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway with one private access being allowed. The State offered to pay $300.00 for this property. Through correspondence with the attorney representing the Ruder estate, it was agreed to pay $300.00 for the property originally considered plus $150.00 for the balance of the Ruder property, consisting of 1.6 acres, thereby acquiring all of their land.

(3) State v. Gardiner Lumber Company, L-2004, for acquisition of land on the Elbow Lake-Gardiner Section of the Oregon Coast Highway and for control of access from the owners' remaining land to the highway. An offer was made for this property in the amount of $24,570 plus fencing and the re-establishment of a reservoir and water lines. Subsequently a settlement was effected on the basis of the original offer plus construction of a crushed rock driveway, installation of a water main, installation of an 18-inch conduit beneath the highway and granting of title to a single story dwelling with the grantor to remove the building from the right of way within 30 days.

(4) State v. Nate B. Cozey, et ux, L-2001, for acquisition of 0.126 acre of land for construction of an approach to the grade separation to cross the West Portland-Hubbard Highway at Bonita Road. The State offered to pay $3,220 for this property which the owners rejected. Subsequently an option was secured in the amount of $3,500.

(5) State v. Dorothy M. Johnstone, et vir, L-1986, for acquisition of 1.024 acres of land on the Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway and for restriction of access from the owners' remaining land to the highway. The State's offer to pay $7,000 for this property was rejected by the owners who demanded $40,000. Through further negotiations a settlement was effected whereby the State agrees to pay $7,500.

(6) Union Bond and Trust Company property, R-14612, for acquisition of 1.82 acres of land on the North Corvallis Section of the Pacific Highway West plus acquisition of 0.31 acre of property landlocked by reason of the taking and control of access to the highway. The State offered to pay $4,750 for this property which was rejected by the owner. By subsequent negotiations a settlement was effected whereby the State acquires all of their property being 3.27 acres, for the sum of $9,500. Appraisals on this entire taking were made in the amounts of $9,000 and $9,235.

(7) State v. Frankie L. Boye, et ux, L-1924, for specific performance of the option given by the defendants on 15.4 acres of land on the Hinsdale Slough-Luder Creek Section of the Umpqua Highway for the sum of $1,886. Subsequently construction plans were changed requiring the acquisition of different property. An option for the revised acquisition consisting of 18.52 acres and for the control of access for the sum of $3,800 has been secured and was accepted by the Commission June 25, 1953. The specific performance suit has been dismissed.

(8) State v. Frank T. Wilson, et al, L-2012, for acquisition of 1.85 acres of land on the Clatskanie-Delena Section of the Columbia River Highway and for access control from the owners' remaining land to the highway. The State offered to pay $2,250 for this property whereas the owners demanded the sum of $6,000 plus certain other obligations. As a result of further negotiations a settlement was effected and an option secured for the sum of $2,250 with the State to construct approaches to the reserved points of access and to place a 24-inch culvert beneath the highway.

(9) State v. C. R. Lawrence, et ux, L-1816, for the acquisition of 20.61 acres of land on the Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway and for an easement for the relocation of the channel of Pass Creek and for the prohibition of access from the owners' remaining land except by means of frontage roads. The State offered to pay $10,075 for this property. Later appraisals by the State showed the value of the land to be $7,785 plus $10,650 for depreciation in value of timber by reason of the severance of the skid road, making a total of $18,435. Further negotiations effected a compromise settlement in the sum of $13,500.

(10) State v. M. V. Collette, et al, L-2010, for acquisition of 4.5

acres of land on the Clatskanie-Delena Section of the Columbia River Highway and prohibition of all right of access from the owners' remaining land to the highway. The State offered to pay $2,300 for this property based upon an appraisal in the amount of $2,500. Subsequent to the filing of the complaint an option was secured in the sum of $2,800.

(11) State v. Leo R. Beard, et al, L-1951A, to recover the sum of $77.04 for damage to the Grande Ronde River Bridge near the city limits of Elgin. Through negotiations with the defendants' attorney, payment in the amount of $50.00 has been secured and the case dismissed. (The full claim was originally $107.04, $30.00 of which was collected prior to this action.)

(12) State v. Frances Agnew, et vir, L-2014, for the acquisition of 8.8 acres of land on the Clatskanie-Delena Section of the Columbia River Highway and control of access from the owners' remaining land to the highway. $3,000 was offered for this property and refused, but subsequent negotiations effected a settlement in the amount of $3,000 with some minor changes in the language of the deed, which changes do not affect the property interest being acquired by the State.

(13) Howard F. Thompson, R20262, for the acquisition of 225 square feet of land on the Clatskanie-Delena Section of the Columbia River Highway and for restriction of access from the owner's remaining property to the highway. The State offered to pay $300.00 for this property based on the appraisal of a state right of way agent. Independent appraisals made later indicated a value between $1,025 and $1,250. Subsequent negotiations resulted in acquiring the option for the sum of $540.00.

(14) Otis G. Whipple v. Roy Sellers, L-1826: This case consists of an action brought against Mr. Roy Sellers, an employee of the Maintenance Department, for the sum of $554.15 plus costs, which action arose out of the alleged neglect of Mr. Sellers in connection with the oiling of a portion of the Mt. Hood Highway between 164th Street and Jenne Road about two miles west of Gresham on April 30, 1951. The plaintiff alleged that the road had been left in a slick condition without adequate warning, and the plaintiff's car as a result had skidded off the pavement and struck a tree. The case subsequently had been brought to issue and the State has now received a motion for voluntary non-suit which the plaintiff has filed and upon which an order will be based dismissing this action.

(15) George A. Carlson, L-2011, for the acquisition of land on the Clatskanie-Delena Section of the Columbia River Highway. The State offered to pay $2,500 for this property and to allow two private accesses and one access for removal of timber, which offer was refused by the owner. Subsequent negotiations resulted in a settlement in the sum of $2,650.

(For details, concerning above listed settlements, see copy of Chief Counsel's report to the Highway Commission, dated August 4, 1953, in the general files.)

August 6, 1953

The Commission considered and confirmed offers reported by the Chief Counsel for acquisition of real property required for various highway purposes, which offers were tendered to the owners prior to the commencement of condemnation proceedings in conformity with authority granted him by the Commission in its resolution adopted December 20, 1951:

North Corvallis Section of the Pacific Highway West:

R-14612-Owner: Union Bond & Trust Company, et al. 1.82 acres for right of way and 0.31 acre for excess taking. Offer of $4,750.00 approved by Mr. Chandler on July 3, 1953.

Lapine-Willamette Highway Junction Section of The Dalles-California Highway:

R-17939-Owner: Clarence V. Parsons, et al. 0.55 acre for right of way. Offer of $132.00 approved by Mr. Chandler on July 3, 1953.

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway:

R-19599-Owner: Gregory M. Bride, et ux. 250 square feet for right of way and 4750 square feet excess taking. Offer of $10,500.00 approved by Mr. McIver on July 8, 1953.

Dayville-John Day Section of the John Day Highway:

R-18732-Owner: Leslie Holland, et ux. 1.43 acres for right of way. Offer of $1,257.60 approved by Mr. Chandler on June 23, 1953.

R-18743-Owner: Art Morgan, et ux. 1.19 acres for right of way and 0.96 acre for easements for irrigation ditch channel changes. Offer of $1,400.00, which amount includes compensation for the easements, approved by Mr. Chandler on June 23, 1953.

Mt. Vernon-John Day Section of the John Day Highway:

R-20036-Owner: Grant County School District No. 3, et al. 0.1 acre for right of way. Offer of $50.00 approved by Mr. Chandler on June 23, 1953.

The Chief Counsel presented the matter of asking the Oregon Congressional Delegation for assistance in exempting states from provisions of the Federal documentary stamp tax. He explained that on May 1, 1950, the Commissioner of Internal Revenue directed that documentary tax stamps must henceforth be affixed to deeds conveying real property to a state or political subdivision thereof. He presented a letter directed to members of the Oregon Congressional Delegation urging their sponsorship of H.R. 5915, which, if enacted by Congress, will provide a solution to the states' problem. He recommended that a copy of the letter be sent to each member of the Oregon Delegation. The Commission approved the recommendation. (Copies of the letter were signed by the Commission on the following day.)

Consideration was given to a demand from James E. Duree, Prosecuting Attorney for Pacific County, Washington, for the sum of $15,000.00 to reimburse Pacific County for the cost of land acquired by the County for use as the Washington terminal of the Astoria-Megler Ferry. The Chief Counsel advised that under the terms of the original agreement with the County, Pacific County would at this time be entitled to approximately $1300, the exact amount not being known at this time as computations are still being made. He explained the provisions of the agreement and advised that in an attempt to work out a satisfactory solution to the entire problem, he had contacted Mr. Duree with a result that it now is his recommendation that the property be leased from Pacific County for a period of 99 years for a consideration of $15,000 with the option to renew the lease for an additional 99 years at the same rate. This solution, he explained, eliminates the possibility of the Oregon State Highway Commission being required to pay taxes to the State of Washington. The Engineer stated his concurrence in the recommendation. The Commission approved the recommendation unanimously and so ordered.

The Commission authorized the Chief Counsel to commence and prosecute action against the following persons for damage done to state property:

1. Ross Knott as driver and Robert Knott as owner of logging truck, for damages done to two state highway department vehicles resulting from failure of the logging truck to stop at a traffic signal. Amount of damage is $103.44 plus attorney's fees.

2. Charles W. Lee, for damage to a timber guard rail at M. P. 6.04 on Pacific Highway East struck by Mr. Lee's automobile. Amount of damage $150.00 plus attorney's fees.

3. Olaf Everson for damage to a timber guard rail on the Wapinitia Highway resulting from an automobile accident. Amount of damages $438.12 plus attorney's fees.

The Chief Counsel requested authority to commence and prosecute a suit in interpleader to dispose of money held by the State in connection with State Highway Contract No. 3643 awarded to P. L. Holloway Painting Company for painting the bridge across the Willamette River in Albany on the Albany-Corvallis Highway in 1952. The Chief Counsel explained that a great number of claims had been filed against the contract for damages done to automobiles by reason of being sprayed with paint during the bridge painting operations. Writs of Attachment and Notices of Garnishment have been filed against the Contract exceeding the amount of money held by the State on the final estimate, which amount he stated, is $3,293.13. To forestall any attempted action which might be taken by the judgment creditors against the State, a suit in interpleader has been filed in the Circuit Court of Marion County. The Commission approved the request unanimously.

The Chief Counsel reported commencement of a suit by Math Schiemer, d b a Utility Construction Company, against the State for damages suffered for loss and damage to material, tools, construction

forms etc., allegedly resulting from acts of State Highway Department personnel in clearing and straightening the bed of Catherine Creek in Catherine Creek State Park in Union County. He stated that the plaintiff alleges he was performing work for the US Army Engineers along the banks of Catherine Creek down stream from the State Park, on December 8-11, 1951 and that the operations of State forces in the improvement of Catherine Creek State Park, caused an ice jam which broke on December 11th and flooded his operations and equipment, causing damage in the sum of $6,886.24. The Chief Counsel stated that a motion to quash service has been filed on the basis that the Court does not have jurisdiction over the State for the purpose of this action. The Commission accepted the report.

The Commission considered a report submitted by the Chief Counsel concerning an appeal of the case of DePhillips vs State involving alleged grade change damage in Brookings in the amount of $51,000.00 plus $2,500.00 attorney's fees. The Chief Counsel pointed out that at the trial of this case the Court had allowed the State's motion for a directed verdict that no damages be assessed against the State. However, a notice of appeal has been taken by Mr. Samuel A. Hall, Attorney for the plaintiffs, seeking to secure a new trial. He added that Mr. Hall in the meantime has been appointed District Attorney for Curry County and that the State has now raised the question whether or not Mr. Hall in his new position can legally represent the plaintiffs and this view has been expressed to the Attorney General. The Commission accepted the report.

Consideration was given by the Commission to the appointment of an Assistant Chief Counsel. Mr. Enfield, the Chief Counsel, recommended that Mr. Robert L. May be appointed as Assistant Chief Counsel at a beginning salary of $575.00 a month. He explained that Mr. May is being recommended for the position after several months of careful study and after analyzing the capabilities of several attorneys who are now members of the department, as well as interviewing others seeking employment. The Attorney General, he stated, has approved the appointment and he recommended that the Commission also approve Mr. May's appointment. The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The transfer to the State from the Federal Government of land now under long term lease in the Cove Palisades State Park, was considered by the Commission. The Chief Counsel stated that a letter had been received from Mr. J. Earl Coke, Acting Secretary of the US Department of Agriculture, offering to convey title to lands now under long term lease in Cove Palisades Park without charge. He advised there are approximately 2,840 acres involved and there are no particular forms to effect the transfer. He recommended that the Commission sign a letter requesting that the lands be transferred to the State. The Commission approved the recommendation. (On the following day a letter was signed.)

In connection with this matter, the Chief Counsel reported that action has been started against Mr. Sam Rawson, who has been removing cinders from this area and who has also interferred with the operations of the State's

highway contract. The Commission approved the Chief Counsel's action.

The Commission gave consideration to a resolution prepared by the Chief Counsel authorizing the State Highway Engineer or either Assistant State Highway Engineer to post highways for reduced load limits when necessary. The Chief Counsel explained that this resolution has been written to conform with the provisions of legislation pertaining to load limits enacted by the 1953 legislature. He pointed out that the resolution authorizes the posting of reduced load limits immediately upon determination that such action is necessary, and he recommended that the resolution be adopted. The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Chief Counsel presented a form of resolution prohibiting the parking of vehicles on the right of way of the Junction City-Eugene Secondary Highway at Crocker Lane. He recalled that at its June meeting, the Commission took action authorizing the installation of no parking signs and directing the Engineer to erect a fence along the shoulder line if necessary to prevent the parking of vehicles, and also directing the Chief Counsel to take appropriate legal action to enforce the parking regulation. In order that the resolution may be adopted subsequent to the effective date of Chapter 587, Oregon Laws 1953, he recommended that the Commission adopt a resolution pertaining to this matter at this meeting. The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Chief Counsel also brought up the matter of disposing of logs dumped on highway rights of way which have not been removed by the owners. He asked the Commission to authorize the Engineer to notify all owners of the logs that they must be removed within 30 days time and to remove the logs with State forces or to sell or otherwise dispose of them if they are not removed by the owners within such time limit. The Commission granted the authority requested by adopting the attached resolution relative thereto marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The meeting recessed at 12:00 noon and reconvened at 2:00 p.m. in the same room with the same persons present and participating.

The Engineer presented a tabulation of high offers received in Salem on July 27 for the purchase of used equipment and scrap materials located at the Salem Shops. The total amount of the high bids received, he pointed out, was $11,882.08, whereas the appraised value for the same items amount to $12,230.50. No bids were received for three items, which, he stated, would be junked. He recommended acceptance of the high offer for each of the items. The Commission approved the recommendation.

(For further details see copy of the Tabulation of High Bids Received July 27, 1953, in the general files.)

A report was presented by the Engineer concerning improvement of the Pacific Highway West through the town of Whiteson to eliminate a section of hazardous vertical and horizontal alignment. The Engineer recalled that a delegation appeared before the Commission on June 26 concerning this section. The survey, he said, has now been completed disclosing that it will cost approximately $116,000 for improvement of 1.1 miles plus right of way costs. He added that this is a bad section of US99W and should be improved when funds are available. He recommended that the improvement be given high priority in the formulation of the next construction program, if funds can be spared. The Commission accepted the Engineer's report.

A request from the City of Eastside for widening the Coos River Secondary Highway between 6th Avenue and 10th Avenue in Eastside was considered by the Commission. The Engineer advised that the City intends to construct a sidewalk on the north side of "D" Street which is the highway route and has asked the State to widen the street. The cost of such widening, including curbs and drainage, he estimated at $22,000. The average daily traffic at the east city limits of Eastside is slightly in excess of 1,600 vehicles per day, which amount of traffic does not cause congestion on the existing street. Because of higher priority of other cities for widening more heavily traveled streets, he recommended and the Commission approved that the request be denied. Chairman Chandler gave as his feeling if monies are available, they should be spent for improvement of the Coos River Secondary Highway (old route) between the bridge over Catching Slough and the new bridge over the Coos River near Enegren. The Engineer was instructed to determine the cost to do such work and report back to the Commission.

Consideration was also given by the Commission to a request submitted by the City of Prineville for state cooperation in replacing existing wooden traffic signal poles with steel poles. The Engineer explained that about four years ago certain traffic signal poles had been installed at the intersection of Third and Main streets because there was a shortage of steel poles at that time. The City, he stated, is now installing a new street lighting system which calls for the replacement of all wooden poles with steel poles and has requested state cooperation with respect to the poles on which the traffic signals are mounted. On all recent installations, he stated, steel poles have been used. He recommended cooperation with the City of Prineville in replacement of the poles on a 50-50 basis, the estimated cost of the State's share being $600.00. The Commission approved the recommendation, the arrangement to be covered by written agreement.

The Engineer presented a copy of resolution No. 6399 adopted by the Salem City Council July 13, 1953, concerning traffic flow regulations on portions of East Summer, West Summer and North Capitol Streets in the City of Salem. He pointed out that presently traffic on East Summer Street is one-way northbound, and that tourists southbound on US99E experience considerable difficulty in reaching the Capitol buildings under the

present routing. He gave as his feeling that if the two-block section of East Summer between Center and Court Streets were made one-way southbound, access to the Capitol area would be greatly facilitated. Under the city resolution, traffic on North Capitol and West Summer Streets between Center and Court Streets would be one-way northbound. He recommended the proposed changes, also the installation of a traffic signal at the intersection of East Summer Street and Court Street which he estimated will cost a total of $3,500, the City to pay half. The Commission approved the recommendation.

The Engineer presented a report concerning a requested installation of traffic signals at the intersection of Water and 10th Streets in Oregon City, Water Street being the route of the Pacific Highway East. He said that a traffic study indicated that signals are warranted as the total traffic entering the intersection for a 24-hour period on June 16 was 17,432, and the maximum hourly volume was 1,190 whereas an hourly volume of 750 is considered as warranting a signal. He pointed out that due to heavy left-turn movements at this intersection it will be necessary to provide a left-turn refuge if the traffic signal is installed, but the width of the street does not permit a left-turn refuge unless parking is prohibited between Ninth Street and Eleventh Street. He estimated the cost of the traffic signal and the left-turn refuge at $5,000 and recommended that they be installed provided the City of Oregon City will pay one-half the costs involved and will pass the necessary ordinance prohibiting parking between Ninth Street and Eleventh Street. The Commission approved the recommendation.

The Commission considered the Engineer's report concerning a request submitted by a delegation from Josephine and Jackson Counties on June 26 for improvement of the Pacific Highway near Savage Rapids Dam to prevent flooding of the highway during high water periods in the Rogue River. The Engineer pointed out that the highway does become inundated in the vicinity of Savage Rapids Dam every two or three years and at flood stages the highway is covered with as much as five feet of water, the periods of closure usually averaging about two days when traffic is detoured over the Medford-Provolt and Williams Secondary Highways and county roads. The length of the section that floods, he stated, is approximately one mile, and to improve it to prevent flooding he estimated will cost $75,000. The improvement, he added, is very desirable but at the present time money is not available to finance it. He recommended that this project be considered when funds are available for this area. The Commission accepted the recommendation.

The Engineer presented to the Commission a printed report on the operations of the Highway Weighmasters for a three-month period including April, May and June during the years 1950 to 1953. The Engineer pointed out that in the 1953 period, the number of violations were only about 20% of the number of violations in 1950. He also pointed out that during the last few months there has been a disturbing tendency in some courts to find the defendants guilty and then suspend the fines. The report was accepted by the Commission.

In discussing the weighmaster's operations, the Engineer reported that on August 4, 1953, the weighmasters on duty on the Powers Secondary State Highway stopped a vehicle registered in the name of and driven by Leland W. Post. The actual weight of the load of six logs on Mr. Post's truck was not obtained as he refused to be weighed; however, on the following morning after the loaded truck had been commandeered during the night by unknown persons and driven over a section of state highway including a bridge spanning the South Fork of the Coquille River to a log dump where the load was subsequently dumped, the weighmaster secured a copy of the Forest Service scaling slip which showed that the load contained 8,110 board feet of Douglas Fir. Computed at the State-wide average for Douglas Fir timber of 8.2 pounds per board foot, the estimated weight of the load alone was approximately 66,500 pounds. Adding the registered light weight of the truck and trailer of 22,000 pounds results in a gross weight of 88,500 pounds, whereas the permit granted Mr. Post allows him to haul only 60,000 pounds. He recalled that in November, 1952, Mr. Post was cited for a large overload and his PUC permit was suspended; however, in April, 1953, Mr. Post stated his willingness in writing to abide by the law so the Commission on April 8 approved reinstatement of his hauling permit on the condition that his future operations would remain strictly within the law. Inasmuch as overloads such as this one are very destructive to the highways, the Engineer recommended that the Public Utilities Commissioner be requested to revoke permanently all authority heretofore issued to Leland W. Post to truck-haul logs, poles, or piling over state highways. The Commission unanimously approved the recommendation upon motion of Commissioner Reynolds duly seconded by Commissioner McIver.

The Engineer reported that conditions governing the award of State Highway Contract No. 3998 to Birkemeier and Saremal (Kellogg Creek Bridge Section of the Milwaukie-Gladstone County Road in Clackamas County) for the sum of $60,275 were satisfied on July 27 and contract forms have been sent to the contractor for execution. Bids for this job, he said, were received on June 26, 1953. The Commission confirmed the Engineer's action.

The Engineer reported that under authority previously granted he has conducted surveys on the Bend-Lapine Section of The Dalles-California Highway in Deschutes County, on the Blackwell Hill-Medford Section of the Pacific Highway in Jackson County, on the Rocky Point-Brush Creek Section of the Oregon Coast Highway in Curry County, and on the Forest Boundary-Flora Junction Section of the Enterprise-Lewiston Highway in Wallowa County. He presented maps showing the proposed alignment in each case and explained details. He recommended approval and adoption of the surveys as the permanent routes of these highway sections when they are reconstructed. The Commission approved the recommendation unanimously by adopting the attached resolutions relative thereto marked EXHIBITS "G-1" and "G-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

A request from the City of Independence for widening and curb con-

struction on North Main Street from Ash Street to the north city limits, route of the Independence Secondary Highway, was discussed by the Commission. The Engineer reported that an investigation discloses that, although the average daily traffic is about 3,000 vehicles, there is no apparent congestion on this section at the present time and no immediate need for the improvement. However, he gave as his feeling that it would be a desirable project in the future. Because of this fact, and as there are no funds available at this time, he recommended that the request be denied. The Commission adopted the recommendation.

A petition was received from residents of Lakeview requesting an increase in width, from 44 feet to 60 feet, of the improvement now underway on "F" Street, route of US 395, in their city. The Engineer explained that the petition urges that the width of the street be not less than 60 feet from curb to curb. He pointed out that a portion of this work is now under contract for a width of 44 feet which is the standard width pavement laid on city streets where the traffic flow is not sufficient to warrant four lanes of pavement. As the traffic on this street averages only 1,050 vehicles daily and as the project is already under construction, he said it would not be feasible to change it now. He recommended that the request be denied. The Commission accepted the recommendation.

The Commission also considered a petition signed by 340 people of Wheeler County requesting early improvement of the Service Creek-Mitchell Secondary Highway, particularly the section known as the Donnolly Grade and the grade leading out of Mitchell. The Engineer reported that an investigation reveals many narrow sections on this highway over a distance of approximately six miles, and he estimated that to widen them to provide for a minimum 20-foot roadway would cost $72,000. He also said that the road is lightly traveled, the average traffic being somewhat less than 75 vehicles per day, and he recommended in view thereof and the fact that no funds are available at this time that the request be denied. The Commission approved the recommendation.

Consideration was given by the Commission to a request from the City of Vernonia that the State pave the area between curbs for a distance of 1,200 feet on the Nehalem Secondary Highway within the City. The Enginer reported that the City plans to install curbs 50 feet apart. He estimated the cost to the State to pave the entire area between the curbs at $21,000. The project, he said, is a desirable improvement and the City has shown a fine spirit of cooperation. However, the average daily traffic is only about 1,200 vehicles which does not give the improvement a very high priority. He recommended that the request be denied. The Commission adopted the recommendation.

The Commission gave consideration to a written request submitted by Mr. Dave Ellis, President of the Dayton Chamber of Commerce; a request from Mr. Clare L. Heider, Mayor of Dayton; one from D.r. Roben J. Maaske, President of the Oregon College of Education; and one from Dr. A. L. Strand, President of Oregon State College, for certain improvements to State Highways in the vicinity of Dayton including (1) replacement

of the Yamhill River Bridge at Dayton, (2) additional protection at the railroad crossing on the Amity-Dayton Highway northeast of Dayton, (3) elimination of bad curves on the Amity-Dayton Highway, and improvements to the Pacific Highway West, particularly between Corvallis and McMinnville. In the general discussion of these requests it was pointed out that the Dayton people are not satisfied with the one-way lights on the bridge at Dayton and would like to have a new bridge. The Engineer stated that it is hoped to find funds to construct a new bridge when the wooden approaches on the present bridge become decayed. Commissioner Reynolds pointed out that a route through Dayton to Amity is considerably shorter and straighter for Pacific Highway West traffic than the route through McMinnville, and it appeared to him that it might be a better route for the Pacific Highway West. The Engineer stated that the route through Dayton is approximately three miles shorter than by way of McMinnville, but if such rerouting of 99W is contemplated it might require a new location for the bridge at Dayton. Commissioner McIver stated that to him it appeared to be a very good route, and he suggested that the Engineer submit a report on it. The Commission thereupon instructed the Engineer to make a complete report and include therein information concerning the proposed by-pass in McMinnville. (See delegation on August 7).

Requests as follows, made by J. O. Johnson in behalf of Tigard businessmen was considered by the Commission:

1. Widening of the Beaverton-Aurora Secondary Highway from Durham to Tigard;

2. Investigation of a dangerous condition at the intersection of Durham Road and the secondary highway;

3. Request for traffic signals at the intersection of the secondary highway with US99W in the easterly part of Tigard.

Concerning the 1st request, the Engineer reported that this improvement had previously been considered and denied due to lack of funds, and at this time there are still no funds available for this project. He recommended that it again be denied. Concerning the 2nd request, he stated that investigation reveals that conditions can be improved by erection of a "Stop" sign and a "Right Turn Permitted Without Stopping" sign. He recommended that this be done. Concerning the 3rd request, he stated that the investigation indicates that signals are warranted and should be installed at this intersection but to make them effective will necessitate some additional channelizing work, which, including the signal installation is estimated to cost $9,400. He recommended approval of the expenditure and that the work be performed at the expense of the State as Tigard is not an incorporated town. All three recommendations were approved by the Commission.

The Engineer requested authority to construct a turn-out for left-turn traffic movements at the Barnes Road intersection of the Sunset Highway. He explained that a very hazardous condition exists at this location where a side road leads to the Cedar Hills project and to the City of Beaverton. There have been many requests for alleviation of existing con-

ditions and a study has determined that construction of a turn-out so that traffic could cross the highway at right angles would materially decrease the hazard. He estimated the cost to construct the turn-out at $3,300, and he recommended approval of the project as a Minor Betterment, to be paid from un-allocated funds. The Commission adopted the recommendation.

A resolution passed by the Gladstone Planning Commission requesting installation of a stop-light at the intersection of the Pacific Highway East and SE Glen Echo Avenue in the City of Gladstone was considered by the Commission. The Engineer reported that an investigation disclosed that only 4% of the vehicles entering the intersection entered from Glen Echo Avenue. Pedestrian traffic also was found to be minor and the accident rate not at all severe. As the facts determined by the investigation do not meet accepted warrants for signalization, he recommended and the Commission approved that the request be denied.

Consideration was given by the Commission to a request from the City of Astoria for State cooperation in providing street lighting on the cut-over street from Bond to Commercial between 14th and 16th Streets. The Engineer stated that the City has asked the State to put in one light at 14th Street, one at 15th Street, and one at 16th Street. These lights would be used to illuminate two diagonal blocks used for parking for ferry patrons. The cost of installation he estimated at $1,650, and he said the City has agreed to pay for the electrical energy used. He recommended and the Commission approved the installation of the lights.

Consideration was given to a request from Mr. J. A. Wight, Echo, Oregon, for installation of a stock pass on the Stanfield-Pendleton Secondary highway about six miles east of Echo. The Engineer advised that an engineering investigation reveals no record of any accident at this location involving livestock. The sight distance at the present crossing and the proposed stock pass, he said, is 1,100 feet to the west and 800 feet to the east and there are no vertical or horizontal restrictions. Moreover, the annual average daily traffic is only 115 vehicles. Inasmuch as the sight distance is adequate for safe stopping at prevailing speeds of 45 miles per hour, he recommended that the request be denied. The Commission approved the recommendation.

The Commission considered a request from Harney County for addition of the Drewsey-Van County Road to the Federal Aid Secondary system of that county. The Engineer reported that as of this date, Harney County has only three short sections of Federal Aid county road, totaling 18.96 miles. This mileage, he stated, has been improved to minimum AASHO standards with an all-year surface of either gravel or cinders. He further stated that the county for the years 1954-1955 will have $77,000 of Federal Aid Secondary Funds available and is requesting that the road between Drewsey and Van, 22.4 miles in length, be designated as a Federal Aid Secondary Highway so these funds may be utilized. The requested addition, he stated, will serve a large cattle raising area and some log hauling. He recommended approval of the county's request and that he be authorized to submit the necessary data to the Bureau of Public Roads for its approval. The Commission accepted the recommendation and so ordered.

The Commission also considered a request from Malheur County for deletion of 30.02 miles of county road from the Federal Aid Secondary system and the addition of 28.26 miles in lieu thereof. The Engineer explained that a comprehensive enlargement of irrigation farming in the county has materially changed the county's road requirements. Many miles of the county road system are in sparsely settled portions where there is little travel on the roads, whereas in other sections, the expansion of irrigation has developed highly productive lands with resulting increase in traffic. The county to meet these changing needs, he said, has requested that a total of 30.02 miles be deleted from the Federal system and that 28.26 miles be added to the system. The roads to be removed from the system are:

1. FAS Route No. 536. Ironside-South. 3.67 miles in length.

2. FAS Route No. 537. Juntura-Beulah. 14.34 miles in length.

3. FAS 523 (part). Harper Loop. 4.21 miles in length.

4. FAS 525 (part). Harper-Little Valley. 7.8 miles in length.

Proposed additions to the system consist of:

1. An extension to FAS No. 515, Lytle Boulevard, 11.08 miles in length.

2. Revision and extension to FAS No. 525, Harper-Westfall, 9.88 miles in length.

3. FAS 572. Hyline Road. 7.3 miles in length.

It was the opinion of the Engineer that the requested changes are desirable, because the roads to be added are of greater importance than those being deleted. He therefore recommended that the Commission approve the changes, and that he be authorized to submit the necessary data to the Bureau of Public Roads for its approval. The Commission approved the recommendation.

Consideration was given by the Commission to the disbursement to cities and towns of Oregon funds that accrued to them under the provisions of Chapter 149 Oregon Laws 1949, during the period of January 1 to June 30, 1953. The Engineer presented a tabulation showing the amount payable to each of the cities and towns as determined by the method of distribution provided for in the law. He recommended approval of the distributive amounts shown therein. The Commission accepted the Engineer's recommendation by adopting the attached resolution relative thereto marked Exhibit "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission gave consideration to a request from Mr. J. O. Turner, Mayor of the City of Heppner, for widening of the Lower Willow Creek Bridge at Heppner. The Engineer reported that an investigation had been made, and the cost of widening, including a right of way, had been estimated at $20,000. He further stated there is no record of any

accidents at this bridge, and that it is not practical to remove the sidewalk to attain the widening as suggested. From the facts disclosed by the investigation, it appears that the widening is not needed at this time, and he, therefore, recommended that the request be denied. The Commission approved his recommendation.

The City of Redmond submitted a written request for installation of a flashing beacon at the intersection of Fifth Street (US97) and Evergreen Avenue (US126) in the City of Redmond at the city's expense, if the State will install a flashing beacon at the intersection of Sixth Street (US97) and Evergreen Avenue (US126). Certain hazards do exist at these intersections, the Engineer stated, as both are junctions of two primary state highways. He estimated the cost of each signal at $400 or a total of $800, and he recommended installation of a signal at each location, the work to be done by the State, and the city to be billed for its proportionate share, it being understood that the City of Redmond is to pay for the electrical energy needed to operate both signals and to pay maintenance expense of both. The Commission approved the recommendation.

A proposed cooperative agreement with the City of Portland regarding modernization of signal installations on Union Avenue at N. E. Ainsworth and N. E. Alberta Street was considered by the Commission. The Engineer reported that the signal system on Union Avenue (US99E) consists of modern standard type signal installations except that the signals at the two intersections mentioned are the old two-light type without provision for "wait-walk" signals for pedestrians. He estimated the total cost of replacing them with modern type signals at $3,500, and he recommended that the State cooperate, with the cost to be shared equally between the State and the City. The Commission accepted the recommendation.

The Engineer reported receipt of a resolution adopted by the City of Pendleton approving the establishment of a Federal Aid Urban highway system in the Pendleton urban area. He explained that adoption of this urban area system is a necessary preliminary to the programming and contracting of the proposed Emigrant Avenue grade separation project on the route of the Pendleton-John Day Highway. He exhibited a map showing the proposed area pointing out that it is composed only of existing highways, and he recommended that it be approved by the Commission and that authority be granted him to submit the proposed system to the Bureau of Public Roads for final action. The Commission approved the recommendation.

The Commission gave consideration to the following requests for extensions of time within which to complete the following highway contracts:

1. Birkemeier & Saremal, Contract No. 3758 for construction of Nyberg, Sagert, Norwood, and Stafford Road Undercrossing Structures on the West Portland-Hubbard Highway in Washington County, requested an extension of time of six months from July 31, 1953 to January 31, 1954 in which to complete this work. They alleged that they were unable

to complete the work within the specified time limit because embankments at the ends of the structures had not been completed by the grading contractor. The Engineer reported that the work is completed with the exception of placing the concrete slab riprap at the ends of the approach embankments which cannot be done until the grading is completed. He recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

2. H. J. and H. W. Miller, Contract No. 3737 for grading and paving River Street in the City of Enterprise, requested an extension of time of 84 days, from September 15, 1952 to December 8, 1952 within which to complete this job. They alleged that lack of equipment to haul materials had prevented completion of the contract within the specified time limit. The Engineer reported that this is one of the first jobs this contractor has performed, and they were not too well organized. There was, however, very little inconvenience to the local people and no overrun on engineering costs. He recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above was based upon the recommendations of the State Highway Engineer and his reports which considered, but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Engineer reported that contracts No. 3423, 3605, 3660, 3690, 3693, 3746, 3845, 3863, 3869, 3873, 3887, 3888, 3894, 3900, 3919, 3942, 3954, 3988, 3994, 3864, 3750, 3438, 3667, 3773, 3791, 3797, 3814, 3825, 3852, 3862, 3890, 3617, 3911, 3943, 3445, 3640, 3619, 3676 have been completed according to the requirements of the contracts or modifications thereof, and that the contracts are now ready for acceptance. After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto marked EXHIBIT "I", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that inspection of the bridge over the Umatilla River at M. P. 11.84 on the Hermiston Secondary Highway No. 333 reveals the necessity for a reduced load limit on the structure. He recommended that the bridge be posted for a 20 ton maximum gross load limit effective August 6, 1953. The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "J" which resolution by this reference is made a part hereof with like effect as though extended in full herein. The Engineer was instructed to bear this bridge in mind for replacement when the next construction program is arranged.

August 6, 1953

The Commission discussed with the Engineer the bids received at the morning session, and at 3:00 p. m. Commissioner Reynolds publicly announced the contract awards as follows:

"Rock production on the Powell Butte-Ochoco Reservoir Project on the Ochoco Highway east of Redmond in Crook County. Rogers Construction, Inc., Portland submitted the low bid for this job at $20,600. Four higher bids were also received. The Commission has awarded the contract to Rogers Construction, Inc. at their low bid price.

"Construction of a bridge over the Little Deschutes River on Burgess Road north of Lapine in Deschutes County. C. E. Blakley, Klamath Falls, submitted the low bid for this job at $15,547.50. Three higher bids were also received. The Commission elects to accept the bid of C. E. Blakley in the sum of $15,547.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the Bureau of Public Roads and Deschutes County is received and the sum of $3,500 is deposited by the County.

"Construction of a masonry block maintenance building in the town of Sisters in Deschutes County. Six bids were received for this job, a low bid being submitted by R. H. Jones, Hillsboro in the sum of $23,860. The contract has been awarded to Mr. Jones at his bid price.

"Grading and oiling on the Grants Pass-Murphy section of Williams Secondary Highway in Josephine County. C. C. Meisel, McMinnville submitted the low bid for this job at $100,155. Seven higher bids were also received. The contract has been awa ded to the low bidder C. C. Meisel at his bid price.

"Construction of a concrete bridge over Fall Creek on the Alsea Highway east of Waldport in Lincoln County. Six bids were received for this job, the low bid being submitted by Babler Bros., Inc., Portland, at $41,744. The contract has been awarded to the low bidder, Babler Bros., Inc. at their bid price.

"Construction of a bridge over the Luckiamute River on the Pacific Highway west of Monmouth in Polk County. Tom Lillebo submitted the low bid for this job out of the total of eight bids received at $93,040. The contract has been awarded to the low bidder, Tom Lillebo, at his bid price.

"Grading and oiling on the Mud Hollow Canyon-Wasco section of the Fulton Canyon-Wasco road west of Wasco in Sherman County. Five bids were received for this job, the low one being submitted by E. C. Hall Company, Portland, at $57,770. The Commission has rejected all bids on this project as being too high.

"Grading on the summit section of the Hemlock-Sand Lake County road west of Hemlock in Tillamook County. Fourteen bids were received for this job, the low bid being submitted by Grimstad & Vanderveldt, Astoria, at $47,169. The contract has been awarded to the low bidder, Grimstad & Vanderveldt, at their bid price.

"Widening the existing bridge over Maxwell Canal at M. P. 198.69 on the Old Oregon Trail near Hermiston in Umatilla County. Wells & Ray, Hermiston, submitted the low bid for this work out of a total of six bids received at $6,050. The contract has been awarded to the low bidder, Wells & Ray, at their bid price.

"Construction of a masonry block addition to the existing maintenance building at Meacham in Umatilla County. Four bids were received for this job, the low bid being submitted by R. H. Jones, Hillsboro at $18,810. The contract has been awarded to the low bidder, R. H. Jones, at his bid price.

The Engineer reported that the reduced load limits heretofore in effect on several state highways have been removed as the conditions necessitating the restrictions no longer exist. He named the following highways and sections of highways on which reduced load limits had been removed, and he asked the Commission to confirm his action:

Name of Highway	No.	County	Section Restricted	Date Effective 1953
Rome-Princeton Secdy.	442	Harney	M. P. 8.2 to 29.4 (8.2 mi. E. of Diamond Valley Hwy. Jct. to Road to Follyfarm)	9:00 a.m. July 16
Crater Lake North Secdy.	232	Douglas	M. P. 0.0 to 5.29 (Entire length)	9:00 a.m. June 29
West Diamond Lake Secdy.	233	Jackson & Douglas	M. P. 8.0 to M. P. 23.89 (Entire length)	9:00 a.m. June 29
East Diamond Lake Secdy.	425	Douglas & Klamath	M. P. 0.0 to 14.72 (Entire length)	9:00 a.m. June 29

The Commission approved the Engineer's action by adopting the attached resolution relative thereto marked EXHIBIT "K" which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Attention was given by the Commission to a request from Hon. John H. Sheldrake, County Judge of Hood River County, for the designation of a reduced speed zone on a section of the Hood River Secondary Highway immediately south of the south city lim ts of the City of Hood River. The Engineer stated that an investigation had been made by the Traffic Engineer which revealed that motorists travel through this thickly settled residential business section at a speed in excess of 40 miles-per-hour, a maximum speed being recorded at 62 miles-per-hour. In view of the prevailing speeds coupled with the fact that there is considerable roadside culture, he recommended that a 40 mile-per-hour speed zone be established between the south city limits of Hood River at M. P. 0.76, and Martin's Country Market at M. P. 1.66. The Commission approved the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "L-1" which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that his attention has been called to an inconsistency between the indicated 25 miles-per-hour speed and the speed that vehicles actually travel through the community of Rufus on the Columbia Highway east of The Dalles. An investigation conducted in 1951, he said, disclosed that the accident rate in that section was considerably below the national average, and a speed check taken in 1952 shows that 80 per cent of vehicles travel at or under a speed of 43.5 miles-per, hour. The maximum speed recorded was 55 miles-per-hour and the check disclosed that 90 per cent of the vehicles exceeded the present indicated speed of 25 miles-per-hour. In view of the favorable accident record and the absence of concentrated roadside culture, he recommended that a 45 mile-per-hour speed zone be established on the Columbia River Highway between a point 0.14 mile west of the road leading to Wasco (M.P. 116.14), and a point 0.18 east of this road (M.P. 116.46), in the community of Rufus. The Commission accepted the Engineer's recommendation by adopting the attached resolution relative thereto marked EXHIBIT "L-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A request from Mrs. Doris L. Cotes, Meacham, for designation of a reduced speed zone on the Old Oregon Trail in the vicinity of Meacham was considered by the Commission. The Engineer reported that an investigation by the Traffic Engineer discloses that a reduced speed zone is warranted. He recommended the establishment of a 40 mile-per-hour speed zone between M.P. 261.71 and M.P. 262.58 on this highway, which speed, he stated, is compatible with the speed at or below which 80 per cent of the vehicles currently travel on this section. The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "L-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was given by the Commission to a petition from the Prospect Parent-Teacher's Association and other residents adjacent to the Crater Lake Highway near Prospect for improvement of this highway from Mill Creek Falls to the first bridge south of Prospect, and for establishment of a 15 mile-per-hour speed zone for northbound traffic and a 30 mile-per-hour speed zone for southbound traffic, with one-way traffic established for trucks and buses. The Engineer reported that the section does have inferior alignment with a series of 12° to 20° curves and one 48° curve at Prospect Bridge. It was his judgment that it is not economically feasible to improve this one mile section which, he stated, is superior to hundreds of miles of more important highway sections; as for the speed zone designation, he said there is no means of establishing a 15 mile-per-hour limit for vehicles traveling one direction and a 30 mile-per-hour limit for those traveling in the other direction, or to zone a section for one-way traffic. He recommended that the requests be denied. The Commission adopted the recommendation.

The Commission discussed with the Engineer a petition from residents along the Oregon Coast Highway north of Florence requesting designation of a 35 mile-per-hour speed zone and the painting of crosswalks

on this highway between Florence and Heceta Beach Junction. The Engineer stated that in the matter of painting crosswalks it has long been the policy of the Commission to paint them only where school boy patrols are maintained. The locations requested, he said, do not fall in this category because they are school bus pick-up points, and there would be insufficient pedestrian traffic at any one crosswalk to warrant establishing a patrol. He, therefore, recommended that the request for the painting of crosswalks be denied. The Commission approved the recommendation.

Concerning the request for a 35 mile-per-hour speed zone designation, he pointed out that in September 1950 the Commission established a 35 mile-per-hour and a 45 mile-per-hour speed zone northerly from the north city limits of Florence which included the area in question. A reinvestigation, he stated, was made during the past month and on the basis of facts determined at that time it was found advisable to change the mile point location of the existing speed zone because it had been found that through a change in mile posts, the action taken by the Commission at its September 1950 meeting was slightly in error. He recommended in view thereof that the previously established speed zone (45 miles per hour) from M. P. 200.62 to M. P. 202.84 and also the previously established zone (35 miles-per-hour) from M. P. 202.84 to M. P. 203.56, be rescinded, and that in lieu thereof the following speed zones be established: M. P. 200.52, junction with the Heceta Beach Road, to M. P. 202.78 opposite the State Highway Maintenance Station, 45 miles-per-hour; and from M. P. 202.78 to M. P. 203.56 at the north city limits of Florence, 35 miles-per-hour. The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "L-4", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A petition from citizens of the town of Warren requesting a 40 mile-per-hour speed zone on the Columbia River Highway in the vicinity of Church Road in Warren was given consideration by the Commission. The Engineer recalled that in 1949 the Commission denied a similar request for a reduced speed zone at this place. A recent investigation, he said, fails to disclose that there is warrant for any additional traffic control measures than now exist. He pointed out that conditions on this section of highway are identical with those which extend from the Church Road intersection to the City of St. Helens and do not differ greatly from many locations on the highway between Scappoose and Portland. As 80 per cent of the vehicles travel at or below 51 miles-per-hour and as the accident experience is only slightly above the state average, he recommended that the request be denied. The Commission approved the recommendation.

The Engineer presented the matter of establishing a state remote-controlled radio receiver and transmitter on the top of Burns Butte about three miles west of the town of Burns. This site, he stated, is the most satisfactory in the area for radio equipment, but it now is occupied by three other parties who obtain electrical energy from the California Pacific Utilities Company. To establish a state station at this place, he said, will necessitate the state paying a pro-rata share of the costs to the Utilities Company for refund to the other three customers who paid the cost

of constructing power lines to the site. The amount of the initial payment, he stated, is $296.67, and in addition the state will be subject to a monthly minimum charge of $5.32 until October 1954 after which time the charge will be the regular minimum of the applicable rate schedule for service rendered. A special use permit, he added, has been obtained from the U.S. Forest Service to use the site until the expiration of its lease in 1969. He recommended approval of a form of contract providing for payments to the California Pacific Utilities Company. The Commission adopted the recommendation.

The Engineer reported a compromise settlement of a long standing controversy with The Pacific Telephone and Telegraph Company concerning the relocation of a section of the Company's transcontinental toll cable through a slide area along the upper Columbia River Highway between Gorton Creek and Warren Creek. This area, he stated, has long been known as a slide area, but the phone company had experienced no difficulty until excavations were made in constructing the new highway when a slight cracking appeared near the company's underground cable. The telephone company, he stated, then strung a temporary cable across the slide until it could determine what the results of the cracking would be. The cost of the temporary cable installation has been estimated at $11,000 which the phone company requested that the state pay in full. The slide area, he stated, has in the meantime been pretty well stabilized at considerable cost to the state, and the telephone company can now restore its temporary cable to a permanent installation. After a number of conferences, the telephone company, he stated, agreed to assume half of the cost if the state would pay the other half. He recommended that the telephone company be paid the sum of $5,500 in full settlement of its controversial claim. The Commission adopted the recommendation and ordered the matter covered by written agreement.

The Commission considered a claim submitted by Mr. B. R. Wallace, Salem, in amount of $50.00, for damage to his wheat crop resulting from a survey crew working on his land during the wet season. The Engineer stated that in order to complete the location survey of the Portland-Salem Expressway it was necessary to work in all kinds of weather, and during the early spring the survey crew ran some lines through Mr. Wallace's wheat field causing damage which was evident by inspection. He recommended that Mr. Wallace be paid $50 as full settlement for the damage. The Commission approved the recommendation.

Renewal of the annual subscription to the Highway Research Board for the fiscal year July 1, 1953 to June 30, 1954 was discussed by the Commission. The Engineer stated that the cost of subscribing for one year is $1,898.00, and he recommended that it be paid. Chairman Chandler inquired as to what benefits are obtained. The Engineer explained that research work performed by many colleges, highway departments and industries is correlated and made available in printed form by the Highway Research Board and that such information keeps abreast with engineering developments and also provides legal and Right of Way data. The Chief Counsel added that the Legal and Right of Way Departments make considerable use of the information in keeping up to date on land acquisition methods

and access control, and in Court opinions as they are rendered from time to time. The Commission approved the subscription as recommended by the Engineer and the Chief Counsel. The Engineer was authorized to sign the subscription blank in behalf of the Commission.

The Commission considered a letter from Mr. A. L. Greenwalt of Government Camp advising that the Government Camp Community Club no longer desires to purchase the old highway maintenance building at Government Camp, and requesting a refund of his personal deposit made in behalf of the Community Club in the amount of $285.00. In the discussion of this matter the Engineer pointed out that the property had been sold to the Government Camp Community Club and they had been granted an extension of time to raise the balance due. For some reason or other interest in the project has died down, and they cannot complete the purchase. Mr. Greenwalt, he stated, had personally advanced the amount of the deposit, and he recommended that it be returned to him. The Commission approved the recommendation.

Installation of a textboard to be erected in the wayside park at the mouth of Ladd Canyon on the Old Oregon Trail between La Grande and North Powder was considered by the Commission. The Engineer stated that the following text had been approved by the Oregon Historical Society, and he recommended that a textboard with such wording be erected as a Minor Betterment project at an estimated cost of $300.

> HERE ON THE OREGON TRAIL, IN THE YEAR 1842, THE FIRST WAGONS OF SETTLERS ENTERED GRANDE RONDE VALLEY. FUR TRADE EXPLORERS, BEGINNING IN 1811, AND MISSIONARIES IN 1834, HAD BLAZED THE WAY. LATER SETTLERS BROUGHT PLOWS AND SEEDS AND HOUSEHOLD GOODS FOR THE BEGINNINGS OF THE FUTURE STATE OF OREGON. THOUSANDS OF SETTLERS AND HUNDREDS OF WAGONS IN SUCCESSIVE YEARS WORKED DOWN THE STEEP GRADE, AND SKIRTED THE VALLEY NEAR THE SITE OF LA GRANDE TO BEGIN THE ASCENT OF THE BLUE MOUNTAINS.

The Commission approved the erection of the textboard as recommended.

The Engineer requested authority to make a 15-minute film of the building of the Portland-Salem Expressway to be used for advertising purposes. He explained that it is planned to secure pictures of the right of way before, during, and after construction in order to show the various phases of the work. He pointed out that New York had provided a similar film with very good success. The Chief Counsel stated that many other states and other governmental agencies prepare similar films as a matter of good public relations. W. C. Williams, Assistant Highway Engineer, pointed out that Oregon is one of the few states that has not produced films of this nature. Commissioner Reynolds expressed reluctance to the proposal on the basis that it might not be of interest to the public. Action on the matter was deferred. (On the following day the matter was again discussed. Commissioner Reynolds stated that if the film is prepared to be as interesting as some travel films, it would probably serve a good pur-

pose. However, if it just featured engineering features, it probably would not be too interesting. He moved that the Engineer be granted authority to make the film. Chairman Chandler gave his assent with the statement that the film must have public appeal.)

The Commission discussed the Auditor's report and recommendations concerning renewal and certain changes in present fire insurance policies covering state highway-owned buildings and property. The Auditor explained that under the law, it is necessary to contribute to the Restoration Fund on 20 per cent of the valuation of the State property involved; also that the insurance companies have agreed to reduce premium payments to cover only 80 per cent of the valuation, which with the restoration fund would still provide full coverage in case of loss. He also pointed out that an additional saving could be made if the Commission wished to enter into a 5-year term on the policies. Commissioner Reynolds commented that the State has to pay into the Restoration Fund on 20 per cent of the valuation of the property and that this is offset by a saving on the private insurance premiums. The Commission accepted the proposed recommendations and referred the proposal to place the policies on a five-year basis to Commissioner Reynolds with authority to take such action as he considers to be in the best interests of the State. (For details regarding the revised insurance plan see copy of the Auditor's report dated July 24, 1953, in general files.)

The Engineer brought up for discussion a resolution abandoning to Hood River County portions of the old route of the Columbia River Highway on the Hood River-Mosier Section. The new highway at this point, he stated, has been completed and opened to highway traffic, and under the terms of an abandonment agreement previously entered into, the County is to take over part of the old section to be maintained as a County road and another part of which the County is to make such disposition as it sees fit. He also explained that by the terms of this same agreement a section of the old highway is to be designated and made a part of Primary Highway No. 26. He recommended that the resolution be approved. The Commission accepted the Engineer's recommendation by adopting the attached resolution relative thereto marked EXHIBIT "M", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer recommended and the Commission approved the attendance of Mr. G. W. Harra, Engineer of Materials, at a meeting of the Materials Committee of the American Association of State Highway officials in Chicago, September 17 and 18, 1953. The Engineer explained that it would be very worth-while for Mr. Harra to attend this meeting as all phases of laboratory work and material specifications will be thoroughly discussed. The cost, he stated, would be approximately $260.00.

The Commission also granted authority for Mr. F. B. Crandall, Traffic Engineer, to attend the annual meeting of the Institute of Traffic Engineers and the meeting of the Joint Committee on Uniform Control Devices, in Buffalo, N. Y., September 27 to October 2, 1953. The Engineer estimated the cost of the trip at $360.00. Mr. Crandall's pre-

sence, he stated, is required as he is President of the Institute of Traffic Engineers this year.

The Commission discussed the matter of persons who will represent the State Highway Department at the annual meeting of WASHO at Santa Fe, New Mexico, October 6 to 10, 1953. R. H. Baldock, State Highway Engineer, W. C. Williams, Assistant State Highway Engineer, C. W. Enfield, Chief Counsel, G. S. Paxson, Bridge Engineer, and H. B. Glaisyer, Secretary, were designated to attend. However, the Commission stated that if Mr. Glaisyer attends the AASHO meeting in Pittsburg, Pa., November 10-13, 1953, then R. L. Porter, Right of Way Engineer, would be designated to attend the meeting in Santa Fe, it being the Commission's intent that there should be five representatives at the WASHO meeting.

Consideration was also given by the Commission to the naming of persons who would represent the State Highway Department at the AASHO meeting in Pittsburg in November. The Commission designated the following people to attend this meeting: Ben R. Chandler, Chairman of the Commission; R. H. Baldock, State Highway Engineer; W. C. Williams, 1st Assistant State Highway Engineer; W. W. Stiffler, 2nd Assistant State Highway Engineer; G. S. Paxson, Bridge Engineer; H. B. Glaisyer, Secretary; and C. W. Enfield, Chief Counsel.

A request from the Tillamook County Court for the prohibition of parking along the Wilson River Highway in front of the County Fairgrounds during the County Fair scheduled for August 12 to 15, 1953, was considered by the Commission. The Engineer stated that the County has requested a temporary "NO PARKING" restriction in order to provide safety for the traveling public and patrons of the County Fair. He recommended that a "NO PARKING" zone by established on each side the Wilson River Highway opposite the Tillamook County Fairgrounds, between M.P. 1.48 and M.P. 2.14, effective during the period August 8 to 15, 1953. The Commission approved the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "N", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission gave consideration to a request from Mr. Roy Webster, President of the Hood River Chamber of Commerce, for establishment of a tourist information center at the Cloverleaf intersection near the scuth end of the Interstate Bridge at Hood River. The Engineer stated that in his opinion the establishment of a tourist information center at this location would set the pattern for many other requests of the same kind, which eventually would cost the State a great deal of money. He recommended that the request be denied. The Commission approved the recommendation.

The Commission considered and accepted a report submitted by the Secretary showing a list of papers signed by him during the period of June 24 to July 31, 1953.

The following items of unfinished business were considered by the Commission:

1. Proposal for development of a State Park at Ochoco Reservoir east of Prineville: This matter had been reported on by the Park Superintendent earlier in the day and the Commission ordered the item deleted from the list of unfinished business.

2. Use of local counsel in trial of condemnation cases: Action was deferred by the Commission for further consideration. The item is to remain on the list of unfinished business.

3. Request of the West Coast Telephone Company to change the proposed location of their telephone line along the Umpqua Highway between Reedsport and Scottsburg: The Engineer advised that representatives from the Highway Department and The Telephone Company have inspected the proposed location and have agreed on a mutually acceptable plan. However, the application form has not yet been submitted by the Company. The Commission approved the report and ordered the item deleted from the list of unfinished business.

4. Request of Powder River Sportsmen's Club, Baker, for development of parking, picnic and restroom facilities adjacent to Unity Reservoir: The Engineer recalled that the Commission inspected the site of the proposed development during the course of its trip through Northeast Oregon in July, and at that time decided against the development as recommended by the Engineer. The Commission confirmed the action and ordered the item deleted from the list of unfinished business.

5. Proposed changes in construction plans for the Brushes Creek section of the Oregon Coast Highway: This matter was considered by the Commission earlier in the day, when a survey of the location was adopted. The item is to be deleted from the list of unfinished business.

6. Proposed extension of the Havana-Helix Secondary Highway southerly from Havana to a connection with the Oregon-Washington Highway northeast of Pendleton: The Engineer stated that his report is not yet ready, but it is his intention to present it to the Commission at the September meeting. The item is to remain on the list of unfinished business.

7. Proposed construction of a retaining wall along the city park in Condon where the park joins the highway: The Engineer reported that a further study is being made of work which might be performed and that he expects to render a report at the September meeting. This item is to remain on the list of unfinished business.

8. Proposed location of US 30 at the north entrance to Ontario, and whether an underpass or overpass is to be constructed. The Engineer advised that survey of the project is still in progress, hence, his report is not ready. This item is to remain on the list of unfinished business.

9. Request for access to The Dalles-California Highway in Lapine: Reporting on this matter were the Chief Counsel and the Engineer. The Chief Counsel pointed out that some rights of access at this location were purchased sometime ago and that there may have been some confusion in the minds of the property owners as to the meaning of restricted access. However, the Department has no legal obligation to provide the access requested. Commissioner Reynolds pointed out that the difficulty seems to lie in the fact that some rights of access were purchased while others were not. Commissioner Chandler expressed the thought that the Commission should adhere to the policy of restricting access wherever possible. No action was taken at this time pending an inspection by the Commission on its trip in August. This item is to remain on the list of unfinished business.

10. Development of the Robert W. Sawyer Forest Wayside north of Bend. The Engineer advised that his report on this subject is not yet ready. The Commission decided to inspect the site on its August trip. This item is to remain on the list of unfinished business.

11. Progress report on Banfield Expressway, Portland: The Engineer presented a written report on this subject including a map showing plans for construction as far west as 39th Avenue, and the dates and order of proposed contract lettings. The Commission accepted the report and ordered the item deleted from the list of unfinished business.

12. Option obtained from Mrs. Irene Wiggins for property at Wallowa Lake: The Commission ordered this item deleted from the list of unfinished business inasmuch as the property has been ordered purchased.

13. Proposed roadway connection between US 30 near Ordnance and US 730 near Umatilla: This matter was disposed of by the Commission at Condon on July 17, 1953. The Commission ordered the item deleted from the list of unfinished business.

14. Request for highway improvements in Josephine and Jackson Counties: As this item had been considered earlier in the day in a report submitted by the Engineer, the Commission ordered the item deleted from the list of unfinished business.

15. Improvements to the Pacific Highway West near Whiteson: This item was ordered deleted inasmuch as the Engineer's report on the subject was rendered earlier in the day.

A request from the Tillamook Chamber of Commerce for permission to erect and maintain signs reading "Welcome to Tillamook" on the Oregon Coast Highway north and south of the city was given consideration by the Commission. The Engineer recalled that many years ago cities had been permitted to erect various types of welcome signs, many of which became unsightly due to lack of care. In some instances, he stated, it had been difficult to remove the signs. He recommended that the request be denied and that an explanation be made to the Tillamook Chamber of Commerce that it is considered better practice for the State to erect the standard entrance signs as has been the practice for the past several years. The Com-

mission approved the recommendation.

The Engineer in discussing the matter of signs also mentioned that Dr. Roben J. Maaske, President Oregon College of Education at Monmouth, had requested permission to install signs calling public attention to the college, on the highway right of way. He suggested that the Oregon College of Education do as the University of Oregon has done, that being to place the signs on its own property. He felt that if exceptions were made to the placing of signs on the right of way, other than those legally placed by the Highway Department, there would be no end to the demands for placing signs. The Commission instructed the Engineer to explain to Dr. Maaske why the Commission is reluctant to approve his request, and will offer no objections if the signs are maintained on private property.

In connection with the proposed relocation of the Pacific Highway bypassing the town of Myrtle Creek in Douglas County the matter of setting a date and place for a public hearing was discussed by the Commission. The Chief Counsel advised that the law does not require the hearing be held in the town or towns affected and he suggested that the Commission might hear a delegation at its next regular meeting. The Commission approved the suggestion and thereupon decided to reserve 30 minutes of time for this purpose at its meeting in Portland on September 25, 1953. The Secretary was instructed to send formal notice to the city authorities.

A date for the Commission's meeting following that scheduled for September 24-25 was discussed. The Commission decided to hold such meeting in Portland on Thursday and Friday, October 29 and 30, 1953. The Secretary was instructed to make the usual arrangements for use of the Green Room in the Imperial Hotel.

The problems to be presented by the various delegations on the following day were discussed by the Commission, but no action was taken on them at this time.

The Engineer stated that the Bonneville Power Administration has requested permission to move extremely heavy transformers over US30 from The Dalles to Seufert, the total weight involved being approximately 330,000 pounds or about 10,000 pounds per tire. The weight of the load, he stated, is greatly in excess of statutory weight limits and would in all probability damage the pavement surfacing. He suggested that, if a permit is granted, the moving be done in August or September when the road is driest, that the time and route of movement be directed in detail by the Engineer and that the B. P. A. pay for all damages, which may amount to $25,000. He further stated that they do not intend to haul the transformers for about two years. The Commission instructed the Engineer to confer with the B. P. A. officials to determine exact details concerning time, manner of moving, etc., and to inform them that they will be required to deposit with the Commission, cash in amount sufficient to repair estimated damage to the highway.

Commissioner Reynolds inquired as to what action the Commission wishes to take concerning approximately one mile of road in Wallowa Lake

Park in connection with a proposed acquisition of park land from the Power Company that operates at that place. Chairman Chandler stated that the Commission has reached no decision for assuming jurisdiction over the section of road, but will accept a building belonging to the Federal Government in the area if it is presented as a gift.

Commissioner Reynolds stated that the Three Flags Highway Association plans to hold a celebration and ribbon-cutting ceremony dedicating the newly completed section of US395 between Burns and John Day in connection with which a picnic will be held at Idlewilde north of Burns. He further stated that the Governor, the Highway Commission, and other Highway officials have been invited to attend. The Commission agreed that someone should attend to represent the Commission and the Highway Department, but action was deferred as to who it should be.

Chairman Chandler inquired of the Chief Counsel if his department uses a fixed formula for determining the value of access rights acquired and for severance damages due to partial taking of property. The Chief Counsel replied that no fixed formula is used. The value of the property is determined before and after right of way is acquired, the difference being the amount of payment. In most cases, determining the value is a matter of judgment and opinion.

Chairman Chandler asked the Engineer to review the contract jobs scheduled for the September letting, as to extra money which may be required, and to report on this matter the following day. (On the following day the Engineer reported the status of funds for each of the jobs on which it is expected to receive bids in September. In discussing these various projects at that time, the Commission approved the expenditure of $53,000 for the construction of a climbing lane for slow-moving vehicles on the Rice Hill section of the Pacific Highway in Douglas County.)

Commissioner Reynolds inquired why construction of the Emigrant Hill job on the Old Oregon Trail between Pendleton and La Grande has been delayed. The Right of Way Engineer stated that it is necessary on this job to secure many parcels of right of way on Indian lands, and to negotiate with each Indian involved. The Bureau of Indian Affairs, he stated, has cooperated very well in acquiring the property.

Inquiry was made by Commissioner Reynolds as to what plan is followed in conducting surveys authorized by the Commission which are not a part of the construction program. W. C. Williams, Assistant Engineer, stated that due to a shortage of engineering personnel, work can be done on surveys outside of the program only at odd times and when extra men happen to be available.

The Engineer brought up for consideration the matter of issuing permits for over-height hauling on State highways. The Chief Counsel advised that the law which became effective on August 5 provides that the Highway Commission shall adopt a resolution outlining conditions under which permits will be issued for hauling loads up to a height of 13 $\frac{1}{2}$ feet. He presented a form of resolution that has been prepared outlining intent, mean-

ing, and substance of what is to be done, and he recommended that the Commission adopt the resolution for the record. The Engineer read the resolution, as prepared, and he recommended that it be adopted. The Commission approved the recommendation as made by the Chief Counsel and the Engineer by adopting the attached resolution relative thereto marked EXHIBIT "O", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The meeting recessed at 5:00 p.m. to reconvene at 9:00 a.m., Standard Oregon Time, on the following day in the same room.

Portland, Oregon
August 7, 1953

Pursuant to recess of its meeting held on the previous day, the State Highway Commission met at 9:00 a.m., Standard Oregon Time, in the Green Room of the Imperial Hotel, Portland, Oregon. Among others, the following persons were present:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Assistant State Highway Engineer
W. W. Stiffler, 2nd Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Commissioner M. K. McIver was excused from attending the meeting.

Chairman Chandler called the meeting to order and advised that the first order of business would be the receiving and opening of bids for the purchase of a block of $32,000,000 Oregon State Highway Bonds. He gave the following remarks: "We have a ceremony to perform this morning before the opening of the regular bids for highway construction projects--we are receiving bids for sale of highway bonds. The sale of these bonds will permit the State of Oregon to complete its five-year program for the modernization of its highways. This is the largest offering of Oregon Highway Bonds in the history of the entire State. I hope the credit of the State of Oregon is sufficient so we do get the right answer today to our highway problems. Mr. McIver is ill with influenza and cannot attend this meeting. We have received three bids--I was going to have Mr. McIver, Mr. Reynolds, and myself open a bid each. If the right answer is contained in here, on the 24th and 25th of September we will offer twenty-six road projects, totalling $10,000,000. That in itself will be the largest single letting in the history of the State of Oregon. It will range from $41,000 for a parks project to $1,300,000 for the paving of the Anlauf-

Rice Hill Section of relocated US 99. We will now proceed with opening the bids."

Bids as follows for the purchase of the bonds offered for sale were thereupon opened and read aloud by the Secretary pursuant to previously published notice, at the conclusion of which, Chairman Chandler stated that the bids would be studied by the Commission and that the Commission's decision with respect to the bids would be publicly announced at 10:15 a. m.

List of Bidders

1. Kuhn, Loeb & Co.; Halsey, Stuart & Co. Inc. and Associates
2. The First National Bank of Chicago and Associates
3. The First National Bank of Portland, Oregon; Harris Trust and Savings Bank, Chicago; Bankers Trust Company, New York City, and Associates

(For names of Associates, see attached list)

Bidder	Bond Maturity Date	Designated Interest Rate	Price Bid	Net Interest Cost	Effective Interest Rate
1. 1. 1. 1.	1954 1955 and 1956 1957 to 1962 incl. 1963 to 1966 incl.	1-1/2% 1-3/4% 2% 2-1/4%	$31,525,440.00	$5,684,560.00	2.320228%

Newport Construction Co., Portland	70,430.00
H. J. & H. W. Miller, Baker	72,386.00

*Bidder will accept only one project.

August 6 and 7, 1953

WASHINGTON COUNTY
COOK OVERCROSSING WIDENING

Parker-Johnson Co., Portland	$55,837.00
Lee Hoffman, Beaverton	64,230.00
Lindstrom Bros., Inc., Portland	72,265.00

The Parks Superintendent reported that pursuant to instructions given him by the Commission on the previous day, he has conferred with Mrs. Allan E. McClean, State Regent for the Daughters of the American Revolution, and with Mrs. John Y. Richardson, both of Portland, regarding the extension of the electric power line in Champoeg Park to serve the caretaker's cottage recently completed by the DAR, and that these ladies have agreed in behalf of the DAR to house in their building certain articles that now are being housed in the State's museum building in this park, and will display these articles in their building under terms to be stipulated by the State. He recommended in view thereof that the request of the DAR that the State provide a power line extension at State expense be approved at an estimated cost of $650.00 for pole line construction. The Commission approved the recommendation.

The Commission also again discussed the Engineer's request for authority to prepare a 15-minute film showing pictures of the West Portland-Salem Expressway before construction, during construction, and following construction. Commissioner Reynolds expressed his feeling that the film would be worth-while if prepared as interestingly as are the travel films, but not if it contains engineering features only. He moved approval of the Engineer's request. Chairman Chandler declared the motion carried.

The Commission had under consideration the offers and bids of Kuhn, Loeb & Co., Halsey, Stuart & Co. Inc., and Associates; The First National Bank of Chicago and Associates; and The First National Bank of Portland, Oregon, Harris Trust and Savings Bank, Chicago, Bankers Trust Company, New York City, and Associates submitted at 9:00 a.m. this day for the purchase of $32,000,000 Oregon State Highway Bonds. It was the considered opinion of the majority present that the offer submitted by Kuhn, Loeb & Co., Halsey, Stuart & Co. Inc., and Associates was the lowest and best offer received, and that the interest of the State of Oregon would be best served by acceptance of said offer. Accordingly, motion was made by Commissioner Reynolds that the offer of Kuhn, Loeb & Co., Halsey, Stuart & Co. Inc., and Associates be accepted for the entire amount of $32,000,000 face value of Oregon State Highway Bonds now offered for sale, and that the bonds be sold to the Kuhn, Loeb & Co., Halsey, Stuart & Co. Inc., and Associates for the amount of its said offer. The motion was duly seconded by Chairman Chandler, and having received the majority vote of the members of the Commission, was by Chairman Chandler declared carried. The Commission's decision was publicly announced by Chairman Chandler at 10:15 a.m.

The Commission then considered offers, as follows, for lithographing the bonds:

List of Bidders

1. Security Banknote Company, Chicago
2. American Bank Note Company, New York
3. Columbian Bank Note Company, Chicago
4. The Irwin-Hodson Company, Portland, Oregon

Bidder	Basic Printing Cost	Extra for 3 Add. Interest Rates	Extra for Impressing State Seal	Extra for Delivery in Chicago	Extra for Delivery in Salem	Extra for Delivery in New York	Extra for Multiple Signature Facilities	Cor rab Tot
1.	$ 5,745.	$ 0.00	$ 240.00	$ 110.50	$ 447.50	$ 0.00	$ 400.00	$ 6,3
2.	6,240.	**	160.00	*	*	*	0.00	6,4
3.	5,550.	75.00	240.00	0.00	269.00	145.00	400.00	6,4
4.	8,000.	75.00	***	200.00	50.00	200.00	224.00	8,4

* These items included in basic charge of 19½¢ per bond for delivery at New York City or Chicago and in basic charge of 20¢ per bond for delivery at Salem, Oreg

** No charge for three interest rates-no quotation for four interest rates.

*** Price included with extra for multiple signature facilities.

It was the considered opinion of the Commission that the offer submitted by the Security Banknote Company, Chicago, is the best offer received. Accordingly, motion was made by Commissioner Reynolds that the bids received for lithographing the bonds be delivered to the Department of Finance and Administration with the Commission's recommendation that the offer of Security Banknote Company, Chicago, for delivery of the bonds in New York City, be accepted and that the contract for the lithographing of the bonds be awarded to this company at the amount of its said offer. The motion was duly seconded by Chairman Chandler who declared it carried. The Secretary was thereupon instructed to arrange for the lithographing of the bonds pursuant to the action taken by the Commission.

Mr. R. L. Porter, Right of Way Engineer, reported the status of right of way acquisition for projects on which bids are to be received at the September letting. The Commission took no action on the report.

The Commission discussed with the Engineer the suggestions made by the Engineer in his letter of July 31, 1953 concerning a proposed adjustment of funds in the five-year construction program. The Engineer pointed out that in order to provide for an additional $1,200,000 on the Banfield Expressway and an additional $400,000 on the Rocky Creek-Brush Creek

project on the Oregon Coast Highway it appeared necessary to transfer $600,000 from the 1954-1955 bond funds set up for the Sherman Junction-Willow Dale Section and also to remove $400,000 from the 1954-1955 bond funds set up for the Gold Beach-Pistol River section of the Oregon Coast Highway. The jobs from which these funds have been transferred are to be done with 1957-1958 State funds. Of the $1,200,000 needed for the Banfield Expressway, it is contemplated to use $600,000 from 1954-1955 bond funds and $600,000 from 1957-1958 State funds.

Chairman Chandler expressed the thought that the members of the present Commission who have planned and formulated the bond construction program may not be on the Commission in years to come, and it is the wish of the present Commission to take such steps as may be possible to insure that the program as presently set up will be completed. The Commission at this time took no action on the Engineer's suggestions concerning adjustments in the five-year program but deferred action to the September meeting. The Engineer was instructed to prepare an appropriate minute entry covering the entire matter for insertion in the minutes of the September meeting.

The Commission discussed the contracting of projects that are to be financed with monies derived from highway bonds sold this date, and instructed the Secretary to prepare the record to show approval of the projects listed for contracting in 1953 as they appear in the "Schedule of Contract Lettings" that was tentatively approved by the Commission at its meeting on June 25, 1953. A program for additional funds is to be discussed at the September meeting of the Commission.

A delegation representing the West Side Highway Association appeared before the Commission to urge improvements to the Pacific Highway West and to the Amity-Dayton Secondary Highway. The following people were present:

Floyd R. Willert, President, West Side Highway Association, Dayton.
Vance Taylor, Director, West Side Highway Association, Corvallis.
Earl Coburn, Dave Ellis and Geo. O. Olson, all of Dayton.
V. R. Kem, Geo. Cooper and Floyd Fisher, all of Monmouth.
R. N. Duncan, Glen Watts, Albert Yoder, R. B. Loomis, Don Jones, W. A. Hemmelgarnth, H. W. Torbet, Robert Haberty, Bruce McDonnell, and Dr. C. H. Law, all of Amity.
H. A. Mc Callum, Monroe.
Wayne Giesy, Monroe Chamber of Commerce.
Colonel A. H. Bond and S. R. G. Radriguez, Benton County Chamber of Commerce, Corvallis.
Wm. J. Maxwell, Public Relations, Alderman Farms Dayton of McMinnville, and Mr. Emerson B. Page of Independence.

Mr. Willert headed the group. He stated that many people who live along the Pacific Highway West feel that it has been neglected as a highway. However, they are thoroughly appreciative of the work that has been performed. He stated that he had heard rumors that an allocation has been made for improvement of the Amity-Dayton Highway and hoped that it

would include a new bridge at Dayton; also that plans are under way to improve the section between Monmouth and Rickreall. He mentioned also the obsolete section of highway between Rickreall and Amity. Mr. Giesy pointed out the dangerous curves and slick condition of the highway between Junction City and Monroe. He also called attention to an inadequate bridge over the Long Tom River at Monroe and nine sharp curves north of Monroe. He alleged the widening and surfacing of this highway north of Monroe to Corvallis is all that is required on that section. Mr. Maxwell, speaking in behalf of Alderman Farms situated south of Dayton, called attention to the high tonnage of farm products that are hauled by the Alderman Farms over the Dayton bridge and the large number of people who have to cross the bridge daily in going to and from work at Alderman Farms. The bridge, he said, is a bottleneck to the free flow of people and trucking. Mr. Willert mentioned that trucks and buses pile up on the approaches to the Dayton bridge when the signal light is against them, and he felt such approaches might become dangerously overloaded. He also mentioned the traffic congestion that occurs when people attend football games at Corvallis and at Monmouth. He gave as his feeling that US99W is entitled to modernization and he urged the Commission to program the work for early undertaking. Mr. Taylor spoke for improvement of the Pacific Highway West south of Corvallis. He declared that the pavement on this section is extremely slick and as a result more accidents occur on this section of highway than occurs on the highway between Philomath and Corvallis. He suggested that it would be helpful were signs maintained along the highway calling attention to this condition until improvement of the highway is completed.

Commissioner Reynolds stated that the Commission plans to call for bids in September for improvement of the Pacific Highway West north from Monmouth to a point near Rickreall, but there are no definite plans for further improvement toward Amity. The Commission, he stated, knows of the existing hazards on this highway, and has in mind to eliminate some of them when funds become available to finance the work. He mentioned several proposed improvements to US99W including some work on the Amity-Dayton Secondary Highway in 1954 and a new bridge at Dayton. The Engineer was instructed to make a study of the bridge project and report his findings.

Mr. Herbert Gordon Oceanlake, appeared before the Commission and renewed a previous request for establishment of a State park in the Oceanlake area. He was accompanied by Mr. George Kennedy, City Manager, and Mr. E. E. Barze, police official. Mr. Gordon stated that to provide accommodations for the many people who come to Oceanlake for a one-day visit it is imperative there be accommodations for them in or close to the city. Mr. Kennedy stated that on a recent Sunday there were nearly 6,000 visitors in Oceanlake and as the weather is often windy on the beach, it would be a fine thing to have a sheltered park area for their accommodation when lunching and relaxing. He asked the Commission to reconsider its denial of a previous request to establish a park at this place. Mr. Gordon added the comment that a park situated in Oceanlake will be of interest to people from Willamette Valley points as well as to the residents of their city. He called the Commission's attention to the fact that water and sewer facilities are available. Chairman Chandler closed the conference by stating that the Commission will consult with the State Parks Superintendent, and will

discuss the matter further when Commissioner McIver is present.

A delegation from Tillamook County, headed by County Judge Otto E. Effenberger, appeared before the Commission regarding a remedy for a high water condition that exists at the Tillamook River bridge just west of the City of Tillamook, caused by high tides resulting from a break in the Sandspit at Bayocean. Accompanying Judge Effenberger were Charles Ross, Tillamook businessman; Harold Wade, mill operator; and Vern Tinnerstet, Manager of the Tillamook Chamber of Commerce. Judge Effenberger, who acted as spokesman, explained that the break in the Bayocean Sandspit causes higher tides in Tillamook Bay, which at times inundate the Netarts Highway for a distance of about 500 feet. It was his thought that the situation can be remedied either by constructing a dike or elevating the bridge, and he asked the Commission to do something about it. Mr. Ross stated that at high tides the road is sometimes under 24 inches of water. He declared that the condition is hazardous because of the logs and other debris that pile up, and because of traffic delays. As a result of discussion , the Commission instructed the Engineer to make an investigation in the very near future and report his findings to the members of the Commission over the telephone.

Mr. Ralph Peterson, Lane County Court Commissioner, appeared before the Commission to urge early construction of a route from Eugene to the coast popularly known as Route "F". He explained that plans are under way for development of better harbor facilities at Florence and that construction of the "F" route, being a shorter and more direct route than the Siuslaw Highway, would be of great benefit to lumber manufacturers in the Eugene area. He asked the Commission to reconsider this route and he offered County assistance in conducting the survey.

Commissioner Reynolds pointed out that Lane County and a number of other counties west of the Cascades, receive considerable funds for road construction from O & C timber sales which funds are not available to other Oregon counties. Chairman Chandler stated that improvements are now under way on the Siuslaw Highway and that he did not see much chance for work on Route "F" until the Siuslaw Highway had been placed in good shape. Mr. Peterson concluded the discussion by stating that if the Commission feels that improvement of the Siuslaw Highway should be given preference over Route "F", that meets with his satisfaction.

The Engineer discussed with the Commission the status of funds available for projects on which bids are to be received at the September letting. It was his thought that there might be a small leeway of available funds over the estimated contract prices.

The Engineer stated that Commissioner McIver at an earlier date had inquired concerning the economic value of a highway up Clackamas River including the section between Estacada and Milwaukie. To ascertain this value, he stated that it would be necessary to conduct an economic survey. He asked the Commission for authority to make such survey. The Commission approved the request.

The meeting recessed at 12:00 o'clock noon and reconvened at 2:00

p. m. in the same room with the same persons present and participating.

The Commission discussed with the Engineer the bids received at the morning session, and at 2:00 p. m., Commissioner Reynolds publicly announced the award of contracts as follows, the action of the Commission in each instance being unanimous:

"Construction of the North Corvallis overcrossing over the Southern Pacific Company's three branch lines on the Pacific Highway West near the north limits of Corvallis in Benton County. Nine bids were received for this project, the low bid being submitted by Parker-Johnson Co., Portland at $132,370. The contract has been awarded to the low bidder, Parker-Johnson Co., at their bid price.

"Reconstruction of the Columbia River Bridge approach on new alignment of the Columbia River Highway east of the City of Hood River in Hood River County. Gilbert Roberts, Hood River, submitted the low bid for this work at $22,578. Six higher bids were also received. The contract has been awarded to the low bidder, Gilbert Roberts, at his bid price.

"Reconstruction of the Rocky Point Bridge approach on the Pacific Highway near Gold Hill in Jackson County. Six bids were received for this project, the low bid being submitted by Ausland & Dodson, Grants Pass, at $48,057. The contract has been awarded to the low bidder, Ausland & Dodson, at their bid price.

"Grading and oiling on the Crescent Lake Secondary Highway about 34 miles east of Oakridge in Klamath County. Three bids were received for this work, the low bid being submitted by Central Heating Company, Inc. & F. L. Somers, Eugene, at $37,396. The Commission has rejected all bids as being too high.

"Grading and surfacing the Reedy Creek-Beamer Creek section of the Yachats County Road about 2 miles east of Yachats in Lincoln County. Glen Ousley, Eugene, submitted the low bid out of a total of 12 bids received, at $44,974. The Commission elects to accept the bid of Glen Ousley in the sum of $44,974 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the Bureau of Public Roads and Lincoln County is received and the sum of $10,200 is deposited by the County.

"Landscaping on the Couch Street-Ankeny Street Unit of the Front Avenue section on the Pacific Highway West in Portland, Multnomah County. Four bids were received for this project, the low bid being submitted by Parkrose Nursery, Portland, at $3,733.22. The contract has been awarded to the low bidder, Parkrose Nursery, at its bid price.

"Construction of rock base and oiling on the Juniper Canyon section of the Juniper Canyon-Umatilla County Road east of Holdman. Six bids were received for this job, the low bid being submitted by C. C. Meisel, McMinnville, at $77,957. The second low bid was submitted by Rogers Construction, Inc., Portland, at $80,704.

Mr. Meisel qualified his bids submitted today by stating that he would accept the award of only one project. The Sheep Creek project on which he also was the low bidder has been selected for award to him, rather than the Juniper Canyon section as being in the best interests of the State. The Commission for the Juniper Canyon job elects to accept the bid of Rogers Construction Co. in the sum of $80,704 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the Bureau of Public Roads and Umatilla County is received and the sum of $18,200 is deposited by the County.

"Redecking of the Umatilla River Bridge on the Oregon-Washington Highway near the east city limits of Pendleton: Only two bids were received for this work, the low bid being submitted by R. H. Jones, Hillsboro, at $23,416.50. The contract has been awarded to the low bidder, R. H. Jones, at his bid price.

"Surfacing project on the Sheep Creek Hill-Imnaha Section of the Little Sheep Creek Secondary Highway about 8 miles east of Joseph: Three bids were received for this project, the low bid being submitted by C. C. Meisel, McMinnville, at $63,794. The contract has been awarded to C. C. Meisel, at his bid price.

"Widening of the Cook Overcrossing on the West Portland-Hubbard Highway over the Southern Pacific Company's tracks about three miles south of the Pacific Highway West junction in Washington County: Parker-Johnson Co., Portland, submitted the low bid for this work out of a total of three bids received, at $55,837. The contract has been awarded to the low bidder, Parker-Johnson, at their bid price."

Mrs. Gertrude Jensen, Portland, Chairman of the "Columbia Gorge" committee of the Portland Women's Forum, appeared before the Commission and vigorously protested the Commission's action in refusing to purchase two tracts of property as an addition to the State Park system in the Columbia River Gorge as recommended by Mr. Marshall N. Dana. She pointed out that the Columbia Gorge committee now has official status as approved by the 1953 Legislature, and that as a representative of that committee, she had spent much time and money in trips to New York and other endeavors to preserve the timber in the Gorge, the cutting of which, she said, has been resumed. She inquired why the Commission is so indifferent to the removing of timber from the Gorge. Seventy Women's Clubs, she said, also want to know why, and she asked that she be furnished a copy of the Minutes of this meeting concerning the Gorge matters. The Secretary was instructed to send Mrs. Jensen the excerpt requested when the Minutes have been approved by the Commission. Chairman Chandler pointed out that the Highway Commission is charged with the responsibility of spending the Highway User's Gas Tax Funds, and that it is the feeling of the members of the Commission that it is outside Commission province to spend road-user's money for the acquisition of property in the Gorge as has been requested. The Commission, he said, has given this particular matter very careful consideration, and that is its decision. He commended Mrs. Jensen and the organizations that she represents, for doing a fine job in preserving scenery in the Columbia

River Gorge.

The Commission signed agreements and other papers as follows:

"Bargain and Sale Deed" with O. W. R. & N. Company covering strip of land on Arlington-Heppner Junction Section of Columbia River Highway, Gilliam County.

"Indentures of Access" covering the following:

a. Hansen property on Bay Park-Delmar Section of Oregon Coast Highway, Coos County.

b. Hinsdale property on Reedsport-Luder Creek Section of Umpqua Highway, Douglas County.

c. Shuttpelz property on Reedsport-Coos County Line Section of Oregon Coast Highway, Coos County.

"Lease for Land" with Julius and Viola Swanson covering westerly 30 feet of Lot 5, Block 32, Coos Bay Plat B, on the North Bend-Coos Bay Section of Oregon Coast Highway, Coos County.

"Agreement" with City of Albany re traffic survey in Albany. (Authorized by Commission April 8, 1953.)

"Bargain and Sale Deed" re transfer of property in Arlington to Shell Oil Company. (Authorized by Commission May 18-19, 1953)

"Bargain and Sale Deed" to City of Coos Bay for parcels of land on Coos Bay Section of Oregon Coast Highway. (Authorized by Commission January 21, 1952)

"Agreement" with Bureau of Land Management re joint use of Baker and Vale radio sites. (Authorized by Commission June 25, 1953.)

"Limited Quitclaim Deed of Surface Rights" -3 deeds-with Union Oil Company of California covering acquisition of three parcels of property for Oakland Junction-Deady Unit of Pacific Highway in Douglas County.

"Agreement" with Southern Pacific Company concerning the widening of the overcrossing structure at Cook on the West Portland-Hubbard Highway. (Authorized by Commission April 12, 1937)

"Agreement" with the City of Eugene covering the revision of traffic signals on the Pacific Highway, 6th and 7th Avenues, in Eugene. (Authorized by Commission May 18, 1953)

"Lease and Sale of Road Materials Agreement" re lease of a gravel bar area with Clark Morris and Ramona C. Morris for the Mt. Vernon-John Day Section of the John Day Highway. (Authorized by Commission

May 18, 1953)

"Project Agreements:"

Hood River (2nd St.) Structures, Columbia River Hwy.
Arlington-Heppner Junction Section , Columbia River Hwy.
Elkhead Road-Rice Hill Section , Pacific Hwy.
Divide-Anlauf Section. , Pacific Hwy.
Fern Corner-Burns Corner Section, Kings Valley Hwy.
State Street-Battle Creek Section, Salem By Pass (Pacific Hwy.)
Boones Ferry Road-Willamette River Section, West Portland-Hubbard Hwy.
Hayesville School-Battle Creek Section, Salem By Pass (Pacific Hwy.)

"Finance Agreement" and "Maintenance Agreement" with Lincoln County covering Reedy Creek-Beamer Creek Section of Yachats River County Road, Lincoln County.

"Bargain and Sale Deed" re sale of two parcels of property to George Walker, et al., adjacent to East Portland-Oregon City Highway at 17th and Schiler-Union Avenue, Portland.

"Easement for Lookout Station" with State Board of Forestry re construction, operation, and maintenance of fire lookout building on Saddle Mountain. (Authorized by Commission June 25, 1953.)

"Letter" to Oregon Congressional Delegation requesting the assistance of the Oregon Delegation in exempting states from the provisions of the Federal Documentary Stamp Tax.

"Letter" to Department of Agriculture, reference conveyance by the Federal Government to the State of title to Federal-owned land now leased by State as a part of the Cove Palisades State Park.

There being no further business to come before the Commission, the meeting adjourned at 2:30 p. m.

August 6 and 7, 1953

EXHIBIT "A"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW THEREFORE BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are, approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

Amount to be paid owners - chrg to Right of Way		$4,075.00

THINGS TO BE DONE BY THE STATE:

Construct access at Station 135+85, south side. Siphon at Station 136+25, south side.

Access not controlled -

EXHIBIT "B"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, it has been brought to the attention of the Commission that in some instances options have been taken on real properties needed for right of way and other highway purposes, and in other instances options are now being taken on real properties needed for right of way and other highway purposes, in connection with both of which situations it appears that formal authorization for such takings has not been recorded in the Commission's records or minutes; and

WHEREAS, notwithstanding the fact that formal authorization for such acquisitions has not been made a part of the Commission's written records, the taking of such options have the informal approval of the Commission; and

WHEREAS, for the purpose of supplementing such informal records and action, it is the purpose of the Commission at this time to ratify all options so taken.

THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Commission, all members being present and voting affirmatively, as follows:

1. That it hereby is declared that all real properties needed for right of way or other highway purposes in connection with the construction, reconstruction, or other improvement of the following-named highway projects hereby are declared necessary for said projects and options heretofore taken and approved covering any of said real property hereby are approved:

County and Section	Highway
JOSEPHINE	
Grants Pass-Murphy Section, R/W Widening and improving Map No. 7B-16-17, Engr. Sta. 129 to Engr. Sta. 310	Williams Secondary
LANE	
From Prairie Junction Road to 6th & 7th Streets Widening and improving Pacific Hwy in Eugene Map No. 7B-21-7, Engr. Sta. 540+50 to Engr. Sta. 607+30	Pacific

2. It is further resolved that the informal action of the Commission and authorization for said acquisitions hereby is ratified.

(cont.)

EXHIBIT "B" (cont.)

3. That this resolution be entered in the minutes and records of the Commission as of August 6, 1953, and shall be deemed effective as of the date or dates of any options taken with respect to any real properties acquired in connection with any of the projects listed hereinabove.

EXHIBIT "C"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, by virtue of the provisions of Section 100-113, O. C. L. A., as amended by Chapter 129, Oregon Laws 1953, the Highway Commission is directed and authorized to appoint, with the approval of the Attorney General, an Assistant Counsel; and

WHEREAS, Robert L. May, Jr., is an attorney in good standing before the Oregon State Bar and admitted to practice before all of the courts of the State of Oregon, is an Assistant Attorney General, and is qualified to discharge the duties of Assistant Counsel for the Commission; and

WHEREAS, C. W. Enfield, an Assistant Attorney General and Chief Counsel to the Oregon State Highway Commission, has requested and recommended that the said Robert L. May, Jr., be appointed and authorized to serve as Assistant Counsel to the State Highway Commission; and

WHEREAS, the Attorney General of the State of Oregon has approved of such appointment;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members being present and affirmatively voting, as follows:

1. That Robert L. May, Jr., be and he hereby is appointed as Assistant Counsel for the Highway Commission, to serve in such capacity for a period of four years.

2. That Robert L. May, Jr., shall serve under the direction of the Chief Counsel and in the absence of the Chief Counsel shall have full authority to perform any duty required or permitted by law to be performed by the Chief Counsel.

3. That the salary which shall be paid to Robert L. May, Jr. is hereby fixed by the Commission in the sum of $575.00 per month.

4. That in addition to the salary that shall be paid Robert L. May, Jr., he shall be entitled to and shall be paid his actual traveling and other necessary expenses as may be incurred in the performance of his official duties.

5. That this resolution shall be entered in the minutes and records of the Commission as of the 6th day of August, 1953.

August 6, 1953

EXHIBIT "D"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, under the provisions of Section 15, Chapter 405, Oregon Laws 1951, as amended by Section 9, Chapter 691, Oregon Laws 1953, the State Highway Commission, with respect to state highways, is authorized to prohibit the operation thereon of any or all vehicles of any class or kind, and may impose limits as to any gross weight or any dimension of any vehicle or combination of vehicles and impose any other restrictions that in the judgment of the State Highway Commission are necessary to protect any highway or section thereof from being unduly damaged; and

WHEREAS, many state highways and sections thereof, including bridges, become impaired and in a weakened condition when subjected to periods of excessive rainfall, periods of flood or periods of freezing and thawing, or when adversely affected by fire, wind, landslides, subsidence, or structural instability, and said highways and sections thereof during such periods or when so adversely affected have been and are damaged due to the movement of motor vehicles having gross weights which are lawful; and

WHEREAS, said state highways and sections thereof subject to such condition can only be preserved and protected by the immediate closure thereof to motor vehicles having any gross weight that will cause damage to said highways or sections thereof; and

WHEREAS, among the other powers and duties of the State Highway Engineer, he is required under the provision of Section 100-126, O. C. L. A., to collect and compile information and statistics relative to the mileage, character and condition of highways and bridges in the different counties in the state, both with respect to state and county highways;

NOW, THEREFORE, Be it and it hereby is Resolved and Ordered by this Commission, all its members being present and voting affirmatively as follows:

1. It is the judgment and opinion of this Commission that those things hereinafter set forth and ordered in this Resolution are necessary to protect state highways and sections thereof, including bridges, from being unduly damaged.

2. It is hereby directed that whenever information and statistics collected and compiled by the State Highway Engineer relative to the character and condition of state highways reveal that any state highway or section thereof, including bridges, is being subjected to a period of excessive rainfall, flood, or freezing and thawing, or has been or is being adversely affected by fire, wind, landslides, subsidence, or structural instability, and by reason thereof is in a weakened condition and is being damaged by the movement thereon of any motor vehicles or combination of motor vehicles, the State Highway Engineer or either Assistant State Highway Engineer shall determine from such information and statistics the maximum gross weight of any

(cont.)

vehicle or combination of vehicles which can move upon such state highway or section thereof without unduly damaging the same.

3. It is further directed that upon determination of the maximum gross weight of any vehicle or combination of vehicles which can move upon such state highway or section thereof without unduly damaging the same, the State Highway Engineer, or either Assistant State Highway Engineer, or any Division Engineer upon the approval of the State Highway Engineer or either Assistant State Highway Engineer, shall cause to be posted conspicuous signs at each end of the highway or section of th highway affected and at such other places as may be necessary to inform the public, giving notice that all vehicles or combination of vehicles having any gross weight in excess of said maximum gross weights are prohibited from moving upon said highway or section thereof.

4. It is hereby directed and ordered that from and during the time such signs are posted as set forth hereinabove, the movement upon any highway or section thereof so posted of any vehicle or combination of vehicles having any gross weight in excess of any maximum gross weight specified on such signs is prohibited and no person shall operate any vehicle or combination of vehicles having any gross weight in excess thereof upon such highway or section thereof.

5. Whenever the information and statistics collected and compiled by the State Highway Engineer reveal that any highway or section thereof which has been posted as set forth hereinabove is in such condition that said highway or section thereof will not be unduly damaged by the unrestricted movement of vehicles or combination of vehicles having lawful gross weights, the signs giving notice of reduced weight limits shall be immediately removed.

6. A complete report of all action taken pursuant to this Resolution shall be submitted to the Highway Commission by the State Highway Engineer or either Assistant State Highway Engineer at the meeting of the Commission next following such action.

7. That resolution pertaining to the imposition of limitations upon the gross weight of vehicles permitted to operate upon state highways adopted by this Commission and entered in its minutes as of the 19th day of February, 1952, is hereby revoked and rescinded.

8. Nothing herein shall be deemed to modify any action or actions of the Commission heretofore or hereafter taken based upon peculiar facts or circumstances applying to any particular section or sections of any state highway.

9. The Commission hereby reserves the right to change or modify the action hereby taken, but any change or modification shall be evidenced by Resolution or Order entered in the minutes and records of this Commission.

EXHIBIT "D" (cont.)

10. That this Resolution and Order be entered in the minutes of the Commission as of the 6th day of August, 1953, and that the original of this Resolution be filed in the office of the Secretary of the Highway Commission, and that a duly certified copy thereof be filed with the Secretary of State, the Public Utilities Commissioner, and the Superintendent of State Police.

EXHIBIT "E"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, Chapter 587, Oregon Laws 1953, authorizes the State Highway Commission to regulate, control or prohibit the parking of motor vehicles upon the right of way of any state highway outside the corporate limits of incorporated cities and towns; and

WHEREAS, said statute requires the said Commission to impose such regulations, restrictions or prohibitions by resolution or order entered in the official records of the State Highway Commission; and

WHEREAS, said statute provides further that the said Commission shall plan and maintain appropriate signs or markings, giving notice of all such regulations, restructions or prohibitions at such places as may be necessary to inform the public, and such regulations, restrictions or prohibitions shall be effective and shall have the force of law when the signs or markings giving notice thereof have been placed; and

WHEREAS, there is presently existing a hazardous condition at Crocker Lane on the Junction City-Eugene State Secondary Highway due to the present use of the highway shoulders and right of way for business activities by a certain service station which is located adjacent to said right of way; and

WHEREAS, the Highway Engineer has caused to be made an investigation and study of the effect of said service station upon the safety of the traveling public on said highway; and

WHEREAS, such investigation and studies disclose that the usurping of the highway shoulders and right of way by the operators of the service station is endangering the safety and welfare of the traveling public by limiting the sight distance of motorists below a safe minimum as well as causing a congestion in the flow of traffic; and

WHEREAS, the Highway Engineer in consideration of such investigations and studies has recommended to the Commission that the Commission restrict parking on said right of way; and

WHEREAS, the Commission having made a study of all factual data as disclosed by the said studies and investigations, and having duly considered the Engineer's reports and recommendations, is of the opinion that all further parking of vehicles upon that portion of right of way of the Junction City-Eugene State Secondary Highway, hereinafter described, should be prohibited in order to promote and protect the safety and welfare of the traveling public and to that end this resolution is adopted.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION AS FOLLOWS:

EXHIBIT "E" (cont.)

1. That all parking of motor vehicles is hereby prohibited on the shoulders or right of way of the Junction City-Eugene State Secondary Highway between Highway Center Line Stations 16+08 and 17+40 on the westerly side of said highway. Attached hereto, marked Exhibit "A" and by this reference made a part hereof, is a print upon which is shown the location of the area wherein parking is hereby prohibited.

2. That the Highway Engineer is hereby directed to cause appropriate signs or markings to be placed and maintained on the highway right of way at such places as may be deemed necessary to inform the public of the prohibition of parking as set forth in the above paragraph.

3. The Highway Engineer is also directed to erect a fence along the shoulder line of the said right of way at such places as may be deemed necessary in order to prevent the parking of motor vehicles on the said right of way.

4. The Chief Counsel is hereby directed to order the proprietor and/or operator of the said service station to desist from operating his business so as to cause or invite vehicles to park on the said shoulders or the said right of way. In the event that the said operator or proprietor, as the case may be, refuses to desist as ordered, the Chief Counsel is instructed to take such action as is deemed appropriate to enforce and carry out the parking restrictions set forth herein.

5. That this resolution shall be entered in the minutes and records of the Commission on this 6th day of August, 1953, and the Secretary is directed to mail one duly certified copy thereof to the Superintendent of State Police at Salem, Oregon, and one duly certified copy thereof to the Secretary of State.

EXHIBIT "F"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, under the provisions of Chapter 312, Oregon Laws 1953, any trees, timber, logs, poles or piling which remain for a period of more than thirty days upon the right of way of a state highway or upon real property adjacent thereto which is owned by the State, by and through its State Highway Commission, shall be conclusively presumed abandoned, and the Highway Commission is authorized to remove, destroy, sell or otherwise dispose of the same; and

WHEREAS, trees, timber, logs, poles and piling are frequently deposited upon the rights of way of state highways, and property adjacent thereto, by reason of storms, motor vehicle accidents and other causes, creating a hazardous and unsightly condition; and

WHEREAS, it is necessary and desirable that trees, timber, logs, poles and piling so deposited be removed as soon as possible to the end that such hazardous and unsightly conditions be eliminated, and the safety and welfare of the traveling public be promoted; and

WHEREAS, it is the judgment and opinion of this Commission that the adoption of the procedure and policy set forth herein will best accomplish these purposes within the meaning and intent of Chapter 312, Oregon Laws, 1953;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by this Commission as follows:

1. That the State Highway Engineer shall direct all District Maintenance Superintendents, Weighmasters, and other appropriate officers or employees of the State Highway Department, to immediately report to him the presence of any trees, timber, logs, poles or piling upon the right of way of any state highway or upon real property adjacent thereto which is owned by the State, by and through its State Highway Commission, unless such trees, timber, logs, poles or piling have been deposited or allowed to remain under the provisions of a permit granted by this Commission. Such report shall set forth the location of the trees, timber, logs, poles or piling, the estimated value thereof, and if the name and address of the owner or person depositing the same can be ascertained by examination of log brands, inquiry, or other source of information, such report shall contain such name and address.

2. That upon receipt of any such report, the State Highway Engineer, or his designated representative, shall, as a matter of courtesy only, give written notice to the owner or person depositing such trees, timber, logs, poles or piling that if the same are not removed within thirty days they will be

(cont.)

removed, destroyed, sold or otherwise disposed of by the Highway Commission, pursuant to the provisions of Chapter 312, Oregon Laws 1953.

3. That the State Highway Engineer, or his designated representative, is hereby authorized to remove, destroy or otherwise dispose of, by the most efficient and economical method, any trees, timber, logs, poles or piling which remain for a period of more than thirty days upon the right of way of a state highway or property adjacent thereto which is owned by the State, by and through its State Highway Commission, except those which have been placed or deposited or allowed to remain under the provisions of a permit granted by the Commission, and except poles erected for the purpose of carrying telegraph, telephone or electric lines or wires.

4. That in the event any trees, timber, logs, poles or piling which the State Highway Engineer is authorized to remove or dispose of are of a value sufficient to warrant the sale thereof, the State Highway Engineer may request the Chief Counsel to sell the same, and the Chief Counsel is hereby authorized to make such sales under the same terms and conditions as are set forth in that certain resolution identified as "Exhibit D", and made a part of the minutes of the meeting of the Highway Commission of April 21, 1952.

5. That this resolution may be amended or rescinded by this Commission when such action is deemed in the public interest.

6. That this resolution be entered in the minutes and records of this Commission as of this 6th day of August, 1953.

EXHIBIT "G-1"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make complete and final surveys of the route and location of:

1. Blackwell Hill-Medford Section of the Pacific Highway in Jackson County,

2. Rocky Point-Brush Creek Section of the Oregon Coast Highway in Curry County, and

3. Bend-Lapine Section of The Dalles-California Highway in Deschutes County

and in connection therewith to prepare maps showing the route and location of each of said highway sections and to file said reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed each of said surveys and has submitted the same for the approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the survey of the Blackwell Hill-Medford Section of the Pacific Highway, beginning at Highway Engineer's Station 257+00 about 2 miles east of the town of Gold Hill and extending in an easterly direction to Highway Engineer's Station 751+00 near the northwesterly city limits of the City of Medford, together with the map which, for identification purposes, bears map file number 7B-22-9, 17 and the date July, 1953, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building at Salem, Oregon.

2. That the survey of the Rocky Point-Brush Creek Section of the Oregon Coast Highway, beginning at Highway Engineer's Station 127+00 at Rocky Creek, approximately 2 miles south of the city of Port Orford, and extending in a southerly direction to Highway Engineer's Station 416+00, a short distance south of Humbug Mountain, together with the map which, for identification purposes, bears the map file number 7B-23-8 and the date

(cont.)

August, 1953, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building at Salem, Oregon.

3. That the survey of the Bend-Lapine Section of The Dalles-California Highway beginning at Highway Engineer's Station 190+00 approximately 4 miles south of Bend and extending in a southerly direction to Highway Engineer's Station 1504+41.10 in the town of Lapine, together with the map which, for identification purposes, bears map file numbers 7B-15-7, 8, 10, 11, 12, and 13 and the date July, 1953, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building at Salem, Oregon.

4. That when the abovesaid sections of said highways are permanently constructed the same shall be done in accordance with said surveys and locations, unless otherwise directed or ordered by the Commission.

5. That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of the highways along and over said surveys. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

6. That the survey of each of the above described highway sections has been made within the meaning and purpose of Chapter 226, Oregon Laws 1947, commonly known as the "Throughway Law", and said surveys were likewise made within the scope and purpose of those certain resolutions hitherto approved and adopted by the Highway Commission on November 3, 1948, and February 18, 1953, respectively, which resolutions designated certain highways and sections thereof as "throughways". Therefore, the construction of each of the above named sections of the said state highways shall be accomplished pursuant to and within the meaning and scope of the said law and said resolutions.

7. That this resolution be entered in the minutes and records of the Commission as of the 6th day of August, 1953.

EXHIBIT "G-2"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Forest Boundary-Flora Junction Section of the Enterprise-Lewiston Highway in Wallowa County and in connection therewith to prepare a map showing the route and location of said section of highway and file said report and record with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for the approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, maps and other engineering data, it is the judgment of the Commission that the same should be approved and filed;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the survey of the Forest Boundary-Flora Junction Section of the Enterprise-Lewiston Highway beginning at Highway Engineer's Station 0+00 near the southeast corner of Section 36, Township 4 North, Range 44 East, W. M., and extending in a northerly direction therefrom, a distance of approximately $7\frac{1}{2}$ miles to Highway Engineer's Station 425+92.52 near Flora Spur Junction, together with the map which, for identification purposes, bears map number 7B-23-4 & 5 and the date August, 1953, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

2. That when said section of said highway is permanently constructed the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of a highway along and over said survey. Said approval and adoption shall also be deemed and constituted instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That this resolution be entered in the minutes and records of the Commission as of the 6th day of August, 1953.

August 6, 1953

EXHIBIT "H"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, by the enactment of Chapter 149, Oregon Laws 1949, it is provided as follows:

> "Beginning with the year 1949 and annually thereafter there shall be and hereby is appropriated out of the state highway fund such sums of money as will equal 10 percent of all moneys credited to the state highway fund by the state treasurer between January 1 and December 31 of each year and which have accrued from funds transferred to the state highway fund by the state treasurer under the provisions of section 115-135, O. C. L. A.; section 15, chapter 413, Oregon Laws 1945, as amended by section 4, chapter 114, Oregon Laws 1947; and section 29 chapter 467, Oregon Laws 1947; and from fines and penalties collected for violations of the motor vehicle and transportation laws. Such appropriation shall be distributed among the several cities as provided in this act."

AND, WHEREAS, by said law it is further provided that:

> "Such appropriation shall be allocated to the cities as follows: The sum of two hundred fifty thousand dollars ($250,000) shall be withdrawn from such appropriation each year and set up in a separate account to be administered by the state highway commission. Such account shall be

(cont.)

EXHIBIT "H" (cont.)

spent each year by such commission upon streets not a part of the state highway system within cities which are receiving excessive wear through sudden increases in population in the area or heavy and unusual industrial traffic. Such commission shall determine the distribution of such expenditures after considering applications made to it therefor from the cities. The balance remaining in such appropriation after the withdrawal of said two hundred fifty thousand dollars ($250,000) shall be distributed to all of the cities. Each city shall receive such share of the balance as its population bears to the total population of the cities."

AND, WHEREAS, by section 3 of said act it is provided that:

"Funds accrued and payable to cities under this act shall be remitted semiannually by the secretary of state to the financial officer of each city. The funds appropriated by this act shall be apportioned on a semiannual basis immediately following June 30 and December 31 of each year by the state highway commission who shall certify such apportionment to the secretary of state. Upon receipt of such certificate the secretary of state shall issue his warrants therefor payable to the cities in the amounts set out."

EXHIBIT "H" (cont.)

WHEREAS, the funds or moneys which have been by the State Treasurer credited to the state highway fund during the period of January 1 to June 30, inclusive, of the year 1953, and which have accrued from the sources named herein, produced the following amounts:

Funds resulting under the provisions of Section 115-135, O. C. L. A., as amended by Section 1, Chapter 239, Oregon Laws 1949 (motor vehicle license fees)	$ 5,347,931.83
Funds resulting under the provisions of Section 15, Chapter 413, Oregon Laws 1945, as amended by Section 4, Chapter 114, Oregon Laws 1947, and as amended by Section 3, Chapter 385, Oregon Laws 1949 (gasoline tax)	12,750,438.87
Funds resulting under the provisions of Section 29, Chapter 467, Oregon Laws 1947 (motor carrier fees)	4,341,210.90
Funds resulting from fines and penalties collected for violations of the motor vehicle and transportation laws	171,766.26
	$22,611,347.86

AND, WHEREAS, the statutory ten percent of said total produces for allocation and distribution by the Highway Commission to the benefited cities and towns a total of $2,261,134.79, from which there is to be deducted one-half of the sum of $250,000, or $125,000, thus leaving for allocation and distribution for the period January 1 to June 30, 1953, the sum of $2,136,134.79, and

WHEREAS, by applying the factors of allocation or distribution provided for in said Chapter 149, Oregon Laws 1949, the State Highway Commission has determined upon an apportionment of said balance among the cities of the state as shown in the tabulation given below;

NOW, THEREFORE, be it and it hereby is resolved and ordered by this Commission as follows:

EXHIBIT "H" (cont.)

1. The Commission does hereby find, declare and order that the funds made available for allocation and distribution to the several cities of the State of Oregon pursuant to law, are hereby allocated and appropriated to the cities and/or towns named below in the amounts set opposite the names of the respective cities:

I. Cities of Populations 1,000 or more

City	Population	Amount
Albany	10,115	$ 29,211.96
Ashland	7,739	22,350.11
Astoria	12,331	35,611.73
Baker	9,471	27,352.10
Bandon	1,251	3,612.87
Beaverton	2,512	7,254.62
Bend	11,409	32,949.01
Brookings	1,525 *	4,404.18
Brownsville	1,175	3,393.38
Burns	3,093	8,932.53
Canby	1,671	4,825.82
Carlton	1,081	3,121.91
Central Point	1,667	4,814.27
Coos Bay	6,223	17,971.93
Coquille	3,964 *	11,447.97
Corvallis	16,207	46,805.56

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 3423, with Vernie Jarl for furnishing crushed materials in stockpile on the Days Creek-Tiller Section of the Tiller-Trail Secondary Highway in Douglas County, completed March 24, 1951.

"Contract No. 3438, with Lindstrom Bros., Inc. for constructing bridge, grading and paving on the Payette (Snake River) Section of the Old Oregon Trail Highway in Malheur County, completed July 8, 1953.

"Contract No. 3445, with General Construction Company for constructing approaches to the Marion Street Bridge on the Salem-Dallas Highway in Marion and Polk Counties, completed August 6, 1953.

"Contract No. 3605, with Guy F. Atkinson Co. for grading and paving of the Wygant Park-Hood River Section of the Columbia River Highway in Hood River County, completed July 7, 1953.

"Contract No. 3617, with Durbin Bros. for grading and bituminous macadam surfacing on the Prairie City (Johnson Avenue) Section in Grant County, completed July 10, 1953.

"Contract No. 3619, with R. H. Jones for constructing structures on the Jones Ranch-Mitchell Section of the Ochoco Highway in Wheeler County, completed July 31, 1953.

"Contract No. 3640, with Fred H. Slate Co. Oreg. Ltd. and E. C. Hall Co., for grading and paving on the Divide-Anlauf Unit, Divide-Rice Hill Section of the Pacific Highway in Douglas and Lane Counties, completed July 31, 1953.

"Contract No. 3660, with F. L. Somers for grading and paving on the Modoc Point-Barkley Springs Unit, Modoc Point-Algoma Section of The Dalles-California Highway in Klamath County, completed June 12, 1953.

"Contract No. 3667, with Tom Lillebo for constructing the Scholfield Creek Bridge on the Oregon Coast Highway in Douglas County, completed June 15, 1953.

"Contract No. 3676, with Donald M. Drake Co., for constructing Tualatin River Bridge on the West Portland-Hubbard Highway in Washington County, Completed July 30, 1953.

(cont.)

EXHIBIT "I" (cont.)

" Contract No. 3690 with O. C. Yocom Co. for grading and oil mat surfacing on the Lena-Nye Section of the Heppner Highway in Morrow and Umatilla Counties, completed July 1, 1953.

"Contract No. 3693 with Leslie Harris for reoiling on the Unity Junction-Mill Gulch Section of the Baker-Unity Highway in Baker County, completed June 30, 1953.

"Contract No. 3746 with Fred H. Slate Co. Oregon Ltd. and E. C. Hall Co. for construction of bridges, grading and paving on the Calapooya Creek-Sutherlin Section of the Elkton-Sutherlin Highway in Douglas County, completed June 22, 1953.

"Contract No. 3750, with Babler Bros., Inc. for grading and oil mat surfacing on the Deschutes County Line-Crooked River and Lone Pine School-O'Neil Sections of the Terrebonne-O'Neil Road and Lone Pine School Road in Crook County, completed June 2, 1953.

"Contract No. 3773, with Loree Building Service for constructing the Baker Maintenance Building in Baker County, completed June 30, 1953.

"Contract No. 3791, with Teller Construction Co. for constructing the Mosier Connection Grade Separation on the Columbia River Highway in Wasco County, completed June 9, 1953.

"Contract No. 3797, with Snook Brothers for constructing the Calapooya Creek Bridge and Stearns Lane Overcrossing on the Pacific Highway in Douglas County, completed June 23, 1953.

"Contract No. 3814, with Johnston and Bryant for constructing a Sand Storage Shed on the Wilson River Highway in Tillamook County, completed July 25, 1953.

"Contract No. 3825, with Trowbridge & Flynn Electric Co. for installing Twelfth Street Connection Traffic Lights on the Pacific Highway East in Marion County, completed May 15, 1953.

"Contract No. 3845, with Barney B. Helser for furnishing crushed rock in stockpiles on the Enterprise Section of the Wallowa Lake and Enterprise-Lewiston Highways in Wallowa County, completed July 10, 1953.

"Contract No. 3852, with Johnston & Bryant for constructing the Lyle Ferry Road Undercrossing on the Columbia River Highway in Wasco County, completed June 29, 1953.

"Contract No. 3862, with George Anderson for Astoria Traffic Installation (9th Street-14th Street Section) on the Oregon Coast Highway in Clatsop County, completed July 21, 1953.

EXHIBIT "I" (cont.)

"Contract No. 3863, with J. C. Compton Co. for reoiling on ten State Highways in seven counties, completed July 1, 1953.

"Contract No. 3864, with Stanton W. Payne for grading and surfacing on the Lower Fourmile Road Junction Section of the Oregon Coast Highway in Coos County, completed July 25, 1953.

"Contract No. 3869, with Warren Northwest, Inc., for grading and paving on the Mt. Angel Section of the Hillsboro-Silverton Highway in Marion County, completed July 25, 1953.

"Contract No. 3873, with Rogers Construction, Inc., for furnishing crushed rock in stockpiles on the Mitchell-Willow Creek Section of the Ochoco Highway in Wheeler County, completed June 27, 1953.

"Contract No. 3887, with Warren Northwest, Inc., for grading and paving on the Canby (S. 4th Avenue) Section in Clackamas County, completed June 24, 1953.

"Contract No. 3888, with Warren Northwest, Inc., for grading and paving on the Hubbard ("D" Street) Section in Marion County, completed June 22, 1953.

"Contract No. 3890, with Trowbridge & Flynn Electric Co. for Traffic Signal Installation in Coos Bay on the Empire-Coos Bay Highway in Coos County, completed June 30, 1953.

"Contract No. 3894, with San Jose Steel Co., Inc., for fencing on the Veterans Administration (Roseburg) Fencing Project of the Pacific Highway in Douglas County, completed June 25, 1953.

"Contract No. 3900, with Porter W. Yett for paving East Broadway Avenue in the City of Beaverton in Washington County, completed July 17, 1953.

"Contract No. 3911, with J. C. Compton Company for furnishing crushed materials in stockpiles on the Azalea-Jumpoff Joe Section of the ~~Oregon Coast~~ Pacific Highway, completed July 28, 1953.

"Contract No. 3919, with Oregon Asphaltic Paving Co. for grading and paving Sandy Heights Road Section in the City of Sandy in Clackamas County, completed July 28, 1953.

"Contract No. 3942, with Western Golf Course Supply Co. for installing an irrigation system on the Reedsport Junction Section of the Oregon Coast Highway in Douglas County, completed July 8, 1953.

"Contract No. 3943, with Russell Olson Construction Company for bituminous macadam surfacing on the Long Creek (East Main Street) City Street Section in Grant County, completed July 30, 1953.

(cont.)

EXHIBIT "I" (cont.)

"Contract No. 3954, with Parker-Schram Company for paving on the St. Helens (Columbia Blvd. and South First Street) Section in Columbia County, completed July 16, 1953.

"Contract No. 3988, with J. C. Compton Co. for oil mat surfacing on the Kingston-Scio and Oak Creek-Plainview Sections of the Scio-Stayton County Road and the Lebanon-Brownsville County Road in Linn County, completed July 23, 1953.

"Contract No. 3994, with Babler Bros., Inc., for oil mat surfacing on the Forest Boundary-Lapine Junction Section of the Burgess County Road in Deschutes County, completed July 21, 1953."

THEREFORE, BE IT RESOLVED that the work covered by State Highway contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

EXHIBIT "J"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, the Hermiston Secondary Highway, State Highway No. 333, is a state highway under the control and jurisdiction of the State Highway Commission; and

WHEREAS, under the provisions of Section 12, Chapter 405, Oregon Laws 1951, as amended by Section 9, Chapter 691, Oregon Laws 1953, the State Highway Commission is authorized to impose limits as to any gross weight or any dimension of a vehicle or combination of vehicles, and to impose any other restrictions that in the judgment of the Commission are necessary to protect any highway or section thereof from being unduly damaged; and

WHEREAS, said Hermiston Secondary Highway crosses the Umatilla River by a bridge structure located at mile post 11.84 of said highway, which said bridge structure constitutes and is a part of the Hermiston Secondary Highway, State Highway No. 333; and

WHEREAS, studies and investigations conducted by the State Highway Engineer indicate that said bridge is in such condition as to be incapable of safely sustaining or supporting vehicles or combinations of vehicles having the full gross weight authorized by law;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by this Commission as follows:

1. That in the judgment of this Commission it is necessary to impose reduced load limits upon the bridge across the Umatilla River located at mile post 11.84 of the Hermiston Secondary Highway, State Highway No. 333, in order to protect said bridge from being unduly damaged.

2. That the maximum gross weight of any vehicle or combination of vehicles, including load thereon, which shall be permitted to go upon said bridge shall not exceed 40,000 pounds or 20 tons.

3. That the State Highway Engineer be and hereby is directed to erect and maintain a sign in a conspicuous place and manner at each end of said bridge structure, giving notice of the reduced load limit imposed by this resolution.

4. That the reduced load limit imposed by this resolution be in full force and effect from 3:00 P. M., August 6, 1953, until rescinded, modified, or revoked by official action of this Commission.

5. That a duly certified copy of this resolution be furnished to the Secretary of State, the Superintendent of State Police, and the County Court of Umatilla County.

(cont.)

EXHIBIT "J" (cont.)

6. That this resolution be entered in the minutes and records of this Commission as of the 6th day of August, 1953.

EXHIBIT "K"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, on the 25th day of June, 1953, the Commission adopted a resolution reducing the maximum load limits on various state highways; and

WHEREAS, subsequent to the effective dates shown in said resolution, conditions have changed so that it no longer is necessary or desirable to maintain the reduced load limits set out in said resolution.

NOW, THEREFORE, BE IT RESOLVED that the action of the State Highway Commission reducing permissible load limits as set forth in said resolution of June 25, 1953, on various state highways and sections of highways, to wit:

Name of Highway and	No.	County	Section Restriction Removed	Date Lifted 1953
Crater Lake Secondary	232	Douglas	M.P. 0.0 to M.P. 5.29 (Entire length)	June 29 9:00 a.m.
West Diamond Lake Secondary	233	Douglas	M.P. 8.0 to M.P. 23.89	June 29 9:00 a.m.
East Diamond Lake Secondary	425	Douglas & Klamath	M.P. 0.0 to M.P. 14.72 (Entire length)	June 29 9:00 a.m.
Rome-Princeton Secondary	442	Harney & Malheur	M.P. 8.2 to M.P. 29.4 (8.2 mi.E. of Diamond Valley Hwy. Jct. to Road to Follyfarm)	July 16 9:00 a.m.

be and the same hereby is rescinded and cancelled insofar as it pertains to the highways and sections of highways listed hereinabove, and the maximum load limit permissible on such highways subsequent to the dates shown shall be the maximum load limit provided by law.

IT IS HEREBY ORDERED that a certified copy of this resolution be furnished to the county clerk of each county in which said highways or sections of highways are located, and a like copy to the Superintendent of the Department of State Police for his information.

Dated this 6th day of August, 1953.

August 6, 1953

EXHIBIT "L-1"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 187, Oregon Laws, 1953, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of sub-section (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purposes of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: HOOD RIVER SECONDARY HIGHWAY

Highway number: 281 Route number

adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this resolution be entered in the minutes and records of the Commission as of the 6th day of August, 1953.

EXHIBIT "L-2"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 187, Oregon Laws, 1953, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of sub-section (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purposes of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: COLUMBIA RIVER HIGHWAY

Highway number 2 Route number US 30

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 187, Oregon Laws, 1953, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of sub-section (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purposes of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

EXHIBIT "M"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, the State Highway Commission has found it necessary and desirable to relocate that certain section of the Columbia River Highway, State Highway No. 2, known as the Hood River-Mosier Section in Hood River County, which begins at State Highway Engineer's Station 1080+00 of the relocated highway and ends at State Highway Engineer's Station 1485+00 of the relocated highway; and

WHEREAS, as a consequence of the relocation of said section of highway certain portions or units of the old highway as hereinafter set forth have been eliminated from the boundaries of the relocated highway and are no longer needed for State highway purposes; and

WHEREAS, this Commission entered into an agreement with Hood River County on April 16, 1952, wherein it was agreed that complete jurisdiction and control over two units of the old highway therein and herein referred to as Units "B" and "C" would pass to and vest in the said County at such time as the said relocated section was completed and opened to public travel; and

WHEREAS, the said agreement provided further that a certain unit or portion of the old highway therein and herein referred to as Unit "A" would be retained by this Commission and would be made a part of the Mt. Hood Highway upon the completion of the said relocated section and the opening of the same to public travel; and

WHEREAS, the said relocated section is now open to public travel and the said Units "B" and "C" are no longer used or needed for highway purposes; and

WHEREAS, although the said relocated section is not as yet fully completed the same is open to public travel and vehicular traffic is presently moving thereover; and

WHEREAS, the County Court of Hood River County has requested that the jurisdiction and control over said Units "B" and "C" shall vest immediately in the County rather than at such time as the relocated section is fully completed; and

WHEREAS, this Commission is desirous of complying with the said request of County and to that end this resolution is being adopted so as to vest complete jurisdiction and control over said Units "B" and "C" in Hood River County as of the date of this resolution; and

WHEREAS, it is the purpose of this Commission to take official action and impress upon its records the disposition made of the said portions or units

(cont.)

of the right of way of said highway affected by reason of the said relocation.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the section of the Columbia River Highway, State Secondary Highway No. 2, located in Hood River County and known as the Hood River-Mosier Section, which begins at State Highway Engineer's Station 1080+00 of the relocated highway and ends at State Highway Engineer's Station 1485+00 of the relocated highway, is now open to public travel.

2. That the portion or unit of the old right of way which by reason of the relocation of the said highway and which is identified herein as Unit "A" is located as shown colored in purple on the print attached hereto, marked Exhibit "A" and by this reference made a part hereof. The location of Unit "A" is more particularly described as follows:

Unit "A"

Beginning at Highway Engineer's Station 1092+60 of the new route of the Columbia River Highway No. 2 in the Northwest quarter of the Southeast quarter of Section 27, Township 3 North, Range 10 East, W. M., and running thence easterly along the old highway to the intersection of the old highway and the Mt. Hood Highway No. 26 at Highway Engineer's Station 1143+88.9 of the Mt. Hood Highway Survey in the Northeast quarter of the Northeast quarter of Section 36, Township 3 North, Range 10 East, W. M. *

3. That pursuant to the terms of the aforesaid agreement, as modified, Unit "A" is hereby declared to no longer be a part of the Columbia River Highway and is hereby designated and made a part of the Mt. Hood Highway, State Highway No. 26, and shall be posted and maintained as such by the State Highway Department.

4. That the portion or unit of the old right of way which by reason of the relocation of the said highway is no longer within the boundaries of the old right of way and which is identified herein as Unit "B" is located as shown colored in red on the said Exhibit "A". The location of Unit "B" is more particularly described as follows:

Unit "B"

Beginning at the intersection of the Mt. Hood Highway with the old highway in the Northeast quarter of the Northeast quarter of Section 36, Township 3 North, Range 10 East, W. M., thence easterly via the former route of the Columbia River Highway to the east line of Section 31, Township 3 North, Range 11 East, W. M. *

EXHIBIT "M" (cont.)

5. That pursuant to the terms of the said agreement, as modified, Unit "B" is hereby declared to be no longer a part of the Columbia River Highway and the same hereby vests under and within the jurisdiction and control of the County Court of Hood River County, and all right, title and interest which the State has in Unit "B" hereby passes and vests in the said County Court and hereafter the same shall be maintained by the said County Court as a county road.

6. That the portion or unit of the old right of way which by reason of the relocation of the said highway is no longer within the boundaries of the old right of way and which is identified herein as Unit "C" is located as shown colored in brown on said Exhibit "A". The location of Unit "C" is more particularly described as follows:

Unit "C"

Beginning at the intersection of the old route of the Columbia River Highway and the west line of Section 32, Township 3 North, Range 11 East, W. M., and running thence easterly via the former route of the Columbia River Highway to the east line of Hood River County on the line between Sections 3 and 4, Township 2 North, Range 11 East, W. M.*

7. That pursuant to the terms of the said agreement, as modified, Unit "C" is hereby declared to be no longer a part of the Columbia River Highway and the same hereby vests under and within the jurisdiction and control of the County Court of Hood River County for such public use as the said County may determine and all right, title and interest which the State has in Unit "C" hereby passes and vests in the said County Court.

8. That pursuant to the terms of the said agreement all the wayside areas shown colored in orange on said Exhibit "A" shall be abandoned or conveyed as the case may be, to the County Court of Hood River County for such public uses as the said Court may determine. It is understood that the State shall execute all of the necessary instruments to convey the said wayside areas to the County Court and that the County Court shall accept the same and thereafter use said properties for public purposes. With respect to said wayside areas this Commission hereby declares that the same are not needed or required for any highway purposes or uses and that the jurisdiction and control thereover shall pass to and vest within the said County Court. *

9. That the area shown colored in green on said Exhibit "A" includes right of way acquired for the relocated section of highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with the area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for right of way and other highway purposes and uses. Therefore the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A"

(cont.)

EXHIBIT "M" (cont.)

shall be retained and held by the State. *

10. That the boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the State Highway Engineer or his authorized representative, and such boundary monuments shall thereafter be maintained in place.

11. That this resolution shall be entered in the minutes and records of the Commission on this 6th day of August, 1953, and the Secretary is directed to mail a duly certified copy thereof to the County Court of Hood River.

---

* The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 256, under the heading "Abandonment and Retention Resolutions", and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "N"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, the Wilson River Highway is one of the major state primary highways and is likewise a federal highway, which highway throughout its entire length carries a large volume of traffic; and

WHEREAS, the Tillamook County Fairgrounds adjoin the Wilson River Highway on the southerly side of said highway a short distance east of the City of Tillamook, and a hazardous condition is created at said location by reason of vehicles being parked on either shoulder of said Wilson River Highway during the progress of the Tillamook County Fair; and

WHEREAS, the roadway of said highway at said location is not of sufficient width to safely accommodate the traveling public and at the same time permit the parking of vehicles on the shoulders of the highway pavement; and

WHEREAS, in the opinion of the Commission, public welfare and public safety require that parking should be prohibited within said area, during the time that the County Fair is in progress,

NOW, THEREFORE BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports and recommendation by members of its staff, that the parking of vehicles on either side of the Wilson River Highway between Mile Post 1.48, one mile east of the east city limits of the City of Tillamook, and Mile Post 2.14 at the county road intersection near the State Highway Department Scale House, creates a hazard not only to highway traffic but to persons owning and using said parked vehicles.

2. That in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit the parking of vehicles thereon and at the same time provide the degree of safety and convenience, which, in the opinion of the Commission should be provided the motoring public.

3. That this Commission does hereby find and declare that the parking of vehicles on either side of the right of way of said highway within said termini should be prohibited during the period of August 8th to 15th, 1953, immediately preceding and during the progress of the Tillamook County Fair.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the

(cont.)

EXHIBIT "N" (cont.)

action of the Highway Commission as herein declared, on which signs shall be printed in plain, legible letters, "NO PARKING ON HIGHWAY SHOULDERS".

5. That a certified copy of this resolution be sent to the Tillamook County Court and a like copy to the Superintendent of the Department of State Police for his information.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 6th day of August, 1953.

EXHIBIT "O"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, under the provisions of Section 12, Chapter 405, Oregon Laws 1951, as amended by Section 6, Chapter 691, Oregon Laws 1953, the State Highway Commission is authorized to grant written revocable permits for the operation for a period not exceeding one year over State highways of vehicles having a height in excess of twelve and one-half feet but not in excess of thirteen and one-half feet under terms and conditions set forth in said statute; and

WHEREAS, it is the judgment and opinion of this Commission that the granting of permits for the operation of vehicles and combinations of vehicles of a height not exceeding thirteen and one-half feet over certain state highways and sections of highways, subject to terms and conditions set forth hereinafter, will not endanger the traveling public or highways or highway structures; and

WHEREAS, in the judgment and opinion of this Commission the adoption of a standard form of permit for the operation of vehicles or combinations of vehicles having a height not in excess of thirteen and one-half feet, which standard form of permit incorporates adequate regulations of the Commission for the protection of highways, highway structures, and the traveling public, and does not require the signature of the Commission, would facilitate the issuance of such permits with less delay to the applicant and with less cost and inconvenience to the State;

NOW, THEREFORE, BE IT RESOLVED BY THIS COMMISSION, all members being present and voting affirmatively as follows:

1. That subject to such action as the Commission may hereafter deem to be in the public interest, the issuance of permits for the operation of vehicles or combinations of vehicles having a height in excess of twelve and one-half feet but not in excess of thirteen and one-half feet, pursuant to the provisions of Section 12, Chapter 405, Oregon Laws 1951, as amended by Section 6, Chapter 691, Oregon Laws 1953, hereby is authorized on the form of permit which is attached hereto and is hereby approved and adopted by this Commission.

2. The State Highway Engineer is directed to determine the highways or sections of highways upon which there is any overhead structure or other obstruction having a vertical clearance less than fourteen feet above any point on the roadway surface if the effective roadway width is less than twenty feet, or within ten feet from the center line of the highway if the effective roadway width is more than twenty feet. A list of such highways or sections of highways shall be attached to each permit issued pursuant to this resolution. No such permit shall be issued or valid for the operation of any vehicle or combinations

(cont.)

EXHIBIT "O" (cont.)

of vehicles having a height in excess of twelve and one-half feet over any highway or section of highway set forth on said list.

3. That permits on said attached form may be issued for and by the State Highway Commission within the meaning, purpose and intent of Section 12, Chapter 405, Oregon Laws 1951, as amended by Section 6, Chapter 691, Oregon Laws 1953, and shall be valid when bearing the facsimile signature of R. H. Baldock, State Highway Engineer, and signed by any one of the following designated persons:

State Highway Engineer
First Assistant State Highway Engineer
Second Assistant State Highway Engineer
Director of Permits
Transportation Permit Supervisor

provided that in case of emercengy, permits upon said form may be issued from field offices, but only when the issuance of such permit has first been approved by the Director of Permits or by the Transportation Permit Supervisor. Any permit issued from a field office shall be valid when bearing the facsimile signature of R. H. Baldock, State Highway Engineer, and signed by any person designated by the Director of Permits as being duly authorized to issue permits in accordance with the resolution of this Commission adopted on July 11, 1952.

4. All permits issued pursuant to this resolution shall be valid for a period of one year from the date of issuance; provided, however, that any permit issued pursuant to this resolution may be revoked by this Commission, if such action is deemed necessary in the public interest.

5. That no permit shall be issued pursuant to this resolution for the operation of any vehicle or combination of vehicles engaged in transporting lumber, baled hay or logs, except that permits may be issued for the operation of a vehicle or combination of vehicles engaged in the transportation of one log loads only.

6. That the Commission hereby reserves the right to change or modify the action hereby taken, but any change or modification shall be evidenced by resolution or order entered in the minutes and records of the Commission.

7. That this resolution be entered in the minutes and records of the Commission as of the 6th day of August, 1953, and that the original of this resolution be filed in the office of the State Highway Commission, and that a copy thereof be furnished to each the Secretary of State, Public Utilities Commissioner, and the Superintendent of State Police.

EXHIBIT "P-1"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has adopted a survey of a route and has designated said route as a state highway, to be known as Unit No. 4 of the T. H. Banfield Expressway, and has ordered and declared that said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary;

WHEREAS, the Commission by resolution of April 8, 1953 declared the need and necessity of the following described real property for right of way purposes for the proper establishment, construction improvement and maintenance of Unit No. 4 of the T. H. Banfield Expressway as a throughway, and in connection therewith, the construction and maintenance of approach or connecting roads between the said T. H. Banfield Expressway and N. E. 82nd Avenue, also known as Secondary State Highway No. 160, and

WHEREAS, the Commission has made a further investigation of the need for the said property and it is the judgment of the Commission that the said real property is needed not only for right of way purposes, but for the additional

(cont.)

EXHIBIT "P-1" (cont.)

purpose of maintaining an unobstructed view of the said, T. H. Banfield Expresway and the approach or connecting roads thereto so as to provide for the safety of the traveling public.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes and for the maintenance of an unobstructed view so as to provide for the safety of the traveling public, for the proper establishment, construction, improvement and maintenance of Unit No. 4 of the T. H. Banfield Expressway as a throughway, and in connection therewith, the construction and maintenance of approach or connecting roads between the said T. H. Banfield Expressway and N. E. 82nd Avenue, also known as Secondary State Highway No. 160, the following described real property in fee simple, to wit:

R 2008
Owner: Elnora A. Ruef

A parcel of land being all of Lots 3, 4, 41 and 42, Block 9, Lee Bow Park Addition, City of Portland, County of Multnomah, State of Oregon, except that part of said lots lying in N. E. 82nd Avenue, and also excepting that part of said Lots 3 and 4 conveyed to the State of Oregon, by and through its State Highway Commission, by deed dated August 4, 1949, recorded in Book 1352, Page 441, Multnomah County Record of Deeds.

The parcel of land to which this description applies contains 8,568 square feet.

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

4. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests

EXHIBIT "P-1" (cont.)

of the State, the State Highway Commission, or the property owners.

5. That this resolution be entered in full in the minites and records of the Commission this 6th day of August, 1953.

EXHIBIT "P-2"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to, or any interest in, any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has adopted a survey of a route and has designated said route as a state highway, to be known as the Divide-Rice Hill Section of the Pacific Highway, and has ordered and declared that said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Commission by a resolution made and entered in its records on the 21st day of January, 1953, declared the necessity and need for the acquisition of certain parcels of land lying in the South half ($S\frac{1}{2}$) of the South half ($S\frac{1}{2}$) of Section 10, and in the North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 16, Township 21 South, Range 4 West, W. M., Douglas County, Oregon, and owned by LeRoy Lumber Company, et al, for right of way purposes, for the proper establishing, relocating, constructing, improving and maintaining the said Divide-Rice Hill Section of the Pacific Highway, and in addition, for state park purposes, and authorized the acquisition of the said parcels of land in the manner provided by law, and it now is the opinion of the Commission that it is no longer necessary to acquire all of the right of way that had been declared to be necessary in the said resolution of January 21, 1953, nor the real property set forth in said resolution for state park purposes, and it is, therefore, the opinion of the Commission that the said resolution of January 21, 1953, should be revised; and

WHEREAS, for the purpose of establishing, relocating, constructing, improving and maintaining the said Pacific Highway as a throughway, to the end that

(cont.)

human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby declare that the resolution made and entered in its records of January 2., 1953, declaring the necessity for the acquisition of certain parcels of land lying in the South half ($S\frac{1}{2}$) of the South half ($S\frac{1}{2}$) of Section 10, and in the North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 16, Township 21 South, Range 4 West, W. M., Douglas County, Oregon, and owned by LeRoy Lumber Company, et al, be, and the same hereby is, amended by this resolution.

2. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Divide-Rice Hill Section of the Pacific Highway as a throughway, the following described real property in fee simple, to wit:

L 1815
Owner: LeRoy Lumber Company, et al

A parcel of land lying in the South half ($S\frac{1}{2}$) of the South half ($S\frac{1}{2}$) of Section 10, and in the North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 16, Township 21 South, Range 4 West, W. M., Douglas County, Oregon, the said parcel being that portion of said South half ($S\frac{1}{2}$) of the South half ($S\frac{1}{2}$) of Section 10 and the North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 16 included in a strip of land of variable width, lying on each side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 18+04.30, said Station being 478.83 feet North and 978.89 feet East of the Southeast corner of said Section 10; thence on a 1909.86 foot radius curve right (the long chord of which bears South 88° 42' 30" West) 1389.44 feet; thence on a spiral curve right (the long chord of which bears North 65° 27' West) 500 feet; thence North 62° 57' West 2.5 feet; thence on a spiral curve left (the long chord of which bears North 66° 17' West) 400 feet; thence on a 1145.91 foot radius curve left (the long chord of which bears North

(cont.)

EXHIBIT "P-2" (cont.)

76° 59' 30" West) 161.67 feet; thence on a spiral curve left (the long chord of which bears North 87° 42' West) 400 feet; thence South 88° 58' West) 1373.04 feet; thence on a spiral curve left (the long chord of which bears South 86° 18' West) 400 feet; thence on a 1432.39 foot radius curve left (the long chord of which bears South 74° 47' 45" West) 308.54 feet; thence on a spiral curve left (the long chord of which bears South 63° 17' 30" West) 400 feet; thence South 60° 37' 30" West 4.63 feet; thence on a spiral curve right (the long chord of which bears South 63° 07' 30" West) 500 feet; thence on a 1909.86 foot radius curve right (the long chord of which bears South 76° 26' 30" West) 554.44 feet; thence on a spiral curve right (the long chord of which bears South 89° 45' 30" West) 500 feet; thence North 87° 44' 30" West 285.83 feet; thence on a spiral curve left (the long chord of which bears South 88° 55' 30" West) 500 feet; thence on a 1432.39 foot radius curve left (the long chord of which bears South 70° 58' 15" West) 564.38 feet; thence on a spiral curve left (the long chord of which bears South 53° 01' West) 500 feet; thence South 49° 41' West 1239.74 feet to Station 117+88.51, said center line crossing the East line of said South half ($S\frac{1}{2}$) of the South half ($S\frac{1}{2}$) of Section 10 and the West line of said North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 16 approximately at Stations 27+92 and 112+75, respectively.

Except that part of said strip of land lying within a tract of land in the Southwest quarter ($SW\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 10 as deeded to Frank J. Medine, recorded in Book 99, Page 374, of Douglas County Deed Records. Also excepting that part of said strip of land lying within a tract of land in the Southwest quarter ($SW\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 10 as deeded to Pass Creek Development Company, recorded in Book 189, Page 367, of Douglas County Deed Records.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Southerly Side of Center Line	Width on Northerly Side of Center Line
22+00	28+00	150 feet	Variable to railroad right of way
28+00	29+50	150 feet on a straight line to 250 feet	"
29+50	36+96.24	250 feet	"

(cont.)

EXHIBIT "P-2" (cont.)

36+96.24	43+00	300 feet	Variable to railroad right of way
43+00	52+00	Taper on a straight line from 300 feet at Station 43+00 to the Southeast corner of the Pass Creek Development Co. tract, deed recorded in Book 189, Page 367; thence along the Southerly line of said Pass Creek Development tract to a point opposite Station 52+00	"
52+00	66+50	150 feet	"
66+50	68+00	150 feet on a straight line to 250 feet	"
68+00	69+00	250 feet	"
69+00	70+00	250 feet on a straight line to 150 feet	"
70+00	80+50	150 feet	"
80+50	84+00	200 feet	"
84+00	100+00	150 feet	"
100+00	101+00	150 feet on a straight line to 230 feet	"
101+00	109+50	230 feet	"
109+50	111+35	230 feet on a straight line to 180 feet	"
111+35	116+00	180 feet	"

This parcel consists of two parts, one in said Section 10 and the other in said Section 16.

The bearings used herein are based upon the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 55.12 acres, of which 8.73 acres lie within the existing right of way, title to which hereby is acknowledged to be in the public, and 46.39 acres lie outside of the existing right of way.

3. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the relocated Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

(cont.)

EXHIBIT "P-2" (cont.)

a. A right of access to the relocated Pacific Highway of a width of 25 feet on the North side of the said relocated highway, opposite Highway Engineer's center line Station 45+25, for private access only.

b. A right of access to the relocated Pacific Highway of a width of 25 feet on the North side of the said relocated highway, opposite Highway Engineer's center line Station 69+90, for private access only.

c. A right of access to the relocated Pacific Highway of a width of 25 feet on the South side of the said relocated highway, opposite Highway Engineer's center line Station 56+75, for private access only.

d. A right of access to the relocated Pacific Highway of a width of 25 feet on the South side of the said relocated highway, opposite Highway Engineer's center line Station 92+75, for private access only.

e. A right of access to the relocated Pacific Highway of a width of 25 feet on the South side of the said relocated highway, opposite Highway Engineer's center line Station 113+50, for private access only.

f. An unrestricted right of access to the relocated Pacific Highway of a width of 25 feet on the South side of the said relocated highway, opposite Highway Engineer's center line Station 79+00.

g. A right of access to the relocated Pacific Highway of a width of 25 feet on the South side of the said relocated highway at a point where the present State quarry haul road intersects with the Southerly right of way line of the relocated Pacific Highway in Section 11, Township 21 South, Range 4 West, W. M., Douglas County, Oregon, approximately opposite Highway Engineer's center line Station 22+00, together with an easement 25 feet in width for roadway purposes in the most appropriate location across real property owned by the State of Oregon in said Section 11, Township 21 South, Range 4 West, W. M., Douglas County, Oregon, the Westerly terminus for said easement to be located on the owners' remaining real property in Section 10, Township 21 South, Range 4 West, W. M., Douglas County, Oregon, and the Easterly terminus to be located on the State quarry haul road in said Section 11, Township 21 South, Range 4 West, W. M., Douglas County, Oregon, for private access only.

Private access as herein referred to is defined as a right of access from and to land abutting a highway, said accesses to be for ordinary travel to and from the abutting land only and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which in any manner caters to, invites, solicits from, or is dependent upon the users of the said highway; said accesses from said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State shall have the power to close and barricade said accesses for all purposes in the event of any violation.

The State shall, however, have the right at its option to build at any future time at its sole cost a frontage road or roads within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access herein reserved to and from the aforesaid highway and the easement for roadway across the real property owned by the State of Oregon and described in subsection "G" above, that are on or adjacent to any such frontage road or roads shall cease, but the owners, their heirs and assigns, shall have access to the said frontage road or roads at such places as will afford reasonable and safe connections. Said frontage road or roads shall be connected to the said main highway or to other public ways only at such point or points as the State of Oregon may designate.

4. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury of damage.

5. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

6. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

EXHIBIT "P-2" (cont.)

7. That this resolution be entered in full in the minutes and records of the Commission this 6th day of August, 1953.

EXHIBIT "P-3"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establush, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct, improve and maintain the Hayesville Junction-Wilsonville Junction Section of the Portland-Salem Expressway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be established, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of establishing, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled;

(cont.)

EXHIBIT "P-3" (cont.)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper establishment, construction, improvement and maintenance of the Hayesville Junction-Wilsonville Junction Section of the Portland-Salem Expressway as a throughway, the following described real property in fee simple, to wit:

R 20358
Owner: Oscar E. Ferguson, et al

Parcel No. 1:

A parcel of land lying in Lots 10, 15 and 16, Kennedy Acres, situated in the Patrick M. Gleeson Donation Land Claim No. 75, also lying in Section 6, Township 5 South, Range 1 West, and Section 1, Township 5 South, Range 2 West, W. M., Marion County, Oregon, the said parcel being that portion of said Lots 10, 15 and 16 included in a strip of land 274 feet in width, 174 feet on the Northwesterly side and 100 feet on the Southeasterly side of the center line of the Portland-Salem Expressway as said highway has been located, which center line is described as follows:

Beginning at Engineer's center line Station 1106+42.58, said Station being 665.85 feet South and 2189.89 feet East of the Northwest corner of said Patrick M. Gleeson Donation Land Claim; thence South 37° 28' West 1357.42 feet to Engineer's center line Station 1120+00; said center line crosses the Northerly line of said Lot 10 and the Southerly line of said Lot 16 approximately at Engineer's center line Stations 1110+00 and 1119+14, respectively.

The bearings used herein are based on the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 5.25 acres, of which 0.12 acre lies within the existing right of way, title to which hereby is acknowledged to be in the public, and 5.13 acres lie outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said Hayesville Junction-Wilsonville Junction Section of the Portland-Salem

EXHIBIT "P-3" (cont.)

Expressway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described.

3. The State Highway Commission has further found that due to the acquisition of the real property hereinabove described as Parcel No. 1, the denial of access thereto, and the deprivation of all means of access from a part of the remainder of the owners' real property, which part lies immediately east of the real property hereinabove described as Parcel No. 1, and is described below as Parcel No. 2, to any public highway and to the rest of the remainder of the owners' real property described below as Parcel No. 3, it is in the best interests of the property owners, as well as to the best interest of the State of Oregon, for the State to acquire fee simple title to the owners' entire tract of real property, which said tract includes that portion thereof hereinabove described as Parcel No. 1, and the real property described as follows, to wit:

Parcel No. 2:

A parcel of land lying in Lots 10, 15 and 16, Kennedy Acres, situated in the Patrick M. Gleeson Donation Land Claim No. 75, also lying in Section 6, Township 5 South, Range 1 West, and Section 1, Township 5 South, Range 2 West, W. M., Marion County, Oregon, the said parcel being described as follows:

That portion of said Lots 10, 15 and 16 lying Southeasterly of a line which is parallel to and 100 feet Southeasterly of the located center line of the Portland-Salem Expressway, containing 6.04 acres, more or less.

Parcel No. 3:

A parcel of land lying in Lots 10 and 15, Kennedy Acres, situated in the Patrick M. Gleeson Donation Land Claim No. 75, also lying in Section 6, Township 5 South, Range 1 West, and Section 1, Township 5 South, Range 2 West, W. M., Marion County, Oregon, the said parcel being that portion of said Lots 10 and 15 lying Northwesterly of a line which is parallel to and 174 feet Northwesterly of the located center line of the Portland-Salem Expressway, containing 1.75 acres outside of the existing right of way.

4. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Highway Commission will be most compatible with the greatest public good and the least private injury of damage.

EXHIBIT "P-3" (cont.)

5. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

6. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners,

7. That this resolution be entered in full in the minutes and records of the Commission this 6th day of August, 1953.

EXHIBIT "P-4"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Willamette Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Deception Creek-Oakridge Section of the Willamette Highway, and for such purpose and in connection therewith, the real property hereinafter described is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proposed widening, improvement and maintenance of the Deception Creek-Oakridge Section of the Willamette Highway, the following described real property in fee simple, to wit:

R 20574
Owner: Frank H. Kincaid, et ux

A parcel of land lying in the North half ($N\frac{1}{2}$) of Section 17, Township 21 South, Range 3 East, W. M., Lane County, Oregon, the said parcel being a strip of land extending from the East line of Middle Fork as platted and recorded to a line at right angles to the center line of the existing Willamette Highway at Station 1171+00, said strip of land being 60 feet in width, lying on the Northerly side of said center line, which center line is described as follows:

Beginning at Engineer's center line Station 1166+00, said Station being 152.98 feet North and 2495.78 feet East of the West quarter ($W\frac{1}{4}$) corner of said Section 17; thence South 80° 56' East 183.55 feet; thence on a 11459.16 foot

(cont.)

2716.1

EXHIBIT "P-4" (cont.)

radius curve left (the long chord of which bears South 81° 43' 28" East) 316.45 feet to Station 1171+00.

The parcel of land to which this description applies contains 0.50 acre, of which 0.33 acre lies within the existing right of way, title to which hereby is acknowledged to be in the public, and 0.17 acre lies outside of the existing right of way.

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property with respect to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

5. That this resolution be entered in full in the minutes and records of the Commission this 6th day of August, 1953.

EXHIBIT "P-5"

and required for right of way purposes, for the proper establishment, construction, improvement and maintenance of the Hayesville Junction-Wilsonville Junction Section of the Portland-Salem Expressway as a throughway, the following described real property in fee simple, to wit:

R 20277
Owner: Phillip E. Yergen, et ux

A parcel of land lying in the Northwest quarter ($NW\frac{1}{4}$) of Section 35, Township 3 South, Range 1 West, W. M., Clackamas County, Oregon, and being a portion of that property described in that deed to Phillip E. Yergen, recorded in Book 286, Page 233, of Clackamas County Records of Deeds, the said parcel being that portion of said property included in a strip of land variable in width, lying on each side of the center line of the Portland-Salem Expressway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 650+00, said Station being 2189.52 feet North and 2561.99 feet East of the West quarter ($W\frac{1}{4}$) corner of said Section 35; thence South 31° 54' West 3000.00 feet to Engineer's center line Station 680+00. Said center line crosses the Northerly and Southerly lines of said property approximately at Engineer's center line Stations 653+27 and 676+20, respectively.

Said parcel consists of two parts, one of which lies Easterly of the County Road and Northerly of the James E. Langdon property as described in Book 388, Page 383, Clackamas County Deed Records, the second part lying Westerly of said County Road.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Westerly Side of Center Line	Width on Easterly Side of Center Line
650+00	672+00	174 feet	100 feet
672+00	674+50	Westerly line of county road to 220 feet	100 feet
674+50	677+00	220 feet to 194 feet	100 feet
677+00	678+00	194 feet	100 feet

The bearings used herein are based on the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 9.52 acres.

(cont.)

EXHIBIT "P-5" (cont.)

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the Portland-Salem Expressway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located and will be constructed in a manner which, in the opinion of the Highway Commission will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 6th day of August, 1953.

EXHIBIT "P-6"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Mosier-The Dalles Section of the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed

and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Mosier-The Dalles Section of the Columbia River Highway, and in connection therewith, the construction of an interchange between the relocated Columbia River Highway and the present existing Columbia River Highway, the following described real property in fee simple, to wit:

R 19190
Owner: Willard Anderson Post No. 2471, V. F. W., et al

A parcel of land lying in Lots 8 and 10 of Section 33, Township 2 North, Range 13 East, W. M., Wasco County, Oregon, and being a portion of that property described in that deed to Willard Anderson Post No. 2471, Veterans of Foreign Wars, recorded in Book 96, Page 50, of Wasco County Records of Deeds, the said parcel being that portion of said property included in a strip of land 150 feet in width on the Southwesterly side of the center line of the by-pass leg of the Columbia River Highway, which center line is described as follows:

Beginning at Engineer's center line Station 2266+67, said Station being 2087 feet South and 2171 feet East of the Northeast corner of the Catholic Mission Donation Land Claim No. 43, said point being the intersection of said by-pass center line with the center of the Old Columbia River Highway, now West Sixth Street; thence South 43° 56' 30" East 791.47 feet to Station 2274+58.47. The Westerly line of said strip of land intersects the Northerly and Easterly lines of said property approximately opposite Stations 2268+16 and 2270+50, respectively.

The bearings used in this description are based on the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 0.23 acre, of which 0.13 acre lies within the existing right of way, title to which hereby is acknowledged to be in the public, and 0.10 acre lies outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the relocated Columbia River Highway, the said interchange between the relocated Columbia River Highway and the present existing Columbia River Highway, and all of the contiguous real property of the owners remaining after the appropriation of the real property here-

EXHIBIT "P-6" (cont.)

inabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

> Rights of access to a frontage road to be constructed by the State upon the above described real property and West of the main traveled way, said frontage road to be connected to the said main traveled way at a point not a greater distance to the Southeast of the owners' remaining property than a point opposite Highway Engineer's center line Station 2276+00, and to the said main traveled way at a point not a greater distance to the Northwest of the owners' remaining property than a point opposite Highway Engineer's center line Station 2253+00.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located and will be constructed in a manner which, in the opinion of the Highway Commission, will be most compatible with the greatest public good and the least private injury of damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Comission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 6th day of August, 1953.

EXHIBIT "P-7"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase. agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Goshen-Divide Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes. for the proper relocation, construction,

improvement and maintenance of the Goshen-Divide Section of the Pacific Highway as a throughway, the following described real property, in fee simple, to wit:

R 20525
Owner: H. W. Rich, et al

A parcel of land lying in the Thomas P. Buoy Donation Land Claim No. 51, also in Section 23, Township 19 South, Range 3 West, W. M., Lane County, Oregon, and being a portion of that property described in that deed to H. W. Rich and Mary L. Rich, recorded in Book 426, Page 22, of Lane County Records of Deeds, the said parcel being that portion of said property included in a strip of land 75 feet in width, lying on the Westerly side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 355+08.51, said Station being 983.0 feet South and 2379.7 feet West of the Northeast corner of said Thomas P. Buoy Donation Land Claim No. 51; thence on a spiral curve left (the long chord of which bears South 7° 12' 10" West) 250 feet; thence on an 11,459.16 foot radius curve left (the long chord of which bears South 2° 54' 05" West) 1553.89 feet to Station 373+12.40, the Westerly line of said strip of land crosses the Easterly and South lines of said property approximately opposite Stations 355+90 and 357+88, respectively.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 0.06 acre.

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the real property of the defendants remaining after the appropriation of the above described real property.

3. That the highway facility for which the said real property is required and is being taken has been planned, designed, located and will be constructed in a manner which, in the opinion of the Highway Commission, will be most compatible with the greatest public good and the least private injury of damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and

in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 6th day of August, 1953.

EXHIBIT "P-8"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and

WHEREAS, for the purpose of constructing and maintaining certain sections of the state highway system, the Commission plans and proposes to acquire a gravel pit, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee simple title to said real property for the acquisition of a gravel pit;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that the following described real property is necessary and required for the acquisition of a gravel pit, for the proper construction and maintenance of certain sections of the state highway system, said real property being described as follows, to wit:

R 20502
Owner: S. J. Godard, et al

A parcel of land lying in the George C. Pearce Donation Land Claim No. 45, Township 19 South, Range 3 West, W. M., Lane County, Oregon, and being a portion of that tract of land described in that certain deed to S. J. Godard and Emma J. Godard recorded in Book 272, Pages 341-342, of Lane County Records of Deeds, the said parcel being described as follows:

Beginning at the Southeast corner of said property at a stone marked X lying on the East boundary of said George C. Pearce Donation Land Claim No. 45, said stone being

(cont.)

EXHIBIT "P-8" (cont.)

2056.86 feet South and 41.25 feet East of the most Easterly Southeast corner of the Stephen Martin Donation Land Claim No. 79 in Township 19 South, Range 3 West, W. M.; thence North 1° 48' 50" East along the East line of said property 503.16 feet; thence North 88° 32' 10" West 860.68 feet to the West line of said property; thence South 1° 48' 50" West along said West line 503.16 feet to the Southwest corner of said property; thence South 88° 32' 10" East along the South line of said property 860.68 feet to the point of beginning, containing 9.94 acres.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

2. That the highway facility for which the above described real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

5. That this resolution be entered in full in the minutes and records of the Commission this 6th day of August, 1953.

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Williams Secondary Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Grants Pass-Murphy Section of the Williams Secondary Highway, and for such purpose and in connection therewith, the real property hereinafter described is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper widening, improvement, and maintenance of the Grants Pass-Murphy Section of the Williams Secondary Highway, the following described real property in fee simple, to wit:

R 19906
Owner: T. E. Gilmore, et ux

A parcel of land lying in the Southeast quarter ($SE\frac{1}{4}$) of Section 18, Township 37 South, Range 5 West, W. M., Josephine County, Oregon, the said parcel being a strip of land bounded on the North by the North line of that property described in that deed to T. E. Gilmore and Iva B. Gilmore, recorded in Book 133, Page 207, Josephine County Deed Records; bounded on the South by the South line of that property described in that deed to T. E. Gilmore and Iva B. Gilmore, recorded in Book 126, Page 345, Josephine County Deed Records; bounded on the West by the existing Williams Secondary Highway; and bounded on the East by a line which is parallel to and 40 feet East of the center line of the Williams Secondary Highway as said highway has been relocated, which center line is described as follows:

(cont.)

EXHIBIT "P-9" (cont.)

Beginning at Engineer's center line Station 294+99.27, said Station being 1753.48 feet North and 1275.56 feet West of the Southeast corner of said Section 18; thence South 0° 58' 45' West 399.50 feet; thence on a spiral curve right (the long chord of which bears South 1° 38' 45" West) 400 feet; thence on a 5729.58 foot radius curve right (the long chord of which bears South 4° 01' West) 207.50 feet; thence on a spiral curve right (the long chord of which bears South 6° 23' 15" West) 400 feet; thence South 7° 03' 15" West 431.83 feet, to Engineer's center line Station 313+38.10.

The Easterly line of said strip of land intersects the Northerly and Southerly lines of said properties approximately opposite Station 305+78 and Station 309+37, respectively.

The parcel of land to which this description applies contains 0.13 acre.

2. That the highway facility for which the above described real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property with respect to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said real property.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

EXHIBIT "P-10"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Hauser-North Bend Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has adopted a survey of the said Hauser-North Bend Section of the Oregon Coast Highway and has by a resolution ordered and declared that said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Highway Commission by a certain resolution made and entered on its records on the 21st day of April, 1952, declared the necessity for the acquisition of certain parcels of land described therein for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Hauser-North Bend Section of the Oregon Coast Highway, and for the control of access to and from the said highway, and authorized the acquisition of the said parcels of land and the said control of access in the manner provided by law, and it is now the determination of the Highway Commission that the descriptions of some of the said parcels of land should be changed in the manner provided herein, in order that the amount of real property required be increased; and, therefore, the resolution of April 21, 1952, should be revised to conform with the present needs of the traveling public and to conform with the said change in the descriptions of some of the said parcels of land; and

(cont.)

EXHIBIT "P-10" (cont.)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welvare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission hereby declares that the resolution made and entered in its records of April 21, 1952, referred to above, be, and it hereby is, amended by this resolution.

2. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Hauser-North Bend Section of the Oregon Coast Highway as a throughway, the following described real property in fee simple, to wit:

L-1857
Owner: Tidelands Development Company, et al

Parcel No. 1:

A parcel of land lying in the south one-third (S 1/3) of Tract 3, and Tracts 4, 5, and 6 of Silver Point Subdivision No. One, Amended Oyster Bed Plat, situated in Section 34, Township 24 South, Range 13 West, W. M., Coos County, Oregon, the said parcel being that portion of said tracts and fractional tracts included in a strip of land of variable width, lying on each side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 173+09.86, said Station being 64.4 feet North and 1362.8 feet West of the Northeast corner of said Section 34; thence on a 2291.83 foot radius curve right (the long chord of which bears South 25° 17' 30" East) 234.67 feet; thence on a spiral curve right (the long chord of which bears South 18° 11' 30" East) 500 feet to Station 180+44.53 back equals 179+80.71 ahead; thence South 16° 06' 30" East 219.29 feet to Station 182+00; the Westerly line of said strip of land intersects the North line of said South one-third (S 1/3) of Tract 3 approximately opposite Station 175+11 and the center line of said strip inter-

sects the South line of said Tract 5 approximately at Station 180+85.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Easterly Side of Center Line	Width on Westerly Side of Center Line
173+09.86	175+44.53	240 feet	120 feet
175+44.53	180+44.53 back equals 179+80.71 ahead	240 feet	180 feet
180+44.53 back equals 179+80.71 ahead	182+00	140 feet	140 feet

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 1.83 acres.

Parcel No. 2:

A parcel of land lying in the East five-eighths (E 5/8) of Tract 22, the West quarter (W$\frac{1}{4}$) of Tract 23, in Tracts 30, 32 and 36, and in the Northwest quarter (NW$\frac{1}{4}$) and the East half (E$\frac{1}{2}$) of Tract 31 of Silver Point Subdivision No. One, Amended Oyster Bed Plat, situated in Section 34, Township 24 South, Range 13 West, W. M., Coos County, Oregon, the said parcel being that portion of said tracts and fractional tracts included in a strip of land 280 feet in width, 140 feet on each side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 179+80.71, said Station being 622.3 feet South and 1106.6 feet West of the Northeast corner of said Section 34; thence South 16° 06' 30" East 1019.29 feet to Station 190+00; said center line intersects the North line of said Tract 22 approximately at Station 183+17 and the Easterly line of said strip of land intersects the Southwesterly line of said Tract 36 approximately opposite Station 189+76.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

(cont.)

EXHIBIT "P-10" (cont,)

The parcel of land to which this description applies contains 2.25 acres.

Parcel No. 3:

A parcel of land lying in Tracts 174 and 175 of Silver Point Subdivision No. One, Amended Oyster Bed Plat, situated in Section 34, Township 24 South, Range 13 West, W. M., Coos County, Oregon, the said parcel being that portion of said Tracts 174 and 175 lying Easterly of a line parallel to and 140 feet Westerly of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 179+80.71, said Station being 622.3 feet South and 1106.6 feet West of the Northeast corner of said Section 34; thence South 16° 06' 30" East 1619.29 feet to Station 196+00; said center line intersects the West and South line of said tracts approximately at Stations 189+05 and 194+90, respectively.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 2.4 acres.

Parcel No. 4:

The South two-sevenths (S 2/7) of Tract 93 of Silver Point Subdivision No. 1, Amended Oyster Bed Plat, situated in Section 34, Township 24 South, Range 13 West, W. M., Curry County, Oregon.

The parcel of land to which this description applies contains 0.26 acre.

Parcel No. 5:

A parcel of land lying in the West half ($W\frac{1}{2}$) and the Southeast quarter ($SE\frac{1}{4}$) of Tract 94 of Silver Point Subdivision No. One, Amended Oyster Bed Plat, situated in Section 34, Township 24 South, Range 13 West, W. M., Coos County, Oregon, the said parcel being that portion of said West half ($W\frac{1}{2}$) and Southeast quarter ($SE\frac{1}{4}$) of Tract 94 lying Easterly of a line parallel to and 200 feet Westerly of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

EXHIBIT "P-10" (cont,)

Beginning at Engineer's center line Station 179+80.71, said Station being 622.3 feet South and 1106.6 feet West of the Northeast corner of said Section 34; thence South 16° 06' 30" East 3719.29 feet to Station 217+00; the Westerly line of said parcel intersects the North line of said West half ($W\frac{1}{2}$) of Tract 94 and the Southerly line of said Southeast quarter ($SE\frac{1}{4}$) of Tract 94 approximately opposite Stations 214+46 and 216+68, respectively.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 0.32 acre.

L 1858
Owner: Coos Bay Oyster Cooperative, et al

A parcel of land lying in Tract 65, Silver Point Subdivison No. 1 Amended, Oyster Bed Plat, situated in Section 34, Township 24 South, Range 13 West, W. M., Coos County, Oregon, the said parcel being that portion of said Tract 65 included in a strip of land 140 feet in width, lying on the Westerly side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 179+80.71, said Station being 622.3 feet South and 1106.6 feet West of the Northeast corner of said Section 34; thence South 16° 06' 30" East 2619.29 feet to Station 206+00, the Westerly line of said strip of land intersects the North and the East lines of said Tract 65 approximately opposite Stations 203+62 and 205+19, respectively, containing 0.09 acre.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

L 1859
Owner: M. A. Beyer, et al

A parcel of land lying in Tract 177 of Silver Point Subdivision No. 1 Amended, Oyster Bed Plat, situated in Section 34, Township 24 South, Range 13 West, W. M., Coos County, Oregon, the said parcel being that portion of said Tract 177 included in a strip of land 140 feet in width, lying on the Westerly side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

(cont.)

Beginning at Engineer's center line Station 179+80.71, said Station being 622.3 feet South and 1106.6 feet West of the Northeast corner of said Section 34; thence South 16° 06' 30" East 1319.29 feet to Station 193+00; the Westerly line of said strip of land intersects the North and the East lines of said Tract 177 approximately opposite Stations 190+92 and 193+15 respectively, containing 0.18 acre.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

Parcel No. 1:

A parcel of land lying in Tracts 66, 67, 68, and 69, Silver Point No. 1, Amended Oyster Bed Plat, situated in Section 34, Township 24 South, Range 13 West, W. M., Coos County, Oregon, the said parcel be ng that portion of said tracts included in a strip of land 280 feet in width, 140 feet on each side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 179+80.71, said Station being 622.3 feet South and 1106.6 feet West of the Northeast corner of said Section 34; thence South 16° 06' 30" East 3019.29 feet to Engineer's center line Station 210+00, said center line crossing the North line of said Tract 66 and the South line of said Tract 68 approximately at Stations 204+09 and 208+62, respectively.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 2.8 acres.

(cont.)

Parcel No. 2:

A parcel of land being the North one-third (N 1/3) of the South three-sevenths (S 3/7) of Tract 93 of Silver Point No. 1, Amended Oyster Bed Plat, situated in Section 34, Township 24 South, Range 13 West, W. M., Coos County, Oregon, containing 0.13 acre.

3. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the owners which abuts on the said relocated Oregon Coast Highway remaining after the appropriation of the real property hereinabove described.

4. That the highway facility for which the above described real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Highway Commission, will be most compatible with the greatest public good and the least private injury or damage.

5. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

6. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission this 6th day of August, 1953.

EXHIBIT "P-11"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct and maintain the Washburn-North Plains Section of the Wilson River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be established, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission all members thereof being present and voting affirmatively, as follows

1 The Commission does hereby find and declare that there is needed and required for right of way purposes, for the establishment, construction and maintenance of the Washburn-North Plains Section of the Wilson River Highway as a throughway, the following described real property in fee simple, to wit:

(cont.)

EXHIBIT "P-11" (cont.)

R 19831
Owner: William L. Moore, et al

A parcel of land lying in the Southeast quarter (SE¼) of Section 35, and the Southwest quarter (SW¼) of Section 36, Township 2 North, Range 4 West, W. M., Washington County, Oregon, and being a portion of that property described in that deed to Charles Windsor Moore and Eva B. Moore, et al, recorded in Book 314, Page 18, of Washington County Records of Deeds, the said parcel being that portion of said property included in a strip of land 190 feet in width, 70 feet on the Northerly side and 120 feet on the Southerly side of the center line of the Wilson River Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 2520+00, said Station being 1379.37 feet North and 509.14 feet West of the Southeast corner of said Section 35; thence South 86°59' East 552.74 feet; thence on a spiral curve right (the long chord of which bears South 86° 46' 30" East) 250 feet; thence on an 11,459.16 foot radius curve right (the long chord of which bears South 83° 44' 15" East) 1048.33 feet; thence on a spiral curve right (the long chord of which bears South 80° 42' East) 250 feet; thence South 80° 29' 30" East 1500 feet to Engineer's center line Station 2556+01.07, said center line crossing the center line of Dairy Creek and the East line of said Southwest quarter (SW¼) of Section 26 approximately at Stations 2521+73 and 2552+12, respectively.

The bearings used herein are based on the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 6.6 acres.

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Wilson River Highway and all of the contiguous real property of the owners remaining after the appropriation of the above described real property, except that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, the following:

a. A right to cross the Wilson River Highway for farm purposes only, said crossing not to exceed 25 feet in width, at Highway Engineer's center line Station 2542+40; provided, however, that upon the alienation of either of the portions of the property severed by the said Wilson River Highway, resulting in the severed portions of the said property being owned

(cont.)

by different persons, this right of crossing shall be forfeited and shall cease, and if the owners, their heirs or assigns, shall commit, suffer or permit any use of the said crossing for any purpose other than as a passageway from one side of the said highway to the other for farm purposes, then and in that event the right hereby reserved to the owners will be automatically forfeited, and the State Highway Commission shall have the power to close said crossing for all purposes.

b. A right of access to a stock underpass to be constructed of timber, said underpass to be at least 7 feet high and 51 feet wide, under the said Wilson River Highway, at Highway Engineer's center line Station 2540+00.

3. That the highway facility for which the above described real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Highway Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of the said real property as to the compensation to be paid for the taking and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5 That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence any Assistant Attorney for the State Highway Commission, is authorized to make such agreement, stipulation or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners

6. That this resolution be entered in full in the minutes and records of the Commission this 6th day of August, 1953.

EXHIBIT "P-12"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct and maintain the Washburn-North Plains Section of the Wilson River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be established, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed

(cont.)

and required for right of way purposes, for the establishment, construction and maintenance of the Washburn-North Plains Section of the Wilson River Highway, the following described real property in fee simple, to wit:

R 19821
Owner: Margaret M. Parson

A parcel of land lying in the Southwest quarter ($SW\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 31, Township 2 North, Range 4 West, W. M., Washington County, Oregon, the said parcel being that portion of said Southwest quarter ($SW\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) included in a strip of land 160 feet in width, 80 feet on each side of the center line of the Wilson River Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 2262+29.01, said Station being 440.52 feet West and 742 feet South of the center of said Section 31; thence North 34° 19' East 2102.67 feet, thence on a spiral curve right (the long chord of which bears North 36° 24' East) 500 feet to Station 2288+31.68; said center line crosses the South and North lines of said Southwest quarter ($SW\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) approximately at Station 2271+28 and Station 2287+15, respectively.

Subject to the railroad right of way heretofore granted to the Gales Creek and Wilson River Railway Company.

The bearings used herein are based on the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 5.77 acres, of which 1.25 acres lie within the existing railroad right of way and 4.52 acres lie outside of the existing railroad right of way.

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Wilson River Highway and all of the contiguous real property of the owner remaining after the appropriation of the above described real property; except that there shall be reserved unto the owner, her heirs and assigns, for service of the said remaining land, the following:

a. A right to cross the Wilson River Highway for farm purposes only, said crossing not to exceed 25 feet in width, at Highway Engineer's center line Station 2280+00; provided, however, that upon the alienation of either of the portions of the property severed by the said Wilson River Highway, resulting in the severed portions of the said property being

(cont.)

owned by different persons, this right of crossing shall be forfeited and shall cease, and if the owner, her heirs or assigns, shall commit, suffer or permit any use of the said crossing for any purpose other than as a passageway from one side of the said highway to the other for farm purposes, then and in that event the right hereby reserved to them will be automatically forfeited, and the State Highway Commission shall have the power to close and barricade said crossing for all purposes.

b. A right of access to the Wilson River Highway of a width not to exceed 25 feet on the East side of the said highway, opposite Highway Engineer's center line Station 2280+00, for the production and transportation to market of farm products of the owner's remaining land, and for private residential use only.

Said access to the Wilson River Highway from the owner's remaining land shall not be used by the owner, her heirs or assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to barricade said access for all purposes in the event of any violation.

The State Highway Commission, however, shall have the right at its option to build at any future time, at its sole cost, a frontage road or roads within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access herein reserved to and from the aforesaid highway that are on or adjacent to any such frontage road or roads, except the right to cross for farm purposes only, shall cease, but the owner, her heirs and assigns, shall have access to the frontage road or roads at such places as will afford reasonable and safe connections. Said frontage road or roads shall be connected to the said main highway or to other public ways only at such point or points as the State Highway Commission may designate.

3. That the highway facility for which the above described real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Highway Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of the said real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said real property.

EXHIBIT "P-12" (cont.)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 6th day of August, 1953.

EXHIBIT "P-13"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain in the State of Oregon highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct and maintain the Washburn-North Plains Section of the Wilson River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be established, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed

(cont.)

EXHIBIT "P-13" (cont.)

and required for right of way purposes, for the establishment, construction and maintenance of the Washburn-North Plains Section of the Wilson River Highway as a throughway, the following described real property in fee simple, to wit:

R 19828
Owner: Letitia E. Kistner, et al

Parcel No. 1:

A parcel of land lying in the Southeast quarter ($SE\frac{1}{4}$) of Section 34, the Southwest quarter ($SW\frac{1}{4}$) of Section 35, and the Southeast quarter ($SE\frac{1}{4}$) of Section 35, Township 2 North, Range 4 West, W. M., Washington County, Oregon, and being a portion of that property described in that deed to Thomas B. Killin and Letitia E. Kistner, recorded in Book 145, Pages 4 and 5, of Washington County Records of Deeds, the said parcel being that portion of said property lying Southerly of a line which is parallel to and 70 feet Northerly of the center line of the Wilson River Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 2441+61.32, said Station being 164.15 feet South and 2383.19 feet East of the West quarter ($W\frac{1}{4}$) corner of said Section 34; thence on a 1637.02 foot radius curve right (the long chord of which bears South 68° 53' 15" East) 292.14 feet; thence on a spiral curve right (the long chord of which bears South 57° 56' 30" East) 500 feet, thence South 55° 01' 30" East 316.98 feet; thence on a spiral curve left (the long chord of which bears South 57° 06' 30" East) 500 feet; thence on a 2291.83 foot radius curve left (the long chord of which bears South 71° 00' 15" East) 778.33 feet; thence on a spiral curve left (the long chord of which bears South 84° 54' East) 500 feet; thence South 86° 59' East 5500 feet to Engineer's center line Station 2525+48.77, said center line crossing the West line of said Southeast quarter ($SE\frac{1}{4}$) of Section 34 and the East line of said Southeast quarter ($SE\frac{1}{4}$) of Section 35 approximately at Stations 2444+40 and 2525+58, respectively.

The bearings used herein are based on the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 9.02 acres, more or less.

Parcel No. 2:

A parcel of land lying in the South half ($S\frac{1}{2}$) of Section

(cont.)

35, Township 2 North, Range 4 West, W. M., Washington County, Oregon, and being a portion of that property conveyed by that deed to Letitia E. Kistner, recorded in Book 158, Pages 625--626, of Washington County Records of Deeds, the said parcel being that portion of said property included in a strip of land of variable width, lying on the Southerly side of the center line of the Wilson River Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 2470+48.77, said Station being 1505.06 feet North and 184.45 feet West of the Southwest corner of said Section 35; thence South 86° 59' East 5500 feet to Station 2525+48.77, said center line crossing the West and East lines of said South half ($S\frac{1}{2}$) of Section 35 approximately at Station 2472+85 and Station 2525+58, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station	to	Station	Width on Southerly Side of Center Line
West line of Section 35		2490+00	To South line of said South half ($S\frac{1}{2}$) of Section 35
2490+00		2508+00	120 feet
2508+00		Center line of Dairy Creek	130 feet

The parcel of land to which this description applies contains 7.88 acres.

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Wilson River Highway and all of the contiguous real property of the owners remaining after the appropriation of the above described real property; except that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, the following:

a. A right to cross the Wilson River Highway for farm purposes only, said crossing not to exceed 25 feet in width, at Highway Engineer's center line Station 2508+00; provided, however, that upon the alienation of either of the portions of the property severed by the said Wilson River Highway, resulting in the severed portions of the said property being owned by different persons, this right of crossing shall be forfeited and shall cease, and if the owners, their heirs or assigns, shall commit, suffer or permit any use of the said crossing for any purpose other than as a passageway from one

side of the said highway to the other for farm purposes, then and in that event the right hereby reserved to the owners will be automatically forfeited, and the State Highway Commission shall have the power to close and barricade said crossing for all purposes.

b. A right of access to the Wilson River Highway of a width not to exceed 25 feet on the South side of the said Wilson River Highway, opposite Highway Engineer's center line Station 2508+00, for the production and transportation to market of farm products of the owners' remaining land, for the development, harvesting and transportation of forest products of the owners' remaining land, and for private residential use only.

Said access to the Wilson River Highway from the owners' remaining land shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to barricade said access for all purposes in the event of any violation.

The State shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road or roads within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access herein reserved to and from the aforesaid highway that are on or adjacent to any such frontage road or roads, except the right to cross for farm purposes only, shall cease, but the owners, their heirs and assigns, shall have access to the frontage road or roads at such places as will afford reasonable and safe connections. Said frontage road or roads shall be connected to the said main highway or to other public ways only at such point or points as the State of Oregon may designate.

3. That the highway facility for which the above described real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Highway Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of the said real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said real property.

5 That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence,

EXHIBIT "P-13" (cont.)

any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 6th day of August, 1953.

EXHIBIT "P-14"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Winchester-Shady Point Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law, and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the relocation, construction, improvement and maintenance of the Winchester-Shady Point Section of the Pacific Highway, the following described real property in fee simple, to wit:

(cont.)

EXHIBIT "P-14" (cont.)

R 19348
Owner: J. Frank, et al

A parcel of land lying in the Isaac Jones D. L. C. No. 65, also in the Southwest quarter ($SW\frac{1}{4}$) of Section 12, and the Northwest quarter ($NW\frac{1}{4}$) of Section 13, Township 27 South, Range 6 West, W. M., Douglas County, Oregon, and being a portion of the following described property:

Those tracts of land which were described in those certain deeds to J. Frank, recorded in Book 102, Page 647; Book 98, Page 418; Book 105, Page 69; Book 100, Page 458; and Book 99, Page 268, of Douglas County Records of Deeds, the said parcel being described as follows:

Beginning at the Southeasterly corner of that tract of land described in that deed to the State of Oregon, by and through its State Highway Commission, recorded in Book 201, Page 241, Douglas County Records of Deeds, said point being 125 feet Easterly from, when measured at right angles to, the relocated center line of the Pacific Highway, as said center line is described in said State of Oregon deed; thence Easterly along the Southerly line at said Frank property described in Book 99, Page 268, a distance of 58 feet, more or less, to a point which is 180 feet Easterly of, when measured at right angles to, said highway center line; thence on a straight line to a point on the Easterly line of said State of Oregon tract, said point being opposite and 125 feet Easterly of Station 2493+00 on said highway center line; thence Southerly along the Easterly line of said State of Oregon tract to the point of beginning.

The parcel of land to which this description applies contains 0.21 acre.

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the above described real property.

3. That the highway facility for which the above described real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Highway Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as

Highway and for the construction of the Garden Valley Road connection to the said relocated Pacific Highway, the following described real property in fee simple, to wit:

R 19366
Owner: R. M. Church, et ux

A parcel of land lying in D. L. C. No. 65 also in Sections 12 and 13, Township 27 South, Range 6 West, W. M., Douglas County Oregon, and being a portion of the following described property: That tract of land which was conveyed by that certain deed to R. M. and Rhea V. Church recorded in Book 108, Page 287, of Douglas County Record of Deeds, the said parcel being described as follows:

A tract of land bounded on the North by the Southerly line and its Easterly extension of that property described in that deed to J. Frank recorded in Book 99, Page 268; bounded on the South by that property conveyed to the State of Oregon, by and through its State Highway Commission, by deed recorded in Book 202, Page 368, bounded on the West by Parcel No. 2 of that property conveyed to the State of Oregon, by and through its State Highway Commission, by deed recorded in Book 202, Page 559, all deeds of Douglas County Records of Deeds, and bounded on the East by the East line of said Church property, containing 1.00 acre, more or less

2 That the highway facility for which the abovedescribed real property is necessary and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Highway Commission, will be most compatible with the greatest public good and the least private injury or damage.

3 That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of the said real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

4 That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation agreement or admission as in his judgment may be for the best interests of the State the State Highway Commission, or the property owners.

5 That this resolution be entered in full in the minutes and records of the Commission this 6th day of August, 1953.

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain in the State of Oregon highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct and maintain the Hayesville Junction-Wilsonville Junction Section of the Portland-Salem Expressway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be established, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed

(cont.)

EXHIBIT "P-16" (cont.)

and required for right of way purposes, for the establishment, construction and maintenance of the Hayesville Junction-Wilsonville Junction Section of the Portland-Salem Expressway as a throughway, the following described real property in fee simple, to wit:

R 20346
Owner: Benjamin L. Eppers, et ux

Parcel No. 1:

A parcel of land lying in the William H. Rees Donation Land Claim No. 61, also lying in Sections 16 and 21, Township 4 South, Range 1 West, W. M., Marion County, Oregon, and being a portion of that property described in those deeds to Benjamin L. Eppers and Nellie Eppers, recorded in Book 257, Page 647; Book 152, Page 485; and Book 387, Page 405, of Marion County Records of Deeds, the said parcel being that portion of said property included in a strip of land of variable width, lying on each side of the center line of the Portland-Salem Expressway as said Expressway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 872+78.21, said Station being 946.90 feet South and 42.39 feet East of the re-entrant corner on the North line of the said William H. Rees Donation Land Claim No. 61; thence South 27° 54' West 2221.79 feet to Station 895+00, said center line crossing the Northerly and Westerly lines of said property approximately at Stations 875+82 and 890+75, respectively.

Subject to a pertetual easement described in said Book 287, Page 405, of Marion County Records of Deeds.

The widths in feet of the strip of land above referred to are as follows:

Station to	Station	Width on Easterly Side of Center Line	Width on Westerly Side of Center Line
875+00	879+50	150 feet	174 feet
879+50	North line of Market Road No. 10	450 feet	174 feet
North line of Market Road No 10	895+00	100 feet	174 feet

(cont.)

EXHIBIT "P-16" (cont.)

The bearings used herein are based on the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 10.69 acres, of which 0.38 acre lies within the existing right of way, title to which hereby is acknowledged to be in the public, and 10.31 acres lie outside of the existing right of way.

2. The Commission does hereby further find and declare that there is needed and required for right of way for the said Portland-Salem Expressway, and, in connection therewith, for a grade separation of the said Portland-Salem Expressway and the Aurora-Donald County Road, also known as Marion County Market Road No. 10, the following described real property, to wit:

Parcel No. 2:

A parcel of land lying in the Southwest quarter (SW$\frac{1}{4}$) of Section 16, Township 4 South, Range 1 West, W. M., Marion County, Oregon, and being a portion of that property described in those deeds to Benjamin L. Eppers and Nellie Eppers, recorded in Book 257, Page 647, and in Book 152, Page 485, of Marion County Records of Deeds, the said parcel being that portion of said property included in a strip of land 80 feet in width, 40 feet on each side of the center line of the Aurora-Donald County Road, which center line is described as follows:

Beginning at Engineer's center line Station 5+50, at which point the Westerly line of said strip of land lies at right angles to said center line, said Station being 1586.40 feet South and 781.90 feet West of the re-entrant corner on the North line of the said William H. Rees Donation Land Claim No. 61; thence South 70° 02' East 850 feet to Station 14+00, at which point the Easterly line of said strip of land lies at right angles to said center line.

Except that portion of said strip of land lying in Parcel No. 1 above.

The Southerly line of said strip of land crossing the Easterly line of said property approximately opposite Station 13+53. Said center line crossing the center line described in said Parcel No. 1 above at Station 9+83.13 equals 881+69.02 of the Portland-Salem Expressway.

The bearings used herein are based on the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains

(cont.)

EXHIBIT "P-16" (cont.)

0.18 acre, outside of the existing right of way.

3. The Commission does hereby further find and declare that it is necessary to acquire temporary easements, for a period of two years, across a parcel of real property for the purpose of constructing a detour road. The real property across which these temporary easements are required is described as follows, to wit:

Parcel No. 3:

A parcel of land lying in the William H. Rees Donation Land Claim No 61, also in Section 16, Township 4 South, Range 1 West, W. M., Marion County, Oregon, and being a portion of that property described in that deed to Benjamin L. Eppers and Nellie Eppers recorded in Book 257, Page 647, of Marion County Records of Deeds, the said parcel being that portion of said property included in a strip of land of variable width, lying on the Northerly side of the center line of the Aurora-Donald County Road, which center line is described as follows:

Beginning at Engineer's center line Station 3+00, at which point the Westerly line of said strip of land lies at right angles to said center line, said Station being 1501.03 feet South and 1016.87 feet West of the re-entrant corner on the North line of the said William H. Rees Donation Land Claim No. 61; thence South 70° 02' East 1219.45 feet, thence South 86° 01' 15" East 280.55 feet to Station 18+00, at which point the Easterly line of said strip lies at right angles to said center line.

Except that portion of said strip of land lying in Parcel No. 1 and Parcel No. 2 above.

The widths in feet of the strip of land above referred to are as follows:

Station	to Station	Width on North Side of Center Line
3+00	14+00	90 feet
14+00	18+00	80 feet

The bearings used herein are based on the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 1.03 acres, outside of the existing right of way.

4 That it is necessary that there shall be no rights of access of

(cont.)

EXHIBIT "P-16" (cont.)

any nature between the real property hereinabove described as Parcel No. 1 and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described as Parcel No. 1; except that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, the following:

> Rights of access to a frontage road to be constructed by the State upon a portion of the real property hereinabove described as Parcel No. 1 and East of the center line of the said Portland-Salem Expressway and North of the center line of the Aurora-Donald County Road, also known as Marion County Market Road No. 10, which said frontage road will connect with the said Aurora-Donald County Road at a point approximately 400 feet East of the center line of the said Portland-Salem Expressway.

5. That the highway facility for which the above described real property and temporary easements are required and are being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Highway Commission, will be most compatible with the greatest public good and the least private injury or damage.

6. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of the said real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property and to acquire the said temporary easements.

7. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, and the said temporary easements, the Chief Counsel, or, in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such agreement, stipulation or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

8. That this resolution be entered in full in the minutes and records of the Commission this 6th day of August, 1953.

EXHIBIT "P-17"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain in the State of Oregon highways to be known as throughways,and to acquire in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct and maintain the Hayesville Junction-Wilsonville Junction Section of the Portland-Salem Expressway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be established, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the establishment, construction and maintenance of the Hayesville Junction-Wilsonville Junction Section of the Portland-

(cont.)

Salem Expressway as a throughway, the following described real property in fee simple, to wit:

R 20648
Owner: T. H. DeArmond, et ux

Parcel No. 1:

A parcel of land lying in Sections 29, 31 and 32, Township 4 South, Range 1 West, W. M., Marion County, Oregon, and being a portion of that property described in that deed to T. H. DeArmond and Wilhelmina DeArmond, recorded in Book 395, Page 490, of Marion County Records of Deeds, the said parcel being that portion of said property included in a strip of land variable in width, lying on each side of the center line of the Portland-Salem Expressway as said highway has been located, which center line is described as follows:

Beginning at Engineer's center line Station 957+87.98, said Station being 183.21 feet North and 372.15 feet East of the Southwest corner of Lot 22, Fellers Subdivision, in Township 4 South, Range 1 West, W. M., thence on a spiral curve right (the long chord of which bears South 28° 00' 15" West) 250 feet; thence on a 22,918.32 foot radius curve right (the long chord of which bears South 32° 40' West) 3563.33 feet; thence on a spiral curve right (the long chord of which bears South 37° 19' 45" West) 250 feet; thence South 37° 26' West 2648.69 feet to Engineer's center line Station 1025+00.

Said center line crosses the Northerly line of said property approximately at Engineer's center line Station 966+20 and the Easterly line of said strip of land crosses the Westerly line of said property approximately opposite Engineer's center line Station 1023+17.

Excepting therefrom that portion of said strip of land which lies within the existing County Road.

The widths in feet of the strip of land above referred to are as follows:

Station	to	Station	Width on Easterly Side of Center Line	Width on Westerly Side of Center Line
The Northerly line of the John G. Larrison D.L.C. No. 58				

(cont.)

EXHIBIT "P-17" (cont.)

Township 4 South, Range 1 West, W. M.		1020+50	100 feet	174 feet
1020+50		1024+00	120 feet	174 feet

The bearings used herein are based on the Oregon Coordinate System, North Zone

The parcel of land to which this description applies contains 33.5 acres.

2. The Commission does hereby further find and declare that there is needed and required for right of way for the said Portland-Salem Expressway, for use in connection with a grade separation of Marion County Market Road No. 8 and the said Portland-Salem Expressway, the following described real property, to wit:

Parcel No. 2.

A parcel of land lying in Sections 31 and 32, Township 4 South Range 1 West W. M., Marion County, Oregon, and being a portion of that property described in that deed to T. H. DeArmond and Wilhelmina DeArmond recorded in Book 395, Page 490, of Marion County Records of Deeds, the said parcel being that portion of said property included in a strip of land of variable width, lying on each side of the center line of the Hubbard-Broadacres County Road as said County Road has been relocated which center line is described as follows

Beginning at Engineer's center line Station W 4+14.76, said Station being 76.04 feet South and 139.93 feet West of the Southeast corner of the Gideon Seneschal Donation Land Claim No. 59, Township 4 South, Range 1 West, W. M., thence North 88° 15' 55" East 933.40 feet through an equation in Stations W 0+00 back equals E 0.00 ahead to Station E 5+18.64, thence on a spiral curve right (the long chord of which bears North 88° 38' 25" East) 150 feet, thence on a 3819.72 foot radius curve right (the long chord of which bears North 89° 51' 40" East) 62.78 feet; thence on a spiral curve right (the long chord of which bears South 88° 55' 05" East) 150 feet to Engineer's center line Station E 8+81.42. Said strip of land extends from the Easterly line of Parcel No. 1 to where the Northerly and Southerly lines of said strip become coincident with the existing Hubbard-Broadacres County Road approximately at Station E 7.32

Except that portion of said strip of land which lies within the said existing County Road

(cont.)

The widths in feet of the strip of land above referred to are as follows:

Station	to Station	Width on Southerly Side of Center Line	Width on Northerly Side of Center Line
W 4+15	E 2+00	100 feet	50 feet
E 2+00	E 9+00	30 feet	30 feet

The bearings used herein are based on the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 1.60 acres.

3. The Commission does hereby further find and declare that it is necessary to acquire a temporary easement across a portion of the owners' real property for a detour road to be used during the construction of the said Hayesville Junction-Wilsonville Junction Section of the Portland-Salem Expressway. The real property across which this temporary easement is required is described as follows, to wit:

Parcel No. 3:

A parcel of land lying in the Northwest quarter ($NW\frac{1}{4}$) of Section 32, Township 4 South, Range 1 West, W. M., Marion County, Oregon, and being a portion of that property described in that deed to T. H. DeArmond and Wilhelmina DeArmond, recorded in Book 395, Page 490, of Marion County Records of Deeds, the said parcel being that portion of said property lying North of the existing County Road and included in a strip of land 100 feet in width, lying on the Northerly side of the center line of the Hubbard-Broadacres County Road as said County Road has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station E 0+00, at which point the Westerly line of said strip of land lies at right angles to said center line, said Station being 63.48 feet South and 274.64 feet East of the Southeast corner of the Gideon Seneschal Donation Land Claim No. 59, Township 4 South, Range 1 West, W. M.; thence North 88° 15' 55" East 518.64 feet; thence on a spiral curve right (the long chord of which bears North 88° 38' 25" East) 150 feet; thence on a 3819.72 foot radius curve right (the long chord of which bears North 89° 51' 40" East) 62.78 feet; thence on a spiral curve right (the long chord of which bears South 88° 55' 05" East) 150 feet; thence South 88° 32' 35" East 18.58 feet to Station E 9+00, at which point the Easterly line of said strip of land lies at right angles to said center line.

The bearings used herein are based on the Oregon Coordinate System, North Zone

EXHIBIT "P-17" (cont.)

The parcel of land to which this description applies contains 0.99 acre.

4. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Portland-Salem Expressway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described as Parcel No. 1 and Parcel No. 2.

5. That the highway facility for which the above described real property and temporary easement are required and are being taken has been planned, designed, located and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

6. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of the said real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property and to acquire the said temporary easement.

7. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, and the said temporary easement, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

8 That this resolution be entered in full in the minutes and records of the Commission this 6th day of August, 1953.

EXHIBIT "P-18"

Minutes of August 6 and 7, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Goshen-Divide Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes in connection with the relocation, construction, improvement and maintenance of the Goshen-Divide Section of the Pacific Highway, for the realighment and reconstruction of a portion of the Goshen-

(cont.)

EXHIBIT "P-18" (cont.)

Creswell Section of the existing Pacific Highway, the following described real property in fee simple, to wit:

R 20485
Owner: B.Vaughn, et al

A parcel of land lying in the Northeast quarter (NE¼) of Section 35, Township 18 South, Range 3 West, W. M., Lane County Oregon, the said parcel being described as follows:

Beginning at the intersection of the North Line of said Section 35 with the Westerly right of way line of the Pacific Highway as said right of way line was established in that deed to the State of Oregon, by and through its State Highway Commission, recorded in Book 413, Page 416, of Lane County Deed Records; thence West 65 feet along said North line of Section 35; thence Southerly in a straight line to a point in said Westerly right of way line of said highway, which point is 725 feet from the point of beginning; thence Northerly along said right of way line 725 feet to the point of beginning.

The parcel of land to which this description applies contains 0.60 acre, of which 0.03 acre lies within the existing right of way, title to which hereby is acknowledged to be in the public, and 0.57 acre lies outside of the existing right of way.

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the Goshen-Divide Section of the said relocated Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the above described real property; provided, however, that there shall be unrestricted access between the realigned and reconstructed Goshen-Creswell Section of the said existing Pacific Highway and all of the owners' contiguous real property which abuts thereon remaining after the appropriation of the above described real property upon completion of the construction of the relocated Goshen-Divide Section of the Pacific Highway.

3. That the highway facility for which the above described real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Highway Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

(cont.)

EXHIBIT "P-18" (cont.)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 6th day of August, 1953.

Stayton, Oregon
August 13, 1953

The State Highway Commission convened in special session at 9:00 a.m. in the Stayton Community Hall, it having been considered advisable to use the community hall rather than the City Council Chambers, as originally contemplated, in order to accommodate the large number of people who were expected to be present. This meeting was scheduled pursuant to the requirements of Section 13 of the "Federal-aid Highway Act of 1950" and to a written notice, dated July 28, 1953, given to the Common Council of each of the towns of Aumsville, Sublimity, and Stayton. The purpose of the meeting was to give the people of these three communities an opportunity to express their feelings concerning the plans of the State Highway Commission to reroute the North Santiam Highway through this district, by-passing these three places. Present were:

Ben R. Chandler, Chairman, State Highway Commission
Chas. H. Reynolds, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Assistant State Highway Engineer
W. W. Stiffler, 2nd Assistant State Highway Engineer
H. B. Glaisyer, Secretary

Also present representing the U. S. Bureau of Public Roads was Mr. C. G. Polk, District Engineer.

Commissioner M. K. McIver was excused from attending this meeting.

The local group consisted of about fifty-five people from Aumsville, Sublimity, Stayton and vicinity. Chairman Chandler called the meeting to order and explained its purpose. At his request, the State Highway Engineer exhibited a map disclosing the proposed rerouting of the highway and explained details in connection therewith from an engineering standpoint. He advised that two routes were surveyed both of which by-pass the towns of Aumsville and Sublimity but only one of which by-passes the City of Stayton. He also advised that the estimated cost to construct the route that by-passes the City of Stayton is $75,000 less than the cost to construct the route that passes through Stayton; moreover, the so-called by-pass route is 0.2 mile shorter than the other. He went on to state that the Highway Commission's plans do not contemplate construction of the entire section from Mehama to Salem in the immediate future, which is estimated to cost about $1,000,000, but first consideration will be given to the section which extends easterly from the present highway junction near Shaw to a connection with the present highway about three miles east of Stayton. As to the benefits of the alternate route, represented by the relationship between the annual benefits to the road user and the annual road costs, the Engineer stated that the benefit quotient on the by-pass route is $5.12 per dollar expenditure for construction as compared with a benefit quotient of $4.71 per dollar expenditure for construction of the route.

that passes through Stayton. He mentioned the importance of this highway from a traffic standpoint because it offers a direct line from Salem to Central Oregon and points east. At the conclusion of the Engineer's explanation, Chairman Chandler invited all persons present to express themselves freely with respect to the alternate routes under consideration. He asked those representing the town of Aumsville to speak first, those representing the town of Sublimity to speak next, and those representing the city of Stayton to conclude the hearing.

Mr. William Rauscher was the only person present representing the town of Aumsville. He said he also represents the town of Sublimity. He spoke in favor of the so-called Stayton by-pass route, and he complimented the Engineers on the location. He gave as his opinion that the by-pass route should be adopted because it provides for a natural pass through a swamp area between Stayton and Sublimity and because there would be a minimum number of road crossings.

There being no one else present representing the towns of Aumsville and Sublimity, Chairman Chandler then invited the people of Stayton to express themselves with respect to the proposed location. Mr. Ralph Bright, President of the Stayton Chamber of Commerce, headed the Stayton group. He spoke in favor of the route that passes through Stayton, although, he said, the people of Stayton are not unanimous in favor of either route. In order to get a cross section of the desires of the people of their city, he said, the Chamber of Commerce conducted a poll of the city's population. The first poll, held in January, 1953, was based on two ballots to each city water customer. One thousand and fifty ballots were issued and 356 returned. Of the 356, 209 or 59 percent favored the Stayton route, and 147 or 41 percent favored the by-pass route. This particular poll, he said, developed some objections, so another poll was conducted in August, 1953 when 1,020 ballots were issued and 498 returned. The result of this balloting showed 314 or 63 percent in favor of the Stayton route, and 182 or 37 percent favoring the by-pass route. In addition to these polls, Mr. Bright said, the Chamber of Commerce polled its own membership, the results of which showed they were strongly in favor of the Stayton route -- 59 percent of the members voting in favor of such route, as against 35 percent favoring the by-pass route, and 6 percent showing an indifference. He further stated that in view of this showing the Chamber of Commerce unanimously adopted a resolution at a meeting held on August 3, 1953 to the effect that if the State Highway Commission insists on relocating the highway, then the Chamber of Commerce goes on record as urging the Commission to adopt a route which passes through the city of Stayton. He read aloud the contents of the resolution.

Mr. L. F. Meyers stated that he is a resident of Stayton but is in business in Mehama. He spoke in favor of the by-pass route. He gave as his feeling that the people of Stayton five years from now will regret it if the highway is not located so as to by-pass their city. He also said that construction of the highway through the city will defeat the purpose for which it is being built. He mentioned also that he has a lot of business interests and property in Stayton and that he has done considerable traveling throughout the United States during which he ascertained that people generally favor by-passing cities and towns. He also mentioned that the Stayton route is in close proximity to their new hospital which is an undesirable feature

Mr. George Schlies stated that the proposed highway location passes through his property north of Stayton and that he strongly favors the so-called by-pass route because the resulting damage to his property will be less along such location than along the other.

At this juncture Chairman Chandler advised that the Highway Commission in its highway construction program is endeavoring to select routes that will be in the best interests of everyone concerned, and to provide routes that meet modern standards. Generally speaking, he said, experts now consider that primary highways are better located if they by-pass cities provided the cities are given easy and safe connections. He mentioned new improvements on the Pacific Highway, especially pointing out that Salem is being by-passed and that eventually the cities of Albany, Harrisburg, Junction City, and Eugene will be by-passed, as well as all of the cities from that point to the California state line. Public hearings, he said, have already been held in a number of cities south of Eugene, and construction now is underway on a route that by-passes them. He mentioned that the North Santiam Highway is classified as a State secondary highway, whereas it will be improved to primary highway standards because of its importance and because the Commission believes that eventually it will be one of the most traveled highways across the Cascade Mountains.

Mr. L. E. Spraker, Editor of The Stayton Mail, spoke in behalf of the Stayton or "inside" route. He said he is not particularly against the route through the "swamp", but in his estimation this route by-passes Stayton farther than is absolutely necessary. The City of Stayton, he said, has prospered because of its location on the highway which,according to the map,now is to be taken away from them so that Stayton will then be only "a Sign on a post". He suggested a route which connects with the present highway about one mile east of First and Washington Streets in Stayton, and extends westerly therefrom through a ridge and into the so-called "swamp" area north of Stayton. He pointed out that such a route will bring the traffic much closer to Stayton than will the route now proposed which connects with the existing highway about one-half mile further east. He urged the Commission and the Engineer to give such routing careful study and to inspect it personally before making a definite selection of any route. He presented to the Commission a brochure containing numerous newspaper clippings on the subject under discussion.

The Engineer advised that the route proposed by Mr. Spraker has been examined but was not surveyed because it was not considered feasible. He added that every route possible has been investigated and that the one shown colored red on the map (the by-pass route) is considered best because it will provide the most good to the greatest number of people.

Mr. John Sullivan stated that he is a businessman and property owner in Stayton and that he strongly favors adoption of the outside or by-pass route for this highway. He said that in his opinion the City of Stayton has never received any benefit because of the highway. It was his feeling that the City depends more on the timber and farming industries than on benefits it has received from highway traffic.

Mrs. Roy Philippi spoke in favor of the by-pass route, although she said both routes come very close to her home.

Mr. Spraker speaking again inquired whether or not the Chamber of Commerce will be given time to study the proposed routing and to submit an argument in favor of the city route. He was informed by Chairman Chandler that time is an element in this matter which has been pending for many months. He also said that the Engineers have investigated every possible route and that it is their considered opinion that the by-pass route is the best one and should be adopted. He predicted that the people of Stayton will be happy eventually with a highway constructed along such route. He also mentioned that the City's problem is a local one and that if people traveling the highway want to go to Stayton, they will do so regardless of where the highway is located. It has been proven, he said, that by-pass routes are beneficial to the cities by-passed.

Mr. Bright inquired as to what access will be provided along the "swamp" route. He was informed by the Engineer that the Commission is controlling access to the highway but will grant private access to properties where existing accesses are being destroyed and where properties are so cut up that they are left with no road access whatsoever. He also mentioned that physical connections will be provided at all county road crossings including crossings of the existing highway. These crossings, he said, will be at grade for the time being, but traffic separation structures will be provided sometime in the future when the traffic volume necessitates. He especially pointed out that a good connection will be provided to each of the three towns that are being by-passed.

Mr. A. J. Frank spoke in favor of the by-pass route. He gave as his feeling that communities are benefited when highways are constructed to by-pass them. He complimented the Engineers for selecting the red line shown on the map (outside or by-pass route).

Mr. Walter Miller stated his preference for the outside or by-pass route. He declared his concurrence in the remarks of Mr. Frank, and he expressed the feeling of sawmill and timber operators that the by-pass route is the only feasible one. He gave as his thought that the necessity to hold this hearing has delayed progress on the building of the highway. He was informed by Chairman Chandler that such is not the case -- that highway construction is based on priority of projects and funds to finance the work. He also said that the Commission hopes to complete the section into Salem so it will be a modern highway in the not too distant future. Chairman Chandler mentioned that the Commission today is constructing highways under the controlled access law which means that only private or farm access will be granted along the new location thus eliminating the possibility of the highway becoming a city business street at some future time. He gave as his belief that the business people of Stayton need not feel that their businesses are going to be moved over to the new highway.

Mr. Bright speaking again stated that the people of Stayton have been waiting since the first of the year for a hearing which they feel they are entitled to for the good of the entire community regardless of which route they favor.

Chairman Chandler explained that the holding of the hearing does not mean that the highway is going to be built in the near future. He pointed out that the initial project, about ten miles long, is estimated to cost about one million dollars whichever route is finally decided on, but he again pointed out that the by-pass route is estimated to cost about $75,000 less than the other.

Mr. Huber Ray, Idanha, spoke in favor of the by-pass route from the standpoint of log hauling. Mr. F. M. Smith, Manager of the Stayton Canning Company, endorsed the remarks of Mr. Ray.

Mr. Frank M. Forette favored the outside or by-pass route; however, he suggested that the route mentioned by Mr. Spraker that would come within one mile of the city should be given serious consideration.

Mr. Spraker again urged the Commission to inspect the route that he suggested. He was informed by Chairman Chandler that the members of the Commission are not engineers and accordingly must depend upon the recommendation of the State Highway Engineer and his assistants in selecting highway locations. The Commission, he said, is not going to instruct its engineers to make surveys in any certain place because that is their function to locate highways where they should be built in order to provide a facility that will do the most good for the greatest number of people.

Mr. Mark Landon stated that he is not partial to either route; however, he said, the proposed location effects numerous farmers who own property along the route. He suggested that these farmers be given an opportunity to express themselves before the Commission decides a definite location for the highway.

Chairman Chandler asked those present not to go away from the meeting with any idea that the highway improvement will be constructed within the next year or two. He mentioned that the work will be done in two or three contracts and that it may take five or six years before the entire route is modernized into Salem. The Commission, he said, is going to make a start on the improvement as soon as funds are available to finance it and will then continue work on it until the entire project is completed.

Mr. Miller inquired as to how the Commission expects to deal with farmers for rights of way. He mentioned that the proposed highway passes through his property in such a manner that it leaves him a checkerboard arrangement. He interjected into the hearing a humorous strain by stating that the "swamp" route will cut up his fields so badly that he will have to put hinges on his cows to enable them to negotiate turns. In reply, Chairman Chandler advised that the Commission will pay damages to the property owners as may be agreed upon during right of way negotiations. Everything possible will be done, he said, to minimize the damage element. He expressed

regrets that public highways cannot be built without hurting someone. In conclusion Chairman Chandler advised that the Commission will seriously consider the points brought out in this hearing and then will make its decision.

The meeting adjourned at 10:00 a.m.

TABLE OF CONTENTS

Page	Date 1953	Subject
22220	Sept.24	Bids received on construction projects.
22225		Minutes. Commission approves four sets.
22226		Parks Supt. reports on following matters:
		Sunset Bay Park. Coos County. Purchase of Barker land to provide additional water approved.
		L. V. Koons to McCall, Idaho, September 9-12,1953 for Columbia Basin Inter-Agency meeting approved.
		Bradley State Park. Clatsop County. Installation of pay telephone booth approved.
		Robert W. Sawyer Forest Wayside. Deschutes County. Construction of low dam denied. Foot-bridge in 1955 program.
		Short Sand Beach State Park. Tillamook County. Exchange of land with R. B. Early approved.
22227		Columbia Gorge. Multnomah County. Purchase of Bennett property rejected. Land exchange with Fred Luscher to be investigated.
		Sunset Highway. Oregon Federation of Women's Clubs' sign pointing out reforested area approved.
		Tumalo. Deschutes County. Development of state park on Deschutes River approved.
		Wallowa Lake Park. Wallowa County. Proposed acquisition of Beard property to be investigated.
		Bandon Beach. Coos County. Proposed acquisition of land for state park to be investigated.
22228		Oceanlake. Lincoln County. Proposed establishment of state park within city limits denied.
		Real property. Acquisition approved. See EXHIBIT "A".
		Real property. Acquisition of property for which no previous authority had been granted. See EXHIBIT "B".
		Sale of miscellaneous properties confirmed.
		Wasco County. The Dalles. Laughlin's Addition. Sale of property to Keller confirmed.
		Marion County. Silver Creek Falls area. Sale of timber to Puget Timber Company confirmed.
		Marion County. Pacific Hwy. East. Salem By-pass. Payment of $500 to Mrs. SeRine for property damages approved.
22229		Columbia County. Columbia River Hwy. Clatskanie Section. Sale of land to Holmes confirmed.
		Douglas County. Pacific Hwy. Winchester-Garden Valley Road. Transfer of land to Mr. Ware for his right of access approved.
		Marion County. Portland-Salem Expressway. Willamette River-Hayesville. Acquisition of land from Chemawa Indian School approved.
		Marion County. Portland-Salem Expressway. Gervais Road-Hayesville. Settlement with Fitts for damage to equipment approved.

Page	Date 1953	Subject
22229	Sept.24	Access point changes approved:
		Jackson County. Pacific Hwy. Medford-County Farm Section. Blunt property.
		Marion County. Pacific Hwy. East. Salem-Hayesville School Section. Bartell property.
		Marion County. North Santiam Hwy. Stout Creek-Mehama Section. Russell property.
22230		Clackamas County. West Portland-Hubbard Hwy. Langdon property.
		Coos County. Oregon Coast Hwy. Cedar Point-Coquille Section. Hervey property.
		Deschutes County. The Dalles-California Hwy. Lapine. Changes of access denied except for Foss property.
		Lane County. Eugene. 7th Avenue at Garfield Street. 4-year lease to Sawyer Machine Works approved.
		Wasco County. Columbia River Hwy. The Dalles Section. Sale of land to Pacific Power and Light Company approved.
		Washington County. Wilson River Hwy. Gales Creek Section. Sale of land to Gordon E. Teter approved.
		Douglas County. Pacific Hwy. Divide-Rice Hill Section. Sale of land to Scotts Valley School District approved.
		Hood River County. Columbia River Hwy. Cascade Locks-Viento Section. Deeding of 0.07 acre of land to US Forest Service approved. Douglas bid accepted for moving building.
22231		Deschutes County. McKenzie-Bend Hwy. Tumalo Section. Sale of excess r/w to Mr. Suhre approved.
		Deschutes County. The Dalles-California Hwy. Redmond-Bend Section. Sale of 0.69 acre of land to Oregon Fir Supply Company approved.
		Land use permits for 1954. Issuance on annual basis authorized.
		Multnomah County. Pacific Hwy. East. Portland. Purchase of land adjacent to Division Headquarters approved.
		Ochoco Street-Avenue "A" Section: Purchase of land for r/w approved.
		Clatsop County. Sunset Hwy. Elsie. Use of quarry by Forestry Dept., in exchange for Hwy. use of Arch Cape quarry approved.
22232		Washington County. Wilson River Hwy. Washburn-North Plains Section. R/W option from Peters rejected. Condemnation authorized.
		Multnomah County. T. H. Banfield Expressway. Portland. 82nd Street. Option from Prescott Corp. rejected. Condemnation authorized.
		Condemnation. Authority granted. See EXHIBITS "M-1" through "M- ".
22241		Coos County. Oregon Coast Hwy. Hauser-North Bend Section. Offers of $500 per acre for oyster bed lands approved.
		Robert Y. Thornton, Attorney General, complimented Hwy. Commission on its construction program.

Page	Date 1953	Subject
22241	Sept.24	Court cases tried. Counsel's report:
		Washington County. State vs Washington County. Case under advisement and complete report will be made.
		Washington County. Pacific Hwy. West. Tigard-Tualatin River Section. John H. Frederick settlement of $57,300 approved.
22242		Washington County. Pacific Hwy. West. Tigard-Newberg Section. Robert D. Litton. Report accepted.
		Settlement of cases. Counsel's report:
		Grant County. John Day Hwy. Dayville-John Day Section. Josephine Holland settlement approved.
		Curry County. Oregon Coast Hwy. Rinehart Creek-Frankport Section. Norman J. Nash settlement approved.
		Clackamas County. Quarry site. August N. Damm settlement approved.
		Columbia County. Columbia River Hwy. Clatskanie-Delena Section. Kenneth A. Johnson settlement approved.
		Deschutes County. The Dalles-California Hwy. Lapine-Willamette Hwy. Jct. Clarence V. Parsons settlement approved.
22243		Columbia County. Columbia River Hwy. Clatskanie-Delena Section. W. G. Walker settlement approved.
		Condemnation cases. Offers for property approved.
22244		Property damage claims. Chief Counsel's report accepted.
		Claims. Policy in handling uncollectible claims. Abandonment of uncollectible claims approved.
		Wayne E. Murphy. IBM cards and equipment. Claim for royalties again denied.
22245		Salaries and Wages.
		Owen McAdams' salary increase approved.
		John McClean's salary increase approved.
		Clatsop County. Nehalem Secdy. Hwy. Jewell-Birkenfeld Section. Authorized specific performance suit against Raymond Johnson.
		Douglas County. Pacific Hwy. Roseburg. Chatham Street. Payment of $4,000 damages to R. G. Philips approved conditionally.
		Wasco County. Columbia River Hwy. Chenoweth-The Dalles Section. Kelsay Way. Request for vacation approved.
		Lane County. Eugene. "Waiver and Relinquishment of Rights of Way and Easement" form re MacDonald property approved.
22246		Claim. Settlement with John J. Kennedy for damages to car approved conditionally.
		Speed Limits. Resolution to protect hwys. under construction adopted. See EXHIBIT "C".
		Oversize and Overweight Vehicles. Resolution to allow operation proposed. Action deferred.
		Multnomah County. Portland. Sandy Boulevard. Signals to be interconnected and extended westward.
		AASHO Test Road Project in Illinois. Oregon's apportionment to be $30,000. Approved.

Page	Date 1953	Subject
22247	Sept.24	Gilliam County. Condon. Pavement widening, curbs, drainage and installation of storm sewer on 50-50 basis approved.
		Tillamook County. Netarts Secdy. Hwy. Hwy. grade to be raised to prevent flooding at high tide.
		Baker County. Baker. Broadway and 10th Streets. Widening to four traffic lanes. Action deferred.
		Umatilla County. Helix-Havana Secdy. Hwy. Extension of hwy to Oregon-Washington Hwy. Jct. Action deferred.
22248		Territorial Secondary Highway. Entire hwy. to be placed on Federal Aid System.
		Coos County. Coos River Secdy. Hwy. Catching Slough Bridge to Coos River Bridge. Widening of hwy. deferred.
		Wallowa County. Little Sheep Creek Secdy. Hwy. Speed zone established. See EXHIBIT "L".
		Award of contracts. Engineer reports satisfaction of conditions.
22249		Coos County. Empire-Coos Bay Secdy. Hwy. Coos Bay. Central Avenue. Widening to be included in next hwy. program.
		Multnomah County. Banfield Expressway. Fairview-Sundial Section. Agreement with County Drainage District approved.
		Josephine County. Williams Secdy. Hwy. Provolt-III Bar Ranch Section. Request for improvements denied.
		Multnomah County. Portland. North Lombard Street. Installation of 6 traffic signals authorized on 50-50 basis.
22250		Five-year Highway Construction Plan. Revisions adopted.
22265		Clackamas County. Pacific Hwy. East. Oregon City-Milwaukie Section. Installation of detectors at 3 signal locations confirmed.
		Marion County. Hillsboro-Silverton Secdy. Hwy. Mt. Angel-Silverton Section. Request for improvements deferred.
		Hood River County. Columbia River Hwy. Hood River Bridge. Installation of luminaire unit approved.
		Sherman County. The Dalles-California Hwy. Grass Valley. Request for oiling or paving to curbs denied.
		Klamath County. Exchange of hwys. County Court's request to exchange roads denied.
22266		Increases in project authorizations granted:

Reading of the bids was concluded at 12:40 p.m. following which a recess was declared to 2:00 p.m. The meeting reconvened at 2:00 p.m. in the same room with the same persons present and participating.

The Commission approved the minutes for the regular meeting held

June 25 and 26; for the Commission's road trip, July 14 through 18; for the special meeting held July 22 in Portland; and for the hearing concerning routing of the North Santiam Highway, held in Stayton on August 13. Approval of the minutes for the meeting held on August 6 and 7, 1953 was deferred until the next regular meeting.

The Parks Superintendent reported on the following park matters:

1. Purchase of land to provide additional water for Sunset Bay State Park: The Parks Superintendent recommended that negotiations be authorized to purchase approximately one-half acre from Ralph and Blanche W. Barker. This land is located south of the park on the Cape Arago Highway in the east half of Section 8, Township 26 South, Range 14 West. The Commission approved the recommendation.

2. Travel expenses incurred by Mr. L. V. Koons, Assistant Parks Superintendent in attending a meeting of the Columbia Basin Inter-Agency Subcommittee on Recreational Planning at McCall, Idaho, September 9 to 12: The Parks Superintendent recommended that Mr. Koon's expense be paid by the State. He estimated the expense involved at approximately $35. The Commission approved the recommendation.

3. Request of the Pacific Telephone and Telegraph Company for permission to install a public pay telephone booth in Bradley State Park: The installation of such phone, the Parks Superintendent reported, will eliminate public use of the state phone at this place and will be a convenience to the general public. The phone company, he said, has agreed to install the phone and to accept as rental 15 percent of the amount collected. He recommended approval of the request. The Commission approved the recommendation.

4. Request of Mr. Robert W. Sawyer, Bend, for construction of a low dam in the Deschutes River opposite Robert W. Sawyer Forest Wayside north of Bend, and construction of a foot-bridge across the river at this point: The Parks Superintendent reported that it would cost about $5,000 to construct a dam 4½ feet high and 219 feet long to create an area of approximately 3½ acres of still water to provide a winter skating area. It was his thought, however, that the hazards of a skating area in this wayside area greatly exceed the benefits that might be derived from such area. He therefore recommended against its construction. Concerning construction of the foot-bridge, he stated that it would cost approximately $2,000 to construct a bridge five feet wide downstream a short distance from the proposed dam. Construction of such a bridge, he said, would facilitate development of an additional area across the river which is not now accessible. He recommended that consideration be given to including this item in the 1955 Parks Budget. The Commission approved both of the Parks Superintendent's recommendations.

5. Proposed exchange of land with R. B. Early adjoining Short Sand Beach State Park: The Parks Superintendent reported that Mr. Early had requested exchange of 6.38 acres of his property for 5.47 acres of state land in order to clear up the title on Mr. Early's entrance road. These two properties

he stated, are of almost identical value. The Early property is valued at $462 while the state property is valued at $469, and both are located in the West half of Section 31, Township 4 North, Range 10 West, W. M. As the exchange would be of value to the state in consolidating the state holdings in that area and would also be of venefit to Mr. Early, he recommended approval of the exchange. The Commission adopted the recommendation.

6. Proposed reduction in price for the Bennett property at Latourell Falls and exchange of land with Fred Luscher, both in the Columbia Gorge: The Parks Superintendent reported that Mrs. Gertrude Jensen had advised him that the Bennetts have agreed to take $45,000 for their property for which they formerly asked $55 000. He stated that even at the reduced price, the property is more than the state can use; moreover, the State has no use whatever for the buildings located on the land. He recommended that the proposition be rejected. He also reported that Mrs. Jensen had proposed an exchange of 12 acres of pasture land owned by the state for a six-acre tract of timber owned by Mr. Fred Luscher and located along the old highway a short distance west of Sheppard's Dell. He recommended that he be authorized to investigate this proposed exchange. The Commission approved both recommendations. (See also delegation on the following day.)

7. Proposed wording to be placed on a sign requested by the Oregon Federation of Women's Clubs pointing out an area to be reforested under sponsorship by this organization: The Parks Superintendent recalled that at a previous meeting, the Commission approved installation of such a sign provided the wording for the sign were approved and the sign were placed in a satisfactory location. The wording, he stated, is to be "Dedicated to the Perpetuation of Forestry Resources, Oregon Federation of Women's Clubs, 1953". He recommended approval of the wording and that the sign be placed parallel to the Sunset Highway in a manner not to distract the attention of motorists. The Commission approved the recommendation.

8. Development of a state park on Deschutes River near the town of Tumalo: The Parks Superintendent reported that he has investigated the offer of Deschutes County to donate approximately 110 acres of land for this purpose and that he recommends adeptance of the offer. He also said that the area provides an excellent location for overnight camping. He estimated the cost to completely develop the area at about $24,000, and he recommended that primary development in the amount of $7,600 be approved for 1954. The Commission approved both recommendations.

9. Proposed acquisition of land at Wallowa Lake Park from Ralph Beard: The Parks Superintendent stated that Mr. Beard owns an 18-acre tract of land on the east side of the road which leads from Wallowa Lake Lodge to the Pacific Company's power plant, that it has a frontage of 385 feet on the road and extended easterly up the hill approximately one-half mile. The property, he said, contains approximately 200 M-FBM fir and pine timber and a small duplex house; also, that Mr. Beard is asking $24,000 for the property. He requested authority to investigate the property as to its feasibility of being added to the present park holdings. The Commission approved the request.

10. Proposed acquisition of land for a state park at Bandon Beach: The

Parks Superintendent stated that Mrs. L. M. Kranick had suggested acquisition of an area a short distance south of Bandon and south of and adjoining the area which had been investigated some months prior. The new area, he stated, may have merits as a state park, and he requested authority to investigate it. The request was approved by the Commission.

11. Proposed establishment of a state park within the city of Ocean Lake: The Parks Superintendent recalled that at the August meeting Mr. Herbert Gordon of Ocean Lake appeared before the Commission concerning establishment of a park at this place and that a definite answer was not given at that time because Commissioner McIver was absent. The Commission decided to adhere to its long-standing policy not to construct park facilities within cities or built-up communities, and ordered that Mr. Gordon be so informed.

The Right of Way Engineer presented for consideration options secured for purchase of property needed for various state highway improvements and for other purposes. After careful consideration the Commission approved closing of the options at the prices mentioned therein by adopting the attached resolution relative thereto marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Right of Way Engineer requested authority to negotiate purchase of property needed as right of way for the Noon Bridge Section of the Corvallis-Newport Highway in Benton County, no previous authority having been granted. The Commission unanimously approved the request by adopting the attached resolution relative thereto marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission confirmed sale of miscellaneous properties as reported by the Right of Way Engineer. (For a list of properties sold, see copy of report prepared by C. W. Parker, Property Manager, dated September 24 and 25, 1953, filed in the Secretary's office under the heading "Miscellaneous Sales".)

The Commission confirmed previous telephonic approval of a sale made by auction bid on August 14, 1953, of a portion of Lot 9, Block 21, Laughlin's Addition to the city of The Dalles. The Right of Way Engineer reported that Mr. Grover E. Keller was the high bidder for this property at $10,000, the minimum price set by the Commission having been $6,000.

The Commission also confirmed previous approval given by telephone for the sale of timber in the Silver Creek Falls area. The Right of Way Engineer reported that on August 17 an oral auction was held for purchase of this timber for which a minimum price of $37,500 had been set by the Commission. Twenty-three bids were made, the highest being that of Puget Timber Company of Oregon at $50,500.

The Right of Way Engineer recommended and the Commission approved payment of $500 to a Mrs. SeRine for damages caused to her property during the

winter of 1952-53 due to defective drainage on the Salem By-pass Section of the Pacific Highway East.

Sale of 1,040 square feet of land to John R. and Mildred A. Holmes for the sum of $728 was confirmed by the Commission. The Right of Way Engineer stated that this property is on the Clatskanie Section of the Columbia River Highway in Columbia County and has been sold with complete restriction of access to the highway.

The Commission considered elimination of a right of access previously granted to the Ware property on the Winchester-Garden Valley Road Section of the Pacific Highway in Douglas County in exchange for approximately 19 acres of excess right of way in the immediate vicinity. The Right of Way Engineer reported that this property was purchased a number of years ago and at that time, Mr. Ware was granted one access, and the only way at this time to acquire the access is to trade him approximately 19 acres of land for the access right. The Engineer stated that if the access is not acquired, and if the highway is to retain its throughway characteristics, it will be necessary to construct an underpass at a cost of approximately $30,000 if the deal concerning the Ware property is not consumated. The Right of Way Engineer stated that the land to be transferred to Mr. Ware has a value of approximately $7,500. After discussion, the Commission unanimously approved the deeding of the land to Mr. Ware in exchange for his right of access so as to preserve the freeway characteristics of this important highway section.

Consideration was given by the Commission to the acquisition of 18.27 acres of land from the Chemawa Indian School that is needed as right of way for the Willamette River-Hayesville Section of the Portland-Salem Expressway in Marion County. The Right of Way Engineer advised that the state's application for the land provides for payment of $10,668 to the Indian School and in addition provides for fencing, installation of an irrigation pipe and ditch, construction of an underpass, and the furnishing of 117 apple trees, the total cost of which items is estimated at $25,000. He recommended approval of the transaction. The Commission accepted the recommendation.

The Right of Way Engineer recommended and the Commission approved payment to Mr. J. W. Fitts the sum of $228.52 for alleged damage to his mowing equipment caused by survey stakes left in his grain field located on the Gervais Road-Hayesville Section of the Portland-Salem Expressway in Marion County.

The Right of Way Engineer recommended and the Commission approved changes in access points for the following properties:

a. William Blunt property, File No. 19169, on the Medford-County Farm Section of the Pacific Highway in Jackson County

b. Bartell property, File No. 13875, on the Salem-Hayesville School Section of the Pacific Highway East in Marion County, the change in this case having been from two 32-foot points of access to one 45-foot access

c. Lewis and Eva Russell property, File No. 16610A, on the Stout

Creek-Mehama Section of the North Santiam Highway in Marion County.

d. Langdon property on the West Portland-Hubbard Highway in Clackamas County, File No. 18583

e. John L. Hervey property on the Oregon Coast Highway between Cedar Point and Coquille, Coos County, File No. 16881.

Consideration was given by the Commission to a request for changes in access to The Dalles-California Highway in Lapine. The Right of Way Engineer recalled that the Commission had previously discussed this matter and on its August trip had personally inspected the premises. He recommended that no change be made in existing access points with the exception of property belonging to Mr. Foss about four miles south of Lapine for which he recommended the granting of an agricultural access only. The Commission approved the recommendation.

The Right of Way Engineer recommended and the Commission approved the leasing of a parcel of land on Seventh Avenue at its intersection with Garfield Street in Eugene, to Sawyer Machine Works for a consideration of $250 per year, the lease to be written for a four-year period and to contain a six-months' cancellation clause.

The Commission approved sale to the Pacific Power and Light Company of a parcel of land in Lot 7, Section 27, Township 2 North, Range 13 East on The Dalles Section of the Columbia River Highway in Wasco County, consideration $165 without access to the highway.

Sale of 1.75 acres of land on the Gales Creek Section of the Wilson River Highway, Washington County, to Gordon E. Teter for the sum of $700, was considered by the Commission. The Right of Way Engineer advised that Mr. Teter was the successful bidder for the Dugdale house at a recent auction, but his purchase of the house was contingent upon being able to purchase a parcel of land on which to place it. As a good prive was secured for the house and the offer of $700 reflects the true value of the land, he recommended that it be sold to Mr. Teter for that amount. The Commission accepted the recommendation.

Also considered by the Commission was the sale of 15 acres of land on the Divide-Rice Hill Section of the Pacific Highway in Douglas County to the Scotts Valley School District. The Right of Way Engineer recalled that this matter was considered previously by the Commission earlier in the year, and the property was viewed by the Commission.in May. Consideration, he stated, is at the rate of $250 per acre which had been agreed upon as a fair price, the total consideration being $3,750. He recommended and the Commission approved the sale at such price.

The matter of deeding 0.07 acre of land on the Cascade Locks-Viento Section of the Columbia River Highway in Hood River County to the U. S. Forest Service was considered by the Commission. The Right of Way Engineer advised that it is the obligation of the state to provide this parcel of ground for reestablishing a Forest Service Ranger Station dwelling that is located in a highway

slide area; moreover, it also is the state's obligation to move the building from its present location. In connection with the moving operation, he stated, four bids have been secured as follows:

A. L. Douglas, Stevenson, Washington	$4,250.00
Lebeck and Sons, Portland,	4,635.00
A. C. Bomback, Sandy	5,550.00
C. B. Burt, Portland	5,795.00

He recommended acceptance of the low bid submitted by Mr. Douglas for moving the building. The Commission approved the deeding of the area to the Forest Service and the recommendation of the Right of Way Engineer that the bid of Mr. Douglas be accepted for the moving of the building.

Consideration was given to the sale of 1.58 acres of excess right of way on the Tumalo Section of the McKenzie-Bend Highway in Deschutes County. The Right of Way Engineer reported that this area is no longer needed for highway purposes, and he recommended that it be sold to Mr. A. C. Suhre for the sum of $250. The Commission accepted the recommendation.

Also considered was the sale of 0.69 acre on the Redmond-Bend Section of The Dalles-California Highway in Deschutes County, to Oregon Fir Supply Company, Inc. for the sum of $150. The Right of Way Engineer reported that this property no longer is needed for highway purposes, and he recommended that it be sold to the Oregon Fir Supply Company, Inc. for the price mentioned, without access to the highway. The Commission approved the recommendation.

The Right of Way Engineer requested authority to issue annual land use permits during the year 1954 as in previous years. He explained that there are a number of parcels of property not immediately needed for highway construction which are desirable for agricultural purposes and that numerous requests have been made for the use of these areas. The Commission granted the authority requested.

Purchase of additional land adjacent to the Division Headquarters on US 99E in Portland was considered by the Commission. The Right of Way Engineer advised that the Public Housing Administration is now in the process of disposing of its Kellogg Park Housing Project which adjoins the Division Headquarters, and for the sake of future expansion of this headquarters, 3.84 acres should be acquired now. The Engineer pointed out that it would also be desirable to obtain 4.42 acres additional land as right of way on either side of the Pacific Highway between the Portland city limits at Ochoco Street and Avenue "A" in order to prevent promiscuous access and to provide sufficient area for construction of frontage roads when such become necessary, making a total of 8.26 acres. Present indications are that the land can be purchased from the Housing Authority for approximately $4,000 per acre which would make a total cost to the State of approximately $33,000. He recommended purchase of the property. The Commission approved the recommendation unanimously.

The Right of Way Engineer reported that the State Forestry Department has requested the use of a state highway quarry near Elsie on the Sunset Highway, and as

consideration has offered the Highway Department use of the Forest Service quarry near Arch Cape, both properties being in Clatsop County. This arrangement, he stated, will be mutually beneficial to both parties, and he recommended approval of the arrangement, same to be covered by appropriate written agreement. The Commission approved the recommendation.

The Right of Way Engineer reported that an option had been secured in the amount of $8,008 from Albert Peters, File No. 19846, for right of way on the Washburn-North Plains Section of the Wilson River Highway. This price, he stated, is considerably higher than the appraised value of the property, and he suggested in view thereof that the option be rejected and a new one negotiated, or if such is not possible, that the right of way be acquired by condemnation. The Commission approved the suggestion and so ordered.

The Right of Way Engineer also reported that an option in the amount of $8,875 had been secured from the Prescott Corporation, File No. 20831, for eighteen lots near 82d Street on the T. H. Banfield Expressway. The option, he said, includes payment for damages to lots across the street which it has since been determined are not legal. He suggested that the option be rejected and that he be authorized to negotiate another, and if his efforts are not successful, that the property be acquired by condemnation. The Commission approved the suggestion and so ordered. The Commission authorized an offer of $2,000 in condemnation.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties needed for public purposes in connection with various highway improvements, and to make offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

Goshen-Coast Fork Willamette River Unit of the Goshen-Divide Section of the Pacific Highway

	Recommended Offer
R 18464 - Benedick E. Stafne Right of Way (Lane) Parcel No. 1: 1.26 acres Parcel No. 2: 0.075 acre	*
R 20484 - Leota Brougher Right of Way (Lane) Parcel No. 1: 0.74 acre Parcel No. 2: 0.12 acre	*
R 20489 - W. Keith Rodman Right of Way (Lane) 4.58 acres	*
R 20490 - James A. Rodman Right of Way (Lane) 7.17 acres	*

Goshen-Coast Fork Willamette River Unit of the Goshen-Divide Section of the Pacific Highway (cont.)

		Recommended Offer
R 20493 - Mabel Sly		
	Lane	
	Parcel No. 1: 16.73 acres for Gravel Pit	
	Parcel No. 2: 26.04 acres for Gravel Pit	
	Parcel No. 3: 2.36 acres for Hauling Road Easement from Gravel Pit	*
R 20495 - C. R. O'Neil		
	Right of Way (Lane)	
	7.29 acres	*
R 20501 - Edwin W. Hoagland		
	Lane	
	Parcel No. 1: 5.27 acres for Right of Way	
	Parcel No. 2: 5.63 acres for Gravel Pit	*
R 20507 - Rosina Ziniker		
	Lane	
	Parcel No. 1: 14.58 acres for Right of Way	
	Parcel No. 2: 0.93 acre for Right of Way	
	Parcel No. 3: 17.25 acres for Gravel Pit	*
R 20509 - Philip S. Holt		
	Right of Way (Lane)	
	1.05 acres	*
R 20512 - John Perini		
	Right of Way (Lane)	
	Parcel No. 1: 4.15 acres	
	Parcel No. 2: 0.23 acre	*
R 20516 - Holt Lumber Company		
	Right of Way (Lane)	
	6.1 acres	*
R 20519 - Harry Holt		
	Right of Way (Lane)	
	4.43 acres	
	0.46 acre	
	21.64 acres	*
R 20524 - Noah S. Cosner		
	Right of Way (Lane)	
	3.53 acres	*
R 20526 - John Bradford Fox		
	Right of Way (Lane)	
	7.64 acres	*

Goshen-Coast Form Willamette River Unit of the Goshen-Divide Section of the Pacific Highway (cont.)

	Recommended Offer
R 20527 - Anna G. Grousbeck Right of Way (Lane) 6.44 acres	*
R 20529 - Harold E. Clark Right of Way (Lane) Parcel No. 1: 4.2 acres Parcel No. 2: 0.04 acre	*
R 20530 - E. L. Clark Right of Way (Lane) 2.21 acres	
R 20531 - Anton Meyers Right of Way (Lane) 3.99 acres	*
R 20578 - Dale E. Cornelius Right of Way (Lane) 0.79 acre	*
R 20579 - Elmer Olesen Right of Way (Lane) 0.31 acre	*
R 20583 - Goshen Grange No. 561 Right of Way (Lane) 0.11 acre	*
R 20584 - Lewis G. Clark Right of Way (Lane) 0.60 acre	*
R 20587 - Kenneth Walton Right of Way (Lane) 0.055 acre	*
R 20589 - Wm. Roy Spears Right of Way (Lane) 0.14 acre	*
R 20590 - George Orbanosky Right of Way (Lane) 0.24 acre	*
R 20954 - Byron MacIntyre Right of Way (Lane) 0.11 acre	*

East Unit, Pendleton-Deadman's Pass Section of the Old Oregon Trail

	Recommended Offer
R 20110 - B. F. Bowman Right of Way (Umatilla) Parcel No. 1: 11.18 acres Parcel No. 2: 0.27 acre Parcel No. 3: 0.18 acre Parcel No. 4: 14.23 acres	*
R 20104 - Robert E. Goad Right of Way (Umatilla) 12.55 acres	*

Tiller-Dead Horse Creek Section of the Tiller-Trail Highway

R 20858 - Elmo Aldridge Quarry Site (Douglas) 1.47 acres	*

South Umpqua River Unit of the Deady-Shady Section of the Pacific Highway

R 18532 - Willis O. Beckwith Right of Way (Douglas) 0.30 acre	*
R 18533 - E. S. Kennedy Right of Way (Douglas) 0.55 acre	*

Hauser-North Bend Section of the Oregon Coast Highway

R 21101 - Carl F. Gregg Right of Way (Coos) 0.78 acre	*

Washburn-North Plains Section of the Wilson River Highway

R 19822 - James L. Chapman Right of Way (Washington) Parcel No. 1: 2.29 acres Parcel No. 2: 0.74 acre Parcel No. 3: 0.74 acre	*
R 19832 - Alice Dooley Right of Way (Washington) Parcel No. 1: 3.06 acres Parcel No. 2: 0.49 acre Parcel No. 3: 0.44 acre	*

Washburn-North Plains Section of the Wilson River Highway (cont.)

	Recommended Offer
R 19833 - Florence Jones Right of Way (Washington) Parcel No. 1: 2.14 acres Parcel No. 2: 0.57 acre Parcel No. 3: 0.86 acre	*
R 19834 - Melissa Gibson Right of Way (Washington) Parcel No. 1: 8.72 acres Parcel No. 2: 0.23 acre Parcel No. 3: 0.62 acre	*
R 19837 - H. C. Croon Right of Way (Washington) 0.79 acre	*
R 19841 - Joseph Meeuwsen Right of Way (Washington) 6.02 acres	*
R 19842 - Paul Vanderzanden Right of Way (Washington) 4.5 acres	*
R 19846 - Albert Peters Right of Way (Washington) Parcel No. 1: 0.47 acre Parcel No. 2: 5.93 acres	*
R 19847 - Ernest Behrman Right of Way (Washington) 9.64 acres	*

Willamette River-Gervais Unit of the Willamette River-Hayesville Section of the Portland-Salem Expressway

R 20684 - O. E. Powell Right of Way (Marion) 11.11 acres	*
R 20650 - J. C. Owre Right of Way (Marion) Parcel No. 1: 11.86 acres Parcel No. 2: 0.64 acre	*
R 20649 - James L. Wilson Right of Way (Marion) Parcel No. 1: 1.45 acres Parcel No. 2: 0.69 acre	*

Willamette River-Gervais Unit of the Willamette River-Hayesville Section of the Portland-Salem Expressway (cont.)

		Recommended Offer
R 20370 - Robert J. Wells Right of Way (Marion) Parcel No. 1: 4.03 acres Parcel No. 2: 0.23 acre		*
R 20366 - Harry T. Vorhees Right of Way (Marion) 23.5 acres		*
R 20365 - John N. Hooper Marion Parcel No. 1: 11.0 acres for Right of Way Parcel No. 2: 1.42 acres for Right of Way Parcel No. 3: 0.31 acre for Easement for Detour and Channel Change		*
R 20361 - Roy Stampley Right of Way (Marion) 24.70 acres		*
R 20351 - Lester C. Peter Right of Way (Marion) Parcel No. 1: 14.49 acres Parcel No. 2: 0.46 acre		*
R 20350 - John Lettenmair Right of Way (Marion) Parcel No. 1: 2.59 acres Parcel No. 2: 1.65 acres		*
R 20345 - Fred W. Jablonski Right of Way (Marion) 7.41 acres		*
R 20286 - Carl A. Sprauer Right of Way (Marion) Parcel No. 1: 13.23 acres Parcel No. 2: 0.30 acre Parcel No. 3: 0.12 acre		$ 12,925.00

Prairie Road-Junction 6th and 7th Streets, Pacific Highway

R 20872 - J. O. French Right of Way (Lane) 2,090 square feet		*

Prairie Road-Junction 6th and 7th Streets, Pacific Highway (cont.)

	Recommended Offer
R 20876 - John R. Pattison Lane Parcel No. 1: 0.07 acre for slope easement Parcel No. 2: 0.17 acre for storm sewer easement	*
R 20878 - Willard L. Morrison Storm Sewer Easement (Lane) 0.07 acre	*
R 20883 - Charles S. Payne Slope Easement (Lane) 1,910 square feet	*

Barbur Boulevard-White School Section of the Portland-Salem Expressway

R 21096 - Frances S. Connolly Right of Way (Multnomah) 5,750. square feet	*
R 20656 - A. F. K. O. Investment Co. Right of Way (Multnomah) 0.72 acre	*

Crooked River-Terrebonnne Section of The Dalles-California Highway

R 10445 - John M. Neal Right of Way (Deschutes) 2.42 acres	*

Grants Pass-Murphy Section of the Williams Secondary Highway

R 19903 - Eva C. Lewis Right of Way (Josephine) 0.53 acre	*

Shady Point-Kelly Corner Unit of the Shady Point-Myrtle Creek Section of the Pacific Highway

R 20066 - H. A. Winston Estate Right of Way (Douglas) Parcel No. 1: 0.87 acre Parcel No. 2: 0.64 acre Parcel No. 3: 0.01 acre	*
R 21066 - Abner B. Rice Right of Way (Douglas) Parcel No. 1: 5.80 acres Parcel No. 2: 7.60 acres Parcel No. 3: 0.32 acre	*

Shady Point-Kelly Corner Unit of the Shady Point-Myrtle Creek Section of the Pacific Highway (cont.)

	Recommended Offer
R 21067 - Darrell W. Wade Right of Way (Douglas) 6.98 acres	*
R 21068 - A. Creason Right of Way (Douglas) Parcel No. 1: 2.92 acres Parcel No. 2: 3.03 acres	*
R 21069 - Glenn L. Young Right of Way (Douglas) 29.10 acres	*
R 21070 - Blanche Tipton Right of Way (Douglas) 5.90 acres	*
R 21071 - Wm. G. Clarenbach Right of Way (Douglas) 0.05 acre	*
R 21072 - E. K. Wood Lumber Company Right of Way (Douglas) 0.01 acre	*
R 21073 - Clyde D. King Right of Way (Douglas) Parcel No. 1: 0.18 acre Parcel No. 2: 0.05 acre	*
R 21074 - Laval E. Medford Right of Way (Douglas) Parcel No. 1: 1.05 acres Parcel No. 2: 0.12 acre	*
R 21075 - Unknown Right of Way (Douglas) 0.12 acre	*
R 21076 - Unknown Right of Way (Douglas) 0.06 acre	*

Winchester-Garden Valley Road Section of the Pacific Highway

R 17842 - Charles J. Brent Right of Way (Douglas) 0.27 acre	*

Winchester-Garden Valley Road Section of the Pacific Highway (cont.)

	Recommended Offer
R 19347 - Laura M. Verrell Right of Way (Douglas) 0.5 acre	*

Rocky Point-Brush Creek Section of the Oregon Coast Highway

R 21055 - Searcy R. Binford Right of Way (Curry) 4.80 acres	*
R 21056 - George Towy Right of Way (Curry) 5.71 acres	*
R 21058 - W. M. Hubbs Right of Way (Curry) 0.78 acre	*

Unit No. 4 of the T. H. Banfield Expressway

R 20831 - Prescott Corp. Right of Way (Multnomah) 45,000 square feet	*
R 20624 - W. J. McCready Lumber Company Right of Way (Multnomah) 20,300 square feet	*
R 20626 - M. E. Van Horn Right of Way (Multnomah) 35,000 square feet	*
R 20633 - Emily E. McKeraghan Right of Way (Multnomah) 7,224 square feet	*

Chenoweth Creek-The Dalles Section of the Columbia River Highway

R 17456 - Frank E. Wink Right of Way (Wasco) 2.45 acres	$ 81,675.00

South Myrtle Point Section of the Coos Bay-Roseburg Highway

R 15956 - Carrie McCulloch Right of Way (Coos) 0.03 acre	*

Brush Creek-Rinehart Creek Section of the Oregon Coast Highway

L 1969 - Vera H. Redenbaugh
New resolution required - granting one additional access

L 2013 - Winston W. Chambers, et al
New resolution required - change of description
Recommended offer: $8,675.00

L 1970 - Stephen J. Spoerl, et ux
New resolution required - change of description - elimination of frontage road clause
Recommended offer: $7,275.00

The Commission approved the request unanimously by adoption of the attached resolutions relative thereto, marked EXHIBITS "M-1" through "M-18", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

In this connection the Chief Counsel asked the Commission to authorize offers of $500 per acre for oyster bed lands needed as right of way for improvement of the Oregon Coast Highway between Hauser and North Bend, such offers to be used in condemnation of the properties. The Commission approved the request.

The Chief Counsel at this time introduced Mr. Robert Y. Thornton, Attorney General for the State of Oregon, who complimented the Commission on its construction program and on the selection of its Chief Counsel, Mr. Enfield, who, he said, has been very cooperative and has kept his office well informed on highway legal matters.

The Commission considered and unanimously approved a report from the Chief Counsel concerning cases tried since the last Commission meeting, as follows:

1. State vs Washington County, et al, L 1470: This case was tried before Judge Peters at Hillsboro without a jury. The case is under advisement and a complete report will be made subsequent to the entry of judgment.

2. State vs John H. Frederick, et ux, L 2000: This case is for acquisition of land and rights of access on the Tigard-Tualatin River Section of the Pacific Highway West. The State offered $41,750 for this property whereas the owners demanded the sum of $62,000. The jury returned a verdict in the amount of $57,300. In presenting this matter, the Chief Counsel stated that according to the appraisals, the amount awarded by the court is approximately $15,000 too high, but as no error can be found in the court procedure, the case cannot be appealed. In order to appeal the case, it would be necessary that the construction plans be changed. The Highway Engineer stated that a proposed change in plans has been investigated,and it has been determined that the cost to change the plans probably would be more than would be gained were the case appealed. He recommended payment of the amount

established by the jury's verdict. The Commission approved the recommendation.

3. State vs Robert D. Litton, et al, L 1871: This case was for acquisition of land and rights of access on the Tigard-Tualatin River Unit of the Tigard-Newberg Section of the Pacific Highway West. An offer in the amount of $300 was made for this property based upon an appraisal by Mr. Leroy Draper. The court awarded the verdict in the amount of $300. (For further details see the Chief Counsel's report dated September 21, 1953 in the General Files.)

The Commission also considered and approved a written report from the Chief Counsel concerning settlement of the following cases:

1. State vs Josephine Holland, et vir, L 2008: This case was for acquisition of land on the Dayville-John Day Section of the John Day Highway with four points of access granted. The State offered to pay $1,642.00 for this property and to re-establish the irrigation ditch and install a culvert beneath the highway. After further negotiations, settlement was effected for $1,600 with the defendents responsible for construction of necessary fencing and for re-establishing their irrigation ditch. The State granted two additional residential access points making a total of six for the frontage of approximately 2,100 feet.

2. State vs Norman J. Nash, et al, L 2006: This case involves acquisition of land and all rights of access except one point of access for residential use and a right to cross under the highway on the Rinehart Creek-Frankport Section of the Oregon Coast Highway in Curry County. The State offered to pay $18,610 whereas the defendants demanded the sum of $35,000 for the property. A settlement was arranged for the sum of $22,500 plus construction of a fence by the State.

3. State vs August N. Damm, L 1989: This case involves acquisition of land in Clackamas County for a quarry site. An offer of $1,075 was rejected by the owner who demanded 5 cents per cu. yd. for all material to be removed. After further negotiations a settlement was agreed upon for the sum of $1,500.

4. State vs Kenneth A. Johnson, et ux, L 2018: This case concerns acquisition of land and all rights of access except two residential accesses on the Clatskanie-Delena Section of the Columbia River Highway. An offer in the amount of $2,000 was rejected by the defendants who demanded the sum of $12,000. After further negotiation, settlement was arranged whereby the State provides two points of access on the northerly side and one on the southerly side for private residential and ranch use only and the payment of $4,000.

5. State vs Clarence V. Parsons, et al, L 2022: Complaint in this case was filed for the acquisition of land and rights of access except for one point of access on the Lapine-Willamette Highway Junction Section of The Dalles-California Highway. An offer of $132 was made which, after a short

time, the defendants accepted.

6. State vs W. G. Walker, et al: This case involves acquisition of land and rights of access except for one point of access on the Clatskanie-Delena Section of the Columbia River Highway. An offer of $4,000 made by the State was rejected by the owner who demanded approximately $11,000. A settlement was effected after further negotiations in the amount of $5,488.00.

The Commission considered and confirmed the following offers reported by the Chief Counsel for acquisition of real property needed for various public purposes, which offers were tendered to the owners prior to commencement of condemnation proceedings in conformity with authority granted the Chief Counsel by the Commission in its resolution adopted December 20, 1951:

Hauser-North Bend Section of the Oregon Coast Highway

L 1863 - Owner: Walter D. Hickey, et al. 0.49 acre for right of way. Amount of offer $249.00. Authorized by Commissioner McIver on September 8, 1953.

L 1858 - Owner: Coos Bay Oyster Cooperative, et al. 0.09 acre for right of way. Amount of offer $45.00. Authorized by Commissioner McIver on September 8, 1953.

L 1857 - Owner: Tidelands Development Company, et al. 7.06 acres for right of way. Amount of offer $3,530.00. Authorized by Commissioner McIver on September 8, 1953.

L 1868 - Owner: Florence Jewett, et al. 0.23 acre for right of way. Amount of offer $115.00. Authorized by Commissioner McIver on September 8, 1953.

L 1860 - Owner: Theodore Toews, et al. 0.39 acre for right of way. Amount of offer $195.00. Authorized by Commissioner McIver on September 8, 1953.

L 1859 - Owner: M. A. Beyer, et al. 0.18 acre for right of way. Amount of offer $90.00. Authorized by Commissioner McIver on September 8, 1953.

L 1866 - Owner: Norman Stoll, et al. 0.122 acre for right of way. Amount of offer $56.00. Authorized by Commissioner McIver on September 8, 1953.

L 1861 - Owner: John C. Sigloh, et al. 2.54 acres for right of way. Amount of offer $1,270.00. Authorized by Commissioner McIver on September 8, 1953.

Goshen-Divide Section of the Pacific Highway

R 20525 - Owner: H. W. Rich, et al. 0.06 acre for right of way. Amount of offer $100.00. Authorized by Commissioner McIver on September 8, 1953.

Deception Creek-Oakridge Section of the Willamette Highway

R 20574 - Owner: Frank H. Kincaid, et ux. 0.50 acre for right of way. Amount of offer $1,000.00. Authorized by Commissioner McIver on September 8, 1953.

Rowena-The Dalles Section of the Columbia River Highway

R 19190 - Owner: Willard Anderson Post No. 2471, Veterans of Foreign Wars of the United States, et al. 0.10 acre for right of way. Amount of offer $1,250.00. Authorized by Commissioner McIver on September 8, 1953.

Hayesville Junction-Wilsonville Junction Section of the Portland-Salem Expressway

R 20358 - Owner: Oscar E. Ferguson, et al. 5.13 acres for right of way, and 7.79 acres for excess taking. Amount of offer 11,750.00. Authorized by Commissioner McIver on September 8, 1953.

R 20277 - Owner: Phillip E. Yergen, et ux. 9.52 acres for right of way. Amount of offer $5,950.00. Authorized by Commissioner McIver on September 8, 1953.

The Chief Counsel presented for the Commission's consideration report of property damage claims made against others by the State Highway Department. He pointed out briefly that as of August 31, 1953, 67 claims have been made against others in the year 1953 involving $14,110.64, thirty-eight of which have been collected totaling $7,258.25. Sixteen of those remaining are in negotiation for settlement involving $3,692.39. The remaining thirteen claims involving $3,160.00 are those in which repairs to the property damaged have not been completed as of August 31, 1953. The Commission accepted the report as presented. (For further details see the Chief Counsel's letter dated September 4, 1953, in the General Files.)

In this connection, the Chief Counsel inquired as to what policy he should follow hereafter in handling claims which are uncollectible because of financial reasons, unknown whereabouts, et cetera. He pointed out that some claims for various reasons are uncollectible, and he suggested that he be given authority to abandon collection efforts on such claims. The Commission approved the suggestion, but instructed the Chief Counsel to report such cases to the Commission for the record.

The Chief Counsel presented a report concerning a conference in the Attorney General's office regarding an offer made by Wayne E. Murphy that the State share with him any proceeds derived from a method of computing cubic yardage in cuts and fills by use of IBM cards and equipment, which method Mr. Murphy claims to have originated. The Chief Counsel recalled that this matter previously has been before the Commission and at that time Mr. Murphy wanted

the State to pay royalties which the Commission refused to do upon recommendation of the Chief Counsel and the Engineer. He further stated that legality of the matter as now presented again has been investigated and has been discussed with Mr. Robert Thornton, Attorney General, who agrees that the State has no legal obligation in the matter. He recommended that Mr. Murphy's request again be denied. The Commission accepted the recommendation.

The Chief Counsel recommended and the Commission approved an increase in salary for Mr. Owen McAdams from $375 per month to $400 per month and in increase for Mr. John McClean from $309 per month to $350 per month. The Chief Counsel stated that these increases have been approved by the Attorney General in advance of the establishment of a state-wide salary schedule for attorneys.

The Chief Counsel requested authority to start suit against Raymond Johnson, et ux, for specific performance of a real estate option. He explained that the option is dated November 17, 1952 and that the owners agreed to convey to the State 0.206 acre of land on the Jewell-Birkenfeld Section of the Nehalem Secondary Highway in Clatsop County, for the sum of $250, but numerous letters requesting the owners to execute and return a warranty deed have been ignored. The Commission approved the request.

Consideration was given to payment of damages to R. G. Philips due to the closure of Chatham Street on the Deady-Shady Section of the Pacific Highway in Roseburg. The Chief Counsel reported that the 1953 legislature established a procedure whereby injured parties can take action for damages resulting from closure and change of grade. An appraisal, he stated, had been taken to determine the amount of damage suffered by the property in depreciation by reason of the closure of Chatham Street, which appraisal showed the amount of damage at $3,575.00. Mr. Philips, he said, refused to accept such sum; however, he has agreed to accept the sum of $4,000. The Chief Counsel recommended payment of such amount. The Commission accepted the recommendation provided that a complete release be obtained from all persons having an interest in the Philips' property releasing claims for all damages resulting from the closure or change of grade of Chatham Street.

The Commission considered a request from Frank and Maude Wink for vacation of a portion of Kelsay Way lying to the west of the Chenoweth-The Dalles Section of the Columbia River Highway. The Chief Counsel stated that he could see no objection to the vacation from a legal standpoint. The Engineer likewise offered no objection as the proposed vacation does not effect highway plans or property in any way and is solely for the benefit of persons owning property abutting thereon. The Commission approved the request. (On the following day the consent of vacation form was signed.)

Consideration was also given to the granting of a "Waiver and Relinquishment of Rights of Way and Easement" form covering a waiver of certain rights appurtenant to property owned by the State in Eugene to use a spur track so that a cloud on the Anna MacDonald property may be cleared. The Chief Counsel reported that the MacDonald property is being placed on the market for sale and that the realtors are attempting to get waivers from all property owners in whom the right to use

this spur track exists. As there would be no damage or expense to the State, he recommended that the waiver be approved. The Commission accepted the recommendation. (The waiver form was signed the following day.)

The claim of John J. Kennedy in the amount of $27.60 for damages to his car was considered by the Commission. The Chief Counsel reported that Mr. Kennedy's car had sustained damage to the grill due to being struck by a shovel full of rock while passing through maintenance operations near M. P. 153.00 on the Pacific Highway on December 31, 1952. The original bill had been submitted in the amount of $62.53, but since that time Mr. Kennedy has agreed to accept $27.60. He recommended approval of such settlement. The Commission approved the payment with the understanding that Mr. Kennedy will provide a complete release in writing.

The Chief Counsel presented for consideration a form of resolution providing for reduced speed limits to protect highways when under construction or repair and when weakened or impaired because of other reasons. He recalled that a resolution had previously been adopted by the Commission relating to reduced load limits upon highways, but this earlier resolution did not make reference to reduced speeds. He recommended that the resolution be adopted. The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was also given to a proposed resolution authorizing operation of oversize and overweight combinations of vehicles upon Group I and Group II and Limited Group I highways without a permit, pursuant to legislation adopted at the 1953 session of the legislature. Action was deferred in this matter pending a report from the Engineer.

A report submitted by the Engineer concerning the operation of traffic signals on Sandy Boulevard (US 30) in Portland was considered by the Commission. The Engineer recalled that the Commission had requested that a study be made regarding placing the signal at Northeast 112th Avenue on a semi-actuated basis. A careful study of this matter, he stated, discloses that if the traffic signal at 112th Avenue were changed to a traffic-actuated one, it would result in loss of control of traffic moving westward on Sandy Boulevard. The traffic signal on N. E. 112th Avenue is necessary to control traffic before it reaches the central portion of Parkrose. He recommended that the traffic signals on Sandy Boulevard be interconnected with a single wire for supervisory control of the system and that this system be extended westward to a connection with the State-City system on Sandy Boulevard, at an estimated cost of $1,500. The Commission approved the recommendation.

The Commission gave consideration to the Engineer's report concerning proposed participation by the State of Oregon in the AASHO Test Road Project in Illinois. The Engineer advised that the total estimated cost of the project is about $8,000,000 of which the states are being asked to put up $3,000,000. Oregon's share of this total based on the ratio of Federal Aid ap-

portionments, and after allowing credit for $38,000 contributed by the State for the WASHO tests in Idaho, would leave a net estimated amount of $16,000. These amounts, he stated, are only approximate, but it would appear that Oregon would not be required to put up more than $30,000. It was his opinion that this test would bring valuable information as it would test the difference between Portland cement pavement and asphaltic pavement and would furnish data for an economic study to determine optimum weights that can be carried on the highways of the nation. He recommended approval of a contribution not to exceed $30,000 for this purpose. The Commission accepted the recommendation on the condition that Oregon's contribution shall be limited to a maximum of $30,000.

The Engineer reported on a request from people of Condon for improvement of a park in Condon and installation of storm sewers. The Engineer recalled that the Commission inspected this project during its July trip in eastern Oregon, and at that time had told the people of Condon that the park could not be recognized as a state park and that the Commission could not justify an expenditure of state funds within the park. Sugsequent investigation was made concerning the widening of the pavement and installation of curbs and drainage along the park frontage, and it was determined that such work will cost about $8,600. The installation of a storm sewer on Main Street, he estimated will cost $6,100. He recommended that both projects be performed provided the city will pay half of the estimated cost of the storm sewer, or $3,050.00. The Commission approved the recommendation and authorized the Engineer to perform the work during the season of 1954 if the city will contribute 50 percent of the storm sewer installation.

Improvement of the Netarts Secondary Highway near its crossing of the Tillamook River was given consideration by the Commission. The Engineer recalled that at the previous Commission meeting, Tillamook County Judge Effenberger had requested that some action be taken at this location to counteract flooding of the highway due to a break in the sand spit at Bay Ocean. This matter, the Engineer stated, has been investigated, and it has been ascertained that the water at high tide is now deeper than before the break occurred in the sand spit and that a section of highway now becomes inundated at times to a depth of about 18 inches. He recommeded approval of an expenditure of $4,000 to raise the grade of such highway section sufficiently to bring it above the high water level, the work to be performed as a Minor Betterment Project in 1954. The Commission approved the recommendation.

A request from the City of Baker for widening Broadway and 10th streets in that city to accommodate four traffic lanes was considered by the Commission. The Engineer estimated that it will cost approximately $142,000 to perform such widening work, and he advised that the city has indicated that it might cooperate in the project. He pointed out that there are no funds available at this time to finance the work, and he asked the Commission for authority to confer with City of Baker officials as to how much the city will contribute towards the project when it is possible to undertake it. The Commission granted the authority as requested, but cautioned the Engineer to make no commitment whatsoever with respect to construction.

The Engineer presented a report concerning an extension of the Helix-Havana Secondary Highway southerly to a connection with the Oregon-Washington Highway east of Pendleton as has been requested by a group of Umatilla County

citizens. He estimated that it would cost $76,500 for a medium type oil surface using a grade crossing of the railroad and that the cost to construct the highway with an overcrossing of the railroad and Wild Horse Creek would be about $194,500. As there are many existing secondary highways now on the state system which are in need of improvement which improvement would reduce the State's maintenance cost, he questioned the advisability of adding this road to the system and constructing it now. He recommended denial of the request. The Commission deferred action on the matter for future consideration and instructed the Secretary to include it in the list of unfinished business.

The Commission gave consideration to an addition to the Federal Aid System consisting of that section of the Territorial Secondary Highway between Hadleyville and Anlauf. The Engineer advised that presently only the northern portion of the Territorial Secondary Highway is on the Federal Aid System and that in order to use Federal Aid funds to finance proposed improvements between Gillespie Corners and Lorane and additional improvements, the entire highway should be placed on the system, and he so recommended. The Commission approved the addition of 21.54 miles to this Federal highway, being the section from Hadleyville to a connection with the old Pacific Highway at Anlauf.

A report from the Engineer on widening of the Coos River Secondary Highway between Catching Slough Bridge and the new bridge over Coos River was given consideration by the Commission. The Engineer reported that investigation had been made to determine the cost of such improvement, and it has been determined that to improve the 1.19-mile section will cost approximately $135,000, using asphaltic concrete pavement $3\frac{1}{2}$ inches thick and 20 feet wide with 4-foot shoulders. The Commission accepted the Engineer's report and instructed him to bring the project to the Commission's attention when there are additional secondary funds available for expenditure in Coos County.

The Engineer reported that a field investigation conducted by the Division Engineer at La Grande discloses that a section of the Little Sheep Creek Secondary Highway is being damaged by reason of excessive speeds of motor vehicles. In order to prevent further damage, he said, signs have been erected restricting the speed of all vehicles on this highway to 25 miles per hour between M.P. 0.00 and M.P. 5.07. The Commission approved the Engineer's action in this matter and thereupon adopted the attached resolution relative thereto, marked EXHIBIT "L", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission approved a report from the Engineer advising that conditions governing awards of the following State Highway contracts for which bids were received on August 6 and 7, 1953 have been satisfied and that contract and bond forms have been sent to the respective contractors for execution pursuant to the Commission's instructions:

1. Reedy Creek-Beamer Creek Section of Yachats River County Road in Lincoln County. Bids received August 7, 1953. Conditions of award satisfied August 14, 1953. Glen Ousley, Eugene, contractor.

2. Juniper Canyon Section of Juniper Canyon County Road in Umatilla County. Bids received August 7, 1953. Conditions of award satisfied August 14, 1953. Rogers Construction Company, contractor.

3. Little Deschutes River Bridge on Burgess Road in Deschutes County. Bids received August 6, 1953. Conditions of award satisfied August 20, 1953. C. E. Blakley, contractor.

A request from the City Council of Coos Bay for widening Central Avenue between Eighth Street and Fourteenth Street was considered by the Commission. The Engineer reported that to widen this section to a 40-foot width, including curbs, manholes, and sewer connections, would cost approximately $43,500. He further advised that traffic on this street which is the route of the Empire-Coos Bay Secondary Highway is increasing rapidly, and that it will be necessary to widen the street in the not distant future. As no funds are available for the improvement at this time, he suggested that the project be considered when the next highway program is formulated. The suggestion was accepted by the Commission.

The Commission considered and upon recommendation of the Engineer approved entering into an agreement with Multnomah County Drainage District No. 1 whereby the State pays to the District the cost of pumping drainage from State Highway property on the Fairview-Sundial Section of the Banfield Expressway. The Engineer stated that the agreement is to cover pumping from 8-1/3 acres at a total estimated cost of $12.58 per year.

Consideration was given by the Commission to a request from residents of Applegate Valley and Williams Valley, Jackson and Josephine Counties, for improvements to the Williams Secondary Highway between Provolt and the III Bar Ranch. The Engineer estimated that it would cost approximately $240,000 to modernize this 4.17-mile section. The existing road, he stated, is oiled to a width of eighteen feet and is in good shape. As there are no funds available for the improvement, he recommended that the request be denied. The Commission adopted the recommendation.

The Engineer requested authority to install six traffic signals on North Lombard Street in Portland, route of US 30 by-pass to St. Johns Bridge. He explained that signals are needed at the following intersections: Oswego Street, Buchanan Street, Ida Street, Wall Street, Woolsey Street, and Wabach Street. He pointed out that although the Lombard Street by-pass is not on the State Highway System, it is a route over which highway traffic is routed and is one of the streets covered in the 1944 agreement with the City of Portland providing for maintenance, including installation of signals, and for cooperative administration of the state highway routes. He recommended that the six signals be installed at an estimated cost of $16,000, the expense to be shared equally by the State and the City with the City to furnish electrical energy and to maintain the signals after installation. To finance the installation cost, he recommended the transfer of $8,000 from the signal project heretofore authorized for the City of Lebanon inasmuch as the signals in Lebanon are not yet warranted. The Commission accepted the recommendations and so ordered.

In accordance with instructions issued by the Commission at a previous meeting, the Engineer presented to the Commission a revised edition of the long-range program of bond projects, federal-aid projects and state projects on primary highways, commonly known as the 5-year highway construction plan, which the Commission has had under informal consideration for many months and which in part has been adopted and put under contract. The Engineer explained that this program, dated September 24, 1953, is the same as the program previously placed in the hands of the Commissioners under date of June 25, 1953, except for revisions as follows:

1. $600,000 of 1954-55 Bond Funds transferred from Sherman Jct.-Willowdale Section of US 97 to Banfield Expressway Section of US 30.

2. $600,000 of 1957-58 State Funds allotted to Sherman Jct.-Willowdale Section to offset above indicated transfer of bond funds away from that section.

3. $2,400,000 of 1957-58 State Funds allotted to Olds Ferry-Ontario Section of US 30.

4. $400,000 of 1954-55 Bond Funds transferred from Gold Beach-Pistol River Section of US 101 to Rocky Point-Brush Creek Section of US 101.

5. $400,000 of 1957-58 State Funds allotted to Gold Beach-Pistol River Section to offset above indicated transfer of bond funds away from that section.

These revisions, he said, increase the total of the program from $124,109,000 to $128,109,000, the increase of $4,000,000 being wholly an increase in State Funds required.

After consideration, the Commission, by unanimous action, adopted the program set forth in full hereinafter as an official long-range program to be used by the Commission as a guide in the orderly and equitable distribution of the improvements to be made on the primary highway system during the coming few years as funds for such improvements become available:

FIVE-YEAR PROGRAM - BOND FUNDS AND FEDERAL AID

125,000	---	90,000	---	
$ 7,663,000	$ 7,200,000	$ 7,306,000	$14,535,000	$ 9,360,000

In the discussion which attended the action, it was made clear that this program is recognized as not binding on any future Commission. The purpose is to make official record of the Commission's over-all plan for the coordination of federal-aid and state construction expenditures with the State's $72,000,000 bond expenditure to effect a more adequate and more equitable satisfaction of the existing immediate needs of the State's highways than is possible with the bond funds alone. Hope and expection were expressed, however, that future Commissions will take cognizance of the program, will understand that the present Commission was obliged to plan some years ahead in order to attain the scope necessary to satisfy the very minimum of immediate needs, will recognize that completion of the program in its entirety is essential to the success and equity of the plan, and in view of these considerations will carry the program through to completion as planned.

September 24, 1953

The Commission confirmed telephonic authority given the Engineer to install pressure-sensitive detectors at three signal locations on the Pacific Highway East between Oregon City and Milwaukie. The Engineer explained that there had been many complaints of unnecessary stoppage of traffic on the main highway caused by vehicles turning off the highway and in other instances by vehicles not entering upon the main highway. He also said that installation of the detectors, which he estimated would cost $1,500, will eliminate the present defects.

The Commission gave consideration to a request submitted by the City of Mt. Angel for improvement of the Hillsboro-Silverton Secondary Highway south from Mt. Angel to Silverton. The Engineer estimated the cost to modernize this highway section to secondary highway standards at approximately $240,000. The present road, he stated, has an oiled surface and is in good condition, and he pointed out that there are many important secondary highways bearing a larger volume of traffic which would warrant improvement over the section requested. He recommended that this improvement be deferred until projects with a higher priority rating are taken care of. The Commission deferred action on this matter pending the appearance of a delegation on the following day. (The delegation was informed by the Commission that their request would be considered, but no promise could be made as to when the work would be performed. See ahead for additional entry.)

The Commission discussed and upon recommendation of the Engineer approved entering into an agreement with the Pacific Power and Light Company covering installation of a luminaire unit at the east end of the bridge over Hood River on the Columbia River Highway. The Engineer advised that this unit will be furnished and installed at the expense of the Pacific Power and Light Company and that the State's obligation would simply be payment of $3 per month for electrical energy to operate the light. He recommended approval of the installation on such basis because the highway approaching the bridge from the east is on a sharp curve, and it would be advantageous to have the end of the structure lighted.

A letter from the Mayor of Grass Valley requesting the State to oil or pave the area between the present roadway and the newly constructed curbs on The Dalles-California Highway in Grass Valley was given consideration by the Commission. The Engineer stated that the State has no obligation to perform such widening work, and because there are numerous similar requests from other towns, he could see no good reason to give priority to the work requested by Grass Valley. He recommended that the request be denied. The Commission approved the recommendation.

The Commission gave consideration to a request from the Klamath County Court for an exchange of highways in which the Court proposes that the County take over the Midland Secondary Highway as a county road and that the State take over the Keno-Worden County Road as a state secondary highway. The Engineer advised that the Keno-Worden Road is 7.67 miles in length and has a very light surfacing throughout. It was his thought that were it designated a state secondary highway, there would be an immediate demand to oil it which would cost about twice as much as it would cost to complete the oiling of the Midland Secondary Highway. He recommended that the request for the exchange be denied.

The Engineer pointed out that the county is anxious that the Midland Secondary Highway be oiled and has agreed that if the State will make the exchange of high-

ways, the County will immediately oil the 3.73-mile unoiled section which has a macadam surface at present. As there is uncertainty as to when secondary funds will become available for oiling this section, he recommended that the County be advised that the State cannot complete the oiling on the Midland Secondary Highway in the immediate future, but if the County will construct an adequate base and oil the unoiled portion, the State will continue to maintain the road as a state secondary highway. The Commission approved the recommendations.

The Engineer requested increases in project authorizations as follows:

1. Contract No. 3719, Lake of the Woods Junction-Wocus Marsh Section of the Klamath Lake Secondary Highway, Klamath County--$177,000.

2. Contract No. 3718 on the Hood River-Mosier Section of the Columbia River Highway in Hood River and Wasco Counties--$24,000.

3. Contract No. 3629 on the Catching Slough-Enegren Ferry Project on the Coos River Secondary Highway in Coos County--$17,000.

4. Contract No. 3946 on the Troutdale Section of the Crown Point Secondary Highway in Multnomah County--$944.

He stated that unforeseeable conditions in connection with subgrade, the necessity of using additional materials, and the performance of work not anticipated in the contracts had caused the overruns. The Commission granted the increases unanimously.

The Commission discussed a request submitted by the city of Medford for state participation in the cost to install a traffic signal at the intersection of Main Street and Fir Street in Medford, Main Street being the route of the Medford-Provolt Highway. The Engineer advised that the request has been carefully investigated and the findings reveal that the traffic volume warrants the signal. He recommended that a traffic signal be installed at a total estimated cost of $3,000, the cost to be shared equally by the city and state. The Commission approved the recommendation.

The Engineer requested authority to expend $2,500 to install culvert pipe in four irrigation ditches along the right of way of The Old Oregon Trail between La Grande and North Powder to facilitate passage of farm equipment across the ditches. He explained that farmers, in moving their equipment from one field to another, have been doing so by utilizing the shoulders on the highway, but, at four different locations where irrigation ditches are present, it is necessary for them to pull their equipment onto the paved surface with considerable resultant damage to the highway surfacing. Installation of the culvert pipe will allow them to pass over the ditches without getting on the highway surface. The Commission approved the request.

A letter was presented from County Judge Tom F. Skelton of the Lincoln

County Court requesting construction of a connecting road between Tom Jack County Road and the new highway near Beaver Creek on the Corvallis-Newport Highway east of Newport, in Lincoln County. The Engineer reported that investigation discloses that such a connection will cost about $3,000, including a stock pass for $1,500. The county, he stated, has agreed to pay $500 of this amount and to assume maintenance of the old road. He also said that the building of this connection will eliminate the expense of maintaining a bridge across Beaver Creek which will cost the county a great deal of money over a period of time. He recommended approval of the project on such basis. The Commission approved the recommendation and ordered the matter covered by appropriate written agreement with the county.

The matter of removing rock from an encroaching bluff about 9 miles east of The Dalles on the Columbia River Highway was discussed by the Commission. The Engineer reported that the impaired clearance at this location requires very careful driving of any truck with a height of 12' 6", which is the basic statute height covering all public highways. An investigation, he stated, has been made by the Division Engineer with Mr. Charles Parker, a contractor, and it is the opinion of Mr. Parker that the vertical clearance can be increased to 15' by careful drilling and shooting. The Engineer warned, however, that in removing the rock there is a hazard that great quantities of overhanging rock may fall upon the railroad track with resultant damage. He recommended that he be granted authority to negotiate with the railroad officials with the idea of moving the highway over on their right of way a short distance, and if such negotiations are not successful, that he be authorized to negotiate with Mr. Parker to perform the blasting work which he estimated would cost about $4,000. The Commission approved the recommendation.

The Engineer presented the matter of installing nine 7-pile dolphins across the mouth of "D" River in the city of Delake in Lincoln County, negotiations for which, he stated, were carried on with Mr. Donald B. McCormish, who represented local property owners in the city. He advised that as a result of the conference, an agreement was arranged wherein the city assumes the sole obligation to remove all sand or gravel deposited in "D" River within fifty feet of either side of the dolphins so as to keep the channel at its present depth, provided that the Commission will construct the dolphins at the mouth of the river. He estimated the cost of installing the dolphins at $7,500 and recommended approval of the expenditure. The Commission confirmed the project with the understanding that an acceptable agreement be signed by the parties involved.

The Commission discussed and ordered filed a letter from the Klamath County Court endorsing a road program as outlined by the Roads Committee of the Klamath County Chamber of Commerce. (See copy of program in General Files, dated May 7, 1953.)

Adoption of a Federal Aid urban highway system for the Ashland urban area was discussed by the Commission, The Engineer stated that it is planned to widen the underpass of the Southern Pacific Railway on the Pacific Highway at the northern entrance to Ashland in 1954 and that to permit programming of this project by the Bureau of Public Roads, it is necessary that a Federal Aid urban highway system for the City of Ashland be approved by the Highway Commission. He presented a map showing the proposed system and recommended its adoption. The Commission ac-

cepted the recommendation and authorized the Engineer to submit the proposal to the Bureau of Public Roads for final action.

The Commission discussed a request from the City of Sheridan for installation of traffic signals at the intersection of Bridge and Main Streets in Sheridan. The Engineer stated that this matter has been carefully investigated, and it has been found that the volume of traffic at this point does not warrant the installation of signals. He therefore recommended that the request be denied. The Commission adopted the recommendation.

Attention was given by the Commission to a request from the City of Medford for state cooperation in conducting traffic studies in Medford with the view of establishing an arterial street system integrated with the state highway system. The Engineer stated that this can be accomplished by means of a detailed traffic study which he estimated would cost about $5,000. He recommended that such a study be conducted, the matter to be covered by an appropriate written agreement with the city. The Commission approved the recommendation.

Consideration was given by the Commission to a request from the City of Springfield for filling in of side ditches, construction of curbs, and full street-width pavement along Main Street, route of the McKenzie Highway, between 10th Street and 19th Street in Springfield. The Engineer estimated the cost of such project at $106,000 of which amount, he said, the city has offered to pay $5,600. It was his thought that when Main Street which now carries two-way traffic is limited to westbound traffic only upon completion of the South "A" Street route, there will be far less hazard than now exists. In view thereof, and for the further reason that there are no funds available for expenditure in Springfield, he recommended that the request be denied. The Commission approved the recommendation.

The Commission gave its attention to a request from State Representative Robert Root, Jackson County, for a reconnaissance and economic study of the Little Butte Creek-Lake of the Woods route in Jackson and Klamath Counties, as a possible addition to the state highway system. The Engineer stated that such survey will cost about $4,000. The Commission authorized him to proceed with it as soon as men can be spared for the purpose.

The Engineer brought up for discussion a proposed change in the five-year construction program involving plans for reconstruction of the Pacific Highway West as it pertains to the town of Monroe, Benton County. The Engineer stated that in the existing program $375,000 has been allocated to the Monroe Line change, $150,000 of which represents Federal Aid Funds. He pointed out that it was originally planned to by-pass the town of Monroe, which plan required construction of a new bridge and approximately three miles of new highway, but subsequent study indicates that by-passing of Monroe is not justified as it is the only town between Harrisburg and Corvallis and is an important junction with the Territorial Secondary Highway; moreover, if the highway through Monroe is retained, then it will be possible to abandon the existing bridge over the Long Tom River in Monroe which is narrow and costly to maintain, however, this will necessitate construction of a new bridge immediately down stream

from the existing one with 1,000 feet of new highway. A bridge in such location, he added, will serve the Territorial Highway as well as the Pacific Highway West, and the cost to construct it is estimated at about $150,000, which could be financed with Federal Aid Funds. He recommended that the revised plan be approved. He also recommended that the remainder of the $375,000, being $225,000 of bond funds, be held in reserve as there have been persistant demands for improvement of the Pacific Highway West between Rickreall and Amity Junction. The Commission accepted both recommendations.

Consideration was given by the Commission to a request from Ada County Fish and Game League of Boise, Idaho, for development of the Cherry Creek Road leading to the Owyhee Reservoir in Malheur County. The Engineer recommended that the request be denied. The Commission approved the recommendation.

A request from the Marion County Court that the State assume the cost of maintaining the 12th Street connection between the Salem city limits and US 99E until the Salem By-pass is opened for travel. was discussed. The Engineer recalled that the County Court previously requested the State to take over the 12th Street road as a state highway which the Commission refused to do, so the Court now requests only that the State simply pay for the surface maintenance during the period referred to. He recommended approval of the present request. The Commission approved the recommendation and ordered the matter covered by appropriate agreement with the County.

Consideration was given by the Commission to a request from Nestucca Chapter Izaak Walton League, that the Commission remedy a condition in the flow line of a culvert carrying the water of Saling Creek under the Oregon Coast Highway at M. P. 93.81 between Beaver and Hebo. The Engineer reported that in 1924, the State extended the culvert and constructed a concrete floor which spread the water out into a thin sheet without sufficient depth to allow passage of fish. He recommended that the situation be remedied by such means as are necessary to permit the passage of fish. He estimated the cost at $450. The Commission approved the expenditure.

The Engineer reported that location surveys have been completed on the following sections of highways:

1. Vale-Cairo Junction Section of the Central Oregon Highway in Malheur County.

2. Airport Road Junction-Stout Creek Section of the North Santiam Highway in Marion County.

3. Monroe Section of Pacific Highway West in Benton County.

He stated that the changes proposed have been carefully studied and offer the most feasible routes consistent with cost and benefit to the traveling public, and he recommended that they be adopted as future routes for these highways. The Commission approved the recommendation unanimously by adopting the attached resolution relative thereto marked EXHIBIT "K", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that the Glens Falls Indemnity Company, Surety on the bond furnished by Spada Brothers who defaulted on State Highway Contract No. 3439, has now made payment to the State in the sum of $18,480.90 to settle the account and has requested a release of their obligation in the matter. He explained that under the terms of the re-executed contract, the surety company agreed to reimburse the State for all extra costs incurred, which amounted to $18,480.90. He recommended approval of the request. The Commission approved the recommendation. (The release form was signed by the Commission on the following day.)

The Commission gave consideration to a request submitted by the City of Roseburg and Douglas County for an integrated traffic survey of Roseburg and its environs. It was explained by the Engineer that such a survey is estimated to cost $4,800 and that the City of Roseburg and Douglas County have each indicated their willingness to pay one-third of the cost, which would result in a cost of $1,600 each to the State, County, and the City. He recommended that the Commission authorize this survey and that an agreement covering the matter be prepared. The recommendation was accepted by the Commission.

Consideration was also given to a request from the City Manager of Oregon City for installation of a traffic signal at the intersection of Washington and 15th Streets in Oregon City, Washington Street being the route of the Cascade Secondary Highway. This matter, the Engineer reported, has been investigated several times and the latest investigation still indicates that a signal is not justified at this time. He therefore recommended that the request be denied. The Commission adopted the recommendation.

A telephone conversation with Mayor P. O. Landry of Klamath Falls concerning completion of the survey for the west side by-pass route of The Dalles-California Highway in Klamath Falls and the purchase of right of way was brought up by the Engineer. The Engineer pointed out that in August, 1948, the Commission approved completion of the survey and preparation or right of way descriptions for acquisition of right of way but later instructions were issued to hold up further activities. The project has been in more or less of an inactive status during the past three years. As the matter has been again brought to attention, he recommended that the location survey be completed; that the necessary right of way descriptions be prepared and critical portions of the right of way be purchased as soon as possible. The Commission approved the recommendation.

The Engineer requested authority to conduct surveys as follows:

1. Pilot Rock-Pendleton Section of the Pendleton-John Day Highway (14 miles), estimated cost--$28,000

2. Minam-Wallowa Section of the Wallowa Lake Highway (14 miles), estimated cost--$35,000

3. Trail-Cascade Gorge Section of the Crater Lake Highway (16 miles), estimated cost--$40,000

4. Weston-Weston Mountain Section of the Weston-Elgin Highway (7.3 miles), estimated cost $11,000

The Engineer stated that a major portion of the surveys now under way are near completion and as the surveys requested will be needed in the not too distant future, the work could be performed as personnel becomes available. The Commission approved the request.

Authority was requested by the Engineer to prepare right of way descriptions and to purchase additional right of way needed for improvement of the Rice Hill-Turkey Hill Section of the Pacific Highway in Douglas County. He pointed out that the current five-year construction program contemplates reconstruction of the Pacific Highway between Eugene and Canyonville with total control of access except on the Rice Hill Section. This section, he said, was built several years before the Commission had access control authority so there is no control of access whatever. It was his thought that this five-mile gap should be access controlled, and he recommended purchase of the access rights along with acquisition of land necessary to provide, later on, a four-lane highway facility. He estimated the cost of the additional right of way at $200,000, and he recommended that it be acquired as soon as possible. The Commission approved the recommendation and so ordered.

In the discussion of this matter, Commissioner Reynolds pointed out that there is a section of highway on the Old Oregon Trail between Boardman and Pendleton which should also be investigated as to the feasibility of acquiring access control. The Engineer was instructed to investigate the matter and report the cost and feasibility to acquire access rights so this section of highway can be made an expressway with full access control.

A request from the City of Portland for a complete traffic survey of the city to determine the need of a system of expressways was discussed by the Commission. The Engineer stated that the survey would be of considerable value particularly to the city and the State Highway Department in indicating a comprehensive expressway program and to determine the cost thereof. He estimated the cost of the survey at $60,000 and suggested that the costs be born $30,000 by the state, $20,000 by the city, and $10,000 by the county. Chairman Chandler pointed out that the expenditure would be hard to justify because the possibilities of performing additional construction on new highways in Portland in the near future are remote. The Commission denied the request.

The Commission considered a request from Mayor Paul O. Landry, Klamath Falls, that the state furnish engineering work in connection with a proposed truck route that is to be constructed by the city. The Engineer stated that the city project is estimated to cost $195,000, and the engineering most likely will cost about $16,000. The Commission decided unanimously against participating in this project, either for construction or engineering, and ordered that the Mayor of Klamath Falls be so informed.

The Engineer reported receipt of numerous requests for installation of a school crossing sign with "wait-walk" signals on the Sunset Highway at Sylvan, as protection to school children attending Sylvan School. He estimated the cost to con-

struct a school crossing path with appropriate signals at $500, and he recommended approval of the expenditure, the work to be done by state forces. The Commission approved the recommendation.

The Engineer reported that eight counties in the state have improved their Federal Aid secondary county roads to the extent that additional mileage of such roads is necessary to permit the expenditure of Federal Aid secondary allocations within those counties. These counties, he stated, have made excellent progress on the existing secondary highways. He presented maps showing proposed extensions and recommended that they be approved. The Commission accepted the recommendation for the following additions to the Federal Aid secondary county road system and authorized the Engineer to submit the necessary data to the Bureau of Public Roads for its approval:

1. Gilliam and Morrow Counties. FAS 573. 16.9 miles long, known as the Base Line Road. Extends from the John Day Highway easterly to the Heppner Highway at McNab.

2. Columbia County. FAS 574. 4 miles long. Extends from the Columbia River Highway at Warren to a highly developed industrial area south of and adjacent to St. Helens.

3. Linn County. FAS 575. 5.8 miles long, known as the Hardscrabble Road. Extends from the Jefferson State Highway southerly to the Santiam Highway.

FAS 576. 10.1 miles long. Extends from the Pacific Highway East in Albany easterly to the Santiam Highway north of Lebanon.

4. Benton County. FAS 577. 3 miles long. Consists of a loop extending northerly and westerly from the Pacific Highway West at Lewisburg.

5. Deschutes County. FAS 579. 10.5 miles long and known as the Tumalo Falls County Road. Extends from the Century Drive State Highway in Bend westerly to the vicinity of Tumalo Lake.

6. Hood River County. FAS 580. 2.8 miles long. Extends from the Mt. Hood Highway at Dougherty Corners westerly and southerly to the Hood River State Highway near Parkdale.

7. Tillamook County. Extension to FAS 615. 5.8 miles long. Extends from Barnsdale northerly to a junction with the Necanicum Highway at Mohler.

Extension to FAS 616. 4.5 miles long. Extends from Oceanside northerly through the Cape Meares Park to a county road junction near Bayocean.

(For further details see the Engineer's letter of August 24, 1953 with maps, in the General Files.)

The Engineer presented a supplemental construction program for 1954 and 1955 county FAS funds totaling $1,020,000, representing the estimated cost of projects that have been requested by the several counties. He asked the Commission to approve the program as presented so the making of necessary surveys and pre-

paration of plans for contract letting can proceed. He pointed out that with approval of this program totaling $1,020,000, there will remain a balance of $909,000 for future programming. As a result of discussion the commission unanimously approved the following projects for the program under consideration:

PROPOSED SUPPLEMENTAL 1954 & 1955 COUNTY FAS PROGRAM

County	FAS Hwy. No.	Section and Description	Programmed Amount
Benton	577	Armstrong Lane and Dickinson Road Section, 2.3 miles. Grade and surface	$ 60,000
Clackamas	129	Clackamas Junction-Damascus, 4 miles. Grade and pave	$ 158,000
Columbia	574	McNulty Creek Section, 0.5 miles. Grade surface, oil, and culvert	$ 25,000
	574	Columbia River Highway-St. Helens Section, 1.1 miles. Widen and pave.	26,000
	609	North Fork of Scappoose River bridge.	25,000
		Subtotal, Columbia County	$ 76,000
Deschutes	579	Bend-Tumalo Lake Section, 10.5 miles. Oil mat	$ 53,000
Gilliam	441	Lost Valley Canyon Section, 3.5 miles. Oil mat.	$ 10,000
	573	Ridge Road-Morrow County Line, 6 miles. Oil mat.	25,000
		Subtotal, Gilliam County	$ 35,000
Harney	458	Drewsey-Van, West Unit, 7 miles. Grade and surface.	$ 77,000
Hood River	580	Beales Corner-Dougherty Corner, 1.1 miles. Bridge, grade, surface, and oil.	$ 42,000
Jackson	273	Bear Creek bridge.	$ 55,000
	559	Applegate River bridge.	50,000
		Subtotal, Jackson County	$ 105,000
Linn	575	Jefferson Junction-Knox Butte, 3 miles. Surface and oil.	$ 30,000
	576	Albany Junction-Lebanon Junction, 8 miles. Surface and oil.	82,000
		Subtotal, Linn County	$ 112,000

PROPOSED SUPPLEMENTAL 1954 & 1955 COUNTY FAS PROGRAM (cont.)

County	FAS Hwy. No.	Section and Description	Programmed Amount
Malheur	572	Hy-Line Road Section, 7.3 miles. Grade, surface, and oil.	$ 155,000
Polk	560	Burns Corner-Lewisville, 3.18 miles. Grade, surface, and oil.	$ 66,000
Yamhill	111	Baker Creek and Panther Creek Sections. Two bridges and road approaches.	$ 81,000
TOTAL			$1,020,000

The Engineer reported that the following cities and towns have fulfilled legal requirements for expenditure of State Tax Street Funds that have accrued to them during the second half of 1951:

Mosier	$ 651.25
Richland	561.86
Weston	1,734.10

The City of Weston has fulfilled the legal requirements for expenditure of State Tax Street Funds for both the first half and the second half of 1952 in the amounts of $2,131.63 and $1,837.87, respectively.

The following cities and towns have fulfilled the legal requirements for expenditure of State Tax Street Funds for the first six-month period of 1953:

Amity	$2,227.90
Cave Junction	938.24
Dayton	2,383.72
Detroit	908.40
Dundee	1,021.12
Harrisburg	2,857.81
Hines	3,043.47
Lostine	590.13
Oakland	2,748.40
Richland	729.37
Stanfield	2,801.45
St. Paul	749.26
Talent	2,450.02
Tualatin	822.20
Weston	2,251.10

The following cities and towns have fulfilled the legal requirements for expenditure of State Tax Street Funds for the second six-month period of 1953:

Aurora	$ 698.89
Bay City	2,197.76
Canyonville	2,486.55
Creswell	1,911.85
DeLake	1,859.86
Hines	2,651.17
Long Creek	831.74
Lostine	514.06
Nehalem	779.76
Troutdale	1,484.42
Waterloo	519.84
Yamhill	1,556.62
Yoncalla	1,807.88

The Engineer advised that the plans for the improvements proposed to be financed with the funds under discussion have been examined and found satisfactory. He recommended approval of the plans by the Commission. The Commission accepted the recommendation by adoption of the attached resolutions relative thereto marked EXHIBITS "D-1" through "D-5", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The following persons, members of the Travel Advisory Committee, appeared before the Commission concerning the Travel Information Budget for the year 1954: Wm. M. Tugman, Chairman, Eugene; Don Sterling, Sr., Portland; Arthur Waud, Tillamook; Herb Grey, Medford; Fred Kiddle, Island City; Ralph Cronise, Albany; and Frank Jenkins, Klamath Falls. Also present were Arlen Cole of the Cole and Webber Advertising Agency, Portland; and Carl Jordan, Director of Travel Information Department, Salem.

Mr. Tugman explained briefly that the Committee had given much thought and care to the assembling of the new budget, particularly in regard to the allocation of funds for the various medians of advertising. The recommended budget, he stated, is in an amount of $275,000.00, the same as for 1953. He pointed out a suggested change in the contract date with the Advertising Agency from February 1 to January 30 to a calendar date extending from July 1 to June 30. He also pointed out that the Committee had set up a special subcommittee to examine all advertising contracts. Chairman Chandler thanked the Committee for service rendered and stated that the Commission will review the budget and discuss it at the next Commission meeting.

The Commission considered and by unanimous vote granted the following requests for extensions of time within which to complete state highway contracts, subject to penalties recommended by the Engineer:

1. Lindstrom Brothers, Inc., Contract No. 3715 for construction of the Fields Bridge over the Tualatin River in Clackamas County, requested an extension of time from July 31, 1953 through August 30, 1953 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

2. United Builders, Inc., Contract No. 3851 for construction of the 92d Avenue Overcrossing on the T. H. Banfield Expressway in Multnomah County, requested an extension of time from August 31, 1953 through June 1, 1954 to complete the work on this project. A recommendation was made by the Engineer that the extension of time be granted to April 1, 1954 without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

3. Gunderson Brothers Engineering Corporation, Contract No. 3669 for the furnishing of the structural steel for the Hood River Bridge in Hood River County, requested an extension of time from December 31, 1952 through July 6, 1953. The Engineer recommended, and a letter was presented from the Bureau of Public Roads concurring therein, that the extension of time be granted without penalty.

4. Valley Construction Company, Contract No. 3763 for construction of Haynes Slough Bridge on the Oregon Coast Highway in Coos County, requested an extension of time from July 31, 1953 through October 31, 1953 in which to complete this project. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

5. Steinmuller & Lee, Contract No. 3913 for construction of the Armitage State Park latrine in Lane County, requested an extension of time from July 31, 1953 to August 12, 1953 within which to complete the contract. The Engineer recommended that the extension of time as requested be granted without penalty.

6. W. G. Wright, Contract No. 3937 for grading and paving the Monroe Street Section in Sheridan in Yamhill County, requested he be granted an extension of time from August 15, 1953 to August 18, 1953 within which to complete this work. A recommendation was presented by the Engineer for the granting of the extension as requested without penalty.

7. E. H. Itschner Company, Contract No. 3848 for the Arlington-Service Creek Rock Production Project in Gilliam and Wheeler Counties, requested an extension of time from August 31, 1953 to November 30, 1953 within which to complete this job. The Commission approved the Engineer's recommendation that the extension of time as requested be granted without penalty.

8. Rogers Construction Company, Contract No. 3860 for rock production project on the Mt. Hood and Wapinitia Highways in Clackamas, Hood River and Wasco Counties, requested an extension of time from July 15, 1953 to September 1, 1953 within which to complete this contract. The Engineer gave as his recommendation that the extension of time as requested be granted without penalty.

9. Kenneth C. Dack, Contract No. 3760 for grading and oil mat sur-

facing on the Pocahontas-Baker Section of the Baker-Pine Creek-Wingville County Road in Baker County, requested an extension of time from June 30, 1953 to August 8, 1953 within which to finish this contract. The Engineer recommended the granting of the extension of time as requested without penalty. He presented a letter from the Bureau of Public Roads concurring therein.

10. F. O. Laws, Contract No. 3975 for construction of west approaches to Salem bridges in Polk County, requested an extension of time from July 31, 1953 to September 30, 1953 within which to finish this job. The granting of this extension of time as requested was recommended by the Engineer without penalty.

11. W. R. Grasle Company, Contract No. 3921 for installation of the Gresham Traffic Signals in Multnomah County, requested an extension of time from August 31, 1953 to October 1, 1953 within which to complete this contract. The Engineer recommended that the extension of time as requested be granted without penalty.

12. K. F. Jacobsen & Company, Inc. and J. M. Arenz, Contract No. 3582 for structures, grading, and paving on the Fairview-Sundial Section of the T. H. Banfield Expressway in Multnomah County, submitted a request for a second extension of time from July 1, 1953 to July 31, 1953 within which to finish this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

13. John R. Saxton, Contract No. 3794 for grading and oil mat surfacing on the Beaver Ammunition Storage Access Road, Columbia County, requested an extension of time from June 30, 1953 to August 19, 1953 within which to complete this job. The Engineer's recommendation was for the granting of the extension of time as requested without penalty. A letter from the Bureau of Public Roads was presented concurring therein.

14. Edwin C. Gerber, Contract No. 3725 for grading and oil mat surfacing on the Bakeoven Grade Section of the Shaniko Road in Wasco County, submitted a request for an extension of time from September 30, 1952 to June 30, 1953 within which to complete this contract. The Engineer recommended approval of the request without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

15. Durbin Brothers, Contract No. 3616 for grading and oil mat surfacing the Austin-Squaw Creek Unit and the Austin Spur Unit of the John Day Highway in Grant County, requested an extension of time from September 15, 1952 to July 8, 1953 within which to finish this work. The Engineer recommended the granting of the extension of time as requested without penalty. A letter from the Bureau of Public Roads was submitted concurring therein.

16. Western Golf Course Supply Company, Contract No. 3828 for installation of an irrigation system and lawn seeding on the Tillamook Street-Steel Bridge Unit, Harbor Drive Section of the Pacific Highway West in Multnomah County,

submitted a request for a second extension of time from July 15, 1953 to August 2, 1953 within which to finish the contract. The Engineer gave as his recommendation that the extension of time as requested should be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

17. Roy L. Houck & Son, Contract No. 3424 for grading and paving the Canyonville Section of the Pacific Highway in Douglas County, requested an extension of time from October 31, 1951 to March 31, 1953 within which to complete this job. The Engineer recommended that the extensions of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

18. Bechtel Brothers, Contract No. 3488 for construction of Flora Maintenance Building on the Enterprise-Lewiston Highway in Wallowa County, requested an additional extension of time from November 15, 1952 to August 15, 1953 within which to finish this work. The Engineer recommended the granting of this time extension as requested without penalty.

19. Bechtel Brothers, Contract No. 3529 for construction of the Flora Maintenance Employees House on the Enterprise-Lewiston Highway in Wallowa County requested an additional extension of time from November 15, 1952 to August 15, 1953 within which to complete this contract. The Engineer recommended that the extension of time as requested be granted without penalty.

20. Bechtel Brothers, Contract No. 3702 for construction of the Emigrant Springs Park Camping Area in Umatilla County, submitted a request for a second extension of time from November 15, 1952 to August 15, 1953 within which to finish this job. The Engineer recommended the contractor's request be granted without penalty.

21. E. C. Hall Company, Contract No. 3745 for grading and paving the Tigard-Tualatin River Section of the Pacific Highway West in Washington County, requested an extension of time from August 31, 1953 to September 30, 1953 within which to complete this project. The Engineer recommended the granting of this extension of time as requested without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

22. Warren Northwest, Inc., Contract No. 3938 for paving "G" Street in Philomath in Benton County, requested an extension of time from September 15, 1953 to October 15, 1953 within which to complete this work. In accordance with the Engineer's recommendation, the Commission approved granting of the time extension as requested, without penalty.

23. Warren Northwest, Inc., Contract No. 3929 for grading and paving 82d Avenue-Halsey Street Connection, 92d Avenue-Fairview Section of the T. H. Banfield Expressway in Multnomah County, submitted a request for an extension of time from September 15, 1953 to October 15, 1953

within which to finish this project. The Engineer's recommendation was that this extension of time as requested should be granted without penalty. He presented a letter from the Bureau of Public Roads concurring therein.

24. Porter W. Yett, Contract No. 3952 for grading and paving the Sunset Highway-Multnomah County Line Section and McDaniel Road-Multnomah County Line Section of the Barnes and Cornell County Roads in Washington County, requested an extension of time from August 31, 1953 to October 15, 1953 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty, and he presented a letter from the Bureau of Public Roads concurring therein.

25. E. L. Gates & Co., Inc., Contract No. 3656 for grading and paving the Winchester Bay-Clear Lake Unit, Winchester Bay-Forest Boundary Section of the Oregon Coast Highway in Douglas County, submitted a request for an extension of time from August 31, 1953 to November 30, 1953 within which to complete this project. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

26. Acme Construction Company, Contract No. 3926 for construction of a bridge, grading and paving the Molalla Junction-Marquam Section of the Cascade Highway in Clackamas County, requested an extension of time from September 30, 1953 to November 30, 1953 within which to complete their project. The Engineer recommended the granting of this time extension as requested without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

27. Heavy Hauling Company, Contract No. 3607 for grading and paving the Bay City-Tillamook Section of the Oregon Coast Highway in Tillamook County, requested an extension of time from September 30, 1953 to October 30, 1953 within which to complete this job. The Engineer's recommendation was for the granting of this time extension as requested without penalty. The Bureau of Public Roads submitted a letter concurring therein.

28. C. R. O'Neil, Contract No. 3744 for grading and paving the Hauser-Coos Bay Section of the Oregon Coast Highway in Coos County, requested an extension of time from September 1, 1953 to July 31, 1954 within which to complete this contract. The Engineer gave as his recommendation that the extension of time as requested should be granted without penalty. He submitted a letter from the Bureau of Public Roads concurring therein.

29. M. L. O'Neil & Son, Contract No. 3982 for grading and surfacing the Apiary Section of the Rainier-Apiary County Road in Columbia County, requested an extension of time from September 30, 1953 to October 30, 1953 within which to complete this project. A letter from the Bureau of Public Roads was presented concurring in the Engineer's recommendation which was to the effect that the extension of time as requested should be granted without penalty.

30. Warren Northwest Inc., Contract 3778 for paving the west approaches to

Salem bridges in Polk County, submitted a request for an extension of time from August 31, 1953 to September 30, 1953 within which to complete this project. The Engineer recommended, and a letter from the Bureau of Public Roads was presented concurring therein, that the extension of time as requested be granted without penalty.

31. R. A. Heintz Construction Company, Contract No. 3648 for grading and structures on Boones Ferry Road, Willamette River Unit of the Barbur Boulevard-White School Section of the West Portland-Hubbard Highway in Washington and Clackamas Counties, requested an extension of time from August 31, 1953 to November 30. 1953 within which to finish this work. A recommendation was made by the Engineer that the extension of time as requested be granted without penalty. A letter from the Bureau of Public Roads was presented concurring therein.

32. Rogers Construction Company, Contract No. 3663 for grading and rock base on the Shogren-Rowena Creek Unit of the Mosier-The Dalles Section of the Columbia River Highway in Wasco County, requested a second extension of time from August 15, 1953 to October 15, 1953 within which to complete this contract. The Engineer's recommendation was that the extension of time as requested be granted without penalty. He submitted a letter from the Bureau of Public Roads concurring therein.

33. Roy L. Houck and Son. Contract No. 3680 for grading the Hayesville School-State Street Unit, Salem By-pass Section of the Pacific Highway East in Marion County, requested an extension of time from June 30, 1953 to September 30, 1953 within which to complete this project. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

34. T. W. Thomas, Contract No. 3792 for grading and paving the Medford-County Farm Section of the Pacific Highway in Jackson County, requested an extension of time from August 31, 1953 to October 30, 1953 within which to finish this job. The Engineer's recommendation and the Bureau of Public Roads' concurrence was that the extension of time as requested be granted without penalty.

35. N. A. Toole Construction Company, Contract No. 3936 for rock production on the Silver Lake-Valley Falls Section of the Fremont and Lakeview-Burns Highway in Lake County, requested an extension of time from September 15, 1953 to October 30, 1953 within which to complete this project. The Commission accepted the Engineer's recommendation that the extension of time as requested be granted without penalty.

36. Peter Kiewit Sons' Company, Contract No. 3719 for construction of a bridge, grading, and oil mat surfacing on the Lake of the Woods Junction-Wocus Marsh Section of the Klamath Lake Secondary Highway in Klamath County, requested an extension of time from September 30, 1953 to November 30, 1953 within which to complete this contract. The Engineer recommended that the extension of time as requested be granted without penalty.

A letter was presented from the Bureau of Public Roads concurring therein.

(For further details regarding the extensions of time listed above, see copies of the Engineer's written recommendations to the Commission on file in the respective contracts in the Secretary's Office.)

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above was based upon the recommendation of the State Highway Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

In discussing the extensions of time and their causes, the Engineer explained that heavy rains in the late spring and early summer had been responsible for a great many of them. Chairman Chandler pointed out that it appeared that some contractors are dilatory in their operations and are not pushing the work to completion as fast as they should. He mentioned specifically Keith Brothers' operations on Contract No. 3959 for placing the fill on the Oregon Coast Highway across China Flat. The Commission instructed the Engineer to see that this contract is expedited as much as possible.

The Engineer reported that Contract Nos. 3424, 3488, 3529, 3582, 3600, 3603, 3616, 3620, 3666, 3669, 3702, 3715, 3718, 3725, 3737, 3752, 3760, 3788, 3790, 3794, 3800, 3828, 3833, 3837, 3860, 3891, 3897, 3910, 3912, 3913, 3928, 3930, 3937, 3944, 3946, 3949, 3950, 3955, 3961, 3989, 3990, and 3991 for construction of state highway projects have been completed according to requirements of the contracts or modifications thereof and said projects are now ready for acceptance. After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed with the Engineer and the Chief Counsel the policy with respect to administration of the Special State Tax Street Funds amounting to $250,000 annually. The Engineer explained briefly the procedure followed in the past, and he presented for consideration a suggested revised policy, resolution, and agreement. Chairman Chandler expressed the thought that the original intent had been principally to help cities with population under 5,000 and to scrutinize the requests for aid carefully and help those cities which actually needed it the most. It was pointed out that if a policy is adopted requiring a contribution from a city to match to a certain extent state funds allocated to that city, it would work to the detriment of the poorer cities which cannot raise matching funds, and to the advantage of the wealthier towns. Action on this matter was deferred by the Commission for further study.

The Engineer submitted for the Commission's consideration requests for reduced speed zones on various highway sections all of which, he said, have been investigated by the Traffic Engineer with respect to the physical characteristics of the highway, sight-distance, roadside culture, traveling speeds, and other factors which

might have a bearing in determining whether or not a reduced speed zone is warranted. He presented a list of the requests with his recommendations as follows:

1. He recommended that speed zones adopted June 27, 1946 and January 23, 1951 on the Oregon Coast Highway through Cannon Beach be rescinded in their entirety and that the frontage road portion which consists of the old highway be placed under a reduced speed zone of 20 miles per hour from the north connection with the newly constructed highway to 100 feet south of Adams Street (1.09 miles) and 35 miles per hour from a point 100 feet south of Adams to the south connection with the new highway, (2.43 miles). (See Exhibit "H-1")

2. He recommended that a 50-mile-per-hour speed zone be established on the Old Oregon Trail between M. P. 428.81 north of Columbia Avenue and M. P. 429.77 at Locust Avenue at the north city limits of Nyssa. (See Exhibit "H-2")

3. He recommended a 45-mile-per-hour speed zone on the Oregon Coast Highway between the county road at M. P. 10.90 and the entrance to Camp Clatsop at M. P. 11.57. (See Exhibit "H-4")

4. Recommended a 35-mile-per-hour speed zone on the Netarts Secondary Highway between M. P. 6.22 (450 feet east of Monty's Tavern) and M. P. 6.87 (300 feet west of the road to the postoffice. (See Exhibit "H-3")

5. Recommended a 45-mile-per-hour speed zone on the Columbia River Highway between the north city limits of Scappoose (M. P. 21.66) and the South Fork of Scappoose Creek (M. P. 21.83) contingent upon the State Speed Control Board rescinding a portion of the existing 35-mile-per-hour speed zone and the establishing of a 45-mile-per-hour zone on the Columbia River Highway within the city limits of Scappoose between Williams Avenue (M. P. 21.47) and the north city limits (M. P. 21.66)

6. Recommended denial of a reduced speed zone on the McMinnville Highway from the Pacific Highway West (M. P. 0.00) to the north city limits of McMinnville (M. P. 0.60) but he recommended that a 35-mile-per-hour speed zone be established between the Southern Pacific railroad crossing (M. P. 1.05) and 15th Street (M. P. 1.28) on the easterly half of the highway contingent upon the State Speed Control Board establishing a like speed zone on the westerly half of the highway, the city boundary line being the center line of the highway.

7. Recommended a 35-mile-per-hour speed zone on the Redwood Highway between the north city limits of Cave Junction (M. P. 13.19) and a point 0.06 mile north of the north city limits of Cave Junction (M. P. 13.25) contingent upon the State Speed Control Board establishing a similar speed zone within the city limits. He also recommended a 35-mile-per-hour speed zone on the Oregon Caves Highway between the east city limits of Cave Junction, (M. P. 0.13) and the county road (M. P. 0.36)

contingent upon the State Speed Control Board establishing a similar speed zone within the city.

8. Recommended denial of the request for a reduced speed zone on the Pendleton-John Day Highway in and adjacent to the City of Pendleton.

9. Recommended a 40-mile-per-hour speed zone on the Pacific Highway between the Wagner-Binford access road (M. P. 143.90) and the north city limits of Cottage Grove (M. P. 144.20) and a 45-mile-per-hour speed zone on the Pacific Highway between the south city limits of Cottage Grove (M. P. 145.51) and a point 200 feet south of Sweet Lane Road (M. P.146.27) contingent upon establishment of a reduced speed zone within the city by the State Speed Control Board.

10. Recommended denial of a request for an extension of the 25-mile-per-hour speed zone on the Oregon-Washington Highway northerly from the Little Walla Walla River, the city-limit-boundary for the City of Milton-Freewater, and he recommended approval of a 45-mile-per-hour speed zone on the Oregon-Washington Highway between the Little Walla Walla River (M. P. 30.74) and northeast First Avenue (M. P. 30.97) contingent upon the State Speed Control Board establishing a similar speed zone within the corporate limits of Milton-Freewater.

11. Recommended a 45-mile-per-hour speed zone on the Oregon Coast Highway from the most southerly entrance to Boiler Bay State Park (M. P. 138.55) to M. P. 139.40, and a 35-mile-per-hour speed zone from M. P. 139.40 to a point 0.07 miles south of Hawkins Street in Depoe Bay (M. P. 140.04). See Exhibit "H-4")

12. Recommended 40-mile-per-hour speed zone on the Redwood Highway between a point 250 feet south of Holton Creek (M. P. 14.84) and a point 0.21 miles north of the Kerby Postoffice (M. P. 15.54) in the community of Kerby. (See Exhibit "H-5")

13. Recommended 35-mile-per-hour speed zone on the Oregon Coast Highway in the community of Gardiner between a point 0.53 miles north of Commercial Street (M. P. 222.67) and a point 0.23 miles south of Commercial Street (M. P. 223.43). See Exhibit "H-4".

The Commission approved the recommendation of the Engineer in each instance by adopting the attached resolutions relative thereto marked EXHIBITS "H-1" through "H-5", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Engineer recommended and the Commission approved out-of-state travel expenses for the following personnel:

1. Carl W. Jordan, Director, Travel Information Division, to attend a meeting of the Pacific Northwest Travel Association in Sun Valley, Idaho, September 9-12, 1953. Estimated cost $118.00.

2. Gene Huntley, Personnel Director, to attend the National Conference

on Public Personnel Administration in Los Angeles on October 5-8, 1953 and also on October 9 to attend the annual meeting of the Association of Highway and Public Works Personnel Officers in the same city. Estimated cost $165.00.

3. R. H. Baldock and W. W. Stiffler to attend a meeting of a special committee of AASHO concerning loads carried by logging trucks, at Olympia, Washington, September 29, 1953. Estimated cost $45.00.

4. Mark Astrup, Landscape Engineer, to attend a meeting of the Roadside Coordinators of the Highway Research Board October 6 and 7, 1953, at Columbus, Ohio. Estimated cost $310.00.

5. Roy Edgerton, Bridge Department Engineer, to travel by state car to Berkeley, California, to return vibration testing equipment belonging to the University of California. Estimated cost $80.00.

Travel expenses for right of way agents to make several trips to eastern Washington and northern Idaho was considered by the Commission. The Engineer stated that much of the right of way on the Emigrant Hill Section on the Old Oregon Trail east of Pendleton is owned by Indians and under tribal laws, it is necessary that all owners be contacted in person, some of whom reside in Washington and Idaho. He recommended, and the Commission approved, such trips as are necessary.

The Engineer reported a dangerous parking condition in Cutler City on the Oregon Coast Highway where vehicles now park head-in and when leaving the parking site, back their vehicles across both lanes of traffic. In view of the hazards involved, he recommended that parallel parking only be established on the west side of the highway between Engineer's Station 1117+05 and 1120+55. The Commission approved the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "I", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also presented to the Commission his recommendations concerning parking restrictions on various segments of highways. He explained that in each instance the conditions have been carefully investigated and it has been determined that to properly safeguard the traveling public, certain restrictions should be placed as to the parking of vehicles on the highway right of way. The Commission accepted the Engineer's recommendations as follows by adopting the attached resolutions relative thereto marked EXHIBITS "J-1" through "J-5", which resolutions by this reference are made a part hereof with like effect as though extended in full herein:

1. He recommended prohibition of parking at all times in the median areas and on the highway shoulders of the Oregon Coast Highway between Coquille and Coos Bay, particularly between M. P. 258.18 (Engineer's Station 111+70) and M. P. 258.38 (Engineer's Station 121+70). (See Exhibit "J-1")

2. He recommended that parking be prohibited on both sides of the

Pacific Highway West south of Corvallis between M. P. 86.36 and M. P. 87.07. (See Exhibit "J-2")

3. He recommended prohibition of parking on highway shoulders on both sides of the Pacific Highway in the vicinity of Savage Rapids Dam between M. P. 284.62 (Engineer's Station 307+70) and M. P. 284.82 (Engineer's Station 317+60). (See Exhibit "J-3")

4. Recommended prohibition of parking on both shoulders of the Oregon Coast Highway in the vicinity of the Neahkahnie High School between M. P. 58.85 (Engineer's Station 886+50) and M. P. 59.18 (Engineer's Station 869+00). (See Exhibit "J-4")

5. Recommended that parking be prohibited along the north side of Pacific Avenue, present route of the Wilson River Highway, just west of Forest Grove, between Engineer's Stations 32+00 and 35+00. (See Exhibit "J-5")

In discussing the parking restrictions to be placed on the Oregon Coast Highway between Coquille and Coos Bay, Chairman Chandler remarked that this section of highway is particularly in need of landscaping. The Commission instructed the Engineer to draw up plans for such landscaping work.

The Commission considered and accepted with expressed reluctance the resignation of Mr. Ralph Watson as Public Relations Consultant for the State Highway Commission, effective September 30, 1953.

The Engineer reported completion of the following described sections of new highway and that such sections have been opened to public travel:

1. Nyssa-Adrian Section of the Nyssa-Adrian Secondary Highway No. 450, Malheur County.

2. Port Orford-Rocky Point Section of the Oregon Coast Highway in Curry County.

3. Calapooya Creek-Sutherlin Section of the Elkton-Sutherlin Secondary Highway No. 231 in Douglas County.

4. Jasper Bridge Section of the Springfield-Creswell Secondary Highway No. 222 in Lane County.

He presented four resolutions providing for disposition of the abandoned portions of the old highway sections. He pointed out that these resolutions had been preceded by agreements signed by the county courts in which they agree to take over the old sections of highway as outlined in the resolutions. He recommended that the Commission approve the resolutions at this time. The Commission accepted the Engineer's recommendation by adopting the attached resolutions relative thereto marked EXHIBITS "F-1" through "F-4", which resolutions are made a part hereof with like effect as though extended in full herein.

The Engineer presented for the Commission's consideration a service agreement with the Pacific Telephone and Telegraph Company covering installation of approximately 3/4 of a mile of telephone line to serve a highway department remote-controlled radio station southeast of the Town of John Day. The charge for construction, he stated, is $346.00, and the monthly service charge is $2.50. He also said that the agreement form has been approved by the Chief Counsel. He recommended that it be approved by the Commission. The Commission approved the recommendation.

Also presented for the Commission's approval was an easement agreement with American Forest Products Corporation granting to the State the right to go upon and across Corporation logging roads which connect US Highway 395 with a proposed remote controlled radio station on Black Cap northeast of Lakeview. The Engineer stated that the agreement is necessary to secure access to the radio station, and he recommended that it be approved. The Commission approved the recommendation.

A resolution adopted by the Curry County Court protesting relocation of the Oregon Coast Highway between Gold Beach and Ophir in Curry County was discussed by the Commission. The resolution urged improvement of the highway either along present alignment or easterly thereof so that beach property may be left for resort or residential development. The Commission ordered the resolution filed.

A request from the City of Sweet Home for a change in the present reduced speed zone in and adjacent to Sweet Home was considered by the Commission. The Engineer advised that investigation reveals that the section the city wants speed-zoned lies entirely within the corporate limits of Sweet Home so is outside the Highway Commission's jurisdiction. In view thereof the Commission referred the matter to the State Speed Control Board which has control.

The Commission considered and upon recommendation of the Engineer unanimously approved a form of "trust agreement" with the Bonneville Power Administrator covering payment of $3,500 to the Bonneville Power Administration for moving three of its structures which are in the way of highway construction on US 99W between Tigard and Middleton in Washington County.

A form of cooperative agreement with the City of Portland pertaining to accidents within the city was discussed. The Engineer stated that these agreements in the past have run for a period of two years, the present agreement expiring December 31, 1953. The data transmitted to the city concerning the accidents must necessarily be compiled for use of the State Highway Department, so that the payment by the City of Portland of $300 per month, plus office space, is of considerable value. He recommended and the Commission approved entering into a new agreement for a two-year period beginning January 1, 1954,

A revised list of restricted highways over which the hauling of logs, poles or piling is prohibited except by express approval of the Highway Commission was presented by the Engineer. He explained that according to law it is necessary for the Public Utilities Commissioner to obtain recommendations

from the Highway Commission before issuing a permit to anyone to transport logs, poles or piling over state highways and that the list of restricted highways will be furnished the Public Utilities Commissioner as a recommendation if the Commission approves. He explained further that on all other state highways logs, poles or piling may be hauled within the statutory limitations as to weight and dimensions with out permit from the Highway Commission. Highways included in the revised restricted list are:

1. Crown Point Secondary Highway (Old Columbia River Highway) between Larch Mountain Road and junction with Columbia River Highway near Dodson

2. Little Nestucca Secondary Highway between Little Nestucca River at Mile Post 5.20 and Dolph

3. Woodburn-Estacada Highway between Carver Road Junction (M. P. 32.14) and Estacada

4. Mt. Hood Highway between Wapanitia Highway Junction and Cooper Spur

5. Alsea-Deadwood Secondary Highway between Alpha School (M. P. 10.5) and Preacher Creek Road (M. P. 19.96)

6. Oregon Coast Highway between Warrenton Junction (M. P. 8.56) and junction with Old Highway (M. P. 6.52), new route only

7. Crater Lake Highway between Crater Lake Park boundary and Fort Klamath

8. Territorial Secondary Highway between M. P. 41.34 near RR grade crossing, and Pacific Highway Junction near Anlauf

9. West Diamond Lake Highway between M. P. 8 and junction with Crater Lake-North Highway

10. East Diamond Lake Highway between Crater Lake-North Highway and junction with The Dalles-California Highway

11. Sumpter Valley Highway between McEwen and Salisbury

The Commission unanimously approved the revised list of restricted highways as recommended by the Engineer.

A request submitted by Senator Howard Belton and others for correction of a hazardous condition caused by 22 large trees on the right of way of the Pacific Highway East in Canby was given consideration by the Commission. The Engineer stated that this matter has been carefully investigated by the Landscape Engineer, and it had been determined that half of the trees should be cut down and the remainder trimmed in order to provide safety to the traveling public. He estimated the cost involved at $1800, and he recommended approval of the expenditure, the work to be

performed by contract as a Minor Betterment Project. The Commission adopted the recommendation.

The Engineer discussed with the Commission the replacement of yellow stop signs with new stop signs having white letters on a red background so as to have them conform with the standard color combination as revised by the National Committee on Uniform Traffic Control Devices. He stated that it has long been felt that a distinctive color should be used for stop signs, and as the color red is universally recognized as a danger indication, the change to red seems to be in order. He recommended that the revised type of stop sign be used in new installations and in the replacement of old signs. The Commission approved the recommendation.

The Engineer reported that Kenneth Poorman Company, Inc., Portland, is engaged in hauling cement with semitrailer combinations or a truck semitrailer and full trailer over the Oswego Highway, which is classified as Group II, and upon which the above equipment is not eligible. Test runs were made showing that this equipment can safely move over the entire Oswego Highway with the exception of the right turn from the Willamette River Bridge onto Main Street in Oregon City where they encroach upon the opposing traffic lane. He requested authority to issue permits for that particularly highway to any or all carriers, subject to legal restrictions, for the operation of 50-foot tractor and semitrailer combinations, 60-foot truck and full trailer combinations and trains consisting of three units, the over-all length of which does not exceed 60 feet except between the hours of 7:00 a.m. and 10:00 a.m. and between 3:00 p.m. and 6:00 p.m., provided Mr. Poorman secures approval and official action by the Oregon City Council for the prohibition of parking at any time on the East side of Main Street for a distance of 51 feet south from the south curb line of Seventh Street. The Commission granted the authority as requested.

An abandonment agreement with Douglas County concerning disposition of the old right of way of the Divide-Anlauf Section of the Pacific Highway was considered by the Commission. The Engineer explained that under the terms of the agreement, one unit is to be turned over to the county as a county road, and the other unit is to be retained as an extension of the Territorial Secondary Highway No. 200. He recommended approval of the agreement. The Commission adopted the recommendation.

In this connection the Engineer reported that the new highway route has been completed and opened to traffic, and that under the terms of the abandonment agreement, it is now in order for the Commission to formally dispose of the old highway sections. He pointed out that a section of the old highway known as Unit "A", extending from Engineer's Station 179+00 at Comstock to a junction with the Territorial Highway, is turned over to Douglas County. The section of the old highway known as Unit "B" and extending to Engineer's Station 27+60 is to be retained as a part of the Territorial Highway. He recommended that the disposition as stated be approved. The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission, upon recommendation of the Engineer, approved a form of resolution submitted by the County Court of Polk County in which the county consents to closure of an unnamed and unopened dedicated county road located on the westerly side of the Orr Corner-Monmouth Section of the Pacific Highway West in Polk County.

The Engineer also presented for Commission action an abandonment agreement with the Polk County Court concerning disposition of the old section of the Pacific Highway West which will be replaced by new construction on the Orr Corner-Monmouth Section. Under the terms of the agreement, the County accepts the old highway section as a county road when the new highway is completed and opened to public use. The Commission approved the agreement.

Consideration was given by the Commission to a form of "Finance Agreement" and to a form of "Maintenance Agreement" with Lane County covering improvement of the Linn County Line-Coburg Section of the Coburg-Harrisburg County Road, FAS 210, in Lane County. The Engineer explained that bids have been received for construction on this section and that the agreement forms have been signed by the county providing that they will maintain the section after construction has been completed and providing further that the county will contribute 20 percent towards the cost of construction. The Engineer recommended that the agreements be approved. The Commission accepted the recommendation.

The Commission considered the following suggestions offered by Mr. H. G. Maison, Superintendent of State Police, to remedy dangerous conditions on the Oregon Coast Highway and on the Siuslaw Highway in the vicinity of Florence, Lane County:

1. US 101 at Sea Lion Caves and vicinity.

2. Alleged hazardous curves on US 101, Sutton Lake.

3. Extension of existing speed zone on US 101 north from Hecata Beach Junction to Sutton Lake.

4. Request for speed zone, US 101, vicinity of Cleawox Lake.

5. Additional signing US 101, Westlake Road intersection.

6. Curve signing, ORE 36 at Tiernan.

7. Request for change in wording of signs designating terminus of speed zone.

The Engineer advised in regard to Items 1 and 2 that the situation has been taken care of through installation of guard rail and advisory speeds on curve signs. Concerning Item No. 3, he said that a traffic engineering investigation disclosed that an extension of the speed zone is not warranted, and he recommended that it be denied. Concerning Item No. 4, he recommended that a 45 M. P. H. speed zone be established on the Oregon Coast Highway between M. P. 205.05 and 205.81. On Item No. 5, he stated that an investigation disclosed only two accidents at this intersection,

which indicates that no further treatment is required. With reference to Item No. 6, he stated that the highway will be posted for speeds on curves in the routine course of work. On Item No. 7, he stated that the wording used on such signs is national practice, and he recommended that the nationally accepted practice be retained. The Commission accepted the Engineer's recommendation with respect to each suggestion. Concerning the request for a speed zone in the vicinity of Cleawox, the Commission approved the Engineer's recommendation by adopting the attached resolution relative thereto marked EXHIBIT "H-4", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed with the Engineer the bids received for highway construction at the morning session, and at 5:00 p.m. Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows, the Commission's action being by unanimous vote:

"Construction of a trailer house shelter at Timberline Junction and at Warm Springs Junction in Clackamas and Wasco Counties: The Commission awarded this contract to Ferguson-Cassady Company, Portland, the low bidder, at its bid price of $20,593.00.

"Construction of the Clatskanie River Bridge and County Road Overcrossing in Columbia County: The contract has been awarded to H. G. Palmberg, Astoria, the low bidder, at his bid price of $77,307.00.

"Grading and paving the South Unit, Bend-Lapine Section of The Dalles-California Highway in Deschutes County: J. W. Briggs, Bend, was the low bidder using metal or concrete guard fence posts at $472,732.00. The Commission elects to accept the bid of J. W. Briggs in the sum of $472,732.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Paving the Anlauf-Rice Hill Unit, Divide-Rice Hill Section of the Pacific Highway north and south of Yoncalla in Douglas County, and grading and paving the Rice Hill Section of the Pacific Highway south of Yoncalla in Douglas County: Porter W. Yett, Portland, submitted the low combination bid on these projects in the amount of $1,058,604.00 for Anlauf-Rice Hill Section, using metal or concrete guard fence posts, and $81,907.00 for the Rice Hill Section. The Commission has awarded these contracts to Porter W. Yett at his low total combination bid of $1,140,511.00.

"Grading and paving the North Unit, Elbow Lake-Gardiner Section of Oregon Coast Highway in Douglas County: Fred H. Slate Company, Oregon Limited, and E. C. Hall Company, Portland, the low bidder for this job at $618,495.50 using concrete or metal guard rail posts, was awarded the contract by the Commission.

"Installation of traffic signals at two intersections on the Pacific Highway in Medford, Jackson County: The contract has been awarded to Steeck Electric Company, Roseburg, the low bidder, at its bid price of $4,350.00.

"Construction of the Siskiyou Sand Shed in Jackson County: The low bidder, R & M Construction Company, Central Point, has been awarded the contract at its bid price of $12,030.00.

"Installation of traffic signals at seven intersections on the McKenzie Highway in Springfield, Lane County: Trowbridge Electric Company, Roseburg, the low bidder, has been awarded the contract at its bid price of $18,250.00.

"Grading and paving and construction of a reinforced concrete bridge on the Prairie Road-Eugene Unit, Junction City-Eugene Section of the Pacific Highway in Lane County: T. C. Wildish, Eugene, was the low bidder at $267,213.76. The Commission elects to accept the bid of T. C. Wildish in the sum of $267,213.76 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and oiling the Linn County Line-Coburg Section of the Eugene-Harrisburg County Road in Lane County: The Commission elects to accept the bid of Harbert Brothers, Estacada, the low bidder, in the sum of $106,174.60 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the Bureau of Public Roads and Lane County is received, and the sum of $23,900.00 is deposited by the County.

"Grading the Willamette River-Gervais Unit, Willamette River-Hayesville Section of the Portland-Salem Expressway in Marion and Clackamas Counties: The Commission elects to accept the bid of R. A. Heintz Construction Company, Portland, the low bidder, in the sum of $632,794.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and paving the Orr Corner-Monmouth Section of the Pacific Highway West in Polk County: The Commission awarded the contract to the low bidder, J. R. Taggart, Salem, for the amount of his bid--$234,805.00.

"Construction of the Athena Maintenance Building In Umatilla County: All bids were rejected on this project because they were too high.

"Construction of reinforced concrete bridges and reconstruction of a log bridge on the Glenwood-North Plains Section of the Wilson River Highway in Washington County: Johnston & Bryant, Newberg, was the low bidder in the amount of $83,945.00. The Commission elects to accept the bid of Johnston & Bryant in the sum of $83,945.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as the necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading the Glenwood-North Plains Section of the Wilson River Highway in Washington County: Rogers Construction Company, Portland, was the low bidder at $592,870.00. The Commission elects to accept the bid of Rogers Construction Company in the sum of $592,870.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval

of the Bureau of Public Roads is received."

The meeting adjourned at 5:20 p.m. to reconvene the following morning at 9:00 a.m. in the same room.

Portland, Oregon
September 25, 1953

The meeting of the State Highway Commission reconvened in regular session at 9:00 a.m. in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Assistant State Highway Engineer
W. W. Stiffler, 2d Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
Floyd Query, Assistant Secretary

Mr. H. B. Glaisyer, Secretary, was excused because of illness.

Bids as follows for highway construction were opened and read aloud pursuant to a previously published notice at the conclusion of which it was announced that awards of contracts would be made at 5:00 p.m. in the same room:

***FOOTNOTE: Chairman Chandler interrupted the reading of bids to inquire of the contractors and others present if it would be agreeable with them if the unit bids were read on only the three low bids for each job and that only the name and total be read for the higher bids. He explained that as there are a great number of bids to be read such a procedure would save considerable time, and he asked for a showing of hands of those in favor of the abbreviated reading and of those opposed. Only two hands were raised as being opposed to the suggestion. So that unit bid information would be available to those who want it, Chairman Chandler stated that such information will be furnished each contractor who may request it.

At the conclusion of the reading of the bids, it being 12:00 o'clock noon, the meeting recessed to 2:00 p.m. for luncheon.

A delegation from the City of Mt. Angel appeared before the Commission to urge improvement of the Hillsboro-Silverton Secondary Highway between Mt. Angel and Silverton. The following people were present: Hon. Jacob Berchtold, Mayor; Carl Mucken, Chairman of Road Committee; S. C. Schmitt, President, Businessmen's Club; Joe Berchtold, Fire Department; Pete Gores, Manager, Farmers Union Oil Company; Clem J. Butch, Insurance Underwriter; Ed Stolle, Mt. Angel News; Bernard Kirsch, Manager, Farmers Union Warehouse; Joseph Hassler, Water Commissioner; W. J. Kloft, Businessman; Philip May, Fred J. Schwab, Louis LeDoux, and Walter Kruse.

Mayor Berchtold, who acted as spokesman, thanked the Commission for work performed in and near Mt. Angel and asked for further improvement south of Mt. Angel to aid the economy of the city and the rural area surrounding it. Carl Mucken pointed out the large number of farm roads intersecting the highway and the comparatively large volume of traffic which used it. Mr. Schwab read a letter from the Mt. Angel Fire Chief pointing out the hazards involved in using the present narrow, slippery road. Mr. Gores, who operates four gas trucks in this area, stated that it would be an aid to all haulers if the road is improved. Mr. Kirsch stated that Marion County has improved their roads while the state secondary has had no major improvement for a number of years. Chairman Chandler stated that the Commission would consider their request carefully. He pointed out that considerable funds have been expended in Mt. Angel and on the highway between Mt. Angel and Woodburn and that there are no funds available at this time for the requested improvement. He also stated that the Commission can give no assurance when the

work would be performed.

The Hon. Robert R. Walker, Mayor, and Mr. L. E. Stewart, Councilman of the City of Merrill, appeared before the Commission to urge improvement of the Klamath Falls-Malin and Hatfield Highways in the vicinity of Merrill and Hatfield. Mr. Walker stated that the section they are particularly concerned in starts at the Henry Semon place and extends from Merrill to Lost River Junction. He pointed out that the highway is very narrow and at harvest time there is a large amount of traffic. Mr. Stewart stated that he understood it was the original intent to improve this section when the adjoining section had been reconstructed several years ago, but for some reason or other the work was stopped at Lost River. He emphasized the great amount of farm produce hauled to Merrill and that a wider road was urgently needed. Mr. Walker stated that he felt it would be a relatively inexpensive job to perform, but would like to know when the Commission planned to do the work so that the city could prepare plans for improvement within the city. Chairman Chandler advised that there is nothing in the present program for this improvement, and he explained that the construction work on the Klamath Lake Secondary Highway is costing a great deal more than was anticipated. However, he said, the Commission will ask the Engineer to investigate the project and submit a report.

Mr. Darwin H. Dodds, Manager of the Lake County Chamber of Commerce, appeared before the Commission to request improvements to US Route 395 in the Crooked Creek area about eighteen miles north of Lakeview. He stated that the road north from Lakeview to Chandler State Park is in good condition, but the section north of that along Crooked Creek is badly in need of improvement. It was his impression that improvement of this section had been contemplated about ten or twelve years ago. He presented to the Commission several pictures of the existing roadway. Chairman Chandler stated that improvement of this section is not in the current construction program, and the Commission has no information on what it would cost to improve the road or when money would be available to do it. However, the Engineer will be asked to investigate the request and report at a later date.

A delegation representing the City of Ashland appeared before the Commission concerning improvements on the Pacific Highway through and around Ashland. The following people were present: Philip Stansburry, Mayor; Elmer C. Biegel, City Superintendent; Ralph Koozier, Harry Morris, Arthur Kreisman, Richard Neil and Mark Hamaker, Councilmen. Mayor Stansburry, who acted as spokesman, presented a resolution adopted by the Ashland City Council which was read by the Assistant Secretary. The resolution in brief rejected the proposed plan for providing four-lane traffic along the existing route of the Pacific Highway through Ashland and for no parking along the highway route. The resolution also recommended that North Main Street be widened from the existing underpass to Helman Street, that the center strip on Siskiyou Boulevard be cut down and reduced in width, and that adequate repairs be made to existing curbs along the highway route. It was also recommended that funds be provided for the construction of a two-lane alternate route by-passing the City of Ashland. Mr. Stansburry stated that in addition to these recommendations as stated in the resolution, the city would like to get rid of the truck nuisance and

felt that this could be accomplished by construction of the by-pass route. Mr. Koozier and Mr. Neil emphasized the need of a by-pass route. Mr. Hamaker pointed out that the present route through Ashland acts as a bottleneck, but parking cannot be elimninated on the highway street as there is no other parking space available. He expressed the hope that the by-pass route would be built in the near future. Mr. Morri and Mr. Kreisman urged improvement at the underpass at the north edge of the town. The Engineer pointed out that all available funds had been allocated in the five-year program and unless additional funds became available, it did not appear that the by-pass construction could be started until after the five-year program had been completed. Chairman Chandler stated that there appeared to be only two feasible solutions, one being the use of the existing route by elimination of parking and the other being the construction of a by-pass route. The Commission, he stated, cannot undertake improvement of the existing highway route through the city unless the city will eliminate parking, and it does not know when construction of the by-pass can be started. However, widening of the underpass at the north edge of Ashland is on the construction program and is contemplated at an early date. Mayor Stansburry thanked the Commission for preparing the survey for the City of Ashland and expressed his regrets that the city could not accept the proposed plan for improvement along the existing route.

The following persons appeared before the Commission in response to the Commission s formal notice given the City of Myrtle Creek on August 18, 1953, that the Commission would conduct a public hearing at its meeting on September 25, 1953, in conformity with Federal requirements, with respect to the plans of the Commission to relocate the Pacific Highway so as to by-pass the City of Myrtle Creek: Mr. J. B. Nelson. Mayor of Myrtle Creek; Mr. W. A. Hudelson and Mr. and Mrs. Hal W. Schiltz, members of the Myrtle Creek Chamber of Commerce. Mr. Nelson stated that the people of Myrtle Creek have no particular objection to the proposed realignment, but they want assurance that adequate access to the city is provided when the new highway is built. He also inquired as to where the cloverleaf interchange is to be located in the Riddle area. The Engineer stated that plans for the interchange have not been completed, but it probably will be placed at the Riddle Road. Mr. Nelson then stated that their principal concern is the type of connection to be provided and that if a proper interchange is constructed, the people will be satisfied. He also asked for traffic lights at one or two intersections within the town.

Mr. Hudelson expressed appreciation for the cooperation received from Mr. Tom Edwards, Division Engineer. He also asked for adequate signs along the new highway pointing out the location of the town of Myrtle Creek, and he requested development of a wayside park near Myrtle Creek similar to the one at Catherine Creek. Mr. Schiltz stated that there is no landing field for planes near Myrtle Creek, and he inquired if it would be possible for the Commisssion to acquire right of way for an emergency landing field.

Chairman Chandler stated that the Commission is pleased that the delegation had not opposed the proposed by-pass route, and concerning a traffic light in the city, he stated that if the city would make a written request for such, the Commission would authorize an investigation. and if approved, the city would be asked to pay one half the cost. Concerning signs advertising the City of Myrtle Creek, he ad-

vised that the law prohibits any advertising signs on the highway right of way and only approved signs can be put up. The Commission, he stated, is following a policy of developing wayside areas as fast as money is available for them. Concerning air strips, he stated, the Commission has nothing to do with them. In response to an inquiry from Mr. Nelson as to when construction work is planned on the new highway relocation, Chairman Chandler stated that it is planned to start work in July, 1954, but it may be later depending upon the progress of right of way acquisition and preparation of plans.

A delegation representing the Visitors' Service Committee of the Portland Chamber of Commerce appeared before the Commission to request State cooperation in providing sewage disposal facilities at Government Camp, and also concerning signs on highways at entrances to cities. The following people were present: Mrs. Ray Hughes, representing Government Camp Sanitary District; Mrs. Charles L. Hill, property owner, Government Camp; V. A. McNeil, member of the Portland Chamber of Commerce; and James A. Mount, Chairman of Visitors' Service Committee, Portland Chamber of Commerce. Mr. Mount explained that the State Sanitary Authority has threatened to close business establishments in Government Camp unless that area complies with sanitary requirements concerning sewage disposal. An appeal, he stated, has been made to the U. S. Forest Service for relief through Congress but as it might take a considerable length of time for help to come from the source, he urged the Highway Commission to participate in the problem inasmuch as the State Highway Department has property in the area.

Concerning signs at the entrances of each city, Mr. Mount stated that a survey had been conducted of all cities having a chamber of commerce, and they indicated a strong preference for a sign at each entrance to the city showing the population and the industry or feature for which each city is particularly noted.

Mrs. Hughes stated that help was urgently needed in the matter of sewage disposal, and that the community was doing everything it could to take care of the matter. Mr. Mount added that it would be of help if the Commission would direct a letter to the Sanitary Authority stating that the Commission is participating in plans for improvement. Chairman Chandler informed the group that in the matter of cooperation in the sewage disposal problem, it would be necessary to secure a legal opinion from the Chief Counsel as to the obligation of the Highway Commission. As to installation of the signs requested, this matter, he stated, will be studied.

The Engineer stated that he had received a request from Kermit W. Linstedt, Acting Regional Forester, in which he asks the Commission to designate as a state highway the Belknap Springs Forest Highway extending from a junction with the McKenzie Highway near Belknap Springs in Lane County, northerly past Clear Lake to a junction with the Santiam Highway in Linn County. It appears that the Linn County Court has refused to cooperate in development of the road as a Forest Highway, however, he explained that if the highway is adopted as a secondary highway it will still have to be approved by the County Court. He requested authority to contact the County Court and report to the Commission later.

He also requested authority to contact the County Courts of Union and Umatilla Counties concerning the Starkey-Ukiah Road to see what plans they have for this road. The Commission granted the Engineer's requests.

The Engineer stated that he had received a request to use the Fred Meyer Warehouse, which lies in the route of the Banfield Expressway, for an auto show in January or February, 1954. He pointed out that it is planned to receive bids in October covering construction on this section, and if use of the warehouse is granted for the auto show, it will probably mean that the building cannot be moved until about the first of March. It was his thought that this might delay construction of the highway. Commissioner McIver stated that he felt if the request is granted, it would probably delay construction by about three or four months. The Commission denied the request.

Mrs. Gertrude Jensen, Chairman of "Save the Gorge" Committee; Mrs. George P. Turner, President of the Portland Women's Forum; State Senator Pat Lonergan; and Dr. Morgan O'Dell of Lewis and Clark College, appeared before the Commission to urge acquisition of property in the Columbia Gorge for preservation of scenic values. Mrs. Jensen inquired as to whether any action had been taken concerning a proposed exchange of land with Mr. Fred Luscher in which he had agreed to exchange six acres of timbered land for twelve acres of pasture land owned by the State. Chairman Chandler informed her that the Parks Superintendent had been instructed to investigate this matter. Mrs. Jensen stated that the Bennett property near Latourell Falls could now be obtained for $45,000--a reduction of $10,000 from the price the Bennetts had originally asked. Chairman Chandler stated that there had been no change in the policy of the Commission concerning acquisition of lands in the Gorge since the last meeting; however, if it would be of assistance to the "Save the Gorge" Committee in exchanging pieces of land, he offered the loan of the State right of way agents. Mrs. Turner spoke briefly, stating that she represents 75 women's clubs and that they dislike seeing the beauty of the Gorge marred by logging operations. She pointed out that for many years, the Gorge has been advertised as a tourist attraction and its beauty should be preserved. She urged that the Bennett property be purchased or condemned. Dr. Morgan O'Dell urged the development of park areas in the Gorge to preserve the scenic values. Senator Pat Lonergan stated that he sympathized with the objectives of the Gorge Committee and urged the Commission to do all that they could. He stated also that he felt there should be a separate park commission to work specifically on park problems. Mrs. Jensen read a letter from Rufus C. Holman endorsing the efforts of the "Save the Gorge" Committee and expressing astonishment at the lack of public officials' interest in the Gorge.

After the departure of the delegation, the Commission discussed with the Chief Counsel as to what authority the Commission has to expend gas tax funds for the acquisition of property as requested by the delegation. The Commission instructed the Chief Counsel to frame a letter to Governor Patterson outlining the Commission's policy in regard to the Columbia River Gorge and submit it to the Commission for approval.

The Commission discussed with the Engineer the following items of unfinished business as shown on the Secretary's Summary as of August 7, 1953:

1. Use of local counsel in trial of condemnation cases: The Commission ordered this item deleted from the list of unfinished business. If the matter again arises, it is to be considered as new business.

2. Proposed extension of the highway from Havana south to a connection with the Oregon-Washington Highway east of Pendleton: The Engineer's report on this matter was considered on the previous day but action thereon was deferred for the future. The Commission ordered the item retained on the list of unfinished business.

3. Request for construction of a retaining wall along the city park in Condon where the park adjoins the highway: Action was taken on this matter on the previous day, and the Commission ordered the item deleted from the list.

4. Proposed location of the highway at the north entrance to Ontario and whether an underpass or an overpass is to be constructed: The Engineer reported that the survey is not yet complete on this section. The Commission ordered the item deleted from the list of unfinished business. The matter is to be considered as new business if it comes up again.

5. Request for access to The Dalles-California Highway in Lapine: Action on this matter was taken by the Commission on the previous day. The item was ordered deleted from the list of unfinished business.

6. Development of Robert W. Sawyer Forest Wayside north of Bend: Action was taken on this matter by the Commission on the previous day so the Commission ordered the item deleted from the list.

7. Proposed addition for a park site on the Bend-Sisters Highway at Tumalo. Action was taken on this matter by the Commission the previous day and the item was ordered deleted from the list.

8. Controversy over charges for swimming facilities at Honeyman State Park: The Parks Superintendent stated that his report is not yet ready. The Commission ordered this item retained on the list of unfinished business.

9. Request for improvement of the Pacific Highway West and the Amity-Dayton Secondary Highway: The Engineer stated that his report on this matter is not yet complete. The item is to be retained on the list of unfinished business.

10. Engineer's letter of July 31 regarding shifting of funds in the five-year program affecting projects on the Banfield Expressway and the Oregon Coast Highway: This matter was considered and action taken by the Commission on the previous day. The item is to be deleted from the list of unfinished business.

11. Request of County Judge Effenberger, Tillamook County, for improvement of the Netarts Secondary Highway at Tillamook River Crossing

necessitated by high tides resulting from a break in the sand spit at Bay Ocean: The Engineer's report was considered and action taken by the Commission on the previous day. The item is to be deleted from the list of unfinished business.

12. Proposed widening of Coos River Secondary Highway through Eastside: The Commission took action on this matter the previous day. The item was ordered deleted from the list of unfinished business.

13. Establishment of a state park in the northern part of the city of Ocean Lake: The Commission on the preceding day reaffirmed its previous denial. The item is to be deleted from the list of unfinished business.

The Commission confirmed Thursday and Friday, October 29 and 30, as the date for its next regular Commission meeting to be held in Portland. The Commission also tentatively approved the dates of December 10 and 11 for its next following meeting to be held in Portland. The Secretary was instructed to make the usual arrangements for the use of the Green Room in the Imperial Hotel for both meetings.

The Engineer reported that Natt McDougall Company which holds Contract No. 3754 for construction of the Low Pass Section on the Siuslaw Highway in Lane County has stated that it will probably lose about $100,000 on this contract. He explained that the job is composed largely of a cut 200 feet deep across the top of a mountain ridge and that the material in the cut contains a larger percentage of rock than was anticipated. In line with the usual practice, he said, a number of borings were made in the cut area, but these borings did not indicate that the excavation would be as difficult as it has developed; however, he pointed out borings are made purely on prospect basis and no assurance is given that actual excavation will be as indicated by the boring samples. There is no clause in the contract, he added, by which the Commission can legally pay the company an additional amount. He requested and the Commission granted authority to write to the contractor and advise him that no additional compensation can be made for the extra work.

Chairman Chandler asked the Engineer to submit a report on the progress of center striping operations. He also pointed out that in driving over the new section of highway between Winchester Bay and Newport the surface had appeared to be unduly rough. The Engineer stated that in this case, he attributed much of the roughness to minor subsidence of the base after the paving had been laid.

Commissioner Reynolds brought up the matter of fire insurance on state properties. He recalled that the last session of the Legislature had required all state departments to participate in the restoration fund up to 20 percent of the value of the property, and it was understood that the restoration fund would pay 20 percent of any loss incurred. So that there might be no question in this matter, he had written to Mr. Harry S. Dorman, Director of the Department of Finance and Administration, and had received a letter from which is quoted below the portion which pertains to the participation of the restoration fund in losses up to 20 percent of the property value:

September 18, 1953

"Mr. Charles H. Reynolds
Commissioner

***

Dear Mr. Reynolds:

" * * * You are correct in your assumption that the Restoration Fund would contribute up to 20 percent of the loss on parts and equipment which have been covered by private insurance, but in no case on an amount exceeding the amount reported to the Restoration Fund. * * *"

The Commission ordered that the substance of Mr. Dorman's letter be placed in the minutes.

The Commission discussed with the Engineer the status of plans for construction on the Oregon Coast Highway between Wedderburn and Giesel Monument. The Engineer stated that it is planned to present a survey to the Commission at the October meeting for adoption. This job, he said, is a Bureau of Public Roads job and the Bureau Engineers have indicated that they will be able to provide descriptions for right of way acquisition in about two weeks' time.

Commissioner Reynolds inquired as to when there may be new work at The Dalles Dam. Mr. Williams, Assistant Engineer, replied that there probably will be no new work until Congress acts on necessary funds. Commissioner Reynolds also remarked that December 10, which is being considered as the next Commission meeting date, has also been considered as the date for dedication of The Dalles Bridge. No action was taken pending ascertaining of the actual date for the dedication.

Commissioner Reynolds also made inquiry as to what benefits have been derived from the recent correspondence with Union Pacific officials relative to the expediting of agreements through their offices. The Engineer stated that in order to arrive at an understanding on a number of matters a meeting had been held in Portland with state highway officials and railroad officials present to determine what information is needed. The meeting, he stated, was on a very amicable and cooperative basis, and the railroad officials indicated that they could provide necessary clearance regarding their right of way so that bids could be called on a section of the T. H. Banfield Expressway at the October meeting of the Commission. He added the comment that he doubted if this evidence of cooperation would have been apparent had highway department officials not complained of the unusually long delays in negotiations with the railroad company.

The Hood River Chamber of Commerce, Commissioner Reynolds stated, has requested improvement of the Hood River Loop. Mr. Williams, Assistant Highway Engineer, commented that this will be a very expensive job, about $3,000,000, and he also pointed out that the east end of the highway is

closed during several winter months. No action was taken on this matter.

The Commission discussed with the Engineer bids received at the morning session and at 5:00 p.m. Commissioner Reynolds publicly announced the awards of contracts as follows:

"Construction of a reinforced concrete and steel girder bridge, known as the Red Bridge, over Pudding River in Clackamas and Marion Counties: P. S. Lord Mechanical Contractors, Portland, in the amount of $46,036.00 was the low bidder on this project. The Commission referred all bids to Clackamas and Marion Counties inasmuch as this is a county project.

"Grading and paving the Rocky Point-Brush Creek Section of the Oregon Coast Highway in Curry County: The Commission elects to accept the bid of Peter Kiewit Sons' Company, Longview, Washington, the low bidder, in the sum of $862,226.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and gravel topping the Powell Butte Junction-Deschutes County Line Section of the Powell Butte Road in Crook County: The low bidder was Babler Brothers, Inc., Portland, at $48,806.00. The Commission electes to accept the bid of Babler Brothers, Inc. in the sum of $48,806.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the Bureau of Public Roads and Crook County is received, and the sum of $11,000.00 is deposited by the County.

"Grading and paving the Crooked River-Terrebonne Section of The Dalles-California Highway north from Terrebonne in Deschutes County: The Commission elects to accept the bid of Rigers Construction Company, Portland, the low bidder, in the sum of $250,212.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of a sand storage shed at Lapine in Deschutes County: The Commission has awarded the contract to the low bidder, George E. Berry, Beaverton, at his bid price of $7,720.00.

"Grading and base on the Winchester-South Umpqua River Unit, Deady-Shady Section of the Pacific Highway in Douglas County: The low bidder was Babler Brothers, Inc., Portland, at $498,345.00. The Commission elects to accept the bid of Babler Brothers, Inc., in the sum of $498,345.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading the Fairgrounds-Shady Unit, Deady-Shady Section of the Pacific Highway in Douglas County: The Commission elects to accept the bid of Parker-Schram Company, Portland, the low bidder, in the sum of $479,406.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of an addition to the Roseburg Office Building in Douglas County: All bids were rejected as being too high.

"Light grading, cinder base and oiling on the Crescent Lake Secondary Highway in Klamath County: The low bidder, Central Heating Company & F. L. Somers, Eugene, was awarded the contract at their bid price of $37,270.00.

"Grading and pavement widening on the Harrisburg-Junction City Section of the Pacific Highway East in Lane County: The contract has been awarded to the low bidder, Lebanon & Harrisburg Sand & Gravel Company, Lebanon, at their bid price of $121,096.80.

"Construction of an overnight camping area in Honeyman State Park near Florence in Lane County: The Commission has awarded the contract to Fodge & Collins, Waldport, the low bidder at their bid price of $36,329.75.

"Construction of nine seven-pile dolphins across the mouth of the "D" River at Delake in Lincoln County: The Commission elects to accept the low bid of C. J. Eldon, Portland, in the amount of $5,220.00 and directs the Engineer to award a contract to said low bidder if the City of Delake executes a proper contract obligating the city to keep the channel of "D" River clear of sand and gravel.

"Grading, paving, and construction of a reinforced concrete structure on Barbur Boulevard Junction Unit, Barbur Boulevard-White School Section of the West Portland-Hubbard Highway (Portland-Salem Expressway) in Multnomah County. The Commission elects to accept the bid of Parker-Schram Company, Portland, the low bidder, in the sum of $292,527.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of the Moro Undercrossing in Sherman County: The low bidder was George E. Berry, Beaverton, at $71,443.80. The Commission elects to accept the bid of George E. Berry in the sum of $71,443.80 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of the Wilkesboro Overcrossing in Washington County: Lee Hoffman, Beaverton, was the low bidder at $99,550.00. The Commission elects to accept the bid of Lee Hoffman in the sum of $99,550.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received."

The Right of Way Engineer brought up the matter of granting a permit for a sewer pipe line to the City of North Bend across state property in Platt "B" Addition to North Bend. He explained that the city proposes to install a 12-inch sewer line nine feet below the top of the existing terrain; also, that the State's

property lies within the right of way of the Oregon Coast Highway on the waterfront section roughly across from the Mountain States Power Company plant. He recommended, and the Commission approved granting a permit to the city.

The Commission discussed with the Chief Counsel and the Right of Way Engineer the proposed condemnation of the Howard Cooper property which lies within the right of way of the T. H. Banfield Expressway in Portland. The Chief Counsel reported that negotiations had so far failed in acquiring this property and that it appears necessary to take the matter to court. He recommended that he be authorized to offer $325,000 for the property. Negotiations, he added, have been somewhat difficult due to the fact that the property owner has never made an outright statement of what he wanted for the property. After further discussion, the Commission authorized the Chief Counsel to offer $325,000 for the property and to proceed with condemnation if such offer is not accepted.

The Commission signed the following agreements and other papers:

"Application for Public Highway" with Bureau of Indian Affairs covering acquisition from Chemawa Indian School of 18.27 acres on Willamette River-Hayesville Section of Portland-Salem Expressway, Marion County.

"Indentures of Access" covering the following:

a. Blunt property on Medford-County Farm Section of Pacific Highway, Jackson County.

b. Bartell property on Salem-Hayesville School Section of Pacific Highway, Marion County.

c. Russell property on Stout Creek-Mehama Section of North Santiam Highway, Marion County.

d. Langdon property on West Portland-Hubbard Highway, Clackamas County.

e. Hervey property on U. S. 101 between Cedar Point and Coquille, Coos County.

"Lease for Land" with Sawyer Machine Works covering parcel of land on Seventh Avenue (US 99W) at its intersection with Garfield Street in Eugene, Lane County.

"Bargain and Sale Deed" with Pacific Power and Light Company covering parcel of land lying in Lot 7, Section 27, Township 2 North, Range 13 East, Wasco County.

"Bargain and Sale Deed" with Grover Keller covering property on Columbia River Highway in The Dalles, Wasco County.

"Bargain and Sale Deed" with John R. and Mildred A. Holmes for land on Clatskanie Section of the Columbia River Highway, Columbia County.

"Bargain and Sale Deed" with Gordon E. Teter for property on Gales Creek Section

of Wilson River Highway, Washington County.

"Bargain and Sale Deed" with Scotts Valley School District for property on Divide-Rice Hill Section of Pacific Highway, Douglas County.

"Bargain and Sale Deed" with U. S. Forest Service covering land on Cascade Locks-Viento Section of Columbia River Highway, Hood River County.

"Bargain and Sale Deed" with A. C. Suhre for property on Tumalo Section of McKenzie-Bend Highway, Deschutes County.

"Bargain and Sale Deed" with Oregon Fir Supply Company, Inc. for land on Redmond-Bend Section of The Dalles-California Highway, Deschutes County.

"Consent of Vacation" with Frank and Maude Wink, covering vacation of a portion of Kelsay Way lying westerly of Chenoweth-The Dalles Section of Columbia River Highway, Wasco County.

"Waiver and Relinquishment of Rights of Way and Easement" covering waiver of certain rights appurtenant to property owned by State in Eugene so as to remove encumbrance from Anna MacDonald property.

"Agreement" with City of Delake covering City's obligation and expense re removal of sand or gravel deposited within 50 feet of dolphins in "D" River in Lincoln County.

"Assignment and Release" re release of obligation of Glens Falls Indemnity Company, surety for Spada Brothers who defaulted on Contract No. 3439.

"Service Agreement" with Pacific Telephone and Telegraph Company for construction and installation of a telephone line to serve remote-controlled radio station southeast of John Day.

"Trust Agreement" with Bonneville Power Administrator covering work to be performed in moving three of their structures.

"Agreement" with City of Portland covering furnishing to them of certain data pertaining to accidents within Portland.

"Easement" wherein Highway Commission will grant to LeRoy Lumber Company the right to construct, operate, and maintain a private road across certain land owned by State to provide access from Company's land on Divide-Rice Hill Section of Pacific Highway.

"Agreement" with American Forest Products Corporation granting easement across its logging roads connecting US 395 with proposed remote-controlled radio installation on Black Cap.

"Agreement" with Douglas County providing for disposition of old right of way along Divide-Anlauf Section of Pacific Highway, Douglas County.

"Agreement" with Polk County Court re abandonment of Monmouth-Orr Corner Section of Pacific Highway West, Polk County.

"Finance Agreement and Maintenance Agreement" re Linn County Line-Coburg Section of Coburg-Harrisburg County Road, Lane County.

"Agreement" with City of Medford covering installation of traffic signals at intersection of McAndrews Road and Riverside Avenue.

"Agreement" with O. W. R. & N. covering Arlington Grade Crossing on Columbia River Highway.

"Agreement" with O. W. R. & N. covering Moro Undercrossing on Sherman Highway.

"Agreement" with Southern Pacific Railroad Company covering a roadway under Lakeside Overcrossing on Oregon Coast Highway, Coos County.

"Agreement" with State Forestry Department covering reciprocal use of quarry sites near Elsie in Clatsop County.

"Throughway Agreement" with Deschutes County covering the Crooked River-Terrebonne Section of the The Dalles-California Highway.

"Agreement" with City of Monmouth covering the Orr Corner-Monmouth Section of the Pacific Highway West.

"Permit" with the City of North Bend granting permission to construct, operate and maintain a sewer pipe line under six parcels of land in Plat "B" Addition to North Bend in Coos County.

There being no further business to come before the Commission, the meeting adjourned at 5:30 p.m.

State Highway Engineer

Minutes of

September 24 and 25, 1953

EXHIBIT "A"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW THEREFORE BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

EXHIBIT "B"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, it has been brought to the attention of the Commission that in some instances options have been taken on real properties needed for right of way and other highway purposes, and in other instances options are now being taken on real properties needed for right of way and other highway purposes, in connection with both of which situations it appears that formal authorization for such takings has not been recorded in the Commission's records or minutes; and

WHEREAS, notwithstanding the fact that formal authorization for such acquisitions has not been made a part of the Commission's written records, the taking of such options have the informal approval of the Commission; and

WHEREAS, for the purpose of supplementing such informal records and action, it is the purpose of the Commission at this time to ratify all options so taken.

THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Commission, all members being present and voting affirmatively, as follows:

1. That it hereby is declared that all real properties needed for right of way or other highway purposes in connection with the construction, reconstruction, or other improvement of the following-named highway projects hereby are declared necessary for said projects and options heretofore taken and approved covering any of said real property hereby are approved:

County and Section	Highway
BENTON	
Noon Bridge Map 4B-23-2 Station 206-220	Corvallis-Newport

2. It is further resolved that the informal action of the Commission and authorization for said acquisitions hereby is ratified.

3. That this resolution be entered in the minutes and records of the Commission as of September 24, 1953, and shall be deemed effective as of the date or dates of any options taken with respect to any real properties acquired in connection with any of the projects listed hereinabove.

EXHIBIT "C"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, under the provisions of Section 15, Chapter 405, Oregon Laws 1951, as amended by Section 9, Chapter 691, Oregon Laws 1953, the State Highway Commission, with respect to state highways, is authorized to prohibit the operation thereon of any or all vehicles of any class or kind, and may impose limits as to any gross weight or any dimension of any vehicle or combination of vehicles, and may reduce speeds of vehicles and impose any other restrictions that in the judgment of the State Highway Commission are necessary to protect any highway or section thereof from being unduly damaged; and

WHEREAS, many state highways and sections thereof, including bridges, become impaired and in a weakened condition when subjected to periods of excessive rainfall, periods of flood or periods of freezing and thawing, or when adversely affected by fire, wind, landslides, subsidence, or structural instability, and said highways and sections thereof during such periods or when so adversely affected have been and are damaged due to the movement of motor vehicles at speeds which are lawful; and

WHEREAS, during the course of constructing, maintaining, improving or repairing state highways, or sections thereof, including bridges, the surface thereof is placed in such condition as to be subject to damage by vehicles moving at a speed which is lawful, and such highways and sections thereof during such work have been and are damaged due to the movement of motor vehicles moving at a speed which is lawful; and

WHEREAS, said state highways and sections thereof subject to such condition can only be preserved and protected by the immediate reduction of speed limits to a rate of speed which will not cause damage to said highways or sections thereof; and

WHEREAS, among the other powers and duties of the State Highway Engineer, he is required under the provision of Section 100-126, O. C. L. A., to collect and compile information and statistics relative to the mileage, character and condition of highways and bridges in the different counties in the state, both with respect to state and county highways;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by this Commission, all its members being present and voting affirmatively as follows:

1. It is the judgment and opinion of this Commission that those things hereinafter set forth and ordered in this resolution are necessary to protect state highways and sections thereof, including bridges, from

being unduly damaged.

2. It is hereby directed that whenever information and statistics collected and compiled by the State Highway Engineer relative to the character and condition of state highways reveal that any state highway or section thereof, including bridges, is undergoing construction, maintenance, improvement or repair, or is being subjected to a period of excessive rainfall, flood, or freezing and thawing, or has been or is being adversely affected by fire, wind, landslides, subsidence, or structural instability, and by reason thereof is in a weakened condition and is being damaged by the movement thereon of any motor vehicles or combination of motor vehicles, the State Highway Engineer or either Assistant State Highway Engineer shall determine from such information and statistics the maximum speed at which any vehicle or combination of vehicles can move upon such state highway or section thereof without unduly damaging the same.

3. It is further directed that upon determination of the maximum speed at which any vehicle or combination of vehicles can move upon such state highway or section thereof without unduly damaging the same, the State Highway Engineer, or either Assistant State Highway Engineer, or any Division Engineer upon the approval of the State Highway Engineer or either Assistant State Highway Engineer, shall cause to be posted conspicuous signs at each end of the highway or section of the highway affected and at such other places as may be necessary to inform the public, giving notice that all vehicles or combination of vehicles are prohibited from moving upon said highway or section thereof at a speed in excess of said reduced speed limit.

4. It is hereby directed and ordered that from and during the time such signs are posted as set forth hereinabove, the movement upon any highway or section thereof so posted of any vehicle or combination of vehicles at a speed in excess of the speed limit specified on such signs is prohibited and no person shall operate any vehicle or combination of vehicles at a speed in excess thereof upon such highway or section thereof.

5. Whenever the information and statistics collected and compiled by the State Highway Engineer reveal that any highway or section thereof which has been posted as set forth hereinabove is in such condition that said highway or section thereof will not be unduly damaged by the unrestricted movement of vehicles or combination of vehicles at lawful speeds, the signs giving notice of reduced speed limits shall be immediately removed.

6. A complete report of all action taken pursuant to this resolution shall be submitted to the State Highway Commission by the State Highway Engineer or either Assistant State Highway Engineer at the meeting of the Commission next following such action.

7. Nothing herein shall be deemed to modify any action or actions

of the Commission heretofore or hereafter taken based upon peculiar facts or circumstances applying to any particular section or sections of any state highway.

8. The Commission hereby reserves the right to change or modify the action hereby taken, but any change or modification shall be evidenced by resolution or order entered in the minutes and records of this Commission.

9. That this resolution and order be entered in the minutes of the Commission as of the 24th day of September, 1953, and that the original of this resolution be filed in the records of the Secretary of the Highway Commission, and that a duly certified copy thereof be filed with the Secretary of State and the Superintendent of State Police.

EXHIBIT "D-1"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the second six month period of 1951 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Mosier	$651.25
Richland	561.86
Weston	1,734.10

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 24th day of September, 1953.

EXHIBIT "D-2"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the first six month period of 1952 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Weston.....$2,131.63

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 24th day of September, 1953.

EXHIBIT "D-3"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the second six month period of 1952 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Weston.....$1,837.87

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. ficer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 24th day of September , 1953.

EXHIBIT "E"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 3424, with Roy L. Houck & Son for grading, paving and structure on the Canyonville Section of the Pacific Highway in Douglas County, completed March 10, 1953.

"Contract No. 3488, with Bechtel Bros. for constructing maintenance building at Flora in Wallowa County, completed August 15, 1953.

"Contract No. 3529, with Bechtel Bros. for constructing dwelling house at Flora Junction in Wallowa County, completed August 15, 1953.

"Contract No. 3582, with K. F. Jacobson & Co., Inc. for grading, paving and structure on the Fairview-Sundial Section of the T. H. Banfield Expressway in Multnomah County, completed July 31, 1953.

"Contract No. 3600, with C. R. O'Neil for grading and paving on the Jones Ranch-Mitchell Section of the Ochoco Highway in Wheeler County, completed August 5, 1953.

"Contract No. 3603, with the Gibbons & Reed Co. for grading and paving on the Warren Creek-Viento Section of the Columbia River Highway in Hood River County, completed August 28, 1953.

"Contract No. 3616, with Durbin Bros. for grading and oil mat surfacing on the Austin Squaw Creek Unit, Austin-Unity Junction Section and Austin Spur on the John Day Highway in Grant County, completed July 8, 1953.

"Contract No. 3620, with Porter W. Yett for paving on the Quartz Creek Unit, Necanicum Junction-North Plains Section of the Sunset Highway in Washington, Clatsop, Tillamook and Columbia Counties, completed June 19, 1953.

"Contract No. 3666, with McNutt Bros. for grading and paving on the Chenoweth Park-Oakland Junction Unit, Chenoweth Park-Deady Section, in Douglas County, completed August 17, 1953.

"Contract No. 3669, with Gunderson Bros. Engineering Corp. for placing steel on the Hood River Bridge on the Columbia River Highway in

EXHIBIT "E" (cont)

Hood River County, completed July 6, 1953.

"Contract No. 3702, with Bechtel Bros. for constructing Emigrant Springs Park Camping Area in Umatilla County, completed August 15, 1953.

"Contract No. 3715, with Lindstrom Bros., Inc. for construction of Fields Bridge over Tualatin River in Clackamas County, completed August 18, 1953.

"Contract No. 3718, with Warren Northwest Inc. for paving on the Hood River-Mosier Section of the Columbia River Highway in Hood River and Wasco Counties, completed August 17, 1953.

"Contract No. 3725, with Edwin C. Gerber for grading and oil mat surfacing on the Bakeoven Grade Section of the Shaniko Road in Wasco County, completed June 30, 1953.

"Contract No. 3737, with H. J. & H. W. Miller for grading and paving on the Enterprise (River Street) City Street Section in Wallowa County, completed December 8, 1952.

"Contract No. 3752, with Fred H. Slate Co., Oreg. Ltd. for grading and oil mat surfacing on the Middle Unit, Reedsport-Dean Creek Section of the Umpqua Highway in Douglas County, completed August 10, 1953.

"Contract No. 3760, with Kenneth C. Dack for grading and oil mat surfacing on the Pocahontas-Baker Section of the Baker-Pine Creek-Wingville Roads in Baker County, completed August 8, 1953.

"Contract No. 3788, with B. M. Emery Co. for grading and bituminous macadam surfacing on the Whiskey Creek Section of the Mt. Hood Highway in Hood River County, completed August 10, 1953.

"Contract No. 3790, with Central Paving Co. for bridges, grading and paving on the Fern Corner-Burns Corner Section of the Kings Valley Highway in Polk County, completed August 6, 1953.

"Contract No. 3794, with John R. Saxton for grading and oil mat surfacing on the Beaver Ammunition Storage Point Access Road in Columbia County, completed August 19, 1953.

"Contract No. 3800, with Teller Construction Co. for constructing Spencer Creek Park facilities in Lincoln County, completed August 28, 1953.

"Contract No. 3828, with Western Golf Course Supply Co. for installing irrigation system and seeding on the Tillamook Street-Steel Bridge Unit, Harbor Drive Section, Pacific Highway West in Multnomah County, completed August 2, 1953.

"Contract No. 3833, with C. E. Leseberg for furnishing crushed material in stockpiles on the Jordan Valley Section of the I. O. N. and Jordan Valley Highways in Malheur County, completed August 18, 1953.

"Contract No. 3837, with Frank P. Sargent for constructing culverts on the Lena-Nye Section of the Heppner Highway in Umatilla County, completed June 30, 1953.

"Contract No. 3860, with Rogers Construction, Inc., for furnishing crushed rock in stockpile on the Mt. Hood Section of the Mt. Hood and Wapinitia Highways in Clackamas, Hood River and Wasco Counties, completed August 31, 1953.

"Contract No. 3891, with Babler Bros., Inc. for reoiling in Division No. 4 on seven State Highways, completed July 31, 1953.

"Contract No. 3897, with Babler Bros., Inc. for reoiling on the Juntura-Vale Reoiling Project in Malheur County, completed August 18, 1953.

"Contract No. 3910, with J. C. Compton Co. for pavement widening on the Mackin Gulch-Jumpoff Joe Creek Section of the Pacific Highway in Josephine County, completed August 26, 1953.

"Contract No. 3912, with Baker Paving Co. for reoiling and shoulder oiling in Division No. 3 on four State Highways, completed September 8, 1953.

"Contract No. 3913, with Steinmuller & Lee for constructing Armitage State Park Latrine, in Lane County, completed August 12, 1953.

"Contract No. 3928, with M. C. Lininger & Sons for furnishing crushed material in stockpiles on the Tiller-Dead Horse Creek Section of the Tiller-Trail Highway in Douglas and Jackson Counties, completed September 8, 1953.

"Contract No. 3930, with J. C. Compton Co. for grading and paving on the Sutherlin Section of the Elkton-Sutherlin Highway in Douglas County, completed August 15, 1953.

"Contract No. 3937 with W. G. Wright for grading and paving on the Sheridan (Monroe Street) City Street Section in Yamhill County, completed August 18, 1953.

"Contract No. 3944, with The Central Heating Co., Oreg. Ltd. & F. L. Somers for grading and paving on the Gold Hill (4th Ave. North and 7th St. West) City Street Section in Jackson County, completed August 3, 1953.

EXHIBIT "E" (cont)

"Contract No. 3946, with Warren Northwest, Inc. for grading and paving on the Troutdale Section of the Crown Point Highway in Multnomah County, completed August 15, 1953.

"Contract No. 3949, with Peter Kiewit Sons' Co. for oil mat surfacing on the Maddock Corner-West Side Section of the Cottonwood Creek and West Side County Roads in Lake County, completed August 31, 1953.

"Contract No. 3950, with Babler and Rogers for grading and paving on the Damascus-Boring Section of the Clackamas-Boring County Road in Clackamas County, completed August 6, 1953.

"Contract No. 3955, with Parker-Schram Co. for grading and paving on the Gilbert River-Sauvie Island Road and Reeder Road-Willamette River Sections of Multnomah County Roads, completed August 31, 1953.

"Contract No 3961, with Porter W. Yett for paving on the Myrtle Point (Ash. 2nd and 3rd Streets) City Street Section in Coos County, completed September 10, 1953.

"Contract No. 3989, with J. N. Conley for grading and oil mat surfacing on the Friend-Dufur Section of the Friend County Road in Wasco County, completed September 11, 1953.

"Contract No. 3990, with Russell Olson Construction Co. for oil mat surfacing on the Mikkalo-Olex Junction and Condon Junction-Lost Valley County Roads Section in Gilliam County, completed July 21, 1953.

"Contract No. 3991, with Warren Northwest Inc. for grading and oil mat surfacing on the Hood River County Roads Section, completed August 15, 1953."

THEREFORE BE IT RESOLVED that the work covered by State highway contracts for the construction of said State highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

EXHIBIT "F-1"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Nyssa-Adrian Highway, State Secondary Highway No. 450, known as the Nyssa-Adrian Section in Malheur County, the northerly terminus of which is at Highway Engineer's Station 24+11. 7 on the relocated highway and the southerly terminus of which is at Highway Engineer's Station 661+21. 44 on the relocated highway; and

WHEREAS, as a consequence of the relocation of said section of highway, portions or units of the old right of way have been eliminated from the boundaries of the relocated highway and are no longer needed for state highway purposes; and

WHEREAS, Malheur County and the Highway Commission entered into an agreement under date of August 21, 1951, relating to the disposition to be made of the eliminated portions or units; and

WHEREAS, the said agreement provides that after the said relocated section was completed and opened to public travel, the eliminated portions or units, therein and herein referred to as Units "A", "B" and "C", would be abandoned as part of the said highway and would be maintained thereafter by Malheur County as county roads under the jurisdiction and control of said county; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portions or units of the right of way of said highway affected by reason of said relocation.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the section of the Nyssa-Adrian Highway, State Secondary Highway No. 450, located in Malheur County and known as the Nyssa-Adrian Section, the northerly terminus of which is at Highway Engineer's Station 24+11 .7 on the relocated highway and the southerly terminus of which is at Highway Engineer's Station 661+21. 44 on the relocated highway, is completed and now open to public travel.

2 That the portions or units of the old right of way which by reason of the relocation of the said highway are no longer within the boundaries of the new right of way and which are identified herein as Units "A", "B" and "C" are shown colored in red on the map attached hereto, marked EXHIBIT "A" and by this reference made a part hereof. Units "A", "B" and "C" are more particularly described as follows:

EXHIBIT "F-1" (cont)

Unit "A"

Beginning at State Highway Engineer's Station 92+00 of the Nyssa-Adrian Secondary Highway in the southwest quarter of the northwest quarter (SW¼ NW¼) of Section 31, Township 19 South, Range 47 East, W. M.; thence via the former route of the Nyssa-Adrian Secondary Highway to State Highway Engineer's Station 98+70 of the relocated Nyssa-Adrian Secondary Highway in the Northwest quarter of the southwest quarter (NW¼ SW¼) of Section 31, Township 19 South, Range 47 East, W. M.

Unit "B"

Beginning at State Highway Engineer's Station 186+40 of the relocated Nyssa-Adrian Secondary Highway in the southwest quarter of the southwest quarter (SW¼ SW¼) of Section 6, Township 20 South, Range 47 East, W. M.; thence via the former route of the Nyssa-Adrian Secondary Highway to State Highway Engineer's Station 194+10 of the relocated Nyssa-Adrian Secondary Highway in the northeast quarter of the northeast quarter (NE¼ NE¼) of Section 12, Township 20 South, Range 46 East, W. M.

Unit "C"

Beginning at State Highway Engineer's Station 336+75 of the relocated Nyssa-Adrian Secondary Highway in the southwest quarter of the southwest quarter (SW¼ SW¼) of Section 13, Township 20 South, Range 46 East, W. M.; thence via the former route of the Nyssa-Adrian Secondary Highway to State Highway Engineer's Station 344+15 of the relocated Nyssa-Adrian Secondary Highway in the northeast quarter of the northeast quarter (NE¼ NE¼) of Section 23, Township 20 South, Range 46 East, W. M. *

3. That, pursuant to the aforesaid agreement, Units "A", "B" and "C" are hereby duly abandoned as part of the Nyssa-Adrian Highway, State Secondary Highway No. 450, to Malheur County, and that all right, title and interest which the State has in the right of way of Units "A", "B" and "C" hereby pass to and vest in the said County.

4. That the area shown colored in green on the said Exhibit "A" includes right of way acquired for the said relocated section of highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with the area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for right of way and other highway purposes and uses. Therefore, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by the State. *

5. That the boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the

ground by the State Highway Engineer or his authorized representative, and such boundary monuments shall thereafter be maintained in place.

6. That this resolution shall be entered in the minutes and records of the Commission on this 24th day of September, 1953, and the Secretary is directed to mail a duly certified copy thereof to the County Court of Malheur County.

FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 241, under the heading, "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "F-2"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Oregon Coast Highway in Curry County known as the Port Orford-Rocky Point Section, the northerly terminus of which is at Highway Engineer's Station 15+19 on the relocated highway and the southerly terminus of which is at Highway Engineer's Station 140+73 on the relocated highway; and

WHEREAS, as a consequence of the relocation of said section of highway, portions or units of the old right of way have been eliminated from the boundaries of the relocated highway and are no longer needed for state highway purposes; and

WHEREAS, Curry County and the Highway Commission entered into an agreement under date of June 28, 1949, relating to the disposition to be made of the eliminated portions or units; and

WHEREAS, the said agreement provided that after the said relocated section was completed and opened to public travel, two of the eliminated portions or units, therein and herein referred to as Units "A" and "B" would be abandoned as part of the said highway, and would be maintained thereafter by Curry County as county roads under the jurisdiction and control of the said County; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portions or units of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the section of the Oregon Coast Highway, State Primary Highway No. 9, located in Curry County and known as the Port Orford-Rocky Point Section, the northerly terminus of which is at Highway Engineer's Station 15+19 on the relocated highway and the southerly terminus of which is at Highway Engineer's Station 140+73 on the relocated highway has been completed and is now open to public travel.

2. That the portions or units of the old right of way which by reason of the relocation of the said section are no longer within the boundaries of the new right of way and which are identified as Units "A" and "B" are shown colored in red on the map attached hereto, marked Exhibit "A" and by this reference made a part hereof. The location of Units "A" and "B" are more particularly described as follows:

EXHIBIT "F-2" (cont)

Unit "A"

Beginning at State Highway Engineer's Station 22+10 of the relocated Oregon Coast Highway in Lot 1 of Section 4, Township 33 South, Range 15 West, W. M.; thence southeast via the former route of the Oregon Coast Highway to State Highway Engineer's Station 68+15 of the relocated Oregon Coast Highway in Lot 2 of Section 9, Township 33 South, Range 15 West, W. M.

Unit "B"

Beginning at State Highway Engineer's Station 81+15 on the relocated Oregon Coast Highway in the northwest quarter (NW$\frac{1}{4}$) of the northwest quarter (NW$\frac{1}{4}$) of Section 10, Township 33 South, Range 15 West, W. M.; thence southeast via the former route of the Oregon Coast Highway to State Highway Engineer's Station 125+25 of the relocated Oregon Coast Highway in Lot 1 of Section 15, Township 33 South, Range 15 West, W. M.*

3. That Units "A" and "B" shall be and hereby are abandoned as part of the Oregon Coast Highway, and that all right, title and interest which the State has in the right of way of Units "A" and "B" hereby pass to and vest in Curry County and shall be maintained as a county road under the jurisdiction and control of said county.

4. That the portion or unit of the old right of way which by reason of the relocation of said section of highway is no longer within the boundaries of the new right of way and which is identified herein as Unit "C" is shown colored in brown on the said Exhibit "A". The location of Unit "C" is more particularly described as follows:

Unit "C"

Beginning at State Highway Engineer's Station 127+25 of the relocated Oregon Coast Highway in Lot 1 of Section 15, Township 33 South, Range 15 West, W. M.; thence southerly via the former route of the Oregon Coast Highway to State Highway Engineer's Station 130+85 of the relocated Oregon Coast Highway in Lot 1 of Section 15, Township 33 South, Range 15 West, W. M.*

5. That said Unit "C" is no longer needed by the State for right of way purposes or other public uses, but is needed and valuable for public use by Curry County, and all right, title and interest which the State has in said Unit "C" is hereby relinquished to and shall pass to and vest in Curry County. Curry County shall retain Unit "C" so long as it is needed or valuable for public use.

6. That the area shown colored in green on the said Exhibit "A" includes right of way acquired for the said relocated section of highway and includes also some parts or areas of the old right of way not now

EXHIBIT "F-2" (cont)

incorporated within the boundaries of the right of way proper. In connection with the area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for right of way and other highway purposes and uses. Therefore, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by the State.*

7. That the boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the State Highway Engineer, or his authorized representative, and such boundary monuments shall thereafter be maintained in place.

8. That this resolution shall be entered in the minutes and records of the Commission on this 24th day of September, 1953, and the Secretary is directed to mail a duly certified copy thereof to the County Court of Curry County.

FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 206, under the heading, "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Elkton-Sutherlin Highway, State Secondary Highway No. 231, known as Calapooya Creek-Sutherlin Section in Douglas County, the westerly terminus of which is at Highway Engineer's Station 1078+00 on the relocated highway and the easterly terminus of which is at Highway Engineer's Station 1285+00 on the relocated highway; and

WHEREAS, as a consequence of the relocation of said section of highway, portions or units of the old right of way have been eliminated from the boundaries of the relocated highway and are no longer needed for state highway purposes; and

WHEREAS, Douglas County and the Highway Commission entered into an agreement under date of May 19, 1952, relating to the disposition to be made of the eliminated portions or units; and

WHEREAS, the said agreement provided that after the said relocated section was completed and opened to public travel, the eliminated portions or units, therein and herein referred to as Units "A" and "B", would be abandoned as part of the said highway and would be maintained thereafter by Douglas County as county roads under the jurisdiction and control of said county; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portions or units of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the section of the Elkton-Sutherlin Highway, State Secondary Highway No. 231, located in Douglas County and known as the Calapooya Creek-Sutherlin Section, the westerly terminus of which is at Highway Engineer's Station 1078+00 on the relocated highway and the easterly terminus of which is at Highway Engineer's Station 1285+00 on the relocated highway, is completed and now open to public travel.

2. That the portions or units of the old right of way which by reason of the relocation of the said highway are no longer within the boundaries of the new right of way and which are identified herein as Units "A" and "B" are shown colored in red on the map attached hereto, marked Exhibit "A" and by this reference made a part hereof. The

EXHIBIT "F-3" (cont)

location of Units "A" and "B" are more particularly described as follows:

Unit "A"

Beginning at State Highway Engineer's Station 1124+30 of the relocated Elkton-Sutherlin Highway in the Southwest quarter of the Southwest Quarter ($SW\frac{1}{4}$ $SW\frac{1}{4}$) of Section 11, Township 25 South, Range 6 West, W. M.; thence easterly and southerly via the former route of the Elkton-Sutherlin Highway to State Highway Engineer's Station 1197+50 of the relocated Elkton-Sutherlin Highway in the northeast quarter of the southwest quarter ($NE\frac{1}{4}$ $SW\frac{1}{4}$) of Section 13, Township 25 South, Range 6 West, W. M.

Unit "B"

Beginning at State Highway Engineer's Station 1197+40 of the relocated Elkton-Sutherlin Highway in the Northeast quarter of the Southwest quarter ($NE\frac{1}{4}$ $SW\frac{1}{4}$) of Section 13, Township 25 South, Range 6 West, W. M.; thence southerly and easterly via the former route of the Elkton-Sutherlin Highway to State Highway Engineer's Station 1253+00 of the relocated Elkton-Sutherlin Highway in the Northwest quarter of the Northwest quarter ($NW\frac{1}{4}$ $NW\frac{1}{4}$) of Section 19, Township 25 South, Range 5 West, W. M. *

3. That, pursuant to the aforesaid agreement, Units "A" and "B" hereby are duly abandoned as part of the Elkton-Sutherlin Highway, State Secondary Highway No. 231, to Douglas County, and that all right, title and interest which the State has in the right of way of Units "A" and "B" hereby pass to and vest in the said County.

4. That the area shown colored in green on the said Exhibit "A" includes right of way acquired for the said relocated section of highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with the area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for right of way and other highway purposes and uses. Therefore, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by the State. *

5. That the boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the State Highway Engineer or his authorized representative, and such boundary monuments shall thereafter be maintained in place.

EXHIBIT "F-3" (cont)

6. That this resolution shall be entered in the minutes and records of the Commission on this 24th day of September, 1953, and the Secretary is directed to mail a duly certified copy thereof to the County Court of Douglas County.

FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 252, under the heading, "Abandonment and Retention Resolutions" and the said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "F-4"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Springfield-Creswell Highway in Lane County known as the Jasper Bridge Section, the northerly terminus of which is at Highway Engineer's Station YN 2+50 on the relocated highway and the southerly terminus of which is at Highway Engineer's Station 12+50 on the relocated Highway; and

WHEREAS, as a consequence of the relocation of said section of highway, portions or units of the old right of way have been eliminated from the boundaries of the relocated highway and are no longer needed for state highway purposes; and

WHEREAS, Lane County and the Highway Commission entered into an agreement under date of December 19, 1950, relating to the disposition to be made of the eliminated portions or units; and

WHEREAS, the said agreement provided that after the said relocated section was completed and opened to public travel, one of the eliminated portions or units, therein and herein referred to as Unit "A", would be abandoned as part of the said highway, and would be maintained thereafter by Lane County as a county road under the jurisdiction and control of the said county; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portions or units of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the section of the Springfield-Creswell Highway, State Secondary Highway No. 222, located in Lane County and known as the Jasper Bridge Section, the northerly terminus of which is at Highway Engineer's Station YN 2+50 on the relocated highway and the southerly terminus of which is at Highway Engineer's Station 12+50 on the relocated highway, is completed and now open to public travel.

2. That the portion or unit of the old right of way which by reason of the relocation of the said section of highway is no longer within the boundaries of the new right of way and which is identified herein as Unit "A" is shown colored in red on the map attached hereto, marked Exhibit "A" and by this reference made a part hereof. The location of Unit "A" is more particularly described as follows:

Unit "A"

Beginning at State Highway Engineer's Station Y 1+97 of the relocated Springfield-Creswell Secondary Highway No. 222 in the southwest quarter of the southwest quarter (SW$\frac{1}{4}$ SW$\frac{1}{4}$) of Section 14, Township 18 South, Range 2 West, W. M.; thence southeasterly via the former route of the Springfield-Creswell Highway No. 222 to the beginning of the county road running from Jasper to Lowell in the southwest quarter of the southwest quarter (SW$\frac{1}{4}$ SW$\frac{1}{4}$) of Section 14, Township 18 South, Range 2 West, W.M.*

3. That, pursuant to the aforesaid agreement, Unit "A" is hereby duly abandoned as part of the Springfield-Creswell Highway to Lane County, and that all right, title and interest which the State had in the right of way of Unit "A" hereby passes to and vests in Lane County and shall be maintained as a county road under the jurisdiction and control of said county.

4. That the portion or unit of the old right of way which by reason of the relocation of said section of highway is no longer within the boundaries of the new right of way and which is identified herein as Unit "B" is shown colored in brown on the said Exhibit "A". The location of Unit "B" is more particularly described as follows:

Unit "B"

Beginning at the beginning point of the county road running between Jasper and Lowell in the southwest quarter of the southwest quarter (SW$\frac{1}{4}$ SW$\frac{1}{4}$) of Section 14, Township 18 South, Range 2 West, W. M.; thence westerly via the former route of the Springfield-Creswell Secondary Highway No. 222 to a point opposite State Highway Engineer's Station 10+00 in the southeast quarter of the southeast quarter (SE$\frac{1}{4}$ SE$\frac{1}{4}$) of Section 15, Township 18 South, Range 2 West, W. M.*

5. That said Unit "B" is no longer needed by the State for right of way purposes or other public uses, but is needed and valuable for public use by Lane County, and all right, title and interest which the State has in said Unit "B" is hereby relinquished to and shall pass to and vest in Lane County. Lane County shall retain Unit "B" so long as it is needed or valuable for public use.

6. That the area shown colored in green on the said Exhibit "A" includes right of way acquired for the said relocated section of highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with the area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for right of way and other highway purposes and uses. Therefore, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by

the State. *

7 That the boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the State Highway Engineer, or his authorized representative, and such boundary monuments shall thereafter be maintained in place.

8. That this resolution shall be entered in the minutes and records of the Commission of this 24th day of September, 1953, and the Secretary is directed to mail a duly certified copy thereof to the County Court of Lane County.

FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 222, under the heading, "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Pacific Highway in Douglas County known as the Lane County Line-Anlauf Section, the northerly terminus of which is at Highway Engineer's Station 0+00 on the relocated highway and the southerly terminus of which is at Highway Engineer's Station AN32+60 on the relocated highway; and

WHEREAS, as a consequence of the relocation of said section of highway, portions or units of the old right of way have been eliminated from the boundaries of the relocated highway and are no longer needed for the right of way of the said Pacific Highway; and

WHEREAS, Douglas County and the Highway Commission entered into an agreement under date of August 16, 1953, relating to the disposition to be made of the eliminated portions or units; and

WHEREAS, the said agreement provided that after the said relocated section was completed and opened to public travel, one of the eliminated portions or units, therein and herein referred to as Unit "A", would be abandoned as part of the said highway, and would be maintained thereafter by Douglas County as a county road under the jurisdiction and control of the said county; and

WHEREAS, the said agreement provided that after the said relocated section was completed and opened to public travel, one of the eliminated portions or units, therein and herein referred to as Unit "B" would remain under the jurisdiction and control of the State and would be maintained by the State as a Secondary Highway; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portions or units of the right of way of said highway affected by reason of said relocation.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the section of the Pacific Highway, State Primary Highway No. 1, located in Douglas County and known as the Lane County Line-Anlauf Section, the northerly terminus of which is at Highway Engineer's Station 0+00 on the relocated highway and the southerly terminus of which is at Highway Engineer's Station AN32+60 on the relocated highway, has been completed and is now open to public travel.

EXHIBIT "G" (cont)

2. That the portion or unit of the old right of way which by reason of the relocation of the said section of highway is no longer within the boundaries of the new right of way and which is identified as Unit "A" is shown colored in red on the map attached hereto, which is marked Exhibit "A" and by this reference made a part hereof. The location of Unit "A" is more particularly described as follows:

Unit "A"

Beginning at a point on the northerly railroad right of way line opposite State Highway Engineer's Station 179+00 of the relocated Pacific Highway in the northwest quarter of the northeast ($NW\frac{1}{4}$ $NE\frac{1}{4}$) of Section 20, Township 21, Range 4 West, W.M.; thence southwesterly via the former route of the Pacific Highway to State Highway Engineer's Station 290+50 of the former route of the Pacific Highway in the southeast quarter of the northwest quarter ($SE\frac{1}{4}$ $NW\frac{1}{4}$) of Section 30, Township 21 South, Range 4 West, W.M.*

3. That, pursuant to the aforesaid agreement, Unit "A" is hereby duly abandoned as part of the Pacific Highway, and all right, title and interest which the State had in the right of way of Unit "A" hereby passes to and vests in Douglas County.

4. That the portion or unit of the old right of way which by reason of the relocation of said section of highway is no longer within the boundaries of the new right of way and which is identified herein as Unit "B" is shown colored in yellow on the said Exhibit "A". The location of Unit "B" is more particularly described as follows:

Unit "B"

Beginning at State Highway Engineer's Station 290+50 on the former route of the Pacific Highway in the southeast quarter of the northwest quarter ($SE\frac{1}{4}$ $NW\frac{1}{4}$) of Section 30, Township 21 South, Range 4 West, W.M.; thence southwesterly via the former route of the Pacific Highway to State Highway Engineer's Station AN 27+60 of the relocated route of the Pacific Highway in the northwest quarter of the southwest quarter ($NW\frac{1}{4}$ $SW\frac{1}{4}$) of Section 30, Township 21 South, Range 4 West W.M.*

5. That the said Unit "B" shall remain under the jurisdiction and control of the State, and is hereby reclassified as a State Secondary Highway, and shall henceforth be maintained as an extension or part of the Territorial Secondary Highway, State Highway No. 200.

6. That the area shown colored in green on the said Exhibit "A" includes right of way acquired for the said relocated section of highway and

includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with the area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for right of way and other highway purposes and uses. Therefore, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by the State. *

7. That the boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the State Highway Engineer, or his authorized representative, and such boundary monuments shall thereafter be maintained in place.

8. That this resolution shall be entered in the minutes and records of the Commission of this 24th day of September, 1953, and the Secretary is directed to mail a duly certified copy thereof to the County Court of Douglas County.

FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 280 , under the heading, "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "H-1"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 187, Oregon Laws, 1953, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purposes of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Oregon Coast Highway (Frontage Road only)

Highway number 9 Route number US 101

Location of Termini		Established speed	
M. P. 27.86 (north connection to US 101 at Cannon Beach)	to M. P. 29.00 (100 ft. south of Adams Street)	20	M. P. H.
M. P. 29.00 (100 ft. south of Adams Street)	to M. P. 32.50 (south connection to US 101 at Cannon Beach)	35	M. P. H.

EXHIBIT "H-1" (cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that the reduced speed zone resolution No. 5 dated 6-27-46 designating reduced speeds between mile point 24.00 and mile point 36.00, and reduced speed zone resolution No. 57, dated 1-23-51 designating reduced speeds between mile point 27.86 and mile point 36.00 hereby are vacated and annulled to the effect that the new section of highway between the milepoints mentioned shall be free of speed restrictions as imposed by previous Commission order.

BE IT FURTHER ORDERED that this resolution be entered in the minutes and records of the Commission as of the 24th day of September, 1953.

EXHIBIT "H-2"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 187, Oregon Laws, 1953, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purposes of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this resolution be entered in the minutes and records of the Commission as of the 24th day of September, 1953.

EXHIBIT "I"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, the Oregon Coast Highway is one of the major highways of the State and is under the jurisdiction and control of the State Highway Commission, being identified in the Commission's records as State Highway No. 9; and

WHEREAS, it appears that on said highway in the village of Cutler City, Lincoln County, there is located on property adjacent to the said highway a building housing three business establishments and a postoffice, said building being only 20 feet removed from the edge of the pavement, and that vehicles parking in front of said building do so at an angle, thereby making it impossible for a vehicle to leave the parking space without backing across both lanes of highway traffic; and

WHEREAS, because said highway throughout its entire length carries a large volume of traffic, and the angle parking of vehicles in front of said building creates a hazard not only to through traffic on the highway but to the owners and occupants of said parked vehicles; and

WHEREAS, in the opinion of this Commission, public safety requires that angle parking of vehicles be prohibited and parallel parking substituted therefor.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports and recommendations made by and under the supervision of the State Highway Engineer, that angle parking of vehicles on the west side of the Oregon Coast Highway in the village of Cutler City between Engineer's Station 1117+05 and Engineer's Station 1120+55 creates a hazard not only to through traffic but to vehicles parked in this area.

2. That in the opinion of this Commission the right of way of said highway at said location is not of sufficient width to permit the parking of vehicles at an angle to the highway pavement and at the same time provide the degree of safety and convenience which in the opinion of this Commission should be provided the traveling public.

3. That this Commission does further find and declare that the parking of vehicles at an angle and on the west side of the highway pavement between Engineer's Stations 1117+05 and 1120+55 should be and hereby is prohibited, and parallel parking substituted therefor.

4. That the State Highway Engineer be and he hereby is instructed to erect "PARALLEL PARKING ONLY" signs at said termini and at such points between said termini as in the judgment of said Engineer are necessary to accomplish the purposes

of this resolution and the action of the Highway Commission as herein declared.

5. That a certified copy of this resolution be mailed to the Superintendent of the Department of State Police for his information and guidance.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 24th day of September, 1953.

EXHIBIT "J-1"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, the Oregon Coast Highway is one of the major state primary highways and is likewise a Federal highway, which highway throughout its entire length carries a large volume of traffic; and

WHEREAS, investigation has revealed that a hazardous condition is created at five separate points on the four-lane section of the Oregon Coast Highway between Coquille and Coos Bay by reason of the parking of vehicles on the shoulders and in the median area of said highway; and

WHEREAS, such parking of vehicles on the highway right of way tends to restrict and impair the use of the traveled portion of the highway to the extent that, in the opinion of the Highway Commission, a hazard is created not only to through traffic but to the owners and drivers of said parked vehicles; and

WHEREAS, in the opinion of this Commission, public travel and public safety require that the parking of vehicles should be prohibited on the shoulders and median areas of said section of highway.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports, and recommendations by members of its staff, that the parking of vehicles along the highway shoulders and in median area of the Oregon Coast Highway between Coquille and Coos Bay creates a hazard not only to through traffic but to persons owning and using said parked vehicles and therefore said parking should be prohibited at all times as hereinafter set forth:

a. On the east shoulder and in the median area between M. P. 258.18 (Engineer's Station 111+70) and M. P. 258.38 (Engineer's Station 121+70), in the vicinity of the lumber docks at M. P. 258.28.

b. On all highway shoulders between M. P. 259.89 (Engineer's Station 201+99), in the vicinity of the Porter Yett batch plant, and M. P. 260.41 (Engineer's Station 228+88), in the vicinity of the Harbor Lumber Company.

c. On all highway shoulders and in the median area between M. P. 260.84 (Engineer's Station 250+00)and M. P. 261.31 (Engineer's Station 275+00), in the vicinity of the Pierce Lumber Company.

EXHIBIT "J-1" (cont)

d. On all highway shoulders and in the median area between M. P. 261.48 (Engineer's Station 286+00) and M. P. 261.68 (Engineer's Station 296+00) in the vicinity of the Powrie Lumber dock.

2. That in the opinion of this Commission the right of way of said highway at said locations is not of sufficient width to permit parking of vehicles and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on the right of way of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall be printed in plain letters the words "NO PARKING AT ANY TIME" and "NO PARKING ON HIGHWAY SHOULDERS" for placement on the median strip and highway shoulders, respectively.

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 24th day of September, 1953.

42

EXHIBIT "J-2"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, the Pacific Highway West is one of the major state primary highways and is likewise a Federal Aid Highway, which highway throughout its entire length carries a large volume of traffic; and

WHEREAS, considerable traffic congestion exists on that portion of the Pacific Highway West immediately south of Corvallis; and

WHEREAS, the width of this highway between M. P. 86.36 and M. P. 87.07 is sufficient for four lanes of traffic, provided parking of vehicles is prohibited between curbs; and

WHEREAS, in the opinion of this Commission, public travel and public safety require that the parking of vehicles between curbs on said highway should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports, and recommendations by members of its staff, that the parking of vehicles along the Pacific Highway West between M. P. 86.36 and M. P. 87.07 immediately south of the city of Corvallis creates a hazard not only to through traffic but to persons owning and using said parked vehicles.

2. That in the opinion of this Commission the right of way of said highway at said location is not of sufficient width to permit parking of vehicles and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on either side of the right of way of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall be printed in plain letters the words "NO PARKING AT ANY TIME."

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 24th day of September, 1953.

EXHIBIT "J-3"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, the Pacific Highway is one of the major state primary highways and is likewisea Federal Aid highway, which highway throughout its entire length carries a large volume of traffic; and

WHEREAS, it appears that in the vicinity of Savage Rapids Dam near the Josephine-Jackson County line, vehicles are parked for extended periods of time on the shoulders of said highway; and

WHEREAS, the parking of said vehicles on the shoulders of said highway tends to restrict and impair the use of the traveled portion of the highway to such an extent that, in the opinion of the Highway Commission a hazard is created not only to through traffic but to the owners and drivers of said parked vehicles; and

WHEREAS, in the opinion of this Commission, public travel and public safety require that the use of the shoulders of said highway within said area for the parking of vehicles should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports, and recommendations by members of its staff, that the parking of vehicles on either side of the Pacific Highway between M. P. 284.62 (Engineer's Station 307+70) and M. P. 284.82 (Engineer's Station 317+60) in the vicinity of Savage Rapids Dam creates a hazard not only to through traffic but to persons owning and using said parked vehicles.

2. That in the opinion of this Commission the right of way of said highway at said location is not of sufficient width to permit parking of vehicles and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on either side of the right of way of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall be printed in plain letters the words "NO PARKING ON HIGHWAY SHOULDERS".

EXHIBIT "J-3" (cont)

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 24th day of September, 1953.

EXHIBIT "J-4"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, the Oregon Coast Highway is one of the major state primary highways and is likewise a Federal Aid highway, which highway throughout its entire length carries a large volume of traffic; and

WHEREAS, it appears that the parking of vehicles on the shoulders of said highway in the vicinity of the Neahkahnie High School, north of Manhattan Beach in Tillamook County, produces a traffic hazard, and

WHEREAS, the parking of said vehicles on the shoulders of said highway tends to restrict and impair the use of the traveled portion of the highway to such an extent that, in the opinion of the Highway Commission, a hazard is created not only to through traffic but to the owners and drivers of said parked vehicles and to the students attending said school; and

WHEREAS, in the opinion of this Commission, public travel and public safety require that the use of the shoulders of said highway within said area for the parking of vehicles should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports, and recommendations by members of its staff, that the parking of vehicles along either side of the Oregon Coast Highway between M. P. 58.85 (Engineer's Station 886+50) and M. P. 59.18 (Engineer's Station 869+00), creates a hazard not only to through traffic but to persons owning and using said parked vehicles.

2. That in the opinion of this Commission the right of way of said highway at said location is not of sufficient width to permit parking of vehicles and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles for long periods of time on the right of way of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs should be printed in plain letters the words "NO PARKING ON HIGHWAY SHOULDERS".

EXHIBIT "J-4" (cont)

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 24th day of September, 1953.

EXHIBIT "J-5"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, the Wilson River Highway is one of the major state primary highways and is likewise a Federal Aid highway, which highway throughout its entire length carries a large volume of traffic; and

WHEREAS, it appears that at the intersection of Pacific Avenue (ORE 6) and County Road No. 335 just west of Forest Grove, certain minor traffic control improvements have been made and to protect the traveling public and to provide for two lanes of traffic, parking should be prohibited along the north side of said Pacific Avenue for a distance of 300 feet at said intersection; and

WHEREAS, the parking of said vehicles on the shoulders of said highway tends to restrict and impair the use of the traveled portion of the highway to such an extent that, in the opinion of the Highway Commission, a hazard is created not only to through traffic but to the owners and drivers of said parked vehicles; and

WHEREAS, in the opinion of this Commission, public travel and public safety require that the use of the shoulder on the north side of said highway within said area for the parking of vehicles should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports, and recommendations by members of its staff, that the parking of vehicles along the north side of Pacific Avenue (present route of the Wilson River Highway,(ORE6) for a distance of 300 feet between Engineer Stations 32+00 and 35+00 creates a hazard not only to through traffic but to persons owning and using said parked vehicles.

2. That in the opinion of this Commission the right of way of said highway at said location is not of sufficient width to permit parking of vehicles and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on the north side of the right of way of said highway within said termini should be prohibited in order to provide for two moving lanes of traffic.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and

EXHIBIT "J-5" (cont)

the action of the Commission as herein declared, on which signs shall be printed in plain letters the words "NO PARKING AT ANY TIME".

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 24th day of September, 1953.

EXHIBIT "K"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Vale-Cairo Junction Section of the Central Oregon Highway in Malheur County and of the Airport Road Junction-Stout Creek Section of the North Santiam Secondary Highway in Marion County, and of the Monroe Section of the Pacific Highway West in Benton County, and in connection therewith to prepare maps showing the route and location of each of said highway sections and to file said reports and records with the Commission for consideration; and,

WHEREAS, the Engineer has reported that he has completed the said surveys and has submitted the same for approval or disapproval of the Commission; and,

WHEREAS, after due consideration of said surveys, field notes and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the survey of the Vale-Cairo Junction Section of the Central Oregon Highway and connections thereto, beginning at Highway Engineer's Station 862+00 in the City of Vale and extending easterly via Washington Street in Vale, a distance of approximately 12½ miles to Highway Engineer's Station 615+91.21 near the town of Cairo, together with the map, which for identification purposes bears Map File No. 7B-20-9, 10, 11, and the date of June, 1953, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building at Salem, Oregon.

2. That the survey of the Airport Road Junction-Stout Creek Section of the North Santiam Secondary Highway, beginning at Highway Engineer's Station 117+00 at the Airport Road junction east of Salem and extending in an easterly direction to Highway Engineer's Station 326+50 at Stout Creek west of Mehama, together with the map, which for identification purposes bears survey approval Map File No. 57 and the date of September, 1953, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building, Salem, Oregon.

3. That the survey of the Monroe Section of the Pacific Highway

EXHIBIT "K" (cont)

West, beginning at Highway Engineer's Station 7+00 in the town of Monroe and extending southerly and easterly to Highway Engineer's Station 8+00, together with the map, which for identification purposes bears Map File No. 7B-24-4 and the date of September, 1953, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building at Salem, Oregon.

That the approval and adoption of said survey of the Monroe Section of the Pacific Highway West shall cancel and rescind in its entirety that certain survey adopted by the Highway Commission at a meeting held on May 18, 1953, included as EXHIBIT "M" in the minutes of said meeting and identified as the Monroe Section of the Pacific Highway West in Benton County.

4. That when said highway sections are permanently constructed the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

5. That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of the highways along and over said surveys. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way purusant to the normal and approved method.

6. That the surveys of said sections of the Central Oregon Highway, from the easterly city limits of the City of Vale to the end of the project at Station 615+91 near Cairo, together with the easterly connection between the relocated Vale-Cairo Junction Section of the Central Oregon Highway and the John Day Highway in the City of Vale, the North Santiam Secondary Highway, and the Pacific Highway West have been made within the meaning and purpose of Chapter 226, Oregon Laws 1947, commonly known as the "Throughway Law"; and, therefore, the construction of the above-named sections of said highways shall be accomplished pursuant to and within the meaning and scope of said law.

7. That this resolution be entered in the minutes and records of the Commission as of the 24th day of September, 1953.

EXHIBIT "L"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to provisions of Subsection 28 of O. C. L. A., Section 100-115, as amended by Chapter 252, Oregon Laws 1953, has entered into a contract for the construction of the relocated Joseph-Sheep Creek Hill Section of the Little Sheep Creek Secondary Highway, State Highway No. 350, and said Section of said highway as presently under construction; and

WHEREAS, the data, facts, information and statistics compiled by the Highway Engineer pursuant to provisions of Subsection 1 of O. C. L. A., Section 100-126, are on file in the office of the State Highway Commission at Salem, Oregon, and reveal that the said section of the said highway which is presently under construction is being unduly damaged by vehicular traffic operating at speeds which are lawful.

WHEREAS, under the provisions of Subsection 15 of Chapter 405, Oregon Laws 1951 as amended by Chapter 691, Oregon Laws 1953, the Highway Commission is given authority to reduce speed limits and to impose other restrictions when such action is necessary to prevent highways from being unduly damaged.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by the State Highway Commission, all members being present and voting affirmatively as follows:

1. Having duly considered the facts and statistics compiled by the State Highway Engineer, the State Highway Commission hereby finds that by reason of excessive speeds of vehicular traffic, between Mile Point 00 and Mile Point 5.07 of the Joseph-Sheep Creek Hill Section of the Little Sheep Creek Secondary Highway, State Highway No. 350, which is presently being constructed, said section of the said highway is being unduly damaged.

2. Pursuant to and in accordance with the provisions of Chapter 405, Oregon Laws 1951, as amended by Chapter 691, Oregon Laws 1953, it is hereby ordered that the maximum speed limit for any vehicle operating on said Joseph-Sheep Creek Hill Section of the Little Sheep Creek Secondary Highway, State Highway No. 350, between Mile Point 00 and Mile Point 5.07 inclusive, shall be 25 miles per hour from the date of this resolution until construction work on said section of said highway is completed.

3. That the State Highway Engineer is hereby ordered to erect and maintain signs giving notice of the reduced speed limit in a conspicuous manner and place at each end of the said section of the said highway

affected hereby, and at such other places as may be necessary to inform the public of the reduced speed of 25 miles per hour on said section of said highway. Upon completion of the construction of the said section of said highway the State Highway Engineer is hereby ordered and directed to remove all such signs establishing a reduced speed, and from and after the time the said signs are removed, the reduced speed shall no longer be of any force or effect.

4. That this resolution shall be entered in the minutes of this Commission as of the 25th day of September, 1953, and that the original of this resolution be filed in the records of the Secretary of the Commission, and that a duly certified copy thereof be filed with the Secretary of State and the Superintendent of State Police.

EXHIBIT "M-1"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Hauser-North Bend Section of the Oregon Coast Highway; and,

WHEREAS, the Highway Commission has adopted a survey of the said Hauser-North Bend Section of the Oregon Coast Highway and has by a resolution ordered and declared that said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

EXHIBIT "M-1" (cont.)

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Hauser-North Bend Section of the Oregon Coast Highway as a throughway, the following described real property in fee simple, to wit:

R-21101
Owner: Carl F. Gregg, et al

A parcel of land lying in Tract 176 in Silver Point No. 1, Amended Oyster Bed Plat, situated in Section 34, Township 24 South, Range 13 West, W. M., Coos County, Oregon, the said parcel being that portion of said Tract 176 lying Easterly of a line which is parallel to and 140 feet Westerly of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 179+80.71, said Station being 622.3 feet South and 1106.6 feet West of the Northeast corner of said Section 34; thence South 16° 06'30" East 1219.29 feet to Station 192+00. The Westerly line of said parcel crossing the Northerly and South lines of said Tract 176 approximately opposite Station 187+70 and 190+92, respectively.

The parcel of land to which this description applies contains 0.78 acre.

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the owners which abuts on the said relocated Oregon Coast Highway remaining after the appropriation of the real property hereinabove described.

3. That the highway facility for which the above described real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Highway Commission, will be most compatible with the greatest public good and the least private injury or damage.

4 That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

EXHIBIT "M-1" (cont.)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 24th day of September, 1953.

EXHIBIT "M-2"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Brushes Creek-Rinehart Creek Section of the Oregon Coast Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and.

WHEREAS, the Highway Commission by a certain resolution made and entered in its records on the 6th day of January, 1953, declared the necessity for the acquisition of a parcel of land described therein for right of way purposes, for the relocation, construction, improvement and maintenance of the Brushes Creek-Rinehart Creek Section of the Oregon Coast Highway, and for the control of access to and from the said Oregon Coast Highway, and authorized the acquisition of the said parcel of land and the said control of access in the manner provided by law, and it is now the determination of the Highway Commission that the said control of access should be changed in the manner provided herein, in order that additional access points be allowed the property owner concerned, and, therefore, the resolution of January 6, 1953, should be revised to conform with the said access control change; and,

EXHIBIT "M-2" (cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby declare that the resolution made and entered in its records of January 6, 1953, referred to above, be, and it hereby is, amended by this resolution.

2. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Brushes Creek-Rinehart Creek Section of the Oregon Coast Highway as a throughway, the following described real property in fee simple, to wit:

L-1969
Owner: Vera H. Redenbaugh

A parcel of land lying in the Northeast quarter (NE$\frac{1}{4}$) of the Southwest quarter (SW$\frac{1}{4}$) and in Lots 6 and 7 of Section 6, Township 34 South, Range 14 West, W.M., Curry County, Oregon, the said parcel being that portion of said subdivisions of Section 6 included in a strip of land of variable width, said strip of land being 100 feet in width on the Easterly side and variable on the Westerly side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 431+23.97, said Station being 925.73 feet South and 593.31 feet East of the Northwest corner of said Section 6; thence on a spiral curve right (the long chord of which bears South 31° 18' East) 400 feet; thence on a 5729.58 foot radius curve right (the long chord of which bears South 19° 04' 30" East) 2178.33 feet; thence on a spiral curve right (the long chord of which bears South 6° 51' East) 400 feet; thence South 6° 11' East 130.07 feet; thence on a spiral curve left (the long chord of which bears South 7° 31' East) 400 feet; thence on a 2864.79 foot radius curve left (the long chord of which bears South 13° 38' East) 345 feet; thence on a spiral curve left (the long chord of which bears South 19° 45' East) 400 feet; thence South 21° 05' East 711.43 feet to Station 480+88.80;

EXHIBIT "M-2" (cont)

said center line crosses the North and South lines of the Southwest quarter (SW$\frac{1}{4}$) of Section 6 approximately at Stations 450+85 and 478+10, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Westerly Side of Center Line
444+00	458+00	100 feet
458+00	480+88.80	To mean high tide of Pacific Ocean

The parcel of land to which this description applies contains 27.85 acres, of which 0.65 acre lies within the existing right of way, title to which hereby is acknowledged to be in the public, and 27.2 acres lie outside of the existing right of way.

3. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the relocated Oregon Coast Highway and all of the contiguous real property of the owner remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owner of the said remaining land, her heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the West side of the said relocated highway, opposite Highway Engineer's center line Station 451+25, for the production and transportation to market of farm and forest products and for private residential use only.

b. A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the West side of the said relocated highway, opposite Highway Engineer's center line Station 452+75, for the production and transportation to market of farm and forest products and for private residential use only.

The above said accesses to the said relocated highway from the said remaining real property shall not be used by the owner, her heirs or assigns, or anyone holding under her , for any use not herein stated, and the State Highway Commission shall have the power to close said accesses for all purposes in the event of any violation.

c. Rights of access to that section of the existing Oregon Coast Highway extending from a point approximately opposite relocated High-

EXHIBIT "M-2" (cont)

way Engineer's center line Station 455+00, to the North boundary line of the owner's property remaining after the appropriation of the hereinabove described real property, and thence by the existing Oregon Coast Highway to the intersection of the existing and relocated Oregon Coast Highway approximately opposite relocated Highway Engineer's center line Station 446+50.

4. That the highway facility for which the above described real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

5. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of the said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

6. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owner.

7. That this resolution be entered in full in the minutes and records of the Commission this 24th day of September, 1953.

EXHIBIT "M-3"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Brushes Creek-Rinehart Creek Section of the Oregon Coast Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, the Highway Commission by a certain resolution made and entered in its records on the 6th day of January, 1953, declared the necessity for the acquisition of certain parcels of land described therein for right of way purposes, for the relocation, construction, improvement and maintenance of the Brushes Creek-Rinehart Creek Section of the Oregon Coast Highway, and for a quarry site, for use in connection with the proper construction and maintenance of certain sections of the state highway system, and for the control of access to and from the said Oregon Coast Highway, and authorized the acquisition of the said parcels of land and the said control of access in the manner provided by law, and it is now the determination of the Highway Commission that the said control of access should be changed in the manner provided herein, in order that additional access points be allowed to the property owners concerned; and further, it is the

determination of the Highway Commission that the said parcel of land required for right of way purposes, described in the said resolution, is inadequate for the purpose of relocating the said Brushes Creek-Rinehart Creek Section of the Oregon Coast Highway, and, therefore, the resolution of January 6, 1953, should be revised to conform with the present needs of the traveling public and to conform with the said access control change; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby declare that the resolution made and entered in its records of January 6, 1953, referred to above, be, and it hereby is, amended by this resolution.

2. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction improvement and maintenance of the Brushes Creek-Rinehart Creek Section of the Oregon Coast Highway, the following described real property in fee simple, to wit:

L-1970 (R-19453)
Owner: Stephen J. Spoerl

Parcel No. 1:

A parcel of land lying in the Southeast quarter ($SE\frac{1}{4}$) of Section 7, and the Northeast quarter ($NE\frac{1}{4}$) and the Northeast quarter ($NE\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 18, Township 34 South, Range 14 West, W. M., Curry County, Oregon, the said parcel being that portion of said subdivisions included in a strip of land variable in width, lying on the Easterly side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 524+06.16, said Station being 942.78 feet North and 2165.37 feet West of the Southeast corner of said Section 7; thence on a spiral curve

EXHIBIT "M-3" (cont)

right (the long chord of which bears South 32° 15' East) 400 feet; thence on a 4407.37 foot radius curve right (the long chord of which bears South 23° 51' 20" East) 1011.97 feet; thence on a spiral curve right (the long chord of which bears South 15° 32' 40" East) 400 feet; thence South 14° 40' 40" East 239.65 feet; thence on a spiral curve left (the long chord of which bears South 18° 14' East) 266.67 feet; thence on a 716.20 foot radius curve left (the long chord of which bears South 27° 45' 15" East) 60.24 feet; thence on a spiral curve left (the long chord of which bears South 37° 16' 30"East) 266.67 feet; thence South 40° 49' 50" East 84.35 feet; thence on a spiral curve right (the long chord of which bears South 34° 09' 50" East) 400 feet; thence on a 572.96 foot radius curve right (the long chord of which bears South 17° 12' 50" East) 72.33 feet; thence on a spiral curve right (the long chord of which bears South 0° 15' 50" East) 400 feet; thence South 6° 24' 10" West 88.78 feet; thence on a spiral curve left (the long chord of which bears South 1° 00' 10" West) 360 feet; thence on a 636.62 foot radius curve left (the long chord of which bears South 11° 40' 50" East) 41.85 feet; thence on a spiral curve left (the long chord of which bears South 24° 21' 50"East) 360 feet; thence South 29° 45' 50" East 168.05 feet; thence on an increasing spiral curve right through a spiral angle of 20° 00' (the long chord of which bears South 23° 05' 50" East) 400 feet; thence on a decreasing spiral curve right through a spiral angle of 20° 00' (the long chord of which bears South 3° 34' 10" West) 400 feet; thence South 10° 14' 10" West 119.59 feet to Station 579+46.31. Said center line intersects the Easterly line of that tract conveyed to the State of Oregon, by and through its State Highway Commission, by deed recorded in Book 24, Pages 218-219 of Curry County Record of Deeds, and intersects the South line of said Northeast quarter ($NE\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 18 approximately at Stations 528+95 and 577+00, respectively.

Also that portion of said subdivisions lying Westerly of said center line and Easterly of said tract conveyed to the State of Oregon, by and through its State Highway Commission, by deed recorded in Book 24, Pages 218-219.

The widths in feet of the strip of land above referred to are as follows:

Station to	Station	Width on Easterly Side of Center Line
524+00	532+50	100 feet
532+50	537+00	230 feet
537+00	544+57.78	100 feet
544+57.78	547+24.45	100 feet to 550 feet (a straight line)
547+24.45	552+10	716.20 feet to 635 feet (a straight line)
552+10	559+10	Variable to existing Easterly right of way line

EXHIBIT "M-3" (cont)

Station to	Station	Width on Easterly Side of Center Line
559+10	569+70	270 feet to 250 feet (a straight line)
569+70	579+46.31	Variable to existing Easterly right of way line

The parcel of land to which this description applies contains 42.74 acres, outside of the existing right of way.

3. The Commission does further find and declare that the following described real property is necessary and required for a quarry site, for use in connection with the proper construction and maintenance of certain sections of the state highway system, to wit:

Parcel No. 2:

A parcel of land lying in the Northwest quarter (NW$\frac{1}{4}$) of the Southeast quarter (SE$\frac{1}{4}$) of Section 7, Township 34 South, Range 14 West, W.M., Curry County, Oregon, the said parcel being described as follows:

Beginning at a point on the Easterly line of that tract of land conveyed to the State of Oregon, by deed recorded in Book 24, Pages 218-219 of Curry County Deed Records, said point being opposite and 100 feet Easterly from Engineer's center line Station 516+50 as said Station was established in said State deed, said point also being North 1484.67 feet and West 2234.74 feet from the Southeast corner of said Section 7; thence North 71° 10' East 400 feet; thence North 18° 50' West 538.15 feet; thence South 71° 10' West 342.14 feet to the Easterly line of said State tract; thence Southerly along said Easterly line to the point of beginning.

The parcel of land to which this description applies contains 4.701 acres.

4. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the real property of the owner remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owner, his heirs and assigns, as owner of the said remaining land, the following:

a. A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the East side of the said relocated highway, opposite Highway Engineer's center line Station 523+00, for private residential use, for the production and transportation to market of farm products of the owner's remaining land, for the development and transportation

EXHIBIT "M-3" (cont)

to market of mineral products of the owner's remaining land, and for the development, harvesting and transportation to market of forest products only.

b. A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the East side of the said relocated highway for private residential use, for the production and transportation to market of farm products of the owner's remaining land, for the development and transportation to market of mineral products of the owner's remaining land, and for the development, harvesting and transportation to market of forest products only. The location of this station will be determined by mutual agreement between the owner and the State Highway Commission after the completion of the said relocated highway.

c. Right of access to the existing Oregon Coast Highway between the owner's present homesite on said existing Oregon Coast Highway, said home being located approximately opposite relocated Oregon Coast Highway Engineer's center line Station 520+00, and where the said existing Oregon Coast Highway and the said relocated Oregon Coast Highway will intersect, said intersection being approximately opposite relocated Highway Engineer's center line Station 570+00.

The above said accesses to the relocated highway from the said remaining property shall not be used by the owner, his heirs or assigns, or anyone holding under him, for any use not herein stated, and the State Highway Commission shall have the power to barricade said accesses for all purposes in the event of any violation.

5. That the highway facility for which the above described real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

6. That the Legal and Right of Way Department is directed to attempt to agree with the owner and other persons in interest of the said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

7. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owner.

EXHIBIT "M-3" (cont)

8. That this resolution be entered in full in the minutes and records of the Commission this 24th day of September, 1953.

EXHIBIT "M-4"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Rinehart Creek-Frankport and Frankport-Euchre Creek Sections of the Oregon Coast Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said sections of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, the Highway Commission by a certain resolution made and entered on its records on the 17th day of July, 1953, declared the necessity for the acquisition of two parcels of real property described therein for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Rinehart Creek-Frankport and Frankport-Euchre Creek Sections of the Oregon Coast Highway, and for the control of access to and from the said highway, and authorized the acquisition of said parcels of land and the said control of access in the manner provided by law, and it is now the determination of the Highway Commission that the said parcels of land required for right of way purposes, described in the said resolution, are inadequate for the purpose of relocating the said Rinehart Creek-Frankport and Frankport-Euchre Creek Sections of the Oregon Coast Highway, and, therefore, the resolution of July 17, 1953,

EXHIBIT "M-4" (cont)

should be revised to conform with the present needs of the traveling public; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby declare that the resolution made and entered in its records of July 17, 1953, referred to above, be, and it hereby is, amended by this resolution.

2. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Rinehart Creek-Frankport and Frankport-Euchre Creek Sections of the Oregon Coast Highway as a throughway, the following described real property in fee simple, to wit:

L-2013 (R-20204)
Owner: Winston W. Chambers, et ux

Parcel No. 1:

A parcel of land lying in the West half ($W\frac{1}{2}$) of the Northwest quarter ($NW\frac{1}{4}$) and the West half ($W\frac{1}{2}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 29, Lot 1 of Section 31, and Lots 2, 3 and 4 of Section 30, Township 34 South, Range 14 West, W.M., Curry County, Oregon, and being a portion of that property described in those deeds to Winston W. Chambers and Marjorie P. Chambers, recorded in Book 26, Page 540, and in Book 27, Page 197, of Curry County Records of Deeds, the said parcel being that portion of said subdivisions lying Northerly of that tract of land described in those deeds to Alexander Frank, recorded in Book 5, Page 524; Book 6, Page 80, and Book 6, Pages 566-567, Curry County Deed Records and included in a strip of land of variable width, lying on each side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station $L^{4}641+23.68$, said

Station being 235.3 feet North and 1491.8 feet East of the Northwest corner of said Section 29; thence on a decreasing spiral curve right (the long chord of which bears South 2° 58' 30" East) 500 feet; thence South 0° 21' 30" West 689.33 feet; thence on a spiral curve right (the long chord of which bears South 5° 38' 15" West) 487.5 feet; thence on an 881.47 foot radius curve right (the long chord of which bears South 30° 24' 40" West) 437.18 feet; thence on a spiral curve right (the long chord of which bears South 55° 11' 15" West) 487.5 feet; thence South 60° 28' West 64.94 feet; thence on a spiral curve left (the long chord of which bears South 55° 58' 10" West) 450 feet; thence on a 954.93 foot radius curve left (the long chord of which bears South 46° 01' West) 31.67 feet; thence on a spiral curve left (the long chord of which bears South 36° 03' 50" West) 450 feet; thence South 31° 34' West 585.69 feet; thence on a spiral curve left (the long chord of which bears South 27° 04' 10" West) 450 feet; thence on a 954.93 foot radius curve left (the long chord of which bears South 11° 31' West) 218.33 feet; thence on a spiral curve left (the long chord of which bears South 4° 02' 10" East) 450 feet; thence South 8° 32' East back equals South 8° 37' 13" ahead 18.45 feet; thence on a spiral curve right (the long chord of which bears South 6° 29' 13" East) 320 feet; thence on a 1432.39 foot radius curve right (the long chord of which bears South 3° 08' 10" West) 267.82 feet; thence on a spiral curve right (the long chord of which bears South 12° 45' 33" West) 320 feet; thence South 14° 53' 33" West 3.9 feet; thence on a spiral curve left (the long chord of which bears South 8° 13' 58" West) 400 feet; thence on a 572.96 foot radius curve left (the long chord of which bears South 20° 22' 20" East) 305.3 feet; thence on a spiral curve left (the long chord of which bears South 48° 58' 38" East) 400 feet to Station 714+61.29 back equals 715+44.53 ahead; thence South 55° 38' 13" East 153.74 feet; thence on a spiral curve right (the long chord of which bears South 52° 18' 13" East) 500 feet to Station 721+98.27. The Westerly line of said strip of land crosses the Easterly line of said West half ($W\frac{1}{2}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 29 approximately opposite Station L^4 645+00 and said center line crosses the Northerly line of said Alexander Frank tract in said Lot 1 approximately at Station 711+95.

Also that part of said West half ($W\frac{1}{2}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 29 lying Westerly of said strip of land and Easterly of the existing highway and lying between lines at right angles to said relocated highway center line at Stations 660+00 and 664+00. Also that part of said West half ($W\frac{1}{2}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 29 and that part of said Lot 3 of Section 30 lying Westerly of the existing highway and Easterly of said strip of land and lying between lines at right angles to said relocated highway center line at Stations 677+00 and 680+00.

The widths in feet of the strip of land above referred to are as follows:

Station	to Station	Width on Easterly Side of Center Line	Width on Westerly Side of Center Line
641+23.68	642+50	70 feet	120 feet
642+50	648+00	70 feet	100 feet
648+00	657+00	80 feet	100 feet
657+00	661+00	100 feet	100 feet
661+00	668+00	200 feet	100 feet
668+00	684+00	100 feet	100 feet
684+00	687+50	130 feet	100 feet
687+50	690+67	180 feet	100 feet
690+67	691+00	180 feet	To mean high tide of the Pacific Ocean
691+00	East line of said Section 31	To existing Easterly right of way line	To mean high tide of the Pacific Ocean

The parcel of land to which this description applies contains 54.18 acres, of which 8.68 acres lie within the existing right of way, title to which hereby is acknowledged to be in the public, and 45.5 acres lie outside of the existing right of way.

Parcel No. 2:

A parcel of land lying in the West half ($W\frac{1}{2}$) of Section 32, Township 34 South, Range 14 West, W.M., Lot 3 and Lot 5 of Section 5, Township 35 South, Range 14 West, W.M., Curry County, Oregon, and being a portion of that property described in that deed to W. W. Chambers, et ux, recorded in Book 26, Page 540, of Curry County Records of Deeds, the said parcel being that portion of said property lying Southerly of that tract of land conveyed by deed to Alexander Frank, recorded in Book 6, Pages 566-567, Curry County Deed Records, and included in a strip of land of variable width, lying on each side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station L^4 725+74.38, said Station being 1775.65 feet South and 355.12 feet East of the Northwest corner of said Section 32; thence on a spiral curve right (the long chord of which bears South 23° 55' 33" East) 500 feet; thence South 20° 35' 33" East 767.59 feet; thence on a spiral curve right (the long chord of which bears South 16° 19' 39" East) 320 feet; thence on a 716.20 foot radius curve right (the long chord of which bears South 4° 05' 13" East) 92.64 feet; thence on a spiral curve right (the long chord of which bears South 8° 09' 13" West) 320 feet; thence South 12° 25' 07" West 112.28 feet; thence on a spiral curve left (the long chord of which bears South 8° 09' 13" West) 320 feet; thence on a 716.20 foot radius curve left (the long chord of which bears South 4° 03' 02" East) 91.81 feet; thence on a spiral

curve left (the long chord of which bears South 16° 15' 16" East) 320 feet; thence South 20° 31'10" East 61.77 feet; thence on a spiral curve right (the long chord of which bears South 17° 01' 10" East) 350 feet; thence on a 954.93 foot radius curve right (the long chord of which bears South 8° 42' 11" East) 43.88 feet; thence on a spiral curve right (the long chord of which bears South 0° 23' 12" East) 350 feet; thence South 3° 06' 48" West 17.36 feet; thence on a spiral curve left (the long chord of which bears South 2° 42' 55" East) 350 feet; thence on a 572.96 foot radius curve left (the long chord of which bears South 18° 59' 34" East) 92.12 feet; thence on a spiral curve left (the long chord of which bears South 35° 16' 13" East) 350 feet; thence South 41° 05' 56" East 14.22 feet; thence on a spiral curve right (the long chord of which bears South 37° 06' 01" East) 400 feet; thence on a 954.93 foot radius curve right (the long chord of which bears South 21° 01' 38" East) 269.06 feet; thence on a spiral curve right (the long chord of which bears South 4° 57' 15" East) 400 feet to Station 781+17.11. Said center line crossing the Southerly line of said Frank tract and the Southerly line of said Chambers property approximately at Stations 731+80 and 778+20, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station	to	Station	Width on Easterly Side of Center Line	Width on Westerly Side of Center Line
730+00		739+00	100 feet	100 feet
739+00		741+61.97	140 feet	100 feet
741+61.97		745+00	100 feet	100 feet
745+00		750+06.89	150 feet	To mean tide line of Pacific Ocean
750+06.89		765+91.71	200 feet	To mean tide line of Pacific Ocean
765+91.71		781+17.11	150 feet	

The parcel of land to which this description applies contains 34.0 acres, more or less.

3. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the defendants, their heirs and assigns, as owners of the said remaining land, the following:

a. A right of access to the relocated Oregon Coast Highway of a width not to exceed 25 feet on the West side of the said highway, opposite Highway Engineer's center line Station 651+60, for private res-

idential use, for the production and transportation to market of farm products of the owners' remaining land, for the development and transportation to market of mineral products of the owners' remaining land, and for the development, harvesting and transportation to market of forest products only.

b. A right of access to the relocated Oregon Coast Highway of a width not to exceed 25 feet on the West side of the said highway, opposite Highway Engineer's center line Station 673+25, for private residential use, for the production and transportation to market of farm products of the owners' remaining land, for the development and transportation to market of mineral products of the owners' remaining land, and for the development, harvesting and transportation to market of forest products only.

c. A right of access to the relocated Oregon Coast Highway of a width not to exceed 25 feet on the East side of the said highway, opposite Highway Engineer's center line Station 681+50, for private residential use, for the production and transportation to market of farm products of the owners' remaining land, for the development and transportation to market of mineral products of the owners' remaining land, and for the development, harvesting and transportation to market of forest products only.

d. A right of access to the relocated Oregon Coast Highway of a width not to exceed 25 feet on the East side of the said highway, opposite Highway Engineer's center line Station 742+00, for private residential use, for the production and transportation to market of farm products of the owners' remaining land, for the development and transportation to market of mineral products of the owners' remaining land, and for the development, harvesting and transportation to market of forest products only.

e. A right of access to the relocated Oregon Coast Highway of a width not to exceed 25 feet on the East side of the said highway, opposite Highway Engineer's center line Station 777+00, for private residential use, for the production and transportation to market of farm products of the owners' remaining land, for the development and transportation to market of mineral products of the owners' remaining land, and for the development, harvesting and transportation to market of forest products only.

The above said accesses to the relocated Oregon Coast Highway from the said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to barricade said accesses for all purposes in the event of any violation.

EXHIBIT "M-4" (cont)

f. A right to cross the relocated Oregon Coast Highway for farm purposes only, said crossing not to exceed 25 feet in width, opposite Highway Engineer's center line Station 693+50, together with an easement 25 feet in width for roadway purposes on the most appropriate location across a portion of the real property hereinabove described as Parcel No. 1 and further described as lying between a portion of the owners' remaining real property in Lot 3 in Section 30, Township 34 South, Range 14 West, W.M., Curry County, Oregon, and Highway Engineer's center line Station 693+50; provided, however, that upon the alienation of either of the portions of the property severed by the said relocated Oregon Coast Highway, resulting in the severed portions of the said property being owned by different persons, this right of crossing and easement shall be forfeited and shall cease, and if the owners, their heirs or assigns, shall commit, suffer or permit any use of the said crossing or easement for any purpose other than as a passageway from one side of the said highway to the other for farm purposes, then and in that event the rights hereby reserved to the owners will be automatically forfeited, and the State Highway Commission shall have the power to close and barricade said crossing for all purposes.

g. A right to cross the relocated Oregon Coast Highway for farm purposes only, said crossing not to exceed 25 feet in width, opposite Highway Engineer's center line Station 732+50; provided, however, that upon the alienation of either of the portions of the property severed by the said relocated Oregon Coast Highway, resulting in the severed portions of said property being owned by different persons, this right of crossing shall be forfeited and shall cease, and if the owners, their heirs or assigns, shall commit, suffer or permit any use of the said crossing for any purpose other than as a passageway from one side of the said highway to the other for farm purposes, then and in that event the right hereby reserved to the owners will be automatically forfeited, and the State Highway Commission shall have the power to close and barricade said crossing for all purposes.

4. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Highway Commission, will be most compatible with the greatest public good and the least private injury or damage.

5. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

EXHIBIT "M-4" (cont)

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission this 24th day of September, 1953.

22157

EXHIBIT "M-5"

Minutes of September 24 and 25, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Goshen-Divide Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

(cont.)

EXHIBIT "M-5" (cont.)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted,highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement,betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Goshen-Divide Section of the Pacific Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nautre between the right of way of the said Goshen-Divide Section of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit A.*

3. That the relocation, construction, improvement and maintenance of the said Goshen-Divide Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

(cont.)

EXHIBIT "M-5" (cont.)

5. That upon the trial of any suit or action instituted to acquire the said real property or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 24th day of September, 1953, as Condemnation Resolution No. 446.

* FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 446, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "M-6"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture or roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Pendleton-Deadmans Pass Section of the Old Oregon Trail Highway; and

WHEREAS, the Highway Commission has by resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway property; and

(cont.)

EXHIBIT "M-6" (cont.)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the Pendleton-Deadmans Pass Section of the Old Oregon Trail Highway as a throughway, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights or access of any nature between the right of way of the said Pendleton-Deadmans Pass Section of the relocated Old Oregon Trail Highway and all of the contiguous real property of the owners remaining after the appropriation of the said real property; except that there shall be reserved unto the owners, their heirs and assigns, for service of their remaining land, such access reservations as are noted on the said attached list marked Exhibit A. *

3. That the relocation, construction, improvement and maintenance of the said Pendleton-Deadmans Pass Section of the Old Oregon Trail Highway and the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said

EXHIBIT "M-8"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct and maintain Unit No. 4 of the T. H. Banfield Expressway; and

WHEREAS, the Highway Commission has by resolution ordered and declared that said unit of said highway shall be established, constructed, and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

(cont.)

EXHIBIT "M-8" (cont.)

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgement of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment and maintenance of highways of the state highway system, and the establishment, construction and maintenance of Unit No. 4 of the T. H. Banfield Expressway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Unit No. 4 of the T. H. Banfield Expressway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit A. *

3. That the establishment, construction and maintenance of the said Unit No. 4 of the T. H. Banfield Expressway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests

EXHIBIT "M-9"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture or roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Winchester-Shady Point Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

(cont.)

EXHIBIT "M-9" (cont.)

WHEREAS, for the purpose of relocating, construction, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintance of the Winchester-Shady Point Section of the Pacific Highway as a throughway, certain interests in or fee simple title to a parcel of real property. The said parcel of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That the relocation, construction, improvement and maintenance of the said Winchester-Shady Point Section of the Pacific Highway and the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of

* FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 450, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "M-10"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the constructing of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Junction City-Eugene Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though

(cont.)

EXHIBIT "M-10" (cont.)

said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Junction City-Eugene Section of the Pacific Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That the widening, improvement and maintenance of the said Junction City-Eugene Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of

the Commission this 24th day of September, 1953, as Condemnation Resolution No. 451.

02475

EXHIBIT "M-11"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Shady Point-Booth Ranch Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "M-11" (cont.)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment and maintenance of highways of the state highway system and the relocation, construction, improvement and maintenance of the said Shady Point-Booth Ranch Section of the Pacific Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Shady Point-Booth Ranch Section of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit A. *

3. That the relocation, construction, improvement and maintenance of the said Shady Point-Booth Ranch Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property or interest therein.

EXHIBIT "M-11" (cont.)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 24th day of September, 1953, as Condemnation Resolution No. 452.

---

* FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 452, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "M-12"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting road, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct and maintain the Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway; and

WHEREAS, the Highway Commission has by resolution ordered and declared that said section of said highway shall be established, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "M-12" (cont.)

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment and maintenance of highways of the state highway system, and the establishment, construction and maintenance of the Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway as a throughway, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That the establishment, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway and the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 24th day of September, 1953, as Condemnation Resolution No. 453.

EXHIBIT "M-14"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Crooked River-Terrebonne Section of the The Dalles-California Highway; and

WHEREAS, the Highway Commission has by resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

(cont.)

EXHIBIT "M-14" (cont.)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Crooked River-Terrebonne Section of the The Dalles-California Highway as a throughway, fee simple title to a certain parcel of real property. The said parcel of real property needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Crooked River-Terrebonne Section of the relocated The Dalles-California Highway and all of the contiguous real property of the owners remaining after the appropriation of the said real property; except that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, such access reservations as are noted as to said parcel on the said attached list marked Exhibit A. *

3. That the relocation, construction, improvement and maintenance of the said Crocked River-Terrebonne Section of the The Dalles-California Highway and the highway facilities for which the said parcel of property is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any

Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 24th day of September, 1953, as Condemnation Resolution No. 455.

---

* FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 455, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "M-15"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct and maintain the Washburn-North Plains Section of the Wilson River Highway; and

WHEREAS, the Highway Commission has by resolution ordered and declared that said section of said highway shall be established, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

(cont.)

EXHIBIT "M-15" (cont.)

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment and maintenance of highways of the state highway system, and the establishment, construction and maintenance of the Washburn-North Plains Section of the Wilson River Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Wilson River Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit A. *

3. That the establishment, construction and maintenance of the said Washburn-North Plains Section of the Wilson River Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

(cont)

EXHIBIT "M-15" (cont.)

5. That upon the trial of any suit or action instituted to acquire the said real property, or interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 24th day of September, 1953, as Condemnation Resolution No. 456.

---

* FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 456, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "M-16"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments there of or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and

WHEREAS, for the purpose of constructing and maintaining certain sections of the state highway system, the Commission plans and proposes to acquire a quarry site, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee simple title to said real property for the acquisition of a quarry site,

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That the highway facilities for which the said parcel of property,

(cont.)

EXHIBIT "M-16" (cont.)

or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 24th day of September, 1953, as Condemnation Resolution No. 457.

EXHIBIT "M-17"

Minutes of September 24 and 25, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to improve and better the Goshen-Pleasant Valley Section of the Willamette Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above pur-

(cont.)

EXHIBIT "M-17" (cont.)

poses, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the improvement and betterment of highways of the state highway system, and the improvement and betterment of the said Goshen-Pleasant Valley Section of the Willamette Highway as a throughway, certain interests in or fee simple title to certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the St ate and the owners should be acquired, is more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Goshen-Pleasant Valley Section of the said Willamette Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the owners, their heirs and assigns, for service of their remaining land, such access reservations as are noted on the said attached list marked Exhibit A. *

3. That the improvement and betterment of the said Goshen-Pleasant Valley Section of the Willamette Highway and the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is neces sary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactor agreement can be reached, then the Chief Counsel is directed and authorized to co mence and prosecute to final determination such suit or action as may be necessar to acquire title to said parcel of real property, or interest therein.

(cont.)

EXHIBIT "M-17" (cont.)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 24th day of September, 1953, as Condemnation Resolution No. 458.

EXHIBIT "M-18"

Minutes of September 24 and 25, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part, relocate in part, construct, improve and maintain the Pendleton-Deadmans Pass Section of the Old Oregon Trail Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened in part, and relocated in part, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of widening in part, and relocating in part, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

(cont.)

EXHIBIT "M-18" (cont.)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part, and the relocation in part, construction, improvement and maintenance of the Pendleton-Deadmans Pass Section of the Old Oregon Trail Highway as a throughway, the following described real property in fee simple, to wit:

R 20104
Owner: Robert E. Goad, et ux

Parcel No. 1:

A parcel of land lying in the Northeast quarter (NE$\frac{1}{4}$) of Section 12, Township 2 North, Range 32 East, W. M., Umatilla County, Oregon, the said parcel being that portion of said Northeast quarter (NE$\frac{1}{4}$) lying Southerly of the present Old Oregon Trail Highway and included in a strip of land extending from a line at right angles to the center line of the relocated Old Oregon Trail Highway at Station 72+00 to the East line of Section 12, said strip of land being variable in width, lying on each side of the center line of said Old Oregon Trail Highway, which center line is described as follows:

Beginning at Engineer's center line Station 60+13.2, said Station being 3726.8 feet West and 2089.2 feet North of the East quarter (E$\frac{1}{4}$) corner of said Section 12; thence on a 3819.72 foot radius curve right (the chord of which bears South 70° 23' 42" East) 2503.06 feet; thence on a 375 foot spiral curve right (the chord of which bears South 49° 44' 40" East); thence South 48° 48' 20" East a distance of 1708.74 feet to Engineer's Station 106+00. Said center line crosses the East line of said Northeast quarter (NE$\frac{1}{4}$) approximately at Station 103+85.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Northerly Side of Center Line	Width on Southerly Side of Center Line
72+00	85+16.26	100 feet	150 feet
85+16.26	91+00	100 feet	250 feet
91+00	106+00	100 feet	150 feet

The bearings used herein are based on the Oregon Coordinate System, North Zone.

(cont.)

EXHIBIT "M-18" (cont.)

The parcel of land to which this description applies contains 12.55 acres outside of the existing right of way.

2. That it is necessary that there shall be no rights of access of any nature between the real property hereinabove described and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described.

3 That the relocation in part, construction, improvement and maintenance and the widening in part of the said Pendleton-Deadmans Pass Section of the Old Oregon Trail Highway and the highway facilities for which the said parcel of property is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4 That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire in the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interest of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 24th day of September, 1953, as Condemnation Resolution No. 459

Portland, Oregon
October 29, 1953

The State Highway Commission met in regular session at 9:00 a.m. in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Assistant State Highway Engineer
W. W. Stiffler, 2d Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Also present as interested spectators were Messrs. George B. Simpson and R. A. Moisio, members of the Washington State Highway Commission, and Mr. Lorenz Goetz, Secretary, Washington State Highway Commission.

At the request of the Commission, the Secretary publicly announced that it would be the Commission's policy hereafter to limit the reading of unit bids to the three low bids submitted for each project and to read the total amount only of each remaining bid. He further stated that a unit bid tabulation for a particular project will be furnished to each bidder for that project, and upon request, will be furnished any other contractor or other person who has a real interest in the project.

Bids as follows for highway construction were then opened and read aloud pursuant to previously published notice, at the conclusion of which it was announced that the award of contracts would be made at 4:30 p.m. in the same room:

George E. Berry, Beaverton	7,720.00
James & Yost, Inc., Portland	7,893.00
Gene H. Settergren, Portland	8,479.00
A. D. Ford & Son, Portland	8,830.36
Ferguson-Cassady Company, Portland	9,015.00
Schrader Construction Company, Portland	9,043.00
Lorentz Bruun Company, Portland	9,386.00
American Construction Company, Beaverton	14,820.00

The minutes of the meeting held on August 6 and 7, 1953, were approved by the Commission.

The Parks Superintendent stated that he had returned only two days ago from a 7,500-mile trip to the east coast and had visited a number of parks enroute. A written report, he stated, will be furnished to the Commission later.

October 29, 1953

He then reported on the following park matters:

1. Claim of Mrs. Arno C. Spranger for injuries sustained in an accident at Champoeg State Park Museum: The Parks Superintendent stated that Mrs. Spranger, while visiting the park museum on August 16, 1953, fell as she was leaving the museum, suffering injuries in the fall and that she is asking the State to pay her doctor bill amounting to $25. He explained that there have been no similar accidents or claims at this location, and the type of construction at the entrance to the museum is very common. He recommended that the claim be denied. The Commission accepted the recommendation.

2. Proposed exchange of land in the Columbia Gorge with Mr. Fred Luscher: The Parks Superintendent reported that as previously authorized he had investigated the proposed exchange. Mr. Luscher, he stated, owns 6.25 acres of land along the old highway a short distance west of Sheppard's Dell, valued at $2,365.00, which he will exchange for twelve acres owned by the State south of the new highway in Section 29, Township 1 North, Range 5 East, adjoining his present holdings. This land, he stated, is submerged during high water season, and he estimated its value at $2,400.00. He recommended that the exchange of land be made without access to the highway. The Commission approved the recommendation.

3. Offer of Mr. Ralph Beard, Enterprise, to sell to the State for park purposes approximately 18 acres of land at Wallowa Lake: The Parks Superintendent reported that the property which is located at the south edge of the southwest quarter of Section 21, is 385 feet wide and extends approximately one-half mile up the mountainside, being separated from the state park by the highway and the river and a strip of land a few hundred feet in width. He further stated that there is a good growth of timber on the land and a duplex house valued at about $10,000 and that Mr. Beard is asking $24,000 for the land and the house. It was his expressed belief that further development should be made in the existing park or on Pacific Power and Light property approximately one-half mile south thereof. As Mr. Beard's land is not connected with the existing park area and as he felt that there should be some room for private development, he recommended against purchase of the property. The Commission accepted the recommendation.

4. Request of Westmost Grange that properties of Jess Strader and Ed Divelbiss be acquired for state park purposes at Bandon Beach: The Parks Superintendent reported that as instructed by the Commission at the previous meeting he had made an investigation of this request. The proposed acquisition, he stated, has the basic elements necessary for a good state park, but development, he thought, would be rather expensive. He requested authority to negotiate purchase of the land on an equitable basis. The Commission granted the authority and instructed that a report be submitted later.

The Commission discussed with the Parks Superintendent and the Engineer the matter of cooperating with the U. S. Bureau of Land Management in the exchang

of land in the Columbia Gorge to facilitate preservation of scenic values as urged by the "Save the Gorge" Committee of the Portland Women's Forum. The State Parks Superintendent Armstrong suggested that one or more right of way agents be permitted to work with the Bureau of Lane Management to assist the Bureau, for short periods from time to time, to effect exchanges in lands in the Columbia River Gorge for other areas administered by the Bureau, so as to secure as much of the Gorge area as possible in public ownership. The Commission approved the assignment of the men to perform this work, for short periods, at intermittent intervals during the calendar year of 1954, because of its desire to assist this Federal Government agency to accomplish this worth-while objective.

The Commission discussed with the Parks Superintendent the Parks Budget for the year 1954. The Parks Superintendent explained details of the budget and answered questions put by the Commission. As a result of discussion the Commission unanimously approved the budget as presented by the Parks Superintendent, a summary of which follows:

STATE PARKS DIVISION

Capital Outlay	Expenditures 1952	Budget 1953	Proposed Budget 1954
Survey for Parks	$23,206.34	$27,000.00	$30,000.00
Purchase of Real Property	58,773.16	50,000.00	100,000.00
Construction and Betterment	235,637.80	341,865.00	237,000.00
Purchase of Equipment - Field	5,713.99	6,000.00	4,000.00
Purchase of Equipment - Office	1,313.25	2,000.00	2,000.00
Road Construction & Betterment	137,048.46	120,000.00	120,000.00
Carryover for Park Betterment	------	------	47,000.00
Carryover for Park Road Betterment	------	------	15,000.00
	$461,693.00	$546,865.00	$555,000.00
OPERATION			
Administration & General Supervision	$91,370.60	$97,000.00	$104,000.00
Park Operation	293,016.25	330,000.00	330,000.00
Maintenance of Roads & Parking Areas	14,250.01	27,000.00	34,000.00
Total	$860,329.86	$1,000,865.00	$1,023,000.00

(For details see copy of budget on file in Secretary's office.)

October 29, 1953

The Right of Way Engineer presented for consideration options secured for acquisition of property needed for various state highway improvements and for other purposes. As a result of careful consideration, the Commission approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

In discussing the various properties to be acquired, Commissioner McIver called attention to the Schnitzer & Wolf and Union Oil Company properties at the proposed Clay and Columbia Street Interchange on the West Portland Expressway. It was his thought that some time should be taken to study the matter and also to determine if the City will cooperate. The Engineer explained the matter briefly,stating that the property should be acquired before it is developed. The right of way cost, he estimated at 25 percent of the total cost of the interchange. The Commission instructed the Engineer to prepare a report on the interchange showing the estimated cost and other pertinent matters. Tentative arrangements were made for Commissioner McIver, Mr. Baldock, and Mr. Porter to inspect the location. (The Commission ordered that File No. 20668 with William Lyons and No. 20645 with Scnhitzer & Wolf be stricken from the right of way options presented to the Commission at this meeting; also ordered deleted from the list was the right of way option obtained from Irving T. and Dorothy D. Erickson, File No. 20667.)

Commissioner Reynolds inquired as to the progress being made in acquisition of Indian lands on the Old Oregon Trail, south and east of Pendleton. The Right of Way Engineer explained that 16 out of a total of 40 properties have been acquired. Progress is slow as a number of owners live out of the State and must be contacted personally.

Chairman Chandler requested the Right of Way Engineer to submit a statement or report showing the amount of money expended to date for right of way on eac state highway.

The Commission confirmed the sale of Miscellaneous Properties as reported by the Right of Way Engineer. (For details on properties sold, see copy of report prepared by C. W. Parker, Property Manager, dated October 29-30, 1953 on file in the Secretary's office under the heading of "Miscellaneous Sales".)

The Right of Way Engineer recommended changes in points of access to state highways as follows:

1. File No. 15208, property owned by Tony Tosta and Constantino Demergasso on the Coos Gay-Coquille Section of the Oregon Coast Highway.

2. File No. 13864, property owned by Reiman on the Salem-Hayesville School Section of the Pacific Highway East.

He explained that these are changes in location of approved points of access and noth ing new is being granted. The Commission approved the changes as recommended.

Granting of an easement for driveway and turn-around purposes to Mr. and

Mrs. R. G. Phillips, Roseburg, was considered by the Commission. The Right of Way Engineer explained that the easement is necessary in order to allow the Phillips to drive their car onto Chatham Street in the City of Roseburg when they back out of their garage. The property is located on Lot 12 of Block 1, West Roseburg Addition. The Commission approved the granting of the easement.

Consideration was given to the proposed purchase of a small tract of land at the north end of McCullough Bridge on the Oregon Coast Highway, Coos County. The Right of Way Engineer reported that there are no access restrictions on this property, and he inquired whether or not the Commission wishes to purchase the property to prevent commercial development with the resultant unlimited access. Chairman Chandler stated that it has come to his attention that a prospective buyer of the property already has paid $2,000 earnest money on a $19,000 purchase with the idea of constructing a modern motel. After discussion, the Commission instructed the Right of Way Engineer to confer with the new owner of the property with the view of acquiring as much restriction of access as can be reasonably obtained. It was felt that the property owner would be agreeable to accepting two points of access.

The Right of Way Engineer recommended the granting of an easement deed to the U. S. Army Corps of Engineers allowing construction of a power line across the westerly end of the State's quarry site at Biggs on the Columbia River Highway, for a consideration of $25. The Commission adopted the recommendation.

Consideration was given by the Commission to the granting of a quitclaim deed to the Oregon Trunk Railway for a portion of Lot 1, Section 15, Township 2 North, Range 15 East, Willamette Meridian, which property will be within the pool level of the proposed The Dalles Dam. The Right of Way Engineer explained that the quitclaim deed is for the purpose of providing a clear title to the property which eventually will be acquired by the U. S. Army Corps of Engineers. He recommended approval of the deed. The Commission adopted the recommendation.

Sale to Clarence Peterson of one acre of land formerly used as a maintenance headquarters site on the Green Springs Highway in Jackson County, was considered by the Commission. The Right of Way Engineer explained that this site has been abandoned by the Highway Department and is no longer needed for state highway use. He recommended that it be sold to Mr. Peterson for $350. The Commission approved the recommendation.

Consideration was given by the Commission to a request in the form of a petition from Gordon W. Beck for the Commission's consent to the vacation of all streets and alleys lying south of the north line of Blocks 3 and 4 in Abbey's Addition to Yaquina Heights in Lincoln County. The Right of Way Engineer stated that the proposed vacation will not affect the state's interests, and he recommended that the Commission consent thereto. The Commission approved the recommendation.

The Commission considered the sale of two acres of land on the Dee-

Parkdale Section of the Hood River Secondary Highway to Mr. and Mrs. Merlin Black for $150. The Right of Way Engineer stated that the property is no longer needed for highway purposes, and he recommended that it be sold to Mr. and Mrs. Merlin Black for the sum mentioned. The Commission approved the recommendation.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties needed as right of way in connection with various highway improvements or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

Seven Oaks-Medford Section of the Pacific Highway

R 20963 - John Bohnert
(Jackson)
Parcel No. 1: 1.62 acres for Right of Way
Parcel No. 2: 0.01 acre for Right of Way
Parcel No. 3: 0.18 acre for Right of Way
Parcel No. 4: 0.13 acre for Easement

R 20964 - Lillian Salade
(Jackson)
Parcel No. 1: 0.45 acre for Right of Way
Parcel No. 2: 0.19 acre for Channel Change
Parcel No. 3: 0.15 acre for Irrigation Ditch Easement

R 20965 - R. H. Lounsbury
(Jackson)
Parcel No. 1: 0.4 acre for Right of Way
Parcel No. 2: 0.01 acre for Irrigation Ditch Easement

R 20969 - Francis E. Miller
Right of Way (Jackson)
0.21 acre

R 20970 - Orth F. Miller
Right of Way (Jackson)
0.09 acre

R 20973 - Eli W. Davis
Right of Way (Jackson)
0.4 acre

R 20974 - Ivan T. Skyrman
Right of Way (Jackson)
0.2 acre

R 20976 - School District No. 6
(Jackson)
Parcel No. 1: 0.47 acre for Right of Way
Parcel No. 2: 0.25 acre for Channel Change

Seven Oaks-Medford Section of the Pacific Highway (cont.)

R 20977 - The California Oregon Power Company
Right of Way (Jackson)
0.08 acre

R 20978 - Charles Jantzer
Right of Way (Jackson)
0.38 acre

R 20979 - Howard Holden
Right of Way (Jackson)
0.10 acre

R 20980 - Howard-Cooper Corporation
Right of Way (Jackson)

R 20790 - Andrew W. Laricks
Right of Way (Jackson)
2.12 acres

October 29, 1953

Blackwell Hill-Seven Oaks Section of the Pacific Highway (cont.)

R 20799 - LaRue Morris
Right of Way (Jackson)
22.79 acres

R 20800 - Benton A. Boyce
Right of Way (Jackson)
4.94 acres

R 20801 - Gold Ray Realty Co.
Parcel No. 1: 22.46 acres
Parcel No. 2: 0.42 acre
Parcel No. 3: 2.30 acres
Parcel No. 4: 2.39 acres
(Jackson)

R 20819 - Chris Stadelman
Right of Way (Jackson)
0.88 acre

R 20820 - Nolen F. Biehler
Right of Way (Jackson)
0.25 acre

R 20821 - John S. Day
Right of Way (Jackson)
0.8 acre

R 21137 - Harriett Lee S. Kendall
(Jackson)
Parcel No. 1: 54.4 acres for Gravel Pit
Parcel No. 2: Easement for Haul Road 1.93 acres

R 21138 - A. T. Lathrop
Gravel Pit Plant and Stock Pile Site (Jackson)
29.20 acres

R 21139 - Bernie B. Moore
Gravel Pit (Jackson)
9.59 acres

R 21140 - Walter S. Baker
Easement for a Haul Road (Jackson)
0.04 acre

Unit No. 3 of the T. H. Banfield Expressway

R 16727 - Sisters of Charity of Providence in Oregon
Right of Way (Multnomah)
Parcel No. 1: 9,380 square feet
Parcel No. 2: 11,300 square feet

October 29, 1953

Unit No. 3 of the T. H. Banfield Expressway (cont.)

R 20598 - Rushlight's Inc.
Railroad Right of Way (Multnomah)
26,150 square feet

R 20600 - J. J. Forkan
Right of Way (Multnomah)
2,581 square feet

R 20602 - Norman O. Moyer
Right of Way (Multnomah)
1,855 square feet

R 20658 - Drake Lumber Company
Right of Way (Multnomah)
9,932 square feet

R 20659 - Eagle Lumber Company
(Multnomah)
Parcel No. 1: 0.57 acre for Right of Way
Parcel No. 2: 0.01 acre for Easement for Retaining Wall

R 20599 - Ridgway Johnson
Railroad Right of Way (Multnomah)
Parcel No. 1: 9,410 square feet
Parcel No. 2: 14,065 square feet

Unit No. 4 of the T. H. Banfield Expressway

R 14868 - Verlin E. McCarthy and Sam G. Danna
(Multnomah)
To condemn leasehold interest of above owners

R 20621 - M. E. Paget
Right of Way (Multnomah)
314 square feet

R 20623 - Kenneth K. Niimi
Right of Way (Multnomah)
8,082 square feet

R 20632 - General Fuel & Lumber Co.
Right of Way (Multnomah)
19,530 square feet

R 20928 - Sam. G. Danna
Sho-fly Easement (Multnomah)
1,788 square feet

October 29, 1953

Unit No. 4 of the T. H. Banfield Expressway (cont.)

R 21160 - Marley Brown Lumber Service
Right of Way (Multnomah)
21,200 square feet

Goshen-Coast Fork, Willamette River Unit of the Pacific Highway

R 18451 - E. R. Copenhaver
Right of Way (Lane)
1.62 acres

R 18456 - George E. Hill
Right of Way (Lane)
4.83 acres

Salem-Hayesville School Section of the Pacific Highway East

L 1795-A Ed Randle
Right of Way (Marion)
Parcel No. 1: 495 square feet
Parcel No. 2: 600 square feet

East Unit Pendleton-Deadman's Pass Section of the Old Oregon Trail Highway

R 20089 - Frank Neagle
Right of Way (Umatilla)
Parcel No. 1: 47.49 acres
Parcel No. 2: 0.15 acre

R 20090 - James R. Thompson
Right of Way (Umatilla)
Parcel No. 1: 15.82 acres
Parcel No. 2: 7.35 acres

R 20091 - Roy F. Hobby
Right of Way (Umatilla)

Parcel No. 2: 13.55 acres
Parcel No. 3: 7.61 acres

R 20105 - D. V. Glenn
(Umatilla)
Parcel No. 1: 1.63 acres for Gravel Pit
Parcel No. 2: 0.45 acre for Haul Road

R 20106 - Sophia Byers McComas Estate
Gravel Pit (Umatilla)
2.95 acres

East Unit Pendleton-Deadman's Pass Sec. of the Old Oregon Trail Hwy. (cont.)

R 20109 - William Peterson Estate
Right of Way (Umatilla)
Parcel No. 1: 14.94 acres
Parcel No. 2: 0.26 acre
Parcel No. 3: 0.27 acre

R 20107 - John de Romanett
Right of Way (Umatilla)
1.25 acres

R 20385 - Roy F. Hobby
Right of Way (Umatilla)
0.35 acre

County Farm-Ashland Section of the Pacific Highway

L 1935 - Charles W. Koyl
New resolution required for change of description and change of access points

Barbur Boulevard-Tualatin River Section of the West Portland-Hubbard Hwy

L 2019 - Paul L. Kertes
New resolution required for change of description

Winchester-Garden Valley Road Section of the Pacific Highway

L 1995 - J. M. Housley
New resolution required for change of description

Salem-West Salem Section of the Salem-Dallas Highway

R 15173 - Wilbur P. Lewis (Lessee's interest only)
Right of Way (Polk)
295 square feet

The Commission approved the request by adopting the attached resolutions relative thereto marked EXHIBITS "J-2" through "J-11" inclusive, which resolutions by this reference are made a part hereof with like effect as though extended in full herein. The amounts of offers will be determined later and are to be approved by the Commission by telephone before being tendered to the property owners.

The meeting recessed for luncheon at 12:00 noon and reconvened at 2:00 p.m. in the same room with the same persons present and participating.

The Commission considered and approved the Chief Counsel's report on cases which have been tried since the September meeting of the Com-

mission as follows:

1. State vs Ed Randle, L 1795-A, for acquisition of 1,095 square feet of land on the Salem-Hayesville School Section of the Pacific Highway East: The Chief Counsel reported the status of this case advising that the court decreed that payment should be made to Mr. Randle on the basis of land actually taken and occupied by the highway improvement. He requested authority to condemn the property if necessary. The Commission approved the request by unanimous vote.

2. State vs Gordon C. Dudley, et ux, L 1998, for acquisition of 4,500 square feet of land on Unit No. 4 of the T. H. Banfield Expressway. The State offered $2,250 for the property, whereas the owners demanded $5,000 plus $500 attorney's fee. The jury returned a verdict in the amount of $3,450.

3. State vs A. L. Weddle, et ux, L 1977, for acquisition of 0.044 acre of land on the Noble-Slough Foster Section of the Santiam Highway with restriction of access except for one 25-foot approach. An offer of $150 was made for this property, but the defendants demanded $2,600. The jury returned a verdict of $1,000. At the time of the trial it was stipulated that the access point as set forth in the complaint would be deleted and that in lieu thereof the owners would have a 25-foot access opposite Highway Engineer's Station 1486+50. The defendants' attorney accepted this stipulation with the understanding that the Commission would, at its October meeting, adopt a resolution giving effect to the change in access point. He presented such resolution and recommended its adoption. The Commission approved the Chief Counsel's recommendation by adopting the attached resolution relative thereto marked EXHIBIT "J-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

4. State vs Scott Chandler, et al, L 1908, for acquiring 0.425 acre of land for a frontage road on the Eagle Creek Section of the Clackamas Secondary Highway. The State offered $150 for this property which the owners refused and demanded that all of their property be purchased by the State, and that they be paid $5,900 including attorney's fees. The jury returned a verdict of $500 plus $350 attorney's fees plus $11.12 expenses.

5. State vs Ingar Amelia Abbott, et al, L 1930, for the purchase of 0.273 acre on the T. H. Banfield Expressway at N. E. 148th Avenue. The State offered $1,530 for this property, whereas the defendants demanded $6,750 plus $1,650 as attorney's fees. The jury returned a verdict of $3,850.

6. State vs Washington County, et al, L 1470, for acquisition of 0.383 acre of land on the Multnomah County Line-Barnes Road Section of the Sunset Highway. Prior to filing the complaint, $7,325 was offered for a larger tract than was described in the amended complaint, and it appeared that on this basis the smaller tract to be acquired would have a value of approximately $1,875. The Court allowed $2,000 for the land and damages plus interest plus

$500 attorney's fees.

(For further details concerning the above court cases, see the Chief Counsel's letter to the Commission dated October 27, 1953 in the General Files.)

The Chief Counsel reported that in summarizing the condemnation cases tried, it had been found that the amounts awarded by the courts averaged only 26 percent higher than the offers made. If the awards made in Curry County were left out, the average would be reduced to 20 percent. This covers the period of one year from September 1, 1952 to August 31, 1953.

The Commission also considered and approved the Chief Counsel's report on condemnation cases settled since the September meeting of the Commission:

1. State vs Oscar E. Ferguson, et al, L 2038, to acquire 5.25 acres of land on the Hayesville Junction-Wilsonville Junction Section of the Portland-Salem Expressway and to acquire 7.79 acres of excess property: An offer for this land was made in the sum of $11,750, whereas the owners demanded $26,000. Negotiations effected a settlement in the sum of $12,920.

2. State vs Olav Everson, L 2029, to recover the sum of $438.12 for repairing damage to a guard rail on the Wapinitia Highway at approximately M. P. 26.00. A settlement was effected, and a check received for the sum of $438.12, and the case dismissed.

3. State vs Lester C. Peter, et ux, L 2043, for the purchase of 14.49 acres of land on the Hayesville Junction-Wilsonville Junction Section of the Portland-Salem Expressway and for 0.46 acre of land for grade separation of the Portland-Salem Expressway and Marion County Road No. 433, also for prohibition of access to the highway: The State offered to pay the sum of $4,000 for this property, whereas the owners had demanded $9,000 including an allowance for fencing. After negotiations, an option was secured for the sum of $5,000 which recognizes the State's obligation to pay the fencing allowance.

4. State vs. George Bernhardt, et al, L 1987, to acquire 0.455 acre of land for improvement of Fisher Road to serve as a service road for the Salem By-pass Section of the Pacific Highway East. The State offered to pay $603 for this property, whereas the owners demanded $4,500 plus $750 attorney's fees. A settlement was effected for the sum of $930.

5. State vs John M. Neal, et al, L 2056, for the acquisition of 0.58 acre of land on the Crooked River-Terrebonne Section of The Dalles-California Highway. An offer was made for this property in the sum of $121, whereas the owners demanded $500. A settlement was effected for $121 provided the State will pay all of the expenses involved in the conveyance and will secure its own title insurance.

6. State vs Mamie Lake, et al, L 1966, for acquisition of 9.7 acres on the Elkhead Road-Rice Hill Section of the Pacific Highway. An offer was

made for this property in the sum of $13,400, whereas the owners demanded the sum of $20,000. A settlement has been agreed upon for the sum of $16,500.

7. State vs Arthur O. Anderson, L 1971, for the acquisition of six acres of land on the Elkhead Road-Rice Hill Section of the Pacific Highway. Appraisals for the value of the land ranged from $2,785 to $6,780. A settlement was agreed upon for the sum of $5,000.

(For further details on these settlements, see the Chief Counsel's letter of October 26, 1953, in the General Files.)

The Commission considered and confirmed offers reported by the Chief Counsel for acquisition of real property required for various highway purposes, which offers were tendered to the owners prior to the commencement of condemnation proceedings in conformity with authority granted by the Commission in its resolution adopted December 20, 1951:

Harbor Drive-Barbur Boulevard Section of Portland-Salem Expressway

R 20656 - Owner: AFKO Investment Corporation. 0.72 acre for right of way. Amount of offer $2,700.00. Authorized by Commissioner McIver on September 30, 1953.

Willamette River-Gervais Unit of Willamette River-Hayesville Section of Portland-Salem Expressway

R 20350 - Owner: John Lettenmair. 2.59 acres for right of way; 1.65 acres for right of way for frontage road. Amount of offer $974.00. Authorized by Commissioner McIver on September 30, 1953.

R 20649 - Owner: Jas. L. Wilson, et ux. 1.45 acre for right of way; 0.69 acre for right of way for frontage road. Amount of offer $4,744.00. Authoriz by Commissioner McIver on October 6, 1953.

R 20648 - Owner: T. H. DeArmond. 33.50 acres for right of way; 1.60 acre for right of way for county road grade separation and 0.99 acre for temporary easement for detour. Amount of offer $17,510.00. Authorized by Commissioner McIver on September 23, 1953.

R 20650 - Owner: J. C. Owre. 11.36 acres for right of way; 0.64 acre fo right of way and grade separation. Amount of offer $7,000.00. Authorized by Com missioner McIver on September 30, 1953.

R 20351 - Owner: Lester C. Peter. 14.49 acres for right of way; 0.46 acre for right of way. Amount of offer $4,000.00. Authorized by Commissioner McIver on September 30, 1953.

R 20684 - Owner: O. E. Powell. 11.46 acres for right of way. Amount o offer $4,950.00. Authorized by Commissioner McIver on September 30, 1953.

Willamette River-Gervais Unit of Willamette River-Hayesville Section of Portland-Salem Expressway (cont.)

R 20361 - Owner: Ray Stampley. 10.53 acres for right of way; 14.17 acres for excess taking. Amount of offer $6,847.00. Approved by Commissioner McIver on September 30, 1953

R 20345 - Owner: Fred W. Jablonski, single. 7.41 acres for right of way. Amount of offer $6,248.00. Authorized by Commissioner McIver on October 9, 1953.

R 20370 - Owner: Robert I. Wells. 4.03 acres for right of way; 0.23 acre for right of way for grade separation of county road and highway. Amount of offer $3,050.00. Authorized by Chairman Chandler on October 20, 1953.

R 20346 - Owner: Benjamin L. Eppers. 10.31 acres for right of way; 0.18 acre for right of way grade separation and 1.03 acre for easement. Amount of offer $10,232.00. Authorized by Chairman Chandler on October 20, 1953.

R 20366 - Owner: H. T. Voorhees. 23.5 acres for right of way. Amount of offer $13,550.00. Authorized by Chairman Chandler on October 20, 1953.

R 20365 - Owner: John N. Hooper. 11.00 acres for right of way; 1.42 acre for right of way grade separation and 0.31 acre for channel change and detour road easement. Amount of offer $20,275.00. Authorized by Chairman Chandler on October 20, 1953.

Unit No. 4 - Banfield Expressway

R 20624 - Owner: W. J. McReady Lumber Company. 20,300 square feet for right of way. Amount of offer $5,700.00. Authorized by Commissioner McIver on October 15, 1953.

R 20626 - Owner: M. E. Van Horn. 35,000 square feet for right of way. Amount of offer $2,100.00. Authorized by Commissioner McIver on October 9, 1953.

R 20633 - Owner: E. E. McKeraghan. 7,224 square feet for right of way. Amount of offer $6,000.00. Authorized by Commissioner McIver on October 9, 1953.

Glenwood-North Plains Section of the Wilson River Highway

R 19831 - Owner: Charles W. Moore, et al. 6.6 acres for right of way. Amount of offer $2,280.00. Authorized by Commissioner McIver on October 15, 1953.

R 19847 - Owner: Ernie Behrman. 9.64 acres for right of way. Amount of offer $4,299.00. Authorized by Commissioner McIver on September 30, 1953.

Glenwood-North Plains Section of the Wilson River Highway (cont.)

R 19822 - Owner: James L. Chapman. 2.29 acres for right of way; 0.74 acre for right of way; 0.74 acre for right of way. Amount of offer $5,741.00. Authorized by Commissioner McIver on September 30, 1953.

R 19832 - Owner: Alice Dooley. 5.82 acres for right of way; 0.51 acre for right of way; 0.83 acre for right of way. Amount of offer $3,723.00. Authorized by Commissioner McIver on September 30, 1953.

R 19833 - Owners: F. E. Jones. 5.2 acres for right of way; 1.07 acres for right of way. Amount of offer $2,370.00. Authorized by Commissioner McIver on September 30, 1953.

R 19828 - Owner: L. E. Kistner. 9.02 acres for right of way; 7.88 acres for right of way. Amount of offer $4,825.00. Authorized by Commissioner McIver on September 30, 1953.

R 19841 - Owner: J. Meeuwsen. 6.06 acres for right of way. Amount of offer $5,000.00. Authorized by Commissioner McIver on September 30, 1953.

R 19821 - Owner: Margaret Parson. 4.52 acres for right of way. Amount of offer $8,700.00. Authorized by Commissioner McIver on September 30, 1953.

R 19817 - Owner: Paul Wesley Parsons. 3.97 acres for right of way; 2.04 acres for excess. Amount of offer $1,650.00. Authorized by Commissioner McIver on September 30, 1953.

R 19842 - Owner: Paul Vanderzanden. 4.5 acres for right of way. Amount of offer $5,575.00. Authorized by Commissioner McIver on September 30, 1953.

R 19834 - Owner: Malissa Gibson, et vir. 8.72 acres for right of way; 0. acre for right of way grade separation and 0.62 acre for right of way grade separat Amount of offer $6,000.00. Authorized by Commissioner McIver on October 6, 19

Hauser-North Bend Section of the Oregon Coast Highway

L 1848 - Owner: Pioneer Trust Company, et al. 2.80 acres for right of way; 0.13 acres for right of way. Amount of offer $1,465.00. Authorized by Com missioner McIver on September 23, 1953.

R 21101 - Owner: C. F. Gregg. 0.78 acre for right of way. Amount of offer $390.00. Authorized by Commissioner McIver on September 23, 1953.

Rocky Point-Brush Creek Section of the Oregon Coast Highway

R 21056 - Owner: George Towy. 4.81 acres for right of way; 0.90 acre for excess. Amount of offer $3,462.00. Authorized by Commissioner McIver on October 15, 1953.

Rocky Point-Brush Creek Section of the Oregon Coast Highway (cont.)

R 21058 - Owner: W. M. Hubbs. 0.78 acre for right of way. Amount of offer $1,857.00. Authorized by Chairman Chandler on October 26, 1953.

Brush Creek-Rinehart Creek Section of the Oregon Coast Highway

L 1970 - Owner: S. J. Spoerl. 42.74 acres for right of way; 4.7 acres for quarry. Amount of offer $7,275.00. Authorized by Commissioner McIver on September 23, 1953.

Rinehart Creek-Frankport Section of the Oregon Coast Highway

L 2013 - Owner: Winston W. Chambers, et ux. 45.5 acres for right of way; 34 acres for right of way. Amount of offer $8,675.00. Authorized by Commissioner McIver on September 23, 1953.

Crooked River-Terrebonne Section of The Dalles-California Highway

R 10445 - Owner: John M. Neal. 0.58 acre for right of way; 0.04 acre for excess and 1.18 acre for excess. Amount of offer $121.00. Authorized by Commissioner Reynolds on October 9, 1953.

Grants Pass-Murphy Section of the Williams Secondary Highway

R 19906 - Owner: T. E. Gilmore. 0.13 acre for right of way. Amount of offer $615.00. Authorized by Commissioner McIver on September 30, 1953.

Tiller-Dead Horse Creek Section of the Tiller Trail Highway

R 20858 - Owner: Elmo Aldridge. 1.47 acre for quarry. Amount of offer $294.00. Authorized by Commissioner McIver on October 15, 1953.

Prairie Road-Eugene Unit of the Junction City-Eugene Section of Pacific Highway

R 20876 - Owner: J. R. Pattison. 0.07 acre for slope easement; 0.17 acre for storm sewer easement. Amount of offer $200.00. Authorized by Chairman Chandler on October 20, 1953.

R 20878 - Owner: W. L. Morrison. 0.07 acre for storm sewer easement. Amount of offer $300.00. Authorized by Chairman Chandler on October 20, 1953.

Goshen-Coast Fork Unit of the Goshen-Divide Section of the Pacific Highway

R 20502 - Owner: S. J. Godard. 9.94 acres for gravel pit. Amount of offer $1,500.00. Authorized by Commissioner McIver on September 23, 1953.

Winchester-Shady Point Section of Pacific Highway

R 19366 - Owner: R. M. Church. 1.2 acre for right of way. Amount of offer $4,950.00. Authorized by Chairman Chandler on October 20, 1953.

Winchester-Shady Point Section of Pacific Highway (cont.)

R 18533 - Owner: E. S. Kennedy. 0.55 acre for right of way. Amount of offer $3,350.00. Authorized by Chairman Chandler on October 20, 1953.

Shady Point-Booth Ranch Section of the Pacific Highway

R 21069 - Owner: Glenn L. Young. 27.73 acres for right of way; 1.37 acre excess taking. Amount of offer $8,115.00. Authorized by Chairman Chandler on October 20, 1953.

The Commission also considered and approved the following offers in condemnation cases:

Coshen-Divide Section of the Pacific Highway	Recommended Offer
R 20531 - Anton Meyers Right of Way (Lane) 3.99 acres	$ 3,416.00
R 20485 - B. Vaughn Right of Way (Lane) 0.57 acre	$ 420.00
R 20495 - C. R. O'Neil Right of Way (Lane) 7.29 acres	$ 4,677.00
R 20516 - Holt Lumber Company Right of Way (Lane) 6.1 acres	$ 1,633.00
R 20501 - Edwin W. Hoagland Lane Parcel No. 1: 5.27 acres for Right of Way Parcel No. 2: 5.63 acre for Gravel Pit	$ 5,000.00
R 20519 - Harry Holt Right of Way (Lane) Parcel No. 1: 4.43 acres Parcel No. 2: 0.46 acre Parcel No. 3: 21.64 acres	$13,157.00
R 20509 - Philip S. Holt Right of Way (Lane) 1.05 acres	$ 956.00

Shady Point-Booth Ranch Section of the Pacific Highway	Recommended Offer
R 21068 - A. Creason Right of Way (Douglas) Parcel No. 1: 2.92 acres Parcel No. 2: 3.03 acres	$ 3,500.00
R 21066 - Abner B. Rice Right of Way (Douglas) Parcel No. 1: 5.80 acres Parcel No. 2: 7.60 acres Parcel No. 3: 0.32 acre	$ 5,858.00

The Chief Counsel submitted a written opinion concerning the authority of the Commission to make expenditures for a sewage disposal system in Government Camp on the Mt. Hood Highway. He recalled that at the September meeting, a delegation requested that the Commission participate in providing a solution to the sewage problem at this place. He pointed out that Section 3, Article IX, of the Oregon Constitution, provides that road user funds be used exclusively for public highways, roads, streets, parks, and historical places. It was his opinion that the Commission has no authority to make expenditures pertaining to the sewage disposal system in Government Camp. The Commission accepted the report.

Payment of $3,500 to Lee Miller as damages for closing of Chatham Street in Roseburg was considered by the Commission. The Chief Counsel pointed out that in constructing the Deady-Shady Section of the Pacific Highway in Roseburg, Chatham Street was completely blocked. He recalled that at the September meeting R. G. Phillips who owns property adjoining the Miller property had been awarded damages by reason of the closure of this street. State appraisal of damage to the Miller property, he said, had been made at a maximum figure of $3,135. Mr. Miller, however, had an appraisal made indicating damages of $3,750. As a result of negotiations a compromise settlement had been arranged in the amount of $3,500, and he recommended that Mr. Miller be paid such sum as there is no question but what the State is liable for damages under provisions of Oregon Law. The Commission approved the payment as recommended.

The Commission authorized the Chief Counsel to institute prosecution of action against the following:

1. Ronald E. Land and Paul W. Ronsom to recover an amount of $64.73 for damaging a guard rail at M. P. 13.79 on the Columbia River Highway resulting from an automobile accident on May 15, 1951.

2. Jacquline Stockton and Phil Stockton to recover $133.61 expended for repairing damage to a bridge at M. P. 2.90 on the McKenzie-Bend Highway as a result of an automobile accident on May 26, 1950.

3. Oregon-Portland Cement Company and Lloyd Butler to recover $134.35 expended to repair damage to a timber guard fence at M. P. 4.29 on the Oswego Highway as a result of a truck accident on April 30, 1952.

4. Vernon Chamberlin in the amount of $458.86 for damages to a guard rail at M. P. 23.47 on the Crater Lake Highway as a result of a truck accident on April 1, 1952.

A schedule of salaries pertaining to attorneys in the Highway Department was discussed by the Commission. The Chief Counsel reported that he had sent to the Commission a copy of the Attorney General's letter on this subject, and that on the preceding day he had had a conference with the Attorney General and had discussed assignment of positions in various classifications and salaries of the attorneys who are now filling these positions. The Attorney General, he stated, has not made a final decision in the matter as he has not had an opportunity as yet to contact all state departments, but it appears that the rates contemplated will be satisfactory. It is anticipated, he added, that the Attorney General's approval will be received so that the proposed rates may be made effective as of November 1, 1953. The Commission approved the proposed rates effective on November 1, 1953, subject to definite approval by the Attorney General which is to be telephoned to the members of the Commission when received; otherwise the rates are not to be put into effect until December 1, 1953. (For details see copy of letter from the Chief Counsel to the Commission, dated October 28, 1953, in General Files.)

The Chief Counsel reported commencement of legal action by Myrtle L. Smith against the following State Highway employees: Louis E. Dearborn, O. G. McComb, A. F. Parson, and Lloyd C. Johnson. He explained that on August 28, 1953, on the John Day Highway about 10 miles north of Vale, a car driven by Mr. Vivian Smith with Myrtle L. Smith as a passenger had collided with the rear end of a state truck driven by Louis Dearborn and as a result of the accident, Mr. Smith died and Mrs. Smith suffered injuries requiring medical care. The State's insurance carrier, he stated, had undertaken to defend the truck driver but has not assumed responsibility for the defense of Mr. McComb, the Maintenance Superintendent, Mr. Lloyd C. Johnson, Resident Engineer, and Mr. A. F. Parson, Division Engineer. The plaintiff seeks to recover general damages in the amount of $35,000 and medical and hospital fees in the amount of $2,689.25. The insurance company, he stated, has refused to undertake the defense of Parson, Johnson, and McComb on the basis that recovery against these defendants is for alleged negligence in failing to post proper warning signs rather than in operation of the state truck. He recommended that his office be authorized to undertake the personal defense of Mr. Parson, Mr. McComb, and Mr. Johnson with the understanding that any judgment against them would be referred to the Legislature with a recommendation that it appropriate funds to pay the judgment. The Commission approved the recommendation.

The Commission confirmed the authority heretofore given the Chief Counsel to eliminate the frontage road clause from complaints for condemnation of property on the Rocky Point-Brush Creek Section on the Oregon Coast Highway in Curry County, and also on the V. B. Redinbaugh property on the Port Orford-Euchre Creek Section

of the same highway.

The Chief Counsel reported the following claims which, he said, have been determined to be uncollectible:

1. John Monroe Morgan, CAO-53-68, for damage to a guard rail on the Lower Columbia River Highway on August 16, 1953, in the amount of $200.00. The vehicle was registered in California,and all mail sent to Mr. Morgan has been returned and marked "Unknown".

2. A. E. Robb, et al, CAO-52-15, for damage to a metal flume adjacent to the Upper Columbia River Highway at M. P. 52.8 in the sum of $217.20. When Mr. Robb was finally located, it was found that he had taken bankruptcy proceedings with liabilities against him in excess of $90,000 and no assets.

3. E. E. Henderson, CAO-53-71, for damages to a State Highway Department truck on May 4, 1953, in the sum of $274.02. Contributory negligence has been charged to the driver of the State vehicle by reason of excessive speed as evidenced by skid marks, and it appears that the St ate does not have a good legal basis of recovery of this claim.

4. Donald L. E. Herron, CAO-53-16, for damages to a guard rail on the Steel Bridge in Portland at or near M. P. 0.90 on US 99W in the amount of $270.43. The automobile has been repossessed, and the former owner has left for parts unknown.

5. Nevy Smith, et al, L 1803, for damages in the amount of $287.12 to a bridge at M. P. 11.61 over Robbins Creek on the Powers Secondary Highway resulting from an accident on July 14, 1950. Mr. Smith's present whereabouts is unknown and from information available, it appears that even if the judgment were entered, it would be impossible to execute the same.

The Commission authorized abandonment of the claims as presented.

The Chief Counsel requested confirmation in the matter of waiving restrictions in a deed,whereby the Highway Commission conveyed to the City of Pendleton certain property situate near the Pendleton Airport, to permit the City to use the property for loading and temporary storage of munitions for one year. He pointed out that under the terms of an agreement dated May 22, 1950, with the City of Pendleton and Umatilla County, the property had been conveyed subject to the restriction that it would be used only for residential, municipal, and other public purposes. The City of Pendleton now wishes to lease a portion of this property for use in loading, unloading, storage, and transfer of munitions, which activity is now being conducted in the downtown area. The City, he stated, has agreed to hold the State harmless against all claims for loss, injury or damage by reason of the use or occupancy of the premises, and it is understood that the waiver of restrictions as granted by the State will be applicable only for the period from October 2, 1953 to October 1, 1954. The Commission confirmed the waiving of the restrictions.

The payment of a ten thousand-dollar fee to Winfree, McCulloch, Shuler and Sayre for legal services with respect to the issuance of $32,000,000 State Highway Bonds, Series 1953 B, was given consideration by the Commission. The Chief Counsel pointed out that it had been agreed to pay them for this service on the same basis as they were paid in connection with previous bond issues. The amount of the bill, he stated, is somewhat less than the amount they could have charged under the agreement, and he recommended that it be paid. The Commission approved the payment as presented.

The Chief Counsel inquired whether or not he should attend the 33d annual meeting of the Highway Research Board to be held in Washington, D. C., January 12 to 15, 1954. He explained that he had been requested to prepare a paper on the "Limitation of Use of Reserved Access Points" and also to cover the matter of access control under exercise of the State's police power as well as under the power of eminent domain. The Commission authorized the necessary out-of-state travel expense for his attendance at the meeting which is to be held in Washington, D. C., during January 12 to 15, 1954.

The Commission approved a report from the Engineer advising that conditions governing the awards of the following state highway contracts have been satisfied and that contract and bond forms have been sent to the respective contractors for execution pursuant to the Commission's instructions:

1. Powell Butte Junction-Deschutes County Line Section of Powell Butte Road in Crook County. Bids received September 25, 1953. Conditions of award satisfied September 28, 1953. Babler Brothers, Inc., Portland, contractor.

2. Linn County Line-Coburg Section of Eugene-Harrisburg County Road in Lane County. Bids received September 24, 1953. Conditions of award satisfied October 1, 1953. Harbert Brothers, Estacada, contractor.

3. Barbur Boulevard Junction Unit, Barbur Boulevard-White School Section of West Portland-Hubbard Highway in Multnomah County. Conditions of award satisfied October 13, 1953. Parker-Schram Company, Portland, contractor.

4. Crooked River-Terrebonne Section of The Dalles-California Highway in Deschutes County. Bids received September 25, 1953. Conditions of award satisfied October 14, 1953. Rogers Construction Company, Portland, contractor.

5. Construction of dolphins across mouth of "D" River at Delake, Lincoln County. Bids received September 25, 1953. Conditions of award satisfied October 19, 1953. C. J. Eldon, Portland, contractor.

6. Wilkesboro Overcrossing west of North Plains in Washington County. Conditions of award satisfied October 29, 1953. Lee Hoffman, Beaverton, contractor.

Consideration was given to the City of Baker's request for the widening of

Broadway and 10th Streets to full curb width. The Engineer stated that as previously instructed, he conferred with city officials to determine how much the City might contribute toward the project. The City Manager, he stated, advised that the City is willing to contribute $25,000. The total cost of the proposed work is estimated at $135,000, of which $24,000 is the cost of curb construction. He gave as his feeling that the City's offer is fair and advised that he knows of no way to finance the additional amount of $110,000 for the balance of the work. He suggested consideration when funds become available. The Commission deferred action on the matter pending appearance of a delegagion on this subject on the following day. (The delegation which appeared was advised that the Commission does not have funds to finance the project at this time and that there is also the question, as yet undecided, as to the ultimate route of the highway through the City. See additional paragraph ahead.)

A report was submitted by the Engineer concerning the request of the City of Condon for widening the John Day Highway and construction of a storm sewer within the City. The Engineer recalled that at the last Commission meeting this work was authorized on the condition that the City would pay 50 percent of the cost of constructing a two-block section of the storm sewer which is estimated to cost a total of $6,100. The City, he said, now advises that it has only $1,250 for use in construction of the storm sewer. He stated that the sewer project could be reduced to a one-block section, but in his estimation, that would be unwise. Accordingly he recommended that the two-block section be constructed and that the City's contribution be reduced to 20 percent of the estimated total cost of $6,100, or $1,250. The Commission approved the recommendation.

The Engineer presented a report concerning the acquisition of right of way for relocation of about 18 miles of US 30 around The Dalles dam. He pointed out that the Army Engineers have authority to acquire and are paying for the land but they do not have authority to condemn rights of access. They stated, however, that they will cooperate in every way possible to accomplish such access control as the Commission may desire. He referred briefly to those properties which would require access to the highway including three county roads. It was his thought that connections with county roads should be at grade as the small volume of traffic would not justify a traffic interchange. He recommended that authority be granted to purchase or condemn the land and the rights of access required for right of way on the basis that the Government will pay the State the appraised value of the properties. He further recommended that four or five private accesses be granted. In the discussion on this matter, the Chief Counsel suggested that a percentage basis might be used; for example, 80 percent for right of way and 20 percent for purchase of access rights. Chairman Chandler expressed the thought that the State should be required to pay only for acquiring access rights. The Chief Counsel pointed out that it probably will be cheaper to acquire the properties and the access rights at the same time rather than to negotiate for them separately. As a result of discussion, the Commission instructed the Engineer and the Chief Counsel to work out the best agreement they can with the Army Engineers and present their report at the next meeting. The Engineer mentioned that the Army Engineer's survey for relocation of the highway is now under way and will be ready for approval by the Commission at its next meeting.

Establishment of a policy regarding expenditure of the $250,000 Special State Tax Street Fund was considered by the Commission. As a result of discussion, the Commission by unanimous vote adopted the following regulations or requirements as a basis for allocation of the $250,000 account to be administered by the State Highway Commission, to be allocated to cities under the provisions of Chapter 371, Oregon Laws 1943, as amended by Chapter 149, Oregon Laws 1949:

1. Until otherwise ordered by the State Highway Commission, cities of over 5,000 population shall be ineligible to participate in the fund.

2. Cities of less than 5,000 population, to be eligible, must have streets, not a part of the state highway system, which are receiving excessive wear through sudden increases in population in the area, or heavy and unusual industrial traffic.

3. No allocation to any city shall exceed $15,000 from the $250,000 fund in any one year.

4. A city shall make formal application, by resolution, in a form prepared by the Chief Counsel of the State Highway Commission, and adopted by official action of the city council, and when such application is received an investigation shall be made by the State Highway Engineer, or his authorized representative, to determine facts and secure data for preliminary estimates of cost. (See resolution form attached.)

5. When the above requirements have been met in any given city, the State Highway Engineer shall prepare cost estimates and other pertinent data, and shall submit these data to the State Highway Commission for its consideration.

6. Cities shall provide, at their own cost, all right of way required on any project.

7. A city receiving any funds in any calendar year shall not be eligible for funds in the following year, except when all applications have been examined from cities not receiving funds in any calendar year and there is a balance of funds remaining from the $250,000 for that calendar year.

8. Necessary survey and engineering work shall be performed by the state. The cost of such engineering work shall be considered as a part of the cost of the project. The cost of preparing plans and specifications shall also be included in the cost of the project. All necessary supervision and overhead expenses for projects performed by state maintenance forces shall be considered as a part of the project cost.

The Commission by unanimous vote also adopted the following form of resolution for use by an eligible city or town in making formal application for an allotment of funds under the Special State Tax Street Fund Account:

RESOLUTION

WHEREAS, Section 2, Chapter 371, Oregon Laws 1943, as amended by

Section 1, Chapter 149, Oregon Laws 1949, provides that:

"Beginning with the year 1949 and annually thereafter there shall be and hereby is appropriated out of the state highway fund such sums of money as will equal 10 percent of all moneys credited to the state highway fund by the state treasurer between January 1 and December 31 of each year and which have accrued from funds transferred to the state highway fund by the state treasurer under the provisions of section 115-135, O. C. L. A., section 15, chapter 413, Oregon Laws 1945, as amended by section 4, chapter 114, Oregon Laws 1947; and section 29, chapter 467, Oregon Laws 1947; and from fines and penalties collected for violations of the motor vehicle and transportation laws. Such appropriation shall be distributed among the several cities as provided in this act."

and

WHEREAS, Section 3, Chapter 371, Oregon Laws 1943, as amended by Section 2, Chapter 149, Oregon Laws 1949, provides that:

"Such appropriation shall be allocated to the cities as follows: The sum of two hundred fifty thousand dollars ($250,000) shall be withdrawn from such appropriation each year and set up in a separate account to be administered by the state highway commission. Such account shall be spent each year by such commission upon streets not a part of the state highway system within cities which are receiving excessive wear through sudden increases in population in the area or heavy and unusual industrial traffic. Such commission shall determine the distribution of such expenditures after considering applications made to it therefor from the cities. The balance remaining in such appropriation after the withdrawal of said two hundred fifty thousand dollars ($250,000) shall be distributed to all of the cities. Each city shall receive such share of the balance as its population bears to the total population of the cities."

and

WHEREAS, the City of _____ is an incorporated city of the State of Oregon, and has a population of _____, as given by the latest official census, and

WHEREAS, the following streets of said city, _____

_____

_____

are not a part or parts of the state highway system, but are streets under the jurisdiction and control of said city which are "receiving excessive wear through sudden increase in population in the area, or heavy and unusual industrial traffic," and

WHEREAS, said streets are and each of them is in need of repair, reconditioning and other major improvement,

NOW, THEREFORE, the members of the City Council, in regular or special session assembled, do hereby find, declare and resolve:

1. That the following named streets of said city, to wit:

_____

_____

are in need of repair, reconditioning, and other major improvement.

2. That said streets are in their present state and condition of disrepair by reason of excessive wear through sudden increases in population in the area, or heavy and unusual industrial traffic.

3. That the Oregon State Highway Commission hereby is respectfully requested to consider and declare said streets as qualified for reconditioning, repair, and other improvement out of funds allocated and made available by and through the said $250,000 appropriation of state highway revenues which is to be administered and spent by the Highway Commission.

4. That the City of _____ does hereby offer to the State Highway Commission, and does hereby pledge complete cooperation and assistance to the end that said city may share and participate in the use and benefit of said special fund and appropriation; and therefore does designate _____ _____ as the official representative of the city in all negotiations resulting from this request.

Passed and approved this _____ day of _____, 19__.

There is attached hereto and made a part hereof, a city map on which is indicated the street, streets, road, or roads described in this resolution.

I hereby certify that the foregoing resolution was passed and approved by the City Council of the City of _____ at a regular or special meeting of said Council, held on the _____ day of _____, 19__, and the above copy is a true and correct copy of the original and of the whole thereof.

Dated this _____ day of _____, 19___.

_____
City Recorder

_____

Weight violations committed by Arthur T. Johnston, log hauler, were considered by the Commission. The Engineer reported that on September 3, 1953 Mr.

Johnston was apprehended on the Nehalem Secondary Highway in the City of Vernonia with a load of logs containing 12,940 board feet, the computed weight of which was 132,828 pounds gross, being a combined gross overload of 56,828 pounds. Mr. Johnston, he said, refused to allow his load to be weighed so the weight was computed from board feet scale. He reviewed Mr. Johnston's record during the past nine years, pointing out that he had been apprehended several times for overloading. On one occasion his PUC permit had been suspended,and on several other occasions he had been warned that if he did not stop the practice of overloading, his permit would be cancelled. He recommended in view of this record that Mr. Johnson's permit be revoked in order to preserve the highways. The Commission approved the recommendation and instructed the Secretary to formally request the Public Utilities Commissioner to cancel Mr. Johnson's PUC permit.

Pursuant to the Commission's instructions at the September meeting, the Engineer presented a written report showing the status of center-line striping as of October 23, 1953. Since that time, he stated, several of the nine incompleted sections shown in the report have been finished. He also pointed out that several sections of highway have been striped twice or three times during the year, showing that on approximately 7,400 miles of hard surfaced highways on the highway system, 9,755 miles of line have been restriped at a cost of $299,339. The Commission accepted the report.

Consideration was given by the Commission to adoption of a resolution authorizing operation of oversize and overweight combinations of vehicles upon Group I, Group II, and limited Group I highways without permit pursuant to legislation adopted at the 1953 session of the legislature. The Engineer stated that for a number of years permits have been issued for continuous operation of vehicles in excess of the basic statute as to length and gross weight on Group I and Group II highways. This required the issuing of approximately 5,000 permits annually. The 1953 legislature enacted an amendment to Section 12, Chapter 405, Oregon Laws 1951, which authorized the Highway Commission to declare by resolution the maximum gross weight and length, types, and combinations of vehicles which may be operated over state highways when in the judgment of the Commission the highway or section thereof is capable of carrying vehicles having an overall length and a gross weight in excess of the basic limit specified in the statutes. Upon filing a copy of such resolution with the Secretary of State, no permit is required. As a substitute for a permit, he recommended that a small letter-size map of the State of Oregon showing the three classes of highway in contrasting colors be furnished to all truck operators by the Public Utilities Commissioner when the equipment is licensed to operate over state highways. He also recommended adoption of a form of resolution in compliance with the law. The Engineer's recommendations were accepted,and the Commission adopted the attached resolution relative thereto marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Request for improvement of a short section of the Woodburn-Estacada Secondary Highway south of Estacada and construction of a four-lane pavement on the Beaverton-Hillsdale Highway were discussed by the Commission. The Engineer reported that a section of highway about four miles in length immediately south of Estacada has never been improved, that the road is very narrow and

crooked, and log trucks have been barred from using it. He recommended an expenditure of $210,000 from the Division 1 reserve funds for the year 1955 to finance grading and drainage structures on this section of highway, otherwise known as the Little Creek-Dubois Creek Section, the surfacing and paving work to be delayed until 1956 to give a better job. He also recommended that $281,000, which is the balance remaining in the Division 1 reserve fund for 1955, be allocated to finance widening the Beaverton-Hillsdale Highway for four lanes of moving traffic from the Multnomah County Line west toward Beaverton as far as the monies will extend. The Commission approved both projects as recommended.

Attention was given by the Commission to a resolution from the Rainier City Council requesting construction of curbs, drainage facilities, and full width pavement on "B" Street, route of US 30 in Rainier. The Engineer reported that an investigation discloses that it will cost about $40,000 to perform the work requested by the City. He further stated that the improvement is desirable but because of limited funds cannot be financed now. He recommended that the request be denied but that the project be kept in mind for a future program. The Commission approved the recommendation and instructed the Engineer to provide the City with the information it wants pertaining to curbs and grade lines to enable the City to construct curbs and sidewalks if it wants to.

Consideration was given by the Commission to a request from Fairplay School Board through Mr. Francis Ziegler, State Representative, for construction of a footpath between Fairplay School and the W. C. T. U. Farm Home, a distance of 0.85 mile, on the Albany-Corvallis Highway. The Engineer recalled that in 1948 a footpath had been constructed on the easterly side of the highway from the north city limits of Corvallis to a short distance beyond the Fairplay School. He further stated that a recent investigation revealed that approximately 50 children would use the footpath. He recommended construction of a footpath on the westerly side of the 0.85-mile section at an estimated cost of $4,300 provided the property owners along that side of the highway will grant a 10-foot easement upon which to construct the footpath. The recommendation was approved by the Commission.

Consideration was also given by the Commission to a resolution submitted by the City of Salem requesting installation of a traffic signal or a flashing beacon at the intersection of the Pacific Highway East and Stortz Avenue in the northerly part of Salem, and that provision be made for a left turn cutback movement at the intersection of North Capitol Street and Fairgrounds Road in Salem. The Engineer stated that an investigation discloses that Stortz Avenue is a "dead end" street and definitely does not warrant installation of a signal. He recommended that the request for the signal be denied. Concerning the cut back movement at Fairgrounds Road and Capitol, he said that similar requests had been received in the past and were denied because of the traffic hazard that such movements would create. He pointed out that the present operation of traffic at this intersection has been most successful as is borne out by the accident experience, and he declared that were left-turn movements allowed at this point, traffic flow would be disrupted and the accident potential would increase. He recommended that the request be denied. The Commission approved both recommendations.

The Commission gave attention to a request submitted by J. J. Johnson, Manager of the Tillamook Air Station, for investigation of a traffic hazard at the inter-

section of the Oregon Coast Highway and the Trask River Road south of Tillamook. The Engineer advised that an investigation of this matter was made by the Traffic Engineer, and it appears from his report that the primary difficulty at the intersection is caused by north to east left-turn movements. He also said that construction of a left-turn refuge would be quite expensive and that the bridge to the north of the intersection would act somewhat as a hazard. To relieve the condition, he recommended installation of a flashing beacon at the intersection, flashing amber on the Oregon Coast Highway and red to the side roads, at an estimated cost of $500. The Commission approved the recommendation.

A request from the Washington County Court for addition of a three-mile section of county road to the federal-aid secondary system was considered by the Commission. The Engineer reported that the County has improved all of its secondary highways to a bituminous wearing surface standard and is requesting additional mileage on its secondary system in order to utilize federal-aid secondary funds available in 1954. He recommended as an addition to the federal-aid secondary system of Washington County a county road known as the Olson Road which extends southerly from the Beaverton-Hillsdale Highway (FAS 625) near the Washington-Multnomah County line, a distance of three miles to a junction with the Beaverton-Aurora Highway (FAS 622) near Progress. The Commission approved the recommendation and instructed that all necessary data be submitted to the Bureau of Public Roads for further approval.

Consideration was given by the Commission to the allocation of federal-aid secondary funds to finance county road projects in Baker, Washington, and Wheeler Counties in the 1954-55 construction program. The Engineer recalled that at the September meeting a number of secondary projects on county roads had been approved and that from the eleven counties which had not selected projects, three counties; namely, Baker, Washington, and Wheeler have now selected projects for 1954 improvement as follows:

1. Baker County, FAS Highway 507 -- Haines-Rock Creek Section. 2.8 miles grading, surfacing, and oiling. $44,000.

2. Washington County, FAS Highway 581 -- Beaverton Junction-Progress Section. 3 miles grading and paving. $119,000.

3. Wheeler County, FAS Highway 318 -- Waterman-North Section. 6 miles surfacing. $54,000.

The unprogrammed balance, he stated, is $692,000. He recommended approval of these three projects which total $217,000 of federal-aid secondary funds. The Commission adopted the recommendation and so ordered.

The Engineer reported that surveys had been completed for relocation of three highway sections as follows:

1. Euchre Creek-Wedderburn Section of the Oregon Coast Highway in Curry County.

2. Shady Point-Booth Ranch Section of the Pacific Highway in Douglas County.

3. Myrtle Creek-Canyonville Section of the Pacific Highway in Douglas County.

He exhibited maps showing the proposed locations and also explained details in connection therewith. He recommended that the surveys be adopted. The Commission approved the recommendation unanimously by adopting the attached resolution relative thereto, marked EXHIBIT "I", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered and by unanimous vote granted the following requests for extensions of time within which to complete state highway contracts, subject to penalties as recommended by the Engineer:

1. J. C. Compton Company, Contract No. 3868 for paving the Lakeview (Pine Street North) Section in Lake County, requested an extension of time from October 31, 1953 to August 1, 1954, within which to complete this work. The Engineer recommended that the extension of time as requested be granted, without penalty.

2. General Construction Company, Contract No. 3958 for grading the Union Avenue-Swift Road Junction Section of the Pacific Highway West in Multnomah County, requested an extension of time from September 15, 1953 to December 24, 1953 within which to complete the project. The Engineer recommended that the extension of time be granted as requested, without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

3. J. C. Compton Company, Contract No. 3867 for grading and paving on the Lakeview Section of the Fremont and Klamath Falls-Lakeview Highway in Lake County, requested an extension of time from October 31, 1953 to August 1, 1954 for completion of this work. A recommendation was made by the Engineer that the extension of time be granted as requested, without penalty.

4. Tom Lillebo, Contract No. 3892 for construction of Wilbur Overcrossing on the Pacific Highway in Douglas County, requested an extension of time from September 30, 1953 to December 30, 1953 within which to complete the work on this contract. The Engineer recommended that the requested extension of time be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

5. Tom Lillebo, Contract No. 3591 for construction of Kilchis River Bridge and others, on the Bay City-Tillamook Section of the Oregon Coast Highway in Tillamook County, requested an extension of time from August 31, 1953 to September 10, 1953 within which to complete this work. A recommendation was made by the Engineer that the extension of time be granted as requested without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

6. Warren Northwest, Inc., Contract No. 3895 for paving Spring Creek Hill-Lobert Section on The Dalles-California Highway in Klamath County, requested an extension of time from September 30, 1953 to October 30, 1953 within which to complete this contract. The Engineer recommended that the extension of time as requested be granted without penalty.

7. Barney B. Helser, Contract No. 3844 for rock production on the Weston-Summerville Junction Section of the Weston-Elgin Highway in Umatilla and Union Counties, requested an extension of time from August 31, 1953 to October 31, 1953 within which to complete the work on this project. A recommendation was made by the Engineer that the extension of time as requested be granted without penalty.

8. Warren Northwest, Inc., Contract No. 3987 for grading and paving the Heppner (Race Track Street) Section in the City of Heppner, Morrow County, requested an extension of time from September 30, 1953 to October 30, 1953 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

9. La Grande Concrete Pipe Company, Contract No. 3978 for grading and paving Union (Dearborn Street) Section in the City of Union in Union County, requested an extension of time from September 15, 1953 to October 30, 1953 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

10. R. H. Sussex, Contract No. 3843 for rock production on the Nye Junction-Beech Creek Section of the Pendleton-John Day Highway in Umatilla and Grant Counties, requested an extension of time from August 31, 1953 to October 30, 1953 within which to complete this work. A recommendation was made by the Engineer that the extension of time be granted as requested subject to assessment of an engineering penalty from August 31, 1953 to the completion date of the job.

11. United Paving Company, Contract No. 3933 for paving the Miles Crossing-Johnson Road Section on the Youngs River Loop County Road in Clatsop County, requested an extension of time from September 30, 1953 to October 31, 1953 within which to complete this work. A recommendation was made by the Engineer that the extension of time be granted as requested without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

12. Parker-Schram Company, Contract No. 3793 for grading and paving the Shogren-Rowena Unit, Mosier-The Dalles Section on the Columbia River Highway in Wasco County, requested an extension of time from September 30, 1953 to November 29, 1953 to complete the work on this project. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

13. McNutt Brothers, Contract No. 3741 for bridges, grading and paving on the Toledo-Newport Section of the Corvallis-Newport Highway in Lincoln County, requested an extension of time from September 30, 1953 to November 30, 1953 to complete this project. The Engineer recommended, and a letter from the Bureau of Public Roads was presented concurring therein, that the extension of time as requested be granted without penalty.

14. Acme Construction Company, Contract No. 3806 for grading and paving on the County Farm-Ashland Section of the Pacific Highway in Jackson County, requested an extension of time from September 30, 1953 to October 30, 1953 within which to complete this work. The Engineer recommended that the extension of time be granted as requested without penalty, and he presented a letter from the Bureau of Public Roads concurring therein.

15. Inter-City Sand and Gravel Company, Contract No. 3839 for grading and paving on the Springfield Section of the McKenzie Highway in Lane County, requested an extension of time from August 31, 1953 to November 30, 1953 to complete this work. A recommendation was made by the Engineer that the extension of time as requested be granted with engineering penalty to be assessed from the specified completion date of August 31, 1953 to the actual completion date. A letter from the Bureau of Public Roads was presented concurring therein.

16. Natt McDougall, Contract No. 3754 for grading and paving the Low Pass Section of the Siuslaw Highway in Lane County, requested an extension of time from August 31, 1953 to July 31, 1954 within which to complete this project. The Engineer recommended that the extnsion of time as requested be granted without penalty. A letter from the Bureau of Public Roads was presented concurring therein.

17. E. C. Hall Company, Contract No. 3745 for grading and paving on the Tigard-Tualatin River Section of the Pacific Highway West in Washington County, requested an additional extension of time from September 30, 1953 to October 31, 1953 within which to complete the work on this project. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

18. Warren Northwest, Inc., Contract No. 3778 for paving the west approaches to the Salem Bridges on the Salem-Dallas Highway in Polk County, requested an additional extension of time from September 30, 1953 to October 31, 1953, to complete this work The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

19. Diamond Tractor & Equipment Company, Contract No. 3857 for grading and oil mat surfacing on the Middle Unit, Princeton-Follyfarm Section of the Rome-Princeton Highway in Harney County, requested an extension of time from September 30, 1953 to July 31, 1954 for completion of this project. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

20. Porter W. Yett, Contract No. 3770 for grading and paving on the Benton County Line-Cheshire Section of the Territorial Highway in Lane County, requested an extension of time from August 31, 1953 to November 10, 1953 for completion of this work. This project was satisfactorily completed on September 18, 1953 so an extension of time to November 10 is unnecessary. He recommended that an extension of time be granted without penalty to September 18, 1953. A letter was presented from the Bureau of Public Roads in concurrence.

21. Vernie Jarl, Contract No. 3765 for grading the Hayesville School-Turner Road Unit, Salem By-pass Section of the Pacific Highway East in Marion County, requested an extension of time from July 31, 1953 to October 15, 1953 in which to complete this work. A recommendation was made by the Engineer to grant the extension of time as requested without penalty. A letter was presented from the Bureau of Public Roads in concurrence.

22. J. C. Compton Company, Contract No. 3866 for paving on the Fremont Junction-Rosa Creek Section on the Warner Highway in Lake County, requested an extension of time from October 15, 1953 to August 1, 1954 within which to complete this work. A recommendation was made by the Engineer that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

23. Rogers Construction Company, Contract No. 3729 for grading on the Middle Unit, Arlington-Heppner Junction Section of the Columbia River Highway in Gilliam County, requested an extension of time from April 30, 1953 to August 31, 1953 to complete this work. A recommendation was made by the Engineer that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

24, Central Heating Company, Oregon Ltd. & F. L. Somers, Contract No. 3945, for grading and paving Fayette Street in Waldport, Lincoln County, requested an extension of time from September 15, 1953 to October 10, 1953 to complete this work. A recommendation was made by the Engineer that the extension of time as requested be granted without penalty.

25. J. C. Compton Company, Contract No. 3599 for grading and paving Winchester Avenue in Reedsport, Douglas County, requested an extension of time from July 31, 1953 to September 30, 1953 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

26. Keith Brothers Construction, Contract No. 3959 for grading and oil mat surfacing on the China Camp-Marsh Section of the Oregon Coast Highway in Coos County, requested an extension of time from September 30, 1953 to November 14, 1953 in which to complete this work. A recommendation was made by the Engineer that the extension of time be granted as requested without penalty.

27. R. H. Sussex, Contract No. 3916 for rock production on the La Grande-Baker Section of the Old Oregon Trail Highway in Union and Baker Counties, requested an extension of time from September 30, 1953 to November 30, 1953, for completion of this work. A recommendation was made by the Engineer that the extension of time be granted as requested without penalty, subject to the condition that if the contractor does not complete the job by November 30, then he is to be assessed as a penalty all engineering costs that occur after that date in connection with this contract.

28. R. H. Sussex, Contract No. 3858 for rock surfacing on the Poker Creek-Sumpter Section of the Sumpter Valley Highway in Baker County, requested an extension of time from October 31, 1953 to December 30, 1953 for completion of this work. A recommendation was made by the Engineer that the extension of time as requested be granted without penalty on the condition that if the work is not completed by that date then all engineering costs thereafter incurred by the State on that job until actual completion of the project shall be assessed against him.

29. Acme Construction Company, Contract No. 3927 for grading and paving of Molalla (Section Street and Hart Avenue) Section in Clackamas County, requested an extension of time from August 15, 1953 to June 15, 1954 for completion of this work. A recommendation was made by the Engineer that the extension of time as requested be granted without penalty.

(For further details regarding the extensions of time listed above, see copies of the Contractors' requests and the Engineer's recommendations to the Commission on file in the respective contracts in the Secretary's Office.) *

*FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above was based upon the recommendations of the State Highway Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Engineer reported that Contracts Nos. 3509, 3591, 3599, 3745, 3767, 3770, 3810, 3819, 3825, 3834, 3872, 3880, 3898, 3907, 3917, 3918, 3920, 3921, 3938, 3939, 3945, 3947, 3952, 3953, 3960, 3969, 3971, 3987, and 3993 have been completed according to the requirements of the contracts or modifications thereof, and that the contracts are now ready for acceptance. The Commission, after due consideration, accepted said contracts by adopting the attached resolution relative thereto, marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A request from the Lane County Court for an exchange of highways was discussed by the Commission. The Engineer reported that the County has offered to take over the Fox Hollow State Secondary Highway if the Commission will take over as a secondary highway the location from 19th and "Q" Streets in Springfield to a connection with the Pacific Highway in Eugene. The Fox Hollow Secondary Highway, he pointed

out, is 15.5 miles long and only 5.6 miles has been improved to a graded standard. The cost of completing this highway to an oiled standard he estimated at $800,000. The "Q" Street route, he said, is 4.99 miles long, of which 0.67 mile has been improved to a four-lane highway standard and 4.32 miles are unimproved; however, the County has purchased approximately $100,000 worth of right of way. To complete the highway to a four-lane standard including right of way purchase, he estimated would cost $1,136,000. He pointed out that while the initial cost of development would be greater on the "Q" Street route than on the Fox Hollow Secondary, the maintenance costs would be less owing to the shorter length of the "Q" Street route. He recommended that favorable consideration be given to the County's request for exchange of the two highways. Action on this matter was deferred by the Commission pending the appearance of a delegation on the following day. (The delegation which appeared was told that no commitment can be made at this time; the Commission, however, authorized a survey, estimated to cost $25,000 to determine the location of the "Q" Street route and the future location of the Pacific Highway through the critical area and also to determine the approximate cost of right of way. See additional paragraph ahead.)

Consideration was given by the Commission to a complaint from Mrs. Verne E. Mobley of Kent, Oregon, concerning the condition of the Shaniko-Fossil Secondary Highway, particularly the section between Shaniko and Antelope, a distance of eight miles. The Engineer reported that the roadbed is about 16 feet wide and consists of a six-inch crushed rock surface about 12 feet in width. He further stated that the road does get muddy when the frost leaves the ground, and is dusty in the summer time, but is bladed and kept in condition when moisture will permit. As there are only about 45 vehicles per day using the highway, he recommended that it be not improved at this time. The Commission accepted the recommendation.

A proposal was considered from the City of Eugene that the State add to the State Highway System First Avenue from Van Buren Street to Washington Street, also Washington and Jefferson Streets from First Avenue to Seventh Avenue, and construct a new connection from First Avenue and Washington Street to Mill Street at Fourth Street; and that a detailed study be made to determine feasibility and cost to construct overhead crossing structures on Washington and Jefferson Streets for a one-way couplet. The matter was discussed briefly but no action was taken pending the appearance of a delegation on the following day. (The delegation which appeared was advised by Chairman Chandler that the State will conduct a study as requested provided the City will pay one-half the total estimated cost of $2,500.)

The Engineer reported that the authorization of $185,000 in the 1954 Federal Aid Secondary Highway Program for the Salem By-pass grade separation on the North Santiam Highway is sufficient to construct the interchange but is not enough to make proper connections to the existing highway. In order to complete the interchange, he recommended an increase of $143,000 for this project, the funds to be taken from Division No. II reserve secondary account. The Commission approved the recommendation.

The Engineer requested additional increases in project authorization as

follows, all of which were approved by the Commission by unanimous vote:

1. Noble Slough-Foster Section, Santiam Highway, Contract No. 3918. Increase of $25,000 for slide removal.

2. Middle Unit, Reedsport-Dean Creek Section of the Umpqua Highway, Contract No. 3752. Increase of $22,000 for removal of slides.

3. The Winchester Bay-Clear Lake Unit of the Oregon Coast Highway, Contract No. 3656. An increase of $67,000 for excess excavation caused by slides and for fencing along Clear Lake.

4. Water Street-Commercial Street Unit, Center Street Bridge Project in Salem, Contract No. 3834. Increase of $5,000 principally for additional pavement to secure satisfactory curb radius.

A request from the Merrill City Council for a change in streets to be improved with 1953 State Tax Street Funds was discussed by the Commission. The Engineer explained that in January of this year, the Commission approved a street improvement project in Merrill but before the agreement was signed there was a change in city administration, and the new Council has asked for a substitution of projects. He further stated that investigation reveals that the new project qualifies for the funds and that it will cost about $500 less than the original one or about $18,000 of which amount the City will pay $3,000. He recommended approval of the revised project. The Commission adopted the recommendation.

The Engineer reported that the City of Canyon City has satisfied legal requirements with respect to expenditure of State Tax Street Funds that accrued to the City during the first six-month period of 1951. He also reported that the Cities of Canyon City and Haines have satisfied legal requirements with respect to expenditure of State Tax Street Funds accrued to them during the last six-month period of 1951. In addition, the City of Haines, he stated, has also satisfied legal requirements with respect to expenditure of State Tax Street Funds accrued to the City during the first six-month period of 1952. Also the City of Haines and the City of Scotts Mills have satisfied legal requirements concerning expenditure of State Tax Street Funds accrued to them during the last six-month period of 1952. The Engineer also reported that the following cities and towns have satisfied legal requirements concerning expenditure of State Tax Street Funds that accrued to them during the first six-month period of 1953: Bonanza, Butte Falls, Corvallis, Culver, Eagle Point, Gearhart, Gold Hill, Haines, Maupin, Powers, Scotts Mills, Siletz, Taft, and Wheeler. The plans for all of the improvements proposed to be financed with the funds under discussion, he stated, have been examined and found satisfactory. He recommended approval of the plans by the Commission. The Commission accepted the recommendation by adopting the attached resolutions relative thereto, marked EXHIBITS "D-1" through "D-5", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Engineer presented for the Commission's consideration a plan to prevent future flooding of a trailer court at Winchester Bay on the Oregon Coast Highway. He pointed out that when the highway was reconstructed at this point, the existing culvert was found not large enough to accommodate a combination flood condition with simultane-

ous high tide, and as a result a violent storm which occurred last year flooded a trailer court, causing considerable damage. There is danger, he said, that such a condition will re-occur unless something is done to correct the situation. The cost to install an additional culvert pipe, he said, is excessive, but in lieu thereof an agreement has been reached with the owners of the motor court whereby the State will construct a ring dike to prevent future flooding. He estimated the total cost to construct the dike at $7,340, which amount includes $700 for damages and $140 for additional right of way. He recommended approval of the project on the condition that the property owners will agree to assume all maintenance of the dike after a two-year period. He also recommended that the project authorization on the Winchester Bay-Clear Lake Unit of the Winchester Bay-Forest Boundary Section of the Oregon Coast Highway be increased in the amount of $6,500 to cover construction of the dike. The Commission approved both recommendations.

The Engineer called to the Commission's attention a typographical error in the 1955 Federal Aid Primary Highway Program approved June 26, 1953. The program, he said, shows in Division No. 3 an allotment of $915,000 for grading, pavement, and structures on the "North Unit", Goshen-Divide Section of the Pacific Highway, whereas the description should properly read "South Unit" of this highway section. In addition he requested that in the same authorization a change be made in designation of funds. There is an allotment of $275,000 in the 1955 Federal Funds, Interstate, approved June 26, for the Ashland Railroad Grade Separation Project on the Pacific Highway. Interstate Funds, he said, are not applicable to this project, so he suggested transfer of this $275,000 to the Goshen-Divide Section and transfer of a like sum of Federal Aid Primary funds from the Goshen-Divide Project to the Ashland Railroad Grade Separation Project. The Commission approved the correction in the description of the Goshen-Divide Section and also approved the transfer of funds as suggested by the Engineer.

The Commission considered a petition from residents and property holders adjacent to the Salmon River Highway, requesting the removal of brush, weeds, and other vegetation from the right of way of this highway easterly about one mile from Rose Lodge Park to the Chevron Gas Station. The Engineer reported that an investigation made by the Landscape Engineer reveals that a large portion of the section has been cleared of vegetation that is objectionable from the viewpoint of traffic hazards and scenic beauty. He recommended that the petition as submitted be denied, but that the petitioners be advised that the State will cooperate with each individual property owner for the pruning or removal of undesirable vegetation with the State to retain the right to select the vegetation which shall remain for purposes of screening, slope protection, etc. The Commission approved the recommendation.

Attention was given to a damage claim in amount of $30, filed by Kelsey Hobday, Jr., Roseburg, who alleges that it cost him such sum to remove white spray paint and to porcelainize his car as a result of operations of a state painting crew. The Engineer stated that the damage was done by one of the state maintenance crews during the painting of guard fence with spray guns in the early part of August, 1953. Since then, he said, instructions have been issued to the crews to be more careful in the use of spray painting equipment. He recommended that

Mr. Hobday's claim in the amount of $30 be paid contingent upon his executing the customary release form. The Commission accepted the recommendation.

The Commission also gave attention to a claim submitted by Towne Motors of Bend for asphalt spray damage to nine of their automobiles. The Engineer stated that information gathered from a field investigation reveals that the damage resulted from wind-carried asphalt spray during paving crew operations in that vicinity. Towne Motors, he said, submitted an invoice in the amount of $96 for cleaning and waxing five cars and cleaning three others. He questioned the amount of the claim and recommended settlement on the basis of fifty percent thereof, or $48. The Commission approved the recommendation.

The Engineer reported a request from the U. S. Forest Service to lease approximately one-half of the space in the lounge room in the Timberline Junction Maintenance Headquarters for office purposes in connection with expansion of their fire suppression service, such use to be for the period from September 1, 1953 to June 30, 1954 at $60 per month, with an option to extend the least to June 30, 1955 at the same rate. He also reported a request from the U. S. Forest Service for permission to use the kitchen and dining room in this building during the summer season only, and a portion of the sleeping quarters at a rental rate of $75 per month for the kitchen and dining room and $6 per month, or $1.50 per week, for the sleeping quarters, the matter to be covered by written lease extending from September 1, 1953 to June 30, 1954 with an option to extend it to December 31, 1954 at the same rate. He recommended approval of both leases. The Commission adopted the recommendation.

The Engineer reported that under authority granted him by the Commission on August 6, 1953, a restricted load limit was posted on a section of the Klamath Lake Secondary Highway between M. P. 45.17 (about five miles south of Rocky Point) to M. P. 43.35 (about seven miles north of Klamath Falls), to prevent damage by logging trucks. The restricted load limit, he stated, was made effective at 8:00 a.m. on October 9, 1953. He also reported that since that time, due to favorable weather, a portion of the highway is now able to carry legal loads. Accordingly, the load restriction has been removed on a 2.28-mile section of this highway, between M. P. 43.35 and M. P. 41.07, effective 8:00 a.m. Thursday, October 29, 1953. The Commission accepted and approved the report.

The Engineer also reported that the reduced load limit heretofore posted on the Umatilla River bridge at M. P. 11.84 on the Hermiston Secondary Highway, can now be removed inasmuch as temporary repairs have been made and the structure now is capable of carrying legal weight loads. The Commission approved removal of the restricted load limit by adopting the attached resolution relative thereto marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer requested and the Commission approved out-of-state travel expense for the following:

1. J. Al Head and Robert Blensly to attend the fourth annual highway planning conference of the Western Association of State Highway Officials in Denver, Colorado, during December 3 and 4, 1953. Estimated total cost $350.

2. George Hester to attend the Pacific Logging Conference in Seattle on November 4, 1953 at an estimated cost of $40, and also to attend a meeting of the Western Interstate Committee on Highway Policy Problems, Council of State Governments, in Los Angeles, November 18 and 19, 1953. Estimated cost $125.

3. William S. Bartholomew to go to Port Angeles, Washington, in connection with seismograph tests for the Bureau of Public Roads. The estimated cost of $85 is to be refunded to the State by the Bureau of Public Roads.

Attention was given by the Commission to a request from George Strozut, Jr., for establishment of a reduced speed zone on the Pacific Highway East near the Totem Pole Intersection north of Salem. The Engineer stated that this section of highway has been the object of a number of traffic engineering investigations during the past few years; that various corrective measures have been taken, and a number of requests for reduced speed have been denied; however, the facts now disclose that a reduced speed zone is warranted. He, therefore, recommended establishment of a 45-mile per hour speed zone on that section of the Pacific Highway East between a point three hundred feet north of the Totem Pole intersection (M. P. 46.11) and the north city limits of Salem at M. P. 48.87. The Commission accepted the recommendation by adoption of the attached resolution relative thereto marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that the State Speed Control Board at a meeting held on October 12 proposed the establishment of a 40-mile per hour speed zone in the south part of the Town of Brookings on the Oregon Coast Highway, Curry County. This section of highway, he said, has been investigated to determine the advisability of placing a reduced speed zone outside the city limits of Brookings, and the results indicate that a reduced speed zone is warranted. He, therefore, recommended that a 40-mile per hour speed zone be established on the Oregon Coast Highway between the south city limits of Brookings at M. P. 388.64 and Chetco Grange Hall at M. P. 389.19, if and when the State Speed Control Board establishes a 40-mile per hour speed zone within the town. The Commission approved the recommendation.

Consideration was given by the Commission to a form of resolution covering the granting of revocable permits to operators of overheight vehicles over state highways. The Engineer recalled that the Commission at its meeting on August 6, 1953, adopted a resolution authorizing such permits and had also approved a form of permit, which form did not include van-type bodies with permanent solid sides and fixed steel roof supports with flexible roof coverings, sometimes known as "California top" or "canvas top" vans. The motor transport industry, he said, wants such type of van included in the authorization and has asked that the matter be given careful consideration. He further stated that the matter has been studied and that it is his recommendation that the request be approved. In order to take care of the matter, he suggested adoption of a new resolution rescinding that adopted at the August 6 meeting and including the "canvas top" type of van, also approving a new form of permit to include such

type of van. The Commission accepted the Engineer's recommendation by adopting the attached resolution relative thereto marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein. The Commission also approved a new form of permit referred to in the resolution.

The Engineer presented for the Commission's approval a form of uniform endorsement to be attached to all property damage and liability insurance policies required with "Special Transportation Permits" covering single movements of machinery or equipment. He explained that the form is the result of negotiations among the Oregon Casualty Underwriters Association, the State Insurance Commissioner, and the Highway Department's Legal Counsel, and he recommended its approval by the Commission. The Commission approved the form as recommended. (See copy of Form "E 351" in General Files.)

Receipt of two requests from the Province of British Columbia, Canada, for information as to how the Oregon Highway Commission functions were reported to the Commission. The Engineer advised that he responded by sending copies of the highway law, regulations, and letters pertaining to procedure, an organization chart, and other material that might be helpful in establishing a highway organization similar to the Oregon State Highway Department.

Consideration was given to matters of unfinished business appearing on the Secretary's summary dated September 25, 1953, as follows:

1. Proposed extension of the Havana-Helix State Secondary Highway southerly from Havana to a connection with the Oregon-Washington Highway northeast of Pendleton: The Commission instructed the Secretary to write Mr. Brogoitti,who headed the sponsers of this project, that the Commission is in sympathy with the project which it considers a feasible one but is not in position at the present time to finance its construction due to lack of funds. This item is to be deleted from the list of unfinished business.

2. Controversy over charges for use of swimming facilities at Honeyman State Park: The Parks Superintendent stated that his report on this subject is not yet ready. This item is to remain on the list.

3. Requests for improvement of US 99W and the Amity-Dayton Secondary Highway: The Engineer advised that necessary field work has been accomplished but the final analysis is not complete. It was his thought that the report will be ready for the December meeting. This item is to remain on the list of unfinished business.

4. Proposed exchange of land in the Columbia Gorge with Fred Luscher: Action on this item was taken by the Commission earlier in the day.

5. Offer of Mr. Ralph Beard, Enterprise, to sell 18 acres of timber land at the south end of Wallowa Lake, for state park purposes: This matter was disposed of earlier in the day under the Parks Superintendent's reports so was ordered removed from the list.

6. Recommendation of Westmost Grange, Bandon, Oregon, that properties of Jess Strader and Ed Divelbiss at Bandon Beach be acquired for state park purposes: This matter was considered earlier in the day under the Parks Superintendent's reports when he was instructed to investigate the feasibility and cost of acquiring the land and submit a report. The item is to remain on the list of unfinished business.

7. Adoption of proposed resolution concerning operation of oversize and overweight vehicles without permit: Action was taken on this matter earlier in the day. The item was ordered deleted from the list.

8. Request of the City of Baker for widening Broadway and 10th Streets for four lanes of traffic: The Engineer's report on this matter was considered earlier in the day. The item was ordered removed from the list of unfinished business.

9. Adoption of a policy concerning use of the $250,000 Special State Tax Street Fund: The policy was adopted by the Commission earlier in the day and the item was ordered removed from the list of unfinished business.

10. Purchase of additional right of way on US 30 between Boardman and Pendleton: The Engineer reported that this investigation will require several months. He recommended therefore that the item be deleted from the summary of unfinished business and that it be introduced as new business when the study is completed. The Commission accepted the recommendation.

11. Request for highway improvement from Hatfield through Merrill to Lost River Junction in Klamath County: The Engineer advised that his report on this subject is not yet ready but will be rendered at the next meeting of the Commission. The item is to remain on the list of unfinished business.

12. Request for improvements to US 395 in the Crooked Creek area north of Lakeview: The Engineer stated that his report on this subject is not complete but will be made at the next meeting. This item is to remain on the list of unfinished business.

13. Request of Visitors' Service Committee of Portland for state aid in sewage problem at Government Camp and for installation of signs at city entrances showing the population, chief industry, et cetera: The Chief Counsel earlier in the day submitted an opinion on the sewage disposal matter, and the Commission at that time decided that State Highway funds cannot be used for the purpose. The Engineer stated that plans are under way to include population figures on signs at city entrances. The Commission instructed the Engineer not to place on the signs information concerning the city's chief industry, the elevation of the city, or a descriptive slogan as was requested, because too many words would be required. This item was ordered deleted from the list of unfinished business.

14. Request for placing the Clear Lake-Belknap Springs Forest Highway on the state highway system: The Engineer stated that he has not yet had time to contact the county officials that are concerned but would do so in the near future. The item is to remain on the list of unfinished business.

15. Status of the Starkey Secondary Highway: The Engineer stated that although he has not had time to compile a report on this subject, such will be done when he has contacted the county courts of Umatilla and Union Counties. This item is to remain on the list of unfinished business.

16. Progress of road striping operations: The Engineer's report on this subject was submitted earlier in the day; accordingly, the item was ordered deleted from the list of unfinished business.

The Commission confirmed Thursday and Friday, December 10 and 11, 1953 as the date for its next regular meeting and also tentatively selected Thursday and Friday, January 21 and 22, 1954, as the date for its following meeting. The Secretary was instructed to arrange for use of the Green Room in the Imperial Hotel, Portland, for both meetings.

The Commission discussed the matter of reclassifying the Salem-Dallas Highway and the Dallas-Coast Secondary Highway. The Engineer explained that the 1953 Legislature in listing the revisions of highways, included the Willamina-Salem and the Dallas-Rickreall Highways, but there still remains the matter of classifying them as primary or secondary highways. He further stated that he has given the matter careful study and that it is his thought that the Willamina-Salem Highway, which will include the eventual Rickreall-Dolph Corner cutoff, should be classified as a primary highway and that the Rickreall-Dallas and Dallas-Dolph Corner highways should be classified as secondary highways. He presented a form of a resolution to accomplish this end. The Commission deferred action on the matter until its meeting in December.

The Engineer reported a request from the Associated Timber Industries that log haulers be permitted to truck-haul logs, poles, and piling over state highways during Armistice Day as on other week days. He recommended approval of the request. The Commission adopted the recommendation and so ordered.

The Right of Way Engineer reported the need to acquire an additional small parcel of land containing 295 square feet at the west end of the Marion Street Bridge approach in West Salem to ease off the turn onto the Wallace Road (Salem-Dayton State Secondary Highway), the present turn being too sharp for long vehicle combinations. The owner of the property, he said, is Wilbur P. Lewis who has indicated a willingness to sell the land to the State for $600. He recommended purchase of the tract for such sum. The Commission approved the recommendation.

In this connection the Right of Way Engineer advised that a Mr. Dickenson has a leasehold on Mr. Lewis' property which will not expire for several years, and

which he will not relinquish so it appears necessary to condemn it. He requested authority for the Chief Counsel to start the condemnation proceeding. The Commission approved the request by adoption of the attached resolution relative thereto marked EXHIBIT "J-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was given by the Commission to the adoption of a working budget for the calendar year 1954, particularly a proposed budget suggested by the Engineer, copies of which were mailed to the members of the Commission with letter of transmittal dated October 13, 1953. The Engineer read aloud his said letter of October 13, and upon request of the Commission explained details of the proposed budget. As a result of discussion, the Commission unanimously approved the budget as presented by the Engineer with the following changes:

1. The Engineer pointed out that by inadvertance an item of $75,000 to finance elimination of a bad slide condition on the Siskiyou Mountain Section of the Pacific Highway, Jackson County, was overlooked in preparing the budget. He recommended approval of this item and the deletion of the following items from the budget as prepared, in order to provide the necessary funds to finance the work:

Removal and reinstallation of truck scales on Oregon-Washington Highway in Pendleton	$11,000
Widening of west approach to the existing scales at Pendleton	800
Grading and shoulder construction on Redwood Highway between M. P. 27 and M. P. 38	40,000
Balance to be transferred from a less desirable project to be selected later	23,200

2. Purchase of Rental Equipment -- this item included anticipated purchase of ten additional station wagons, at a total cost of $18,500. The Commission instructed the Engineer to change this item so as to include a number of jeeps, the total amount to be expended for this purpose to be not more than that shown in the budget.

In approving the budget, the Commission instructed the Engineer to obtain Commission consent to the purchase and installation of traffic signals and Commission approval for other major items, before expenditures are made in connection with such projects. (For details of the budget as approved with changes, see copy of budget filed in the Secretary's Office under the heading "Highway Department's Budget - 1954".)

At 4:30 p.m. Commissioner Reynolds publicly announced the Commission's decision with respect to the award of contracts for which proposals were

received at the morning session, as follows:

"Construction of a reinforced concrete deck girder bridge, known as the Noon Bridge, over Marys River on the Corvallis-Newport Highway in Benton County: The Commission has awarded the contract to the low bidder, W. H. Shields Construction Company, Eugene, at its bid price of $47,537.32.

"Removal of eleven trees and the trimming of eleven additional trees on the Pacific Highway East in Canby, Clackamas County: The Commission has awarded the contract to Mark Smith & Company, Klamath Falls, the low bidder, at its bid price of $930.80.

"Construction of reinforced concrete deck girder structures at three intersections with the West Portland-Hubbard Highway in Clackamas and Washington Counties: United Builders, Inc., Beaverton, was the low bidder for this work, and the contract has been awarded to this company at its bid price of $176,366.00.

"Grading and paving Blackwell Hill-Seven Oaks Unit, Blackwell Hill-Medford Section of the Pacific Highway in Jackson County and grading and paving Seven Oaks-Medford Unit, Blackwell Hill-Medford Section of the Pacific Highway in Jackson County: The Commission elects to accept the combination bid of R. A. Heintz Construction Company, Portland, the low bidder, in the sum of $925,903.80, and the State Highway Engineer is directed to award the contracts to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is obtained.

"Grading on the Goshen-Coast Fork, Willamette River Unit, Goshen-Divide Section of the Pacific Highway in Lane County: The Commission elects to accept the bid of Durbin Brothers, Eugene, the low bidder, in the sum of $328,694.50, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Conversion of Salem traffic signal installations in Marion County: Steeck Electric Company, Roseburg, the low bidder, has been awarded this contract in the sum of $9,987, which is their bid price.

"Construction of Sylvan Maintenance Building in Multnomah County: The Commission has awarded the contract to the low bidder, Burger Construction Company, Portland, at its bid price of $19,174.67.

"Construction of Athena Maintenance Building in Umatilla County: The Commission has awarded the contract to Loree Building Service, La Grande, the low bidder, at their bid price of $11,000.70.

"Construction of a reinforced concrete deck girder viaduct at the junction of the Sunset and Wilson River Highways near North Plains in Washington County: The contract has been awarded to Lind & Marr, Beaverton, the low bidder, at their bid price of $39,752.00.

"Construction of traffic signal and street lighting installation at intersection of

Pacific Highway West with the Beaverton-Aurora Highway in Washington County: The Commission has awarded the contract to the low bidder, Steeck Electric Company, Roseburg, at its bid price of $6,400.

"Construction of a sand storage shed at M. P. 34.50 on the Sunset Highway in Washington County: The contract has been awarded to the low bidder, Serge R. Perrin, Oregon City, at his bid price of $5,807."

The meeting adjourned at 5:00 p.m. to reconvene at 9:00 a.m. on the following day.

Portland, Oregon
October 30, 1953

The meeting of the State Highway Commission reconvened at 9:00 a.m. in the Green Room of the Imperial Hotel with the following persons present and participating:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Assistant State Highway Engineer
W. W. Stiffler, 2d Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

At the request of the Commission, the Secretary introduced the following members of the Washington State Highway Commission and its Secretary who were interested visitors: George B. Simpson, R. A. Moisio, and Lorenz Goetz.

Bids for highway construction were opened and read aloud by the Secretary, as follows, at the conclusion of which he announced that the award of contracts would be made by the Commission at 3:30 p.m. in the same room:

DESCHUTES COUNTY
TERREBONNE OVERCROSSING

C. P. Patterson, Redmond	$45,440.00
Murray & Stanford, Bend	47,587.50
P. S. Lord Mechanical Contractors, Portland	48,940.00
George E. Berry, Beaverton	49,010.00

Terrebonne Overcrossing (cont.)

Larson Construction Co., Astoria	$51,660.00
Rogers Construction Company, Portland	52,120.00
Schrader Construction Company, Portland	52,720.00
Young & Smith Construction Co., Grants Pass	52,860.00
C. E. Blakley, Klamath Falls	53,915.00
R. H. Jones, Hillsboro	54,090.00
Orlando C. Bennard, Portland	54,280.00
John Kovtynovich, Eugene *	56,545.00

*Bidder will accept award of only one project.

DOUGLAS COUNTY
ROSEBURG OFFICE BUILDING ADDITION

E. A. Shannon, Roseburg	$37,850.00
Todd Building Company, Roseburg	38,890.00
William Pemberton, Roseburg	38,948.50

A delegation representing the City of Baker appeared before the Commission concerning the widening and further improvement of Broadway and 10th Streets in the City of Baker. The following people made up the group: David Koester, City Manager; Chet Smith and Charles Clark, councilmen; Lowell Fuller, Chairman, Highway Committee, Baker County Commercial Club; and P. M. McAllister. Mr. Koester acted as principal spokesman and introduced the members of the delegation. He urged the Commission to widen to four lanes of traffic six blocks on Broadway and a section of 10th Street, over which streets presently is routed the Old Oregon Trail through the City. The City Council, he stated, has considered the matter of cooperation and decided that the City can participate to the extent of $25,000 which the Council feels will pay for installing curbs. The City, he added, is united in this project as indicated by signatures of 80 percent of the property owners stating that they will share in the cost to the extent of paying $3 per lineal foot under the Bancroft Bonding Act. Mr. Fuller stated that the Baker County Commercial Club is 100 percent in favor of the project. He also inquired regarding improvements on the Baker-Homestead Highway. Commissioner Reynolds replied that work on the Love Bridge-Black Bridge Section is scheduled for contracting early in 1954. Mr. McAllister stated that the businessmen of Baker, who conduct businesses on Broadway and 10th Streets are in accord with the improvement of those streets. Chairman Chandler advised that the Commission is familiar with the project and according to the Engineer's report, the improvement has merit, but it is estimated to cost $135,000,and the question arises as to where the money is coming to finance the work; also, there is a question as to where the highway is to be permanently routed through Baker,and the Commission is reluctant to spend money to widen the present route if the highway is to be rerouted later. Commissioner Reynolds pointed out that the Commission has not made it a practice to pave city streets and hesitates to spend highway money for improvement of any route where uncertainties exist as to its permanency. He concluded the discussion by repeating that the plans for the highway through the City of Baker are not clear, and while the Commission cannot now approve the City's project, it is not denying the request definitely but wants to watch developments.

A delegation representing the City of Eugene appeared before the Commission. Present were Kenneth Nielsen, Robert Maclay and Ralph Peterson, members of the Lane County Board of County Commissioners; Mr. Howard Merriam, Mr. William Tugman, editor of the Eugene REGISTER-GUARD, and Robert Finlayson, Eugene City Manager, who acted as spokesman. He stated that he had been requested by the Mayor of Eugene to appear before the Commission in behalf of the City Council, which is concerned with the traffic conflict

at the Southern Pacific Railroad crossing on Van Buren Street. He also said that the City would like the Highway Commission to take over additional city streets as a part of the state highway system. Mr. Finlayson requested a detailed survey to determine a possible solution to the problem, and he advised that the City is prepared to cooperate to the extent of paying one-half of the cost of such survey. Mr. Merriam pointed out that this matter is to go before the people of Eugene to vote a bond issue to finance the City's share of the construction costs so the survey is necessary to ascertain what the construction cost is to be. The Engineer estimated that the survey will cost about $2,500. As a result of the discussion, Chairman Chandler advised that the State will conduct a survey on the condition that the City will pay half the cost of the same.

The delegation then presented for the Commission's consideration an exchange of highways in Lane County. Mr. Neilson, Chairman of the Board of County Commissioners, said that the County is willing to take over the Fox Hollow Secondary Highway if the Highway Commission will designate as a state secondary highway a location extending westerly from the intersection of 19th and "Q" Streets in Springfield to a connection with US 99 in Eugene, along which route, he said, the County already has spent approximately $100,000 for right of way. Mr. Merriam pointed out that the County's offer means that the County will take over 17 miles of highway in exchange for four miles. It was his thought that the right of way should be acquired on the "Q" Street route soon before expensive homes are built along the route. Chairman Chandler stated that the Commission is familiar with the proposed exchange and recognizes that it has merit; however, considerable expense is involved. He pointed out that it will cost about $1,500,000 to develop the "Q" Street route, which should be done soon; whereas, it will cost only about $800,000 to modernize the Fox Hollow Secondary Highway which does not have to be done immediately. The Commission, he stated, does not presently have funds for either of these projects and probably will not have the money for several years; however, the Commission will take the matter under advisement. Commissioner McIver inquired how much the right of way will cost between Springfield and Eugene. Mr. Williams, Assistant Highway Engineer, stated that a rough estimate had been made indicating that it will cost about $282,000 in addition to what the County has already spent. Chairman Chandler again called attention to the fact that it will be several years before the State could start construction of the road, so if right of way is purchased now, it will mean tying up money for a considerable period of time with a resultant decrease in immediate construction of other important projects. Mr. Tugman stated that it is not a question of performing the work soon, but the important thing is to acquire the right of way at an early date. Mr. Neilson stated that it is important to know where the proposed highway is to go at the north end of the Eugene bridge so a survey of the route should be made. The Engineer estimated the cost of such survey, including a survey for a proposed future location of US 99 which is involved, at $25,000. The Commission unanimously authorized the Engineer to make such surveys which are to be reported to the Commission with estimates of costs to acquire right of way needed for both highways.

A delegation from Curry County composed of Guy H. Forsyth, Curry County Judge, Gold Beach; S. O. Newhouse, Wedderburn property owner; and Fred Adams, property owner, Ophir, appeared before the Commission concerning

the proposed relocation of the Oregon Coast Highway between Gold Beach and Euchre Creek. Mr. Newhouse objected to the proposed relocation, stating that it would seriously hurt the town of Wedderburn. He also said that the proposed location will take a large amount of tillable land, and he objected strenuously to the fact that access to the highway is to be restricted. He urged that the highway between Wedderburn and Ophir be improved on its present location. Mr. Adams expressed the view that a number of property holders will be hurt because of restricted access to the new highway. The people of Curry County, he stated, feel that the restriction of access is dictatorial, and they would like for the Commission to give them more consideration. Judge Forsyth stated that the property tax income in Curry County is not good and that removal of agricultural lands by relocating the highway and by acquiring a large area for park purposes will further deplete the County's income. He felt that the County should be reimbursed for tax money lost in this manner. He also expressed the feeling that the policy of restricting access will greatly hinder commercial development in Curry County. The Engineer exhibited a map showing the proposed location which he explained was surveyed by the U. S. Bureau of Public Roads. He pointed out that it will cost more to modernize the present road than to construct a new highway as contemplated. He also explained that no restriction is contemplated for private, farm or log road access to the new highway, but commercial access will not be granted except where county roads intersect. Mr. Newhouse vigorously opposed the restriction of commercial access. Commissioner Reynolds pointed out that in eastern Oregon people are very anxious to obtain the type of highway development which is being proposed in Curry County. Chairman Chandler explained to the delegation that part of the land purchased for park purposes in Curry County would also be used for highway right of way. The Commission, he concluded, has agreed to maintain the old section of the Oregon Coast Highway as a secondary highway when the new route has been completed. (See ahead for additional paragraph re this matter.)

The meeting recessed at 12:20 p.m. and reconvened at 2:00 p.m. in the same room with the same persons present and participating.

The Commission discussed with the Engineer proposed improvements at Sylvan on the Sunset Highway to safeguard pedestrians. The Engineer exhibited a map showing what he has in mind and explained details. He mentioned that it would cost about $600,000 for a grade separation, but temporary relief can be obtained by an expenditure of approximately $50,000, not more than $5,000 of which will be lost when the complete plan is developed. He requested authority to prepare plans and call for bids as soon as possible for the temporary project. The Commission approved the request.

The Right of Way Engineer brought up for discussion a proposed agreement with the City of Pendleton covering a relocation of the Old Oregon Trail over and along certain protions of a water pipe line easement belonging to the City in the North Half of Section 17, Township 2 North, Range 33 East, W. M. He explained that the City's easement covers a strip of land 30 feet wide and that the plans for the highway relocation call for use of a portion of this property, fee title for which either has been or will be acquired by the State from the owners, subject to the City's easement rights. The City, he said, offers no objection to

the proposed highway relocation provided the State will construct a concrete conduit to protect the City's pipe line. He estimated the cost of such conduit at not more than $10,000, and he recommended approval of the agreement on such basis. The Commission approved the recommendation unanimously and thereupon signed the agreement.

Acquisition of right of way for realignment of the Oregon Coast Highway in Curry County was again discussed by the Commission. The Commission authorized the Right of Way Engineer to negotiate for needed right of way first from the Lloyd Corporation and then from Mr. Knox and Mr. Newhouse, and to acquire the remaining properties as rapidly as is possible. The Chief Counsel was instructed to condemn the right of way necessary, and to get the cases into court immediately when it is known that condemnation is required.

Commissioner Reynolds stated that he had had a request from Mr. Percy Miller of Klamath Falls that the East Diamond Lake Secondary Highway be kept open during the winter season to allow provisions to be trucked to a crew of The California-Oregon Power Company which is working on a dam project north and west of Diamond Lake, there being about four hundred men in the camp. The Engineer was instructed to investigate the request and report by telephone during the coming week as to the feasibility and cost of the project.

Commissioner Reynolds inquired concerning the Stanford Research Bureau which is doing some research work for the Highway Interim Committee with respect to truck taxation. The Engineer stated that arrangements for the service of this Bureau were made by the Interim Committee who is paying the bill. He gave as his belief that the Bureau is a reliable concern.

The handling of public relations work formerly performed by Mr. Ralph Watson was discussed by the Commission. The Engineer stated that the bulk of this work has been turned over to the Travel Information Department in charge of Mr. Carl Jordan, Director. The Commission approved the arrangement unanimously and instructed the Engineer to have Mr. Jordan or someone representing him attend the Commission meetings.

Brief attention was given by the Commission to the placing of city population figures on signs at city entrances. The Engineer stated that he has issued orders to include such information on the signs, using only official census figures in order to avoid arguments that might arise were the figures to include the population of fringe areas. The Commission approved the report.

Concerning the matter of an access road leading to Owyhee Dam, Commissioner Reynolds stated that the people who made the request are simply asking for assistance in the amount of $10,000. He suggested that they be advised that the Commission cannot provide such assistance because the road is not a state highway; hence the Commission has no legal authority to spend state highway funds for the purpose; also, that the Commission is vitally interested but for reasons stated cannot act.

The matter of installing signal arms on highway trucks was discussed by the Commission. Mr. W. W Stiffler, Assistant Highway Engineer, reported that all

trucks purchased this year have been equipped with such signal arms and that those of older vintage are being equipped as fast as they are brought into the shops for repairs. It was his feeling that it would take about 1½ years to completely equip all trucks.

Commissioner Reynolds stated that plans are being made to hold dedication ceremonies for The Dalles Bridge on December 18 and that invitations will be sent out in the near future. Commissioner Reynolds also mentioned that Wasco County has $50,000 available to purchase right of way for a road down Eight-mile Creek to The Dalles Bridge if that road is to be built within the next two years, otherwise the county will spend the money elsewhere. The Commission declared that it does not intend to build the road within that time limit so the county can spend its money as it deems best. Commissioner Reynolds stated that he will inform the County Court of the action taken.

The Commission had under discussion the appointment of an Assistant State Highway Engineer to fill the vacancy that was created by appointment of Mr. W C. Williams as Deputy State Highway Engineer. Motion was made by Commissioner Reynolds, seconded by Commissioner McIver, and declared unanimous by Chairman Chandler that Mr. G. S. Paxson be appointed as Assistant State Highway Engineer in charge of Bridge Construction. The Commission thereupon adopted the attached resolution relative thereto, marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein. (The Commission's action was approved later by the State Civil Service Commission, effective November 1, 1953.)

Commissioner Reynolds stated that he had received a communication from the Oregon Roadside Council concerning preservation of historical features along state highways, particularly in the Portland area. The Engineer suggested that the Roadside Council be requested to appoint a committee to discuss with Division Engineer A. G. Skelton the points they have in mind so determination may be made whether or not the State Highway Department has any responsibility. The Commission approved the suggestion.

Commissioner Reynolds also mentioned a letter from the City of La Grande, concerning a ditch to take care of water from the City's storm sewer system. It appears that the City planned originally to enlarge the channel of Mill Creek but now wishes to construct a channel on state highway right of way for a distance of 1.10 miles. The Engineer was instructed to investigate the matter and determine if it is feasible and advisable from an engineering standpoint to allow use of the right of way for this purpose. The Chief Counsel was requested to furnish a legal opinion on the matter.

The Commission signed agreements and other papers as follows:

"Indentures of Access" covering the following:

a. Property owned by Tony Tosta and Constantine Demergasso on Coos Bay-Coquille Section of Oregon Coast Highway, Coos County.

b. Reiman property on Salem-Hayesville School Section of Pacific High-

way East, Marion County.

"Easement" with Mr. and Mrs. R. G. Phillips for driveway and turn-around on property lying in Lot 11 of Block 1, West Roseburg Addition to City of Roseburg, Douglas County.

"Easement Deed and Voucher Claim" with Corps of Engineers for power line across State's quarry on Columbia River Highway at Biggs.

"Quitclaim Deed" transferring to Oregon Trunk Railway a portion of Lot 1, Section 15, Township 2 North, Range 15 East, W. M., Wasco County.

"Bargain and Sale Deed" selling to Clarence Peterson one acre of land situate at abandon Green Springs Maintenance headquarters site in Jackson County.

"Two Lease Agreements" with U. S. Forest Service covering the following:

a. Space in lounge room at Timberline Junction Maintenance Headquarters to be used as office for ranger.

b. Sleeping quarters and use of kitchen and dining room during summer season only.

"Agreement" with Southern Pacific Railroad Company covering Winchester Overcrossing on the Pacific Highway, Douglas County.

"Agreement" with Southern Pacific Railroad Company covering Shady Overcrossing, Pacific Highway, Douglas County.

"Agreement" with City of Portland covering modernization of Traffic Signals at intersection of N. E. Union Avenue with N. E. Alberta Street and N. E. Union Avenue and N. E. Ainsworth Street.

"Agreement" with Multnomah County covering the Halsey Street Undercrossing on the T. H. Banfield Expressway.

"Agreement" with City of Redmond covering the proposed installation of flashing beacons at intersections of the Ochoco Highway with 5th and 6th Streets.

"Bargain and Sale Deed" with Walter H. McCoin for parcel of land in Jefferson County on the Crooked River-Terrebonne Section, The Dalles-California Highway.

"Renewal of Lease for Road Materials Agreement" with Farmer C. Hale, et al, on the Walton-Noti Section of Richardson-Eugene Highway.

"Trust Agreement" with Bonneville Power Administration covering relocation of structures on Clatskanie-Delena Section on the Columbia River Highway in Columbia County.

"Trust Agreement" with Bonneville Power Administration covering relocation of structure on Crooked River-Terrebonne Section of The Dalles-California Highway,

Deschutes County.

"Grant of Easement" granting to Arthur Daley the right to construct, operate, and maintain a private roadway along a State-owned borrow pit on Blackwell Hill-Seven Oaks Section of Pacific Highway in Jackson County.

"Throughway Agreement" covering Blackwell Hill-Seven Oaks Unit of Pacific Highway in Jackson County.

"Throughway Agreement" covering Goshen-Coast Fork, Willamette River Unit of Pacific Highway in Lane County.

"Agreement" with City of Medford covering proposed traffic study in Medford.

"Agreement" covering abandonment of Blackwell Hill-Seven Oaks Section of Pacific Highway in Jackson County.

"Agreement" with City of Pendleton providing for the protection of City's water pipe line between Engineer's Station 317+60 and Engineer's Station 344+85 on relocated Old Oregon Trail.

"Consent to Vacation" of property lying West of Abbey's Addition to Yaquina Heights, Lincoln County.

"Project Agreement". Joseph-Sheep Creek Hill, Little Sheep Creek Highway

---

The Commission discussed with the Engineer the bids received at the morning session and at 3:30 p.m. Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows, the action of the Commission being by unanimous vote:

"Construction of the Terrebonne Overcrossing on The Dalles-California Highway in Deschutes County: The Commission elects to accept the bid of C. P. Patterson, Redmond, the low bidder, in the sum of $45,440, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of an addition to the Roseburg Office Building in Douglas County: The Commission has awarded the contract to the low bidder, E. A. Shannon, Roseburg, at his bid price of $37,850.

"Construction of a reinforced concrete and steel deck truss bridge over the North Umpqua River and the tracks of the Southern Pacific Company on the Pacific Highway near Winchester, in Douglas County: The Commission elects to accept the low bid of Peter Kiewit Sons' Company, Longview, Washington, in the sum of $636,970, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Clear Lake Fencing Project on the Oregon Coast Highway in Douglas County: The Commission has awarded the contract to Colorado Fuel and Iron Corporation, Portland, the low bidder, at their bid price of $11,076.

"Grading and rock base of Interstate Bridge Approach Unit, Hood River-Mosier Section of the Columbia River Highway in Hood River County: The Commission has awarded the contract to the low bidder, F. O. Laws, Salem, at his bid price of $31,670.

"Construction of a reinforced concrete bridge, known as the Main Street Bridge, over Coast Fork of the Willamette River in Cottage Grove, Lane County: All bids for this project have been referred to City of Cottage Grove inasmuch as it is a city project.

"Reconstruction of Halsey Street Undercrossing on the T. H. Banfield Expressway in Multnomah County: The Commission elects to accept the bid of Young and Smith Construction Company, Grants Pass, the low bidder, in the sum of $189,294, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and construction of five pile-trestle detour bridges on the 42d Avenue-92d Avenue Section of the T. H. Banfield Expressway in Multnomah County: The Commission elects to accept the bid of Gibbons & Reed, Salt Lake City, Utah, the low bidder, in the sum of $702,031.50, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of a reinforced concrete slab span bridge over the North Fork of Ash Creek, and a reinforced concrete beam and pile bent bridge over the Middle Fork of Ash Creek on the Pacific Highway West near Monmouth, in Polk County: The Commission has awarded the contract to Chas. E. Wiedeman, Dallas, the low bidder, at his bid price of $24,100.

"Grading and oiling the Mud Hollow Canyon-Wasco Section of the Fulton Canyon-Wasco Road in Sherman County: The Commission elects to accept the bid of Barney B. Helser, Moro, the low bidder, in the sum of $48,862.50, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the Bureau of Public Roads and Sherman County is received, and the sum of $12,600 is deposited by the County.

"Construction of a frame garage at Warm Springs Junction in Wasco County: The Commission awarded this contract to the low bidder, Gilbert Roberts, Hood River, at his bid price of $3,940."

There being no further business to come before the Commission at this time, the meeting adjourned at 3:35 p.m.

Minutes of October 29 and 30, 1953

EXHIBIT "A"

Minutes of October 29 and 30, 1953

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW THEREFORE BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

EXHIBIT "B"

Minutes of October 29 and 30, 1953

RESOLUTION

WHEREAS, Chapter 405, Oregon Laws 1951, as amended by Chapter 691, Oregon Laws 1953, sets forth maximum limits with respect to the size and weight of vehicles or combinations of vehicles, and the number of vehicles that may be coupled together in a combination of vehicles; and

WHEREAS, under the provisions of said law the State Highway Commission is authorized to issue permits for the operation, upon state highways, of vehicles and combinations of vehicles having a size, weight and number in combination in excess of said maximum limits; and

WHEREAS, under the provisions of Section 12, Chapter 405, Oregon Laws 1951, as amended by Section 6, Chapter 691, Oregon Laws 1953, when in the judgment of the State Highway Commission any state highway, or section thereof, is capable of carrying any combination of vehicles having a combination of vehicles gross weight in excess of that authorized in Subsection 4, Section 11, Chapter 405, Oregon Laws 1951, as amended, or an over-all length in excess of that authorized in paragraph "d" of Subsection 1, Section 3, Chapter 405, Oregon Laws 1951, as amended, the Commission is authorized to so declare by resolution and to fix the maximum gross weight and length and types and classes of combinations of vehicles which may be operated thereon. Said law further provides that after such resolution is filed with the Secretary of State no permit shall be required for the operation upon such highway, or section thereof, of any combination of vehicles not exceeding the maximum gross weight and length fixed for combinations of vehicles of that type and class; and

WHEREAS, the State Highway Engineer has made investigations and studies and has compiled information and statistics relative to the strength, stability, design and alignment of all state highways;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That based upon the studies, investigations, information and statistics made and compiled by the State Highway Engineer, it is the judgment of this Commission that certain highways, or sections thereof, as set forth hereinafter, are capable of carrying combinations of vehicles having a combination of vehicles gross weight in excess of that authorized in Subsection 4, Section 11, Chapter 405, Oregon Laws 1951, as amended, or an over-all length in excess of that authorized in paragraph "d" of Subsection 1, Section 3, of said law, or a number of vehicles in the combination of excess of that authorized in Subsection 1, Section 4, of said law.

EXHIBIT "B" (cont)

2. That except when engaged in the transportation of logs, poles or piling, any combination of vehicles having an over-all length not in excess of 50 feet and a combination of vehicles gross weight not in excess of 68,000 pounds may be operated without a permit upon all those highways or sections of highways listed on the attached list of "Group II Highways", which for identification is marked "Attachment A", and the attached list of "Group I Highways", which for identification is marked "Attachment B". *

3. That except when engaged in the transportation of logs, poles or piling, any combination of vehicles consisting of a truck and full trailer, or of a truck-tractor and semitrailer drawing one trailer, or of a truck-tractor and semitrailer drawing one additional semitrailer mounted on a dolly equipped with a fifth wheel, having an overall length not in excess of 60 feet and a combination of vehicles gross weight not in excess of 76,000 pounds, may be operated without a permit upon all those highways or sections of highways listed on the attached list of "Group I Highways", which for identification is marked "Attachment B". *

4. That except when engaged in the transportation of logs, poles or piling, any combination of vehicles consisting of a truck-tractor and semitrailer having an over-all length not in excess of 55 feet and a combination of vehicles gross weight not in excess of 72,000 pounds may be operated without a permit upon all those highways or sections of highways listed on the attached list of "Special Group I Highways", which for identification is marked "Attachment C". *

5. That nothing contained in this resolution shall be deemed to authorize the operation of vehicles having any gross weight in excess of the applicable gross weights set forth in the tables of weights in paragraphs (c) and (d) of Subsection 4 of Section 12, Chapter 405, Oregon Laws 1951, as amended, nor any gross wheel, axle or tandem axle weight in excess of that set forth in Section 11, Chapter 405, Oregon Laws 1951, as amended. Nothing contained in this resolution shall be deemed to authorize the operation of any combination of vehicles which is not properly licensed, or does not carry proper Oregon P. U. C. plates and certificates or, except as otherwise expressly provided herein, which does not comply in all respects with the Oregon laws governing the operating of vehicles and the Oregon Motor Transportation Code.

6. That the State Highway Engineer shall prepare, or have prepared, prints of a map to be issued to any person requesting the same, showing in contrasting colors the Group I Highways, the Group II Highways, and the Special Group I Highways referred to in paragraph 2, 3 and 4 of this resolution. Attached hereto, and for identification marked "Attachment D" is a map showing such highways in contrasting colors. Said map is hereby approved by this Commission and prints thereof shall be issued to any person requesting the same. *

EXHIBIT "B" (cont)

7. That as used herein, the term "combinations of vehicles gross weight" means the weight of a combination of vehicles including any load thereon, and the term "over-all length" means the total length of a combination of vehicles including any load thereon.

8. That the provisions of this resolution are subject to any order heretofore or hereafter made by this Commission pursuant to Section 15, Chapter 405, Oregon Laws 1951, as amended, and the posting of any highway, section of highway, or highway structure to reduced limits of weights or dimensions shall be to that extent a modification of the weights or dimensions authorized by this resolution. This resolution may be changed, amended or rescinded at any time by resolution adopted by this Commission.

9. That this resolution be entered in the minutes of this Commission as of the 29th day of October, 1953, that the original of this resolution be filed in the records of the Secretary of the Commission, and that a duly certified copy thereof be filed with the Secretary of State, the Public Utilities Commission and the Superintendent of State Police.

FOOTNOTE

The map and Attachments "A", "B" and "C" mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under file No. 98 under the heading Miscellaneous and said map and attachments by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "C"

Minutes of October 29 and 30, 1953

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 3509 with Tom Lillebo for constructing the Dodge Bridge on the Sam's Valley Highway in Jackson County, completed August 31, 1953.

"Contract No. 3591 with Tom Lillebo for constructing structures on the Bay City-Tillamook Section of the Oregon Coast Highway in Tillamook County, completed September 10, 1953.

"Contract No. 3599 with J. C. Compton Co. for grading and paving on the Reedsport (Winchester Ave.) City Street Section in Douglas County, completed September 8, 1953.

"Contract No. 3745 with E. C. Hall Co. for grading and paving on the Tigard-Tualatin River Unit, Tigard-Newberg Section of the Pacific Highway in Washington County, completed October 14, 1953.

"Contract No. 3767 with Natt McDougall Co., for reconstruction of Center Street (Salem) Bridge on the Salem-Dallas Highway in Marion and Polk Counties, completed October 22, 1953.

EXHIBIT "E"

Minutes of October 29 and 30, 1953

RESOLUTION

WHEREAS, on the 6th day of August, 1953, the Highway Commission adopted a resolution imposing a 20-ton load limit on the bridge crossing the Umatilla River at M. P. 11.84 on the Hermiston Secondary Highway, No. 333; and

WHEREAS, subsequent to the passage of said resolution, conditions have changed so that it no longer is necessary or desirable to maintain the reduced load limit set out in said resolution.

NOW, THEREFORE, BE IT RESOLVED that the action of the State Highway Commission reducing the allowable load limit on the bridge crossing the Umatilla River located at M. P. 11.84 of the Hermiston Secondary Highway, State Highway No. 333, be and the same hereby is rescinded and cancelled, and that the maximum load limit permissible on the said bridge structure hereafter shall be the maximum load limit provided by law; and

IT IS FURTHER ORDERED that certified copies of this resolution be furnished to the County Court of Umatilla County and that a like copy be furnished to the Superintendent of the Department of State Police for his information; and

IT IS FURTHER ORDERED that this Bridge Load Limit Resolution No. 22 be entered in the minutes and records of the Commission as of the 29th day of October, 1953.

October 29, 1953

EXHIBIT "F"

Minutes of October 29 and 30, 1953

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 187, Oregon Laws, 1953, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purposes of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: PACIFIC HIGHWAY EAST

Highway number 1E Route number US 99E

Location of Termini		Established Speed
M. P. 46.11 (300 feet north of Totem Pole intersection north of Salem)	to M. P. 48.87 (north city limits of Salem	45 MPH

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate

(cont.)

signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this resolution be entered in the minutes and records of the Commission as of the 29th day of October, 1953, as Speed Limit Resolution No. 124.

EXHIBIT "G"

Minutes of October 29 and 30, 1953

RESOLUTION

WHEREAS, under the provisions of Section 12, Chapter 405, Oregon Laws 1951, as amended by Section 6, Chapter 591, Oregon Laws 1953, the State Highway Commission is authorized to grant written revocable permits for the operation for a period not exceeding one year over State highways of vehicles having a height in excess of twelve and one-half feet but not in excess of thirteen and one-half feet under terms and conditions set forth in said statute; and

WHEREAS, it is the judgment and opinion of this Commission that the granting of permits for the operation of vehicles and combinations of vehicles of a height not exceeding thirteen and one-half feet over certain state highways and sections of highways, subject to terms and conditions set forth hereinafter, will not endanger the traveling public or highways or highway structures; and

WHEREAS, in the judgment and opinion of this Commission the adoption of a standard form of permit for the operation of vehicles or combinations of vehicles having a height not in excess of thirteen and one-half feet, which standard form of permit incorporates adequate regulations of the Commission for the protection of highways, highway structures, and the traveling public, and does not require the signature of the Commission, would facilitate the issuance of such permits with less delay to the applicant and with less cost and inconvenience to the State;

NOW, THEREFORE, BE IT RESOLVED BY THIS COMMISSION, all members being present and voting affirmatively as follows:

1. That subject to such action as the Commission may hereafter deem to be in the public interest, the issuance of permits for the operation over State highways of vehicles or combinations of vehicles, including any load thereon, having a height in excess of twelve and one-half feet but not in excess of thirteen and one-half feet, pursuant to the provisions of Section 12, Chapter 405, Oregon Laws 1951, as amended by Section 6, Chapter 691, Oregon Laws 1953, hereby is authorized on the form of permit which is attached hereto and is hereby approved and adopted by this Commission.

2. The State Highway Engineer is directed to determine the state highways upon which there is any overhead structure or other obstruction having a vertical clearance less than fourteen feet above any point on the roadway surface if the effective roadway width is less than twenty feet, or within ten feet from the center line of the highway if the effective roadway width is more than twenty feet. A list of such highways or sections of highways shall be attached to each permit issued pursuant to this resolution. No such permit shall be issued or valid for the operation of any vehicle or combination of vehicles having a height in excess of twelve and one-half feet over any highway or section of highway set forth on said list.

(cont.)

EXHIBIT "G" (cont.)

3. That permits on said attached form may be issued for and by the State Highway Commission within the meaning, purpose and intent of Section 12, Chapter 405, Oregon Laws 1951, as amended by Section 6, Chapter 691, Oregon Laws 1953, and shall be valid when bearing the facsimile signature of R. H. Baldock, State Highway Engineer, and signed by any one of the following designated persons:

State Highway Engineer
First Assistant State Highway Engineer
Second Assistant State Highway Engineer
Director of Permits
Transportation Permit Supervisor

provided that in case of emergency, permits upon said form may be issued from field offices, but only when the issuance of such permit has first been approved by the Director of Permits or by the Transportation Permit Supervisor. Any permit issued from a field office shall be valid when bearing the facsimile signature of R. H. Baldock, State Highway Engineer, and signed by any person designated by the Director of Permits as being duly authorized to issue permits, in accordance with the resolution of this Commission adopted on July 11, 1952.

4. All permits issued pursuant to this resolution shall be valid for a period of one year from the date of issuance; provided, however, that any permit issued pursuant to this resolution may be revoked by this Commission, if such action is deemed necessary in the public interest.

5. That no permit shall be issued pursuant to this resolution for the operation of any vehicle or combination of vehicles engaged in transporting lumber, baled hay or logs, except that permits may be issued for the operation of a vehicle or combination of vehicles engaged in the transportation of one log loads only.

6. That no permit shall be issued pursuant to this resolution for the operation of any vehicle or combination of vehicles except the following:

(a) Vehicles or combinations of vehicles designed for and engaged exclusively in transporting motor vehicles;

(b) Vehicles or combinations of vehicles having van type bodies with permanent solid sides and either permanent solid roofs or fixed steel roof supports and flexible roof coverings.

(c) Vehicle or combinations of vehicles transporting loads consisting of a single log only.

7. That resolution adopted by this Commission on August 6, 1953, pertaining to the issuance of permits for the operation of vehicles or combinations

EXHIBIT "G" (cont.)

of vehicles having a height in excess of twelve and one-half feet, and identified as Exhibit "O" in the records and minutes of the meeting of this Commission held on August 6, 1953, is hereby rescinded; provided, however, that all permits issued pursuant to said resolution before October 30, 1953, shall remain in full force and effect for a period of one year from the date of issuance, unless revoked at an earlier date by this Commission.

8. That the Commission hereby reserves the right to change or modify the action hereby taken, but any change or modification shall be evidenced by resolution or order entered in the minutes and records of the Commission.

9. That this resolution be entered in the minutes and records of the Commission as of the 29th day of October, 1953, and that the original of this resolution be filed in the office of the State Highway Commission, and that a copy thereof be furnished to each the Secretary of State, Public Utilities Commissioner, and the Superintendent of State Police.

Form No. E-347 8-53

OREGON
STATE HIGHWAY DEPARTMENT

_____, Oregon, _____, 19_____

TRANSPORTATION PERMIT (TEMPORARY) FOR CONTINUOUS OPERATION OF OVERHEIGHT VEHICLES

THIS COPY FOR	
P.U.C. OFFICE	☐
STATE POLICE	☐
WEIGHMASTER	☐
	☐

Under authority of Chapter 405, Oregon Laws 1951, as amended by Section 6, Chapter 691, Oregon Laws 1951, the above-named permittee is hereby authorized to operate the truck or truck-tractor identified herein, or a combination of vehicles employing the truck or truck-tractor identified herein, having an overall height, including load thereon, in excess of 12 feet 6 inches but not in excess of 13 feet 6 inches, over all State highways except those highways or sections of highways indicated on the reverse hereof.

DESCRIPTION OF HAULING EQUIPMENT

MAKE OF TRUCK OR TRACTOR — MOTOR NO. — FIRM NO.

1. This permit is issued for and authorizes the operation of the following equipment only:

Vehicles designed for and engaged exclusively in transporting motor vehicles

Vehicles having van type bodies with permanent solid sides and either permanent solid roofs or fixed steel roof supports and flexible roof coverings

Vehicles transporting loads consisting of a single log

2. The posting of any highway or structure to reduced limits of height shall be to that extent a modification of the height allowed under this permit. The provisions of this permit do not relieve the owner or driver of any vehicle or combination of vehicles from the exercise of due care in determining that sufficient vertical clearance is provided upon the highways and streets where the vehicle or combination of vehicles is being operated.

3. The owner and driver or chauffeur of any vehicle or combination of vehicles described above using the highways or bridges of this State in violation of any of the provisions of this permit shall be jointly and severally liable to the State for all damage done to a highway or bridge as a result of the violation.

4. This permit is authority only for the operation of vehicles or combinations of vehicles having a height in excess of 12 feet 6 inches but not in excess of 13 feet 6 inches, and any vehicle or combination of vehicles operated under authority of this permit must comply with the requirements of Chapter 405, Oregon Laws 1951, as amended by Chapter 691, Oregon Laws 1953, or permits issued pursuant thereto, with respect to size, weight, description, type of construction, etc. All equipment operating under authority of this permit shall be properly licensed, shall carry proper Oregon P.U.C. authorization, and except as modified by this or any other valid transportation permit, shall conform with the Oregon Motor Vehicle Laws and the Oregon Motor Transportation Code.

5. This permit must be carried at all times in the cab of the truck or truck-tractorgas the case may be, and shall be available for inspection by any police officer or representative of the State Highway Department or the Public Utilities Commissioner.

6. This permit is of a temporary nature only and will expire on _____, provided that at any time prior thereto this permit may be cancelled by the State Highway Commission for violation of any of the terms and conditions of this permit, or when, in the judgement of the Highway Commission, public interest requires cancellation of this permit.

THIS PERMIT NOT VALID FOR MOVEMENT OF ANY VEHICLE WHEN OPERATING UNDER A FORM E-250 PERMIT ISSUED PURSUANT TO SECTION 13, CHAPTER 405, OREGON LAWS 1951.

EXHIBIT "H"

Minutes of October 29 and 30, 1953

RESOLUTION

WHEREAS, under the provisions of Section 100-113, O. C. L. A., as amended by Chapter 129, Oregon Laws 1953, the Commission is authorized to appoint an Assistant State Highway Engineer who shall, after appointment, hold office during the pleasure of the Commission; and

WHEREAS, said law further provides that said Assistant State Highway Engineer shall receive an annual salary to be fixed by the Commission; and

WHEREAS, G. S. Paxson is a registered Civil Engineer and has had many years experience in highway engineering and highway bridge engineering.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED, all members present, voting affirmatively as follows:

1. That it is the judgment and finding of this Commission, having duly considered and examined the qualifications of G. S. Paxson, that G. S. Paxson is a competent Civil Engineer and is well qualified by technical training as well as practical experience in highway engineering and highway bridge engineering, and by reason of said qualifications is a competent person to serve as Assistant State Highway Engineer.

2. That G. S. Paxson be and he hereby is appointed, effective November 1, 1953, to the position of Assistant State Highway Engineer and shall perform such duties as may be assigned to him by the State Highway Engineer or by this Commission and shall, under the direction of or in the absence of the State Highway Engineer, have full authority to perform any duty required or permitted by law to be performed by the State Highway Engineer.

3. That the Assistant State Highway Engineer shall receive a starting annual salary of $9,660.00, payable in monthly installments of $805.00 per month, as approved by the Civil Service Commission and the Department of Finance and Administration for a Civil Engineer VII in the first step, and shall be entitled to receive reimbursement for such actual traveling and other necessary expenses as may be incurred in the performance of his official duties.

4. That prior to entering into the discharge of his respective duties, the said G. S. Paxson shall take and subscribe the usual official oath.

5. That a copy of this resolution be certified by the Secretary of this Commission and by him filed with the Secretary of State, together with a sample of the signature of G. S. Paxson as Assistant State Highway Engineer.

6. That this resolution be entered in the minutes and records of this Commission as of the 30th day of October, 1953.

October 30, 1953

EXHIBIT "I"

Minutes of October 29 and 30, 1953

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Euchre Creek-Wedderburn Section of the Oregon Coast Highway in Curry County and of the Shady Point-Booth Ranch Section of the Pacific Highway in Douglas County and of the Myrtle Creek-Canyonville Section of the Pacific Highway in Douglas County, and in connection therewith to prepare maps showing the proposed route and location of each of said highway sections and to file said reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for the approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

THEREFORE, BE IT, AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the survey of the Euchre Creek-Wedderburn Section of the Oregon Coast Highway beginning at Highway Engineer's Station 820+00 north of Euchre Creek, and extending southerly to Highway Engineer's Station 1391+47.50 in the community of Wedderburn, together with a map, which for identification purposes bears Map File Nos. 7B-25-8 and 7B-24-21 and the date October, 1953, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That the survey of the Shady Point-Booth Ranch Section of the Pacific Highway beginning at Highway Engineer's Station 2750+00 south of Shady Point and extending southerly to a junction with the existing highway at Highway Engineer's Station 3176+00, together with a map, which for identification purposes bears Map File No. 7B-24-12 and 10 and the date October, 1953, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission in the State Highway Building, Salem, Oregon.

3. That the survey of the Myrtle Creek-Canyonville Section of the Pacific Highway in Douglas County, beginning at Highway Engineer's Station 597+00 near the town of Myrtle Creek, and extending in a southerly direction to Highway Engineer's Station 490+00 north of the town of Canyonville, together with the map, which for identification purposes bears Map File No. 7B-22-19 and the date August, 1953,

(cont.)

EXHIBIT "I" (cont.)

field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission in the State Highway Building, Salem, Oregon.

4. That when the above described sections of said highways are permanently constructed, the same shall be done in accordance with said surveys and locations, unless otherwise directed or ordered by the Commission.

5. That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of the highways along and over said surveys. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

6. That the surveys of said sections of said highways have been made within the meaning and purpose of Chapter 226, Oregon Laws, 1947, commonly known as the "Throughway Law"; and, therefore, the construction of the above-named sections of said highways shall be accomplished pursuant to and within the meaning and scope of said law.

7. That this resolution be entered in the minutes and records of the Commission as of the 29th day of October, 1953, and be identified as Survey Resolution No. 94.

22621

EXHIBIT "J-1"

Minutes of October 29 and 30, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Santiam Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Noble Slough-Foster Section of the Santiam Highway, and for such purpose and in connection therewith, the real property hereinafter described is necessary, and it is also necessary that access to and from the said highway should be controlled; and

WHEREAS, the Highway Commission by a certain resolution made and entered in its records on the 17th day of February, 1953, declared the necessity for the acquisition of a parcel of land described therein for right of way purposes for the widening, improvement and maintenance of the said Noble Slough-Foster Section of the Santiam Highway, and for the control of access to and from the said highway, and authorized the acquisition of the said parcel of land and the said control of access in the manner provided by law, and it is now the determination of the Highway Commission that the said control of access should be changed in the manner provided herein, in order that the location of the said access point be changed, and, therefore, the said resolution of February 17, 1953, should be revised to conform with the said change in access control;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Highway Commission hereby declared that the resolution made and entered in its records of February 17, 1953, referred to above, be, and it hereby is, amended by this resolution.

2. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the widening, improvement and maintenance of the Noble Slough-Foster Section of the Santiam Highway, the following described real property in fee simple, to wit:

(cont.)

EXHIBIT "J-1" (cont.)

L 1977 (R 19780)
Owner: A. L. Weddle, et ux

A parcel of land lying on Lot 10, Block 1, Davis Heights Addition to Sweet Home, situated in the Northwest quarter ($NW\frac{1}{4}$) of Section 31, Township 13 South, Range 1 East, W, M., Linn County, Oregon, the said parcel being that portion of said Lot 10 included in a strip of land 50 feet in width, lying on the Southerly side of the center line of the existing Santiam Highway, which center line is described as follows:

Beginning at Engineer's center line Station 1485+65.1, said Station being approximately 1585 feet South and 1100 feet East of the Northwest corner of said Section 31; thence on a 2644.6 foot radius curve left (the long chord of which bears South 78° 15' East) 234.9 feet to Engineer's center line Station 1488+00, the Southerly line of said strip of land crossing the Northwesterly and Southeasterly lines of said Lot 10 approximately opposite Stations 1485+90 and 1487+65, respectively.

The parcel of land to which this description applies contains 0.044 acre, outside of the existing right of way.

3. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Santiam Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

A right of access to the Santiam Highway of a width not to exceed 25 feet on the Southwesterly side of the said Santiam Highway, opposite Highway Engineer's center line Station 1486+50.

4. That the highway facility for which the above described real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

5. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of the said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to

(cont.)

EXHIBIT "J-1" (cont)

acquire title to the said real property.

6. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission this 29th day of October, 1953.

EXHIBIT "J-2"

Minutes of October 29 and 30, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, improvement and maintenance of any throughway or section thereof, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State will be best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the County Farm-Ashland Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Highway Commission by a certain resolution made and entered in its records on the 10th day of July, 1952, declared the necessity for the acquisition of certain parcels of land described therein for right of way purposes, for the widening, improvement and maintenance of the County Farm-Ashland Section of the Pacific Highway, and for a gravel pit, for use in connection with the proper construction and maintenance of state highways, and for an

(cont.)

EXHIBIT "J-2" (cont.)

easement across a parcel of land for the purpose of realigning a certain creek commonly known as Bear Creek, so that the said creek will coincide with the widening, improvement and maintenance of the County Farm-Ashland Section of the Pacific Highway, and for the control of access to and from the said Pacific Highway, and authorized the acquisition of the said parcels of land and easement sand the said control of access in the manner provided by law, and it is now the determination of the Highway Commission that the description of Parcel No. 5 as set forth in the said resolution is inadequate for the purpose of properly describing the parcel of land required for a gravel pit, and, in addition, that the location of the access points should be altered and additional access granted, and, therefore, the resolution of July 10, 1952, should be revised in order to properly describe the said parcel of land required for the said gravel pit, and to properly set out the location of the said access points; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby declare that the resolution made and entered in its records of July 10, 1952, referred to above, be, and it hereby is, amended by this resolution.

2. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the widening, improvement and maintenance of the County Farm-Ashland Section of the Pacific Highway as a throughway, the following described real property in fee simple, to wit:

L 1935 (R 16543)
Owner: Charles W. Koyl, et al

Parcel No. 1:

A parcel of land lying in the John Barrett Donation Land Claim No. 48, also in Sections 31 and 32, Township 38 South, Range 1 East, W. M., Jackson County, Oregon, and being a strip of land lying on each side of the center line of the Pacific Highway, which center line is described as follows:

Beginning at Engineer's center line Station 28+00, said Station being 921.7 feet North and 1661.1 feet West of the South quarter ($S\frac{1}{4}$) corner of said Section 32; thence on a 3819.72 foot radius curve left (the long chord of which bears North 50° 59' 30" West 236.7 feet

(cont.)

to Station 30+36.7; thence North 52° 46' West 4463.3 feet to Station 75+00, said center line crossing the South line of said Donation Land Claim No. 48 approximately at Station 30+49.

Said parcel is further described as follows: Beginning on the South line of said Donation Land Claim No. 48 at a point which is 90 feet Southwesterly of (when measured at right angles to) said center line; thence North 52° 46' West parallel to said center line 232 feet, more or less, to a point opposite Station 34+00; thence North 37° 14' East 30 feet; thence North 52° 46' West 1430 feet, more or less, to the South line of that tract of land conveyed to Clifford C. Wyers and Virginia G. Wyers by deed recorded in Book 336, Page 387, of Jackson County Deed Records; thence Easterly along said South line to the most Easterly corner of said tract which corner lies in the Southwesterly right of way line of the existing highway; thence North 52° 46' West 820 feet, more or less, along said right of way line to the Easterly line of that tract of land conveyed to J. C. Ottinger and Gertrude Ottinger by deed recorded in Book 215, Page 7, of Jackson County Deed Records; thence Northerly along said Easterly line to a line which is parallel to and 80 feet Northeasterly of said highway center line; thence South 52° 46' East along said parallel line 625 feet, more or less, to the center line of Antelope Road (Valley View Road); thence Southerly along the center line of Antelope Road to a line which is parallel to and 60 feet Northeasterly of said highway center line; thence South 52° 46' East along said parallel line 1620 feet, more or less, to a point opposite Engineer's center line Station 34+00; thence North 37° 14' East 20 feet; thence Southeasterly parallel to and 80 feet Northeasterly of said center line 450 feet, more or less, to the South line of said Donation Land Claim No. 48; thence West along said Donation Land Claim line to the point of beginning.

The parcel of land to which this description applies contains 7.31 acres, of which 5.16 acres lie within the existing right of way, title to which hereby is acknowledged to be in the public, and 2.15 acres lie outside of the existing right of way.

Parcel No. 2:

A parcel of land lying in the John Barrett Donation Land Claim No. 48, also in Section 31, Township 38 South, Range 1 East, W. M., Jackson County, Oregon, and being a strip of land 80 feet in width, lying on the Southwesterly side of the center line of the Pacific Highway, which center line is described in Parcel No. 1 above. Said strip of land extends Northwesterly from the Northerly line of that tract of land conveyed to J. C. Ottinger and Gertrude Ottinger by deed recorded in Book 215, Page 7, of Jackson County Deed Records, to the

(cont.)

EXHIBIT "J-2" (cont.)

West line of said Donation Land Claim No. 48.

The parcel of land to which this description applies contains 0.46 acre, outside of the existing right of way.

Parcel No. 3:

A parcel of land lying in the John Barrett Donation Land Claim No. 48, also in Section 31, Township 38 South, Range 1 East, W. M., Jackson County, Oregon, and being a strip of land 60 feet in width, lying on the Northeasterly side of the center line of the Pacific Highway, which center line is described in Parcel No. 1 above. Said strip of land extends Northwesterly from the Northerly line of that tract of land conveyed to J. C. Ottinger and Gertrude Ottinger by deed recorded in Book 215, Page 7, of Jackson County Deed Records, to the West line of said Donation Land Claim No. 48.

The parcel of land to which this description applies contains 0.32 acre, outside of the existing right of way.

3. The Commission does hereby find and declare that the acquisition of the real property hereinabove described as Parcels No. 1, 2 and 3, and the denial of access to the owners' remaining land from the said County Farm-Ashland Section of the Pacific Highway will result in depriving the owners of all means of access from that portion of their real property hereinabove described lying Southwesterly of and adjacent to the real property hereinabove described as Parcel No. 2 to any public highway and to the owners' remaining real property, and, therefore, that it is to the best interests of both the owners and the State of Oregon for the State Highway Commission to acquire fee simple title to the owners' entire tract of land lying Southwesterly of the Northeast boundary of the real property hereinabove described as Parcel No. 2, which said tract, in addition to that portion thereof described as Parcel No. 2, is described as follows, to wit:

Parcel No. 6:

A parcel of land lying in the John Barrett Donation Land Claim No. 48, also in Section 31, Township 38 South, Range 1 East, W. M., Jackson County, Oregon, the said parcel being bounded on the West by the West line of said Donation Land Claim No. 48, bounded on the Southwesterly and Southerly sides by the Northerly line of that tract of land conveyed to J. C. Ottinger and Gertrude Ottinger by deed recorded in Book 215, Page 7, of Jackson County Deed Records, and bounded on the Northeasterly side by a line which is parallel to and 80 feet Southwesterly of the center line of the Pacific Highway, containing 0.82 acre.

4. That in addition to the acquisition of fee simple title to the above described real property, the Commission further finds that the following described real property

(cont.)

is necessary for the acquisition of a gravel pit to be used in connection with the proper construction and maintenance of state highways, which said real property is described as follows, to wit:

Parcel No. 5:

A parcel of land lying in the John Barrett Donation Land Claim No. 48, also in Section 31, Township 38 South, Range 1 East, W. M., Jackson County, Oregon, the said parcel being described as follows:

Beginning on the center line of Antelope Road (Valley View Road) at a point which is 80 feet Northeasterly of (when measured at right angles to) the center line of the Pacific Highway approximately opposite Station 50+36.5; thence North 52° 46' West parallel to said center line 625 feet, more or less, to the Easterly line of that tract of land conveyed by deed to J. C. Ottinger and Gertrude Ottinger recorded in Book 215, Page 7, Jackson County Deed Records; thence Northerly along said Easterly line 150 feet, more or less, to the Northeast corner of said Ottinger tract; thence in a straight line 442 feet, more or less, to a point in a line which is parallel to and 110 feet Northeasterly of said highway center line, which point is opposite center line Station 53+00; thence South 52° 46' East along said parallel line 240.7 feet, more or less, to the center line of said Antelope Road (Valley View Road); thence Southerly along said Antelope Road 37.7 feet to the point of beginning, containing 1.03 acres, more or less, outside of the existing right of way.

5. The Commission does further find and declare that it is necessary to acquire an easement across the following described parcel of real property for the purpose of realigning the channel of a certain creek, commonly known as Bear Creek, so that the said creek will coincide with the widening, improvement and maintenance of the County Farm-Ashland Section of the Pacific Highway. The real property across which this easement is required is described as follows, to wit:

Parcel No. 4:

A parcel of land lying in the John Barrett Donation Land Claim No 48, also in Section 31, Township 38 South, Range 1 East, W. M., Jackson County, Oregon, the said parcel being described as follows:

Beginning on the West line of said Donation Land Claim No. 48 at a point which is 180 feet Northeasterly of (when measured at right angles to) the center line of the Pacific Highway; thence South 52° 46' East, parallel to said center line, 500 feet, more or less, to a point opposite Engineer's center line Station 65+00; thence in a straight

(cont.)

EXHIBIT "J-2" (cont.)

line to a point which is opposite and 250 feet Northeasterly of Station 61+00; thence South 27° 14' West 180 feet, more or less, to the Northerly line of that tract of land conveyed to J. C. Ottinger and Gertrude Ottinger by deed recorded in Book 215, Page 7, of Jackson County Deed Records; thence Southwesterly 15 feet, more or less, along the Northerly line of said Ottinger tract to a line which is parallel to and 60 feet Northeasterly of said highway center line; thence North 52° 46' West 800 feet, more or less, to the West line of said Donation Land Claim No. 48; thence North along said Donation Land Claim line to the point of beginning, containing 2.8 acres.

6. That it is necessary that there shall be no rights of access of any nature between the right of way of the said County Farm- Ashland Section of the Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the Pacific Highway of a width not to exceed 25 feet on the North side of the said highway, opposite Highway Engineer's center line Station 36+00.

b. A right of access to the Pacific Highway of a width not to exceed 25 feet on the South side of the said highway, opposite Highway Engineer's center line Station 36+00.

c. A right of access to the Pacific Highway of a width not to exceed 25 feet on the North side of the said highway, opposite Highway Engineer's center line Station 39+00.

d. A right of access to the Pacific Highway of a width not to exceed 25 feet on the South side of the said highway, opposite Highway Engineer's center line Station 39+00.

e. A right of access to the Pacific Highway of a width not to exceed 25 feet on the South side of the said highway, opposite Highway Engineer's center line Station 40+40.

f. A right of access to the Pacific Highway of a width not to exceed 25 feet on the South side of the said highway, opposite Highway Engineer's center line Station 43+00.

g. A right of access to the Pacific Highway of a width not to exceed 25 feet on the North side of the said highway, opposite Highway Engineer's center line Station 46+75.

h. A right of access to the Pacific Highway of a width not to

(cont.)

EXHIBIT "J-2" (cont.)

exceed 25 feet on the South side of the said highway, opposite Highway Engineer's center line Station 47+00.

7. That the highway facility for which the aforesaid real property and easement are required and are being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

8. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said real property and easement.

9. That upon the trial of any suit or action instituted to acquire the said real property and easement, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

10. That this resolution be, and it hereby is, entered in the minutes and records of this Commission this 29th day of October, 1953.

EXHIBIT "J-3"

Minutes of October 29 and 30, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening, or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture or roadbuilding materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the Salem-Dallas Highway and the Salem-Dayton Highway are highways under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing highways which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the intersection of the said Salem-Dallas Highway and the said Salem-Dayton Highway, and for such purpose and in connection therewith, the real property hereinafter described is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and for the widening, improvement and maintenance of the intersection of the Salem-Dallas Highway and the Salem-Dayton Highway, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That the widening, improvement and maintenance of the said intersection of the Salem-Dallas Highway and the Salem-Dayton Highway, and the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed,

(cont.)

located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 29th day of October, 1953, as Condemnation Resolution No. 462.

---

* FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 462, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-4"

Minutes of October 29 and 30, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Barbur Boulevard-White School Section of the West Portland-Hubbard Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Highway Commission by a certain resolution made and entered in its records on the 25th day of June, 1953, declared the necessity for the acquisition of the rights of access to, from and between the West Portland-Hubbard Highway and all of the owners' contiguous real property, said contiguous real property being described therein, and authorized the acquisition of the said rights of access in the manner provided by law, and it is now the determination of the Highway Commission that the said resolution failed to properly describe all of the owners' real property contiguous to the said West Portland-Hubbard Highway, and, therefore, the said resolution of June 25, 1953, should be revised in order to properly describe the said real property; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Com-

(cont.)

mission that the acquisition of the rights of access to, from and between the real property hereinafter described and the said Barbur Boulevard-White School Section of the West Portland-Hubbard Highway is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby declare that the resolution made and entered in its records of June 25, 1953, referred to above, be and it hereby is, amended by this resolution.

2. The Commission does hereby find and declare that it is necessary to acquire, in connection with the widening, improvement and maintenance of the Barbur Boulevard-White School Section of the West Portland-Hubbard Highway as a throughway, all rights of access to, from and between said West Portland-Hubbard Highway, including a right of access described in a deed recorded in Volume 170, Page 271, of the Deed Records of Washington County, Oregon, said right of access being more particularly described as being retained at Highway Engineer's center line Station 101+25, and the following described real property, to wit:

L 2019 (R 4035)
Owner: Paul L. Kertes, et al

Tract 1:

Beginning at the south east corner of the W. W. Graham Donation Land Claim No. 39, in Township 2 South of Range 1 West of the Willamette Meridian; running thence north along the east line of said W. W. Graham D. L. C. 8 chains, more or less, to the southwest corner of a tract of land deeded on January 13, 1906, by Geo. W. Clarke to Elmer Ball; thence east along the south boundary of the said last mentioned tract 9.26 chains to the west boundary of the Jas. Hicklin D. L. C. in said township and range; thence south along the west boundary of said Jas. Hicklin D. L. C. to a point 375 1/3 feet north of section line between Sections 1 and 12 in said township and range; thence westerly to the place of beginning.

Tract 2:

Beginning at a point in the west boundary line of the James L. Hicklin D. L. C. 21 1/3 feet north of the section line between Sections 1 and 12, in township 2 south of range 1 West of the W. M.; thence north along said boundary line of said James L. Hicklin D. L. C. 354 feet; thence westerly 650 feet, more or less, to a point 20 feet east of the southeast corner of the W. W. Graham

(cont.)

EXHIBIT "J-4" (cont.)

D. L. C.; thence southerly and southeasterly along the east and north line of the County Road as at present laid out and traveled, to the place of beginning.

Tract 3:

The south half of the southeast quarter of the southeast quarter of Section 1, Township 2 South, of Range 1 West of the W. M.

3. That the highway facility for which the said rights of access are required and are being taken has been planned, designed and located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire said rights of access.

5. That upon the trial of any suit or action instituted to acquire the said rights of access, the Chief Counsel, or,in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 29th day of October, 1953, as Condemnation Resolution No. 463.

EXHIBIT "J-5"

Minutes of October 29 and 30, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Winchester-Shady Point Section of the Pacific Highway; and

WHEREAS, the said Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Highway Commission by a certain resolution made and entered in its records on the 8th day of April, 1953, declared the necessity for the acquisition of a parcel of land described therein for right of way purposes, for the relocation, construction, improvement and maintenance of the Winchester-Shady Point Section of the Pacific Highway, and for the control of access to and from the said highway, and authorized the acquisition of the said parcel of land and the said control of access in the manner provided by law, and it is now the determination of the Highway Commission that although the said resolution stated the correct amount of real property to be acquired, it failed to properly describe the real property to be acquired, and, therefore, the said resolution of April 8, 1953, should be revised in order to properly describe the property to be acquired; and

WHEREAS, for the purpose of relocating, constructing, improving

(cont.)

EXHIBIT "J-5" (cont.)

and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby declare that the resolution made and entered in its records of April 8, 1953, referred to above, be, and it hereby is, amended by this resolution.

2. The Commission does hereby find and declare that there is needed and required for right of way, for the relocation, construction, improvement and maintenance of the Winchester-Shady Point Section of the Pacific Highway as a throughway, the following described real property in fee simple, to wit:

L 1995 (R 17836)
Owner: J. M. Housley, et ux

A parcel of land lying in Sections 1 and 12, Township 27 South, Range 6 West, W. M., Douglas County, Oregon, and being a portion of Tracts 25, 28, 31, 36, 40 and 47, Edenbower Orchard Tracts; the said parcel being a strip of land extending from the South line of Broadmoor in said Tract 25 to the South line of said Tract 47, said strip of land being variable in width, lying on each side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 2425+00, said Station being 299.0 feet North and 420.2 feet East of the Northeast corner of Lot 8 of Green Acres Subdivision; said Station also being 1753.6 feet North and 1945.9 feet East of a bronze disc set at the Southwest corner of Section 1, Township 27 South, Range 6 West, W. M., thence South 4° 04' 10" West 3500 feet to Engineer's center line Station 2460+00. The said center line intersects the South line of Broadmoor approximately at Station 2436+83 and intersects the South line of said Tract 47 approximately at Station 2458+66.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Easterly Side of Center Line	Width on Westerly Side of Center Line
South line of Broadmoor	2440	150 feet	125 feet

(cont.)

EXHIBIT "J-5" (cont.)

2440	2455	125 feet	125 feet
2455	South line of Tract 47	160 feet	125 feet

Also all of Lot 6, Block 3 of Broadmoor, being a subdivision of parts of Tracts 21, 22, 26 and 25 of Edenbower Orchard Tracts.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 13.17 acres.

3. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the relocated Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners, their heirs and assigns, rights of access to a frontage road to be constructed by the State upon the above described real property and East of the main traveled way, said frontage road to be connected to the said main traveled way at a point which is not a greater distance to the South of the remaining property than a point opposite Highway Engineer's center line Station 2500+00, and to a system of public ways at a point which is not a greater distance to the North of the remaining property than a point opposite Highway Engineer's center line Station 2435+50.

4. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

5. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

6. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission this 29th day of October, 1953 as Condemnation Resolution No. 464.

EXHIBIT "J-6"

Minutes of October 29 and 30, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights or way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture or road-building materials, approach or hauling roads, connection roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct and maintain Unit No. 4 of the T. H. Banfield Expressway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said unit of said highway shall be established, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served,

(cont.)

even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the establishment, construction and maintenance of the said Unit No. 4 of the T. H. Banfield Expressway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Unit No. 4 of the T. H. Banfield Expressway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit A. *

3. That the establishment, construction and maintenance of the said Unit No. 4 of the T. H. Banfield Expressway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or

EXHIBIT "J-6" (cont.)

action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 29th day of October, 1953, as Condemnation Resolution No. 465.

---

* FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 465, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-7"

Minutes of October 29 and 30, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for right of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Pendleton-Deadmans Pass Section of the Old Oregon Trail Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above pur-

EXHIBIT "J-7" (cont.)

poses, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Pendleton-Deadmans Pass Section of the Old Oregon Trail Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Pendleton-Deadmans Pass Section of the said relocated Old Oregon Trail Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit A. *

3. That the relocation, construction, improvement and maintenance of the said Pendleton-Deadmans Pass Section of the Old Oregon Trail Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property or interest therein.

(cont.)

EXHIBIT "J-7" (cont.)

5. That upon the trial of any suit of action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 29th day of October, 1953, as Condemnation Resolution No. 466.

---

* FOOTNOTE:

poses, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and the access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the establishment, construction and maintenance of the said Unit No. 3 of the T. H. Banfield Expressway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said T. H. Banfield Expressway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit A. *

3. That the establishment, construction and maintenance of the said Unit No. 3 of the T. H. Banfield Expressway and the highway facilities for which each of the said parcels of property, or interest therein, is necessary and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or

EXHIBIT "J-8" (cont.)

action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 29th day of October, 1953, as Condemnation Resolution No. 467.

---

* FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 467, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-9"

Minutes of October 29 and 30, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Goshen-Divide Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served,

(cont.)

even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Goshen-Divide Section of the Pacific Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Goshen-Divide Section of the Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit A. *

3. That the relocation, construction, improvement and maintenance of the said Goshen-Divide Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "J-9" (cont.)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 29th day of October, 1953, as Condemnation Resolution No. 468.

---

* FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 468, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-10"

Minutes of October 29 and 30, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Blackwell Hill-Medford Section of the Pacific Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

EXHIBIT "J-10" (cont)

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED, by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of the said Blackwell Hill-Medford Section of the Pacific Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That the relocation, construction, improvement and maintenance of the said Blackwell Hill-Medford Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

EXHIBIT "J-10" (cont)

5. That this resolution be entered in full in the minutes and records of the Commission this 29th day of October, 1953, as Condemnation Resolution No. 469.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 469, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-11"

Minutes of October 29 and 30, 1953

RESOLUTION

WHEREAS , by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple, title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Blackwell Hill-Medford Section of the Pacific Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance

of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Blackwell Hill-Medford Section of the Pacific Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Blackwell Hill-Medford Section of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit A. *

3. That the relocation, construction, improvement and maintenance of the said Blackwell Hill-Medford Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

EXHIBIT "J-11" (cont)

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 29th day of October, 1953, as Condemnation Resolution No. 470.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 470, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

		MARION COUNTY. Pacific Hwy. East. Woodburn north. MacLaren School for Boys. Request for widening at entrance denied.
		HARNEY COUNTY. Central Oregon Hwy. Riley-Hines Section. Request for fence construction approved.
23039		MULTNOMAH COUNTY. Portland. Morrison Street Bridge. Request for structural investigation of bridge approved.
		MULTNOMAH COUNTY. Banfield Expressway. Willamette River-42nd Avenue. City reimbursed for changes made on fire alarm system.
		STATE TAX STREET FUNDS. Plans approved. See EXHIBIT "F-1" through "F-5".
23040		SPEED ZONES:
23041		Coos County. Oregon Coast Hwy. Coquille northwest. See EXHIBIT "G-1".
		Hood River County. Hood River Secdy. Hwy. Bradley Corner-Windmaster Corner. See EXHIBIT "G-2".
		Coos County. Oregon Coast Hwy. McCullough Bridge north. Request for reduced speed zone denied.
		Morrow County. Columbia River Hwy. Irrigon. See EXHIBIT "G-3".
		Lane County. Pacific Hwy. Cottage Grove north. Saginaw School. See EXHIBIT "H-1".
		Washington County. Tualatin Valley Hwy. Beaverton east. See EXHIBIT "H-2".
23042		W. C. WILLIAMS to Los Angeles, March 3, 1954, for AASHO and Associated General Contractors meetings.
		W. C. WILLIAMS to Malad, Idaho, and Ogden, Utah, March 11-12, 1954, in connection with test road project.
		R. H. BALDOCK to Seattle, March 7-9, 1954, for AASHO meeting.
		DENNIS D. CLARK to Los Angeles, April 12-28, for Travel and Vacation Show.
		CURRY COUNTY. Oregon Coast Hwy. Port Orford. 15th Street connection. Request for opening of connection approved.
		LINCOLN COUNTY. Wecoma Beach. Holmes Road-Oregon Coast Hwy. intersection. Request for improvement denied.
		TRAVEL INFORMATION BUREAU. Extension of contract with MacWilkins, Cole and Weber Advertising Agency to June 30, 1954, approved.
23043		OREGON STATE EMPLOYEES ASSOCIATION. Payroll deductions. Deductions requested to cover new OPS contract premiums deferred.
		HOOD RIVER COUNTY. Hood River Secdy. Hwy. Agreement for removal of danger trees approved conditionally.
		SECRETARY'S report on papers signed approved.
		COMMISSION meeting dates set for April 1-2, 1954.
		UNFINISHED BUSINESS MATTERS discussed:
		Union County. Starkey Secdy. Hwy. Status report given earlier in meeting. Action deferred.
		Umatilla County. Pendleton-John Day Hwy. Ukiah south. Request of Lumber Company to lease park property deferred.

Page	Date 1954	Subject
23043	Feb.24	Oregon Coast Hwy. and Salmon River Hwy. Report on garbage disposal and vandalism given earlier in day.
23044		Wallowa County. Enterprise-Lewiston Hwy. Snow Hollow Hill Section. Request for guardrail construction.
		Union County. Old Oregon Trail. La Grande. Improvement of 2 curves near hospital. Engineer's report not complete.
		Union County. Weston-Elgin Secdy. Hwy. Tollgate Summit. Report on development of viewpoints presented earlier.
		Morrow County. Paterson Ferry Road extension. Request that State take over road as State Secdy. Hwy.
		Multnomah County. Portland. Ross Island Bridge Ramp. Cooperative agreement authorized for construction of ramp.
		LOG HAULING. Douglas County. Umpqua Hwy. and Elkton-Sutherlin Secdy. Hwy. Special permit granted Lumber Company.
		COLUMBIA COUNTY. Lindburg Road connection. Clatskanie east. Request for connection to US30 approved on cooperative basis.
23045		KLAMATH COUNTY. The Dalles-California Hwy. Klamath Falls. Construction of one-way couplet. Action deferred.
		JACKSON AND DOUGLAS COUNTIES. Pacific Hwy. Central Point-Oakland Section. Erection of bluebird houses on r/w denied.
		UMATILLA COUNTY. Cold Springs Jct. east. Stockpile site deeded to US Army Engineers.
		DELEGATIONS' PROBLEMS discussed.
		COOS COUNTY. Powers Secdy. Hwy. Gaylord. Request for improvement of 3 sharp curves approved on cooperative basis.
23046		CLATSOP COUNTY. Astoria. Proposed Columbia River Bridge. Grange resolution favoring bridge considered. No action.
		MALHEUR COUNTY. Central Oregon Hwy. Vale-Cairo Jct. Section. Abandonment agreement with County approved.
		COOS COUNTY. Oregon Coast Hwy. Sunset Memorial Park. Request for landscaping between hwy. and cemetery to be investigated.
		ROCK PRODUCTION PROJECTS. Inquiry as to why projects advertised seldom agreed with projects on program. Engineer explained.
		MALHEUR COUNTY. Central Oregon Hwy. Vale-Cairo Section. Purchase of Goodman land approved.
		MULTNOMAH COUNTY. Banfield Expressway. 42nd Avenue. Status report on condemnation case against Eagle Lumber Company.
23047		JOSEPHINE COUNTY. Pacific Hwy. Wolf Creek. Mrs. Moore's complaint. No parking zone established. See EXHIBIT "K".
		AGREEMENTS and other papers signed.
23049		CONTRACTS. Award of contracts publicly announced.
23050		WASCO COUNTY. Columbia River Hwy. (new). Chenoweth Creek-The Dalles Section. Funds allotted for construction transferred to:
		Union County. Columbia River Hwy. Kamela-Hilgard Section.
23051	Feb.25	BIDS received on construction projects.
23055		HARNEY COUNTY. Delegation requests improvements:
		Frenchglen Secdy. Hwy. Wrights Point Section.
		John Day-Burns Hwy. Forest Boundary-Central Oregon Hwy. Jct. Section.
		UMATILLA COUNTY. Pendleton-John Day Hwy. Ukiah south. Request of Pilot Rock Lumber Company to use land. Action deferred.

Page	Date 1954	Subject
23056	Feb.25	TILLAMOOK COUNTY. Oregon Coast Hwy. Neskowin south. Cascade Head. Engineer to make analysis re rerouting hwy.
		WALLOWA COUNTY. Extension of Joseph-Wallowa Lake Secdy. Hwy. in Wallowa Lake Park. County to maintain Flora Spur Section.
23057		YAMHILL COUNTY. Salmon River Hwy. Willamina. Engineer to investigate requested improvements to hwy. through town.
		TILLAMOOK AND CLATSOP COUNTIES. Elsie-Mohler Cutoff. Request for construction of cutoff denied.
23058		HOOD RIVER COUNTY. Columbia River Hwy. Viento-Hood River Section. Sale of McWilliams tract authorized. See EXHIBIT "L".
		DOUGLAS COUNTY. Pacific Hwy. Comstock Section. Sale of timber on Cavey property authorized. See EXHIBIT "M".
		COOS COUNTY. Oregon Coast Hwy. Coaledo. Land easement to Coos-Curry Pioneer and Historical Association approved.
		MEETING RECESSED at 12:00 noon and reconvened at 2:00 p.m.
		HOOD RIVER COUNTY. Improvements requested:
		Cooper Spur Road. Access road to ski area. Request denied.
23059		Columbia River Hwy. Hood River west entrance. Request for improvements to be studied by Engineer.
		KLAMATH COUNTY. Klamath Falls. Improvements requested:
		One-way street couplet. Construction of couplet approved provided city constructs truck route.
		West side by-pass. Construction in future plans.
		CLACKAMAS COUNTY. Portland-Salem Expressway. Norwood Crossing. Request for access to hwy. referred to Engineer.
23060		CLATSOP COUNTY. Astoria-Megler Ferry. Lease agreements with:
		Washington State. Pacific County. Ferry landing. Approved.
		Mr. Brentano. Pacific County. Washington State. Approved.
		CONTRACT. Award of contracts publicly announced.
23062		MEETING ADJOURNED at 3:15 p.m.
23063		EXHIBIT "A". Real Property Acquisition.
23114		EXHIBIT "B". Sale of down timber. VanDuzer Corridor.
23116		EXHIBIT "C". Real Property Acquisition. No previous authority granted.
23118		EXHIBIT "D". Sale of Highway Bldg. Bend.
23119		EXHIBIT "E". Contracts completed and accepted.
23121		EXHIBIT "F-1" through "F-5". State Tax Street Funds.
23128		EXHIBIT "G-1". Speed Limit. Coquille. Oregon Coast Hwy.
23130		EXHIBIT "G-2". Speed Limit. Bradley Corner-Windmaster Corner Hood River Secdy. Hwy.
23132		EXHIBIT "G-3". Speed Limit. Irrigon. Columbia River Hwy.
23134		EXHIBIT "H-1". Speed Limit. Saginaw School. Cottage Grove.
23136		EXHIBIT "H-2". Speed Limit. Beaverton.
23138		EXHIBIT "I". Surveys.
23139		EXHIBITS "J-1" through "J-13". Condemnations.
23174		EXHIBIT "K". No Parking. Wolf Creek. Pacific Hwy.
23176		EXHIBIT "L". Sale of Property. McWilliams. Viento-Hood River Section.
23177		EXHIBIT "M". Sale of Timber. Comstock Section. Douglas County.

Portland, Oregon
December 10, 1953

The State Highway Commission met in regular session at 9:00 a.m. in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Chairman Chandler called the meeting to order and made the following statement: "Good morning, Ladies and Gentlemen. Before we go into routine matters, I want to tell you that this is the last meeting of the year 1953, concluding one of the greatest years the State of Oregon has ever had in its road building program. The program is commencing to bloom. We have had many contracts completed this year. Since you gentlemen have done most of the work, we want you to know that we are proud of you. We are getting a lot of recognition over the United States as being one of the foremost states in the Union. As this is the last meeting of this year, the Commission and the Highway Department want to extend holiday greetings to you."

Bids as follows for highway construction were then opened and read aloud by the Secretary pursuant to previously published notice, at the conclusion of which it was announced that the award of contracts would be made at 4:00 p.m. in the same room:

BAKER COUNTY
GRADING AND OILING BAKER-HOMESTEAD HIGHWAY

Newport Construction Company, Portland	$257,074.60
J. N. Conley, Portland	258,025.00
Durbin Brothers, Eugene	266,702.50
C. E. Leseberg, Nyssa	269,466.00
E. C. Hall Company, Portland	271,435.00
C. R. O'Neil, Creswell *	293,761.00
Rogers Construction Company, Portland	395,452.00
McNutt Brothers, Eugene	418,996.50

* Bidder will not accept award of projects totaling more then $1,700,000

2657

DESCHUTES COUNTY
GRADE WIDENING AND PAVING CENTRAL OREGON HWY

McNutt Brothers, Eugene	2,589,777.75

The minutes of the meeting held on September 24 and 25, 1953 and also for the meeting held on October 29 and 30, 1953 were approved by the Commission.

The Parks Superintendent reported on the following park matters:

1. Restaurant concession at Silver Falls State Park: The Parks Superintendent reported that Mr. and Mrs. Roland Nohlgren who have been operating the concession for the past several years do not intend to ask for renewal when their lease expires on December 31, 1953. He requested authority to advertise for bids for operation of the concession. The Commission granted the authority.

2. Clearing of title to park property adjoining Shepperd's Dell Park on the Columbia River Highway: The Parks Superintendent recalled that the Commission, on July 10, 1952, approved purchase of approximately 10 acres of land from Multnomah County adjoining Shepperd's Dell Park. It was later determined that the title was not good. The County, however, has agreed to clear the title if paid an additional $100. The Parks Superintendent stated that the land is well worth the additional payment, and he recommended that the money be paid to Multnomah County. The Commission accepted the recommendation.

3. Acquisition and abandonment of access roads to Ecola State Park: The Parks Superintendent requested authority to acquire a parcel of land from

the Crown-Zellerbach Corporation to be used as a road connection into Ecola Park. He pointed out that acquisition of a strip about 600 feet long would provide a convenient connecting link and make possible the abandonment of a much longer section of road about 1½ mile to the south connecting with the Oregon Coast Highway. The Crown-Zellerbach Corporation, he said, has agreed to sell the land at the rate of $25 per acre if the State will erect a steel gate across the road to be abandoned and will deed said road to the corporation subject to restrictions contained in the State's deed, and will cooperate in reducing fire hazards in the area. The corporation will give the State written permission to use a portion of the abandoned section of road for access to the springs and pipe line from which the Park obtains its water supply, and will also grant permission to divert water from other small springs in the area for park use. He recommended that authority be granted to acquire the new right of way necessary for the road connection, and that authority also be granted to negotiate with the Secretary of the Interior relative to the abandonment of a portion of the old access road. The Commission approved the recommendation.

4. Report on recreational use of water as requested by Water Resources Committee; The Parks Superintendent reported that he had met with Mr. Lyle Watts, Chairman of the Water Resources Committee, created by the 1953 Legislature, and that Mr. Watts has asked him to furnish the Committee information relative to the recreational use of water throughout the state. He stated that such information could be gathered with the present Parks Department personnel and could be made available to the Committee by March 1, 1954. The Commission authorized the assembling of the data requested by the Committee.

5. Report on use of swimming facilities at Honeyman State Park: The Parks Superintendent stated that he had made a thorough investigation of this matter as instructed by the Commission several months ago. He presented facts which showed that during the 1953 season expenditures to operate the swimming facility had exceeded the income by more than $600. It had also been determined, he added, that the granting of a swimming concession to others would be without legal authority. He recommended that the swimming facility be operated as in the past but that the rates be increased from 15 cents fo 20 cents for those under 14 years of age and from 30 cents to 40 cents for those 14 years of age or over. After some discussion the Parks Superintendent's recommendation was approved, and the Secretary was instructed to notify those groups who had evidenced an interest in the matter.

Commissioner Reynolds stated that a Mr. Lee Maines had inquired whether he might be granted permission to tear down some horse barns on property recently acquired by the Commission in Wallowa Lake State Park. The State Parks Superintendent explained that Mr. Maines has had the use of the barns for several years under an arrangement with the former owner of the property and that his lease still has about two years to run, but he has located another site that will serve his horse renting purposes and wants to tear down the barns on the State's property presumably with the intention to use the materials in

building new barns on the other site. Sometime in the future, he stated, it will be necessary to enlarge the overnight camping area in Wallowa Park, and at that time it probably will be necessary to ask Mr. Maines to move. He suggested that Mr. Maines be permitted to operate from his present setup until his lease expires and that the matter of renewing his lease be decided at that time. He also suggested that it would be advisable to dispose of the horse barns by competitive bidding at that time rather than let Mr. Maines remove the buildings. The Commission approved both suggestions.

The Right of Way Engineer presented for consideration options secured for acquisition of real property needed for various state highway improvements and for other purposes. After careful consideration, the Commission unanimously approved closing the options at the prices mentioned therein, by adopting the attached resolution relative thereto marked EXHIBIT "A", which resolution by this reference is made a part hereof with like affect as though extended in full herein.

In discussing the properties to be acquired at Clay Street and Columbia Street in Portland, Chairman Chandler inquired to what extent the City will cooperate in this development. The Engineer replied that no commitments had yet been made by the City.

The Right of Way Engineer also brought to the Commission's attention the possible acquisition of the Clem Myers property at this location (File No. 20670). He explained that the property is now leased to Trailways Buses for storage to October 31, 1957 at the rate of $160 per month with an option to renew the lease for five years. The owner, he stated, has offered to sell the property for $62,500, but no offer has been secured from the lessee as to what they would want for their lease. The matter was discussed briefly, and the Commission decided unanimously not to acquire the property at this time.

Acquisition of a 50' x 100' lot adjacent to the Secretary of State's building in Eugene was considered by the Commission. The Right of Way Engineer advised that this property can be purchased for $6,500 and leased to the Secretary of State as a parking area for $50 per month; however, in order to make it suitable for parking purposes, it would be necessary to level the land and to apply gravel or rock surface. It was his thought that the property is a good value, particularly as it adjoins the Highway Maintenance Headquarters' site, and he recommended that it be purchased for $6,500. The Commission approved the purchase at such figure.

The Commission confirmed the sale of miscellaneous properties as reported by the Right of Way Engineer who pointed out that the total value of properties sold amounted to $8,859. (For details of property sold, see copy of report prepared by Mr. C. W. Parker, Property Manager, dated December 10, 1953, on file in the Secretary's office under the heading of "Miscellaneous Sales".)

The Right of Way Engineer recommended changes in points of access for the following properties:

1. Property owned by Merton W. Saling on the Hauser-North Bend Section of the Oregon Coast Highway in Coos County, File No. 18810.

2. Property owned by Milo D. Woodworth on the Hauser-North Bend Section of the Oregon Coast Highway in Coos County, File No. 18812.

3. Property owned by Hubert Nordstrom on the Forest Boundary-Hauser Section of the Oregon Coast Highway in Coos County, File No 18203.

4. Property owned by Edward F. Bolt on the Hauser-North Bend Section of the Oregon Coast Highway in Coos County, File No. 18811-L 1872.

The Right of Way Engineer pointed out that these are changes in location of previously approved points of access and nothing new is being granted. The changes were approved by the Commission as recommended.

Securing of a permit to remove gravel from property owned by Elsie Allen McKay and located within the Umatilla Indian Reservation on the Pendleton-Deadman's Pass Section of the Old Oregon Trail was considered by the Commission. The Right of Way Engineer explained that the lease calls for the payment of $750 for 25,000 cubic yards of gravel at 3 cents per cubic yard plus a $37.50 fee to the Indian Service leasing agency. He recommended approval of the lease because the gravel is necessary in highway construction and the price is reasonable. The Commission accepted the recommendation.

Consideration was given by the Commission to cancellation of a deed conveying to the City of Albany a portion of Block 39, Hackleman's Second Addition to the City of Albany. The Right of Way Engineer stated that the deed had been prepared in compliance with an agreement made in 1947 in which the State agreed to deed the property to the City for $750.50. The City, he stated, declined to pay this amount and offered the sum of $10; however the City has now indicated a willingness to pay the sum of $375.25, or half of the original price. He recommended sale of the property to the City for such sum, provided the State is relieved of payment of all street assessments levied against the property. He also recommended that the old deed, prepared in the amount of $750.50 but never delivered, be destroyed. The Commission accepted the recommendations.

The matter of entering into a trust agreement with the Bonneville Power Administration concerning changes in the Bonneville transmission line on the Pendleton-Deadman's Pass Section of the Old Oregon Trail in Umatilla County was discussed by the Commission. The Right of Way Engineer reported that the changes are necessary by reason of highway construction which will start in the near future. He explained briefly that under the terms of the trust agreement, the State is required to deposit $6,700 to cover the cost of moving the transmission line and that any balance remaining above the cost of the moving will be refunded to the State. He recommended that the agreement be approved. The Commission accepted the recommendation.

The Right of Way Engineer recommended and the Commission approved the deeding of 1.48 acre of land to Coos County for the sum of $1.00. The Right

of Way Engineer explained that the property which lies north of Shingle House Slough on the Bay Park-Delmar Section of the Oregon Coast Highway is not needed for state highway purposes and will be used by Coos County as right of way for a county road connection with the highway.

The Commission discussed and upon recommendation of the Right of Way Engineer authorized sale of 0.55 acre of land on the Viento-Hood River Section of the Columbia River Highway, across the road from the old Columbia Gorge Hotel, in Hood River County. The Right of Way Engineer explained that the property is not needed for highway purposes, and that Mr. and Mrs. H. C. Kirby have offered to pay the sum of $550 for it.

The Commission also gave consideration to the sale of 3.1 acres of land on the Newport-Toledo Section of the Corvallis-Newport Highway in Lincoln County, to George F. Simmons. The Right of Way Engineer stated that this property was originally acquired for a materials pit but now is excess property not needed for highway purposes. He recommended that it be sold to Mr. Simmons for the sum of $300. The Commission approved the recommendation.

The Right of Way Engineer presented the matter of cancelling a lease given to the Westfall Engineering Company for the use of property on Unit No. 5 of the T. H. Banfield Expressway in Multnomah County. The Westfall Engineering Company, he stated, cannot continue to pay the rent and has asked for cancellation of the lease effective November 15, 1953. He further stated that the Northwest Technical Institute wishes to lease the property and has agreed to enter into a lease agreement on the same terms and conditions as are contained in the lease given to the Westfall Engineering Company. He recommended cancellation of the lease with the Westfall Engineering Company and the granting of a new lease to the Northwest Technical Institute containing the same terms and conditions as the other, the lease to run for four years beginning November 16, 1953 at a rental rate of $480 per month. The Commission approved the recommendation unanimously.

The Commission discussed the proposed purchase of the Wink property on the Chenoweth-The Dalles Section of the Columbia River Highway about two miles west of The Dalles. The Right of Way Engineer advised that several appraisals have been made of this property, the highest being slightly above $90,000 which amount he recommended be paid for the property. He stated that construction of the new highway at this point will wipe out the Wink auction yard. He also said that acquisition of a narrower right of way width was considered, but it was found impossible to narrow it more than five feet. Commissioner Reynolds stated that Mr. Wink has said that he wants $110,000 for his property. As a result of the discussion the Commission ordered that Mr. Wink be informed that there is a question as to when this section of highway will be constructed so the Commission has decided to defer acquisition of necessary right of way for the time being.

Chairman Chandler brought up the matter of paying damages to Mrs. Vera Reddenbaugh for loss of her water supply on the Brushes Creek-Rinehart Creek Section of the Oregon Coast Highway in Curry County a short distance south of Humbug Mountain State Park. He stated that Mrs. Reddenbaugh alleges that the State's contractor felled a tree across the pipe line and had broken it where it was

installed under the highway fill. The Engineer and the Chief Counsel were instructed to investigate the matter and determine who is responsible for the damage.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties needed as right of way in connection with various highway improvements or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

Pendleton-Deadman's Pass Section of the Old Oregon Trail

R 20111 - Roy F. Hobby
(Umatilla)
Parcel No. 1: 4.75 acres for right of way (leasehold interest)
Parcel No. 2: 0.06 acre for right of way (leasehold interest)

R 20250 A-1 - Robert E. Goad
(Umatilla)
19.12 acres for right of way (leasehold interest)

R 20250 A-2 - William Purchase
(Umatilla)
4.92 acre for right of way (leasehold interest)

R 20250 A-3 - James R. Thompson
(Umatilla)
Parcel No. 1: 15.37 acres for right of way (leasehold interest)
Parcel No. 2: 1.78 acres for right of way (leasehold interest)

R 20250 A-4 - James R. Thompson
(Umatilla)

New resolution required because of changing center line of the right of way

The Commission approved the request unanimously by adopting the attached resolutions relative thereto marked EXHIBITS "I-1" through "I-10", inclusive, which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission considered and approved the Chief Counsel's report on cases which have been tried since the October meeting of the Commission as follows:

1. State vs Anton Bergsvik, et al, L 1931: This case concerns acquisition of 0.27 acre of land required as right of way for the T. H. Banfield Expressway. The State offered to pay $5,000 for this property, whereas the owners demanded the sum of $15,000. The jury returned a verdict in the sum of $6,300 plus $750 attorney's fees.

2. Paul M. McFarland, et ux vs State, L 1943: This case involves a suit in equity to set aside a deed whereby the McFarlands conveyed to the State 1.54 acres as right of way for the West Portland-Hubbard Highway. The issue in this case was whether or not the conveyance had been based upon the repre-

sentation that a grade crossing was to be constructed connecting Norwood Road with the highway. The Court entered a decree ordering a cancellation of the deed from the McFarlands to the State and ordering return to the State of the sum of $859.50 which had been deposited by the defendants and was the price paid for this property by the State.

3. State vs Albert Brady, L 1828: This case concerns recovery of $540.99 which was the cost of repairing a Ford sedan owned by the State and which was damaged in an accident on October 5, 1951. The Court dismissed the case for the reason that the State had not brought forth necessary proof of damages caused by the defendant.

4. State vs Marcel Klimek, et ux, L 1994: This case concerns acquisition of 1.5 acres of land required as a source of road building materials in Jackson County. An offer in the amount of $449 was made which was acceptable to the defendants, but the defendants were unable to convey good title, and it was necessary to prosecute the action. The judge in the case entered an order appropriating the property to the State for the sum of $450.

5. State vs Albert J. Sauers, et ux, L 1762A: The State appealed to the Supreme Court from the Circuit Court of Marion County because the judgment contained an obligation upon the State to pay interest upon the jury's verdict from the date of filing the complaint, whereas the State had not taken possession of the property at the time of entry of judgment. The Court in an opinion rendered November 4, 1953, held that interest payments in a condemnation action can only arise from the time of taking physical possession of the property or date of judgment.

6. State vs Frank A. Smith, et al, L 2020: Complaint in this case was filed for acquisition of 2.40 acres of land on the Winchester-Shady Point Section of the Pacific Highway and prohibition of all rights of access. The defendants rejected an offer of $1,200 for their property and demanded the sum of $3,500 plus $500 attorney's fees. The jury returned a verdict in the amount of $2,250.

7. State vs Ivan F. Phipps, et al, L 1742: This case concerns purchase of 2.67 acres of land required as right of way for the N. E. Union Avenue Section of the Pacific Highway East in Portland. The State's offer for this property was in the amount of $5,250, whereas the owners demanded the sum of $22,500. The jury returned a verdict in the amount of $7,000.

8. State vs Ivan F. Phipps, et al, L 1345: Complaint was filed for acquisition of 0.87 acre of land along Union Avenue in Portland. The State appraisers showed a valuation between $750 and $1,000, whereas the defendants witnesses testified to a valuation between $5,000 and $12,000. The jury returned a verdict in the amount of $3,500 plus interest in the amount of $2,222.55 plus $1,000 attorney's fees.

9. State vs J. A. Gallagher, et al, L 1992: This case concerns acquisition of two parcels of land, one containing 1,326 square feet and the

other 0.2 acre required as right of way for the North Corvallis Section of the Pacific Highway West and the denial of all rights of access. An offer was made in the sum of $2,150, but the owners demanded the sum of $8,000. The jury returned a verdict in the amount of $2,000.

10. State vs Katherine E. Celoria, et vir, L 1842: Complaint was filed for acquisition of 0.17 acre of land for a drainage ditch along the T. H. Banfield Expressway. An offer was made in the sum of $345, but the defendants demanded the sum of $12,400. The jury returned a verdict in the amount of $1,000.

11. State vs T. J. Starker, et ux, L 1990: This case concerns acquisition of 45,880 square feet of land required as right of way for the North Corvallis Section of the Pacific Highway West, with complete restriction of access. An offer of $8,035 was made for this property which was rejected by the owners who demanded the sum of $20,000. The jury returned a verdict in the amount of $12,250.

(For details of the above-listed cases, see copy of the Chief Counsel's written reports dated December 4 and December 7, 1953, in the General Files.)

The Commission considered and approved the Chief Counsel's report of cases settled since the meeting of the Commission held on October 29 and 30, 1953, as follows:

1. State vs R. M. Church, et ux, L 2068, for acquisition of one acre of land on the Winchester-Shady Point Section of the Pacific Highway. An offer in the amount of $4,950 was rejected, the owners demanding the sum of $7,553. Settlement was finally effected in the amount of $5,950.

2. State vs Oregon Portland Cement Company, et al, L 2085, to recover the sum of $134.35 plus attorney's fees for damage to a guard rail near M. P. 4.29 on the Oswego Highway as a result of an automobile accident. Subsequent to filing of the complaint the defendants paid the entire claim in the amount of $134.35 and the case is being dismissed.

3. State vs T. E. Gilmore, et ux, L 2053, for acquisition of 0.13 acre of land on the Grants Pass-Murphy Section of the Williams Secondary Highway in Josephine County. Subsequent to filing of the complaint the defendants agreed to accept the offer made prior to the filing in the sum of $615.

4. State vs J. Frank, et al, L 2079, for acquisition of 0.21 acre of land on the Winchester-Shady Point Section of the Pacific Highway in Douglas County and for restriction of access. The defendants rejected an offer of $800 and demanded $1,500. Negotiations resulted in a settlement for the sum of $800 as originally offered.

5. State vs AFKO Investment Corporation, L 2044, for acquisition of 0.72 acre of land on the Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway. Prior to filing of the complaint, the defendants accepted an offer in the amount of $2,700.

6. State vs William G. Clarenbach, et ux, L 2077, for the acquisition of 0.05 acre of land, a small building, and restriction of access rights. An offer in the sum of $350 was made and refused. Subsequent negotiations resulted in a settlement in the sum of $500.

7. State vs George Brant, L 1808 and 1808A, for 0.127 acre of land on the Salem By-pass Section of the Pacific Highway East and prohibition of all access. The judgment entered by the court provided for the payment of $1,000 plus interest at the rate of 6 percent from February 1,1952, that being the date the complaint was filed. A decision has now been rendered in the Sauers' case (See report of trial cases) in which the Supreme Court held that the Highway Commission's obligation to pay interest does not commence with the filing of the complaint but commences at the time the State takes physical possession of the property. A settlement has been effected which provides for payment of the amount of the judgment less interest.

8. State vs Earle S. Butler, et al, L 1956, for acquisition of 0.10 acre of land on the Reedsport-Luder Creek Section of the Umpqua Highway with one private access. An offer in the amount of $2,230 was rejected by the defendants who demanded that the State purchase the entire ownership consisting of one acre. Settlement was effected as originally offered but in correspondence it has been set forth that the consideration shown in the deed is for the real property and the access rights only, and it is expressly understood that conveyance of the property to the Highway Commission and acceptance of payment in the sum of $2,230 shall not act as an estoppel against any appropriate action to which the owner might otherwise be legally entitled in the event his remaining property is damaged by flood caused by raising the highway grade.

9. State vs R. W. Richmond, et ux, L 1728, for acquisition of approximately 3,305 acres of land on the Columbia River Highway Junction Section of the Pendleton-Cold Springs Highway in Umatilla County. The State made an offer of $550 which was refused by the owners until their condemnation case was settled with the Union Pacific Railroad Company. The Railroad Company has now effected settlement of both cases with the Richmonds, and the State has received a deed to the property, the cost of which has been paid by the Union Pacific Railroad Company.

10. State vs Willard L. Morrison, et ux, L 2074 and R 20878, for acquisition of land on the Junction City-Eugene Section of the Pacific Highway in Lane County. An offer in the amount of $300 was made to the owner and refused by him. Subsequent negotiation resulted in a settlement on the basis of paying the sum of $300 and the State to restore the premises to as near its former condition as it is possible to do.

(For further details concerning the above-listed settlements, see copy of the Chief Counsel's written report to the Commission dated December 4, 1953, in the General Files.)

The Commission considered and confirmed offers reported by the Chief

Counsel for acquisition of real property required for various highway purposes, which offered were tendered to the owners prior to the commencement of condemnation proceedings in conformity with authority granted by the Commission in its resolution adopted December 20, 1951:

Goshen-Divide Section of the Pacific Highway

R 20489 - Owner: James A. Rodman. 3.58 acres for right of way; 1.00 acre for excess taking. Amount of offer 2,150.00. Authorized by Chairman Chandler on November 5, 1953.

R 20490 - Owner: James A. Rodman. 7.17 acres for right of way. Amount of offer $20,635.00. Authorized by Chairman Chandler on November 5, 1953.

R 20526 - Owner: J. B. Fox. 7.64 acres for right of way; 31.9 acres for excess taking. Amount of offer $9,760.00. Authorized by Chairman Chandler on November 5, 1953

R 20529 - Owner: Harold E. Clark. 4.24 acres for right of way. Amount of offer $4,935.00. Authorized by Chairman Chandler on November 27, 1953.

R 20578 - Owner: Dale M. Cornelius: 0.79 acre for right of way. Amount of offer $2,305.00. Authorized by Chairman Chandler on November 27, 1953.

R 20584 - Owner: Lewis G. Clark. 0.60 acre for right of way. Amount of offer $2,412.00. Authorized by Chairman Chandler on November 27, 1953.

R 20587 - Owner: K. Walton. 0.055 acre for right of way. Amount of offer $120.00. Authorized by Commissioner Reynolds on November 19, 1953.

R 20589 - Owner: G. E. Harris. 0.14 acre for right of way. Amount of offer $265.00. Authorized by Commissioner Reynolds on November 19, 1953.

Blackwell Hill-Medford Section of the Pacific Highway

R 20785 - Owner: Thaddeus Quinn. 0.13 acre for right of way. Amount of offer $[illegible]5.00. Authorized by Chairman Chandler on November 27, 1953.

R 20786 - Owner: J. S. Daniels. 0.06 acre for right of way. Amount of offer $200.00. Authorized by Chairman Chandler on November 27, 1953.

R 20789 - Owner: Laurence C. Turner. 0.95 acre for right of way. Amount of offer $1,200.00. Authorized by Chairman Chandler on November 27, 1953.

R 20790 - Owner: A. W. Laricks. 2.12 acres for right of way. Amount of offer $4,000.00. Authorized by Commissioner Reynolds on November 19, 1953.

R 20819 - Owner: Jannie H. Stadelman. 0.88 acre for right of way. Amount of offer $4,500.00. Authorized by Chairman Chandler on November 27, 1953.

Blackwell Hill-Medford Section of the Pacific Highway (cont.)

R 20820 - Owner: Nolan F. Biehler. 0.25 acre for right of way. Amount of offer $2,500.00. Authorized by Chairman Chandler on November 27, 1953.

Rocky Point-Brush Creek Section of the Oregon Coast Highway

R 21055 - Owner: S. E. Binford. 4.80 acres for right of way. Amount of offer $35,000. Authorized by Chairman Chandler on October 26, 1953.

Junction City-Eugene Section of the Pacific Highway

R 20883 - Owner: C. S. Payne. 1910 square feet for slope easement. Amount of offer $382.00. Authorized by Chairman Chandler on October 26, 1953.

Winchester-Shady Point Section of the Pacific Highway

R 19348 - Owner: J. Frank. 0.21 acre for right of way. Amount of offer $800.00. Authorized by Chairman Chandler on October 26, 1953.

Shady Point-Booth Ranch Section of the Pacific Highway

R 21074 - Owner: Laval E. Medford. 1.17 acres for right of way. Amount of offer $2,863.00. Authorized by Chairman Chandler on October 26, 1953.

R 21071 - Owner: William G. Clarenbach. 0.05 acre for right of way. Amount of offer $350.00. Authorized by Chairman Chandler on October 26, 1953.

Unit No. 3 of the T. H. Banfield Expressway

R 20600 - Owner: J. J. Forkan. 2581 square feet for right of way. Amount of offer $1,000.00. Authorized by Chairman Chandler on November 5, 1953.

R 20598 - Owner: Rushlight's Inc. 26,150 square feet for right of way. Amount of offer $7,060.00. Authorized by Chairman Chandler on November 27, 1953.

R 20602 - Owner: Norman O. Moyer. 1855 square feet for right of way. Amount of offer $846.00. Authorized by Chairman Chandler on November 27, 1953.

R 20659 - Owner: Eagle Lumber Yards. 0.36 acre for right of way. Amount of offer $22,690.00. Authorized by Chairman Chandler on November 27, 1953.

R 20658 - Owner: Drake Lumber Company. 9,932 square feet for right of way. Amount of offer $7,500.00. Authorized by Chairman Chandler on November 27, 1953.

Unit No. 4 of the T. H. Banfield Expressway

R 20623 - Owner: Rex B. Parelius. 8082 square feet for right of way. Amount of offer $970.00. Authorized by Chairman Chandler on November 5, 1953.

R 14868 - Owner: V. E. McCarthy. Condemning only leasehold interest of owner. Amount of offer $1,600.00. Authorized by Chairman Chandler on November 27, 1953.

R 20928 - Owner: Verlin E. McCarthy. 1788 square feet for temporary construction easement. Amount of offer $200.00. Authorized by Chairman Chandler on November 27, 1953.

R 20831 - Owner: Prescott Corporation. 45,000 square feet for right of way. Amount of offer $6,300.00. Authorized by Commissioner McIver on October 9, 1953

The Commission considered and ordered filed a written report submitted by the Chief Counsel concerning condemnation cases tried during the period from September 1, 1952 to August 31, 1953. (For details see copy of report in General Files.)

The Chief Counsel brought up for discussion the matter of legal procedure to be followed with respect to claims for damage to properties abutting upon Center Street by reason of construction of the Center Street Bridge in Salem. He explained that a number of property owners on Center Street between Commercial and Front Streets have started proceedings to collect damages. He recalled that when this matter was before the Commission in 1950 and 1951, the Commission's position had been that no settlements for damages should be effected until the bridges at Center Street and at Marion Street had been completed and suits had been filed by the aggrieved property owners. He further stated that no proceedings have been started as yet due to construction of the Marion Street Bridge, and no amounts have been stated by the claimants along Center Street. It was his opinion that construction of the Marion Street Bridge and reconstruction of the Center Street Bridge constitutes a change of grade, and he requested authority to secure appraisals of the affected properties for damages only due to change of grade, and that authority also be granted him to negotiate settlements with the claimants on the basis of the facts disclosed by the appraisals. The Commission approved both requests.

Consideration was given by the Commission to a claim submitted by C. Henry Williams of Cascade Locks for personal expense in the amount of $186.47 caused him when a slide damaged a Forest Service residence building which he occupied. The Chief Counsel explained that during the month of January, 1952, the residence owned by the Forest Service had been damaged due to an earth movement apparently caused by construction of the Columbia River Highway and that Mr. Williams was forced to move from the house and to pay a greater amount as rental than he had paid previously for use of the Forest Service house. He recalled that the State Highway Commission formerly had authorized moving of the house from the slide area at State expense, and had also authorized payment to Mr. Williams of extra telephone

expense he incurred by reason of his living in a house not owned by the Forest Service. It was his opinion that the claim is legally justified, and he recommended that it be paid through the Secretary of State rather than by a check on the Revolving Fund. The Commission accepted the recommendation.

The Commission considered and approved the abandonment of the following claims as recommended by the Chief Counsel:

1. Claim against Charles E. Self in the amount of $650 for damage to a state vehicle incurred December 19, 1952, near Canyonville, Oregon. Persistent attempts to determine Mr. Self's whereabouts have been unsuccessful.

2. Claim against George C. Hurst in the amount of $18.34 for timber trespass and the removal of two logs from property owned by the State. Mr. Hurst cannot be located, and as he owes many persons in the vicinity for timber, further attempts to secure payment do not appear practical.

Authority to commence and prosecute a suit against Jacob G. Scherrer for specific performance of an option to convey right of way for the Rowena-The Dalles Section of the Columbia River Highway in Wasco County was requested by the Chief Counsel. He explained that on March 6, 1953, Mr. Scherrer agreed to convey 10.17 acres of land for the sum of $31,450.00 but later apparently became dissatisfied with the price and now refuses to execute a deed. The Commission granted the request.

The Chief Counsel reported commencement of condemnation proceedings entitled "United States vs Carlisle, State of Oregon, acting by and through its State Highway Commission, et al". He stated that a complaint had been served naming the Highway Commission as a defendant in an action brought by the U. S. Government to condemn land needed for The Dalles dam. The property consists of a service station, a lot and a quarry site, upon which quarry site the Commission acquired a perpetual lease in 1928. In an agreement entered into between the United States and the Commission, dated January 6, 1953, the State is obligated to convey its interest in the property covered by this condemnation proceeding, and an answer has been filed admitting the allegations contained in the complaint. The Commission approved the report.

The Commission also considered and approved a report submitted by the Chief Counsel on the commencement and dismissal of action entitled "Anna MacDonald vs Eugene Excelsior Company, State of Oregon, by and through its State Highway Commission, et al". The Chief Counsel explained that a complaint in this case was served on October 28, 1953, for suit to quiet title, and the Commission was named as a party defendant by reason of an easement on the subject property for a spur track in favor of other property including some acquired by the Commission for right of way purposes. He further explained that the Commission at its September meeting on the request of Rodman and Urey, Eugene realtors, approved a waiver relinquishing the easement, but the waiver was not immediately filed by Rodman and Urey which is the reason that the State was named as a defendant. The waiver has since been filed and an order has been entered dismissing the suit. The Commission approved the report.

The Commission approved reimbursing Mr. Frank I. Towle in the amount of $25.60, for out-of-state expense incurred by him going to Seattle on September 29 and 30, 1953, in connection with the case of State vs Yaquina Dock and Dredge Company. The Commission also authorized Mr. Towle to go to Seattle December 14 and 15, 1953 in connection with the preparation of oyster bed condemnation cases, his expenses for this trip being estimated at $38.85.

The Chief Counsel reported that the salary of Mr. Leonard Lindas, one of the attorneys in his office, which previously was approved for $610 per month, has now been approved by the Attorney General for $630 per month effective November 1. He recalled that at the previous meeting of the Commission a revised salary schedule for attorneys was authorized effective November 1, on condition that the rates were approved by the Attorney General. He advised that such approval by the Attorney General has now been obtained. In view of this report, the Commission approved its previous action.

The Chief Counsel also brought up for consideration an action instituted by P. N. Shown of Mitchell, Oregon, who is suing the State for $20,000 as damages for property taken and for damages to his remaining property due to state highway construction. The Chief Counsel pointed out that there is a title problem on his land, and it is not possible to secure an insurable title. The highway, however, does occupy his land. It was his feeling that the damages sought by Mr. Shown are entirely too high, and he requested authority to offer the sum of $150 as payment for the property and damages. The Commission granted the request.

Consideration was also given by the Commission to the matter of acquiring a cinder pit from Mr. Gilbert W. Harris on the Powell Butte-Prineville Section of the Ochoco Highway in Crook County. The Chief Counsel explained that an option was secured from Mr. Harris for the sum of $2,500 and that a form of release of mineral rights owned by the County was prepared and sent to the County for acceptance. However, the County refused to sign the release but indicated that the State could use the cinders. Mr Harris, he stated, claims that the State is obligated to secure title to the property which, he stated, is worth not more than $750, being $500 for a haul road and $250 for the land. The balance of $1,750 should be paid to the County. Mr. Harris, however, has refused to accept the sum of $750 and has demanded $1,250. He requested authority to offer $750 for Mr. Harris' interest in the property. The Commission approved the request.

The Commission approved a report from the Engineer that conditions governing the awards of the following state highway contracts have been satisfied and that contract and bond forms have been sent to the respective contractors for signature pursuant to the Commission's instructions:

1. Grading the Glenwood-North Plains Section of Wilson River Highway in Washington County. Bids received September 24, 1953. Conditions of award satisfied October 29, 1953. Rogers Construction Company, Portland, contractor.

2. Glenwood-North Plains Section Structures on Wilson River Highway in Washington County. Bids received September 24, 1953. Conditions of award satisfied November 2, 1953. Johnston & Bryant, Newberg, contractor.

3. South Unit, Bend-Lapine Section of The Dalles-California Highway in Deschutes County. Bids received September 24, 1953. Conditions of award satisfied November 4, 1953. J. W. Briggs, Bend, contractor.

4. Moro Undercrossing in Sherman County. Bids received September 25, 1953. Conditions of award satisfied November 6, 1953. George E. Berry, Beaverton, contractor.

5. Prairie Road-Eugene Unit, Junction City-Eugene Section of Pacific Highway north from Eugene in Lane County. Bids received September 24, 1953. Conditions of award satisfied November 6, 1953. T. C. Wildish, Eugene, contractor.

6. Willamette River-Gervais Unit, Willamette River-Hayesville Section of Portland-Salem Expressway in Marion and Clackamas Counties. Bids received September 24, 1953. Conditions of award satisfied November 6, 1953. R. A. Heintz Construction Company, Portland, contractor.

7. Rocky Point-Brush Creek Section of Oregon Coast Highway in Curry County. Bids received September 25, 1953. Conditions of award satisfied November 6, 1953. Peter Kiewit Sons' Company, Longview, Washington, contractor.

8. Winchester-South Umpqua River Unit, Deady-Shady Section of Pacific Highway in Douglas County. Bids received September 25, 1953. Conditions of award satisfied November 6, 1953. Babler Brothers, Inc. Portland, contractor.

9. Fairgrounds-Shady Unit, Deady-Shady Section of Pacific Highway in Douglas County. Bids received September 25, 1953. Conditions of award satisfied November 6, 1953. Parker-Schram Company, Portland, contractor.

10. Mud Hollow Canyon-Wasco Section of Fulton Canyon-Wasco Road in Sherman County. Bids received October 30, 1953. Conditions of award satisfied November 9, 1953. Barney B. Helser, Moro, contractor.

11. Winchester Bridge over North Umpqua River in Douglas County. Bids received October 30, 1953. Conditions of award satisfied November 17, 1953. Peter Kiewit Sons' Company, Longview, Washington contractor.

12. Terrebonne Overcrossing on The Dalles-California Highway in Deschutes County. Bids received October 30, 1953. Conditions of award satisfied November 17, 1953. C. P. Patterson, Redmond, contractor.

Consideration was given to a report submitted by the Engineer concerning a request from Mayor Robert Walker, Merrill, Oregon, for improvement of the Klamath Falls-Malin Highway from Hatfield Junction through Merrill to Lost River, in Klamath County. The Engineer recalled that a delegation appeared before the Commission at the September meeting and urged such improvement at the same time that the State Tax Street Fund Project in the Town of Merrill is contracted. The city project, he stated, is estimated to cost $18,000 of which amount the State will pay $15,000. He further stated that no funds have been allocated for the requested highway improvement. He suggested that the mayor of Merrill be advised that no money is available to finance the highway improvement but the State Tax Street Fund project will be constructed in 1954. The Commission approved the suggestion and so ordered.

The Commission gave attention to communications from owners of the Spexarth Building in Astoria who object to the recent rerouting of the Oregon Coast Highway traffic along Eighth Street in Astoria and suggest that northbound traffic be routed along Seventh Street between Bond and Commercial. The complaint cites hazards to pedestrians, noise of traffic, and parking restrictions as the reasons for their request. The Engineer stated that this matter has been thoroughly investigated; that the city officials have been consulted, and as a result of such investigation and consultation, the following is recommended:

1. The rerouting of the Oregon Coast Highway northbound traffic via Seventh Street be denied as the proposal does not appear warranted or advisable.

2. Install a traffic signal at the intersection of Eighth and Commercial Streets provided the city will share equally in the cost of installation and will pay the cost of maintenance and operation of the same in accordance with the established policy, the total estimated cost of such installation being $3,200.

3. That the Highway Department proceed with the proposed revision at the northeast corner of Eighth and Commercial to provide a 10-foot radius curb return as a part of the previously executed State-City agreement covering the one-way street and signal project.

The Commission unanimously approved the recommendation.

The Ergineer presented a report on a request from the Lake County Chamber of Commerce for improvement of the Fremont Highway in the Crooked Creek area north of Lakeview. This particular area, the Engineer stated, is 3.07 miles long and is known as the Chandler Park Section. The existing highway has an oil surface and serves quite well the rather low volume of traffic that uses it. The cost of improving the section he estimated at $360,000. It was his recommendation that the request be denied due to low priority. The Commission accepted the recommendation.

Consideration was given to a written report from the Engineer concerning right of way needed for the proposed Clay-Columbia Street interchange with Harbor Drive. The Engineer advised that pursuant to the understanding had at the October meeting, an investigation was made in company with Commissioner McIver as to properties which should be acquired at this location, and he recalled that the Com-

mission gave consideration to this matter earlier in the day whileconsidering the right of way options presented by the Right of Way Engineer. (For details see copy of the Engineer's written report, dated November 24, 1953, in General Files.)

Requests were considered from several organizations in Tillamook and Netarts that something be done to remedy a traffic hazard that exists on the Tillamook River Bridge on the Netarts Secondary Highway just west of Tillamook. The Engineer advised that an investigation made by the Traffic Engineer disclosed, among other things, that there had been 18 accidents on the bridge in the period from January 1, 1948 to October 31, 1953, one of which was a recent collision between a log truck and a loaded school bus. The investigation also disclosed that installation of a one-way signal would cause considerable delay to traffic. It was his thought that the 17½-foot structure is wide enough to accommodate the passing of two maximum-sized vehicles provided the passing is done at slow speeds. He recommended the establishment of a 20-mile per hour speed zone from the east end of the bridge (M. P. 1.68) to the west end of the bridge (M. P. 1.79), and that the existing signs be replaced by larger reflectorized signs. The Commission accepted the Engineer's recommendations and thereupon adopted the attached resolution relative thereto marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission gave attention to a claim submitted by Raymond G. Gumpert, Bend, for loss of his wheat crop due to construction of the Tumalo-Bend Section of the McKenzie-Bend Highway. The Engineer advised that this has been a matter of controversy for the past two years with Mr. Gumpert who alleges that his irrigation ditches have been improperly reconstructed and that he was deprived of irrigation water during the summer of 1952 causing loss to him in the amount of $800. The matter of adequacy of the irrigation ditch, he said, has been straightened out, but Mr. Gumpert's claim for crop loss is still pending although Mr. Gumpert has indicated that he will accept $315 as payment in full for loss of wheat on a 7-acre tract. The Engineer recommended approval of such settlement in which, he said, the Chief Counsel concurs. The Commission approved the recommendation.

A request from Mr. Glenn Todd, Superintendent of the Tillamook Public Schools, District No. 9, for construction of a pedestrian footpath and designation of a 20-mile per hour speed zone on the Wilson River Highway between Evergreen Drive and Marolf Loop Road was discussed by the Commission. The Engineer advised that the request has been carefully investigated, and the findings disclose that neither the reduced speed zone nor the footpath are warranted, the latter being estimated to cost approximately $3,500. In consideration of the low accident record and the moderate prevailing speed of traffic along this highway section, he recommended that both requests be denied. The Commission accepted the recommendation.

The Engineer presented a tabulation of high bids received at Salem on November 30, 1953 for purchase of used equipment and scrap materials stored at the Salem shops. He pointed out that the total amount of high bids received is

$10,606.53 as compared with the appraised value of $9,219.50. He recommended that the items be sold to the high bidder in each instance. The recommendation was approved by the Commission.

The Engineer presented a report stating that pursuant to authority heretofore granted him by the Commission, he has approved reclassification of the Alsea Highway from its junction with the Oregon Coast Highway at Waldport to its junction with the Corvallis-Newport Highway near Philomath from a Group II highway status to a Group I status on basis of trial runs as required by law. Such reclassification, he said, will permit the operation of equipment hauling timber products, having an overall length not to exceed 60 feet. The report was accepted by the Commission.

The Commission gave consideration to a form of agreement with the State Liquor Commission concerning construction of a frontage road along the west side of McLoughlin Boulevard (US 99E) opposite the State Highway Division Headquarters in southeast Portland. The Engineer explained that the Liquor Commission plans to construct a warehouse on the west side of the highway and that the establishment of this facility will result in a considerable amount of truck traffic whose turning movements will create a hazardous and undesirable condition. Construction of a frontage road west of the highway between Ochoco Street and Avenue "A" appears, he stated, to be the only satisfactory solution to the problem. The cost of constructing such a frontage road, he estimated at $22,280 exclusive of right of way costs. The Liquor Commission, he added, now owns right of way valued at $12,000 and the remaining right of way he estimated could be acquired for about $7,500. He recommended that the Liquor Commission and the Highway Commission bear equally the cost of constructing the frontage road with the Liquor Commission to receive credit for $12,000 representing value of the land they now own. The Commission approved the arrangement as recommended.

The Engineer reported cancellation of a 25-mile per hour restricted speed zone on the Little Sheep Creek Secondary Highway between M. P. 0.00 and M. P. 5.07. The reduced speed zone, he stated, was placed to prevent damage to the newly constructed section of highway by reason of high vehicle speeds. All of the conditions which justified the placement of the restricted speed signs have now been eliminated, and the signs were removed on November 24, 1953 Inasmuch as the restricted speed zone was placed by resolution, he asked the Commission to adopt a resolution removing it. The Commission approved the request by adopting the attached resolution relative thereto marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A request was considered from the City of Arlington for additional access from the new Columbia River Highway to Main Street at its intersection with First Street in Arlington. The Engineer recalled that a delegation from Arlington made a similar request at the August meeting of the Commission which request had been denied. It was his thought that the proposed connection could serve no useful purpose and that it would only introduce additional hazards by reason of one more access to the new highway. He pointed out that the existing intersection of the New highway at Main Street has been greatly improved by widening and channelizing. He recommended that the request be again denied. The Commission deferred action pending the appearance of a delegation on the following day. (On the following day the Commission informed the delegation that the matter would be given further study and that operation of exist-

ing facilities would be watched carefully to determine if they function properly, and if they do not function correctly, then whatever is necessary to make them do so will be authorized.

The meeting recessed for luncheon at 12:00 noon and reconvened at 2:00 p.m. in the same room with the same persons present and participating.

The Commission approved and signed a supplemental agreement with the O. W. R. & N Railroad Company covering alterations and widening of the N. E. Halsey Street overcrossing on the T. H. Banfield Expressway in Portland.

A request was considered by the Commission from the Astoria Chamber of Commerce that the ferry, "M. R. Chessman", be continued in service during the winter season. The Engineer estimated a deficit of $34,000 in the operation of the ferries at Astoria during the period January 1 to December 31, 1953, and that on such basis the operation would show a deficit of about $42,000 for the year 1954, and if the "Chessman" is operated during the winter, the deficit could well amount to $48,000. Presently, he said, the ferry, "M. R. Chessman", is taken off the run during the winter months for purposes of overhaul and to reduce operation expense, the cost to operate it being considerably more than that to operate the "Tourist No. 3". He recalled that when the "M. R. Chessman" was put in service, it was planned to make the toll charges large enough to cover the cost of operation. He suggested in view of the deficit, that the toll rates be increased sufficiently to eliminate the anticipated deficit for the year 1954, and he presented a table of rates that would bring the desired results. The Commission deferred action on the matter pending the appearance of a delegation concerning this matter on the following day. (The Commission informed the delegation when they appeared that it was their opinion that the tolls charged should pay for the operation of the ferry, including depreciation, and that the Commission would be willing to operate the "Chessman" throughout the year, except for a period necessary for overhaul and maintenance, if users of the ferry will pay the necessary increase in fares. Later in the day, the Commission instructed the Engineer to make a study of tolls charged for ferry service on Puget Sound for comparable runs, and to submit the facts at the January meeting. (See ahead for additional entry.)

The Commission considered reports submitted by the Engineer and the Chief Counsel concerning a complaint made by Mr. Claude B. Miller, Ashland, against Mr. J. G. Bromley, District Maintenance Superintendent, and Mr. W. V. Poole, Section Foreman at Siskiyou. The Engineer explained briefly that the dispute revolves around a connection between the revised location of the Pacific Highway and the original location of this highway south of the Siskiyou Summit. He advised that in conformity with an agreement with Jackson County a section of old highway was conveyed to the County, and the County later conveyed a part of it to the adjoining property owners, one of whom was a Mr. Kissinger who closed a temporary roadway across his land which was being used by Mr. Miller. It was his opinion that the real issues involved are in the nature of a neighborhood squabble in which the Highway Department should not become involved. The Commission deferred action on the matter pending Mr. Miller's appearance before the Commission on the following day. (The Commission informed Mr. Miller, after he had made his oral presentation and left with them a written resume, that the matter would be carefully considered and that he would be informed of the

decision reached. Later in the day, Mr. Bromley and Mr. Poole appeared before the Commission and were advised by Chairman Chandler that the Commission had studied the matter carefully and that it is the feeling of the Commission that Mr. Bromley and Mr. Poole had done a good job, and accordingly the Commission would back them up in their actions.) (For details of this matter, see copy of the Engineer's written report to the Commission, dated December 4, 1953, in General Files.)

Consideration was given to a request submitted by The California-Oregon Power Company that the East Diamond Lake Secondary Highway be kept open for travel during the winter season to permit the hauling of supplies from Klamath Falls to its construction camp northwest of Diamond Lake. The Engineer reported that under authority from the Commission, this highway was kept open with a push-plow up to December 4 when the operation was closed down because of excessive depth of snow. He pointed out that The California-Oregon Power Company and its employees who have worked on this Company project for the last five years are familiar with the policy of the Commission to allow both secondary highways to close during the winter as it was not considered in the public interest to spend a large sum of money to keep them open for an average daily traffic of 30 vehicles. He suggested continued operation of the push-plow equipment as long as is possible to keep the road open for one-way travel and that the Power Company be informed that the Highway Department cannot do more than that because of shortage of equipment and men; also, that the suggestion be made that the most practicable outlet for the people of this community is over the North Umpqua Highway to Roseburg, as heretofore. Action on the matter was deferred by the Commission until the next day when a delegation was to appear regarding the project. (The delegation was informed that the Commission will do what it can with a push-plow but does not have a rotary plow available for use in this area; also, that it is the feeling of the Commission that the Power Company should cooperate in keeping the road open, and that the Engineer has been instructed to contact the Company with respect thereto.) (See ahead for additional entry.)

The Commission considered and ordered filed a report submitted by the Engineer concerning load weight violations covering a three-month period from August through October during the years 1950 to 1953 inclusive. According to the report a slight increase in violations was shown in 1953 over 1952, but the percentage of violations is still only 30 percent of the 1950 figure. It was the Engineer's thought that the recent opinion of the Attorney General with reference to suspended fines may tend to improve the situation. (For further details, see Tabulation of Log Hauling Operations, Exhibit "C", dated October, 1953, in the General Files.)

The Commission discussed with the Engineer a request from Messrs. Campbell and Kaney, Coos Bay, for permission to construct a frontage road on state highway right of way along the Bunker Hill-Delmar Section of the Oregon Coast Highway between Highway Engineer's Stations 386+00 and 394+00, two and one-half miles north of Delmar. The Engineer recalled that when the right of way was acquired, private access to the highway was granted at Stations 379+00 and 392+00, and access was also allowed at Station 394+00 for a logging road approach. Subsequent to that time, title to the properties has changed several times and conditions have now become quite complicated. To take care of the situation, he recommended that the access to the highway at Station 394+00 be closed and barricaded and that the abutting property owners

be granted a revocable permit to construct a frontage road on highway property from Station 382, an authorized access, to Station 390 on the condition that the abutting property owners will consent to the elimination of the approved access at Station 386+00. It should further provide, he stated, that Campbell and Kaney be required to construct a frontage road over their property in the vicinity of an unimproved road now in use between Station 390 and Station 394. Mr. Kaney, who was present, stated that these arrangements will be satisfactory to them. The Commission unanimously approved the arrangement as outlined by the Engineer.

The Engineer presented for consideration a proposed adjustment of the five-year construction program that was adopted by the Commission on September 24. 1953. made necessary. he said, to bring the portion of the program that is to be financed with bond monies, into as close conformity as is possible with the program that was submitted to the Legislature through a descriptive report prepared by Mr. Ralph Watson, Public Relations Consultant. He explained that the adjustment brings the total of the bond-financed program to within $175.000 of the amount of the bond money available, $72,284,942, and it also gives to each of the eight highways that are involved in the bond program approximately the same proportion of the program total which each would have received under the program that was submitted to the Legislature. He pointed out that the amount allocated to each highway is less than that shown on the program that was submitted to the Legislature because the original program was prepared on the assumption that $75,000,000 of bond monies would be available, whereas the Legislature authorized bond issues totalling only $72,000,000. The Engineer presented a copy of the five-year program that was adopted on September 24, 1953 on which were shown the changes required to effect the proposed adjustment referred to above, which changes, he stated, are the result of careful planning and represent an equitable distribution of the funds available. He also presented a tabulation in which the bond-financed portion of the program is summarized by highways and in which comparison is made between the amount of bond money each highway is to receive and the share or quota to which it is entitled on the proportionate basis established by the program that was submitted to the Legislature. The Engineer also presented a detailed program as revised, of the projects proposed to be financed with funds derived from the sale of $32,000,000 of highway bonds on August 7, 1953 which program, he stated, is in complete agreement with the adjusted five-year program mentioned above He recommended approval of the adjusted five-year program, and the projects proposed for the $32,000,000 bond program, which, he said, are in complete agreement, one with the other. The Commission gave the matter very careful consideration, and as a result thereof unanimously approved the adjusted five-year program and the detailed bond program as recommended by the Engineer.

There follows (1) tabulation showing a comparison of the program amounts with quotas established by programs submitted to the Legislature for highways in the bond program; (2) list of projects approved by the Commission for financing with monies derived from the sale of $32,000,000 of highway bonds; and (3) copy of the five-year construction program that was adopted on September 24, 1953 as revised at this meeting:

The matter of paving the Emigrant Hill Section was brought up by Commissioner Reynolds. He pointed out that the present schedule does not call for paving until the year 1956, and he inquired why the work cannot be performed sooner. The Engineer pointed out that it will take the years 1954 and 1955 to perform the grading; however, he added, it may be possible to contract the surfacing work in the fall of 1955.

Commissioner Reynolds also brought up the matter of dangerous winter traffic conditions on the section of US 30 between Kamela and Hilgard. The Commission authorized the Engineer to make a study of this section with the view in mind

of providing some means of improvement, taking into consideration the advice of the maintenance forces and the State Police who have complained of existing conditions. The Engineer was also instructed to make a study of a possible transfer of funds from the Chenoweth-The Dalles Section of US 30 to the section between Hilgard and Kamela in order to finance the latter project; however, no transfer is to be made until the investigation has been completed and the Commission authorizes it.

The Engineer requested authority to advertise for bids for construction of right of way fence along US 30 around The Dalles Dam. He explained that in the agreement with the U. S. Army Engineers, the State is required to call for

bids and to supervise construction of right of way fence which is estimated to cost $27,000, and the Federal Government is required to reimburse the State for the actual cost as a portion of the money that the Government is to pay the State for reconstructing the highway. The Commission approved the request for performance when the U. S. Army Engineers have obtained necessary right of way.

The Commission considered a petition from residents of Lane County requesting the surfacing of the Fox Hollow Secondary Highway near Eugene. The Engineer recalled that at the previous meeting, a delegation had requested an exchange of highways in which Lane County proposed to take over the Fox Hollow Secondary Highway if the State would assume jurisdiction over what is known as the "Q" Street route between Springfield and Eugene, and the Commission at that time had authorized a survey involving the "Q" Street route. He recommended that action on this latest request be deferred pending completion of the survey and the Commission's decision on the request for the exchange of highways. The recommendation was approved by the Commission.

A request from Roy Burton, Chairman of the Street Committee of the Gresham City Council for installation of a traffic signal on the Mt. Hood Highway at its intersection with Cleveland Avenue in Gresham was discussed by the Commission. In view of the fact that an investigation conducted by the Traffic Engineer disclosed that the traffic volume at the intersection warrants the installation of such a signal, the Engineer recommended that a semi-actuated traffic signal be installed provided the City will pay one-half the cost of installation, estimated at $4,000, and will pay all of the costs to maintain the signal and to operate it. The recommendation was accepted by the Commission.

Consideration was also given by the Commission to a request submitted by Charles M. Reynolds, Portland, for installation of a traffic sign or light on S. E. Powell Boulevard at the entrance to City Isolation Hospital near 97th Avenue, Portland. The Engineer stated that an investigation conducted by the Traffic Engineer discloses that the vehicular and pedestrian traffic coupled with the good accident experience does not warrant the installation of the traffic signal. He recommended that the request for the signal be denied and in lieu thereof that standard "Hospital Zone" signs be installed on either side of this intersection. The recommendation was approved by the Commission.

Letters from George Bullion, Superintendent of the Tigard Elementary School and Mrs. John J. Bushnell of Tigard, regarding a hazardous condition on the Pacific Highway West in front of the Tigard Grade School were given the Commission's attention. The Engineer reported that the Pacific Highway West at this point has recently been widened to four lanes of traffic; further, that an investigation by the Traffic Engineer discloses that approximately sixty children use the crosswalk in front of the school and that the children experience difficulty in finding suitable gaps in traffic for safe crossing of the highway. The traffic volume at this place, he said, is slightly in excess of the minimum required by national warrant, in view of which he recommended that a school crossing signal be installed at a cost of $1,500, the cost to be borne by the State because Tigard is an unincorporated community. The recommendation was approved by the Commission.

A letter from Mr. Tom Turner, Portland, was discussed by the Commission. Mr. Turner requests installation of traffic signals at the intersections of S. W. Barbur Boulevard (US 99W) with S. W. Spring Garden Street and S. W. 26th Avenue, in Portland. The Engineer stated that an investigation discloses that vehicular and pedestrian volume do not warrant signal installations at these points and that the accident record is below that of the adjacent signalized intersections. He recommended that the request be denied. The Commission approved the recommendation.

The Engineer reported that in response to a request from the City of Ashland, an investigation had been made concerning the need for traffic signals at a number of intersections on Main Street (US 99) in the downtown Ashland business section. On the basis of the facts disclosed, he said, the City was advised that there is warrant for installation of two semi-actuated interconnected signals at the intersections of Second and Main and at Pioneer and Main, and the City now has indicated that it would like to proceed with the installation at one intersection only, being at Second and Main. He recommended that the installation be authorized provided the City will agree to share equally in the cost of the initial installation, estimated at $3,600, and in addition will agree to pay all costs incident to maintenance and power consumption. The Commission accepted the recommendation.

A request from the City of Eagle Point for traffic signal installation at the intersection of North "C" Street and Main Street was discussed. The Engineer stated that "C" Street is the route of the Little Butte Secondary Highway and that the intersection has been investigated several times as a school crossing. He pointed out that presently the intersection is protected by a 25-mile per hour speed restriction, school crossing signs, pavement stencils, painted crosswalk, and a school boy patrol. A traffic count, he added, was taken on October 1, 1953, disclosing a low volume of traffic. Because the accident record is favorable and the traffic volume low, he recommended that the request for a signal be deniedand the problem be solved by installing oversize 25-mile per hour speed signs on either side of the intersection on "C" Street. The Commission approved the recommendation.

Also considered by the Commission were requests from the City of Grants Pass and the County Court of Josephine County for a complete study of traffic conditions in Grants Pass and its suburban areas. The Engineer advised that the County and the City have each agreed to pay one-third of the cost of such study which he estimated would amount to $6,000. He also said that the study will be of material benefit to the State Highway Department as well as to the County and City, and he recommended that it be authorized on the basis of the costs being divided equally among the three agencies. The recommendation was approved by the Commission which ordered the arrangement covered by written agreement.

Consideration was given to a proposed agreement with the Washington State Highway Commission and the Washington Toll Bridge Authority relative to construction of a new bridge across the Columbia River between Portland, Oregon, and Vancouver, Washington, paralleling the existing structure. The Engineer advised that since the agreement forms were prepared, objections to the plans for the new bridge were offered by operators of river craft who allege that sufficient vertical clearance has not been provided and that the lift span is not located in the

the proper place. The objections, he said, were offered at a hearing conducted by the Army Engineers who have taken them under advisement. He estimated that it will cost about $1,550,000 additional to do what the river operators want. In view of this information, the Commission decided not to sign the agreements until the requirements of the Army Engineers have been ascertained.

The Engineer reported that in the acquisition of right of way for the Pendleton-Emigrant Hill Section of the Old Oregon Trail, all right of way is being acquired on the assumption that the State will construct a right of way fence on each side throughout the entire length of the project, which will require 30.1 miles of fence at an estimated cost of $40,000. He requested authority to prepare plans and call for bids for construction of the fences, the cost to be charged against right of way acquisition. The Commission granted the request.

The Commission gave careful consideration to a proposed Special City Allotment Fund Program for improvement of city streets during the year 1954. The Engineer pointed out that of a total of 62 applications received, 20 are recommended for approval and 42 are not recommended. Each project, he said, has been carefully analysed and approval or disapproval has been based primarily upon three facts:

1. Eligibility under the law
2. Priority of need after eligibility is determined
3. The number and date of former projects

As a result of discussion, the Commission unanimously approved the following projects:

SUMMARY OF APPLICATIONS RECOMMENDED FOR APPROVAL

City	Division	Estimated Cost		
		State	City	Total
Sutherlin	III	$ 15,000	$ --	$ 15,000
Reedsport	III	10,400	--	10,400
Turner	II	7,800	1,000	8,800
Umatilla	V	8,000	--	8,000
Oakridge	III	15,000	23,700	38,700
Bay City	II	7,500	--	7,500
Carlton	I	15,000	300	15,300
Gervais	II	12,500	--	12,500
Lafayette	II	12,800	--	12,800
Myrtle Creek	III	11,000	--	11,000
Riddle	III	15,000	--	15,000
Brownsville	II	15,000	11,400	26,400
Drain	III	15,000	--	15,000
Condon	V	15,000	2,500	17,500
Detroit	II	9,500	--	9,500
Glendale	III	11,800	--	11,800

City	Division	State	City	Total
Oakland	III	$ 7,000	$ --	$ 7,000
Weston	V	15,000	6,800	21,800
Amity	II	14,000	--	14,000
Burns	V	15,000	2,300	17,300
Total Recommended for Approval		$247,300	$ 48,000	$295,300
Estimated Excess from 1953 Fund		25,000		
Estimated Total 1954 Fund		$272,300 *		

* After actual costs have been determined, all State costs in excess of $250,000 will be transferred to the 1955 fund.

The Commission gave consideration to a request submitted by Carl Anderson, Chairman of the Bonneville School Board for construction of a culvert or small bridge over Devil's Creek on the old route of the Columbia River Highway which now is used as a frontage road on the southerly side of the Columbia River Highway near Dodson. It appears that school buses operate over this frontage road and are obliged to cross the new highway three times because of this gap at Devils' Creek, which creates a hazard that can be avoided were a bridge provided at this point. The Engineer advised that a definite hazard does exist due to traffic turning on and off the highway at this point and that construction of the bridge to close the gap will permit closure of the existing accesses between the frontage road and the main highway. He estimated the cost of the structure at $6,000, and he recommended approval of the expenditure, the funds to be taken from the 1954 Minor Betterment Budget. The Commission approved the recommendation unanimously.

Attention was given by the Commission to an offer submitted by J. Herbert Stone, Regional Forester, U. S. Forest Service, to transfer to the State as a state secondary highway, a road described as the Clackamas River Forest Development Road in Clackamas County, particularly the section between Faraday and Oak Grove Fork, 26 miles in length. The Engineer advised that an extensive investigation has been made of the road,and from the findings, he cannot recommend that it be placed on the state system at this time. He pointed out that the traffic that uses the road consists largely of logging trucks and that to provide the proper kind of a facility for such traffic will require a large sum of money that is not presently available. He estimated the annual cost to maintain the road at about $2,000 per mile and the cost to improve the road to meet secondary highway standards at about $1,500,000. He also recalled the Commission's long established policy not to add more highways to the secondary system until construction of the unimproved sections on that system are farther advanced. In view of the facts presented by the Engineer, the Commission decided not to accept the road at this time.

Widening of the Corvallis-Newport Highway within the city limits of Toledo was considered by the Commission, The Engineer reported receipt of a

resolution from the City requesting widening to a width of 44 feet and construction of curbs through the main business district of the city. A reconnaissance survey of the project, he said, indicates that the proposed improvement will cost approximately $75,000. He expressed the thought that although in the future the highway will probably by-pass the town, it may be necessary in the meantime to improve the existing route as a stop-gap measure. Because no funds are available now to finance the work, he suggested that the project be given consideration in a future program when funds can be spared. The Commission accepted the suggestion.

The Commission also discussed a request from the City of Toledo for elimination of sharp curves in the Corvallis-Newport Highway west of the city limits. The Engineer stated that subsequent to receipt of the City's resolution requesting improvements of the highway within the City, a delegation appeared in his office and asked for elimination of eight sharp curves in a three-quarter-mile section extending westerly from the west city limits of Toledo to the east end of the reconstructed highway. All of the curves, he stated, are sharp, and he recommended improvements thereto that are estimated to cost about $25,000, the work to be done as a Minor Betterment item. The recommendation was approved by the Commission.

The Commission unanimously approved the following increases in project authorizations as requested by the Engineer:

1. Hauser-Coos Bay Section of the Oregon Coast Highway, Contract No. 3744. Amount of overrun - $60,000.

2. Newport-Toledo Section of Corvallis-Newport Highway, Contract No. 3741. Amount of overrun - $67,000.

The Engineer explained that the overrun on the Hauser-Coos Bay Section was caused by greater subsidence in embankments than was anticipated, and the necessity to place additional asphaltic concrete where the subgrade could not be stabilized by ordinary methods. The overrun on the Newport-Toledo Section, he stated, was caused almost entirely by slides during construction progress.

The Commission approved the Engineer's request for authority to conduct relocation surveys as follows:

1. Willowdale-Madras Section of The Dalles-California Highway, 20 miles, estimated cost - $40,000.

2. Juniper Ridge-Wagontire Section of the Lakeview-Burns Highway, 11 miles, estimated cost $7,700.

3. Beaverton-Forest Grove Section of the Tualatin Valley Highway, 14.5 miles, estimated cost - $15,000.

The Engineer explained that it is planned to conduct the surveys during the winter months, assigning thereto engineering personnel who are not engaged on construction work.

The Engineer requested authority for expenditure of $4,500 to widen the northerly 25-foot span of the Myrtle Creek Overcrossing on the Pacific Highway in Douglas County in order to accommodate the movement of 40-foot equipment units in combination under permit as authorized by the 1953 legislature. He said that requests have been received for permission to operate a combination consisting of a tractor and 40-foot semi-trailer over US 99, US 97, US 30, and US 730, that test runs were conducted, and it was ascertained that such combination of vehicles can operate safely without encroachment in the opposing lane of traffic at all points except across the Oakland and Myrtle Creek Overcrossings on the Pacific Highway. He further stated that investigation reveals that it is not practical to widen the Oakland Overcrossing as it will be by-passed by new construction next year. The Myrtle Creek Overcrossing, however, will be in use for several years, and he recommended in view thereof, that it be widened to 25 feet from its existing width of 19 feet 4 inches, which will cost about $4,500, the work to be done as a Minor Betterment Project. The recommendation was accepted by the Commission.

A request from the County Court of Yamhill County for a revision of the County's 1955 Federal Aid Secondary Highway program so as to provide for construction of structures only over Baker Creek and Panther Creek on Yamhill County Federal Aid Secondary Road No. 111, and construction of an additional bridge across Baker Creek on Federal Aid Secondary Road No. 112. The Engineer recalled that at the September meeting, the Commission approved an allocation of $81,000 to construct bridges over Baker and Panther Creeks on FAS Road No. 111, including approaches thereto, but the County finds that it has excess materials which are available for the bridge approaches, and such being the case, the County prefers to finance the approaches with County money and to use the Federal money to pay for the bridge structures only which are estimated to cost $47,000. The County also requests that the remaining $34,000 be used to finance construction of a new bridge across Baker Creek on FAS County Road No. 112. He recommended approval of the County's request. The Commission accepted the recommendation and so ordered.

Attention was given by the Commission to a request from the Port of Portland for development of an entrance roadway to the Portland International Airport by improving N. E. 82d Avenue, (Cascade State Secondary Highway) from T. H. Banfield Expressway to Killingsworth Avenue and construction of an extension of 82d Avenue northerly from Killingsworth Avenue to the airport. The Engineer reported that improvement of 82d Avenue between T. H. Banfield Expressway and Sandy Boulevard, which section now is a four-lane facility, will require expenditure of a large sum of money that presently cannot be justified. It was his thought, however, that the Commission should at some time within the next few years widen to a four-lane facility that portion of 82d Avenue between Sandy Boulevard and Killingsworth Avenue, which is now state highway, and that construction of an extension of 82d Avenue northerly from Killingsworth Avenue to the airport, which section is not on the state highway system and will require some new construction and some improvement of existing county roads, is the concern of Multnomah County rather than the State. The Commission concurred in the viewpoint of the Engineer and ordered that the Port of Portland be informed that the Commission will give consideration to improvement of the section between Sandy Boulevard and Killingsworth Avenue when funds become available to

finance the work, but the Commission feels that the obligation to provide the facility north of Killingsworth belongs to Multnomah County.

The Commission considered and by unanimous vote granted the following requests for extensions of time within which to complete state highway contracts, all without penalty as recommended by the Engineer:

1. Todd Building Company, Contract No. 3922 for construction of the Yoncalla Overcrossing on the Pacific Highway in Douglas County, requested an extension of time from September 30 to November 30, 1953 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

2. Tom Lillebo, Contract No. 3462 for construction of the Coos River Bridge on the Coos River Secondary Highway in Coos County, requested an additional extension of time from February 1 to September 11, 1953 within which to complete this work. The Engineer recommended that the extension of time be granted as requested without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

3. Warren Northwest, Inc., Contract No. 3929 for grading and paving the 82d Avenue-Halsey Street Connection, 92d Avenue-Fairview Section of the T. H. Banfield Expressway in Multnomah County, requested an additional extension of time from October 15, 1953 to July 1, 1954. The Engineer recommended that the extension of time for completion of this work be granted as requested without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

4. Inter City Sand & Gravel Company, Inc., Contract No. 3995 for grading and oiling on the Springfield Section of the Eugene-Marcola Road in Lane County, requested an extension of time from September 30, 1953 to October 7, 1953 within which to complete the work on this contract. The Engineer recommended that the extension of time be granted as requested without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

5. Roy L. Houck & Son, Contract No. 3836 for grading and paving the White School Junction Unit, Barbur Bouelvard-White School Section of the West Portland-Hubbard Highway in Marion County, requested an extension of time from September 30, 1953 to July 30, 1954 within which to complete this project. The Engineer recommended that the extension of time as requested be granted without penalty. A letter presented from the Bureau of Public Roads concurred therein.

6. Porter W. Yett, Contract No. 3829 for paving the Catching Slough-Enegren Ferry Section of the Coos River Secondary Highway in Coos County, requested an extension of time from August 31, 1953 to October 1, 1953 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

7. F. O. Laws, Contract No. 3975 for construction of roadbed embankment and slope protection on he west approach to the Salem Bridge on the Salem-Dallas Highway on Polk County, requested an additional extension of time from September 30, 1953 to October 20, 1953 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

8. E. C. Swaggart Company, Contract No. 3841 for rock production on the Endicott Creek-Mystic Creek Section of the Coos Bay-Roseburg Highway in Coos and Douglas Counties, requested an extension of time from October 31 to November 15, 1953 within which to complete this project. The Engineer recommended that the extension of time as requested be granted without penalty.

9. H. J. & H. W. Miller, Contract No. 3977 for paving the Milton-Freewater (N. E. 5th Avenue) City Street in Umatilla County, requested an extension of time from September 30 to October 20, 1953 within which to complete this project. The Engineer recommended that the extension of time as requested be granted without penalty.

10. Arthur Simonsen, Contract No. 3992 for grading and oil mat surfacing on the New Bridge-Richland Section of the New Bridge County Road in Baker County, requested an extension of time from October 15, 1953 to July 31, 1954 within which to complete this job. The Engineer recommended that the extension of time be granted as requested without penalty. A letter presented from the Bureau of Public Roads concurred therein.

11. Funderburk Construction Company, Contract No. 3623 for grading and oil mat surfacing on the Lone Rock Bridge-Rock Creek Section of the North Umpqua County Road in Douglas County, requested an additional extension of time from June 30 to August 6, 1953 within which to complete the work. The Engineer recommended that the extension of time be granted as requested without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

12. Rogers Construction, Inc., Contract No. 3861 for the Parkdale Rock Production Project on the Mt. Hood and Hood River Highways in Hood River County, requested an extension of time from September 30 to November 15, 1953 within which to complete the project. The Engineer recommended that the extension of time as requested be granted without penalty.

13. Rich & Sons Nursery, Contract No. 3964 for landscaping the Coburg Junction (Eugene) Section of the Pacific Highway in Lane County, requested an extension of time from October 31 to November 30, 1953 within which to complete this work. The Engineer recommended that the extension of time be granted as requested, without penalty.

14. Trowbridge & Flynn Electric Company, Contract No. 3968 for installation of traffic signal systems in Oregon City and Forest Grove on the Oswego and Tualatin Highways in Clackamas and Washington Counties, requested an extension of time from October 31 to November 14, 1953 within

which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

15. R. E. Meade & Company, Contract No. 3832 for construction of three structures on the Divide-Rice Hill Section of the Pacific Highway in Douglas County, requested an extension of time from October 31, 1953 to and including December 31, 1953. The Engineer recommended that the extension of time be granted as requested without penalty. A letter from the Bureau of Public Roads was presented concurring therein.

16. General Construction Company, Contract No. 3696 for the Hood River Bridge Concrete Work and Steel Erection Project on the Columbia River Highway in Hood River County, requested an extension of time from July 31, 1953 to December 15, 1953 within which to complete the work on this contract. The Engineer recommended that the extension of time be granted as requested without penalty. A letter from the Bureau of Public Roads was presented concurring therein.

17. La Grande Concrete Pipe Company, Contract No. 3978 for grading and paving Union (Dearborn Street) City Street in Union County, requested an additional extension of time from October 31 to November 30, 1953 within which to complete the work on this contract. The Engineer recommended that the extension of time be granted as requested without penalty.

18. Keith Brothers Construction Company, Contract No. 3959 for grading and oil mat surfacing on the China Camp Marsh Section of the Oregon Coast Highway in Coos County, requested an additional extension of time from November 14, 1953 to July 31, 1954 within which to complete this work. The Engineer recommended that the extension of time be granted as requested without penalty.

19. C. J. Eldon, Contract No. 4034 for construction of the "D" River Dolphins on t e Oregon Coast Highway in Lincoln County, requested an extension of time from November 30, 1953 to and including December 31, 1953 within which to complete the work on this contract, The Engineer recommended that the extension of time be granted as requested without penalty.

20. Acme Construction Company, Contract No. 3806 for grading and paving the County Farm-Ashland Section of the Pacific Highway in Jackson County, requested an additional extension of time from October 30 to November 20, 1953 within which to complete this project. The Engineer recommended that the extension of time be granted as requested without penalty. A letter from the Bureau of Public Roads was presented concurring therein.

21. Warren Northwest, Inc., Contract No. 3778 for paving the west approaches to the Salem Bridges on the Salem-Dallas Highway in Polk County, requested an additional extension of time from October 31 to December 31, 1953 in which to complete work on this contract. The Engineer recommended that the extension of time be granted as requested without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

22. Berke Brothers, Contract No. 3601 for grading and paving on the Reedsport-Winchester Bay Section of the Oregon Coast Highway in Douglas County, re-

quested an extension of time from August 31 to October 14, 1953 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter presented from the Bureau of Public Roads concurred therein.

23. Valley Construction Company, Contract No. 3763 for construction of the Haynes Slough Bridge on the Oregon Coast Highway in Coos County, requested an additional extension of time from October 31 to and including November 30, 1953 to complete the work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter from the Bureau of Public Roads was presented concurring therein.

24. T. W. Thomas, Contract No. 3792 for grading and paving on the Medford-County Farm Section of the Pacific Highway in Jackson County, requested an additional extension of time from October 30 to November 14, 1953 within which to complete the work on this contract. The Engineer recommended that the extension of time as requested be granted without penalty. A letter from the Bureau of Public Roads was presented concurring therein.

25. Homer G. Johnson, Contract No. 3854 for rock production on the Foster-Toll Creek Section of the Santiam Highway in Linn County, requested an extension of time from July 31 to October 31, 1953 within which to complete the work on this project. The Engineer recommended that the extension of time as requested be granted without penalty.

26. J. R. Taggart, Contract No. 3734 for bridge, grading and oil mat surfacing on the Tangent (Orleans-Oak Creek School) Section of the Orleans-Lebanon County Road in Linn County, requested an extension of time from October 31, 1952 to June 25, 1953 within which to complete the work on this contract. The Engineer recommended that the extension of time as requested be granted without penalty even though the Bureau of Public Roads does not concur.

(For further details regarding the extensions of time listed above, see copies of the Contractors' requests and the Engineer's recommendations to the Commission on file in the respective contracts in the Secretary's Office.) *

---

* FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above was based upon the recommendations of the State Highway Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Engineer reported that Contract Nos. 3601, 3602, 3607, 3623, 3663, 3716, 3719, 3729, 3734, 3763, 3765, 3792, 3804, 3816, 3829, 3835, 3850, 3854, 3861, 3895, 3896, 3908, 3909, 3933, 3964, 3966, 3967, 3968, 3972, 3975, 3977, 3995, 3996, 4010, 4012, and 4016 for construction of state highway projects have

been completed according to the requirements of the contracts or modifications thereof, and said projects are now ready for acceptance. After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that the following cities and towns have fulfilled legal requirements for expenditure of State Tax Street Funds accrued to them as follows:

During second six-month period of 1951:

Jordan Valley	$ 595.06

During first six-month period of 1952:

Jordan Valley	$ 740.89
Sumpter	458.35

During second six-month period of 1952:

Jordan Valley	$ 638.79
Sumpter	395.18

During first six-month period of 1953:

Boardman	$ 397.84
Canyon City	1,684.18
Fossil	2,138.38
Gates	1,399.07
Pilot Rock	2,808.08
Sumpter	484.04

During second six-month period of 1953:

Adams	$ 444.75
Antelope	173.28
Barlow	216.60
Clatskanie	2,602.07
Condon	2,795.57
Cornelius	2,882.21
Granite	115.52
Harrisburg	2,489.44
Malin	1,709.69
Manzanita	1,169.63
Metolius	453.41
Monroe	1,045.45
Monument	$ 658.46
Mosier	747.99
Oceanlake	2,021.59
Pilot Rock	2,446.12
Prairie City	2,373.92
Prescott	343.67
Sherwood	1,660.59
Sisters	2,088.01
Talent	2,134.22
Turner	1,761.67
Umatilla	2,390.04

The Engineer advised that the plans for the improvements proposed to be financed with the funds under discussion have been examined and found satisfactory, and he recommended approval of the plans by the Commission. The Commission accepted the recommendation by adopting the attached resoluti[illegible]s relative thereto marked

EXHIBITS "C-1" through "C-5", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Consideration was given to a request from Multnomah County and the Parkrose Chamber of Commerce for construction of a grade separation structure on the T. H. Banfield Expressway at N. E. 112th Avenue instead of at N. E. 132d Avenue as originally proposed. The Engineer recalled that an agreement had been entered into with Multnomah County covering closures and revisions of county roads crossing or adjacent to the Expressway, which agreement provides for a grade spearation structure costing approximately $190,000, when needed at or near 132d Avenue, with the State to contribute $65,000 and the County approximately $125,000. The County, he stated, is now of the opinion that a grade separation structure at 112th Avenue should be given priority over the one at 132d Avenue and that the project should go forward soon. The cost of the structure, he said, will be approximately the same at either location, and he gave as his thought that the State should meet the County's wishes in the matter. He pointed out, however, that compliance with the request will mean immediate, rather than a later, expenditure of approximately $65,000. He recommended approval of the substitution of projects. The Commission accepted the Engineer's recommendation, it being clearly understood the State's obligation to construct a structure at 132d Avenue is completely released. The Commission ordered the matter covered by appropriate written agreement.

Attention was given by the Commission to a request submitted by Mr. E. L. Thompson, Coquille, for a stockpass across the Oregon Coast Highway between Coquille and Bandon. The Engineer recalled that a similar request from Mr. Thompson was received in June and was denied by the Commission, and he advised that no change in conditions has occurred since then to warrant an alteration in his previous recommendation. He again recommended that the request be denied. The recommendation was adopted by the Commission.

The Engineer reported completion of the following surveys heretofore authorized by the Commission:

1. Survey for reconstruction of the Crabtree Creek Bridge on the Albany-Lyons Secondary Highway in Linn County

2. Survey for reconstruction of the Goble-St. Helens Section of the Lower Columbia River Highway.

He explained details with respect to both surveys and exhibited maps showing the proposed location of each. He recommended approval of both surveys. The Commission accepted the Engineer's recommendation by adopting the attached resolutions relative thereto marked EXHIBITS "H-1" and "H-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

A claim submitted by Mr. George Molitor in amount $15.85 for damage caused to his mowing machine by survey stakes left in his field by a State Highway Department Engineering crew was discussed. The Engineer advised that the

claim has been carefully investigated and that it is just. He, therefore, recommended payment of the claim. The Commission approved the recommendation.

The Commission approved out-of-state travel expense for the following personnel:

1. G. S. Paxson, Assistant State Highway Engineer, to attend a meeting of the California Street and Highway Conference in Los Angeles, February 3, 4, and 5, 1954. Estimated cost $120.

2. Carl W. Jordan, Director, Travel Department, to attend a meeting of the Board of Directors and Officers of the Pacific Northwest Travel Association in Helena, Montana, January 15 and 16, 1954. Estimated cost $91.

3. R. H. Baldock, State Highway Engineer, to attend a meeting of the Highway Research Board in Washington, D. C. January 12-15, 1954. Estimated cost $475, of which amount the Highway Research Board will pay $185.

4. George Hester, Jr., to attend the same meeting at an estimated cost of $346.70.

5 C. W. Enfield, Chief Counsel, to attend the same meeting of the Highway Research Board at an estimated cost of $358.70.

6. G. S. Paxson to attend the same meeting and a meeting of the American Concrete Institute Committee on Concrete Pavements. Estimated cost to the State $24, the balance to be paid by the Highway Research Board.

A request from the Gold Hill City Council for designation of the old route of the Pacific Highway through the City of Gold Hill as an alternate US 99 route was considered by the Commission. Also considered was the City's request for removal of the sign which reads "Entrance to Route 99 Closed by Bridge Out Two Miles From Here". The Engineer stated that he can not recommend designation of the alternate route because it is not in conformity with nationally accepted policy of the American Association of State Highway Officials with regard to such matters, such association being charged with the numbering of highways. He accordingly recommended that the request be denied. He also recommended against removal of the sign as it would possibly give the traveling public the idea that it could return to old route 99 at its connection with the new highway north of Gold Hill, which is not true. He mentioned that the difficulty will be eliminated when the bridge revision is completed. The Commission approved the recommendation.

The Engineer reported that the Hood River-Mosier Section of the Columbia River Highway in Wasco County has been completed and opened to traffic. He recalled that the agreement previously entered into with the County provides that the old highway section shall be turned over to Wasco County for disposal. He recommended that that be done at this time. The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission approved and later signed a form of agreement with Douglas County and the City of Canyonville providing for disposal of the Canyonville-O'Shea Creek Section of the Tiller-Trail Highway in Douglas County when construction of the highway on revised alignment has been completed.

In connection with the bids received earlier in the day for construction of the Emigrant Hill Section of US 30, it was brought out that Umatilla County has not yet signed the agreement which provides that the County will assume jurisdiction over the old highway section when the new section is completed. The Commission ordered that the award of the contract be deferred until the County has signed the agreement.

The Commission approved a service agreement with the California-Oregon Power Company providing for furnishing electric power to the remote-controlled radio station on "Black Cap" northeast of Lakeview.

A request from the Coos-Curry Pioneer Historical Society to purchase or lease a small parcel of land which lies between Coos Bay and Coquille on the Oregon Coast Highway near Coaledo, was considered by the Commission. The Engineer advised the land lies between the old and new highway location, and if the Society is granted use of the property, all access to the new highway should be restricted and access to and from the area desired by the Historical Society should be confined to the old road. As a result of discussion, the Commission authorized sale of the property to the Historical Society with access restrictions as outlined by the Engineer. The matter was referred to the Right of Way Department to handle the details.

The Commission gave consideration to a request from Mr. M. W. Laubenfels, Professor of Geology at Oregon State College, to purchase two electric stoves made by the State Highway Department. The Engineer stated that Mr. Laubenfels submitted his request in behalf of the Lions Club of Corvallis which wants to install them in Corvallis city parks. He recommended sale of the stoves to him at $200 each. The Commission accepted the recommendation.

Renewal of an agreement with the Oregon Physicians Service to provide medical and hospital service to Highway Department employees during the year 1954 was considered by the Commission. The Engineer advised that the Oregon Physicians Service recently submitted to him a revised form of agreement which proved to be unacceptable so was returned to the Company. He recommended that the contract in existence during the year 1953 be extended through the year 1954. The recommendation was approved by the Commission.

The Engineer reported that due to the death of Mr. John A. Laing, a vacancy exists on the Travel Advisory Committee. He suggested appointment of Mr. Arden X. Pangborn, Editor of the Oregon Journal, a former member of the Committee, to fill the vacancy. The suggestion was approved by the Commission whereupon the Secretary was instructed to ascertain whether or not Mr. Pangborn is willing to serve.

A suggestion from the architects for the Highway Building in Salem that it would be proper to install a bronze plaque in the lobby of the building was con-

sidered by the Commission. The Engineer presented suggested wording for such a plaque as follows:

State
Seal

STATE HIGHWAY OFFICE BUILDING

The erection of this building was authorized in

1948 by the Oregon State Highway Commission

T. H. Banfield, Portland, Chairman
Ben R. Chandler, Coos Bay
Arthur W. Schaupp, Klamath Falls

It was completed in 1952 by

The Oregon State Highway Commission

Ben R. Chandler, Coos Bay, Chairman
Charles H. Reynolds, La Grande
Milo McIver, Portland

R. H. Baldock, State Highway Engineer

Whitehouse, Church, Newberry & Roehr, Architects
Sound Construction & Engineering Co;, Contractors

The Commission approved the wording and authorized installation of the plaque.

The Commission discussed and upon recommendation of the Engineer unanimously approved requests for reduced speed zone designations as follows:

1. On the Oregon Coast Highway between a point 0.30 mile north of the entrance to Seal Rock State Park (M. P. 163.82) and a point 100 feet south of the entrance to Seal Rock State Park (M. P. 164.14). The Engineer reported that an investigation concerning the accident ratio and prevailing speeds as well as roadside conditions indicates that a 45-mile per hour speed zone should be established, and he so recommended.

2. On the Oregon Coast Highway between the south city limits of Bandon (M. P. 292.69)and a county road junction at M. P. 293.02. The Engineer reported that the State Speed Control Board has established a 40-mile per hour reduced speed zone in the City of Bandon and that an investigation reveals that the zone should be extended southerly to the

junction with the county road. He recommended appropriate action by the Commission to that end.

3. On the Santiam Highway from the east city limits of Albany at M. P. 0.06 to Clay Street at M. P. 0.30, 35 miles per hour. From Clay Street (M. P. 0.30) to a point 200 feet east of Airport Road (M. P. 1.08) 45 miles per hour. The Engineer reported that the State Speed Contol Board has established a 35-mile per hour speed limit within the City of Albany. An investigation, he said, discloses that the reduced speed zone should be extended easterly as indicated above, and he so recommended.

The attached resolutions formally designating the above-listed reduced speed zones, marked EXHIBITS "E-1" and "E-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein, were thereupon adopted by the Commission by unanimous vote.

A claim submitted by James A. Prince for damages allegedly suffered due to loss of water supply caused by construction of the North Unit-Enterprise Forest Boundary Section of the Enterprise-Lewiston Highway was discussed by the Commission. The Engineer reported that the well in question is approximately fourteen feet deep and is in a tight gravel formation which also appears in the highway cut, and that seepage appears in the formation on the highway cut slope about 225 feet distant from Mr. Prince's well. There appears to be no doubt, he stated, that the well was supplied by water percolating through a gravel strata. He pointed out that the Chief Counsel has rendered an opinion in this instance citing that the Highway Commission is not liable for disturbance or interference with percolating waters as distinguished from interference or disturbance of water that flows in a defined channel, either above or beneath the surface of the ground. He, therefore, recommended that Mr. Prince be notified that the Highway Commission has no liability for the drying up of his well. The Commission approved the recommendation.

The Commission confirmed the dates January 21 and 22, 1954, for its next regular meeting to be held in Portland. The Commission also tentatively set Wednesday and Thursday, February 24 and 25, as the date for its next following meeting. The Secretary was instructed to make the usual arrangements for use of the Green Room in the Imperial Hotel for both meetings.

The Commission discussed the following matters of unfinished business listed on the Secretary's summary dated October 30, 1953:

1. Controversy over charges for swimming facilities at Honeyman State Park: The Parks Superintendent submitted a report on this matter earlier in the day. The item was ordered deleted from the list.

2. Requests for improvement of US 99W and Amity-Dayton Highway in the vicinity of McMinnville: The Engineer reported that the field work on the survey for this area has been completed and that his report on the subject will be ready for consideration by the Commission at its next meeting.

This item is to be deleted from the list of Unfinished Business.

3. Recommendation of Westmost Grange that properties of Jess Strader and Ed Divilbiss at Bandon Beach be acquired for state park purposes: The Parks Superintendent advised that negotiations with the property owners are under way, but he has nothing particularly to report at this time. The Commission ordered this item retained on the list of Unfinished Business.

4. Request for improvement of the Klamath Falls-Malin Highway northerly from Hatfield Junction through Merrill to Lost River in Klamath County: This matter was reported on by the Engineer earlier in the day; consequently, the Commission ordered the item removed from the list.

5. Request for improvements to US 395 in the Crooked Creek area north of Lakeview: This matter also was reported on by the Engineer earlier in the day and was ordered removed from the list of Unfinished Business.

6. Request for placing the Clear Lake-Belknap Springs Forest Road on the State Highway System: The Engineer advised that his investigation in this matter is not yet complete, but he will contact the Linn County Court relative thereto as soon as possible. This item is to remain on the list of Unfinished Business.

7. Status of the Starkey Secondary Highway: The Engineer stated that he has not yet contacted the Union and Umatilla County officials re this project but will do so as soon as possible. This item is to remain on the list of Unfinished Business.

8. Proposed acquisition of land at Clay and Columbia Streets for proposed connection between West Portland Expressway and Harbor Drive: The Engineer's report on this matter was rendered earlier in the day so the Commission ordered the item deleted from the list of Unfinished Business.

9. Resolution reclassifying the Salem-Dallas and the Dallas-Coast Highways: The Engineer recalled that the 1953 Legislature in listing highways to be included in the system of state highways included the Willamina-Salem Highway extending westerly from Salem through Rickreall to Dolph Corner; thence to a junction with the Salmon River Highway south of Willamina. They also included the Dallas-Rickreall Highway, being a segment of the old Salem-Dallas Highway starting at Rickreall and extending westerly and southerly to the City of Dallas. The Legislature, he stated, did not classify the routes as to primary or secondary status, leaving that function to the Highway Commission. He further stated that the matter has been carefully studied and that it is his recommendation that the Willamina-Salem Highway which includes the eventual Rickreall-Dolph Corner Cutoff, be classified as a Primary Highway, and that the Rickreall-Dallas Highway be classified as a secondary highway, and that the section of the Old Dallas-Coast Highway extending from Dallas to Dolph Corner retain its classification as a secondary highway. The Commission accepted the Engineer's recommendation by adopting the attached resolution relative thereto marked EXHIBIT "J", which resolution by this reference is made a part hereof with like effect as though extended in full herein. This item is to be deleted from the list of Unfinished Business.

10. Request of The California-Oregon Power Company that the East Diamond Lake Highway be kept open during the winter months to facilitate transportation of supplies from Klamath Falls to the COPCO Camp northwest of Diamond Lake: The item was ordered deleted from the list of Unfinished Business inasmuch as the Engineer's report on it was rendered earlier in the day.

11. Request of the City of La Grande for permission to construct a new channel for Mill Creek on state highway right of way to facilitate disposal of water from a storm sewer: The Engineer reported that the City has withdrawn its request and now plans to use the old channel. The item was ordered removed from the list.

The Commission considered and approved a list of papers that were signed by the Secretary in behalf of the Commission during the period October 27 to December 9, 1953.

Attention was given by the Commission to a letter from the City Recorder of Vale concerning the one-way routing of highway traffic over "A" Street and Washington Street in that City. The Engineer stated that he has not yet had time to study this matter so is not prepared to make a recommendation at this time. Action on this item was deferred by the Commission pending receipt of the Engineer's report.

The Commission discussed with the Engineer the bids received during the morning session for highway construction and at 4:00 p.m. Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows, the Commission's decisions being by unanimous vote:

"Grading and oiling 5.80 miles on the Table Rock Creek-Black Bridge Section of the Baker-Homestead Highway about 26 miles east of Baker in Baker County: The Commission elects to accept the bid of Newport Construction Company, Portland, the low bidder, in the sum of $257,074.60, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grade widening and paving 20.5 miles on the Brothers-Hampton Section of the Central Oregon Highway east of Brothers in Deschutes County: Warren Northwest, Inc., Portland, the low bidder, has been awarded this contract in the sum of $432,188.50, which is their bid price.

"Construction of automatic traffic signal installation at one street and highway intersection on the Pacific Highway in Central Point in Jackson County: The Commission has awarded the contract to the low bidder, Steeck Electric Company, Roseburg, at their bid price of $2,997.

"Roadbed widening and paving of 6.0 miles on the Gillespie Corner-Lorane Section of the Territorial Highway about 12.6 miles south of Veneta in Lane County: The Commission has awarded the contract to L. P. Stubblefield, Eugene, the low bidder, at his bid price of $205,419.50.

"Grading 0.88 mile of roadbed and connections and 7.52 miles of paving on the Mill City-Niagara Section of the North Santiam Highway east of Mill City including the North Santiam Forest Wayside Access Road about 3 miles west of Mill City and the Mehama Connection at Mehama in Marion County: Warren Northwest, Inc., Portland, the low bidder, has been awarded this contract at their bid price of $168,644.

"Construction of North Santiam Highway Overcrossing and Mill Creek Bridge on the North Santiam Highway near Salem in Marion County: The Commission has awarded the contract to the low bidder, C. J. Eldon, Portland, at his bid price of $83,940

"Installation of Salem Traffic Signal at the intersection of Pine Street and Broadway Avenue in the City of Salem in Marion County: All bids for this project have been referred to the City of Salem for action inasmuch as it is a city project.

"Construction of Cold Springs Overcrossing over the Pendleton-Cold Springs Highway at Cold Springs Junction in Umatilla County: The Commission has awarded the contract to R. H. Jones, Hillsboro, the low bidder, at his bid price of $11,932.

"Grading 15.04 miles on the Emigrant Hill Section of the Old Oregon Trail east of Pendleton in Umatilla County: The Commission elects to accept the bid of Berke Brothers and C. R. O'Neil, Portland, the low bidder, in the sum of $1,515,560, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received."

The Commission discussed with the Engineer requests and problems to be brought up by delegations on the following day. No action was taken on such matters pending appearance of the delegations.

Commissioner Reynolds brought up for discussion several telegrams received from the City of Burns concerning investigations that are under way to determine a permanent route for US 20 through the City. The Engineer stated that field surveys are being carried on but are not yet complete so he has nothing to report at this time. The Commission ordered that the telegrams be answered by stating that when the Engineer's report on the subject has been rendered to the Commission, all interested parties will be given an opportunity to be heard on the subject before the Commission makes a decision whether to improve the present route of the highway or to relocate it.

Mr. W. C Williams, Deputy State Highway Engineer, reported that the Morrow County Court has requested that a survey be made for a road extending from the Paterson Ferry, seven miles east of Boardman, to a junction with US 30 and has also requested a survey for a new road extending from a point $4\frac{1}{2}$ miles east of Boardman south to Heppner following the easterly boundary of the bombing range. He estimated the cost of the Paterson Ferry survey at $2,000 and the survey south of Boardman at $5,500. The Engineer recommended approval of both

requests on the condition that the County will pay all costs involved and will advance the estimated cost of the work. The Commission approved the recommendation.

The Commission discussed letters from Mr. Roy Webster, President Hood River Chamber of Commerce, concerning sub-normal business that businessmen of Hood River are experiencing since advent of the new water-level highway (US 30) through Hood River, and offering suggestions to remedy the situation. The Commission referred the communications to the Engineer for investigation and report.

Chairman Chandler pointed out that the terms of office for Mr. R. H. Baldock, State Highway Engineer, and Mr. H. B. Glaisyer, Commission Secretary, will expire on February 28, 1954, and he gave as his feeling that their re-appointment should be considered at this meeting. Commissioner Reynolds moved that both men be re-appointed for a term of four years commencing March 1, 1954 at the expiration of their present terms. The motion was adopted by the Commission unanimously, and it was so ordered.

Chairman Chandler inquired if the department makes use of a question box to receive employees' suggestions or if any reward is offered employees for good suggestions. The Engineer advised that credit is given employees through the medium of the Personnel Magazine, and that employees in the lower brackets are given recognition through the merit rating system. He further stated that it is planned later on to offer some sort of an award among young engineers for noteworthy accomplishments.

Chairman Chandler also brought up the matter of changing the traffic signal at Bay Shore Drive and Central Avenue in Coos Bay. It was his thought that in order to speed up traffic movements, traffic should be allowed to move at all times along the east side of the northbound lane. The Engineer was instructed to investigate the matter.

The meeting adjourned at 4:45 p.m. to reconvene the following morning at 9:00 a.m.

Portland, Oregon
December 11, 1953

The meeting of the State Highway Commission reconvened at 9:00 a.m. in the Green Room of the Imperial Hotel with the following persons present and participating:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer

W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids for highway construction were opened and read aloud by the Secretary, as follows, at the conclusion of which he announced that the award of contracts would be made by the Commission at 2:30 p.m. in the same room:

COLUMBIA COUNTY
MIST-CLATSKANIE SECONDARY HIGHWAY

Koppisch Construction Co. Inc., Astoria	$ 19,675.00
Atlas Construction Co., Portland	20,780.50
Grimstad and Vanderveldt, Astoria	24,923.50
Inland Construction Company, Milwaukie	25,303.00
D. F. McKenzie, Salem	25,902.50
F. O. Laws, Salem	27,685.00
John A. Logan, Portland	28,949.70
P. C. Knox, Gladstone	29,587.50
O & K Construction Company, Gresham	29,820.00
Schrader Construction Company, Portland	30,090.00
Arthur Simonsen, Baker	30,177.50
Henry H. Miller, Roseburg	30,992.00
A. H. Saxton & Son, Corvallis	33,647.50
George R. Rouse, Salem	33,711.50
Logan, Taylor and Company, Portland	35,595.00
L. T. Forman, Boring	35,860.00
Kuckenberg Construction Company, Portland	36,137.50
C. J. Eldon, Portland	36,697.00
G. Frank King, Portland	37,927.50
M. L. O'Neil & Son, Eugene	40,817.50
Fodge and Collins, Waldport	41,512.50
Goodat Crane Service, Portland	46,417.50
Lee Construction Company, St. Helens	62,067.74

DOUGLAS COUNTY
TILLER-TRAIL SECONDARY HIGHWAY

A. H. Saxton & Son, Corvallis	$ 85,051.50
F. L. Somers, Klamath Falls	89,775.00
Valley Construction Company, Portland	96,520.00
C. J. Eldon, Portland	99,015.50
Babler Brothers, Inc., Portland	109,535.00
Henry H. Miller, Roseburg	115,132.90
Acme Construction Company, Eugene	118,727.50

JACKSON COUNTY
SEVEN OAKS OVERCROSSING

Bessonette and Graff, Medford	$ 69,839.00
Stanley G. Parrish, Medford	69,981.00
Tom Lillebo, Reedsport	76,335.00
Young and Smith, Grants Pass	76,850.00
Central Heating Company, Eugene	77,360.00
Ausland and Dodson, Grants Pass	77,772.00
Valley Construction Company, Portland	79,130.00
Hannan Brothers, Portland	80,548.00
Hamilton & Thoms, Eugene	82,660.00
John Kovtynovich, Eugene	83,470.00

"428"

MULTNOMAH COUNTY
BONNEVILLE HIGHWAY ILLUMINATION

George L. Rochat & Son, Portland	$ 4,499.00
Walton-Brown Electric Company, Salem	4,697.00
Trowbridge Electric Company, Roseburg	5,050.00
Mark Smith & So., Klamath Falls	5,094.90
Olson Electric Company, Vancouver, Washington	5,865.74
W. R. Grasle Company, Portland	6,283.00

The Commission signed the following agreements, deeds and other papers:

"Indentures of Access" covering the following:

a. Saling property on Hauser-North Bend Section of the Oregon Coast Highway, Coos County.

b. Woodworth property on Hauser-North Bend Section of the Oregon Coast Highway, Coos County.

c. Nordstrom property on Forest Boundary-Hauser Section of Oregon Coast Highway, Coos County.

d. Bolt property on Hauser-North Bend Section of Oregon Coast Highway, Coos County.

"Revocable Permit" covering permit to remove gravel from property owned by Elsie Allen McKay, located within Umatilla Indian Reservation on Pendleton-Deadman's Pass Section of Old Oregon Trail Highway.

"Trust Agreement" with Bonneville Power Administrator covering changes in Bonneville transmission line on Pendleton-Deadman's Pass Section of Old Oregon Trail Highway, Umatilla County.

"Bargain and Sale Deed" covering deeding to Coos County 1.48 acres of land on US 101 at Shingle House Slough for county road right of way.

"Bargain and Sale Deed" covering sale to Mr. and Mrs. H. C. Kirby 0.55 acre of land on Viento-Hood River Section of Columbia River Highway, Hood River County.

"Bargain and Sale Deed" covering sale to Mr. and Mrs. George F. Simmons of 3.1 acres of land on Newport-Toledo Section of Corvallis-Newport Highway, Lincoln County.

"Cancellation of Lease" with Westfall Engineering Company covering state property on T. H. Banfield Expressway, Portland.

"Industrial Lease" with Northwest Technical Institute covering leasing of state property on T. H. Banfield Expressway, Portland.

"Agreement" with State Liquor Commission re construction of frontage road along McLoughlin Boulevard opposite State Highway Division Headquarters, Portland.

"Agreement" with Douglas County and City of Canyonville covering abandonment of Canyonville-O'Shea Creek Section of Tiller-Trail Secondary Highway, Douglas County.

"Service Agreement" with California-Oregon Power Company covering service to remote-controlled radio station on "Black Cap".

"Agreement" with Marion County covering maintenance of Market Road No. 91, from city limits to Pacific Highway.

"Agreement & Bill of Sale" to Portland General Electric covering title of power line extension into Silver Falls State Park.

"Throughway Agreement" with Marion County covering the Gervais-Hayesville Unit, Portland-Salem Expressway.

"Bargain & Sale Deed" to Louis Audet re property lying in East half ($E\frac{1}{2}$) of Section 1, Township 2 South, Range 46 East, W. M., Wallowa County. This parcel of land contains 6.43 acres. Consideration $1.00.

"Supplemental Agreement" with O. W. R. & N Railroad Company covering alteration and widening of overcrossing N. E. Halsey Street, Multnomah County.

"Agreement" with City of Portland re street closures on 42d Avenue-92d Avenue Sections of T. H. Banfield Expressway.

"Project Agreement" re Arlington-Heppner Junction Section (Structures)

"Bargain & Sale Deed" to City of Albany conveying 4 parcels of land situate in Hackleman's Second Addition to the City of Albany.

Mr. Claude B. Miller, Ashland, appeared before the Commission to present a complaint concerning Mr. J. G. Bromley, District Maintenance Superintendent, Grants Pass, and Mr. W. V. Poole, Maintenance Foreman, whose headquarters are at Siskiyou. Mr. Miller's complaint appeared to involve an alleged illegal use of state equipment on a section of the old Pacific Highway near the summit of the Siskiyou mountains, which had been abandoned to Jackson County. It also appeared that Mr. Miller's complaint involves a dispute with his neighbor, a Mr. Kissinger, on this abandoned section of road concerning road approaches. He protested the action of the Commission in abandoning the old road to Jackson County without making provision for an outlet that he desired. It was his expressed feeling that the State had no right to so abandon the road and he urgently requested a winter outlet from his property. He left with the Com-

mission a written resume of his complaint. The Commission informed him that the matter would be given further study and that he would be advised when a decision has been reached. (See ahead for additional entry.)

Mr. J. L. Curtis, Safety Director for the Oregon Timber Transport Operators, came before the Commission and asked that log haulers be allowed to truck-haul logs over state highways during certain hours of darkness. He explained that under the terms of permits now issued, no such hauling is allowed after 8:00 p.m. which, in some instances, causes haste and carelessness on the part of the operator to get his load to the dump by that time. It is not the intent of the log haulers, he stated, to ask for hauling on a twenty-four hour basis, but they are only asking that some provision be incorporated in the permits to allow some hauling after 8:00 p.m. He pointed out that for most log haulers, it is not feasible to load in the dark, whereas they can haul and dump during the hours of darkness. Chairman Chandler stated that there are many angles to be considered in such a request and that the 8:00 p.m. deadline was set to allow trucks loaded in daylight to dump their loads before dark on the same day. He added that the Commission is also interested in the matter from the standpoint of safety. He concluded the discussion by stating that the request will be given careful study.

Messrs. H. A. Hurlbut and D. C. Mapel, employees of the California-Oregon Power Company, came before the Commission concerning the removal of snow on the East Diamond Lake Secondary Highway in order to give company employees residing at Toketee Falls northwest of Diamond Lake a way out of this isolated spot during the winter season. Mr. Mapel stated that during winter months people in the past have used the North Umpqua road into Roseburg to secure supplies, medical aid, etc., but this road is now in such bad condition that it is almost impassable. He requested that the State keep state highways open to traffic to Diamond Lake. Mr Hurlbut pointed out that the Power Company has a Snogo mounted on a truck, and he inquired if the Highway Commission would allow the use of the Power Company's Snogo on a state highway. He stated, however, that he and Mr. Mapel represent the community and cannot speak for the Power Company. The Engineer observed that the highway referred to would be kept open with a "V"-type plow as long as possible, but the State does not have a Snogo to work this area. Chairman Chandler informed the two men that the Commission would do what it can and that the Engineer will be requested to ascertain from the Power Company how much cooperation it will contribute in keeping the road open to traffic.

A delegation representing the Astoria Chamber of Commerce and other coastal communities came before the Commission and urged that the ferry, "M. R. Chessman", be continued in operation during the winter months. The group included the following people: Joe Flynn, Manager, Astoria Chamber of Commerce; Fred Andrus, Editor, ASTORIAN BUDGET; E. R. Baldwin, Warrenton City Manager; Dr. Noel Rawls, Warrenton City Commissioner; Arthur O. Waud, Manager, Oregon Coast Association, Tillamook; Avery Combs, President of Seaside Chamber of Commerce; Ralph A. Miller, Director of Seaside Chamber of Commerce; Berger Nielsen, Manager of Seaside Chamber of Commerce; Lester U. Raw, Mayor of the City of Seaside; and Alfred O. Johnson, Naselle, Washington. Mr. Flynn introduced the members of the delegation. He pointed out that the ferry ordinarily is removed from service about December 1, just preceding the Christmas season which creates quite a problem because many trucks cannot use the smaller ferries. Mr. Johnson

stated that many people in Washington who previously had traded in Astoria are shifting their purchasing to Longview and other Washington cities, due, principally, to delays in the ferry operation. He urged that the "M. R. Chessman" be kept in service continuously. Mr. Waud read aloud a statement from the Oregon Coast Association endorsing the efforts of the Astoria Chamber of Commerce to continue the "M. R. Chessman" Ferry in service during the winter months and also endorsing the efforts of the Port of Astoria in attempting to secure a bridge across the Columbia River. Mr. Baldwin stated that the City of Warrenton is in favor of this request, and he then inquired as to the status of the proposed Youngs Bay Bridge.

Chairman Chandler replied that it is expected that the survey will be completed by about June 1, 1954, but there is no money available to finance construction. He pointed out that a considerable amount of bond money is being spent on the Lower Columbia River Highway which will be of material benefit to residents of Astoria and other nearby cities. He recalled that when the "M. R. Chessman" Ferry was constructed and placed in service, it was planned to charge tolls which would prevent the ferry from operating at a deficit. For the year 1953, he said, the Ferry will not pay expenses and the deficit for 1954 is estimated to be even greater. He also said that to operate the larger ferry during the winter months will require an increase in tolls to meet costs, and the Commission will be glad to operate the ferry if the people will pay the necessary increased toll charge. He pointed out that in 1946 when the ferry was under private operation, only two small ferries were used, and the Commission then yielded to requests to provide a larger ferry at a cost of approximately one-half million dollars. Ferry operation costs, he stated, have gone up considerably since that time. He inquired what reaction there would be if the rates were increased.

Mr. Flynn stated that he is quite certain there will be opposition, and he gave as his feeling that the State has an obligation to furnish ferry service even at a deficit. He declared that tolls have been decreased twice on the Longview Bridge with a result that the revenues have increased. It was his thought that better ferry service will increase ferry revenues.

Commissioner Reynolds expressed the thought that the ferry should not be operated on a deficit basis. Chairman Chandler stated that the Commission feels that it cannot operate the ferry with increasing deficits occurring year after year and that highway gas tax money should not be used to subsidize business interests in any particular locality. Commissioner McIver inquired what the people's attitude would be were the Commission to put the ferry operation back into private hands. Mr. Flynn replied that they have not considered the matter from that angle. Chairman Chandler concluded the discussion by stating that the Commission at the present time is willing to continue the "M. R. Chessman" Ferry in operation, except for the period necessary for overhauling, if the users of the ferry will pay an increase in toll to compensate for the additional cost. Following departure of the group the matter was again discussed by the Commission, and the Engineer was then instructed to investigate tolls charged in the State of Washington for comparable ferry service and to submit a full report at the January meeting. Mr. W. W. Stiffler, Assistant State Highway Engineer, was authorized by the Commission to contact proper officials in the

State of Washington to secure such information.

The meeting recessed for luncheon at 12:00 noon and reconvened at 2:00 p.m. in the same room with the same persons present and participating.

A delegation from the City of Arlington came before the Commission concerning improved access to the new Columbia River Highway in the City. The following people composed the group: Val Austin, Arlington Chamber of Commerce; Foster Odom, Arlington City Councilman; and Kent Wilhelm, Dr. J. V. Wilhelm and George McCloskey, all members of the Arlington Chamber of Commerce. Mr. Austin acted as spokesman. He explained that they represent principally farmers and business people of Arlington, and they would like to have a one-way entrance into their city from U. S. 30 along Columbia Street. It was his thought that if such a connection were opened up that it would relieve considerably traffic congestion in the fall when many wheat trucks come into Arlington to unload grain. Chairman Chandler stated that the Commission has studied the Engineer's report on the subject and has personally inspected the project on the ground, all of which indicates to the Commission that the plan as adopted will suffice. Commissioner Reynolds stated that it is the intention of the Commission to watch the situation carefully and if it appears that the present plan is not working satisfactorily,then whatever is required will be done to make it function properly. The Engineer was instructed to have the Traffic Engineer stop at Arlington when he is in that vicinity and explain to the people there further details of the Commission's plans in an endeavor to eliminate misunderstandings they might have.

Mr. R. J. Herrington, City Engineer, North Bend, and Mr. Harry Grahm, North Bend City Councilman, came before the Commission to urge improvement of Virginia and Broadway Streets, route of the Cape Arago State Secondary Highway within the City. Mr. Herrington pointed out that curb or sidewalk grades never have been established on these streets and that their improvement is needed in an orderly development of the area. He inquired as to how much cooperation the City can expect from the State in the construction of curbs, sidewalks, and paving. Mr. Grahm added that if the grades are established and the improvements made, the City then can improve the side streets. Chairman Chandler stated that it would be at least a year before money would be available for the project; however, the Commission in the meantime will have a survey made to determine the cost of the various items of improvement and to set grade stakes so the City can know what it will have to do. The Engineer was thereupon authorized to make such survey from which a determination will be made as to what cooperation the State can provide and what must be provided by the City. No commitment was made as to when the work will be done.

Messrs. Arthur Damschen, Chairman of the Parkrose Chamber of Commerce; John Matney and R. B. McLoughlin, members of the Parkrose Chamber of Commerce; Harry Pearce, Parkrose Fire District; and Don Campbell, Parkrose School District No. 3, came before the Commission concerning construction of a grade separation on the T. H. Banfield Expressway at 112th Avenue. They were informed by Chairman Chandler that the Commission on the previous day had approved construction of such structure as a substitute for a similar structure at 132d Avenue with the understanding that the Commission will be released from all obligation to construct the grade separation at 132d Avenue. The delegation expressed satisfaction with the Commission's action.

Mr. J. G. Bromley, District Maintenance Superintendent, Grants Pass, and Mr. W. V. Poole, Section Foreman at Siskiyou, appeared before the Commission concerning charges filed against them by Mr. Claude Miller earlier in the day. Chairman Chandler informed them that the Commission is familiar with the facts in the case and regrets that the accusations were made. He complimented both men in the way they have conducted themselves and stated that the Commission will back them up. The Commission, he added, is aware that the accusations are not founded on fact but are largely the outgrowth of a personal neighborhood feud.

The Right of Way Engineer reported sale by auction of a small parcel of land in Lot 7, Block "I" in South Pendleton to Sheow Nom Lee and Eng Shee Lee for the sum of $158.50. The Lees, he stated, submitted the high bid for this property which is no longer needed for highway purposes. The Commission approved the sale as reported.

Mr. C. W. Enfield, Chief Counsel, reported that the Superbilt Manufacturing Company has submitted an offer to effect a compromise settlement of the condemnation case of State vs. Superbilt Manufacturing Company, et al, upon payment by the State of the sum of $225,000. After a brief discussion of this matter, the Commission determined that the property sought to be acquired by this action is not worth the sum of $225,000 and accordingly rejected the offer of settlement.

The Commission discussed with the Engineer the bids received at the morning session and at 2:30 p.m. Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows, the action of the Commission being by unanimous vote:

"Grading and rock base on 0.13 mile on the Fall Creek Section of the Mist-Clatskanie Secondary Highway about 3.4 miles south of Clatskanie in Columbia County: The Commission elects to accept the bid of Koppisch Construction Company, Inc., Astoria, the low bidder, in the sum of $19,675, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Grading 0.59 mile, 0.63 mile paving and construction of a bridge on the Canyonville-O'Shea Creek Section of the Tiller-Trail Secondary Highway east of Canyonville in Douglas County: The Commission awarded this contract to the low bidder, A. H. Saxton & Son, Corvallis, at their bid price of $85,051.50.

"Construction of Seven Oaks Overcrossing of Southern Pacific Company's tracks near Central Point on the Pacific Highway in Jackson County: The Commission elects to accept the bid of Bessonette and Graff, Medford, the low bidder, in the sum of $69,839, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and paving 1.35 miles on the Salem-Lancaster Drive Section of the North Santiam Highway east of Salem in Marion County: The Commission elects to accept the bid of Fred H. Slate Company Oregon Limited, Portland, the low bidder, in the sum of $159,395, and the State Highway Engineer is dir-

ected to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading 12.16 miles on the Gervais-Hayesville Unit, Willamette River-Hayesville Section of the Portland-Salem Expressway north of Salem in Marion County: The Commission elects to accept the bid of Roy L. Houck & Son, Salem, the low bidder, on the basis of concrete posts, in the sum of $864,908, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Installation of highway illumination at Bonneville interchange on the Columbia River Highway in Multnomah County: All bids rejected as being too high."

An agreement with the City of Portland regarding street closures on the 42d Avenue-92d Avenue Section of the T. H. Banfield Expressway was presented. The Engineer reported that the agreement had been examined and found satisfactory, and he recommended that it be approved. The Commission adopted the recommendation.

The Engineer reported that Union Pacific Railroad officials had given their approval to the starting of work on the 42d Avenue-92d Avenue Section of the T. H. Banfield Expressway as it affects their property. Bids for this project, he stated, were received on October 30, 1953, and the Commission accepted the bid of Gibbons & Reed and authorized the Engineer to award the contract as soon as right of way matters were cleared and approval of the Bureau of Public Roads is received. He recommended that the contract be awarded as of this date. The Commission approved the recommendation and so ordered.

Chairman Chandler stated that the Commission feels that the employees of the State Highway Department during this past year have done splendid work and the Commission is very appreciative. He commended Mr. R. H. Baldock, the State Highway Engineer, Mr. W. C. Williams, Deputy State Highway Engineer, and Mr. W. W. Stiffler, Assistant State Highway Engineer for their excellent services in carrying out a huge program of construction and maintenance. The State of Oregon, he said, is outstanding in the nation in contract performance. He also complimented the following: Mr. R. L. Porter, Right of Way Engineer, for performing a fine job in acquiring right of way; Mr. C. W. Enfield for the excellent service being provided by the Legal Department; Mr. C. H. Armstrong, Parks Superintendent, for a fine job in developing state parks; Mr. C. H. Maison for excellent work in handling the accounting functions and keeping reports up-to-date; Mr. Carl Jordan for the fine work he and his department have performed in disseminating travel information; Mr. H. B. Glaisyer and his staff, Mr. Floyd Query, Miss Johanna McCaffrey, and Miss Monica Duda for their excellent work in handling the secretarial duties; and Mr. John Cattrall, City and County Relations Engineer, for the excellent relationship which exists between the State Highway Department and the various cities and counties. Mr. Baldock responded in behalf of the State Highway Employees, stating that in his opinion the State has never had a finer Commission than the one it now has.

There being no further business, the meeting was declared adjourned at 2:45 p. m.

State Highway Engineer

EXHIBITS "A" through "J"

Minutes Of

December 10 and 11, 1953

EXHIBIT "A"

Minutes of December 10 and 11, 1953

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW THEREFORE BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows.

92 rods fence at $4	368.00
Severance damage	1,200.00
Amount to be paid owners-chrg to Right of Way	$ 3,500.00

THINGS TO BE DONE BY THE STATE

Construct water-tight, concrete reservoir opposite Station 406+50, West. Intake into reservoir shall not be less than 2 feet deeper than depth of existing slough on East side opposite Station 406+50. Install pipe under roadbed at Station 406+50 to convey water from slough to water reservoir. If necessary for State to utilize land with R/W on which the spring is located the State shall protect the spring by piping it clear of its operations. Install beneath roadway, a conduit and through it place an electrical cable so the grantor may have electric power for pump.

Minutes of December 10 and 11, 1953

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 3601 with Berke Bros. for grading and paving on the Reedsport-Winchester Bay Section of the Oregon Coast Highway in Douglas County, completed October 14, 1953.

"Contract No. 3602 with Gibbons & Reed Co. for bridge, grading and paving on the Gorton Creek-Warren Creek Section of the Columbia River Highway in Hood River County, completed August 31, 1953.

"Contract No. 3607 with Heavy Hauling Co., now Koppisch Construction Co., for grading and paving on the Bay City-Tillamook Section of the Oregon Coast Highway in Tillamook County, completed October 30, 1953.

"Contract No. 3623 with Funderburk Construction Co. for grading and oil mat surfacing on the North Umpqua County Road in Douglas County, completed August 6, 1953.

"Contract No. 3663 with Rogers Construction Co. for grading and rock base on the Shogren-Rowena Creek Unit, Mosier-The Dalles Section of the Columbia River Highway in Wasco County, completed September 23, 1953.

"Contract No. 3716 with Peter Kiewit Sons' Co. for grading on the Gnat Creek-Bradley Park Section of the Columbia River Highway in Clatsop County, completed October 15, 1953.

"Contract No. 3719 with Peter Kiewit Sons' Co. for bridge, grading and oil mat surfacing on the Lake of the Woods Junction-Wocus Marsh Section of the Klamath Lake Highway in Klamath County, completed October 20, 1953.

"Contract No. 3729 with Rogers Construction Co. for grading on the Middle Unit, Arlington-Heppner Junction Section of the Columbia River Highway in Gilliam County, completed August 31, 1953.

"Contract No. 3734 with J. R. Taggart for bridge, grading and oil mat surfacing on the Tangent (Orleans-Oak Creek School) Section of the Orleans-Lebanon County Road in Linn County, completed June 25, 1953.

"Contract No. 3763 with Valley Construction Co. for constructing the Haynes Slough Bridge on the Oregon Coast Highway in Coos County, completed November 11, 1953.

"Contract No. 3765 with Vernie Jarl for grading on the Hayesville School-Turner Road Unit, Salem By-pass Section of the Pacific Highway East in Marion County, completed September 26, 1953.

"Contract No. 3792 with T. W. Thomas for grading and paving on the Medford-County Farm Section of the Pacific Highway in Jackson County, completed November 12, 1953.

"Contract No. 3804 with The Bethlehem Pacific Coast Steel Corp. for placing steel on the Wilsonville Bridge, on the Portland-Salem Expressway, completed November 20, 1953.

"Contract No. 3816 with C. J. Eldon for constructing the St. Joe Overcrossing on the Pacific Highway West in Yamhill County, completed August 25, 1953.

"Contract No. 3829 with Porter W. Yett for paving on the Catching Slough-Enegren Ferry Section of the Coos River Highway in Coos County, completed September 25, 1953.

"Contract No. 3835 with Birkemeier & Saremal for constructing the White School Junction Grade Separation on the Pacific Highway East in Marion County, completed October 30, 1953.

"Contract No. 3850 with M. C. Lininger & Sons for furnishing crushed rock in stockpiles on the Rogue River Loop Highway in Josephine County, completed October 22, 1953.

"Contract No. 3854 with Homer G. Johnson for furnishing crushed materials in stockpiles on the Foster-Toll Creek Section of the Santiam Highway in Linn County, completed October 31, 1953.

"Contract No. 3861 with Rogers Construction, Inc., for furnishing crushed materials in stockpile on the Parkdale Section of the Mt. Hood and Hood River Highways in Hood River County, completed November 13, 1953.

"Contract No. 3895 with Warren Northwest, Inc. for paving on the Spring Creek Hill-Lobert Section of the The Dalles-California Highway in Klamath County, completed October 15, 1953.

"Contract No. 3896 with Rogers Construction Co. for furnishing crushed material in stockpiles on the Klamath Falls-Booth Park Section of the Klamath Falls-Lakeview Highway in Klamath and Lake Counties, completed October 27, 1953.

"Contract No. 3908 with Tom Lillebo for constructing Umpqua River Bridge Pier Fenders on the Oregon Coast Highway in Douglas County, completed November 12, 1953.

"Contract No. 3909 with George E. Berry for constructing guard rail and sight posts on the Hood River-Mosier Section of the Columbia River Highway in Hood River and Wasco Counties, completed October 15, 1953.

"Contract No. 3933 with United Paving Co. for paving on the Miles Crossing-Johnson Road Section of the Youngs River Loop Road Section in Clatsop County, completed October 15, 1953.

"Contract No. 3964 with Rich & Sons Nursery for landscaping on the Coburg Junction (Eugene) Section of the Pacific Highway in Lane County, completed November 28, 1953.

"Contract No. 3966 with J. E. Jeremiah for constructing Forest Grove Maintenance Shed in Washington County, completed October 30, 1953.

"Contract No. 3967 with J. E. Jeremiah for constructing the Manning Maintenance Building in Washington County, completed November 4, 1953.

"Contract No. 3968 with Trowbridge & Flynn Electric Co. for constructing traffic signals in Oregon City and Forest Grove in Clackamas and Washington Counties, completed November 14, 1953.

"Contract No. 3972 with Enoch L. Maerz for constructing facilities in the Cove Palisades Park in Jefferson County, completed October 31, 1953.

"Contract No. 3975 with F. O. Laws for completing roadbed embankment and slope protection on the West Approaches to the Salem Bridges on the Salem-Dalles Highway in Polk County, completed October 20, 1953.

"Contract No. 3977 with H. J. & H. W. Miller for paving on the Milton-Freewater (N. E. 5th Avenue) City Street Section in Umatilla County, completed October 20, 1953.

"Contract No. 3995 with Inter City Sand & Gravel Co., Inc., for grading and oiling on the Springfield Section of the Eugene-Marcola County Road in Lake County, completed October 7, 1953.

"Contract No. 3996 with Hamilton & Thoms for constructing Buck Hollow Bridge in Yamhill County, completed November 30, 1953.

"Contract No. 4010 with Parkrose Nursery for landscaping on the Couch Street-Ankeny Street Unit, Front Avenue Section of the Pacific Highway West in Multnomah County, completed October 29, 1953.

EXHIBIT "B" (cont)

"Contract No. 4012 with C. C. Meisel for surfacing on the Sheep Creek Hill-Imnaha Section of the Little Sheep Creek Highway in Wallowa County, completed November 6, 1953.

"Contract No. 4016 with C. E. Blakley for constructing the Little Deschutes River Bridge on the Burgess County Road in Deschutes County, completed November 20, 1953.

THEREFORE BE IT RESOLVED that the work covered by State highway contracts for the construction of said State highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

EXHIBIT "C-1"

Minutes of December 10 and 11, 1953

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the second six month period of 1951 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Jordan Valley ..... $ 595.06

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 10th day of December, 1953.

EXHIBIT "D"

Minutes of December 10 and 11, 1953

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Columbia River Highway, State Primary Highway No. 2, in Wasco County, known as the Hood River-Mosier Section, the westerly terminus of which is at Highway Engineer's Station 1080+00 on the reconstructed highway and the easterly terminus of which is at Highway Engineer's Station 1485+00 on the reconstructed highway; and

WHEREAS, as a consequence of the relocation of said section of highway, portions or units of the old right of way have been eliminated from the boundaries of the relocated highway and are no longer needed for the right of way of the said Columbia River Highway; and

WHEREAS, Wasco County and the Highway Commission entered into an agreement under date of July 11, 1952, relating to the disposition to be made of the eliminated portions or units; and.

WHEREAS, the said agreement provided that after the said relocated section was completed and opened to public travel, one of the eliminated portions or units, referred to in said agreement and herein as Unit "A", would be abandoned as part of said highway and would thereafter be under the jurisdiction and control of Wasco County and may be vacated and revert to the owners of the abutting property or kept by the County for such public use as the County may determine; and

WHEREAS, the said agreement provided that after the said relocated section was completed and opened to public travel one of the eliminated portions or units, referred to in said agreement and herein as Unit "B", would be abandoned as part of the said highway, and would be maintained thereafter by Wasco County as a county road under the jurisdiction and control of the said county; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portions or units of the right of way of said highway affected by reason of said relocation; and

WHEREAS, that section of the Columbia River Highway, State Primary Highway No. 2, located in Wasco County and known as the Hood River-Mosier Section, the westerly terminus of which is at Highway Engineer's Station 1080+00 on the reconstructed highway and the easterly terminus of which is at Highway Engineer's Station 1485+00 on the reconstructed highway, has been completed and is now open to public travel.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

EXHIBIT "D" (cont)

1. That the portion or unit of the old right of way identified as Unit "A", shown colored in brown on the one-page map marked Exhibit "A" attached hereto and by this reference thereto made a part hereof, is no longer within the boundaries of the new right of way by reason of the relocation of the said section of highway. The location of Unit "A" is more particularly described as follows:

Unit "A"

Beginning at the intersection of the old route of the Columbia River Highway on the west line of Wasco County, on the line between Sections 3 and 4, Township 2 North, Range 11 East, W. M.; thence easterly via the old route of the Columbia River Highway to State Highway Engineer's Station 313+25 of the old route of the Columbia River Highway in the southwest quarter of the southeast quarter (SW1/4-SE1/4) of Section 2, Township 2 North, Range 11 East, W. M. *

2. That the said Unit "A" is not needed for the service of persons living thereon or for any communities served thereby or for any right of way or other public purposes and therefore it shall be and hereby is abandoned as part of the said highway; and all right, title and interest which the State has in the right of way of Unit "A" does hereby pass to and vest in said County and may be vacated and revert to the owners of the abutting land or kept by said County for such public use as said County may determine.

3. That the portion or unit of the old right of way identified as Unit "B", shown colored in red on the one-page map marked Exhibit "A" attached hereto and by this reference thereto made a part hereof, is no longer within the boundaries of the new right of way by reason of the relocation of the said section of highway. The location of Unit "B" is more particularly described as follows:

Unit "B"

Beginning at State Highway Engineer's Station 313+25 of the old Columbia River Highway in the southwest quarter of the southeast quarter (SW1/4-SE1/4) of Section 2, Township 2 North, Range 11 East, W. M.; thence easterly via the old route of the Columbia River Highway to State Highway Engineer's Station 344+00 of the old Columbia River Highway in the northeast quarter of the southeast quarter (NE1/4-SE1/4) of Section 2, Township 2 North, Range 11 East, W. M. *

4. That, pursuant to the aforesaid agreement, Unit "B" shall be and hereby is duly abandoned as part of the said highway; and all right, title and interest which the State has in the right of way of Unit "B" does hereby pass to and vest in said County and shall be maintained as a County road under the jurisdiction and control of said county.

EXHIBIT "D" (cont)

5. That the area shown colored in green on the said Exhibit "A" includes right of way acquired for the said relocated section of highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with the area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for right of way and other highway purposes and uses. Therefore, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by the State. *

6. That this resolution shall be entered in the minutes and records of the Commission on this 10th day of December, 1953, and the Secretary is directed to mail a duly certified copy thereof to the County Court of Wasco County.

---

*FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 262 under the heading "Abandonment and Retention Resolutions" and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "E-1"

Minutes of December 10 and 11, 1953

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, **THEREFORE,** based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: OREGON COAST HIGHWAY

Highway number 9 Route number US 101

Location of Termini			Established Speed
M. P. 163.82 (0.30 mile north of entrance to Seal Rock State Park)	to	M. P. 164.14 (100 feet south of the entrance to Seal Rock State Park in the community of Seal Rock)	45 M.P.H.
M. P. 292.69 (South city limits of Bandon)	to	M. P. 293.02 (intersection with county road south of the city limits of Bandon)	40 M. P. H.

(cont.)

EXHIBIT "E-1" (cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 125 be entered in the minutes and records of the Commission as of the 10th day of December, 1953.

EXHIBIT "E-2"

Minutes of December 10 and 11, 1953

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: SANTIAM HIGHWAY

Highway number: 16 Route number: US 20

Location of Termini			Established Speed
M. P. 0.06 (East city limits of Albany)	to	M. P. 0.30 (Clay Street intersection east of Albany city limits)	35 M. P. H.
M. P. 0.30 (Clay street intersection)	to	M. P. 1.08 (200 feet east of Airport Road)	45 M. P. H.

EXHIBIT "E-2" (cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 126 be entered in the minutes and records of the Commission as of the 10th day of December, 1953.

EXHIBIT "F"

Minutes of December 10 and 11, 1953

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: NETARTS SECONDARY HIGHWAY

Highway number: 131 Route number: _____

Location of Termini		Established Speed

(cont.)

December 10, 19

EXHIBIT "F" (cont.)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 127 be entered in the minutes and records of the Commission as of the 10th day of December, 1953.

EXHIBIT "G"

Minutes of December 10 and 11, 1953

RESOLUTION

WHEREAS, under the provisions of Subsection 15 of Chapter 405, Oregon Laws 1951 as amended by Chapter 691, Oregon Laws 1953, the Highway Commission is given authority to reduce speed limits and to impose other restrictions when such action is necessary to prevent highways from being unduly damaged; and

WHEREAS, the data, facts, information, and statistics compiled by the Highway Engineer pursuant to provisions of Subsection 1 of O. C. L. A., Section 100-126 on file in the office of the State Highway Commission at Salem, Oregon, reveal that the relocated Joseph-Sheep Creek Hill Section of the Little Sheep Creek Secondary Highway, State Highway No. 350, was being unduly damaged during construction by vehicular traffic operating at speeds which are lawful, and

WHEREAS, on the 25th day of September, 1953 the Highway Commission adopted a resolution imposing a reduced speed limit to prevent said section of said highway from being unduly damaged during construction, said resolution to be effective until construction work on said section of said highway was completed; and

WHEREAS, subsequent to the adoption of said resolution, all of the conditions which justified the placement of said reduced speed limit have been eliminated, and said construction has now been completed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by the State Highway Commission, all members being present and voting affirmatively, as follows:

1. Having duly considered the facts and statistics compiled by the State Highway Engineer, the State Highway Commission hereby finds that it no longer is necessary or desirable to maintain the reduced speed limit as set out in said resolution.

2. That the action of the State Highway Commission reducing the permissible speed limit on the Joseph-Sheep Creek Hill Section of the Little Sheep Creek Secondary Highway, State Highway No. 350, between M. P. 0.00 and M. P. 5.07, inclusive, be and the same hereby is rescinded and cancelled, and that the maximum speed limit permissible on the said section of said highway shall be the maximum speed limit provided by law; and

3. That certified copies of this resolution be filed with the Secretary of State and the Superintendent of State Police.

EXHIBIT "G" (cont)

4. That this resolution shall be entered in the minutes and records of this Commission as of the 10th day of December, 1953 and filed in the records of the Secretary of the Commission under Speed Limit Resolution No. 128.

EXHIBIT "H-1"

Minutes of December 10 and 11, 1953

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Crabtree Creek Bridge Section on the Albany-Lyons Secondary Highway in Linn County and in connection therewith to prepare a map showing the route and location of said section of highway and file said report and record with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for the approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, maps and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the survey of the Crabtree Creek Bridge Section on the Albany-Lyons Secondary Highway, beginning at Highway Engineer's Station 316+49.97, approximately 0.35 mile south of Crabtree Creek and extending in a northerly direction to Highway Engineer's Station 343+01.47, approximately 600 feet north of Crabtree Creek, together with the map, which for identification purposes bears Map File No. 6B-21-18 and the date of November, 1953, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

2. That when said section of said highway is permanently constructed the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of a highway along and over said survey. Said approval and adoption shall also be deemed and constituted instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That this resolution shall be entered in the minutes and records of the Commission as of the 10th day of December, 1953, as Resolution Adopting Survey No. 95.

December 10, 1953

EXHIBIT "H-2"

Minutes of December 10 and 11, 1953

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Goble-St. Helens Section of the Columbia River Highway in Columbia County, and in connection therewith to prepare maps showing the route and location of said section and to file said reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Goble-St. Helens Section of the Columbia River Highway, beginning at Highway Engineer's Station 316+66.62 near the south edge of the community of Goble and extending in a southerly direction to Highway Engineer's Station 570+00 in the northerly edge of the town of St. Helens, together with the map, which for identification purposes bears Map File Nos. 7B-24-8 and 7B-24-9 and the date of November, 1953, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That heretofore by resolution of this Commission dated November 3, 1948, said section of the Columbia River Highway between Goble and St. Helens

(cont.)

has been designated as a throughway within the meaning and purpose of Chapter 226, Oregon Laws 1947, commonly known as the "Throughway Law", and, for the reasons stated therein, the above-named section of said highway should be and it is hereby directed that the construction of the same shall be accomplished pursuant to and within the meaning and scope of said law except any portion of said section which had more than ten commercial businesses abutting thereon catering to the motoring public in any one mile as of the date said section of highway was designated as a throughway.

5. That this resolution be entered in the minutes and records of the Commission as of the tenth day of December, 1953 as Survey Resolution No. 96.

EXHIBIT "I-1"

Minutes of December 10 and 11, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening, or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the Salem-Dallas Highway and the Salem-Dayton Highway are highways under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing highways which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the intersection of the said Salem-Dallas Highway and the said Salem-Dayton Highway, and for such purpose and in connection therewith, the real property hereinafter described is necessary; and

WHEREAS, the Highway Commission by a certain resolution made and entered in its records on the 29th day of October, 1953, declared the necessity for the acquisition of the lessees' interests in a parcel of land described therein for right of way purposes, for the widening, improvement and maintenance of the intersection of the Salem-Dallas Highway and the Salem-Dayton Highway, and authorized the acquisition of the said lessees' interests in the parcel of land in the manner provided by law, and it is now the determination of the Highway Commission that it is necessary to acquire not only the lessees' interests in the real property described in the said resolution, but also to acquire the interests of the record owner, and, therefore, the resolution of October 29, 1953, should be revised to conform with this need;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby declare that the resolution made and entered in its records of October 29, 1953, referred to above, be, and it hereby is, amended by this resolution.

2. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of high-

(cont.)

ways of the state highway system, and for the widening, improvement and maintenance of the intersection of the Salem-Dallas Highway and the Salem-Dayton Highway, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A. is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

3. That the widening, improvement and maintenance of the said intersection of the Salem-Dallas Highway and the Salem-Dayton Highway, and the highway facilities for which the said parcel of property, or interest therein, is required and is being taken, is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 10th day of December, 1953, as Condemnadion Resolution No. 471.

---

* FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 471, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "I-2"

Minutes of December 10 and 11, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the East Unit of the Love Bridge-Black Bridge Section of the Baker-Homestead Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said unit of said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block, or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said

(cont.)

entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows, to wit:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said East Unit of the Love Bridge-Black Bridge Section of the Baker-Homestead Highway as a throughway, certain interest in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Baker-Homestead Highway and all of the contiguous real property of the owners remaining after the appropriation of the said real property; except that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, such access reservations as are noted as to the said real property on the said attached list marked Exhibit A. *

3. That the relocation, construction, improvement and maintenance of the said East Unit of the Love Bridge-Black Bridge Section of the Baker-Homestead Highway and the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and

(cont.)

authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 10th day of December, 1953, as Condemnation Resolution No. 472.

---

* FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 472, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "I-3"

Minutes of December 10 and 11, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening, or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct and maintain the Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be established, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

(cont.)

EXHIBIT "I-3" (cont.)

WHEREAS, for the purposes of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and for the establishment, construction and maintenance of the said Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway as a throughway, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway and all of the contiguous real property of the owners remaining after the appropriation of the said real property.

3. That the establishment, construction and maintenance of the said Barbur Boulevard-Marion County Line Section of the said West Portland-Hubbard Highway, and the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of the said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistand Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

(cont.)

6. That this resolution be entered in full in the minutes and records of the Commission this 10th day of December, 1953, as Condemnation Resolution No. 473.

* FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 473, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "I-4"

Minutes of December 10 amd 11, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stockpile sites, or for the acquisition or manufacture of road building materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct and maintain Unit No. 3 of the T. H. Banfield Expressway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said unit of said highway shall be established, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

(cont.)

EXHIBIT "I-4" (cont.)

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintanance of highways of the state highway system, and the establishment, construction and maintenance of the said Unit No. 3 of the T. H. Banfield Expressway as a throughway, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That the establishment, construction and maintenance of the said Unit No. 3 of the T. H. Banfield Expressway and the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel or real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 10th day of December, 1953, as Condemnation Resolution No. 474.

EXHIBIT "I-5"

Minutes of December 10 and 11, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct and maintain the Hayesville Junction-Wilsonville Junction Section of the Portland-Salem Expressway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be established, constructed, and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

(cont.)

EXHIBIT "I-5" (cont.)

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment and maintenance of highways of the state highway system, and the establishment, construction, and maintenance of the said Hayesville Junction-Wilsonville Junction Section of the Portland-Salem Expressway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Hayesville Junction-Wilsonville Junction Section of the Portland-Salem Expressway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respectiveowners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit A. *

3. That the esbalishment, construction and maintenance of the said Hayesville Junction-Wilsonville Junction Section of the Portland-Salem Expressway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said

real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 10th day of December, 1953, as Condemnation Resolution No. 475.

282

EXHIBIT "I-6"

Minutes of December 10 and 11, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Brushes Creek-Rinehart Creek Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Highway Commission by certain resolutions made and entered in its records on the 6th day of January, 1953, and the 24th day of September, 1953, declared the necessity for the acquisition of certain parcels of land described therein for right of way purposes for the relocation, construction, improvement and maintenance of the Brushes Creek-Rinehart Creek Section of the Oregon Coast Highway, and for a quarry site, for use in connection with the proper construction and maintenance of certain sections of the state highway system, and for the control of access to and from the said Oregon Coast Highway, and authorized the acquisition of said parcels of land and the said control of access in the manner provided by law, and it is now the determination of the Highway Commission that the said control of access should be made more definite and certain in the manner provided herein and further it is the determination of the Highway Commission that the said parcel of land required for right of way purposes, described in the hereinabove said resolutions, is inadequate for the purpose of relocating the said Brushes Creek-Rinehart Creek Section of the Oregon Coast Highway, and, therefore, the resolutions of January 6, 1953, and September 24, 1953, should be revised to conform with the

(cont.)

EXHIBIT "I-6" (cont.)

present needs of the traveling public and to conform with the said access control change; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby declare that the resolutions made and entered in its records on January 6, 1953, and September 24, 1953, referred to above, be, and they hereby are, amended by this resolution.

2. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper relocation, construction, improvement and maintenance of the Brushes Creek-Rinehart Creek Section of the Oregon Coast Highway, the following described real property in fee simple, to wit:

L 1970 (R 19453)
Owner: Stephen J. Spoerl

Parcel No. 1:

A parcel of land lying in the Southeast quarter (SE$\frac{1}{4}$) of Section 7, and the Northeast quarter (NE$\frac{1}{4}$), and the Northeast quarter (NE$\frac{1}{4}$) of the Southeast quarter (SE$\frac{1}{4}$) of Section 18, Township 34 South, Range 14 West, W. M., Curry County, Oregon, and being a portion of that property conveyed by that deed to Stephen J. Spoerl, et al, recorded in Book 25, Page 218, of Curry County Records of Deeds, the said parcel being that portion of said property included in a strip of land variable feet in width, lying on the Easterly side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 518+00.00, said Station being 1450.96 feet North and 2495.80 feet West of the Southeast corner of said Section 7; thence South 33° 02' East 606.16 feet;thence on a spiral curve right (the long chord of which bears South 32° 10' East) 400 feet; thence on a 4407.37 foot radius curve right (the long chord of which bears South 23° 51' 20" East) 1011.97 feet; thence on a spiral curve right (the

(cont.)

long chord of which bears South 15° 32' 40" East) 400 feet; thence South 14° 40' 40" East 239.65 feet; thence on a spiral curve left (the long chord of which bears South 18° 14' East) 266.67 feet; thence on a 716.20 foot radius curve left (the long chord of which bears South 27° 45' 15" East) 60.24 feet; thence on a spiral curve left (the long chord of which bears South 37° 16' 30" East) 266.67 feet; thence South 40° 49' 50" East 84.35 feet; thence on a spiral curve right (the long chord of which bears South 34° 09' 50" East) 400 feet; thence on a 572.96 foot radius curve right (the long chord of which bears South 17° 12' 50" East) 72.33 feet; thence on a spiral curve right (the long chord of which bears South 0° 15' 50" East) 400 feet; thence South 6° 24' 10" West 88.78 feet; thence on a spiral curve left (the long chord of which bears South 1° 00' 10" West) 360 feet; thence on a 636.62 foot radius curve left (the long chord of which bears South 11° 40' 50" East) 41.85 feet; thence on a spiral curve left (the long chord of which bears South 24° 21' 50" East) 360 feet; thence South 29° 45' 50" East 168.05 feet; thence on an increasing spiral curve right through a spiral angle of 20° 00' (the long chord of which bears South 23° 50" East) 400 feet; thence on a decreasing spiral curve right through a spiral angle of 20° 00' (the long chord of which bears South 3° 34' 10" West) 400 feet; thence South 10° 14' 10" West 119.59 feet to Station 579+46.31. Said center line intersects the Easterly line of that tract conveyed to the State of Oregon, by and through its State Highway Commission, by deed recorded in Book 24, Pages 218-219 of Curry County Record of Deeds, and intersects the South line of said Northeast quarter (NE¼) of the Southeast quarter (SE¼) of Section 18 approximately at Stations 519+50 and 577+00, respectively.

Also that portion of said subdivisions lying Westerly of said center line and Easterly of said tract conveyed to the State of Oregon, by and through its State Highway Commission, by deed recorded in Book 24, Pages 218-219.

The widths in feet of the strip of land above referred to are as follows:

Station	to	Station	Width on Easterly Side of Center Line
519+50		537+00	230 feet
537+00		544+57.78	100 feet
544+57.78		547+24.45	100 feet to 550 feet (a straight line)
547+24.45		552+10	716.20 feet to 635 feet (a straight line)
552+10		559+10	Variable to existing Easterly right of way line
559+10		569+70	270 feet to 250 feet (a straight line)
569+70		579+46.31	Variable to existing Easterly right of way line

The parcel of land to which this description applies contains 52.12 acres, of which 6.22 acres (of which 0.50 acre lies within the tract heretofore deeded to the State of Oregon by Stephen J. Spoerl by deed dated June 2, 1953, and recorded June 8, 1953, in Book 39 Pages 580-581, of the Record of Deeds of Curry County, Oregon) lie within the existing right of way, title to which is hereby alleged to be in the public, and 45.90 acres lie outside of the existing right of way.

3. The Commission does further find and declare that the following described real property is necessary and required for a quarry site, for use in connection with the proper construction and maintenance of certain sections of the state highway system, to wit:

Parcel No. 2:

A parcel of land lying in the Northwest quarter (NW$\frac{1}{4}$) of the Southeast quarter (SE$\frac{1}{4}$) of Section 7, Township 34 South, Range 14 West, W. M., Curry County, Oregon, the said parcel being described as follows:

Beginning at a point on the Easterly line of that tract of land conveyed to the State of Oregon, by deed recorded in Book 24, Pages 218-219 of Curry County Deed Records, said point being opposite and 100 feet Easterly from Engineer's center line Station 516+50 as said Station was established in said State deed, said point also being North 1484.67 feet and West 2234.74 feet from the Southeast corner of said Section 7; thence North 71° 10' East 400 feet; thence North 18° 50' West 538.15 feet; thence South 71° 10' West 342.14 feet to the Easterly line of said State tract; thence Southerly along said Easterly line to the point of beginning.

The parcel of land to which this description applies contains 4.701 acres.

4. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the real property of the owner remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owner, his heirs and assigns, as owner of the said remaining land, the following:

a. A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the East side of the said relocated highway, opposite Highway Engineer's center line Station 523+35, for private residential use, for the production and transportation to market of farm products of the owner's remaining land, for the development and transportation to market of mineral products of the owner's remaining land, and

(cont.)

for the development, harvesting and transportation to market of forest products only.

b. A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the East side of the said relocated highway, opposite Highway Engineer's center line Station 530+40, for private residential use, for the production and transportation to market of farm products of the owner's remaining land, for the development and transportation to market of mineral products of the owner's remaining land, and for the development, harvesting and transportation to market of forest products only.

c. Right of access to the existing Oregon Coast Highway between the owner's present homesite on said existing Oregon Coast Highway, said home being located approximately opposite relocated Oregon Coast Highway Engineer's center line Station 520+00, and where the said existing Oregon Coast Highway and the said relocated Oregon Coast Highway will intersect, said intersection being approximately opposite relocated Highway Engineer's center line Station 570+00.

The above accesses to the relocated highway from the said remaining property shall not be used by the owner, his heirs or assigns, or anyone holding under him, for any use not herein stated, and the State Highway Commission shall have the power to close said accesses for all purposes in the event of any violation.

5. That the highway facility for which the above described real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury of damage.

6. That the Legal and Right of Way Department is directed to attempt to agree with the owner and other persons in interest of the said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

7. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owner.

8. That this resolution be entered in full in the minutes and records of the Commission this 10th day of December, 1953, as Condemnation Resolution No. 476.

EXHIBIT "I-7"

Minutes of December 10 and 11, 1953

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for right of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminient domain, fee simple title to or any interest in any real property including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Pendleton-Deadmans Pass Section of the Old Oregon Trail Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its

discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Pendleton-Deadmans Pass Section of the Old Oregon Trail Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should beacquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Pendleton-Deadmans Pass Section of the said relocated Old Oregon Trail Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit A. *

3. That the relocation, construction, improvement and maintenance of the said Pendleton-Deadmans Pass Section of the Old Oregon Trail Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 10th day of December, 1953, as Condemnation Resolution No. 477.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 477, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "I-8"

Minutes of December 10 and 11, 1953

RESOLUTION

WHEREAS, the State Highway Commission on the 24th day of September, 1953, by resolution declared the necessity for the acquisition of certain real property owned by Blanche Tipton, et al., File No. R-21069, situated in the Charles W. Smith Donation Land Claim No. 43, and also lying in Sections 11 and 12, Township 28 South, Range 6 West, W. M., Douglas County, Oregon, for the purpose of the relocation, construction, improvement and maintenance of the Shady Point-Booth Ranch Section of the relocated Pacific Highway as a throughway; and

WHEREAS, the said Highway Commission after further investigation has found that it is to the best interests of the state and the public to acquire an additional parcel of real property in connection with the proper relocation, construction, improvement and maintenance of the Shady Point-Booth Ranch Section of the relocated Pacific Highway; and for right of way purposes for the widening, improvement and maintenance of the Grant Smith County Road, also known as Douglas County Road No. 188, including its use for the construction of a grade separation structure to carry the said county road over the said relocated Pacific Highway; and

WHEREAS, the said resolution of September 24, 1953, does not include the additional real property needed for the above mentioned right of way and should, therefore, be amended to include the same;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That that certain resolution duly made and entered in full in the minutes and records of the Commission on the 24th day of September, 1953, pertaining to the property owned by Blanche Tipton, et al., File No. R-21069, and described on pages 5 and 6 of Exhibit A in said resolution, be and the same hereby is amended to include the following:

The following described real property is necessary in connection with the proper relocation, construction, improvement and maintenance of the Shady Point-Booth Ranch Section of the relocated Pacific Highway, and for right of way purposes for the widening, improvement, and maintenance of the Grant Smith County Road, also known as Douglas County Road No. 188, including its use for the construction of a grade separation structure to carry said county road over the said relocated Pacific Highway.

Parcel No. 3:

A parcel of land lying in the Charles W. Smith Donation Land

(cont.)

EXHIBIT "I-8" (cont.)

Claim No. 43, Township 28 South, Range 6 West, W. M., Douglas County, Oregon, and being a portion of that property described in that contract of sale to Glenn L. Young and Phala J. Young, recorded in Book 200, Pages 230 and 231, of Douglas County Record of Deeds, the said parcel being that portion of said property included in a strip of land 100 feet in width, 50 feet on each side of the center line of the Grant Smith County Road as said County Road has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 0+00, said Station being 2745.5 feet North and 787.9 feet East of the Southwest Corner of said Charles W. Smith Donation Land Claim No. 43; thence South 59° 56' 50" East 700 feet to Station 7+00 equals Station L 2816+36.89 on the center line of the relocated Pacific Highway; thence continuing South 59° 56' 50" East 500 feet to Station 12+00. Said center line intersects the West and South lines of said property approximately at the Station 2+73 and Station 8+75 respectively. Except that portion of said strip of land lying within Parcel No. 1 above.

The bearings used herein are based upon the Oregon Coordinate System South Zone.

The parcel of land to which this description applies contains 0.68 acre outside the existing right of way.

2. That this resolution be entered in full in the minutes and records of the Commission this tenth day of December, 1953.

EXHIBIT "I-9"

Minutes of December 10 and 11, 1953

RESOLUTION

WHEREAS, the State Highway Commission by resolutions dated July 17, 1953, and September 24, 1953, declared the necessity for the acquisition of two parcels of real property, therein designated as Parcel No. 1 and Parcel No. 2, owned by Winston W. Chambers, et ux, File No. L 2013 (R 20204), Parcel No. 1 being situated in Sections 29, 30 and 31, Township 34 South, Range 14 West, W. M., and Parcel No. 2 being situated in Section 32, Township 34 South, Range 14 West, and in Section 5, Township 35 South, Range 14 West, W. M., all in Curry County, Oregon, for right of way purposes, for the relocation, construction, improvement and maintenance of the Rinehart Creek-Frankport and Frankport-Euchre Creek Sections of the Oregon Coast Highway; and

WHEREAS, the said Highway Commission after further investigation has found that it is to the best interests of the State and the public to change the description of the said Parcel No. 1 so that the said description will properly coincide with the realignment of the center line of the said relocated Oregon Coast Highway through the said Parcel No. 1; and

WHEREAS, the said resolutions of July 17, 1953, and September 24, 1953, do not include the proper center line description in the said Parcel No. 1 and should, therefore, be amended to include the same;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That those certain resolutions duly made and entered in full in the minutes and records of the Commission on the 17th day of July, 1953, and the 24th day of September, 1953, pertaining to the property owned by Winston W. Chambers, et ux, File No. L 2013 (R 20204), be and the same hereby are amended to properly describe Parcel No. 1 as follows:

Parcel No. 1:

A parcel of land lying in the West half ($W\frac{1}{2}$) of the Northwest quarter ($NW\frac{1}{4}$) and the West half ($W\frac{1}{2}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 29, Lot 1 of Section 31, and Lots 2, 3 and 4 of Section 30, Township 34 South, Range 14 West, W. M., Curry County, Oregon, and being a portion of that property described in those deeds to Winston W. Chambers and Marjorie P. Chambers, recorded in Book 26, Page 540, and in Book 27, Page 197, of Curry County Records of Deeds, the said parcel being that portion of said subdivisions lying Northerly of that tract of land described in that deed to S. H. Frank Tanning Company recorded in Book 30, Pages 87-89, of Curry County Deed Records and included in a strip of land of variable width, lying on each side of the center line of the Oregon Coast

(cont.)

EXHIBIT "I-9" (cont.)

Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station $L^4$641+23.68, said Station being 235.3 feet North and 1491.8 feet East of the Northwest corner of said Section 29; thence on a decreasing spiral curve right (the long chord of which bears South 2° 58' 30" East) 500 feet; thence South 0° 21' 30" West 689.33 feet; thence on a spiral curve right (the long chord of which bears South 5° 38' 10" West) 487.5 feet; thence on an 881.47 foot radius curve right (the long chord of which bears South 30° 24' 40" West) 437.18 feet; thence on a spiral curve right (the long chord of which bears South 55° 11' 05' West) 487.5 feet; thence South 60° 27' 45" West 64.94 feet; thence on a spiral curve left (the long chord of which bears South 55° 57' 55" West) 450 feet; thence on a 954.93 foot radius curve left (the long chord of which bears South 46° 00' 45" West) 31.67 feet; thence on a spiral curve left (the long chord of which bears South 36° 03' 35" West) 450 feet; thence South 31° 33' 45" West 585.69 feet; thence on a spiral curve left (the long chord of which bears South 27° 03' 55" West) 450 feet; thence on a 954.93 foot radius curve left (the long chord of which bears South 11° 30' 45" West) 218.33 feet; thence on a spiral curve left (the long chord of which bears South 4° 02' 25" East) 450 feet; thence South 8° 32' 15" East back equals South 8° 23' 34" East ahead 18.45 feet; thence on a spiral curve right (the long chord of which bears South 6° 15' 34" East) 320 feet; thence on a 1432.39 foot radius curve right (the long chord of which bears South 3° 21' 49" West) 267.82 feet; thence on a spiral curve right (the long chord of which bears South 12° 59' 12" West) 320 feet; thence South 15° 07' 12" West 4.17 feet; thence on a spiral curve left (the long chord of which bears South 8° 27' 37" West) 400 feet; thence on a 572.96 foot radius curve left (the long chord of which bears South 20° 09' 16" East) 305.5 feet; thence on a spiral curve left (the long chord of which bears South 48° 46' 08" East) 400 feet to Station 714+61.76 back equals Station 715+42.19 ahead; thence South 55° 25' 43" East 156.08 feet; thence on a spiral curve right (the long chord of which bears South 52° 05' 46" East) 500 feet to Station 721+98.27, said center line crossing the East line of said West half ($W\frac{1}{2}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 29 approximately at Station L^4 659+35 and crossing the Northerly line of said Alexander Frank tract in said Lot 1, Section 31, approximately at Station 711+95. Also that part of said West half ($W\frac{1}{2}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 29 lying Westerly of said strip of land and Easterly of the existing Oregon Coast Highway. Also that part of said West half ($W\frac{1}{2}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 29 and that part of said Lot 3, Section 30, lying Westerly of the existing highway and Easterly of said strip of land.

EXHIBIT "I-9" (cont.)

Station to Station		Width on Easterly Side of Center Line	Width on Westerly Side of Center Line
641+23.68	642+50	70 feet	120 feet
642+50	648+00	70 feet	100 feet
648+00	657+00	80 feet	100 feet
657+00	661+00	100 feet	100 feet
661+00	668+00	200 feet	100 feet
668+00	684+00	100 feet	100 feet
684+00	687+50	130 feet	100 feet
687+50	North line of Lot 4, Section 30	180 feet	100 feet
North line of Lot 4, Section 30	691+00	180 feet	To mean high tide of the Pacific Ocean
691+00	East line of said Section 31	To existing Easterly right of way line	To mean high tide of the Pacific Ocean

The parcel of land to which this description applies contains approximately 54.18 acres, of which 9.48 acres lie within the existing public right of way, and approximately 44.7 acres lie outside of the existing public right of way.

Subject to the rights, if any, of S. H. Frank & Company in that right of way described in that deed to Alex Frank, recorded in Book 5, Page 524, of the Deed Records of Curry County, Oregon.

2. That this resolution be entered in full in the minutes and records of the Commission this tenth day of December, 1953, as Condemnation Resolution No. 479.

EXHIBIT "I-10"

Minutes of December 10 and 11, 1953

RESOLUTION

WHEREAS, the State Highway Commission on the 24th day of September, 1953, by resolution declared the necessity for the acquisition of certain real property owned by Searcy E. Binford, et al, File No. R 21055, situated in Section 36, Township 33 South, Range 15 West, W. M., Curry County, Oregon, for right of way purposes, for the relocation, construction, improvement and maintenance of the Rocky Point-Brush Creek Section of the Oregon Coast Highway as a throughway; and

WHEREAS, said resolution declared the necessity that there shall be no rights of access between the right of way of the said relocated Oregon Coast Highway and the remaining land of the said Searcy E. Binford, et al, and between the right of way of any segments of the present existing Oregon Coast Highway which adjoin the owners' remaining land and which may become abandoned and the relocated Oregon Coast Highway, except for three rights of access to the said relocated highway; and

WHEREAS, the said Highway Commission after further investigation has found that it is to the best interests of the State and the public to change the description of the real property described in the said resolution, so that the said description will properly describe the real property necessary for right of way purposes; and

WHEREAS, the said Highway Commission, after further investigating the necessity for the control of access from said remaining land to the said relocated Oregon Coast Highway and between the right of way of any segments of the present existing Oregon Coast Highway which adjoin the owners' remaining land and which may become abandoned and the relocated Oregon Coast Highway, has also found that it will be to the best interests of the State and the owners of said remaining land to change the location of one of the said points of access to the said relocated Oregon Coast Highway;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That that certain resolution duly made and entered in full in the minutes and records of the Commission on the 24th day of September, 1953, pertaining to the property owned by Searcy E. Binford, et al, File No. R 21055, as set forth on pages 1 and 2 of Exhibit A of the said resolution, be and the same hereby is amended to properly describe the real property necessary for right of way purposes as follows:

A parcel of land lying in the Southeast quarter ($SE\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 36, Township 33 South, Range 15 West, W. M., Curry County, Oregon, the said parcel being

(cont.)

EXHIBIT "I-10" (cont.)

that portion of said Southeast quarter (SE¼) of the Northeast quarter (NE¼) included in a strip of land of variable width, lying on each side of the center line of the Oregon Coast Highway as said highway was relocated in 1935, which center line is described as follows:

Beginning at Engineer's center line Station 375+00, said Station being 869.5 feet South and 736 feet West of the Northeast corner of said Section 36; thence South 5° 44' West 1415.13 feet; thence on a spiral curve left (the long chord of which bears South 4° 24' West) 400 feet to Station 393+15.13, said center line crossing the North and South lines of said Southeast quarter (SE¼) of the Northeast quarter (NE¼) approximately at Stations 379+67 and 392+53, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Easterly Side of Center Line	Width on Westerly Side of Center Line
379+00	386+60	100 feet	120 feet
386+60	393+00	100 feet	60 feet

The parcel of land to which this description applies contains 5.71 acres, of which 0.91 acre lies within the existing right of way, title to which hereby is acknowledged to be in the public, and 4.80 acres lie outside of the existing right of way.

2. That paragraph "a" of the access control language in the said resolution of September 24, 1953, referred to above, be and the same hereby is amended to read as follows:

a. A right of access to the relocated Oregon Coast Highway of a width not to exceed 30 feet on the West side of the said relocated highway, opposite Highway Engineer's center line Station 386+75.

3. That this resolution be entered in full in the minutes and records of the Commission this 10th day of December, 1953, as Condemnation Resolution No. 480.

EXHIBIT "J"

Minutes of December 10 and 11, 1953

RESOLUTION

WHEREAS, under the provisions of § 100-115, O. C. L. A., as amended by Chapter 252, Oregon Laws 1953, the Highway Commission is given specific power and authority, among other things, to classify and reclassify the highways comprising the state highway system as primary highways and secondary highways; and

WHEREAS, the Highway Commission has heretofore classified the Salem-Dallas Highway as a primary highway, and has heretofore classified the Dallas-Coast Highway as a secondary highway; and

WHEREAS, the Forty-Seventh Session of the Legislative Assembly, by Chapter 252, Oregon Laws 1953, amended § 100-115, O. C. L. A., by adding to the list contained therein of highways required to be included in the system of state highways, the Willamina-Salem Highway and the Dallas-Rickreall Highway, the routes of which said highways are described in part as being the same as the present routes of the Salem-Dallas Highway and the Dallas-Coast Highway; and

WHEREAS, it is the judgment and opinion of this Commission that the Willamina-Salem Highway should be classified as a primary highway, and that the Dallas-Rickreall Highway should be reclassified as a secondary highway, and that the portion of the Dallas-Coast Highway not included within the route of the Willamina-Salem Highway should retain its classification as a secondary highway;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by this Commission as follows:

1. That the Willamina-Salem Highway, extending from a junction with the Salmon River Highway West of Willamina, easterly via Rickreall to a junction with the Pacific Highway East in Salem, is hereby classified as a primary highway and named and designated as the Willamina-Salem Highway, State Highway No. 30. This highway includes as a part thereof the section of the former Salem-Dallas Highway, extending from Salem westerly via West Salem to Rickreall; the section of the former Dallas-Coast Highway extending from Dolph Corner northwesterly via Salt Creek and Buell to a junction with the Salmon River Highway west of Willamina; and a section of highway which has been surveyed and located but has not yet been constructed, extending from Rickreall northwesterly to Dolph Corner.

2. That the section of the former Salem-Dallas Highway extending from an intersection of Main and Court Streets in Dallas easterly to a junction with the Willamina-Salem Highway, at or near Rickreall, is

hereby reclassified as a secondary highway and renamed and redesignated as the Dallas-Rickreall Highway, State Highway No. 189.

3. That the section of the former Dallas-Coast Highway extending from a junction with the Dallas-Rickreall Highway, at or near Dallas, northerly to a junction with the Willamina-Salem Highway, at or near Dolph Corner, retain its classification as a secondary highway, and is hereby renamed and redesignated as the Dallas-Dolph Corner Highway, State Highway No. 192.

4. That this resolution be entered in the minutes and records of this Commission as of the 10th day of December, 1953.

Portland, Oregon
January 21, 1954

The State Highway Commission met in regular session at 9:00 a.m. in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids for highway construction were opened and read aloud by the Secretary as follows, pursuant to a previously published notice, at the conclusion of which it was announced that the award of contracts would be made at 4:00 p.m. in the same room:

The Parks Superintendent reported on the following matters:

1. Request of Jack Flaucher, operator of the Vista House on the Old Columbia River Highway, for state cooperation in heating the Vista House during the months of January and February, 1954: The Parks Superintendent reported that Mr. Flaucher's lease does not provide that he keep the establishment open during the months of January and February. Due to the fact that considerable redecorating has been done in the building which would be damaged were the establishment not kept open during the winter season, Mr. Flaucher has agreed to keep it open if the State will contribute the sum of $100 per month for heating during the two months. He recommended approval of the offer. The Commission accepted the recommendation.

2. Construction of additional overnight camping facilities at Wallowa Lake Park: The Parks Superintendent requested authority to call bids for these facilities with funds approved in the 1954 Budget. Commissioner Reynolds inquired if the proposed work included road construction. The Parks Superintendent replied that it did. The request was approved.

3. Request of Lincoln County Historical Society for an extension of time to complete its plans for preserving the Yaquina Bay Lighthouse Building: The Parks Superintendent recalled that the Commission previously granted the Society until January 1, 1954 within which to rehabilitate the building. The Society, he said, has not been able to make necessary repairs but hopes to secure help from the National Park Service, and, if that is not forthcoming, then the matter will be presented to the legislature in 1955. He recommended that the request be granted. The Commission approved the recommendation by giving the Society an extension of time until the 1955 legislative assembly adjourns.

4. Request of Pilot Rock Lumber Company for the lease of state park property about 10 miles south of Ukiah on the Pendleton-John Day Highway: Commissioner Reynolds pointed out that the Lumber Company has asked for this privilege several times in the past. He suggested that action be deferred pending discussion of the matter with a company official. The Secretary was instructed to ask

the company to have someone present at the next meeting of the Commission.

5. Deed from Mr. and Mrs. Henry L. Corbett, Portland, conveying to the State as a gift, 63 acres of land for park purposes on the south side of Blue Lake on the Santiam Highway in Jefferson County. The Commission accepted the deed with thanks and also signed a certificate of appreciation which is to be sent to Mr. and Mrs. Corbett.

6. Proposed schedule of rates to be charged for overnight use of park facilities during the 1954 season: The Parks Superintendent presented a schedule of rates which, he said, have been designed to cover operation costs, and he recommended that they be approved. The Commission approved the schedule of rates as presented by adopting the attached resolution relative thereto marked EXHIBIT "M", which resolution by this reference is made a part hereof with like effect as though extended in full herein. (For details concerning the approved rates, see the Parks Superintendent's letter to the Commission dated January 13, 1954, in the General Files.)

7. Proposed acquisition of land for park purposes at Bandon Beach: The Parks Superintendent and the Right of Way Engineer submitted reports on the results of negotiations with Jess Strader and E. H. Divilbiss, owners of the property. No action was taken by the Commission on the reports. The item was ordered deleted from the agenda.

8. Request of Central Lincoln People's Utility District that the State guarantee payment of $80 per year for five years to provide electrical service at Honeyman State Park overnight camping area: The Parks Superintendent advised that by approving the request, the State would be relieved of building about one-fourth mile of power line. He recommended that the payment be guaranteed. The Commission accepted the recommendation.

9. Bids for concession privileges in Silver Falls State Park received in Salem on January 19, 1954: The Parks Superintendent reported that the concession privilege had been advertised but only one bid was received, that being from Mr. J. L. Campbell who offered to pay $50 per month for the use of the facilities plus one-half of one percent of the income above the first $4,000. This proposal, he stated, is not exactly in the form requested but was the only bid received so in order to have the concession in operation during the 1954 season, he recommended that it be accepted with the condition that after one year's operation the contract be subject to renegotiation. The Commission accepted the Parks Superintendent's recommendation.

The Right of Way Engineer presented for consideration options secured for acquisition of real property that is needed for various state highway improvements and for other purposes. After careful consideration, the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

In discussing the options to be acquired for highway purposes, the Highway Engineer recalled that at the last meeting of the Commission, purchase of property

on Harbor Drive from Manufacturers-Engineers Company, Inc. was discussed and the Commission decided not to purchase the property at $62,500 which the Company asked. The Company, he stated, is still willing to accept $62,500 for the property subject to a lease by the Trailways Bus Company which would return $1,800 a year to the State, and they pay all taxes in excess of $142 a year. The price, he stated, is fair, and acquisition depends on whether the Commission wishes to purchase the property now or later. The Engineer stated that he has inspected the location and that it would be to the State's advantage to acquire all of the property on the west side of Harbor Drive between Harrison Street and Clay Street except the Iron Fireman property. He pointed out that traffic on Harbor Drive is increasing rapidly, and it will soon be necessary to construct another traffic lane. He recommended purchase of the Manufacturers-Engineers Company, Inc. property at $62,500 and that authority be granted to negotiate purchase of the other property in the area, excepting the Iron Fireman holdings, which will cost about $112,500. The Commission approved both recommendations.

The Right of Way Engineer presented and the Commission approved a report of miscellaneous sales made since the last Highway Commission meeting. (For details of property sold, see copy of report prepared by Mr. C. W. Parker, Property Manager, dated January 21, 1954, on file in the Secretary's office under the heading of "Miscellaneous Sales".)

Consideration was given to a "Modification of Judgment and Indenture of Access" form agreement with the Sunset Hills Memorial Park on the Sunset Highway in Washington County. The Right of Way Engineer reported that this covers a point of connection of the Austin Road with the Sunset Highway. The property, he said, was acquired by condemnation, and the point of access as specified in the judgment was not definite, but the form under discussion determines the actual access point. He recommended that it be approved. The Commission accepted his recommendation.

Changes in points of access as follows were approved by the Commission upon the Right of Way Engineer's favorable recommendation and his statement that the new access points involve changes only and are not additional accesses:

a. Oliver Nicholas, File No. 20779, Mt. Vernon-John Day Section, John Day Highway, Grant County.

b. Hattie J. Black property, File No. 19294, on the Orr Corner-Monmouth Section of the Pacific Highway West in Polk County.

c. Glen W. and Elizabeth Shoemaker, Files 4244 and 19405, on the Siletz Bay-Newport Section of the Oregon Coast Highway in Lincoln County.

d. J. G. Howard property, File No. 17752, on the Reedsport-Coos County Line Section of the Oregon Coast Highway in Douglas County.

The Right of Way Engineer brought up the matter of disposing of the old Division Headquarters building in Bend as the new structure will be completed this

spring. No action was taken, The Engineer will submit a full report on the subject at the next meeting.

The Commission gave attention to the matter of compensating the Southern Pacific Company for relocating a "Y" track facility on the Goshen-Divide Section of the Pacific Highway in Lane County. The Right of Way Engineer stated that the new highway line cuts through the Railroad property involving about 3,000 feet of track. The State has the alternative of accepting salvage value for the steel rails or taking the rails. He further stated that the Railroad Company's Engineers estimate the cost of relocating the track at $20,740, exclusive of the track salvage. He recommended that the Company be paid for the relocation at not to exceed $27,740 and that the State keep the old rails for construction and maintenance use. The Commission approved his recommendation.

The matter of reimbursing Rogers Construction Company for the cost of purchasing extra insurance in connection with its contract for construction of the Glenwood-North Plains Section of the Wilson River Highway was discussed. The Right of Way Engineer explained that Rogers Construction Company, in their work on this job, operated on land belonging to the Oregon Electric Railroad Company and was required to secure a liability policy, the premium on which amounted to $346.83. This insurance, he said, was not anticipated in the contract, and he recommended that the company be reimbursed in the amount of the premium, $346.83. The Commission approved reimbursement.

Granting of a timber access to a Mr. Bevens on the Newport-Toledo Section of the Corvallis-Newport Highway in Lincoln County was considered by the Commission. The Right of Way Engineer reported that Mr. Bevens has requested access for the removal of timber at a point now designated as farm access, at Station 217+40, for a period of 12 months. He gave as his opinion that such access will not cause an undue traffic hazard, and he recommended that a permit be granted for 12 months duration. The Commission accepted the recommendation.

Consideration was given to a request from Mr. and Mrs. James N. Morehead for additional access points on the Noble Slough-Foster Section of the Santiam Highway in Linn County. The Right of Way Engineer explained that when the Commission acquired right of way from the Moreheads, through an oversight, access was granted on the south side of the road only; whereas, it was understood that they were also to have access on the north side of the highway which they are now demanding, and they are also asking for an additional point of access on the south side. As the omission of the access point on the north was not intended, he recommended that they be granted access on that side of the highway but that their request for an additional access on the south side be denied. The Commission accepted the recommendation.

The matter of entering into a leasehold agreement with Mr. Ed Stortz concerning land acquired by the State from Mr. and Mrs. John Charge in connection with a right of way deal on the Gervais-Hayesville Section of the Portland-Salem Expressway was discussed by the Commission. The Right of Way Engineer explained that there is litigation pending between Mr. Stortz and the Charges concerning this property and that the State's interests can be protected by leasing to Mr. Stortz a portion of the property consisting of 5.85 acres, the lease to provide that Mr. Stortz shall pay the State a royalty of 10 cents per cubic yard for sand and gravel that he takes from

the area during a period of four years commencing January 1, 1954. He recommended approval of the arrangement. The Commission accepted the recommendation.

Also discussed was a proposed cooperative agreement with the Southern Pacific Company and the United States Government regarding construction of a lookout area at Meridian Dam in Lane County. The Right of Way Engineer explained that under the terms of the agreement as prepared, the Government is to construct a lookout area on State and Railroad property, and after January 1, 1955, the State is to maintain the area. Upon the Right of Way Engineer's favorable recommendation, the Commission approved the agreement.

The Right of Way Engineer brought up the matter of making a property transfer in order to clear title with Mr. and Mrs. Karl W. Arnold at Crabtree Corner between Albany and Lebanon on the South Santiam Highway. No monetary consideration is involved, and he recommended that the transfer be approved. The Commission accepted the recommendation.

The Right of Way Engineer also presented the matter of entering into a lease with the Eugene Laundry and Dry Cleaners for use of an area 16' by 130' on Sixth Street in Eugene, route of US 99, for which privilege they have offered to pay $60 a year. Use of the property as intended, he said, will not hamper state activities. He recommended that authority be granted to negotiate a lease on the terms as outlined. The recommendation was approved.

The Right of Way Engineer requested authority to sell 3.15 acres of the former Durno property acquired in connection with a right of way settlement on the Rocky Point-Blackwell Hill Section of the Pacific Highway east of Gold Hill. This property, he stated, is no longer needed for highway purposes, and he recommended that it be sold to the high bidder for a price not less than $4,750. The Commission granted the request and thereupon adopted the attached resolution relative thereto marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission approved the sale of one share of stock in the Hopewell Water District to Bert Stephens and Son for the sum of $75 and authorized the Secretary to sign the stock transfer. The Right of Way Engineer explained that in some right of way acquisitions, it is necessary to secure water rights, including shares of stock, but in this particular instance, the stock is no longer needed.

The Right of Way Engineer reported that property descriptions had been given to the McMinnville Chamber of Commerce some three or four months ago for the Adams Street one-way couplet on US 99W in McMinnville and that they have definite commitments from several property owners and indications that reasonable settlements can be arranged with a number of other owners when the right of way line is staked. He pointed out that the original estimate for needed right of way was $175,000, but it now appears that the property may be acquired for approximately $162,000. The Engineer stated that construction of the couplet is not in any program, but he pointed out that construction of the one-way system

will provide a high benefit quotient. It was his thought that the right of way should be secured as soon as possible so it will be available when the Commission is ready to proceed with the improvement, and that the money set up for expenditure on the Amity-Dayton Secondary Highway should be spent in building a new bridge across the Yamhill River at Dayton. He also pointed out that construction of the proposed cut-off route for US 99W via Dayton would not eliminate the need for the one-way system in McMinnville. The cost to construct the one-way couplet, he estimated at $225,000 plus $175,000 for right of way. He recommended construction in order of priority as follows:

1. Build one-way couplet in McMinnville
2. Build cut-off from Dayton Junction via Dayton and west along the Three Mile Lane Highway to the intersection of the Salmon River Highway and US 99W
3. Construct 2-mile cut-off southwest of Dayton
4. Complete construction on the Amity-Dayton Highway from its junction with the Three Mile Lane Highway to a junction with US 99W north of Amity

The total cost of these projects he estimated at approximately $2,708,500. The Commission examined the map presented by the Engineer outlining the projects and, after discussion, authorized the Engineer to stake the right of way lines for the one-way street couplet in McMinnville. The Commission also stated that consideration would be given to the options for right of way when the McMinnville Chamber of Commerce has secured them. (For further details see copy of Engineer's written report to the Commission, dated December 31, 1953, in General Files.)

The Commission also discussed with the Right of Way Engineer and the Chief Counsel the status of right of way acquisitions on the Frankport-Greggs Creek Section of the Oregon Coast Highway in Curry County and that needed for other projects for which bids are to be received at the next contract letting.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties needed as right of way in connection with various highway improvements or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

Euchre Creek-Wedderburn Section of the Oregon Coast Highway

R 20483 - S. H. Frank Tanning Company Right of Way (Curry) Parcel No. 1: 18.3 acres Parcel No. 2: 0.6 acre for drainage ditch easement	Recommended Offer *
R 21080 - Nellie C. Harrison Right of Way (Curry) 11.76 acres	 *

Euchre Creek-Wedderburn Section of the Oregon Coast Highway (cont.)

	Recommended Offer
R 21081 - George Koblenzar Right of Way (Curry) 4.39 acres	*
R 21086 - Collier H. Buffington Right of Way (Curry) Parcel No. 1: 10.32 acres Parcel No. 2: 0.45 acre	*
R 21087 - James Walter Moore Right of Way (Curry) 16.1 acres	*
$ 21542 - Jacob Carmichael Right of Way (Curry) 3.7 acres	*
R 21543 - Walter H. James Right of Way (Curry) 10.5 acres	*
R 21544 - A. C. Grabert Right of Way (Curry) 7.9 acres	*
R 21545 - Oliver W. Bettis Right of Way (Curry) 3.7 acres	*
R 21546 - J. C. Collins Right of Way (Curry) 6.5 acres	*
R 21547 - Charles M. Brooks Right of Way (Curry) 2.9 acres	*
R 21548 - W. J. Taylor Right of Way (Curry) 2.8 acres	*

Tualatin River-Middleton Section of the Pacific Highway West

R 19681 - A. S. Hamilton Right of Way (Washington) 0.74 acre	*
R 19684 - John Jurgens Right of Way (Washington) 3.83 acres	*

January 21, 1954

Tualatin River-Middleton Section of the Pacific Highway West (cont.)

	Recommended Offer
R 19687 - F. K. Hill Right of Way (Washington) 0.713 acres	*
R 19688 - Harriet E. Harsch Right of Way (Washington) 0.070 acre	*
R 19689 - Mary L. Weston Right of Way (Washington) 1.206 acres	*

Airport Road Junction-Stout Creek Section of the North Santiam Highway

R 20923 - Edith M. Anderson Right of Way (Marion) 0.09 acre	$150.00

Rocky Point-Brush Creek Section of the Oregon Coast Highway

L 2082 - W. M. Hubbs, et al Right of Way (Curry) New resolution required for change of locations of two access points	*

The Commission approved the request by adopting the attached resolutions relative thereto, marked EXHIBITS "O-1" through "O-3 ", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission considered and approved the Chief Counsel's report on cases which have been tried since the December meeting of the Commission as follows:

1. State vs James G. Johnson, et al, L 1991: This case concerns acquisition of a 0.6-acre of land on the North Corvallis Section of the Pacific Highway West. The State offered $1,075 for the property which was rejected. The defendants demanded $4,500 plus $450 attorney's fees. The jury returned a verdict in the sum of $2,250.

2. State vs Ross Knot and Robert Knot, L 2030: This case concerns recovery of $103.44 for the cost of repairing an automobile owned by the State which was damaged in an accident involving the defendants. A judgment was signed by Judge Geddes in the amount sued for plus $40 attorney's fees.

3. State vs Earl C. Burk, et al, L 1720: This case involves condemnation of property for right of way at the west end of the Salem bridges in West Salem and in which the defendants appealed to the Supreme Court. The Supreme Court held that property owners are not entitled to compensation for the denial of rights of access to a highway where no highway existed prior to the taking. The

Court also held that it was proper for the jury to return a lump sum verdict without making separate awards to each of the several owners.

4. State vs Kesler, et al, L 1922: This case concerns acquisition of 0.17 acre for right of way on the Medford-County Farm Section of the Pacific Highway and an easement across 0.76 acre for placing of an irrigation ditch and restriction to one access point. The State offered $3,000 for the property which offer the defendants rejected and demanded the sum of $12,000. The jury returned a verdict in the sum of $3,850.

5. State vs Herman H. Nichols, et al, L 1827: This case involved acquisition of 4.41 acres for right of way and 2.62 acres for a stockpile site on the West Cottonwood Canyon Section of the Wasco-Heppner Highway. The State offered $350, which price was agreeable to the owners, but they insisted that the State re-establish the fencing and construct a cattle underpass. The fencing request was in order and the work was later done by the State. The demand for the cattle pass was rejected and a complaint filed. The defendant failed to appear in Court and a default was granted in the amount of $325.

(For details on the cases listed above, see a copy of the Chief Counsel's reports dated January 15, 19, and 20, 1954, in the General Files.)

The Commission also considered and approved the Chief Counsel's report of cases settled since the meeting of the Commission held in December as follows:

1. State vs Edwin W. Hoagland, et ux, L 2089, for acquisition of 5.27 acres on the Goshen-Divide Section of the Pacific Highway plus 5.63 acres for roadbuilding materials. The State offered $5,000 for the property and agreed to construct a fence along the easterly right of way line. The defendants agreed to this offer, provided they could move a shed from the property. They were allowed to do so and the case was settled.

2. State vs Rosina Ziniker, L 2099, for the acquisition of 10.73 acres for the Pacific Highway and Creswell traffic interchange, 0.93 acre for a Creswell frontage road, 17.25 acres for a borrow pit and 3.85 acres excess taking. The State's offer of $13,400 was rejected by the defendants. As a result of subsequent negotiations, settlement was effected in the sum of $14,500 and the defendants allowed to pump water from the borrow pit area for irrigation purposes.

3. State vs Faun E. Helmcke, L 1892, for purchase of 0.01 acre of land on the Sylvan Section of the Sunset Highway and for restriction of access. The State offered $150 for the property which was rejected by the defendants who demanded the sum of $3,500. Further negotiations effected a settlement for the sum of $750.

4. State vs Jacquline Stockton, et al, L 2086, to recover the sum of $133.61 for the cost of repairing a handrail on the Squaw Creek Canal Bridge on the Mckenzie-Bend Highway damaged by a vehicle owned and operated by

the defendants. The claim was rejected by the defendants and their insurance carrier, but later the defendants agreed to pay the full amount of the State's claim and the case has been dismissed.

5. State vs Laura Withrow, et al, L 1907 for acquisition of 2.68 acres on the Reedsport-Hauser Section of the Oregon Coast Highway. An offer in the amount of $1,072 was made whereas the defendants demanded the sum of $5,333. Further negotiations resulted in a settlement in the amount of $1,330.

6. State vs Nels Holmberg, et ux, L 1892, for acquiring 0.78 acre on the Forest Boundary-Hauser Section of the Oregon Coast Highway. The State offered to pay $390 for this property which the defendants refused. Subsequent negotiations effected a settlement in the sum of $595 plus $100 attorney's fees.

7. State vs Charles A. Prescott, et ux, L 1897, for the acquisition of 4.67 acres on the Forest Boundary-Hauser Section of the Oregon Coast Highway. An offer in the amount of $1,000 was refused by the defendants. The defendants had the property appraised by Mr. Fitzpatrick of North Bend who valued it at $7,170 and Mr. Leroy Draper of Portland who appraised the property at $3,918 After considerable negotiation a settlement was reached in which the state pays the sum of $3,918 and allows the defendants one right of access in addition to the four previously granted.

8. State vs James W. Creighton, et ux, L 2005, for the taking of 2.07 acres on the Zigzag-Rhododendron Section of the Mt. Hood Highway. The State's offer of $750 was rejected by the defendants who demanded the sum of $20,000 plus $1,500 attorney's fees and unlimited access to the highway. Further negotiations effected a settlement for the sum of $1,750 and the allowance of five access points with the provision that one of them may be used for the operation of a private riding club.

9. State vs Prescott Corporation, L 2080, for the acquisition of 18 lots in the City of Portland on Unit No. 4 of the T. H. Banfield Expressway. The State's offer of $6,300 was rejected by the defendants who requested additional damage money. As a result of further negotiations a settlement was arranged in the sum of $6,765 with nothing allowed for damage to other lots.

10. State vs Willard L. Morrison, et ux, L 2074, for the taking on an easement for a storm sewer across 0.07 acre of land for drainage of the Junction City-Eugene Section of the Pacific Highway. The defendants agreed to accept the State's offer of $300 with the understanding that the property will be made clean and neat when construction is completed.

11. State vs Emil W. Lawson, et al, R 20892, for acquisition of 3.59 acres on the Willamette River-Hayesville Section of the Portland-Salem Expressway. An offer of $360 authorized under condemnation proceedings was rejected. A later conference effected a settlement in the sum of $538.50.

12. State vs Tom Loe, et ux, L 1950, for specific performance of an option for sale of 7.5 acres of land for a gravel pit on the Ontario-Nyssa Section of the

Old Oregon Trail. In subsequent correspondence and negotiations, the State advised that the pit would be fenced, as is common practice, and that Mr. Loe would be permitted to use material from the pit provided the amount of materials would not exceed 1,000 cubic yards and that the right to remove such materials be limited to five years. On the basis of this arrangement, the defendants did not resist the specific performance suit, and an order of default was signed on June 23, 1953.

State vs A. T. Lathrop, et al, L 2125, for the taking of 24.4 acres as a source of road building materials in construction of the Seven Oaks-Blackwell Hill Section of the Pacific Highway. The State's offer of $12,640 was rejected by the defendants. Three appraisals of the property ranged from $6,750 to $45,275. An option has now been secured for a price of $17,500 with the provision that the State shall construct a fence along the boundary line and shall permit the grantors to take water from the area in a manner not interfering with the State's operations, and also allow the grantors to take 100 cubic yards of sand and gravel each year for their personal use.

State vs George C. Lesher, et al, L 1906, for the taking of 0.08 acre for widening right of way on the Oregon Coast Highway. An offer of $1,000 was made for the property based upon appraisals which did not consider possible damages resulting from construction of a frontage road and closing of the three reserved access points. Further appraisals were taken which indicated that the owners remaining property might be damaged to the extent of $22,500. A settlement was reached in which the defendant agrees to convey all rights of access between his property and the existing Oregon Coast Highway with the exception of three rights of access fifty feet wide unrestricted as to use. The defendant also agrees to place no improvements other than landscaping and shrubbery upon a strip ten feet wide abutting upon the existing highway. In consideration of this agreement, the defendant is to be paid the sum of $350.

United States of America vs Seufert Brothers and State of Oregon, L 1844, for acquisition of real property in connection with the construction of The Dalles Dam. The State of Oregon was named defendant for the reason that the State Highway Commission owned an interest in the property to be acquired. Subsequent to the filing of the complaint, the United States acquired the property by purchase, so the case was dismissed.

State of Oregon vs Milton Stennett, et al, L 1993, for the taking of 1.55 acres on the Oregon Coast Highway. The State offered to pay $4,500 for the property, but the defendants demanded $7,000 to $8,000. A settlement was reached on the basis that the defendants convey the property to the Highway Commission with access restricted to one 25-foot access point for residential use and two 35-foot access points unrestricted as to use, for the sum of $750. The State is to move an existing sidewalk and curb approximately eight feet toward the Whale Cove Inn, move an existing neon sign to a different location on the building, and convey to the defendants a strip of land thirty feet wide, extending from the Oregon Coast Highway to the ocean shore, which land is presently a part of Rocky Creek State Park. (For further details, see copy of the Chief Counsel's written report to the Commission, dated January 15, 1954, in the General Files.)

January 21, 1954

Offers for the acquisition of property prior to the institution of condemnation proceedings were presented by the Chief Counsel and accepted by the Commission as follows:

Pendleton-Deadmans Pass Section of the Old Oregon Trail Highway

R 20089 - Owner: Robert Neagle Forest, et al. 47.64 acres for right of way. Amount of offer $21,941.00. Authorized by Commissioner Reynolds on December 29, 1953.

R 20090 - Owner: J. R. Thompson, et al. 23.17 acres for right of way. Amount of offer $11,153.00. Authorized by Commissioner Reynolds on December 29, 1953.

R 20104 - Owner: R. E. Goad, et ux. 12.55 acres for right of way. Amount of offer $2,257.00. Authorized by Commissioner Reynolds on December 29, 1953.

R 20109 - Owner: Charles A. Peterson, et al. 15.47 acres for right of way. Amount of offer $6,435.00. Authorized by Commissioner Reynolds on December 29, 1953.

R 20110 - Owner: B. F. Bowman, et al. 14.23 acres for right of way. Amount of offer $11,186.50. Authorized by Commissioner Reynolds on December 29, 1953.

R 20111 - Owner: Roy F. Hobby, et al. 4.81 acres for right of way. Amount of offer $150.00. Authorized by Commissioner Reynolds on December 29, 1953.

R 20250 A-1 - Owner: R. E. Goad, et al. 19.12 acres for right of way. Amount of offer $575.00. Authorized by Commissioner Reynolds on December 29, 1953.

R 20250 A-2 - Owner: William Purchase. 4.92 acres for right of way. Amount of offer $150.00. Authorized by Commissioner Reynolds on December 29, 1953.

R 20250 A-3 - Owner: J. R. Thompson, et al. 17.15 acres for right of way. Amount of offer $515.00. Authorized by Commissioner Reynolds on December 29, 1953.

R 20250 A-4 - Owner: J. R. Thompson, et al. 10.84 acres for right of way. Amount of offer $125.00. Authorized by Commissioner Reynolds on December 29, 1953.

R 20250 A-6 - Owner: Roy F. Hobby, et al. 8 acres for right of way. Amount of offer $100.00. Authorized by Commissioner Reynolds on December 29, 1953

Pendleton-Deadmans Pass Section of the Old Oregon Trail Hwy (cont.)

R 20250 A-7 - Owner: Roy F. Hobby, et al. 15.26 acres for right of way. Amount of offer $175.00. Authorized by Commissioner Reynolds on December 29, 1953.

R 20385 and R 20091 - Owner: Roy F. Hobby, et ux. 25.56 acres for right of way. Amount of offer $10,601.00. Authorized by Commissioner Reynolds on December 29, 1953.

Salem-Dallas Highway

R 15173 - Owner: Glenn O. Lewis, et al. 295 square feet for right of way. Amount of offer $600.00. Authorized by Commissioner Reynolds on December 29, 1953.

Unit No. 3 of the T. H. Banfield Expressway

R 16727 - Owner: Sisters of Charity of Providence in Oregon, et al. 20,680 square feet for right of way. Amount of offer 11,244.50. Authorized by Commissioner McIver on December 7, 1953.

R 16728 A - Owner: Efem Warehouse Company. 10125 square feet for right of way. Amount of offer $5,000. Authorized by Commissioner McIver on December 9, 1953.

R 20599 - Owner: Ridgeway Johnston, et al. 23,475 square feet for right of way. Amount of offer $6,100.00. Authorized by Commissioner McIver on December 7, 1953.

Unit No. 4 of the T. H. Banfield Expressway

R 20632 - Owner: General Fuel and Lumber Company, et al. 15,036 square feet for right of way and 4,494 square feet for excess taking. Amount of offer $14,265.00. Authorized by Commissioner McIver on December 7, 1953.

Goshen-Divide Section of the Pacific Highway

R 18456 - Owner: George E. Hill, et ux. 4.83 acres for right of way. Amount of offer $4,645.00. Authorized by Commissioner McIver on December 7, 1953.

R 20507 - Owner: Rosina Ziniker. 11.66 acres for right of way, 17.25 acres for road building materials site, and 3.85 acres for excess taking. Amount of offer $13,400.00. Authorized by Commissioner McIver on December 7, 1953.

R 20512 - Owner: Edgar Bates, et al. 4.38 acres for right of way. Amount of offer $5,610.00. Authorized by Commissioner McIver on December 9, 1953.

Goshen-Divide Section of the Pacific Highway (cont.)

R 20530 - Owner: Maude F. Clark. 2.8 acres for right of way. Amount of offer $10,900.00. Authorized by Commissioner McIver on December 7, 1953.

Blackwell Hill-Medford Section of the Pacific Highway

R 20799 - Owner: Earl W. Morris, et al. 22.79 acres for right of way. Amount of offer $19,103.00. Authorized by Commissioner McIver on December 9, 1953.

R 20800 - Owner: Benton A. Boyce, et al. 4.94 acres for right of way. Amount of offer $15,000.00. Authorized by Commissioner McIver on December 7, 1953.

R 20801 - Owner: Gold Ray Realty Company, et al. 23.06 acres for right of way. Amount of offer $20,916.00. Authorized by Commissioner McIver on December 9, 1953.

R 20974 - Owner: Ivan T. Skyrman, et al. 0.2 acres for right of way. Amount of offer 7,202.00. Authorized by Commissioner McIver on December 7, 1953.

R 20979 - Owner: Howard C. Holden, et ux. 0.10 acre for right of way. Amount of offer $750.00. Authorized by Commissioner McIver on December 9, 1953.

R 20981 - Owner: Thomas Vella, et al. 0.34 acre for right of way. Amount of offer $9,714.00. Authorized by Commissioner McIver on December 9, 1953.

R 21138 - Owner: A. T. Lathrop, et ux. 24.4 acres for gravel pit. Amount of offer $12,640.00. Authorized by Commissioner McIver on December 9, 1953.

R 21139 - Owner: Bernie B. Moore, et al. 9.59 acres for gravel pit. Amount of offer $2,559.00. Authorized by Commissioner McIver on December 9, 1953.

Hayesville Junction-Wilsonville Junction Section of the Portland-Salem Expressway

R 13930 - Owner: Joseph Moorman, et ux. 5.75 acres for right of way. Amount of offer $29,126.00. Authorized by Commissioner McIver on January 12, 1954.

R 13931 - Owner: Ingval Torresdal, et ux. 1.5 acres for right of way. Amount of offer $11,665.00. Authorized by Commissioner McIver on January 12, 1954.

R 20849 - Owner: James R. Burgess, et ux. 7.83 acres for right of way. Amount of offer $6,575.00. Authorized by Commissioner McIver on January 12, 1954.

R 20851 - Owner: Vernon P. Clark, et ux. 7.88 acres for right of way, and 4.05 acres for borrow pit. Amount of offer $2,860.00. Authorized by Commissioner McIver on January 12, 1954.

Hayesville Junction-Wilsonville Junction Sec. of the Portland-Salem Expressway (cont.)

R 20892 - Owner: Emil Walter Lawson, et al. 3.59 acres for right of way. Amount of offer $360.00. Authorized by Commissioner McIver on January 12, 1954.

R 20906 - Owner: J. J. Kabstoff, et al. 0.73 acres for right of way. Amount of offer $950.00. Authorized by Commissioner McIver on January 12, 1954.

R 20935 - Owner: Jess E. Tryon, et ux. 3.74 acres for right of way. Amount of offer $4,372.00. Authorized by Commissioner McIver on January 12, 1954.

R 20939 - Owner: Tena C. Bartuff. 3.69 acres for right of way. Amount of offer $3,115.00. Authorized by Commissioner McIver on January 12, 1954.

R 20948 - Owner: Harold W. Nelson, et al. 0.33 acre for right of way and 1.67 acres for excess taking. Amount of offer $13,000.00. Authorized by Commissioner McIver on January 12, 1954.

The filing of applications for permits to appropriate waters for the George S. Jewett and the M. V. H. Jackson properties and for the Hood River roadside picnic area, all on the Viento-Hood River Section of the Columbia River Highway was discussed by the Commission. The Chief Counsel explained that in constructing this highway section, a spring supplying water to the Jewett and Jackson properties was destroyed and that to replace the water, the State has constructed a concrete reservoir and tapped two springs; also that the Landscape Department desires to obtain water from this reservoir for use in the Hood River roadside picnic area. In order to properly establish the right to appropriate the waters from the two springs, he said, it is necessary to obtain a water permit from the State Engineer. He recommended approval of the filing of a separate application for each of the three parties concerned and payment of the necessary fee of $20 for each application, and that the Secretary be authorized to sign the application for the water permit for the Hood River roadside picnic area. The Commission approved the recommendation.

Consideration was given by the Commission to the payment of $4,500 to Kay and Dora Howard as a compromise settlement of their claim for loss of use of their log dumping facilities on the Hauser-North Bend Section of the Oregon Coast Highway. The Chief Counsel advised that under the terms of the option given by the Howards in connection with a right of way settlement, their log pond was to be relocated and ready for their use by November 1, 1952, but due to unforeseen construction difficulties, the relocation was not accomplished until October 31, 1953. The Howards have a lease agreement with the Coos Head Timber Company for the use of the log dump for a minimum payment of $500 per month which they have refused to pay for a 12-month period. Investigation shows, he said, that the

log dump was actually out of operable condition for a period of nine months, and the Howards, after negotiation, have agreed to accept the sum of $4,500 as a compromise settlement of their losses. He recommended payment of such amount. The Commission approved the recommendation.

The Chief Counsel requested and the Commission authorized the partitioning and the re-arranging of lighting fixtures, in room 108 in the State Highway Building in Salem at an estimated cost of $875. The Chief Counsel explained that this re-arrangement is necessary to make room for legal personnel and to better utilize existing space.

A proposed settlement with Mr. Gilbert W. Harris regarding property acquired by the State in Crook County for use as a cinder pit was discussed. The Chief Counsel recalled that this matter was considered by the Commission at the previous meeting and that Mr. Harris had been offered $750 for his rights. The original offer had been for the sum of $2,500 with the property to be free and clear of all liens and encumbrances. Mr. Harris was unable or unwilling to clear the outstanding interest of Crook County and the reduced offer was made. Mr. Harris has now accepted the offer of $750 provided the State will install a stock guard and gate where the old road intersects the highway, that the haul road to be altered to hold dust to a minimum and that he be allowed to use the land for grazing purposes. These conditions, he stated, have all been incorporated in an agreement which he recommended be approved. The Commission accepted the recommendation.

The Chief Counsel reported abandonment of uncollectible claims as follows:

1. Claim against Charles W. Lee in the amount of $150 for damage to a guard rail on the Pacific Highway East near M. P. 6.04. Mr. Lee is now an inmate of the Oregon State Penitentiary for obtaining money under false pretenses.

2. Claim against Willie T. Dossie in the amount of $45.69 for damage to a guard rail on the Pacific Highway on the Interstate to Broadway viaduct in Portland. Repeated attempts to contact Mr. Dossie have been unsuccessful.

3. Claim against Nevy Smith in the amount of $287.12 for damage to the hand rail of a bridge on the Powers Secondary Highway at M. P. 3.78. A summons and complaint was filed and Mr. Smith was found to be in default. It has been further determined that he has a very poor credit rating, several long overdue debts and no assets have been found upon which to levy execution to satisfy the judgment.

The Commission approved the abandonment of the claims.

The Commission discussed a letter from the Chief Counsel regarding a request from Representative Loran L. Stewart, Cottage Grove, member of the Legislative Highway Interim Committee, that certain concessions be granted property owners along the Oregon Coast Highway in Curry County so as to permit access to their holdings on one side of the Highway from land that they own on the opposite side of the highway by means of roadways beneath the bridge ends.

Chairman Chandler stated that the Interim Committee has brought to the attention of the Highway Commission the fact that the Commission's Right of Way Agents are requiring the same control for a highway crossing beneath a bridge end as is required in the case of the usual farm crossing at grade, namely that the use of such crossing ordinarily be confined to farming purposes only and that the crossing be voided when the property is alienated. The Committee suggests, he said, that the controls be not required on the Oregon Coast Highway in Curry County because of the limited land available for commercial purposes, and the fact that the crossing would be under the traveled roadway rather than at grade.

Following discussion, the Commission decided unanimously not to establish a general policy that would favor the highways in any particular part of the state, but the Commission did agree to consider each property owner's request separately, when filed with respect to this condition, regardless of the area of the state involved, and to render a decision that will be in the best public interest.

The meeting recessed at 12:00 noon and reconvened at 2:00 p.m. in the same room with the same persons present and participating.

Messrs. F. E. Andrews, Acting Division Engineer, C. G. Polk, District Engineer, and R. F. Kellogg, Senior Highway Engineer, U. S. Bureau of Public Roads, appeared before the Commission concerning construction of the Rock Creek Bridge on the North Umpqua Forest Highway. Mr. Andrews stated that the existing bridge is becoming inadequate and unsafe for heavy logging traffic that it carries, and it is now urgent that construction of a new bridge to conform to the new highway alignment and standards be undertaken as soon as possible. He also said that there are sufficient state contingent and forest highway cash funds available to finance construction which is estimated to cost $60,000. He asked the Commission to approve the project. The Commission approved the project as requested and thereupon signed the following joint letter directed to the Chief, Forest Service, and Commissioner of Public Roads, Washington, D. C. relative thereto:

DEPARTMENT OF COMMERCE
BUREAU OF PUBLIC ROADS
Division No. 8

Portland, Oregon
January 20, 1954

486 Oregon General

Chief, Forest Service,
Commissioner of Public Roads
Washington, D. C.

Dear Sirs:

The surfacing of 16.9 miles of the North Umpqua Highway, Oregon Forest Highway Project 47-A3, B6, C1, D2, is now under

contract. There remains the construction of the Rock Creek Bridge near the westerly end of the project to complete the improvement to acceptable standard. The existing bridge is becoming inadequate and unsafe for the heavy logging traffic and it is now urgent that construction of a new bridge to conform to the new alignment and standards be undertaken as soon as possible.

Sufficient State contingent and Forest Highway cash funds are available to finance the construction estimated to cost $60,000.

It is recommended, therefore, that the following project be approved:

Project and Account No.	Project Name, Type of Work and Length	Estimated Cost	Recommended Program Amount
47-D3 (3110-00)	North Umpqua Highway Bridge, .037 mile	$60,000	$60,000

Very truly yours,

/s/ F. E. Andrews

F. E. ANDREWS
Acting Division Engineer

Recommended for approval

/s/ R. H. Baldock
State Highway Engineer

OREGON STATE HIGHWAY COMM.

/s/ Ben R. Chandler
Chairman

/s/ Chas. H. Reynolds
Commissioner

/s/ M. K. McIver
Commissioner

U. S. FOREST SERVICE, REGION 6

/s/ J. Herbert Stone
Regional Forester

The Commission also discussed the merits of a number of other forest highway projects as were suggested by the Engineer for construction with $185,000 of Forest Highway Funds that are immediately available according to information received from Mr Andrews. After careful consideration, the Commission selected the Squaw Creek-Baker County Line Section of the John Day Highway in Grant County for such funds, which was approved by Mr. Andrews.

The Commission approved and ordered filed a report submitted by the

Chief Counsel regarding claims for damaging state highway property during the period from September 1, 1953, to December 31, 1953. The Chief Counsel pointed out briefly that during this period 38 claims were made against others, totaling $8,806.45. The total number of claims is 96 in sum of $23,298.17, and of the total of 96 claims, 100 percent collection has been effected on 28 of them for a total of $7,851.96. There will be carried forward to the next quarterly report, he stated, a total of 55 claims involving a total of $14,956.86. (For further details, see copy of the Chief Counsel's letter to the Commission, dated January 13, 1954, in General Files.)

The Commission accepted a report from the Engineer stating that conditions governing the award of the following state highway contracts have been satisfied and that contract and bond forms have been sent to the respective contractors for signature pursuant to the Commission's instructions:

1. Grading and rock base on Fall Creek Section of Mist-Clatskanie Secondary Highway in Columbia County. Bids received December 11, 1953. Conditions of award satisfied December 16, 1953. Koppisch Construction Company, Astoria, contractor.

2. Grading and paving Blackwell Hill-Seven Oaks Unit and Seven Oaks-Medford Unit of Blackwell Hill-Medford Section of Pacific Highway in Jackson County. Bids received October 29, 1953. Conditions of award satisfied December 11, 1953. (Conbination bid) R. A. Heintz Construction Company, Portland, contractor.

3. Grading on Goshen-Coast Fork, Willamette River Unit, Goshen-Divide Section of Pacific Highway in Lane County. Bids received October 29, 1953. Conditions of award satisfied December 11, 1953. Durbin Brothers, contractor.

4. Construction of 42d Avenue-92d Avenue Section of T. H. Banfield Expressway in Northeast Portland, Multnomah County. Bids received October 30, 1953. Conditions of award satisfied December 11, 1953. Gibbons & Reed Company, Salt Lake City, Utah, contractor.

5. Halsey Street Undercrossing Reconstruction over T. H. Banfield Expressway in Multnomah County. Bids received October 30, 1953. Conditions of award satisfied December 14, 1953. Young & Smith Construction Company, Nampa, Idaho, contractor.

6. Grading Emigrant Hill Section of Old Oregon Trail in Umatilla County, Bids received December 10, 1953. Conditions of award satisfied January 19, 1954. Berke Brothers & C. R. O'Neil, Portland, contractor.

The Commission accepted the Engineer's report in which he stated that on December 14, 1953, acting on authority previously given him by the Commission, he approved reclassification from the status of Group II Highway to the status of Group I Highway of that section of the Oregon Coast Highway between its junction with the Necanicum Highway near Wheeler and its junction with the Sunset Highway at Cannon Beach Junction.

Consideration was given to a request from the Jackson County Chamber of Commerce for improvement of the Flounce Rock Section of the Crater Lake Highway between Trail and Cascade Gorge. The Engineer stated that a survey has been authorized for this section and that it is planned to receive bids in February for an aerial reconnaissance if the Commission will authorize it. The Commission authorized the aerial survey but took no further action, pending the appearance of a delegation on the following day. (The Commission informed the delegation when it appeared that as soon as the survey has been completed and the Engineer's report has been rendered, further consideration will then be given to the project.)

The Engineer presented for the Commission's consideration a report concerning the cost and feasibility of construction of the Cascade Secondary Highway along several routes between the south city limits of Portland and Oregon City. He exhibited a map showing three possible routes and pointed out that the line which will provide the greatest benefit to the greatest number of people is the line marked in red on the map designated as A-E F and which extends southerly from the Southern Pacific Railroad crossing north of the town of Clackamas to a connection with US 99E in Oregon City with a crossing of the Clackamas River near the present crossing at Parkplace. This route, he stated will cost about $1,702,000 for a four-lane facility and will involve a four-lane crossing of the Clackamas River at Parkplace. The benefit quotient of this line is 2.95. Action by the Commission was deferred pending appearance of a delegation concerning this matter the following day. (The Commission on the following day heard the delegation who generally favored the proposed route and urged early construction on the alignment recommended by the Engineer.)

A report concerning the installation and use of garbage disposal facilities along the Oregon Coast and Salmon River Highways was presented by the Engineer. He recalled that in October, 1952 the Lincoln Pomona Grange at Toledo petitioned the Commission for the installation of additional garbage facilities along these two highways. Since that time, he said, ten additional units were installed and some of the existing units relocated. The relocation of five of them has greatly improved their effectiveness. The ten additional facilities installed in Lincoln County are being used and emptied weekly of approximately 50 gallons of refuse and garbage. The estimated cost of servicing each unit he stated, is approximately $50 per year, and it was his opinion that the cost of this service is justified. The Commission accepted the report and instructed the Engineer and the Parks Superintendent to present at the next meeting additional information as to what has been done in the past along such lines throughout the rest of the state. The Parks Superintendent was also instructed to present a report on the extent of vandalism that has occurred in state parks.

A report was submitted by the Engineer concerning an application for a permit to construct a bridge parallel to the existing structure across the Columbia River between Vancouver and Portland. He pointed out that at a hearing held November, 1953, tugboat operators had objected to the proposed location of the draw span. Since that time, conferences have been held with the District Engineer and with officials of the State of Washington, and the District Engineer has indicated that the application as proposed would be denied The District Engineer also indicated that if the application were modified to show the draw span located farther to the south than on the present bridge and if the grade line on both bridges were to allow approximately 70 feet of clearance above low water the revised application would receive his favorable

recommendation. The cost of this reconstruction on the existing bridge, the Engineer estimated would be $1,400,000. He called attention to the Truman-Hobbs bill under which it may be possible that the cost will be borne by the Federal Government. The change in grade line for the new bridge he estimated would cost an additional $400,000, and it would be necessary that the States of Oregon and Washington assume this additional cost. Also, the raising of the bridge would require approximately eight months additional time and interest on $10,000,000 in bonds would be approximately $200,000. The total additional cost to the states in the sum of $600,000 would be offset by not having to remove the Vancouver dock at an estimated cost of $100,000. Due to the change in grade line, about 90 percent of the openings of the present bridge to permit river traffic to pass will be eliminated. Against this advantage, the greater part of the bridge will be on a grade of approximately 3.6 percent. It was his feeling that the objections of the navigation interests are greatly exaggerated, but in view of the certainty of disapproval by the United States Engineers, he recommended that an amended application be submitted showing the new position of the draw span and the change in grade of the new bridge and of the old bridge and making this application contingent upon the Federal Government assuming under the Truman-Hobbs act all cost incurred in revising the old bridge. The Commission approved the recommendation.

The Engineer also presented a report concerning the issuance of permits for operation over state highways of single loads of logs loaded crosswise not exceeding $8\frac{1}{2}$ feet in width. He stated that under authority previously granted by the Commission, he had approved the movement of such single loads of logs regardless of kind--that is as to whether they are peeler logs, pulp logs, posts, et cetera--in those instances where trial runs have disclosed that the loads can be moved safely without encroaching on the opposing traffic lane, as is required by law. The Commission accepted the report.

A request from the Hood River Chamber of Commerce relating to signing, lighting, and other improvements on the Columbia River Highway in the vicinity of Hood River was considered. The Engineer presented a written report listing the requests and his recommendation in regard to each. The Commission after careful consideration, accepted the Engineer's recommendation with respect to each of the requests. (For details, see copy of the Engineer's letter dated December 30, 1953, in the General Files.)

Brief consideration was given to a request for relocation of the Noon Bridge over Marys River on the Corvallis-Newport Highway about two miles west of Philomath. The Engineer advised that a contract already has been awarded for construction of a new bridge and that the work is underway, but some citizens of the area want the location shifted about 50 or 60 feet downstream. To do what they ask, he said, will cost the State about $46,000 in addition to the cost of the work which has been performed to date on the present location and will provide an extremely minor improvement. As there is no engineering justification for the change in alignment, he recommended that the project be completed in accordance with present plans. The Commission approved the recommendation.

The Engineer presented a report concerning damage to a water system owned by Vera Redenbaugh south of Humbug Park on the Oregon Coast Highway in Curry County. Investigation, he stated, disclosed that the water supply was dam-

aged by a tree falling across the inlet pipe. He also said that the matter has been corrected to the satisfaction of Mrs. Redenbaugh by cleaning out the inlet area, extending the inlet pipe with a vertical extension and replacing the pipe which was bent. The Commission accepted the report.

The Engineer also submitted a written report on the feasibility of conducting a survey for a proposed bridge across the Columbia River near Astoria, the cost to be shared equally by the City of Astoria; the Oregon State Highway Department; Pacific County, Washington; and the Washington State Highway Department. He recommended against the State participating in the survey at this time because the Columbia River bridge investigation made in 1944 and the previously rendered Taylor report show conclusively that a negative recommendation would result from any comprehensive investigation now. The Commission deferred action on the report pending the appearance of a delegation from Astoria on the following day. (The delegation, upon its appearance before the Commission did not mention the proposed bridge nor the survey concerning it.)

A request from the St ayton City Council for improvement of 10th Street in Stayton as a special city allotment project was discussed by the Commission. The Engineer recalled that the City requested this improvement under the 1954 Special City Allotment Fund, but the request was denied because the improvement could not be justified under existing procedure; moreover, an investigation conducted late in the summer of 1953 showed that the street has not been subjected to heavy traffic which would cause excessive wear; nor has there been any sudden increase in population at Stayton. The street, he stated, was built primarily to serve the new Stayton hospital and was surfaced with crushed gravel and a light oil treatment. He recommended that the request be again denied. The Commission accepted the recommendation. (A delegation which appeared on the following day was informed that the project will be reinvestigated for consideration as a 1955 project.)

The Commission gave consideration to a request submitted by Edward E. Grant, an attorney of Enterprise, in behalf of Mr. James A. Prince whose water supply was allegedly destroyed during construction of the North Unit, Enterprise-Forest Boundary Section of the Enterprise-Lewiston Highway. Mr. Grant takes the attitude that the Highway Department has a moral obligation if not a legal one to recompense Mr. Prince for his loss. The Engineer recalled that this item was considered at the December meeting, and upon recommendation of the Chief Counsel and himself, the claim was denied on the basis that there is no legal liability on the part of the State. Mr. Grant now urges the Commission to do something in the way of a moral obligation to restore the water supply. The Chief Counsel stated that under the law, the Commission has no authority to restore the water supply unless the Commission is legally obligated to do so. The Commission again denied the request.

Consideration was given to a request from the Oregon Wheat Growers League that something be done to prevent noxious weeds and rye from maturing and producing seed on highway rights of way in areas where wheat is grown. The Engineer reported that in conformity with the Commission's adopted program of weed control, cooperation has been received from eight counties, six of which are within the wheat belt. In addition considerable work has been performed by state forces on

such control work and the program is being gradually enlarged as experience demonstrates the efficiency of various herbicides in the control of noxious growth. The State, he added, has never seeded rye of any variety on the right of way in the Eastern Oregon wheat counties, and it must have been introduced by crops adjoining the right of way or by transportation of grain products over the highway; also, that no practical means of control has yet been developed. He recommended that a letter be sent to the League explaining the problem and outlining what has been done by the Highway Department to solve it. The Commission accepted the recommendation.

The Engineer presented a written report showing an analysis of tolls charged on ferry systems operated by the Washington Toll Bridge Authority in comparison with the tolls charged on the Oregon Astoria-Megler ferry. He pointed out briefly that the rates charged by the Washington ferries are generally in excess of the proposed schedule of increased charges for the Astoria-Megler ferry and are considerably higher than the present schedule. The Commission deferred action on the matter pending the appearance of a delegation from Astoria on the following day. (For details, see copy of the Engineer's report in General Files.) (The Commission took no action on the delegation's request for decreased tolls or concerning the proposed increase in ferry rates.)

A request from the City of Vale for establishment of a one-way street couplet for Central Oregon Highway traffic through the city was considered. The Engineer reported that this matter was discussed briefly at the last Commission meeting, and since that time has been investigated on the ground. The city's request, he stated, has considerable merit and will undoubtedly serve traffic better than if all of the traffic were routed on Washington Street as a two-way street. He recommended that Washington Street be used as a one-way street for traffic westbound and that eastbound traffic continue to use the existing route of the Central Oregon Highway. The Commission approved the recommendation and ordered that the matter be covered by an appropriate agreement with the city.

A report was presented by the Engineer on snow-removal operations on the East Diamond Lake Secondary Highway. He recalled that a delegation appeared before the Commission at the last meeting concerning this matter and that he had been instructed to contact the California Oregon Power Company as to what assistance they could provide. The Power Company, he stated, is now assisting in keeping the East Diamond Lake Secondary Highway open with its rotary snowplow so the matter is being handled satisfactorily. The Commission accepted the report.

The Engineer also reported on the matter of Linn County cooperating in construction of the Clear Lake-Belknap Springs Forest Highway. He stated that under Forest Service regulations, it is necessary that some agency sponsor construction and to assume maintenance two years after the construction is completed. Lane County, he said, has agreed to that condition so far as the road is located in that county, and the Linn County Court,which was also contacted, offered no objection to such sponsorship provided the location on the north end of the highway remains fairly close to the present road and provided the section at the north end is built simultaneously with the sections at the south end These

conditions, he stated, have been transmitted to the Forest Service and to the Bureau of Public Roads which will advise later whether or not they will approve the project on those conditions. The Commission accepted the report.

A letter from the Oregon Timber Transport Operators concerning truck hauling of logs during the hours of darkness was discussed by the Commission. The Engineer reported that as requested at the last Commission meeting, the matter has been carefully investigated and found to be impractical. Mr. Stiffler, Assistant State Highway Engineer, pointed out that Mr. Curtis, who had made the original request, indicated that a group of loggers in the Astoria area are principally interested in hauling during the hours of darkness. He also stated that from his contacts with other groups of loggers, it appears that most of them are not interested in night-time hauling. The Commission ordered that the regulations for hauling of logs during the hours of darkness remain as they are and that Mr. Curtis, Safety Engineer for the Oregon Timber Transport Operators, be advised of the Commission's action.

The Commission discussed with the Engineer a request from the Klamath County Chamber of Commerce for construction of a boat landing and parking area on the Wocus Marsh-Lake of the Woods Junction Section of the Klamath Lake Secondary Highway. The Engineer stated that the request has been investigated and although a fine location was found for the installation of such a facility which would cost about $1,750 it has not been the practice to construct boat landings in wayside parking areas. He expressed the thought that if such construction was undertaken at this location, it would set a precedent, and there would be many additional demands for similar installations in other places. He, therefore recommended that the request be denied. The Commission accepted the recommendation.

Consideration was given by the Commission to 1954 and 1955 County Road Federal Aid Secondary projects selected by Lane, Tillamook, and Umatilla counties. The Engineer reported that as of October 29, 1953, there remained an unprogrammed balance of $692,000 for distribution among eight counties. Three of these counties, he said, have now selected projects as follows, totaling $320,000, and he recommended that they be approved which will leave an unprogrammed balance of $372,000.

County	FAS No.	Section and Description	Amount
Tillamook	615	Nehalem River-Foley Creek Section, 1 mile Grading and structures.	$ 50,000
Umatilla	473	Mission Junction-Cayuse Section, 4.5 miles Grade, surface, and oil	$106,000
Lane	228	Markola-Mohawk Section, 7 miles Regrade, surface, and oil.	$164,000
TOTAL			$320,000

UNPROGRAMMED BALANCE

Curry	$ 28,000	
Douglas	20,000	
Jefferson	69,000	
Lincoln	63,000	
Multnomah	192,000	$372,000

The Commission unanimously approved the projects as recommended.

A request from Multnomah County for an exchange of county roads in its Federal Aid Secondary County Road System was discussed. The Engineer explained that at the present time Multnomah County FAS 638, which is the Glisan Street route, extends easterly to a connection with the road leading south from Troutdale. The easterly 2½-mile section of this route, he said, has never been constructed and does not appear now to be warranted so the county wishes to eliminate it from the FAS system and substitute therefor a 3½-mile section which, when constructed, will extend from a point immediately east of Gresham northwesterly to a connection with Burnside Street, Portland. The county, he added, proposes to use 1954 FAS Funds to finance construction of the 3½-mile section if the addition is approved. On the Engineer's favorable recommendation, the Commission approved the exchange and so ordered.

The Commission considered a request submitted by J. W. Barney, City Engineer of Hillsboro, for construction of guard rail along a 1¼-mile section of the Hillsboro-Silverton Secondary Highway, known as the Jackson Bottom Fill, immediately south of Hillsboro. The Engineer stated that the request has been investigated by both the Traffic Engineering and Maintenance Divisions, and that the record of accidents on the section does not warrant the installation of guard-rail, which, he stated, would cost approximately $30,000 to install; however, he recommended in lieu thereof installation of metal reflectorized sight-posts at 100-foot centers on both sides of the roadway at an estimated cost of $400. The Commission approved the recommendation.

In discussingthe matter of reflectorized sight-posts, Chairman Chandler inquired if these posts are now being placed as standard practice in the process of construction. The Engineer replied that on contracts now being awarded, provision is made for installation of these posts as a part of the contract and that posts are being installed along old highway sections as rapidly as the work can be done.

A request from Mr. Vernon Thorpe, Public Works Director of Medford, for installation of a traffic signal on Central Avenue (US 99) and Fourth Street in Medford was considered. The Engineer reported that a traffic investigation disclosed that the signal is warranted by national standards. He recommended that a fixed-time traffic signal be installed at an estimated cost of $3,000, the cost to be shared equally by the city and the state, and the city to furnish electrical energy and to maintain the signal. The Commission approved the recommendation.

The Commission also considered a request submitted by Robert A. Finlayson, City Manager of Eugene, for traffic signal installations at 6th Avenue and Oak Street and at 7th Avenue and Oak Street on the Pacific Highway in Eugene. The Engineer stated that an investigation discloses that conditions at the two intersections warrant installation of traffic signals and he, therefore, recommended that signals be installed at both intersections which he estimated will cost about $6,000 with the signals to be interconnedted with the existing signal system, it being understood that the cost is to be borne equally by the city and the state with the city to provide the necessary electrical energy and maintain the signals after installation. The Commission approved the recommendation.

A request from Pomona Grange No. 1, Oregon City, that a bridge be constructed across the Willamette River between Oswego and Oak Grove was discussed. The Engineer advised that, based on an investigation made sometime ago, a bridge at this location will probably cost about $1,500,000 for a two-lane and $2,500,000 for a four-lane structure. As the bridge would not be on a state highway, either primary or secondary, he recommended that the request be denied. The Commission accepted the recommendation.

Consideration was given by the Commission to a letter from Eugene K. Peterson, District Forester, U. S. Bureau of Land Management, concerning construction of a $\frac{1}{2}$-mile section of the Little Butte Creek Secondary Highway easterly from McAllister Springs in Jackson County. Action on the matter was deferred until the next meeting as it appears that the plans for the project are to be revised to provide for a cheaper type of construction than was originally contemplated.

The Engineer requested authority to spend about $65,800 for placing crushed rock surfacing on an $8\frac{1}{2}$-mile section of the Coos River Secondary Highway between the end of recent construction near the old ferry landing, and a point one mile above Allegany. He explained that maintenance forces have been experiencing considerable difficulty in maintaining this section due to lack of sufficient surfacing to withstand heavy loads. He recommended the placing of approximately 18,000 cubic yards of material at a cost of $65,800, the funds to be taken from the reserve carried in the Special Maintenance Budget and transferred to the State Construction Budget, and that authority also be given to treat this section with calcium chloride. The Commission approved the project.

The Engineer reported that the amounts distributable to various cities and towns out of the 10 percent of highway revenues accruing to them have been determined for the last half of the year 1953 and that the amounts have been apportioned to each city according to law. He recommended that the Commission approve the apportionment. The Commission accepted the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission gave attention to a request from Rex W. Wakefield, Supervisor of the Siuslaw National Forest, that the truck-hauling of logs over an approximate 1-mile section of the Alsea-Deadwood Highway near Paris in Lane County be per-

mitted by the Commission. The Engineer stated that the Forest Service, in cooperation with Lane County and timber operators, has constructed or has under construction an adequate log hauling road which roughly parallels the Alsea-Deadwood Secondary Highway to the south and joins it at the north at M. P. 18.45 near the community of Paris. The section of state highway between M. P. 18.45 and 19.47 to the north, he said, acts as a link in the highway which has been extended northerly to the Alsea River. He pointed out that the Forest Service road from the Siuslaw Highway north to Paris will be much superior to the parallel state secondary highway and that log and truck traffic will use it, thereby decreasing maintenance costs on the state highway. He recommended an expenditure of $20,000 for improvements to the 1.02-mile section near Paris, the cost to be charged to the reserve construction fund, the work to be performed by contract. The Commission accepted the recommendation.

The Engineer reported completion of surveys for realignment of the following sections of highways as previously authorized. He recommended that these surveys be adopted by the Commission as the routes to be used when reconstruction of the several highway sections is undertaken:

1. Sage Hen Hill-Hines Section of the Central Oregon Highway in Harney County.

2. Eagle Rock-Post Section of the Paulina Secondary Highway in Crook County.

3. Little Creek-Estacada Section of the Woodburn-Estacada Secondary Highway in Clackamas County.

4. Jasper-Pleasant Hill Section of the Springfield-Creswell Secondary Highway in Lane County.

5. Clackamas Overcrossing Section of the Clackamas Secondary Highway in Clackamas County.

The Commission approved the surveys by adopting the attached resolutions relative thereto marked EXHIBITS "N-1" and "N-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Channelization of the intersection of US 730 with the approach road to the new Umatilla River Bridge at Umatilla was discussed by the Commission. The Engineer reported that Mr. G. M. Sharp, who owns a motor court at this location, has protested construction of a center island through the intersection because it prohibits westbound traffic from turning into the westerly approach to his motel. It has been necessary, he stated, to provide a channelized intersection at the approach to the bridge in order to provide a left-turn refuge for traffic turning left off the highway but westbound traffic can turn directly into the motel from the county road where the left-turn refuge is provided. He pointed out that it is necessary for safety reasons to construct the island in the manner planned, and he recommended against any change in the plan as now pre-

pared. The Commission accepted the Engineer's recommendation and instructed him to have someone contact Mr. Sharp and explain to him the reason why it is necessary to deny his request.

Attention was given to a request submitted by Mr. Jim MacLean of the McMinnville Daily News Register, for investigation of traffic hazards at the junction of Three Mile Lane and Lafayette State Secondary Highways. The Engineer reported that an investigation disclosed that the intersection has a very bad accident record, there having been three major accidents resulting in four deaths and eighteen injuries during 1953. All three accidents, he stated, were caused by cars entering the intersection from the Lafayette Highway without stopping, failing to heed the stop sign. He recommended as a corrective measure, installation of a flashing beacon at an estimated cost of $350. The Commission approved the recommendation.

The Commission considered and by unanimous vote granted the following request for extensions of time within which to complete state highway contracts, all being in accordance with the Engineer's recommendations:

1. Acme Construction Company, Contract No. 3926 for bridge, grading, and paving the Molalla Junction-Marquam Section of Cascade Highway in Clackamas County, requested an extension of time from November 30, 1953 to July 15, 1954 within which to complete this job. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

2. R. H. Sussex, Contract No. 3843 for rock production on Nye Junction-Beech Creek Section of Pendleton-John Day Highway in Umatilla and Grant Counties, requested an extension of time from October 30, 1953 to January 1, 1954 within which to complete this work. The Engineer recommended that the extension of time be granted with the provision that engineering penalty be assessed from August 31, 1953 to the actual completion date of the contract.

3. Loree Building Service, Contract No. 3886 for construction of the Richland Maintenance Building in Baker County, requested an extension of time from September 30, 1953 to November 30, 1953 within which to finish this job. The Engineer recommended that the extension of time as requested be granted without penalty.

4. Tom Lillebo, Contract No. 3509 for construction of Dodge Bridge on Sams Valley Secondary Highway in Jackson County, requested an extension of time from December 31, 1952 to August 31, 1953 within which to complete this project. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

5. Erick Enquist, Contract No. 3813 for construction of the 122d Avenue viaduct on T. H. Banfield Expressway in Multnomah County, requested an extension of time from November 30, 1953 to January 1, 1954

within which to complete this contract. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

6. R. H. Jones, Contract No. 3885 for construction of the Heppner Junction Overcrossing on the Columbia River Highway in Gilliam County, requested an extension of time from September 30, 1953 to March 1, 1954 within which to complete this project. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

7. La Grande Concrete Pipe Company, Contract No. 3978 for grading and paving Dearborn Avenue in the town of Union, Union County, requested an extension of time from November 30, 1953 to December 4, 1953 within which to finish this work. The Engineer recommended that the extension of time as requested be granted without penalty.

8. R. A. Heintz Construction Company, Contract No. 3648 for grading and structures on Boones Ferry Road-Willamette River Unit of Barbur Boulevard-White School Section of West Portland-Hubbard Highway in Washington and Clackamas Counties, requested an extension of time from November 30, 1953 to February 28, 1954 within which to complete this project. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

9. McNutt Brothers, Contract No. 3741 for bridges, grading and paving on the Newport-Toledo Section of the Corvallis-Newport Highway in Lincoln County, requested an extension of time from November 30, 1953 to December 4, 1953 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

10. J. F. Johnston, Contract No. 3808 for construction of Beaverton-Aurora Road Undercrossing on West Portland-Hubbard Highway in Clackamas County, requested an extension of time from December 31, 1953 to May 30 1954 within which to complete this contract. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

11. C. J. Eldon, Contract No. 3932 for construction of Mill Creek Bridge on Alsea Highway in Benton County, requested an extension of time from November 30, 1953 to December 31, 1953 within which to finish this project. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

12. H. J. and H. W. Miller, Contract No. 3747 for grading and paving Lostine River Bridge on Wallowa Lake Highway in Wallowa County, requested an extension of time from June 30, 1953 to December 14, 1953 within which to complete this work. The Engineer recommended that the extension of time as

requested be granted without penalty.

13. Inter-City Sand & Gravel Company, Contract No. 3839 for grading and paving the Springfield Section of McKenzie Highway in Lane County, requested an additional extension of time from November 30, 1953 to June 15, 1954 within which to complete this contract. The Engineer recommended that the extension of time be granted with the provision that engineering penalty be assessed from August 31, 1953 to the actual date the contract is completed. A letter was presented from the Bureau of Public Roads concurring in the Engineer's recommendation.

14. Donald M. Drake Company, Contract No. 3871 for the 102d Avenue Overcrossing Reconstruction on the T. H. Banfield Expressway in Multnomah County, requested an extension of time from December 31, 1953 to June 29, 1954 within which to finish work on this contract. The Engineer recommended that the extension of time as requested be granted without penalty. The Bureau of Public Roads submitted a letter concurring therein.

15. R. H. Jones, Contract No. 4000 for construction of the Sisters Maintenance Building in Deschutes County, requested an extension of time from November 30, 1953 to December 31, 1953 within which to complete this contract. The Engineer recommended that the extension of time as requested be granted without penalty.

16. Birkemeier & Saremal, Contract No. 3998 for construction of bridge, retaining walls and paving the Kellogg Creek Bridge Section of Milwaukie-Gladstone County Road in Clackamas County, requested an extension of time from December 31, 1953 to June 1, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

17. Birkemeier & Saremal, Contract No. 3859 for construction of the Boeckman Road Grade Separation structure on the Portland-Salem Expressway in Clackamas County, requested an extension of time from December 31, 1953 to April 1, 1954 within which to complete the contract. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

18. R. E. Meade and Company, Contract No. 3831 for construction of the Anlauf-Elkhead Road Unit Structures on the Pacific Highway Douglas County, requested an extension of time from October 31, 1953 to December 2, 1953 within which to complete the work on this contract. The Engineer recommended that the extension of time as requested be granted without penalty to the contractor. A letter was presented to the Bureau of Public Roads concurring therein.

(For further details regarding the extensions of time listed above, see copies of the Contractors' requests and the Engineer's recommendations to the Commission on file in the respective contracts in the Secretary's Office.) *

*FOOTNOTE: The action taken by the State Highway Commission upon the extensions

of time within which to complete highway contracts listed above was based upon the recommendations of the State Highway Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Engineer reported that Contract Nos. 3462, 3747, 3778, 3806, 3813, 3831, 3832, 3843, 3858, 3886, 3932, 3948, 3973, 3974, 3978, 3982, 3999, 4000, 4011, and 4038 for construction of state highway projects have been completed according to the requirements of the respective contracts or modifications thereof, and that said projects are now ready for acceptance. After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission gave attention to a request submitted by the Mt. Vernon School Parent-Teachers Association of Springfield, Oregon, for construction of a footpath along the Springfield-Creswell Secondary Highway southerly from its junction with the McKenzie Highway to the Mt. Vernon School, a distance of approximately one-half mile. The Engineer stated that the request has been investigated as to traffic, pedestrians, accidents, roadside culture and other features. He further stated that the right of way along this section is only 40 feet wide so if the Commission authorizes the project, it will be necessary to place the footpath outside the limits of the existing forty-foot right of way. He estimated the cost of construction at $3,300, exclusive of additional right of way which he estimated would cost about $2,500. It was his recommendation that a footpath be constructed from the McKenzie Highway to the Mt. Vernon School provided the abutting property owners will donate a ten-foot right of way easement on which to place it. The Commission approved the recommendation.

Attention was given by the Commission to a request from C. Walton Lerue, President of the Pinehurst Improvement Association of Beaverton, for installation of a street light at the intersection of the Beaverton-Hillsdale Highway and Jamieson Road just east of Beaverton. The Engineer reported that subsequent to receipt of the request, an investigation was made concerning traffic, accidents, and other features, the result of which indicated that installation of the light is not justified. He pointed out there are many other intersections on the highway system with a higher priority of need, and he recommended that the request be denied, although he gave as his feeling that if local interests wish to provide illumination at their own expense, they should be allowed to do so under terms of a permit and subject to specifications prescribed by the State Highway Department. The Commission accepted the recommendation.

Designation of a portion of Northeast Lombard Street in Portland as a state secondary highway was considered. The Engineer reported that since September, 1937, the State has maintained Northeast Lombard Street from Northeast Union Avenue westerly to the east end of the St. Johns Bridge and that during this time the route has been designated as a by-pass route for US 30 and the State has taken care of all traffic striping, signing, et cetera along the route. He stated

that he did not know why the section had never been placed on the state secondary highway system, but he gave as his thought that it should be so designated, and he so recommended. The Commission approved the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission gave its attention to a request from Tillamook County to place on the Federal Aid Secondary County Road System a $4\frac{1}{2}$-mile section of county road extending northerly from Oceanside to Cape Meares. The Engineer reported that the County made this request several months ago; and after consideration by the Bureau of Public Roads, the Bureau indicated that the $4\frac{1}{2}$-mile section should not be placed on the Federal Aid System unless an additional section was added to make a complete loop. The additional section, as referred to by the Bureau, he said, extends southeasterly from the north end of the section requested by the County at Cape Meares to a connection with FAS Highway 616, a short distance west of the city of Tillamook, thus completing the loop. The two sections plus the existing FAS route give access to a desirable recreational area as well as serving mail and milk routes and the school bus. He recommended that the $4\frac{1}{2}$-mile section as requested by the County and the additional 5.7-mile section as proposed by the Bureau of Public Roads be added to Tillamook County's Federal Aid Secondary County Road System. The Commission accepted the recommendation.

Consideration was given by the Commission to a number of requests for reduced speed zones on various sections of highways. The Engineer reported that in each instance the request has been investigated and that the recommended action in each case is based on the results of the investigation which took into consideration the vehicular traffic, speed, pedestrian traffic, roadside culture, width, and other characteristics. The Commission approved the Engineer's recommendations, as follows, by adopting the attached resolutions relative thereto, marked EXHIBITS "G-1" through "G-3", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

1. Request of John H. Axmaker for a reduced speed zone through the community of Colton on the Woodburn-Estacada Secondary Highway: The Engineer recommended that a 35-mile per hour speed zone be established between a point 1,000 feet west of Wall Street (M. P. 21.05) and a point 1,250 feet east of Wall Street (M. P. 21.50) except that between M. P. 21.19 and M. P. 21.31 the indicated speed shall be 20 miles per hour during the hours of school crossings as provided by law. (See Exhibit "G-1")

2. Proposed reduced speed zone in the community of Crescent on The Dalles-California Highway: The Engineer recommended establishment of a 35-mile per hour speed zone from a point 0.10 mile north at the north end of the concrete curbs, M. P. 188.83, to the south end of the concrete curbs, M. P. 189.32. He also recommended the establishment of a 45-mile per hour speed zone from the south end of the concrete curbs to a point 0.07 mile south of the "97" Motel, M. P. 189.86. (See Exhibit "G-2")

3. Proposed reduced speed zone adjacent to the town of Chemult on The Dalles-California Highway: The Engineer recommended establishment of a

40-mile per hour speed zone between a point 0.18 mile south of the Chemult Civic Club, M. P. 207.05, and the Singing Pines Motel, at M. P. 207.74. (See Exhibit "G-3")

To take care of a school zone which lies within the limits of a reduced speed zone on US 99E north of Salem, designated by the Commission October 29, 1953, the Engineer recommended that the 45-mile per hour zone resolution adopted at that time be rescinded between M. P. 46.11 and M. P. 48.87 and that a substitute resolution be adopted establishing a 45-mile per hour zone on the same highway between M. P. 46.11 and M. P. 48.87, except that between M. P. 47.54, at a point 300 feet north of the Hayesville School, and M. P. 47.66, a point 300 feet south of the Hayesville School, the indicated speed shall be 20 miles per hour during the hours of school crossings as provided by law. The Commission approved the recommendation by adopting the attached resolutions relative thereto, marked EXHIBITS "H-1" and "H-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

To take care of a similar condition on the Oregon Coast Highway at the Bunker Hill School in Coos County, the Engineer recommended that the resolution that was adopted by the Commission on May 18, 1953, establishing a 40-mile per hour speed zone on the Oregon Coast Highway between M. P. 256.70 and M. P. 257.24 be rescinded and that a 40-mile per hour speed zone be re-established on the identical section with the exception that the indicated speed between M. P. 257.00 and M. P. 257.24 shall be 20 miles per hour during the hours of school crossings as provided by law. The Commission approved the recommendation by adopting the attached resolutions relative thereto, marked EXHIBITS "I-1" and "I-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

In this connection, the Engineer stated that the investigation also disclosed that vehicles parked on the west side of the highway just north of the school crossing restricts sight-distance both for southbound motorists and for children crossing the road. He recommended that parking be prohibited on the west side of the Oregon Coast Highway between Engineer's Station 61+00 and Engineer's Station 63+00. The Commission approved the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "J-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Request for a reduced speed zone on the Mt. Hood Highway in the communities of Wemme and Wildwood: On the basis of facts disclosed by an investigation, the Engineer recommended that the request be denied. The Commission adopted the recommendation.

Establishment of a reduced speed zone on The Dalles-California Highway in the community of Lapine: The Engineer recommended that a 40-mile per hour speed zone be established between M. P. 171.44 and M. P. 172.02. The Commission approved the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "G-4", which resolution by this reference

is made a part hereof with like effect as though extended in full herein.

The granting of an easement to the United States of America, Corps of Engineers, covering right of way needed for railroad construction at the Pleasant Hill Railroad grade separation on the Willamette Highway in Lane County was considered by the Commission. The Engineer explained that in construction of a dam across the Willamette River, it was necessary to relocate the facilities of the Southern Pacific railroad which involved a crossing under the Willamette Highway approximately three miles east of the community of Pleasant Hill. A form of easement covering the crossing was prepared and has been approved by the Army Engineers and the Southern Pacific Company which will be the ultimate beneficiary which easement provides for payment of $25 to the State by the U. S. Government. He recommended that it be approved. The Commission accepted the recommendation.

The Commission discussed briefly the complaint registered by Mr. Claude Miller against State Highway employees which was discussed at the previous meeting. The Secretary was instructed to inform Mr. Miller that the Commission cares not to enter into his controversy with the Kissingers; moreover, the Commission is of the opinion that Messrs. Bromley and Poole, Highway Department employees are not guilty of committing any acts inimical to the best interests of the State of Oregon.

The Engineer brought up for discussion the matter of changing the stop signs for traffic on the Silver Creek Falls Highway at its intersection with Lancaster Drive in the community of Four Corners east of Salem. He explained that on September 21, 1949, a resolution had been enacted covering through stop highways, and at the intersection of State Street extended and Lancaster Drive east of Salem on the Silver Creek Falls Highway, the west and south legs of the intersection form the Silver Creek Falls Highway and are now assigned right of way over other traffic at this place. A recent investigation, he said, reveals that it would be advisable to stop northbound traffic on the highway before it makes a left turn to the west onto State Street, and to stop eastbound traffic on the highway before it enters the intersection, except that the right turn movements to the south could move at all times without stopping. He recommended that the resolution adopted September 29, 1949, be amended as outlined. The Commission approved the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "K", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer called attention to the use of highway right of way on the Tualatin Valley Highway just south of the city limits of Forest Grove for parking purposes. An investigation by the Traffic Engineer, he stated, disclosed that a hazardous condition is created by such parking adjacent to a sawmill, also that the lumber company has used the right of way at times for storage of lumber. He said that necessary steps will be taken to end the practice of storing lumber on the right of way, and he recommended appropriate action by the Commission to prohibit vehicular parking on highway shoulders on that section of the Tualatin Valley Highway which extends from the south city limits of Forest Grove, M. P. 19.68 (Engineer's Station 0+00) to Gales Creek, M. P. 19.90 (Engineer's Station 11+56). The Commission approved the recommendation by adoption of the attached resolution relative thereto, marked EXHIBIT "J-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Upon the Engineer's favorable recommendation, the Commission approved payment of 1954 membership dues in the American Association of State Highway Officials, amounting to $1,013, in the Western Association of State Highway Officials, $50, and in the American Road Builders Association, $7.50.

Renewal of the Highway Department's public employees blanket fidelity bond for a three-year period commencing February 8, 1954, was discussed by the Commission. The Secretary explained that the present bond was written by the General Casualty Company of America and that a letter had been received from Mr. H. R. Drinker, representing the Ohio Casualty Company, stating that his company would like to be considered when the bond is renewed. Renewal of the bond, he added, had been discussed with Mr. Harry Dorman, head of the State Department of Finance and Administration, who had stated that it would be satisfactory to renew it with the same company, but who suggested a change in the agent in order to distribute the business. The Commission approved renewal of the bond on such basis and referred the matter to Commissioner Reynolds with full authority to act for the Commission in the matter of choice of agents.

The Commission also considered renewal of the bond covering reappointment of Mr. R. H. Baldock as State Highway Engineer, in the sum of $350.000, effective March 1, 1954. The Commission approved renewal of this bond with the same companies; however, they referred the matter to Commissioner Reynolds for handling details.

The Engineer reported that construction has been completed on three sections of new highway and traffic had been routed over these sections; further that previous agreements entered into with the several county courts involved provide that when the new sections are completed and are being used by the traveling public, certain portions of the old routes will be conveyed to the counties. In conformity therewith, he recommended abandonment of old highway sections as follows:

1. A portion of the Bay City-Kilchis River Section of the Oregon Coast Highway in Tillamook County.

2. A portion of the Reedsport-Winchester Bay Section of the Oregon Coast Highway in Douglas County.

3. A portion of the Rock Point-Blackwell Hill Section of the Pacific Highway in Jackson County.

4. Portions of the Fern Corner-Burns Corner Section of the Kings Valley Secondary Highway in Polk County.

The Commission accepted the recommendation by adopting the attached resolutions relative thereto marked EXHIBITS "L-1" through "L-4", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission authorized out-of-state travel expense for the following:

1. R. H. Baldock, State Highway Engineer to go to Washington, D. C. in February, 1954, in connection with congressional hearings on highway legislation--estimated cost $350.

2. R. H. Baldock, Forrest Cooper and Mark Astrup to attend Seventh Annual Northwest Conference on roadbuilding in Seattle, February 17, 18, and 19, 1954--estimated total cost $225.

3. R. B. Sipprell, Director of Permits, to attend annual Sierra-Cascade Logging Conference in Redding, California, February 18, 19, and 20, 1954--estimated cost $69.

4. Ralph Wyckoff, Attorney, to go to Seattle, February 1, 2, and 3, 1954, in connection with the case of State vs Yaquina Bay Dock and Dredge Company, estimated cost $52.50.

A form of supplemental agreement with Lane County covering a county road closure in connection with construction of the Goshen-Coast Fork-Willamette River Unit of the Pacific Highway in Lane County was considered. The Engineer reported that in the agreement previously entered into with the County on October 30, 1953, one road had been omitted and that this supplemental agreement is simply to correct the omission. He recommended that it be approved. The Commission accepted the recommendation.

The Engineer presented a request from the Mt. Hood Railroad Company for an encroachment of its facilities on highway property adjacent to the Hood River Secondary Highway in Hood River County. The Engineer stated that the Railroad Company wishes to replace a high trestle with a fill on improved railroad alignment which will require additional ground. The proposed encroachment, he stated, will not impair in any manner use of the highway right of way, and he recommended that the encroachment be granted. The Commission approved the recommendation and ordered the matter covered by an appropriate encroachment agreement.

The Commission gave attention to a petition from residents of Lapine requesting removal of a traffic divider installation at the junction of US 97 and Oregon 31 (Fremont Highway) south of Lapine. The Engineer stated that there is a heavy left-turn movement of southbound traffic from US 97 onto the Fremont Highway, and as a safety measure a left-turn refuge was provided at the intersection when the highway was reconstructed last year. Removal of the divider, he stated, would nullify the safety factor of the left-turn refuge, and he recommended that the request be denied. The Commission accepted the recommendation.

The Commission considered and upon the Engineer's favorable recommendation approved a service contract and agreement with the California-Pacific Utilities Company covering construction of a power line extension approximately 400 feet long, to supply electric energy for the platform truck scale installation at the junction of US 20 and US 395 north of Burns. Payment for the electricity consumed

is to be according to rate schedules approved by the Public Utilities Commissioner, with a guaranteed minimum payment of $6.43 per month, for a five-year period.

Participation in sponsoring the Seventh Annual Northwest Traffic Engineering Conference to be held at Oregon State College on May 13 and 14, 1954, was discussed by the Commission. The Engineer advised that the conference alternates between Oregon State College and the University of Washington; also that in past years, when the conference was held in Oregon, sponsors have been the State Highway Department, the State College, and the League of Oregon Cities. The Highway Department's participation, he said, is confined to making personnel available to arrange the conference program and to prepare proceedings. He recommended and the Commission approved participation by the Oregon State Highway Department as in former years.

Attention was given to a proposed form of service agreement with Pacific Telephone and Telegraph Company providing for private line telephone service connecting the Maintenance Superintendent's office in Grants Pass with the State Police office located just south of Rogue River, at the junction of US 99 and US 199. The Engineer advised that the agreement contains provision for termination of the agreement by the filing of written notice by either party and that it also provides for a monthly charge of $5 for service rendered He favorably recommended and the Commission approved the agreement as prepared. The Secretary was authorized to sign the agreement for the Commission.

The Commission approved a list of papers signed by the Secretary in behalf of the Commission during the period from December 9, 1953 to January 18, 1954.

The Commission discussed a date for its next meeting and decided to hold such meeting on Wednesday and Thursday, February 24 and 25, 1954 in Portland. The Secretary was instructed to arrange for the use of the Green Room in the Imperial Hotel.

A three-months extension of an agreement with the State Board of Higher Education concerning experiments in the design of fish ladders in box culverts was brought up for discussion by the Engineer who recalled that an agreement previously had been entered into on November 25, 1952, with the hope of developing a suitable design for fish ladders in culvert bottoms so as to provide adequate passage for fish. The proposed extension, he stated, merely provides for additional time within which to conclude the experiments and does not entail expenditure of additional funds. He recommended approval of the agreement. The Commission accepted his recommendation.

The Commission gave attention to a request submitted by W. S. Nelson, Manager of The Dalles Chamber of Commerce, that the Wink auction yards at The Dalles be made available for the annual 4H-FFA Fat Stock Show and Sale during the early part of June, 1954. The Secretary was instructed to inform Mr. Nelson that the Commission has no objections whatsoever to use of the property for the purpose intended.

The following matters of unfinished business were considered by the Commission:

1. Recommendation of Westmost Grange that properties of Jess Strader and Ed Divilbiss be acquired for state park purposes at Bandon Beach: The Parks Superintendent and the Right of Way Engineer each reported on this matter earlier in the day. The Commission ordered the item deleted from the list of unfinished business.

2. Request for placing Clear Lake-Belknap Springs Forest Road on State Highway System: The Engineer submitted a report on the subject at the morning session so the Commission ordered the item removed from the list of unfinished business.

3. Status of Starkey Secondary Highway: The Engineer stated that he would request the City and County Relations Engineer to contact the Union and Umatilla County authorities as soon as possible. This item is to remain as unfinished business.

4. Damage to water system owned by Vera Reddenbaugh south of Humbug Mountain Park on the Oregon Coast Highway: A report on this matter was rendered earlier in the day, so the item was ordered removed from the list of unfinished business.

5. Request to continue ferry, "M. R. Chessman", in service through the winter months: The Engineer's report was considered earlier in the day, so this item was ordered removed from the list of unfinished business.

6. Request of The California-Oregon Power Company employees that East Diamond Lake Secondary Highway be kept open during the winter months: This item also was ordered removed from the list inasmuch as the Engineer submitted a report on the subject earlier in the day.

7. Request of City of Vale for designation of one-way couplet for Central Oregon Highway traffic through this city: The Commission ordered this item removed from the list of unfinished business since the Engineer's report had been submitted earlier in the day.

8. Turn-off from newly constructed Columbia River Highway to reach the business district of the City of Hood River: This item was ordered removed from the list of unfinished business because the Engineer reported on the matter earlier in the day.

9. Hauling of logs during hours of darkness: The Engineer previously submitted a report on this matter, hence the item was ordered removed from the list of unfinished business.

10. Agreement with Washington authorities regarding construction of a new bridge across the Columbia at Portland: This item also was ordered removed from the list of unfinished business because a report by the Engin-

eer had been rendered earlier in the day.

A letter from Mr. Charles F. Doane, Gold Beach, suggesting purchase of additional right of way for a boat launching site at the south end of Patterson Bridge over the Rogue River at Gold Beach was discussed. The Engineer recommended that the request be denied because in his estimation development of the area cannot be justified as a proper expenditure of state gas tax funds at this time. The Commission accepted the recommendation.

The Engineer reported that the following cities and towns have satisfied legal requirements with respect to expenditure of State Tax Street Funds accrued to them during 1952 and 1953, and that the plans for the projects proposed to be financed with such funds have been examined and found satisfactory. He recommended approval of the plans of the following:

First six-month period of 1952

Port Orford	$2,115.93
Umatilla	2,772.06

Second six-month period of 1952

Aumsville	$ 760.59
Elkton	544.05

First six-month period of 1953

Banks	$1,246.56
Donald	619.97
Elkton	666.38
Scio	1,485.26

Second six-month period of 1953

Aumsville	$ 811.52
Banks	1,085.88
Canyon City	1,467.10
Cascade Locks	2,116.89
Cave Junction	817.30
Chiloquin	1,929.17
Coburg	2,001.37
Columbia City	1,169.63
Cove	814.41
Dayton	2,076.46
Dayville	825.96
Detroit	791.31
Donald	540.05
Dufur	1,218.73
Dundee	889.50
Echo	1,319.81
Elkton	540.48
Estacada	2,743.58

Fairview	$1,264.94
Fossil	1,862.75
Gaston	1,062.78
Glendale	2,515.43
Halsey	1,120.54
Hammond	1,507.53
Huntington	2,116.89
Idanha	1,267.49
Imbler	430.31
Ione	756.65
Jefferson	1,836.76
Jordan Valley	681.56
Lafayette	1,911.85
Moro	1,036.79
Mt. Vernon	1,302.48
North Powder	1,163.86
Oakland	2,394.14
Phoenix	2,154.44
Port Orford	1,946.50
Richland	635.36
Rogue River	1,703.91
Scappoose	1,903.18
Scio	1,293.82
Shaniko	176.17
Sodaville	453.41
St. Paul	652.68
Sublimity	1,059.89
Summerville	210.82
Tualatin	716.22
Umatilla	2,550.09
Wasco	880.83

The Commission accepted the Engineer's recommendation by adopting the attached resolutions relative thereto marked EXHIBITS "B-1" through "B-4", inclusive, which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Channelization and illumination of a forest road intersection with the Columbia River Highway in the City of Cascade Locks was discussed. The Engineer exhibited a map and explained details. He said that it originally was planned to install a left-turn refuge on US 30, but the City refused to adopt necessary ordinances so in lieu of a left-turn refuge, it was decided to install a traffic divider with illuminated nosings and mercury vapor lights, which are estimated to cost $1,800. He recommended approval of the project as a safety measure. The Commission approved the recommendation.

Consideration was given by the Commission to a request submitted by the Umatilla County Court that the Havana-Helix Secondary Highway be extended southerly from the community of Havana to a connection with the revised location of the Oregon-Washington Highway. The Engineer recommended that the section which is about one-half mile long be placed on the state secondary system

as requested without any commitment as to when it will be improved. The Commission accepted the recommendation and so ordered.

The Commission discussed with the Engineer the various problems to be presented by delegations on the following day but deferred action pending their appearance.

Commissioner Reynolds reported an inquiry from County Judge Dean B. Erwin of Wallowa County concerning guardrail construction on the Snow Hollow Hill Section of the Enterprise-Lewiston Highway. The Engineer stated that such section is a Forest Highway section and that the Forest Highway officials say that the rail in not justified. The Engineer was instructed to investigate the matter and report as to cost and need at a later date.

Commissioner Reynolds also brought up the matter of maintaining a section of county road about $1\frac{1}{4}$ miles in length between Wallowa Lake Lodge and the falls in the Wallowa River. He said that the County Judge wants time at the next meeting of the Commission to discuss the matter. The Engineer recalled that the Commission on a previous occasion refused to assume jurisdiction of the road. The Secretary was instructed to write Judge Erwin and assign him time to present his case.

Commissioner Reynolds gave as his understanding that the Commission, about two years ago, authorized performance of some minor betterment work on two sharp curves on the Old Oregon Trail near the hospital in La Grande, but it appears nothing has been done. The Engineer was instructed to conduct a survey to determine type of improvement necessary and the cost thereof.

The matter of developing viewpoints along the Weston-Elgin Secondary Highway near Toll Gate Summit was brought up for discussion by Commissioner Reynolds. The Engineer was instructed to investigate the possibilities of developing such viewpoints and report the findings.

Commissioner Reynolds reported that County Judge Barratt of Morrow County would like to see the State construct and place on the state highway system the Paterson Ferry County Road which extends northerly from the Columbia River Highway to the ferry landing on the Columbia River in Morrow County and has asked the privilege of discussing the subject with the Commission on the following day. The Commission assigned Judge Barratt fifteen minutes of time, starting at 10:15 a.m. on January 22 to present his case. (See ahead for additional entry.)

The Engineer presented for the Commission's consideration a tentative proposal from Multnomah County for construction of a ramp at the east end of the Ross Island Bridge to permit southbound traffic from the bridge to turn directly onto McLoughlin Boulevard, thus eliminating the present circuitous movement. He pointed out that an item of $400,000 of Federal Aid money has been included in the five-year program for construction of such a ramp in 1956-57, but because of existing congestion on the bridge, the County feels that the ramp should be constructed immediately and has unofficially agreed to contribute half the costs involved if the job is done this year. The cost of the ramp

construction he estimated at $375,000 to be paid $187,500 by the State and a like sum by the County. He recommended approval of the project for construction as soon as plans can be prepared if the County will definitely contribute half the estimated cost, the State's contribution to be taken from unprogrammed balances. The Commission deferred action in the matter pending discussion with members of the Board of County Commissioners at 10:30 a.m. on the following day.

The Commission discussed with the Engineer the bids received during the morning session for highway construction, and at 4:00 p.m. Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows, the Commission's decisions being by unanimous vote:

"Black Bridge-Carson Rock Production Project on four state highways near Richland, Halfway, and Carson in Baker County: The Commission awarded the contract to N. A Toole Construction Company, Ontario, who submitted the low unqualified bid of $35,280.00.

"Indian Creek-Salisbury Rock Production Project on the Baker-Unity Highway in Baker County: H. J. and H. W. Miller, Baker, the low bidder, was awarded the contract at their bid price of $21,960.00.

"Construction of climbing lanes on Astoria Airport Section of the Oregon Coast Highway in Clatsop County: The low bidder, Grimstad & Vanderveldt, Astoria, was awarded the contract at their bid price of $21,865.00.

"Pavement widening of Treharne-Washington County Line Section of the Nehalem Secondary Highway in Columbia County: The Commission awarded the contract to Acme Construction Company, Eugene, the low bidder, at their bid price of $81,814.00.

"Grading, paving, and furnishing crushed rock in stockpiles on Frankport-Greggs Creek Unit, Brush Creek-Greggs Creek Section of the Oregon Coast Highway in Curry County: The Commission elects to accept the bid of Fred H. Slate Co., Oregon Ltd., and E. C. Hall Company in the sum of $779,525.50, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of Blackwell Hill-Seven Oaks Unit Structures on Pacific Highway south of Gold Hill, Jackson County: Bessonette and Graff, Medford, the low bidder, has been awarded the contract at their bid price of $56,908.50.

"Construction of a reinforced concrete deck girder structure on the Pacific Highway over the Southern Pacific Company tracks in North Eugene in Lane County: The Commission elects to accept the bid of Tom Lillebo in the sum of $62,750, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Goshen-Lowell Rock Production Project on the Willamette Highway in Lane County: Vernie Jarl, Gresham, the low bidder, was awarded the contract at his bid price of $23,700.00.

"Division No. 2 Reoiling Project on the Oregon Coast, Monmouth and Three Rivers

Highways near Waldport, Monmouth, and Dolph in Lincoln, Polk, and Yamhill Counties: The Commission awarded the contract to the low bidder, Central Paving Company, Independence, at their bid price of $68,384.70.

"Pavement widening and resurfacing the Hamilton Street-Vermont Street (Portland) Section of the Pacific Highway West (Barbur Boulevard) in southwest Portland in Multnomah County: Rogers Construction Company, Portland, the low bidder, was awarded the contract at their bid price of $33,655.00.

"Installation of highway illumination at Bonneville Interchange on the Columbia River Highway in Multnomah County: The contract has been awarded to the low bidder, Walton-Brown Electric Company, Salem, at their bid price of $4,197.00.

"Construction of a concrete bridge over the Tualatin River and grading, surfacing, and paving 0.67 mile of highway roadbed on the Tigard-Newberg Section of the Pacific Highway West in Washington County: The Commission elects to accept the bid of Donald M. Drake Company, in the sum of $233,816.00 using concrete or metal posts, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received."

The Engineer brought to the Commission's attention a letter from Proebstel and Isaminger, Attorneys representing Roy L. Comrie, Pendleton, requesting additional access privileges for property acquired by Mr. Comrie from the Commission in Pendleton under a deed dated October 12, 1951. The Engineer recalled that the property referred to lies along the Old Oregon Trail in the westerly part of Pendleton and that the Commission sold it to Mr. Comrie as the high bidder with certain restrictions incorporated as to access to the highway. It was his thought that the access points outlined at the time of the sale should be maintained, otherwise that it would not be fair to others who bid for the property at the same time. He recommended that the request for additional access be denied. The Commission unanimously approved the recommendation and instructed the Secretary to advise Messrs. Proebstel and Isaminger, by telephone, of the action taken.

The Chief Counsel brought up for discussion matters pertaining to the Fredricks property near the Tualatin River Bridge on the Pacific Highway West, a portion of which is needed as right of way for improvement of this highway. He explained that in negotiations for acquisition of the property, it was agreed that Mr. Fredricks would remove the buildings or the State would cut them off when necessary to accommodate the highway improvement. He recommended, if Mr. Fredericks has not moved the buildings by February 15, that action be started to cut the buildings off as previously agreed. The Commission approved the recommendation.

The Commission signed the following papers:

"Certificate" of appreciation for Mr. and Mrs. Henry L. Corbett in connection with park gift at Blue Lake, Jefferson County.

"Agreement" re approval of "Modification of Judgment and Indenture of Access" with Sunset Hills Memorial Park on Sunset Highway in Washington County.

"Indentures of Access" for changes of access points for the following:

a. Oliver and Nicholas property on Mt. Vernon-John Day Section of John Day Highway, Grant County, File No. 20779

b. Black property on Orr Corner-Monmouth Section of Pacific Highway West, Polk County, File No. 19294

c. Shoemaker property on Siletz Bay-Newport Section of Oregon Coast Highway, Lincoln County, File No. 19405

d. Howard property on Reedsport-Coos County Line Section of Oregon Coast Highway, Douglas County, File No. 17752

"Agreement of Lease" with Ed Stortz providing for cancellation of leasehold rights acquired by State from Mr. and Mrs. John Charge; also granting leasehold rights to Mr. Stortz on tract located on the Gervais Road-Hayesville Unit of Portland-Salem Expressway.

"Agreement" with Mr. Gilbert W. Harris re property acquired in Crook County for use as cinder pit.

"Easement" to U. S. Corps of Engineers to be conveyed later to Southern Pacific Railroad Company covering right of way for railroad construction at Pleasant Hill grade separation on Willamette Highway in Lane County.

"Agreement" covering road closure in connection with construction of Goshen-Coast Fork Willamette River Unit of Goshen-Divide Section of Pacific Highway, Lane County.

"Cooperative Agreement" with Southern Pacific Railroad Company and U. S. Government re construction of a lookout area at Meridian Dam.

"Agreement and Service Contract" with California-Pacific Utilities Company covering proposed power line extension for electric energy for use in operation of platform truck scale at junction of US 20 and US 395 north of Burns.

"Agreement" with Pacific Telephone and Telegraph Company covering one operation channel for speech transmission connecting State Highway radio transmitter in Maintenance Superintendent's Office in Grants Pass with State Police Office located south of Rogue River.

"Finance & Maintenance Agreements" with Curry County covering the Sixes Junction Section.

"Agreement" with Southern Pacific Railroad Company covering the Seven Oaks Overcrossing on the Pacific Highway in Jackson County.

"Supplemental Throughway Agreement" with Douglas County covering certain road closures in connection with the Fairgrounds-Shady Unit of the Pacific Highway in Douglas County.

"Agreement" with Central Lincoln Peoples Utility District re State guarantee to provide service at Honeyman State Park overnight camping area.

"Agreement" extending existing agreement with State Board of Higher Education re research on design of fish ladders in box culverts.

"Agreement" with Multnomah County providing for relocation of county roads with the Sunset Highway at Sylvan.

"Quitclaim Deed" with Earl W. Arnold for parcel of land lying in the Northeast quarter of Section 8, Township 11 South, Range 2 West, W. M., Linn County.

The meeting adjourned at 4:30 p.m. to reconvene the following day in the same room.

Portland, Oregon
January 22, 1954

The meeting of the State Highway Commission reconvened at 9:00 a.m. in the Green Room of the Imperial Hotel with the following persons present and participating:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids for highway construction were opened and read aloud by the Secretary as follows, at the conclusion of which he announced that the award of contracts would be made by the Commission at 4:00 p.m. in the same room:

PACIFIC HIGHWAY WEST IN BENTON COUNTY
MONROE BRIDGE SECTION

Mr. Garnet Barratt, Morrow County Judge, appeared before the Commission concerning an extension of the Paterson Ferry Road southerly from its junction with US 730 to a connection with the Columbia River Highway at a point about 4½ miles east of the town of Boardman. Judge Barrett explained that Morrow County plans to construct a road southerly from such junction with US 30 along the east boundary of the U. S. bombing range, to a connection with State Route 207 northeast of Lexington and needs the connecting road in order to provide a direct route to the ferry which the county plans to keep in operation. He asked the Commission to designate the connecting road as a state secondary highway and to construct the same as such. In support of his request, he gave

figures on traffic volumes, both passenger cars and trucks, that crossed the ferry during 1953, amounting to approximately 140,000 vehicles. The Commission took the matter under advisement.

Messrs. Al L. Brown and M. James Gleason, Chairman and member respectively of the Board of County Commissioners of Multnomah County appeared before the Commission concerning construction of a ramp at the east end of the Ross Island Bridge in Portland to carry traffic from the bridge to McLoughlin Boulevard (US 99E). Mr. Gleason pointed out that traffic is becoming congested on this bridge, particularly in the evenings, due in large part to the slow-up necessitated by the circuitous movement of traffic which now turns south off the bridge, to continue south on McLoughlin Boulevard. He proposed that the County and the State cooperate on a 50-50 basis in construction of a ramp to facilitate traffic desiring to move south on McLoughlin Boulevard. Mr. Brown emphasized the growing acuteness of the situation and urged early action. The Engineer declared this project second in importance of all highway projects in the Portland area. Chairman Chandler stated that the Commission realizes that the present facilities at this location are inadequate and that the Commission will give the proposal its immediate attention.

Mr. Charles McLean, Grants Pass, Highway Director, Josephine County Chamber of Commerce, and Mr. C. A. Hubbard, Medford, representing the Highway Committee of the Jackson County Chamber of Commerce, came before the Commission and requested improvement of the Crater Lake Highway, particularly the Flounce Rock Section thereof between Prospect and Trail. Mr. Hubbard stated they have been informed that the Bureau of Reclamation's plans for a high dam on Rogue River have been dropped so that project no longer will affect the location of the highway. He emphasized the need for the highway improvement, pointing out that the group of southern Oregon counties has recommended this as the No. 2 project in a list that was presented to the Highway Interim Committee in 1948. He also asked for improvement of the Pacific Highway north of the junction of Central Avenue and Riverside Avenue in Medford, which, at present, is very rough. Chairman Chandler advised that the Commission, in session on the previous day, authorized a survey of the Flounce Rock Section of the Crater Lake Highway in which they are interested, and that it is planned to call bids for aerial survey work at the February meeting of the Commission.

The Commission discussed with the Right of Way Engineer the status of right of way acquisitions necessary for the February contract letting. The Right of Way Engineer advised that there should be no delays in awarding contracts on account of right of way difficulties unless perchance it be in connection with the Goshen-Divide project. Chairman Chandler and Commissioner Reynolds each expressed a dislike to delaying the contractors in the starting of their work. The Engineer replied that there has been very little complaint from contractors on that account and that a delay of a month or six weeks would ordinarily not be harmful to a contractor, particularly on the contracts awarded during the winter season, but that an investigation will be made and when it appears that a delay is necessary, the advertisement for the work will be deferred until the major portion, at least, of the right of way is optioned

Commissioner Reynolds brought up for discussion the disposition to be made of the Fred Meyer building on the T. H. Banfield Expressway in Portland. The Engineer stated that it is planned to call for bids in February for a contract to cut off that portion of the building that must be removed to accommodate the highway pro-

ject. Mr. Meyer, he stated, objects to the cutting off of the building as of March 1 and has asked that the work be deferred for at least a month. He pointed out that such a delay will interfere with the grading contractor's operations, and he recommended adherence to the original plan to start cutting off the building on March 1, 1954. The Commission approved the recommendation.

A delegation representing the Stayton City Council came before the Commission regarding improvement of Tenth Street in Stayton as a Special City Allotment Project. The following people were present: Mayor M. J. Martin, Councilmen A. J. Frank and G. W. Schachtsick, City Attorney Joseph M. Devers, and City Engineer John Nightingale. Mr. Devers, who acted as spokesman, introduced the members of the delegation and explained details with respect to their project. He advised that a new hospital has been constructed in the northeast part of Stayton and that Tenth Street was built as an access street thereto, however, the street was extended north to a connection with a county road (Fern Ridge Road) and a considerable volume of North Santiam Highway traffic is using it as a route of that highway rather than the designated route through the city, in order to avoid the several right-angle turns. He urged the Commission to authorize improvement of Tenth Street, and he gave as his feeling that they are entitled to it. Mr. Nightingale stated that the city has spent about $3,000 in opening Tenth Street. Mr. Frank estimated that three out of five vehicles on the North Santiam Highway use the Tenth Street route rather than the designated route. Mr. Martin stated that Stayton has never shared in the Emergency Fund, and it was his feeling that Tenth Street qualifies by reason of heavy traffic. Chairman Chandler explained that out of a large number of city projects requested, only about one-third were approved by the Commission after each was carefully analized, using the same formula. The analysis, he said, revealed that the project does not qualify for Special State Tax Street Funds so was rejected. He also said that available funds for this year have been allocated to specific projects so there is no chance for the improvement this year, but the Commission will give it further consideration in formulating the 1955 program.

The meeting recessed at noon and reconvened at 2:00 p. m. in the same room with the same persons present and participating.

A delegation representing the Clackamas County Court, the Oregon City Common Council, and the Oregon City Chamber of Commerce came before the Commission concerning improvement of 82d Avenue, route of the Cascade Secondary Highway between Oregon City and Portland. The following people composed the group: Messrs. Wallace R. Telford, Clackamas County Judge; Stan Skoko and Robert Jones, County Commissioners; Ed Carswell, Secretary, Oregon City Chamber of Commerce; Walter Buse, Paul Sauve and C. H. McGirr, members of the Chamber of Commerce; and Bob Wyrick, Merle Brown, D. G. Dunmire and Ray Dunmire, businessmen. Judge Telford was principal spokesman and introduced the members. He stated that he has inspected the route proposed by the State Highway Engineer and that such route has his personal approval and that of the County Court. He pointed out the hazardous condition caused by the narrow bridge at Parkplace and urged that the improvement be undertaken in the immediate future to facilitate the flow of traffic between Portland and Oregon City. Other members of the delegation emphasized the need for a new bridge at Parkplace and stated that their principal

concern is in selecting the best route for whatever improvement is made.

Judge Telford also brought up the matter of the proposed overpass of the Southern Pacific Railroad at Clackamas, and the proposed closure of one of the county roads that is involved (Market Road No. 16). He stated that he personally favors closure of the road, but the other two County Commissioners do not. Commissioner Skoko explained that he and Commissioner Jones feel that Market Road No. 16 should not be closed because there are possibilities of industrial development in the area which will require use of this road. He mentioned a possible expenditure of $12,000,000 in industrial plants. Commissioner Jones stated that he agrees with Mr. Skoko and that they will write the Commission more about the matter in a few days. The Commission deferred action on the matter.

Mrs. Kathryn Moore, Wolf Creek, Oregon, came before the Commission to urge a remedy for what she termed a bad drainage condition that exists at her place of business, and the re-opening of a point of access to her property on the Pacific Highway at Wolf Creek. She stated that access to her property has been blocked off with a fence which she wants removed. She also asked for improvement of drainage facilities so her property will not be flooded as in the past. Chairman Chandler stated that the Commission is quite familiar with the situation and will have the Engineer investigate the drainage problem. Concerning the matter of access, the Chairman pointed out that only one point of access was allowed the property in the original transaction for the right of way, and it now appears that conditions have not changed that demand an additional access. The Commission, he stated, has a definite policy in the granting of accesses to the Pacific Highway and other major highways, and cannot deviate from that policy without breaking it down. He repeated that it was definitely understood when the right of way was acquired that there would be only one access to the highway,and the Commission is not inclined to alter the arrangement now. Following Mrs. Moore's departure, Chairman Chandler suggested that it might be advisable to remove the fence and substitute posts. The Engineer was instructed to look into the matter.

A delegation from Astoria representing the Astoria Chamber of Commerce and the Clatsop County Central Labor Council appeared before the Commission to protest a proposed increase in toll rates for the Astoria-Megler Ferry. The following people composed the group: Messrs. Delbert Moore, President, Chamber of Commerce; Arthur Hildebrand, Director, Chamber of Commerce; J E. Flynn, member, Chamber of Commerce; Eli McConkey, Central Labor Council; and Walt Lofgren, Secretary, Central Labor Council. Mr. Flynn, who acted as spokesman, introduced the members of the delegation. He stated that they understand the Commission is thinking about increasing the ferry charges so want to be on record as opposed thereto because any increase will have a tendency to divert traffic to the detriment of business interests along the North Oregon Coast. There is a strong feeling, he stated, that the ferry at Astoria should be operated as a free ferry. Mr. Lofgren pointed out that an increase in ferry rates would affect adversely many workers in the area. He pointed out that five bridges along the Oregon Coast Highway have been constructed eliminating ferries and that no toll is charged for use of the bridges. He declared that a raise in rates is the penalizing of local people. Mr. Moore cited a decrease in traffic coming from Washington to trade in Astoria. A lot of these people, he said, now go to Longview and other Washington towns to do their shopping, and he gave as his feeling that a larger number would go there if the rates are increased.

He suggested that the rates should be decreased rather than increased. Commissioner McIver inquired if the delegation definitely favored a free ferry. Mr. Flynn replied that they do on the basis that no toll should be collected on a link in a major highway. Chairman Chandler pointed out that sometimes bridges are constructed on a toll basis, and tolls collected until the construction costs have been recovered when the toll is removed. The fees charged for operating the Astoria Ferry, he said, are not set to amortize the cost of the ferry, but are simply an attempt to pay the cost of operation. He added that a study of rates charged for comparable service in the Puget Sound area in the State of Washington reveals that even with the proposed increase in rates, the Astoria-Megler ferry rates will still be lower than those charged in Washington. He concluded the discussion by stating that the Commission is attempting to do what it considers is the best thing for the State of Oregon as a whole without favoring any particular community and that the Commission has taken no action as yet on the recommended increase in ferry rates.

Mr. Howard C. Merriam, Chairman, Road Committee of the Lane County Chamber of Commerce headed a group from Eugene which appeared before the Commission to urge approval of the "Q" Street route between Eugene and Springfield. Included in the group were Mr. William Tugman, Editor of the Eugene REGISTER GUARD; and Messrs. Kenneth Neilson and Ralph Peterson, County Commissioners. Mr. Merriam asked the Commission for a favorable decision on their previous proposition whereby Lane County will assume jurisdiction over the Fox Hollow State Secondary Highway if the Commission will take over and place on the highway system the "Q" Street route between Eugene and Springfield. He pointed out the large volume of traffic that highways carry in the area around Eugene and Springfield, and he urged adoption of the "Q" Street route now and acquisition of right of way which he said can be obtained presently at much less cost than later on. Mr. Tugman stated that this route has been favored for a number of years and that the great increase in traffic necessitates its early construction. Chairman Chandler advised that a survey of the proposed route is now under way, but it will take several months to complete it. As soon as the survey is completed and there has been time to analyze it, further action can then be taken.

Mr. Charles McLean of the Grants Pass Chamber of Commerce was present and asked the Commission to take some action with respect to construction of another bridge to replace the existing "Caveman Bridge" across the Rogue River on the Pacific Highway in Grants Pass. He emphasized the fact that the bridge carries a large volume of traffic, and he suggested that it would be in order to conduct a survey to determine the need for an additional facility. Chairman Chandler stated that a survey has been authorized in this area which will include the "Caveman Bridge" and that when the survey is completed, a more definite answer can be given. He pointed out, however, that there is no money presently available to finance the new bridge and that the future plan is to relocate the Pacific Highway so as to by-pass Grants Pass which will eliminate this bridge as a part of the highway.

A delegation representing the Westside Highway Association came before the Commission to request improvements to the Pacific Highway West

and the Amity-Dayton Secondary Highway. The following people were present: Messrs. Carl Francis, Dayton, State Representative; Aubrey H. Bond, Corvallis, County Commissioner; Clifford A. Elliot, Manager, Chamber of Commerce at McMinnville, George Cooper and Carnes Schulmerich, members of the Monmouth Chamber of Commerce and the Westside Highway Association; B. M. LeFevre, Vice-president, Westside Highway Association; Floyd Willert, Chairman, Westside Highway Association; and James Stanard, member, Westside Highway Association. Mr. Willert introduced the members of the delegation. Mr. Bond expressed his appreciation for improvements made north of Corvallis and Monmouth and called attention to the need for a new bridge at Dayton which, he said, is their No. 1 project. He also asked for widening of narrow sections north of Rickreall and south of Corvallis. Mr. LeFevre urged elimination of the railroad underpass near Newberg, improvement of the bridge south of Amity, and construction of a new bridge at Rickreall. He also requested improvement at Holmes Gap and the widening of narrow bridges and pavement at Newberg where, he said, a bottleneck condition exists. Mr. Stanard endorsed the requests made by Mr. Bond and Mr. LeFevre, and in addition urged the elimination of several sharp curves on the Amity-Dayton Secondary Highway and the removal of the "dip" on US 99W at Whiteson. Mr. Willert called attention to a transformer located south of Dayton, which with the surrounding fence, blocks the view of the highway and has been the cause of fatal accidents. He urged corrective measures to eliminate this hazard. He mentioned that their objective is improvement of the entire Pacific Highway West. Chairman Chandler stated that an intensive study is now being conducted coveringthe entire situation in the McMinnville-Dayton area and no conclusions can be drawn until the study is completed; however, it is likely that replacement of the bridge north of Dayton will be the first project undertaken.

The Commission discussed with the Engineer the bids received during the morning session for highway construction, and at 4:00 p.m. Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows; the Commission's decisions being by unanimous vote:

"Grading, surfacing, and paving 0.19 mile of highway roadbed and construction of a reinforced concrete bridge on the Pacific Highway West at Monroe, Benton County: The contract has been awarded to the low bidder, Murray and Stanford, Bend, at their bid price of $83,462.00.

"Paving and furnishing crushed stone in stockpiles on Gnat Creek-Bradley Park Section of the Columbia River Highway in Clatsop County: Jed Wilson, Seaside, submitted the low bid on this project and has been awarded the contract at his bid prive od $112,731.50.

"Grading and paving Sixes Junction Section of the Sixes-Dry Creek County Road at Sixes in Curry County: The Commission elects to accept the bid of Fred H. Slate Company, Oregon Ltd., in the sum of $26,122.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the Bureau of Public Roads and Curry County is received and the sum of $5,900.00 is deposited by the County.

"Construction of three concrete structures on Goshen-Coast Fork, Willamette River Unit of Pacific Highway in Lane County: The low bidder, R. H. Jones, Hillsboro,

has been awarded the contract at his bid price of $97,965.20.

"Grading and paving and furnishing of crushed stone in stockpile on Bear Creek-Scotts Point Section of the Siletz Secondary Highway in Lincoln County. The Commission has awarded the contract to Calkins Crushing Company, Oceanlake, the low bidder, at their bid price of $160,218.00

"Construction of metal guard rail on North Santiam Highway between Niagara and Detroit in Marion County: The Commission has awarded the contract to the low bidder, R & M Construction Company, Central Point, using treated wood posts, at their bid price of $19,422.00.

"Construction of Chemawa Overcrossing of Southern Pacific Company tracks on the Willamette River-Hayesville Section of the Portland-Salem Expressway in Marion County: The Commission elects to accept the bid of Babler Brothers, Inc. in the sum of $107,160.00, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Lexington Rock Production Project on the Heppner and Lexington-Echo Highways in Morrow and Gilliam Counties and Hermiston Rock Production Project on four state highways near Hermiston, Stanfield, and Echo in Umatilla County: The Commission has awarded the contracts to Rogers Construction Company, Portland, who submitted the low combination bid on these jobs in the total amount of $68,220.00.

"Pavement widening and grading and paving county road connections on Sylvan (Humphrey Boulevard Connection) Section of the Sunset Highway in Multnomah County: The low bidder, Logan, Taylor & Company, Portland, has been awarded the contract at their bid price of $66,871.50.

"Construction of the Pendleton Office Building in Umatilla County: The contract has been awarded to McCormack Construction Company, Pendleton, on the basis of their low bid in the amount of $25,000.00."

The Commission approved a request from the Chief Counsel for authority to condemn a parcel of property belonging to E. R. Wright consisting of approximately 13 acres on the Dayville-Mt. Vernon Section of the John Day Highway in Grant County. He explained that the property is needed as a gravel pit.

There being no further business to come before the Commission, the meeting adjourned at 4:10 p.m.

EXHIBITS "A" through "O"

Minutes of

January 21 and 22, 1954

EXHIBIT "A"

Minutes of January 21 and 22, 1954

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW THEREFORE BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows.

Minutes of January 21 and 22, 1954

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the first six month period of 1952 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Port Orford.....$2,115.93
Umatilla..... 2,772.06

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 21st day of January, 1954.

EXHIBIT "C"

Minutes of January 21 and 22, 1954

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land along and adjacent to the Pacific Highway described as follows:

A parcel of land lying in the W½NE¼ of Section 22, Twp. 36 S., R. 3 W., W.M., Jackson County, Oregon, and being a portion of the following described property:

That tract of land which was conveyed by that certain deed to State of Oregon, by and through its State Highway Commission, recorded in Book 376, Page 497 of Jackson County Record of Deeds, the said parcel being that portion of said property lying East of the right of way of a relocated County Road which County Road right of way is a strip of land of variable width, 50 feet wide on the Westerly side and variable in width on the Easterly side of the relocated center line of said County Road which relocated center line is described as follows:

Beginning at Engineer's center line Station 10+00, said Station being 1392.5 feet South and 352.4 feet East of the Northwest corner of Donation Land Claim number 37 in said Township and Range; thence North 19° 07' East 100.81 feet; thence on a spiral curve left (the long chord of which bears North 17° 47' East) 200 feet; thence on a 1432.39 foot radius curve left (the long chord of which bears North 8° 52' East) 312.5 feet; thence on a spiral curve left (the long chord of which bears North 0° 03' West) 200 feet; thence North 1° 23' West 586.69 feet to Station 24+00, said center line intersecting the South and North lines of said property approximately at Stations 14+00 and 23+52 respectively.

The widths of the strip of land above referred to are as follows:

Station to Station	Width on West side of center line	Width on East side of center line
So. line of prop. to 17+00	50 ft.	115 ft. to 50 ft. (a straight line)
17+00 to 23+00	50 ft.	50 ft.
23+00 to 24+00	50 ft.	50 ft. to 70 ft.

Except that part of said property which lies North of a line which begins at Station 24+00 on said County Road center line and runs thence North 88° 37' East 70 feet and thence North 63° 35' East 145 feet more or less to the East line of said property.

EXHIBIT "C" (cont)

The parcel of land to which this description applies contains 3.04 acres, more or less.

Provided, however, there is reserved to the grantor, and waived and relinquished by the grantee _____, all right of access between the above described real property and the right of way of the Rocky Point-Blackwell Hill Section of the Pacific Highway abutting on the Southerly side of said parcel, which public highway is further identified as State Highway No. 1. This reservation and exception shall run with the land and shall not be subject to modification, cancellation or destruction by adverse user or estoppel, no matter how long continued. Nothing in this conveyance contained shall be construed as conveying any estate, right, title, or interest in and to the public highway right of way or any rights of reversion therein or thereto.

WHEREAS, after consideration, the Commission hereby finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $2750.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et Seq.

Oral bids will be received upon the property at 2:00 P.M. standard time on March the 15th of 1954.

The results and tabulations of the bids received shall be reported to the Commission at its next succeeding regular or special meeting.

The published notice for the receiving of bids shall fix a minimum price of $2750 for which the propery shall be sold and shall further provide that the sale shall be made for cash.

EXHIBIT "D"

Minutes of January 21 and 22, 1954

RESOLUTION

WHEREAS, ORS 366.800 provides that

"There shall be and hereby are appropriated out of the highway fund annually such sums of money as will equal 10 percent of all moneys credited to the highway fund by the State Treasurer between January 1 and December 31 of each year and which have accrued from funds transferred to the highway fund by the State Treasurer under ORS 319.410, 481.540, 767.635 and from fines and penalties collected for violations of the motor vehicle and transportation laws. The appropriation shall be distributed among the several cities as provided in ORS 366.785 to 366.820."

AND, WHEREAS, ORS 366.805 provides:

"The appropriation specified in ORS 366.800 shall be allocated to the cities as follows:

(1) The sum of $250,000 shall be withdrawn from the appropriation each year and set up in a separate account to be administered by the Commission.

(2) Such account shall be spent each year by the commission upon streets not a part of the state highway system within cities which are receiving excessive wear through sudden increases in population in the area or heavy and unusual industrial traffic.

(3) The commission shall determine the distribution of the expenditures after considering applications made to it therefor from the cities.

(4) The balance remaining in the appropriation after the withdrawal of the $250,000 shall be distributed to all the cities.

(5) Each city shall receive such share of the balance as its population bears to the total population of the cities."

AND, WHEREAS, ORS 366.810 provides that:

"Funds accrued and payable to cities under ORS 366.785 to 366.820 shall be remitted semiannually by the Secretary of State to the financial officer of each city. The funds appropriated shall be apportioned on a semiannual basis immediately following June 30 and December 31 of each year by the commission, which shall certify the apportionment to the Secretary of State. Upon receipt of such certificate the Secretary of State shall issue his warrants therefore payable to the cities in the amounts set out."

(cont.)

EXHIBIT "D" (cont)

WHEREAS, the funds or moneys which have been by the State Treasurer credited to the state highway fund during the period of July 1 to December 31, inclusive, of the year 1953, and which have accrued from the sources named herein, produced the following amounts:

Funds resulting under the provisions of ORS 481.540 (motor vehicle registration and operators license fees) total	$ 4,402,190.66
Funds resulting under the provisions of ORS 319.410 (gasoline tax) total	17,619,480.10
Funds resulting under the provisions of ORS 767.635 (motor carrier fees) total	5,158,637.96
Funds resulting from fines and penalties collected for violations of the motor vehicle and transportation laws total	214,304.22
	$27,394,612.94

AND, WHEREAS, the statutory ten percent of said total produces for allocation and distribution by the Highway Commission to the benefited cities and towns a total of $2,739,461.29, from which sum there is to be deducted one-half of the sum of $250,000, or $125,000, thus leaving for allocation and distribution for the period July 1 to December 31, 1953, the sum of $2,614,461.29, and

WHEREAS, by applying the factors of allocation or distribution provided for in ORS 366.800 to 366.810, the State Highway Commission has determined upon an apportionment of said balance among the cities of the state as shown in the tabulation given below;

NOW, THEREFORE, be it and it hereby is resolved and ordered by this Commission as follows:

1. The Commission does hereby find, declare and order that the funds made available for allocation and distribution to the several cities of the State of Oregon pursuant to law, are hereby allocated and appropriated to the cities and/or towns named below in the amounts set opposite the names of the respective cities:

Minutes of January 21 and 22, 1954

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contract and that said jobs are now ready for acceptance:

"Contract No. 3462, with Tom Lillebo, for the construction of Coos River Bridge on the Coos River Highway in Coos County, completed September 11, 1953.

"Contract No. 3747, with H. J. and H. W. Miller, for grading and paving on the Lostine River Bridge Section of the Wallowa Lake Highway in Wallowa County, completed December 14, 1953.

"Contract No. 3778, with Warren Northwest, Inc., for paving on the West Approaches to Salem Bridges on the Salem-Dallas Highway in Polk County, completed December 2, 1953.

"Contract No. 3806, with Acme Construction Company, for grading and paving on the County Farm-Ashland Section of the Pacific Highway in Jackson County, completed November 18, 1953.

"Contract No. 3813, with Eric Enquist, covering 122d Avenue Overcrossing on the T. H. Banfield Expressway in Multnomah County, completed December 31, 1953.

"Contract No. 3831, with R. E. Meade & Company, covering four structures on the Anlauf-Elkhead Road Section of the Pacific Highway in Douglas County, completed December 2, 1953.

"Contract No. 3832, with R. E. Meade & Company, covering three structures on the Divide-Rice Hill Section of the Pacific Highway in Douglas County, completed December 22, 1953.

"Contract No. 3843, with R. H. Sussex, for furnishing crushed materials in stockpiles on the Nye Junction-Beach Creek Section of the Pendleton-John Day Highway in Umatilla and Grant Counties, completed December 22, 1953.

"Contract No. 3858, with R. H. Sussex, for rock surfacing on the Poker Creek-Sumpter Section of the Sumpter Valley Highway in Baker County, completed December 8, 1953.

"Contract No. 3886, with Loree Building Service for constructing Richland Maintenance Building in Baker County, completed November 29,

EXHIBIT "E" (cont)

"Contract No. 3932, with C. J. Eldon, for constructing Mill Creek Bridge on the Alsea Highway in Benton County, completed December 22, 1953.

"Contract No. 3948, with The Central Heating Company , Oreg. Ltd. and F. L. Somers, for constructing three bridges on the Thompson Creek Road in Jackson County, completed December 16, 1953.

"Contract No. 3973, with R. H. Jones, for constructing maintenance building at Klamath Falls, completed December 15, 1953.

"Contract No. 3974, with Knight Pearcy Nursery and Parkrose Nursery, for planting on the Tillamook Street-Steel Bridge Section of the Pacific Highway West in Multnomah County, completed December 22, 1953.

"Contract No. 3978, with La Grande Concrete Pipe Company, grading and paving on the Union (Dearborn Street) City Street Section in Union County, completed December 2, 1953.

"Contract No. 3982, with M. L. O'Neil & Son, for grading and surfacing on the Apiary Section of the Rainier-Apiary County Road in Columbia County, completed October 30, 1953.

"Contract No. 3999,with Rogers Construction, Inc., for furnishing crushed materials in stockpiles on the Powell Butte-Ochoco Reservoir Section of the Ochoco Highway in Crook County, completed December 5, 1953.

"Contract No. 4000, with R. H. Jones, for constructing maintenance building at Sisters in Deschutes County, completed December 18, 1953.

"Contract No. 4011, with R. H. Jones, for constructing Umatilla River Bridge on the Oregon-Washington Highway in Umatilla County, completed December 31, 1953.

"Contract No. 4038, with Mark Smith & Company, for Tree Removal and Trimming Project on the Pacific Highway East in Clackamas County, completed December 8, 1953."

THEREFORE BE IT RESOLVED that the work covered by State highway contracts for the construction of said State highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

EXHIBIT "F"

Minutes of January 21 and 22, 1954

RESOLUTION

WHEREAS, pursuant to ORS 366.215 the Highway Commission is authorized to select, establish, adopt, lay out, locate, alter, relocate, change and realign primary and secondary state highways; and

WHEREAS, pursuant to ORS 373.010 the Highway Commission is authorized, whenever the route of any state highway passes through the corporate limits of any city, to select and designate the streets of the city over which the state highway shall be routed.

WHEREAS, pursuant to such authority the Highway Commission deems it necessary and in the public interest to extend the route of that certain secondary state highway heretofore designated Northeast Portland Secondary Highway #123 in the manner hereinafter set forth, by the selection and designation of those certain streets or parts thereof hereinafter named, as a part of said secondary highway.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

Pursuant to the authority and powers vested in it by ORS 366.215 and 373.010 the Highway Commission does hereby select, establish, adopt and designate NE and N Lombard Street from NE Union Avenue to N. Columbia Boulevard, N. Columbia Boulevard from N. Lombard Street to N. Jersey Street, N. Jersey Street from N. Columbia Boulevard to N. Philadelphia Street, N. Philadelphia Street from North Jersey Street to the St. Johns Bridge, the north and south connections of the west approach to the St. Johns Bridge from the St. Johns Bridge to the Columbia River Highway as a part of the Northeast Portland Secondary Highway #123.

IT IS FURTHER ORDERED that this resolution be entered in the minutes and records of the Commission as of the 21st day of January, 1954 as Secondary Highway Designation Resolution File No. 24.

EXHIBIT "G-1"

Minutes of January 21 and 22, 1954

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483. 106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: WOODBURN-ESTACADA SECONDARY HIGHWAY

Highway number 161 Route number ORE 211

M. P. 21. 05 (1000' west of Wall Street in Colton) to M. P. 21. 50 (1250' east of Wall Street in Colton) 35 miles per hour;

EXCEPT THAT BETWEEN

M. P. 21. 19 (300' west of Wall Street) and M. P. 21. 31 (300' east of Wall Street) the established maximum speed shall be 20 miles per hour during school recess or while children are going to or leaving school during opening or closing hours.

EXHIBIT "G-1" (cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 129 be entered in the minutes and records of the Commission as of the 21st day of January, 1954.

EXHIBIT "G-2"

Minutes of January 21 and 22, 1954

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: THE DALLES-CALIFORNIA HIGHWAY

Highway number 4 Route number US 97

Location of Termini			Established Speed
M. P. 188.83 (0.10 mile north of north end of concrete curbs in Crescent)	to M. P.	189.32 (south end of concrete curbs in Crescent)	35 M. P. H.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 132 be entered in the minutes and records of the Commission as of the 21st day of January, 1954.

EXHIBIT "H-1"

Minutes of January 21 and 22, 1954

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 caused an engineering and traffic investigation to be made with respect to that certain section of the Pacific Highway East (US 99E) which begins at M.P. 46.11, a point 300 feet north of the Totem Pole intersection, and ends at M.P. 48.87, the north city limits of the City of Salem, which section encompasses the Hayesville School; and

WHEREAS, based upon the data, facts, and information obtained in connection with said investigation, the Commission did, on the 29th day of October, 1953, adopt a resolution specifying a maximum speed for traffic along said section of highway which was less than the fixed and designated speeds prescribed by the provisions of ORS 483.104; and

WHEREAS, that portion of the said highway extending from M.P. 47.54 which is approximately 300 feet north of the Hayesville School, to M.P. 47.66, approximately 300 feet south of said school, lies within the designated terminals of the reduced speed zone previously established by the adoption of said resolution; and

WHEREAS, the indicated speeds as established, though less than the fixed and designated speeds prescribed by the provisions of ORS 483.104, are in conflict with the blanket statutory law prescribing 20 miles per hour for school crossings or school zones during school hours, said indicated speeds being at a higher rate of speed than that permissible in such areas; and

WHEREAS, it appears to be advisable that where school zones fall within the section zoned for a higher speed than the prescribed 20-mile per hour speed restriction, zoning action by the Commission shall be made to conform to the normally prescribed 20 miles per hour by setting off such unit of zone in immediate proximity to the school crossing or school area.

THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, the facts being as hereinabove stated and as determined by subsequent investigation, that the reduced speed heretofore ordered by its said resolution of October 29, 1953, insofar as it pertains to that portion of the said Pacific Highway East between M.P. 46.11 and M.P. 48.87 is in conflict with the existing blanket statutory law governing speed zones in school areas, and the Commission does hereby vacate and rescind the speed restriction for said section of said Pacific Highway East as contained in said resolution; and

BE IT FURTHER ORDERED that hereafter the maximum speed for traffic along the Pacific Highway East between M.P. 46.11 and M.P. 48.87

shall be the maximum speed fixed and designated by law; and

BE IT FURTHER ORDERED that this Speed Limit resolution No. 133 be entered in the minutes and records of this Commission as of the 21st day of January, 1954.

EXHIBIT "H-2"

Minutes of January 21 and 22, 1954

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and,

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: PACIFIC HIGHWAY EAST

Highway number: 1E Route number: US 99E

M. P. 46.11 (300' north of Totem Pole intersection north of Salem) to M. P. 48.87 (north city limits of Salem) 45 MILES PER HOUR;

EXCEPT THAT BETWEEN

M. P. 47.54 (300' north of Hayesville School) and M. P. 47.66 (300' south of Hayesville School) the established maximum speed shall be 20 MILES PER HOUR during school recess or while children are going to or leaving school during opening or closing hours.

EXHIBIT "H-2" (cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 134 be entered in the minutes and records of the Commission as of the 21st day of January, 1954.

EXHIBIT "I-1"

Minutes of January 21 and 22, 1954

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 caused an engineering and traffic investigation to be made with respect to that certain section of the Oregon Coast Highway No. 9 (US 101) which begins at M.P. 256.70, the south city limits of Coos Bay, and M.P. 257.24, a point south of the Bunker Hill School, which section encompasses the Bunker Hill School; and

WHEREAS, based upon the data, facts, and information obtained in connection with said investigation, the Commission did, on the 18th day of May, 1953, adopt a resolution specifying a maximum speed for traffic along said section of highway which was less than the fixed and designated speeds prescribed by the provisions of ORS 483.104; and

WHEREAS, that portion of the said highway extending from M.P. 257.00, just north of Bunker Hill School, to M.P. 257.24, the south entrance to the Bunker Hill School, lies within the designated terminals of the reduced speed zone previously established by the adoption of said resolution; and

WHEREAS, the indicated speeds as established, though less than the fixed and designated speeds prescribed by the provisions of ORS 483.104, are in conflict with the blanket statutory law prescribing 20 miles per hour for school crossings or school zones during school hours, said indicated speeds being at a higher rate of speed than that permissible in such areas; and

WHEREAS, it appears to be advisable that where school zones fall within the section zoned for a higher speed than the prescribed 20-mile per hour speed restriction, zoning action by the Commission shall be made to conform to the normally prescribed 20 miles per hour by setting off such unit of zone in immediate proximity to the school crossing or school area.

THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, the facts being as hereinabove stated and as determined by subsequent investigation, that the reduced speed heretofore ordered by its said resolution of May 18, 1953, insofar as it pertains to that portion of the said Oregon Coast Highway between M.P. 256.70 and M.P. 257.24 is in conflict with the existing blanket statutory law governing speed zones in school areas, and the Commission does hereby vacate and rescind the speed restriction for said section of said Oregon Coast Highway as contained in said resolution; and

BE IT FURTHER ORDERED that hereafter the maximum speed for traffic along the Oregon Coast Highway between M.P. 256.70 and M.P.

EXHIBIT "I-1" (cont)

257.24 shall be the maximum speed fixed and designated by law; and

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 135 be entered in the minutes and records of this Commission as of the 21st day of January, 1954.

EXHIBIT "I-2"

Minutes of January 21 and 22, 1954

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: OREGON COAST HIGHWAY

Highway number: 9 Route number: US 101

M. P. 256.70 (south city limits of Coos Bay) to M. P. 257.24 (South entrance to Bunker Hill School 40 MILES PER HOUR

EXCEPT THAT BETWEEN

M. P. 257.00 (just north of Bunker Hill School) to M. P. 257.24 (south entrance to Bunker Hill School) the established maximum speed shall be 20 MILES PER HOUR during school recess or while children are going to or leaving school during opening or closing hours.

EXHIBIT "I-2" (cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 136 be entered in the minutes and records of the Commission as of the 21st day of January, 1954.

EXHIBIT "J-1"

Minutes of January 21 and 22, 1954

RESOLUTION

WHEREAS, the Oregon Coast Highway is one of the major state primary highways and is likewise a Federal Aid highway, which highway throughout its entire length carries a large volume of traffic: and

WHEREAS, field investigation discloses that the parking of vehicles on the west side of the highway just north of the school crossing at the Bunker Hill School in Coos County, produces a traffic hazard, and

WHEREAS, the parking of said vehicles on the west side of said highway just north of the said school crossing tends to restrict the sight-distance both for southbound motorists and for children wishing to cross the highway to such an extent that, in the opinion of the Highway Commission, a hazard is created not only to through traffic but to the owners and drivers of said parked vehicles and to the children attending said school; and

WHEREAS, in the opinion of this Commission, public travel and public safety require that the use of the west side of the highway within said area for the parking of vehicles should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports, and recommendations by members of its staff, that the parking of vehicles along the west side of the Oregon Coast Highway just north of the school crossing at the Bunker Hill School between Engineer's Station 61+00 and Engineer's Station 63+00 creates a hazard not only to through traffic but to persons owning and using said parked vehicles and to school children when crossing the highway.

2. That in the opinion of this Commission the right of way of said highway at said location is not of sufficient width to permit parking of vehicles and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public and pedestrians.

3. That the Commission does further find and declare that the parking of vehicles for long periods of time on the west side of the right of way of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution

and the action of the Commission as herein declared, on which signs should be printed in plain letters the words "NO PARKING ON HIGHWAY SHOULDERS".

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police.

6. That this No Parking Resolution No. 109 be entered in the minutes and records of the State Highway Commission as of the 21st day of January, 1954.

EXHIBIT "J-2"

Minutes of January 21 and 22, 1954

RESOLUTION

WHEREAS, the Tualatin Valley Highway, State Highway No. 29, is one of the major state primary highways and is likewise a Federal Aid highway, which highway throughout its entire length carries a large volume of traffic; and

WHEREAS, field investigation discloses that certain encroachments upon the highway right of way and the parking of vehicles on the highway shoulders on both sides of said highway just south of the south city limits of Forest Grove in Washington County, produces a traffic hazard; and

WHEREAS, it appears that there is a mill adjacent to the highway in said section and that not only do trucks waiting to unload at the mill and mill employees park their vehicles on the highway shoulders, but also the lumber company uses the highway right of way, and at times the highway shoulders, for storage of lumber; and

WHEREAS, the shoulders of said highway just south of the south city limits of Forest Grove are of insufficient width to accommodate shoulder parking, thereby restricting the necessary sight-distance and maneuvering area to such an extent as to create, in the opinion of the Highway Commission, a hazard not only to vehicles traversing the highway but also to the owners and drivers of said parked vehicles; and

WHEREAS, in the opinion of this Commission, public travel and public safety require that the use of the shoulders on both sides of the highway within said area for the parking of vehicles should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports, and recommendations by members of its staff, that the parking of vehicles on either shoulder of that section of the Tualatin Valley Highway, No. 29, between the south city limits of Forest Grove (M.P. 19.68), Engineer's Station 0+00, and Gales Creek (M.P. 19.90), Engineer's Station 11+56, creates a hazard not only to highway traffic but to persons owning and using said parked vehicles.

2. That in the opinion of this Commission the right of way of said highway at said location is not of sufficient width to permit parking of vehicles and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

EXHIBIT "J-2" (cont)

3. That the Commission does further find and declare that the parking of vehicles for long periods of time on the right of way of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs on each side of said highway at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs should be printed in plain letters the words "NO PARKING ON HIGHWAY SHOULDERS".

5. That a certified copy of this resolution be sent to the Larkins Lumber Company and also the Superintendent of the Department of State Police.

6. That this No Parking resolution No. 110 be entered in the minutes and records of the State Highway Commission as of the 21st day of January, 1954.

EXHIBIT "K"

Minutes of January 21 and 22, 1954

RESOLUTION

WHEREAS, by the provisions of O. C. L. A., 115-351 as amended by Chapter 428, Oregon Laws 1941, the State Highway Commission with respect to state highways, is authorized to designate main-traveled or through highways or sections thereof by placing at the entrances thereto from intersecting highways signs or markers notifying drivers of vehicles to stop before entering or crossing such designated highway or highways, and the State Highway Commission is further authorized to designate particular intersections and place such stop signs or markers at one or more entrances thereto; and

WHEREAS, the Commission heretofore on the 21st day of September, 1949, adopted a resolution by which certain state highways and sections thereof were declared to be and were designated as main or through highways, and the State Highway Engineer was instructed to properly mark the same; and

WHEREAS, by said resolution of September 21, 1949, the Highway Commission declared the Silver Creek Falls Highway, including the west and south legs of the intersection of State Street extended and Lancaster Drive east of Salem, to be a through highway and stipulated that traffic on the said Silver Creek Falls Highway, State Highway No. 163, be given right of way; and

WHEREAS, since adoption of said resolution of September 21, 1949 by the Commission, a traffic engineering investigation has been made which reveals that conditions have changed at the junction of State Street extended and Lancaster Drive (Silver Creek Falls Highway) and that the traffic volume has materially increased on the north and east legs of the said intersection; and

WHEREAS, based upon the results of said investigation, the State Highway Engineer has recommended to this Commission a modification of the order contained in the aforementioned resolution of September 21, 1949.

NOW, THEREFORE, based upon the results of said traffic engineering investigation made by its employees and upon the recommendation of the State Highway Engineer, this Commission, all members being present and voting affirmatively, does hereby find, declare, resolve, and order as follows:

1. That so much of said resolution of September 21, 1949 granting right of way to traffic going either direction on the west and south legs of the intersection of State Street extended and Lancaster Drive east of

Salem (Silver Creek Falls Highway, State Highway No. 163) be and the same hereby is repealed, but in all other respects the provisions of said resolution of September 21, 1949 are hereby reaffirmed and shall remain in full force and effect.

2. That hereafter all vehicles traveling northbound on the Silver Creek Falls Highway (Lancaster Drive) shall come to a stop before it makes its left turn from south to west, and traffic eastbound on the Silver Creek Falls Highway (State Street) shall come to a stop before entering the intersection, except that southbound traffic that enters the intersection from the west may move at all times without stopping.

3. That the State Highway Engineer be and he hereby is instructed to place or cause to be placed and thereafter maintain the necessary signs and markers to accomplish the traffic control and regulation contemplated by this resolution. Such signs as may be erected at said intersections shall conform to the types and standards heretofore approved by the Commission.

4. That this Throughways and Stop Signs Resolution No. 20 shall be entered in the minutes and records of the Commission as of the 21st day of January, 1954, and a duly certified copy thereof delivered to the U.S. Bureau of Public Roads and a like copy to each of the following: Marion County Court, Marion County Clerk, and Superintendent of the Department of State Police, for their information.

EXHIBIT "L-1"

Minutes of January 21 and 22, 1954

RESOLUTION

WHEREAS, the section of the Oregon Coast Highway, State Primary No. 9, located in Tillamook County which is known as the Bay City-Kilchis River Section the southerly terminus of which is at Highway Engineer's Station 119+50 on the relocated highway and the northerly terminus of which is at Highway Engineer's Station 241+51.08 on the relocated highway, was opened to public travel on October 30, 1953.

WHEREAS, as a consequence of the relocation of said section of highway, a portion or unit of the old right of way has been eliminated from the boundaries of the relocated highway and is no longer needed for state highway purposes; and

WHEREAS, Tillamook County and the Highway Commission entered into an agreement under date of October 12, 1951, relating to the disposition to be made of the eliminated portion or unit; and

WHEREAS, the said agreement provided that after the said relocated section was completed and opened to public travel the eliminated portion or unit, therein and herein referred to as Unit "A", would be abandoned as part of the said highway and would be maintained thereafter by Tillamook County as a county road under the jurisdiction and control of said county; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portion or unit of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the portion or unit of the old right of way which by reason of the relocation of the said highway is no longer within the boundaries of the new right of way and which is identified herein as Unit "A" is shown colored in red on the map attached hereto, which is marked Exhibit "A"and by this reference made a part hereof. The location of Unit "A" is more particularly described as follows:

Unit "A"

Beginning at State Highway Engineer's Station 128+30 of the relocated Oregon Coast Highway in the southeast quarter of the southeast quarter ($SE\frac{1}{4}$-$SE\frac{1}{4}$) of Section 12, Township 1 South, Range 10 West; thence northerly and westerly via the former route of the Oregon Coast Highway to State Highway Engineer's Station 238+20 of the relocated Oregon Coast Highway in the northeast quarter of the southwest quarter ($NE\frac{1}{4}$-$SW\frac{1}{4}$) of Section 2, Township 1 South, Range 10 West, W. M.

EXHIBIT "L-1" (cont)

2. That, pursuant to the aforesaid agreement, Unit "A" is hereby duly abandoned as a part of the Oregon Coast Highway, State Primary Highway No. 9, to Tillamook County, and that all right, title and interest which the State has in the right of way of Unit "A" hereby passes to and vests in the said County, and shall hereafter be maintained by said County as a county road.

3. That the area shown colored in green on the said Exhibit "A" includes right of way acquired for the said relocated section of highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with the area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for right of way and other highway purposes and uses. Therefore the Commission does hereby declare and order that possession of and title (or other such interest as the State may have) to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by the State. *

4. That this Abandonment and Retention Resolution No. 246 shall be entered in the minutes and records of the Commission on this 21st day of January, 1954, and the Secretary is directed to mail a duly certified copy thereof to the County Court of Tillamook County.

---

*FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 246 under the heading "Abandonment and Retention Resolutions" and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L-2"

Minutes of January 21 and 22, 1954

RESOLUTION

WHEREAS, the section of the Oregon Coast Highway, State Primary Highway No. 9, located in Douglas County, which is known as the Reedsport-Winchester Bay Section, the easterly terminus of which is at Highway Engineer's Station 507+59.46 on the relocated highway and the westerly terminus of which is at Highway Engineer's Station 192+00 on the relocated highway, was opened to public travel on October 14, 1953, and

WHEREAS, as a consequence of the relocation of said section of highway, a portion or unit of the old right of way has been eliminated from the boundaries of the relocated highway and is no longer needed for state highway purposes, and

WHEREAS, Douglas County and the Highway Commission entered into an agreement under date of November 8, 1951, relating to the disposition to be made of the eliminated portion or unit, and

WHEREAS, the said agreement provided that after the said relocated section was completed and opened to public travel, the eliminated portion or unit, therein and herein referred to as Unit "A", would be abandoned as part of the said highway and would be maintained thereafter by Douglas County as a county road under the jurisdiction and control of said county, and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portion or unit of the right of way of said highway affected by reason of said relocation,

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the portion or unit of the old right of way which by reason of the relocation of the said highway is no longer within the boundaries of the new right of way and which is identified herein as Unit "A" is shown colored in red on the map attached hereto, which is marked Exhibit "A" and by this reference made a part hereof. The location of Unit "A" is more particularly described as follows:

Unit "A"

Beginning at State Highway Engineer's Station 26+50 of the relocated Oregon Coast Highway in the northeast quarter of the northeast quarter ($NE\frac{1}{4}NE\frac{1}{4}$) of Section 4, Township 22 South, Range 12 West, W.M.; thence southwesterly via the former route of the Oregon Coast Highway to State Highway Engineer's Station 417+60

EXHIBIT "L-2" (cont)

of the present Oregon Coast Highway in the southeast quarter of the northwest quarter ($SE\frac{1}{4}NW\frac{1}{4}$) of Section 4, Township 22 South, Range 12 West, W. M.*

2. That, pursuant to the aforesaid agreement, Unit "A" is hereby duly abandoned as a part of the Oregon Coast Highway, State Primary Highway No. 9, to Douglas County, and that all right, title and interest which the State has in the right of way of Unit "A" hereby passes to and vests in the said County and shall be maintained hereafter as a county road under the jurisdiction and control of said County.

3. That the area shown colored in green on the said Exhibit "A" includes right of way acquired for the said relocated section of highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with the area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for right of way and other highway purposes and uses. Therefore the Commission does hereby declare and order that possession of and title (or other such interest as the State may have) to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by the State.*

4. That this Abandonment and Retention Resolution No. 244 shall be entered in the minutes and records of the Commission on this 21st day of January, 1954, and the Secretary is directed to mail a duly certified copy thereof to the County Court of Douglas County.

---

*FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 244 under the heading "Abandonment and Retention Resolutions" and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L-3"

Minutes of January 21 and 22, 1954

RESOLUTION

WHEREAS, the section of the Pacific Highway, State Primary Highway No. 1, located in Jackson County and known as the Rock Point-Blackwell Hill Section, the westerly terminus of which is at Highway Engineer's Station 7+00 on the relocated highway and the easterly terminus of which is at Highway Engineer's Station 254+00 on the relocated highway, was opened to public travel on September 30, 1953.

WHEREAS, as a consequence of the relocation of said section of highway, portions or units of the old right of way have been eliminated from the boundaries of the said relocated highway; and

WHEREAS, Jackson County and the Highway Commission entered into an agreement under date of January 15, 1954, relating to the disposition to be made of one of the eliminated portions or units; and

WHEREAS, the said agreement provided that the eliminated portion or unit, therein and herein referred to as Unit "C", would be abandoned as part of the said highway, and would be maintained thereafter by Jackson County as a county road under the jurisdiction and control of the said county; and

WHEREAS, the eliminated portions or units herein referred to as Unit "A" and Unit "B" shall remain under the jurisdiction and control of the State in the manner hereinafter designated.
